Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977; pursuant to paragraphs 7(b) and 8(a) of the Bilateral Cotton Textile Agreement of January 4 and 9, 1978, between the Governments of the United States and Pakistan; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed, effective on October 25, 1978, to increase the 12-month level of restraint established for cotton textile products in Category 363 to 5,687,000 numbers.[2]

The actions taken with respect to the Government of Pakistan and with respect to imports of cotton textile products from Pakistan have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

ROBERT E. SHEPHERD,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Domestic Business Development.

[FR Doc. 78-30080 Filed 10-24-78; 8:45 am]

[1] The term "adjustment" refers to those provisions of the Bilateral Cotton Textile Agreement of January 4 and 9, 1978, between the Governments of the United States and Pakistan, which provide, in part, that: (1) within the aggregate and applicable group limits of the agreement, specific levels of restraint may be exceeded by designated percentages; (2) these same levels may be increased for carryover and carryforward; and (3) administrative arrangements or adjustments may be made to resolve minor problems arising in the implementation of the agreement.

[2] The level of restraint has not been adjusted to reflect any imports after December 31, 1977.

DEPARTMENT OF ENERGY

Office of the Secretary

URANIUM HEXAFLUORIDE

Separative Work Charges and Base Charges for Natural Uranium

The Department of Energy (DOE) hereby announces revisions to the notice entitled "Uranium Hexafluoride: Separative Work Charges, and Base Charges for Natural Uranium; as published in the FEDERAL REGISTER on September 29, 1977 (42 FR 51636), hereinafter referred to as the notice.

Paragraph 1 of the notice is deleted and the following paragraph 1 is inserted in lieu thereof:

1. *Separative work charges.* (a) The charge per separative work unit furnished pursuant to requirements-type contracts is $83.15 or the ceiling charge computed in accordance with the provisions of such contracts, whichever is the lesser charge. Effective April 24, 1979, the charge per separative work unit furnished pursuant to requirements-type contracts will be $98.30 or the ceiling charge computed in accordance with the provisions of such contracts, whichever is the lesser charge.

(b) The charge per separative work unit furnished pursuant to other than requirements-type contracts is $74.85. Effective December 30, 1978 (61st day) the charge per separative work unit furnished pursuant to other than requirements-type contracts will be $88.65.

Effective date: This notice is effective (October 25, 1978).

Dated at Washington, D.C., this 19th day of October 1978.

WILLIAM P. DAVIS,
Deputy Director of Administration.

[6740-02-M]

Federal Energy Regulatory Commission

[Docket No. RP78-74]

ALGONQUIN GAS TRANSMISSION CO.

Order on Purchased Gas Cost Adjustment Clause Filing Requirement

OCTOBER 13, 1978.

By letter filed June 27, 1978, Algonquin Gas Transmission Co. (Algonquin), seeks to identify its cost of service filing obligations under § 154.38(d)(4)(vi)(b) of the Commission's Regulations under the Natural Gas Act. The letter states that as a result of the recently approved Algonquin rate cases settlement,[1] it will not be required to restate its Base Tariff Rate and file an overall cost of service until July 31, 1980. For the reasons set forth below, the Commission will treat the letter as a Petition for a Declaratory Order and, upon review of the applicable regulations and Algonquin's letter, the Commission shall affirm Algonquin's interpretation of the applicable FERC regulations.

Algonquin's FERC Gas Tariff contains a PGA filed pursuant to § 154.38(d)(4) of the Commission's Regulations. Subsection (vi)(a) requires the filing of a cost of service study at least every 36 months to establish new Base Tariff Rates. The 36-month period begins to run according to subsection (vi)(b) which states:

(b) If a section 4(e) case is filed before the expiration of the 36-month period, a new 36-month period will start running when the proposed rates go into effect. Rates determined by the Commission in a section 4(e) or a 5(a) proceeding or rates in a settlement agreement approved by the Commission shall establish the new Base Tariff Rate when they become effective pursuant to a final order, and a new 36-month period will start running.

Algonquin has recently settled its section 4(e) rate proceedings in Docket Nos. RP73-112, RP74-92, and RP75-88, which settlement was approved by Commission order issued March 31, 1978. The settlement covered a 4-year period and established new Base Tariff Rates made effective August 1, 1977. In settlement of the RP75-88 proceeding the parties agreed to two locked-in refund periods[2] utilizing actual per book figures and a test period approach[3] to determining the rates effective August 1, 1977. On the basis of these settlement determinations, Algonquin asserts that it has been subject to continuing full rate review for the period January 1, 1974 (RP73-112) through October 31, 1977 (RP75-88), and that the rates effective August 1, 1977, are "rates in a settlement agreement approved by the Commission" which will start a new 36-month period running. Algonquin further states that these particular facts of its recent rate case determinations and the language of the applica-

[1] See: *Algonquin Gas Transmission Co.*, letter order issued March 31, 1978, in Docket Nos. RP73-112, RP74-92, and RP75-88.

[2] RP75-88 locked-in refund period: (A Nov. 1, 1975 to Oct. 31, 1976 (B) Nov. 1, 1976 to Jul. 31, 1977.

[3] Future period commencing Aug. 1, 1977 based on a 12-month test period ending Oct 31, 1977.

ble regulations establish August 1, 1980, as the date on which it will next be required to restate its Base Tariff

certificates during the winters of 1974-75, 1975-76, and 1976-77.

The letter-order of September 21,

eous form by pipeline. It is further stated that redelivery in gaseous form by pipeline will be by means of dis-

The Commission is aware that this service is now in its fifth year and has been renewed annually by separate applications which have resulted in tem-

ers to file in rebuttal, they may do so on or before December 11, 1978.

(E) The Connecticut Gas Co., Valley Gas Co., and Boston Gas Co. are per-

[6740-02-M]

CLAY BASIN STORAGE CO.

V 4 3 / 2 0 7 0 C 2 5 7 8

ble regulations establish August 1, 1980, as the date on which it will next be required to restate its Base Tariff Rate and be subject to a full cost of service review unless a section 4(e) case is filed in the intervening period.

The Commission affirms Algonquin's interpretation. Although the language as to the 36-month period is not free from ambiguity, it appears that as to the particular facts related to Algonquin, its interpretation is correct. The Base Tariff Rates established as of August 1, 1977, were based upon an updated full cost of service review. Thus it is appropriate to grant Algonquin's request and affirm its interpretation of section 154.38(d)(4)(vi) of the Regulations that it need not restate its Base Tariff Rates and be subject to a full cost of service review prior to July 31, 1980. The Commission notes that by separate order a rulemaking proceeding will be initiated to clarify the regulations as to the beginning of the 36-month period.

The Commission finds and orders: The petition for declaratory order is hereby granted as set forth and for the reasons set forth in the body of this order.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. CP78-256]

ALGONQUIN LNG, INC. AND ALGONQUIN GAS TRANSMISSION CO.

Order Providing Formal Hearing and Granting Interventions

OCTOBER 13, 1978.

On March 29, 1978, Algonquin LNG, Inc. (Algonquin LNG) and Algonquin Gas Transmission Co. (Algonquin Gas), filed in docket No. CP78-256 a joint application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas and storage of liquid and gas-phase liquified natural gas (LNG) for certain participating resale companies for the period extending through May 31, 1979. The application requested a limited-term and temporary certificate. By letter order issued September 21, 1978, the Commission granted the requested temporary authority.

A similar service was rendered under a temporary certificate in docket No. CP77-413, which terminated on May 31, 1978. The only outstanding matter in that docket involves treatment of revenues and can be dealt with apart from this docket. In addition, similar service was provided under temporary certificates during the winters of 1974-75, 1975-76, and 1976-77.

The letter-order of September 21, 1978, stated: "This authorization is issued without prejudice to such ultimate disposition of the proceedings as the record many require." The hearing provided for by this order is undertaken to examine the several issues raised by the storage service provided by Algonquin LNG.

Algonquin LNG proposes to utilize its LNG storage facilities at Providence, R.I., to receive, store, and redeliver LNG belonging to others in quantities of up to 248,000 barrels.

It states that it has a 600,000 barrel capacity LNG storage tank at Providence which is currently being used, and would continue to be used, in part, for the benefit of Providence Gas Co. (Providence Gas). It further states that this tank is located in the intrastate phase, or phase 1, of its terminal facilities, and that an application to construct and operate phase 2 or the interstate phase is pending in docket No. CP73-139.

During the 1978-79 heating season, Algonquin LNG states that it will have approximately 248,000 barrels, after allowance for tank heel, of available capacity over and above the 348,000 barrels of capacity which has been dedicated to Providence Gas under a long-term arrangement to supply its local distribution system. It is further asserted that there will be available liquefaction capacity and a supply of LNG in excess of the LNG storage capacity available during the 1978 summer season. Consequently, certain additional resale companies, including regular distribution curtomers of Algonquin Gas, will be able to use the available capacity of Algonquin LNG's tank to store gas for use during the 1978-79 winter. Algonquin LNG states that the additional storage service will permit participating resale customers to forego interruptible sales during summer periods and convert such gas through storage into an additional supply for high priority requirements during the following winters.

Algonquin LNG has entered into agreements with the Connecticut Gas Co. and the Valley Gas Co. for storage service during the 1978-79 winter season. It is asserted that the terms of such service will be for the period ending May 31, 1979, and that no new facilities will be required to effectuate the service. The storage service will be provided at a rate which is the subject of a proposed settlement agreement now pending before the Commission in docket No, CP75-14, *et al.*

The application states that the deliveries to Algonquin LNG's Providence storage facilities will be made by truck, and redelivery will be made either in liquid form by truck or gaseous form by pipeline. It is further stated that redellvery in gaseous form by pipeline will be by means of displacement. Algonquin LNG will gasify the LNG and physically deliver it to Providence Gas Co. which will back off equivalent volumes from Algonquin gas. Algonquin Gas, in turn, will deliver equivalent volumes to other customers on a basis which, it asserts, will not impair service to its remaining customers.

The joint application filed in Docket No. CP78-256, was noticed in the FEDERAL REGISTER on April 13, 1978 (42 FR 15481). Connecticut Gas Co., Valley Gas Co., and Boston Gas Co., filed petitions to intervene in Docket No. CP78-256. No other petitions to intervene, notices of intervention, nor protests to filing of the application have been filed.

The Commission is concerned about the substantial increase in trucking of LNG to and from the Providence terminal that would result if this proposal were approved. Although Algonquin claims the bulk of any such transportation is not within the jurisdiction of this Commission, the FERC is charged with the responsibility of considering any safety and environmental issues involved with terminal operations generally. With regard to this concern for safety, the Commission is aware of the functions of the Interstate Commerce Commission and the U.S. Department of Transportation in this area and would welcome the active participation of these agencies in this matter.

The issue of Commission jurisdiction over the service to be rendered to Providence Gas Co. has not been finally determined. Applicants are invited to address this issue as well as the propriety of the contemplated use of the facilities in view of the fact that the operation of the Providence terminal was not considered in the Distrigas of Massachusetts Corp., proceeding in Docket No. CP78-216, *et al.* and, so, has not been certificated by the Commission.

The question also arises as to the appropriate treatment of "Allowance for Funds Used During Construction" (AFUDC) including whether the continued capitalization of costs is appropriate and how Algonquin LNG contemplates recovering these costs. In addition, the treatment of revenues received by Algonquin Gas for the redelivery service of gaseous volumes should be pursued in the hearing. The charge for storage, however, is dependent upon final resolution of the proposed settlement in Docket No. CP75-14, *et al.* Applicants should also present testimony demonstrating the need for the contemplated service and whether there are plans to continue to offer this or comparable winter service.

The Commission is aware that this service is now in its fifth year and has been renewed annually by separate applications which have resulted in temporary certificates. This procedure has failed to permit resolution thus far of basic jurisdictional issues as to the facility itself, and the transportation and storage service, as well as the question of whether the public convenience and necessity is served best by pre-granted abandonment. The level of service in Docket No. CP78-256, together with an increase in the volumes of LNG to be transported by truck make necessary the examination of this matter by formal hearing at this time. For these reasons we set this docket for formal hearing and direct the filing of testimony by the Applicants on the several issues in this matter discussed above as well as whether the expanded service is in the public interest.

The Commission finds: (1) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that a public hearing be held on the matters involved and the issues presented in these proceedings as hereinbefore described.

(2) Participation in these proceedings by Connecticut Gas Co., Valley Gas Co., and Boston Gas Co., may be in the public interest.

The Commission orders: (A) These proceedings are hereby set for formal hearing and disposition.

(B) Pursuant to the Natural Gas Act, particularly sections 4, 5, 7, and 15 thereof, and the Commission Rules of Practice and Procedure (18 CFR Chapter 1, Subchapter E), a Prehearing Conference shall be held on December 21, 1978, commencing at 10 a.m. in a hearing room of the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, to discuss procedural matters and to clarify, to the degree possible, subjects at issue.

(C) An Administrative Law Judge, to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR, section 3.61), shall preside at the prehearing conference in this proceeding with authority to establish and change all procedural dates, and to rule on all motions (with the sole exceptions of motions to consolidate or sever and motions to dismiss), as provided for the Rules of Practice and Procedures.

(D) The direct case of the Applicants and any Interveners in support shall be filed and served on all parties, the Presiding Judge, and the Commission Staff on or before October 13, 1978. All parties in opposition, and the Commission Staff, may file their cases in chief on or before December 4, 1978, and should said filing give rise to the need for the Applicants and supporters to file in rebuttal, they may do so on or before December 11, 1978.

(E) The Connecticut Gas Co., Valley Gas Co., and Boston Gas Co. are permitted to intervene in the instant proceeding subject to the Rules and Regulations of the Commission; *Provided, however,* The participation, of such interveners shall be limited to matters effecting asserted rights and interests as specifically set forth in the petitions to intervene; and *Provided, further,* That the admission of such interveners shall not be construed as recognition by the Commission that they might be aggrieved because of any order the Commission entered in this proceeding.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. E-8755]

CENTRAL KANSAS POWER CO., INC.

Compliance Filing

OCTOBER 17, 1978.

Take notice that on July 31, 1978, Central Kansas Power Co., Inc., ("CKP") tendered for filing as part of CKP's FERC Electric Tariff, Volume No. 1, the following tariff sheets:

Volume No. 1—Effective

Original Sheets Nos. 1, 2, 3, 4, and 5—Sept. 16, 1978.

These sheets are all being filed in compliance with the Commission's Order Affirming Initial Decision issued on June 30, 1978, in Docket No. E-8755 and reflect adjustments in rates in accordance with such Order, according to CKP.

CKP states that a copy of this filing has been mailed to Sunflower Electric Cooperative, Inc., its only jurisdictional electric customer, and to the State Corporation Commission of Kansas.

Any person desiring to be heard or to protest said application should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such protests should be filed on or before October 27, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken. Copies of the filing are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. CP77-512]

CLAY BASIN STORAGE CO.

Amendment to Application and Petition To Amend Order

OCTOBER 18, 1978.

Take notice that on September 25, 1978, Clay Basin Storage Co. (Applicant), 100 Broadway, New York, N.Y. 10005, filed in Docket No. CP77-512, an amendment to its application and a petition to amend the order of July 3, 1978, issued by the Commission in *Mountain Fuel Resources, Inc., et al.*, Docket Nos. CP76-285, *et al.*, pursuant to section 7(c) of the Natural Gas Act so as to provide for the extension and amendment of the Clay Basin Interim Storage Arrangements designed for the preservation of a portion of the payback gas to which certain of the east-of-California (EOC) customers of El Paso Natural Gas Co. (El Paso), are entitled under the Commission's Opinion No. 800-B, issued December 30, 1977, in Docket No. CP74-289, *et al.*, all as more fully set forth in the amendment and petition on file with the Commission and open to public inspection.

It is indicated that by order issued September 30, 1977, in *Moutain Fuel Resources, Inc., et al.*, Docket Nos. CP76-285, *et al.*, Applicant and other parties received temporary certificate authorization for the interim utilization of a portion of the Clay Basin Storage Field located in Daggett County, Utah, for the protection of service to El Paso's EOC customers' Priority 1 and 2 requirements through December 31, 1979. Thereafter, the parties to the Clay Basin Interim Storage Arrangements entered into various agreements and made appropriate filings necessary to extend the term of such arrangements whereby protection could be afforded to the Priority 1 and 2 requirements of El Paso's EOC customers for a further period extending through September 30, 1980, it is said. Applicant states that by order issued July 3, 1978, in *Moutain Fuel Resources, Inc., et al.*, Docket Nos. CP76-285, *et al.*, it received temporary authorization for its part of the extended Clay Basin Interim Storage Arrangements.

It is indicated that in Opinion No. 800-B, the Commission approved El Paso's proposal to restore to certain of its EOC Customers certain volumes of natural gas. On August 30, 1978, El Paso filed in Docket No. CP77-289 for authorization to transport and deliver all payback quantities by the end of February 1979, it is said. Applicant states that Southwest Gas Corp. (Southwest) advised El Paso that it, Southwest, desired to use a portion of the payback gas to which it is entitled

V 4 3 / 2 0 7 0 C 2 5 7 8

after February 1979, and would like to store these volumes for its use. It is indicated that in order to accommodate Southwest, Applicant and El Paso have entered into a Letter Agreement amending the Clay Basin Storage Arrangements. The amended agreement would permit the preservation, on an interim basis, through September 30, 1980, of a portion of the payback gas to which Southwest is entitled, it is stated. Applicant also says that it, El Paso, and Southwest have entered into a Letter Agreements whereby El Paso would sell to Applicant and deliver to Northwest Pipeline Corp. (Northwest) for Applicant's account, those quantities of payback gas to be stored for Southwest. Northwest would then transport such quantities to the Clay Basin Storage Field, located in Daggett County, Utah, where such gas would be delivered to Mountain Fuel Resources, Inc. for injection into the field for Applicant's account, it is indicated. The gas would be held in storage until Southwest calls for equivalent quantities, but not before September 30, 1980, says Applicant. Applicant states that the return of the stored pay back gas to Southwest would be accomplished by essentially reversing the above described procedures.

Applicant states that it would purchase the payback gas for storage from El Paso at El Paso's then-current Rate Schedule G rate, and that it would sell such returned payback gas to Southwest at a rate equivalent to the rate in effect for El Paso's sales of gas to Southwest, at the time and place of delivery, with any difference between the cost of such gas to Applicant and the proceedes of its sale to Southwest to be reflected as a credit or debit, as the case may be, in the calculation of the surcharge.

Any person desiring to be heard or to make any protest with reference to said amendment and petition to amend should on or before November 9, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. Persons who have heretofore filed need not file again.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket Nos. RP72-122 and RP78-51 (PGA78-3)]

COLORADO INTERSTATE GAS CO.

Extension of Time

OCTOBER 17, 1978.

On October 4, 1978, Commission Staff Counsel filed a motion to extend the procedural dates set in the Commission's order of September 25, 1978, in this proceeding. The motion states that CIG would like to narrow certain issues in order to prevent its case in chief from being overly voluminous and burdensome and that the schedule established by the order does not allow sufficient time for adequate discovery and meaningful settlement discussions.

Upon consideration, notice is hereby given that the procedural schedule as set forth in the Commission's order of September 25, 1978, in this proceeding is modified as follows:

Informal settlement conference—November 23, 1978, 10 a.m.
Filing of CIG's case in chief—December 15, 1978.
Filing of Staff's statement of position—January 8, 1979.
Prehearing conference—January 23, 1979, 10 a.m.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. CP79-17]

COLUMBIA GAS TRANSMISSION CORP.

Application

OCTOBER 18, 1978.

Take notice that on October 10, 1978, Columbia Gas Transmission Corp. (Applicant), 1700 MacCorkle Avenue SE., Charleston, W. Va. 25314, filed in Docket No. CP79-17, an application pursuant to section 7(c) of the Natural Gas Act and § 157.7(b) of the Regulations thereunder (18 CFR 157.7(b)), for a certificate of public convenience and necessity authorizing the construction, during the 12-month period commencing March 1, 1979, and operation of facilities to enable Applicant to take into its certificated main pipeline system natural gas which would be purchased from producers or other similar sellers thereof, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in connecting to its pipeline system supplies of natural gas which may become available from various producing areas generally coextensive with its pipeline system or the system of other pipeline companies which may be authorized to transport gas for the account of or exchange gas with Applicant.

Applicant states that the total estimated cost of the proposed facilities would not exceed $6,000,000, with the cost of no single project to exceed $1,500,000. Applicant indicates that the cost of the proposed facilities would be financed with funds generated from internal sources.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 9, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protestants filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-30129 Filed 10-24-78; 8:45 am]

[6740-02-M]

[Docket No. CP79-16]

COLUMBIA GAS TRANSMISSION CORP.

Application

OCTOBER 18, 1978.

Take notice that on October 10, 1978, Columbia Gas Transmission Corp. (Applicant), 1700 MacCorkle Avenue SE., Charleston, W. Va. 25314, filed in docket No. CP79-16, an application pursuant to section 7(c) of the Natural Gas Act and § 157.7(c) of the Regulations thereunder (18 CFR 157.7(c)), for a certificate of public convenience and necessity authorizing the construction, during the 12-month period commencing March 1, 1979, and operation of facilities to make miscellaneous rearrangements on its system, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in making miscellaneous rearrangements which would not result in any material change in the service presently rendered by Applicant.

Applicant states that the total cost of the proposed facilities would not exceed $300,000, which cost would be financed from funds generated from internal sources.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 9, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP75-8]

COMMERCIAL PIPELINE CO., INC.

PGA Filing

OCTOBER 17, 1978.

Take notice that on October 6, 1978, Commercial Pipeline Co., Inc. (Commercial) tendered for filing revised substitute 26th revised sheet No. 3A reflecting purchased gas adjustments and effective dates as set out below:

Sheet No.	Current adjustment	Cumulative adjustments	Effective date
Revised substitute 26th revised sheet No. 3A	0.0376	0.0008	Sept. 23, 1978

Commercial states that these revisions track precisely similar revisions in the tariff of Cities Service Gas Co., its sole supplier. Commercial requests waiver of notice to the extent required to permit said tariff sheets to become effective as proposed.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with section 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 24, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ES79-4]

CONSUMERS POWER CO.

Application

OCTOBER 18, 1978.

Take notice that on October 11, 1978, Consumers Power Co., a corporation organized under the laws of the State of Michigan, with its principal business office in Jackson, Mich., filed an application pursuant to section 204 of the Federal Power Act, seeking authority to issue up to $400 million unsecured short-term notes and commercial paper, on or before December 31, 1979, and to mature on or before December 31, 1980.

The short-term debt will be used to finance construction costs pending permanent financing.

Any person desiring to be heard or to make any protests with reference to said Application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, Washington, D.C. 20426, in accordance with the requirements of the Commission's rules and practice and procedure (18 CFR 1.8 or 1.10) on or before November 2, 1978. The Application is on file and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Project No. 2004]

HOLYOKE WATER POWER CO.

Application for Change in Land Rights

OCTOBER 17, 1978.

Public notice is given that Holyoke Water Power Co. ("applicant") has filed an application under the Federal Power Act (16 U.S.C. §§ 791a-825r) for a change in land rights for FERC Project No. 2004. The project is located on the Connecticut River in the city of Holyoke, Hampden County, Mass. (Correspondence to: Leon E. Maglathlin, vice president, Holyoke Water Power Co., One Canal Street, Holyoke Mass. 01040 and Maurice L. Zilber, Esquire, Peabody Brown, Rowley, and Storey, One Boston Place, Boston, Mass. 02108.)

Applicant requests Commission approval of the sale of project lands to the city of Holyoke. The affected canal area is within the city of Ho-

[Docket No. CP78-533]

Trunkline delivering equivalent volumes to Petitioner at an existing interconnection near Potomac, Ill., and by

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commis-

V 43/207 OCT 25 78

Applicant requests Commission approval of the sale of project lands to the city of Holyoke. The affected canal area is within the city of Holyoke and is bounded by Water Street and Canal Street, between Appleton Street and the Maine Railroad crossing. The grant would allow the city to fill in an abandoned 1.46-acre section of an existing project canal for the purpose of creating a 160-space parking area for employees of local industrial concerns.

Anyone desiring to be heard or to make any protest about his application should file a petition to intervene or a protest with the Federal Energy Regulatory Commission, in accordance with the requirements of the Commission's rules of practice and procedure, 18 CFR § 1.8 or § 1.10 (1977). In determining the appropriate action to take, the Commission will consider all protests filed, but a person who merely files a protest does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any protest or petition to intervene must be filed on or before November 20, 1978. The Commission's address is: 825 North Capitol Street, NE., Washington, D.C. 20426.

The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. ES79-2]

IDAHO POWER CO.

Application

OCTOBER 17, 1978.

Take notice that on October 5, 1979, Idaho Power Co. (Applicant), a corporation organized under the laws of the State of Maine and qualified to transact business in the States of Idaho, Oregon, Nevada and Wyoming, with its principal business office in Boise, Idaho, filed an Application with the Federal Energy Regulatory Commission, pursuant to section 204 of the Federal Power Act, seeking an order authorizing the issuance of up to $120,000,000 of unsecured promissory notes and commercial paper.

Proceeds from the borrowing will be used in the financing of Applicant's construction expenditures and other corporate purposes. Construction expenditures for the period January 1, 1979 to December 31, 1979, total approximately $157,116,000. The balance of funds required for construction is expected to come from internally generated cash.

Any person desiring to be heard or to make any protest with reference to said Application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, Washington, D.C. 20426, in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 27, 1978. The Application is on file and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. ER79-6]

KANSAS POWER & LIGHT CO.

Proposed Changes in Rates

OCTOBER 17, 1978.

Take notice that on October 5, 1978, the Kansas Power & Light Co. (Kansas) tendered for filing an amendment dated September 7, 1978, with Leavenworth-Jefferson Electric Cooperative, Inc., for wholesale service to that cooperative. Kansas states that this is a supplement to a contract dated September 1, 1973, and designated KPL Rate Schedule FPC No. 157. This amendment will provide for a new delivery point for the cooperative to be known as "New Tonganoxie," the deletion of three delivery points known as Springdale, Oskaloosa, and Tonganoxie, and the change in maximum capacity for the delivery point known as New Oskaloosa. The proposed effective date is September 7, 1978, and Kansas requests that the Commission waive the notice requirements as allowed in § 35.11 of its regulations. According to Kansas, the net billing for the 12 months succeeding the proposed change in agreements is $1,015,362.68. In addition, Kansas states that copies of the agreement have been mailed to Leavenworth-Jefferson Electric Cooperative, Inc., and the State Corporation Commission of Kansas.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 24, 1978. Protests will be considered by the Commission in determining the apropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP70-6, et al.]

LAWRENCEBURG GAS TRANSMISION CORP.

Report of Refunds

OCTOBER 18, 1978.

Take notice that on October 10, 1978, Lawrenceburg Gas Transmission Corp. (Lawrenceburg) filed a Report of Refunds, pursuant to article VI of its Stipulation and Agreement at RP70-6, et al., approved by Commission order issued August 25, 1972. Lawrenceburg states that on October 6, 1978, it made gas refunds to its two (2) jurisdictional wholesale customers, Lawrenceburg Gas Co. in the amount of $9,702.07 and the Cincinnati Gas & Electric Co. in the amount of $4,629.83 for a total refund of $14,331.90.

Lawrenceburg states that this refund, applicable to various periods between April 1, 1956, and May 31, 1972, constitutes a flow through of the allocated jurisdictional portion of a refund it received from Texas Gas Transmission Corp. dated September 29, 1978.

Lawrenceburg states that copies of its refund report have been mailed to its two jurisdictional customers and to the two interested State Commissions for the States of Indiana and Ohio.

Any person desiring to be heard or to protest said filing should file a petition to intervene (unless such intervention has previously been granted) or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rule of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before November 13, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. CP78-533]

MIDWESTERN GAS TRANSMISSION CO.

Petition for Declaratory Order

OCTOBER 13, 1978.

Take notice that on September 21, 1978, Midwestern Gas Transmission Co. (Petitioner), P.O. Box 2511, Houston, Tex. 77001, filed in Docket No. CP78-533 a petition pursuant to § 1.7(c) of the Commission's Rules of Practice and Procedures (18 CFR 1.7(c)) for a declaratory order advising Petitioner, Panhandle Eastern Pipe Line Co. (Panhandle), and Trunkline Gas Co. (Trunkline) that an emergency exchange of natural gas may be rendered pursuant to the terms of § 157.22(a) of the Regulations under the Natural Gas Act, all as more fully set forth in the petition on file with the Commission and open to public inspection.

Petitioner states that it currently sells natural gas for resale in interstate commerce to Central Illinois Light Co. (CILCO) at a delivery point in Vermilion County, Ill., and that CILCO utilized the gas for service for high priority 1 requirements of its customers in Oakwood, Ill.

It is stated that during the 1977-78 winter curtailment period, CILCO, because of unusually cold weather, exceeded its applicable curtailment period quantity entitlement (CPQE), and that for that period Petitioner granted relief to CILCO by providing an additional 9,332 Mcf of natural gas. Petitioner states that it effected repayment of such volume by subtracting the 9,332 Mcf from the CPQE of 24,802 Mcf that would otherwise be assigned to CILCO for the current summer. Thus, pursuant to section XIX of Petitioner's FERC Gas Tariff, Third Revised Volume No. 1, Petitioner has assigned 15,470 Mcf to CILCO as its 1978 summer CPQE, it is asserted. The summer curtailment period ends October 31, 1978, it is said.

Petitioner states that such substantial reduction in summer CPQE creates a severe problem for CILCO in its efforts to meet the priority 1 requirements of its Oakwood customers. Petitioner further states that at CILCO's current summer level of usage, it has estimated that by October 31, 1978, CILCO would have exceeded its summer CPQE by 9,000 Mcf.

It is indicated that in order to meet Petitioner's payback requirements CILCO is seeking to shift some of its gas supply from its Panhandle service territory to its Petitioner service territory. It is stated that this can be accomplished physically by having Panhandle deliver gas as designated by CILCO to Trunkline at existing Panhandle/Trunkline interconnections, by Trunkline delivering equivalent volumes to Petitioner at an existing interconnection near Potomac, Ill., and by Petitioner delivering equivalent volumes of gas to CILCO at Oakwood.

Accordingly, Petitioner, Panhandle, and Trunkline propose to accomplish an exchange and transportation of gas whereby Petitioner would continue to make gas available to CILCO at Oakwood to meet CILCO's requirements there until October 31, 1978. All gas delivered by Petitioner to CILCO at Oakwood during the 1978 summer curtailment period in excess of the volume assigned to CILCO as its summer CPQE would be delivered to CILCO for the account of Panhandle, it is stated. It is indicated that on or about November 10, 1978, when Petitioner would know the precise volume by which CILCO has exceeded its summer CPQE, CILCO's total overrun volume would be delivered by Panhandle to Trunkline, and by Trunkline to Petitioner.

Consequently, Petitioner requests that the Commission issue a declaratory order authorizing it, Panhandle and Trunkline to perform the proposed exchange of natural gas as an emergency delivery of gas pursuant to the terms of § 157.22(a) of the Regulations under the Natural Gas Act.

In considering the petition for declaratory order in the Commission public meeting of October 11, 1978, the Commission decided to treat said petition as an application for a permanent certificate of public convenience and necessity pursuant to section 7(c) of the Natural Gas Act. Accordingly, the subject notice gives notice of said petition and of the intention of the Commission to consider it as an application pursuant to section 7(c) of the Natural Gas Act.

It appears reasonable and consistent with the public interest in this proceeding to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said petition should on or before October 24, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. ER79-7]

MONTANA POWER CO.

Proposed Cancellation of Rate Schedules

OCTOBER 17, 1978.

Take notice that on October 5, 1978, the Montana Power Co. (Montana) tendered for filing pursuant to section 35.15 of the Commission's regulations a Notice of Cancellation of Rate Schedules FERC Nos. 14, 17, 18, 19, 22, 23, 24, and 26, agreements for service to Beartooth Electric Cooperative, Fergus Electric Cooperative, Hill County Electric Cooperative, McCone County Electric Cooperative, Park Electric Cooperative, Sun River Electric Cooperative, Tongue River Electric Cooperative, and Yellowstone Valley Electric Cooperative (Cooperatives), respectively. Montana states that the Cooperatives no longer take service under Individual contracts but are served through Central Montana Generation & Transmission Cooperative, Inc. (Central Montana).

Montana requests that cancellation of Rate Schudules FERC Nos. 14, 17, 18, 19, 22, 23, and 26 be made effective as of July 1, 1974, and Rate Schedules FERC No. 24 be made effective as of September 1, 1975, the date on which service commenced through Central Montana.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance

V 43/207 0 C 25 78

with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 24, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. ER79-8]

MONTANA POWER CO.

Proposed Cancellation of Rate Schedules

OCTOBER 17, 1978.

Take notice that on October 5, 1978, the Montana Power Co. (Montana) tendered for filing pursuant to section 35.15 of the Commission's Regulations a Notice of Cancellation of Rate Schedules FERC Nos. 15, 20, 21, and 25, agreements for service to Big Flat Cooperative, Inc., Missoula Electric Cooperative, Inc., Northern Lights, Inc., and Vigilante Electric Cooperative, Inc., respectively. Montana states that these cooperatives no longer purchase wholesale power and energy from it, but are served from other sources.

Montana requests that cancellation of Rate Schedule FERC No. 15 be made effective as of May 1, 1967, and that cancellation of Rate Schedule FERC Nos. 20, 21, and 25 be made effective as of August 1, 1978, the dates on which the sale of wholesale power and energy by Montana was discontinued.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426 in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 24, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. CP79-8]

MOUNTAIN FUEL SUPPLY CO.

Applicotion

OCTOBER 18, 1978.

Take notice that on October 6, 1978, Mountain Fuel Supply Co. (Mountain Fuel), 180 East First South Street, P.O. Box 11368, Salt Lake City, Utah 84139, filed in docket No. CP79-8 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Mountain Fuel to make a limited term best efforts sale of natural gas to United Gas Pipe Line Co. (United), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Mountain Fuel states that it may have, on a best efforts basis, natural gas which is in excess of its current system requirements and which could be made available to United. It is stated that United has a need for additional supplies of natural gas to help eliminate curtailments on United's system. Therefore, it is said, Mountain Fuel and United signed a Gas Purchase Contract (Contract) dated May 4, 1978, setting forth the details of the sale by Mountain Fuel to United.

Mountain Fuel accordingly requests the issuance of a certificate of public convenience and necessity authorizing the sale of natural gas to United, on a best efforts basis, of up to 50,000 Mcf per day and not to exceed 7,000,000 Mcf per year for a period of three (3) years. Mountain Fuel further requests that the Commission grant permission and approval to abandon the sale at the termination of the Contract.

As stated in the application, Mountain Fuel would deliver all volumes of natural gas purchased by United to Colorado Interstate Gas Co. (CIG) at an existing point of interconnection near Green River, Wyo., located in Sweetwater County, Wyo. Mountain Fuel states that it understands that CIG has or will file with the Commission its application for the authorizations necessary to effectuate the transportation of United's natural gas through CIG's transmission system.

Mountain Fuel states that it proposes to charge United for each Mcf of natural gas purchased at a rate consisting of the following:

(1) The applicable area rate as prescribed by the Commission (currently $1.51 per Mcf) plus all adjustments for new natural gas produced from wells in southwestern Wyoming;

(2) Mountain Fuel would charge United five cents (5¢) per Mcf for compression of the volumes of natural gas delivered to CIG for United's account through the proposed Kanda Exchange Point;

(3) Mountain Fuel would charge United for its cost of service, including return on its investments in gathering and transmission facilities. (The rate to be charged for the cost of service would be fifteen cents (15¢) per Mcf.)

The application states that Mountain Fuel does not propose the construction of any additional transmission facilities to render the best efforts sale to United. Mountain Fuel would utilize the existing point of interconnection with CIG and the facilities proposed in docket No. CP75-37 to render the sale to United.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 9, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing herein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Mountain Fuel to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. CP75-141]

NATURAL GAS PIPELINE CO. OF AMERICA

Petition to Amend

OCTOBER 18, 1978.

Take notice that on October 6, 1978, Natural Gas Pipeline Co. of America (Natural), 122 South Michigan Avenue, Chicago, Ill. 60603, filed in Docket No. CP75-141 [1] a petition to amend further the order of February 12, 1975, issued in said docket pursuant to section 7(c) of the Natural Gas Act to include in the certificate of public convenience and necessity authorization to exchange natural gas with Arkansas Louisiana Gas Co. (Arkla) at additional points of delivery, all as more fully set forth in the petition.

The order of February 12, 1975, authorized the exchange of up to 10,000 Mcf of natural gas per day between Natural and Arkla pursuant to an exchange agreement dated July 5, 1974, and the construction and operation of certain facilities located in Washita and Grady Counties, Okla., to make the exchange. Arkla received Commission authorization for its part of the exchange in Docket No. CP75-123. On May 22, 1978, the Commission issued an order amending its order of February 12, 1975, so as to authorize additional points of exchange of gas from the Hickey well in Rogers Mills County, Okla., and the Rogers well in Wheeler County, Tex.

It is stated that Natural has the right to purchase all gas produced by its subsidiary, Napeco Inc., from wells now being drilled and completed, or future wells to be drilled and completed, within certain onshore areas as identified in Docket No. RP73-63. It is further stated that Natural has executed gas purchase contracts with Napeco to purchase gas produced from two wells located in Roger Mills County, Okla. It is said that Arkla also has an interest in the wells and has connected or will connect said wells to its existing pipeline system to complete its purchase.

It is said that Natural hereby proposes to add two new delivery points in Roger Mills County, Okla., where gas delivered for its account would be in a commingled stream with gas volumes purchased from said wells, as set forth in an amendment dated August 3, 1978, to the gas exchange agreement dated July 5, 1974. It is further said that the proposed delivery points would allow Natural to deliver its share of the gas from two wells to Arkla which also is purchasing gas from the wells. Arkla would redeliver equivalent volumes of gas to Natural at the "Arkla Point of Delivery" as defined in the subject gas exchange agreement, as amended, it is said. Natural would not be required to construct any facilities to effectuate said delivery of gas to Arkla, it is stated.

It is stated that the exchange arrangement between Natural and Arkla is mutually beneficial to them in that it provides a means for each party to connect remote sources of gas supply into their respective systems while obviating the necessity to contruct and operate duplicate facilities otherwise required if they were to proceed independently. The exchange would have no effect on any of the other sales or services now rendered by Natural nor would there be any change in operations occasioned thereby, it is asserted.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before November 9, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-30140 Filed 10-24-78; 8:45 am]

[1] This proceeding was commenced before the FPC. By joint regulation of Oct. 1, 1977 (10 CFR 1000.1), it was transferred to the FERC.

[6740-02-M]

[Docket No. ER78-490]

OHIO EDISON CO.

Extension of Time

OCTOBER 17, 1978

On October 3, 1978, Ohio Edison filed a motion for extension of time to submit the testimony and supporting cost data as required by the Commission order of August 16, 1978, in this proceeding. The motion states that the extension is needed because of involvement with another FERC rate proceeding and a hearing before the Ohio PUC. The motion further states that Ohio Power Co. supports the request and that the intervenor Ohio Cities does not oppose it.

Upon consideration, an extension of time is granted to and including November 15, 1978, for Ohio Edison to file the testimony and supporting cost data required by ordering paragraph (D) of the Commission's August 16, 1978, order.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-30141 Filed 10-24-78; 8:45 am]

[6740-02-M]

[Docket No. ER79-10]

OKLAHOMA GAS & ELECTRIC CO.

Proposed Rate Schedule Change

OCTOBER 17,1978.

Take notice that Oklahoma Gas & Electric Co. on October 6, 1978, tendered for filing a letter agreement dated May 25, 1978, between O.G. & E. and Arkansas Power & Light Co. (A.P. & L.) which provides for O.G. & E. to transfer to A.P. & L. 130,000 megawatt-hours of O.G. & E.'s "diversity exchange" entitlement under the TVA-SCEC agreement for the 1978 summer exchange period. O.G. & E. indicates that this entitlement is provided for in the agreement between Tennessee Valley Authority and the Mississippi Power & Light Co. for delivery of the allocated diversity capacity and energy within the South Central Electric Companies' agreement. O.G. & E. states that it desires to transfer the energy and accompanying capacity entitlement and A.P. & L. desires to purchase such entitlement for its system requirements in the summer exchange period.

O.G. & E. requests waiver of the Commission's notice requirements to allow the proposed sale to become effective as of May 28, 1978.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426 in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 24, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER79-11]

OKLAHOMA GAS & ELECTRIC CO.

Filing

OCTOBER 17, 1978.

Take notice that on October 6, 1978, Oklahoma Gas & Electric Co. (O.G. & E.), Oklahoma City, Okla., tendered for filing a letter agreement dated February 9, 1978, between O.G. & E. and Arkansas Power & Light Co. (A.P. & L.) whereby O.G. & E. sold to A.P. & L. 200,000 kW of power and accompanying energy for the period from February 10, 1978, through March 10, 1978.

O.G. & E. states that the rates contained in the letter agreement include a demand charge of $0.45 per kilowatt per week and an energy charge per kilowatt hour equivalent to company's incremental production cost plus 10 percent. O.G. & E. requested waiver of notice requirements and requested that the agreement be accepted for filing effective February 10, 1978.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before October 24, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Project No. 935 and Project No. 2791]

PACIFIC POWER & LIGHT CO. AND CLARK-COWLITZ JOINT OPERATING AGENCY

Notice Granting Petitions To Intervene and Consolidating Proceedings

OCTOBER 18, 1978.

Pacific Power & Light Co. (PP&L) filed an application on May 5, 1976, for a new, long-term license to continue operating the constructed Merwin Project (No. 935).[1] Notice of the application was issued on August 20, 1976. Intervention was subsequently granted to the Clark-Cowlitz Joint Opreating Agency (CCJOA),[2] the Department of Ecology of the State of Washington, the Washington State Department of Game, the Washington State Department of Fisheries,[3] and the Public Utility Commission of Oregon.[4]

On Sept. 18, 1978, the city of Woodland, Wash. filed a late petition to intervene.[5] On May 23, 1978, P.P. & L. filed an answer, stating that participation of the City would be helpful in resolving land use planning issues.

On February 18, 1977, CCJOA filed a competing application for a new major license to operate the Merwin Project. Notice of the application was issued on May 11, 1978. Petitions to intervene were filed by P.P. & L. on May 22, 1978, Washington State Department of Fishies on July 10, 1978, and Department of Game on July 13, 1978. P.P. & L. states its application (Project No. 935) is the identical project for which it seeks a new license, and that it will oppose CCJOA's application. On July 6, 1978, CCJOA filed an answer, stating P.P. & L. has an interest in the proceeding. CCJOA does not object to the intervention of P.P. & L., but asserts that because it proposes substantially different recreation facilities at the project, the applications are not identical, while recognizing the physical project works involved are the same in Project Nos. 935 and 2791. No objections were filed to the petition of the Department of Fisheries. As the applications are both for a single, long-term license for the same constructed project, and are, therefore, mutually exclusive,[6] further proceedings should be conducted on a consolidated basis.

Pursuant to § 3.5(a) of the Commission's Rules of Practice and Procedure (Rules), 18 CFR § 3.5(a) (as amended): (1) the proceedings on the applications of P.P. & L. and CCJOA for license for the constructed Merwin Project are consolidated; (2) the city of Woodland, Wash., is permetted to intervene in the consolidated proceedings; (3) all parties to the proceeding on application for license for Project No. 935 shall be treated as intervenors in the consolidated proceeding on application for license for Project No. 2791 (except the applicant, CCJOA). These interventions are granting subject to the Rules and Regulations of the Commission. Participation of the intervenors shall be limited to matters affecting asserted rights and interests specifically set forth in their petitions to intervene. Admission of these intervenors shall not be construed as recognition by the Commission that they might be aggrieved by any other or orders entered in the proceeding.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. ER79-9]

PUBLIC SERVICE ELECTRIC & GAS CO.

Proposed Toriff Change

OCTOBER 17, 1978.

Take notice that Public Service Electric & Gas Co. of New Jersey, on October 6, 1978, tendered for filing proposed changes in its FERC Electric Service Tariff Nos. 60, 61, and 63. According to the Company, the proposed changes would increase revenues from jurisdictional sales and service by $188,523 based on the 12-month period ending June 30, 1978. In addition, the proposed filing also slightly modified Public Service Electric & Gas Co.'s existing fuel adjustment clause in the above tariff to conform to § 35.14 of the Commission's Regulations.

Public Service states that despite all efforts by it to combat increased costs, the continuing inflationary trend has affected practically all its operations. Due to these increased costs, Public Service states that it has become increasingly difficult for it to provide adequate and reliable service for the growing needs of its customers. The Company also contends that the rate increases are necessary to assure continued confidence in its financial integrity to provide earnings which will attract additional capital at reasonable cost to enable the Company to finance its electrical construction program.

Copies of the filing were served upon the public utility's jurisdictional customers, the Boroughs of Milltown, South River, Park Ridge, and the New Jersey Board of Public Utilities.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 24, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file

[1] The existing licence expires on Dec. 11, 1979.

[2] CCJOA is composed of the Public Utility District No. 1 of Clark County, Wash., and Public Utility District No. 1 of Cowlitz County, Wash.

[3] Order issued Dec. 30, 1976.

[4] Order issued Feb. 18, 1977.

[5] The city's petition states it was served on all parties on May 9, 1978.

[6] *Ashbakder Radio Corp.* v. *FCC*, 326 U.S. 327 (1945).

with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. CP79-11]

SOUTHERN NATURAL GAS CO.

Application

OCTOBER 18, 1978.

Take notice that on October 6, 1978, Southern Natural Gas Co. (Applicant), P.O. Box 2563, Birmingham, Ala. 35202, filed in Docket No. CP79-11 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of 13.947 miles of 16-inch pipeline which pipeline would loop Applicant's existing 12-inch Breton Island-Olga pipeline, Plaquemines Parish, offshore Louisiana, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that the proposed 16-inch line would run from a point on its existing 14-inch Breton Sound pipeline in Block 45 through Blocks 46, 47, 48, 49, 36 and Main Pass Area Block 49 to Applicant's existing Olga Compressor Station. Applicant further states that the proposed pipeline is necessary to allow Applicant to transport the gas currently committed to it from Breton Sound Area Blocks 18, 19, 20, 21, 22, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 45 and from Main Pass Block 21. It is indicated that Applicant presently must transport all gas available to it from the Breton Sound Area through its 12-inch Breton Island-Olga pipeline which has a capacity of 125,000 Mcf per day, and that the capacity is no longer adequate to transport proven reserves committed to Applicant. As a result of new contracts for additional gas reserves with Kerr-McGee Corp., Phillips Petroleum Co. and Terra Resources, Inc., as well as production in the area exceeding Applicant's original estimates, gas available to Applicant from proven reserves presently exceeds pipeline capacity by over 55,000 Mcf per day, it is stated. Applicant asserts that even without considering probable and possible reserves, the limited capacity of the existing pipeline would prevent it from transporting substantial volumes of natural gas per day available to it in July 1979 when the proposed loop line should be completed. The proposed loop lines would enable Applicant to transport additional volumes of gas committed to it to serve better Applicant's customer, it is said.

It is indicated that the estimated cost of the proposed pipeline is $5,102,750. Applicant states that it expects initial financing by short-term financing which would be repaid from cash from current operations and from permanent financing.

Applicant states that the new facilities would be operated as integral parts of its present system and would not result in expansion of Applicant's sales or service.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 9, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-30146 Filed 10-24-78; 8:45 am]

[6740-02-M]

[Docket No. RP78-94]

TEXAS GAS TRANSMISSION CORP.

Proposed Changes in FERC Gas Tariff

OCTOBER 18, 1978.

Take notice that on September 29, 1978, Texas Gas Transmission Corp. (Texas Gas) tendered for filing proposed changes to its FERC Gas Tariff, Third Revised Volume No. 1 and Original Volume No. 2. The proposed changes would increase revenues from jurisdictional sales and services by approximately $92,607,000 based on the 12-month period ending June 30, 1978, as adjusted, compared with the rates proposed to be effective in Docket No. RP77-139 on August 1, 1978.

Texas Gas states that the increase costs are attributable to (1) increases in operating expenses; (2) increase in rate base and related costs; and (3) increase in rate of return and related taxes.

Texas Gas requests an effective date of November 1, 1978, for the proposed Revised Sheets. Texas Gas further states that it served copies of this filing upon the company's jurisdictional customers and interested State commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 30, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

TRANSCONTINENTAL GAS PIPE LINE CO.

Order on Rehearing Modifying Prior Order and Denying Stay Request as Moot

OCTOBER 16, 1978.

On August 31, 1978, the Federal Energy Regulatory Commission (Commission) issued an order in this docket Accepting for Filing and Suspending Proposed PGA Rate Increase, Initiating Hearing, and Consolidating Proceedings. In that order the Commission required Transcontinental Gas Pipe Line Corp. (Transco) to file tariff sheets eliminating from its PGA filing the costs of emergency purchase gas volumes not delivered to Transco during the 6 month accrual period for the deferred account surcharge. For the reasons set forth below, we shall grant in part and deny in part Transco's application for rehearing.

Transco argues that the Commission improperly disallowed certain emergency purchase costs incurred prior to the 6 months determination period used to calculate the revised surcharge proposed by Transco to become effective September 1, 1978. Transco argues that certain of these costs were emergency purchases made pursuant to the Emergency National Gas Act, [ENGA] of 1977 and they are not subject to disallowance by the Commission. Transco cites, among other things, the FERC's order in *Mississippi River Transmission Corporation*, order issued April 24, 1978, in Docket No. RP72-149 (PGA77-10) as support for this argument. Transco requests an opportunity at the hearing to prove these contentions.

Transco also argues that the Commission should give Transco an opportunity at the hearing scheduled in this docket to support its argument that the other non-ENGA emergency purchases not placed in the deferred account during the 6 month determination period used to calculate the latest surcharge adjustment should be collected through the current surcharge.

The Commission finds that the issues raised by Transco cited above should be developed in the hearing ordered in this docket. Accordingly, we shall amend our August 31, 1978, order to provide that Transco may collect the "out of period" emergency costs as of September 2, 1978, subject to refund, pending completion of the proceeding initiated by our August 31, 1978, order. In that proceeding, Transco should show which of the "out of period costs" reflect costs of purchases made under the ENGA of 1977. Also, Transco should demonstrate legal and "good cause" support for its request to collect these "out of period" ENGA costs under the applicable orders of the ENGA Administrator, the *Mississippi River* order, and any other applicable bases for the relief requested. Furthermore, Transco should show that on a legal and on a "good cause" Basis, it should be permitted to collect its "out of period" non-ENGA emergency costs in its current surcharge adjustment. To the extent any of those non-ENGA emergency purchases were made at rates in excess of the applicable just and reasonable producer rate levels prescribed in this Commission's Regulations, Transco will also be required to demonstrate the prudency of the rates paid for such purchases.

Transco also argues that five of the dockets [1] should be severed from this proceeding because Transco has already filed data in support of the prudency of the emergency purchases at issue in those dockets and that Staff, by pleading filed with the FPC on August 26, 1976, in Docket No. RP73-3 et al., has already indicated that it agrees with Transco that the emergency purchases at issue in those dockets were prudent. Transco argues further that no useful purchase will be served by setting this matter for hearing.

As indicated in Staff's August 26, 1976, comments in the five subject dockets, Transco filed comments in support of the prudency of the emergency purchases on the dates listed in the Appendix to Staff's comments. Pursuant to Staff's request, supplemental information was received. Staff's comments indicated that the emergency purchases were made at rates which a reasonably prudent pipeline purchaser would pay for gas under the same or similar circumstances. Therefore Staff recommended that the purchases be approved, and that the proceedings with respect to such purchases be terminated.

Upon review of that information and Staff's August 26, 1976, filed comments, the Commission agrees that the emergency purchases contained therein are prudent. Accordingly, the Commission shall sever those five dockets from this proceeding and terminate the proceedings in those dockets insofar as they involve emergency purchases. To the extent there are not amounts subject to refund in those dockets involving other unresolved issues, the refund obligation of Transco in those dockets shall be terminated.

Since this order grants the relief requested by Transco, Transco's motion for stay shall be denied as being moot.

Consistent with the determinations made in this order, Transco's Substitute Ninth Revised Sheet No. 12 and Substitute Revised Sheet No. 15, which were filed on September 15, 1978, and which reflect the rates proposed in Transco's August 1, 1978, filing are adjusted to exclude the "out of period" costs at issue in this proceeding, shall be accepted for filing and made effective as of September 1, 1978, subject to any refund obligation in other unresolved Transco rate cases. In addition, Transco's Substitute Tenth Revised Sheet No. 12 and Substitute Ninth Revised Sheet No. 15, which were also filed on September 15, 1978, and which reflect all of the proposed costs in Transco's August 1, 1978, filing, shall be made effective September 2, 1978, subject to refund pending resolution of this proceeding.

The Commission orders:

(A) The August 31, 1978, order is modified to extent discussed in the body of the order, and in Ordering Paragraph (B) below.

(B) The proceedings in Docket Nos. RP73-3 (PGA76-1a); RP73-3 (PGA76-2); RP73-69, RP72-99 (EPGA76-3); RP72-99, RP75-75 (EPGA76-1); and RP72-99, RP75-75 (EPGA76-2) are terminated insofar as they involve the prudency of 60 day emergency purchases. To the extent there are not amounts subject to refund in those dockets involving other unresolved issues, the refund obligations in those dockets are hereby terminated.

(C) Transco's Substitute Ninth Revised Sheet No. 12 and Substitute Revised Sheet No. 15, which were filed on September 15, 1978, are accepted for filing and made effective as of September 1, 1978, subject to any refund obligations in any other unresolved Transco rate proceedings.

(D) Transco's Substitute Tenth Revised Sheet No. 12 and Substitute Ninth Revised Sheet No. 15 filed on September 15, 1978, shall become effective as of September 2, 1978, subject to refund pending resolution of this proceeding.

(E) To the extent not granted in this order, Transco's application for rehearing is denied.

(F) Transco's motion for stay of the Commission's August 31, 1978, order is denied because it is now moot as a result of the action taken in the instant order.

(G) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. CP79-3]

TRANSCONTINENTAL GAS PIPE LINE CORP. AND MICHIGAN WISCONSIN PIPE LINE CO.

Application

OCTOBER 18, 1978.

Take notice that on October 3, 1978, Transcontinental Gas Pipe Line Corp. (Transco), P.O. Box 1396, Houston, Tex. 77001 and Michigan Wisconsin Pipe Line Co. (Mich Wisc), One Woodward Avenue, Detroit, Mich. 48226, (Applicants) filed in Docket No. CP79-3 an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicants to transport and exchange natural gas under the terms of an agreement dated September 8, 1978 (Agreement), all as more fully set forth in the application which is on file with the commission and open to public inspection.

It is stated that the Agreement provides that Mich Wisc would take receipt of gas to be purchased by Transco in the Mayfield West Field, Beckham County, Okla. and redeliver thermally equivalent quantities to Transco at designated points of redelivery. It is further said that Transco would make deliveries of such gas to Mich Wisc at the well heads or well head separators, and Mich Wisc would construct the gathering facilities necessary to connect the wells in the Mayfield West Field to the Mich Wisc system in Oklahoma. It is said that the redelivery points under the Agreement are: (1) The tailgate of Mobil Oil Corp.'s Cameron Meadows Processing Plant in Cameron Parish, La., (2) a point of interconnection between the pipeline systems of Mich Wisc and Transco located near Eunice, Acadia Parish, La., and (3) such other redelivery points as may be established by mutual consent of the parties.

It is stated that Mich Wisc expects to control certain gas reserves in Jefferson Davis, Covington and other counties in Mississippi. It is further said that the Agreement provides that Transco would take receipt of all gas Mich Wisc would deliver to Transco at a point in Covington County, Miss. It is said that Transco would redeliver thermally equivalent exchange volumes to Mich Wisc at the above-designated points of redelivery. It is stated that to the extent that the volumes of gas Transco would receive in Mississippi are in excess of the volumes which Mich Wisc would receive in Oklahoma, Transco agrees to transport such excess volumes, by displacement, to Mich Wisc and redeliver such transportation volumes to Mich Wisc at the points of redelivery.

Applicants also request authority to add, from time to time, additional points where Transco may receive Mich Wisc's gas in Mississippi, other than the point described above.

To compensate Mich Wisc for providing the gathering service for Transco's gas supplies in the Mayfield West Field, as described above, it is said that Transco would pay Mich Wisc 9.9 cents per Mcf delivered by Transco to Mich Wisc in such field. Transco would charge Mich Wisc 3.5 cents per Mcf for all excess volumes which it transports.

It is stated that the term of the Agreement would be for a primary term of 15 years from the date of first deliveries by Transco to Mich Wisc in the Mayfield West Field.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 9, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426 a petition to intervene or protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in an subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission, or its designee, on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. CP79-10]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Application

OCTOBER 18, 1978.

Take notice that on October 6, 1978, Transcontinental Gas Pipe Line Corp. (Applicant), P.O. Box 1396, Houston, Tex. 77001, filed in Docket No. CP79-10 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of up to 1,775 dekatherms (dt) equivalent of natural gas on an interruptible basis, all as more fully set forth in the application on file with the Commission and open to public inspection.

Specifically, Applicant requests authorization to transport up to 1,775 dt equivalent per day on an interruptible basis for the account of Carolina Pipeline Co.; NCNG Exploration Corp., an affiliate of North Carolina Natural Gas Corp.; Philadelphia Electric Co.; Piedmont Exploration Co., Inc., an affiliate of Piedmont Natural Gas Co., Inc.; Tar Heel Energy Corp., an affiliate of Public Service Co. of North Carolina, Inc.; Owens-Corning Fiberglas Corp.; UCG Energy Corp., an affiliate of United Cities Gas Co., North and South Carolina Divisions; Rockingham Exploration Co., and affiliate of North Carolina Gas Service Division of Pennsylvania & Southern Gas Co.; Burlington Industries, Inc.; and Devco Enterprises, Inc., and affiliate of Cherokee Brick Co. of North Carolina, Inc., all of which Applicant maintains are existing customers of Applicant, affiliates of such customers, customers of Applicant's distribution customers, or their affiliates. Applicant states that the proposed transportation service would be rendered for such transportation customers, who have joined the Transmac Exploration and Development Program (Transmac), a joint venture exploration and development program formed to finance the search for and development of new natural gas reserves in onshore areas, and in non-Federal waters, in the Gulf Coast region, which received temporary authorization by order of December 21, 1977 in Docket No. CP77-421. Applicant further states that the transportation customers' participation in the Transmac joint venture entitles them to a proportionate working interest in the production in successful discoveries. It is stated that such a discovery has been developed in the State Tract 889-S Field, Mustang Island Area, offshore Nueces County, Tex., and Applicant proposes to transport such customers' interests in the discovery to existing points of delivery to its distributors and to its

direct industrial customer, Owens-Corning Fiberglas Corp.

The gas would be delivered by the producers to the Lovera Pipeline Co. appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. ER77-311]

Washington proposes an effective date of September 14, 1978, and therefore requests waiver of the Commis- would not exceed $500,000 with the cost of no single project to exceed $125,000, which costs Applicant would tion to intervene is filed within the time required herein, if the Commission on its own review of the matter

direct industrial customer, Owens-Corning Fiberglas Corp.

The gas would be delivered by the producers to the Lovera Pipeline Co. (Lovera) for delivery to United Gas Pipe Line Co. (United) in Nueces County, Tex., it is said. United would then transport and deliver the gas to Applicant at an existing point of connection between their two systems, it is stated. Applicant further states that it would construct 1.12 miles of 4-inch pipeline to connect Lovera's facilities with United's existing 12-inch pipeline pursuant to Applicants' budget-type certificate.

Applicant states that it would initially charge 23.5 cents and 24 cents per dt equivalent for transportation service into its Rate Zones 2 and 3, respectively. Also, Applicant states that it would initially withhold 3.8 percent and 4.4 percent of the transportation volumes destined for delivery in its Rate Zones 2 and 3, respectively, for compressor fuel and line loss make-up.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 9, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission, or its designee, on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER79-12]

TUCSON GAS & ELECTRIC CO.

Proposed Interconnection Agreement

OCTOBER 17, 1978.

Take notice that on October 6, 1978, Tucson Gas & Electric Co (Tucson), tendered for filing an interconnection agreement between it an Tri-State Generation & Transmission Association, Inc. (Tri-State) dated September 1, 1978. Tucson states that the primary purpose of this interconnection agreement is to provide for the exchange of capacity and energy between the electric systems of the parties.

Tucson states that services may be provided under three Service Schedules:

1. Service Schedule A—Emergency Assistance.
2. Service Schedule B—Economy Energy Interchange.
3. Service Schedule C—Banked Energy.

Tucson requests an effective date of September 1, 1978, for this interconnection agreement with a term that shall remain in force until and unless canceled upon thirty (30) days notice by either party.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions and protests should be filed on or before October 24, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. ER77-311]

UTAH POWER & LIGHT CO.

Further Extension of Time

OCTOBER 12, 1978.

On October 3, 1978 Lincoln Service Corp. filed a motion for a further extension of time for the filing of briefs on exceptions to the initial decision issued in this proceeding on June 12, 1978.

Three earlier requests by the same party have been granted, the last extension being until October 2, 1978. The motion states the previous extensions was sought because Utah was to file additional rate data with the Commission which would enable Lincoln to determine whether the dispute between it and Utah is moot. This data has still not been filed and Lincoln seeks a further extension. The motion states that Utah does not oppose the motion.

Upon consideration, notice is hereby given that an extension of time is granted to and including November 2, 1978 for the filing of briefs on exceptions. Briefs opposing exceptions are due on or before November 22, 1978.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. ER79-13]

WASHINGTON WATER POWER CO.

Filing

OCTOBER 18, 1978.

Take notice that on October 10, 1978, the Washington Power Co. (Washington) tendered for filing copies of a service schedule applicable to what Washington refers to as "Storage Agreement" between Washington and the San Diego Gas & Electric Co. (San Diego). Washington states that this "Storage Agreement" would apply to the delivery of energy to San Diego which could be stored for Washington's future requirements.

Washington further states that the purchase of this energy by San Diego is dependent on such energy being found at some future date to be surplus to Washington's requirements. Washington indicates that the rate at which such energy is purchased by San Diego is 12 mills per kilowatthour computed in accordance with the formula rate specified in Washington's tariff, FPC No. 88. Washington further indicates that if the energy is not surplus to Washington's requirements, San Diego will return such energy under the provisions outlined in the Agreement.

Washington proposes an effective date of September 14, 1978, and therefore requests waiver of the Commission's notice requirements.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 1.10). All such petitions or protests should be filed on or before October 30, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-30152 Filed 10-24-78; 8:45 am]

[6740-02-M]

[Docket No. CP79-12]

WESTERN TRANSMISSION CORP.

Application

OCTOBER 18, 1978.

Take notice that on October 10, 1978, Western Transmission Corp. (Applicant), 2700 Fidelity Union Tower, Dallas, Tex. 75201, filed in Docket No. CP79-12 an application pursuant to section 7(c) of the Natural Gas Act and section 157.7(b) of the Commission's Regulations under the Natural Gas Act (18 CFR 157.7(b)) for a certificate of public convenience and necessity authorizing the construction, during the 12-month period commencing on the date of the order granting the requested authorization, and operation of facilities to enable Applicant to take into its certificated main pipeline system natural gas which would be purchased from producers or other similar sellers thereof, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in connecting to its pipeline system supplies of natural gas which may become available from various producing areas generally coextensive with its pipeline system or the systems of other pipeline companies which may be authorized to transport gas for the account of or exchange gas with Applicant.

Applicant states that the total cost of the proposed gas purchase facilities would not exceed $500,000 with the cost of no single project to exceed $125,000, which costs Applicant would finance from cash on hand and from cash generated from normal internal sources and from short-term bank loans and other short-term borrowings utilized in the normal operation of Applicant's total business.

Applicant recognizes that the proposed budget-type authorization for the construction of gas-purchase facilities has an estimated total cost and estimated single project cost in excess of the amounts specified in subparagraph (1) (i) and (ii) of section 157.7(b) of the Commission's Regulations. Consequently, pursuant to subparagraph (2) of section 157.7(b) of the Commission's Regulations, Applicant requests waiver of the cost limitations so as to allow for a total project cost and estimated single project cost in excess of the amount specified in subparagraph (1) (i) and (ii). Applicant states that the purpose of the budget-type authorization cannot be served in its situation by an authorization limited to a total of $150,000 and $37,500 for each project. Applicant asserts that its cost of laying 4-inch pipe, which includes right-of-way, surface damage, material costs, transportation costs and construction costs is approximately $40,000 per mile, and that under a budget-type authority of $37,500 per project, it can lay less than 5,000 feet of pipe to connect new supplies of natural gas; whereas, with the proposed authority of $125,000 per project, it could lay up to 16,500 feet of pipe.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 9, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

NATIONAL DRINKING WATER ADVISORY COUNCIL

Open Meeting

Under section 10(a)(2) of Pub. L. 92-423, the Federal Advisory Committee Act, notice is hereby given that a meeting of the National Drinking Water Advisory Council established under Pub. L. 93-523, the Safe Drinking Water Act, will be held at 9 a.m. on November 30, 1978 and at 8:30 a.m., December 1, 1978, at the Torresdale Water Treatment Plant, 9001 State Road, Philadelphia, Pa.

The purpose of the meeting will be to observe the operation of a drinking water treatment plant including the pilot testing of granular activated carbon treatment facilities for the removal of organic contaminants. Other issues to be discussed will include regional water supply programs, and the sharing of information on the implementation of the safe drinking water program in a nonprimacy State.

Both days of the meeting will be open to the public. The Council encourages the hearing of selected outside statements and will allocate a portion of the meeting time for public participation. Any outside parties interested in presenting an oral statement should petition the Council in writing. The petition should include the general topic of the proposed statement and the petitioner's telephone number.

Any person who wishes to file a written statement can do so before or after a Council meeting. Accepted written statements will be recognized at Council meetings.

Any member of the public wishing to attend the Council meeting, present a oral statement, or submit a written

[6560-01-M]

[FRL 993-6; PP 6G1862, 7G1903, and 8G2020/T170]

PESTICIDE PROGRAMS

Establishment of Temporary Tolerances

Monsanto Agricultural Products Co., 800 North Lindbergh Boulevard, St. Louis, Mo. 63166, submitted three pesticide petitions (PP 6G1862, 7G1903, and 8G2020), to the Environmental Protection Agency (EPA). These petitions requested that temporary tolerances be established for combined residues of the herbicide glyphosate (*N*-(phosphonomethyl)glycine) and its metabolite aminomethylphosphonic acid in or on the raw agricultural commodities pome fruits (PP 6G1862), fresh alfalfa, alfalfa hay (PP 7G1903), and avocados (PP 8G2020) at 0.2 part per million (ppm) and the liver and kidney of cattle, goats, hogs, horses, poultry, and sheep at 0.5 ppm (PP 7G1903).

These temporary tolerances will permit the marketing of the above raw agricultural commodities when treated in accordance with experimental use permits that have been issued under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended (86 Stat. 973, 89 Stat. 751; 7 U.S.C. 136(a) et seq.).

An evaluation of the scientific data reported and other relevant material showed that the requested tolerances were adequate to cover residues resulting from the proposed experimental use. A nitrosamine compound, which is a suspect carcinogen, appears in the formulations as an impurity. However, no residues of the compound are present at detectable levels in the raw agricultural commodities. Thus, it was determined that the temporary tolerances would protect the public health. The temporary tolerances have been established for the pesticide, therefore, with the following provisions:

1. The total amount of the pesticide to be used must not exceed the quantity authorized by the experimental use permits.

2. Monsanto Co. must immediately notify the EPA of any findings from the experimental uses that have a bearing on safety. The firm must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

Residues not in excess of 0.2 ppm remaining in or on pome fruits, fresh alfalfa, alfalfa hay, and avocados and 0.05 ppm remaining in the liver and kidney of cattle, goats, hogs, horses, poultry, and sheep will not be considered actionable if the pesticide is legally applied during the term of and in accordance with the provisions of the experimental use permits and temporary tolerances. These temporary tolerances may be revoked if the experimental use permits are revoked or if any scientific data or experience with these pesticides indicate such revocation is necessary to protect the public health. Inquiries concerning this notice may be directed to Mr. Robert Taylor, Product Manager (PM) 25, Registration Division (TS-767), Office of Pesticide Programs, East Tower, 401 M Street SW., Washington, D.C. 20460, 202-426-2632.

(Sec. 408(j) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(j)).)

Dated: October 18, 1978.

DOUGLAS D. CAMPT,
Acting Director, Registration Division.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 994-3]

RECEIPT OF ENVIRONMENTAL IMPACT STATEMENTS

President Carter's Reorganization Plan No. 1 (see President's Message of July 15, 1977) transferred certain functions from the Council on Environmental Quality (CEQ) to the Environmental Protection Agency (EPA). Some of these funtions relate to operational duties associated with the administrative aspects of the environmental impact statement (EIS) process. In Memorandum of Agreement No. 1 entered into between CEQ and EPA, dated March 29, 1978, it was agreed that EPA would be the official recipient of EIS's and would publish the availability of each EIS received on a weekly basis. This is the duty formerly carried out by CEQ pursuant to § 1500.11(c) of the CEQ Guidelines.

Review periods for draft and final EIS will be computed as follows: The 45-day review period for draft EIS's will be computed from the Friday following the week which is being reported; the 30-day wait period for final EIS's will be computed from the date of receipt of the EIS by EPA and commenting parties.

The following is a list of environmental impact statements received by the Environmental Protection Agency from October 9, 1978 through October 13, 1978; the date of submission of comments on draft EIS's as computed from October 20, 1978 is December 4, 1978.

Copies of individual statements are available for review from the originating agency. Back copies are also available at 10 cents per page from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

Dated: October 20, 1978.

PETER L. COOK,
Acting Director, Office of Federal Activities.

FOREST SERVICE

Draft

Landmark Planning Unit, Boise National Forest, Ada County, Idaho, October 11: Proposed are 10 alternatives and a selected plan for the Landmark Planning Unit located in the Boise National Forest, Ada County, Idaho. Under the proposed plan, timber harvest would be phased in at optimum rates of 5 million board feet per year for a 10-year period. The planning unit would be divided into seven management areas. Some features of the alternatives considered are: (1) Timber harvest, (2) sediment levels, (3) wilderness study areas, (4) wildlife habitat values, and (5) recreation development. (USDA-FS-R4-DES(ADM)-R4-78-10). (EPA Order No. 81105.)

Malheur National Forest, 10-year timber resource plan, several counties, Oregon, October 12: Proposed is a 10-year timber resource management plan for 1,540,423-acre Malheur National Forest located in Grant, Harney, Baker, and Malheur Counties, Oreg. The preferred alternative is an intensive management plan which will include: (1) A current level cut of 203.3 million board feet; (2) prompt reforestation; (3) stocking level control; (4) release of all plantations from other vegetative competitions; (5) construction of an average of 72 miles of road annually; and (6) other management features. (DES-06-04-78-16). (EPA Order No. 81113.)

Burnt Powder Planning Unit, Wallowa-Whitman National Forest, several counties, Oregon, October 12: Proposed is a land Management plan for the Burnt Powder Planning Unit located in the Wallowa-Whitman National Forest in the Counties of Baker, Grant, Malheur, and Union, Oreg. The proposal will cover 670,778 acres of na-

tional forest lands. The preferred alternative includes management or maintenance of: (1) Wood fiber production, (2) big game winter area and habitat, (3) scenic and recreation characteristics, (4) municipal watershed values, (5) wilderness, (6) undeveloped forest characteristics, and (7) other features. (USDA-FS-R6-DES(ADM)-78-17). (EPA Order No. 81114.)

Final

Bear Lake Planning Unit, Caribou National Forest Bear Lake, Franklin, and Caribou Counties, Idaho, October 13: The purpose of the proposed plan is to determine what the long range land management direction should be for the Bear River Planning Unit located in the Caribou National Forest, Bear Lake, Franklin and Caribou Counties, Idaho. Many issues will be raised in this study to address possible conflicts including: (1) Recreation v. water quality and wildlife; (2) timber harvest v. roadless areas, local economy; (3) grazing v. local economy, wildlife, aquatic environment (fish); (4) transportation v. water quality; (5) private land development v. resource management. The Bear Lake Planning Unit contains 343,289 acres of national forest lands, State and private lands. (FS-R4-78-4.) Comments made by: DOI, USDA, EPA, DOE, State agencies, groups, individuals, and business. (EPA Order No. 81116.)

Beartooth Face Unit Plan, Montana, Wyoming, several counties, Montana and Wyoming, October 11: Proposed are the selection and implementation of a land management plan for the 239,680 acre Beartooth Face Planning Unit: Custer, Mont., Gallatin Mont., and Shoshone, Wyo., National Forests. Park County, Wyo., contains 10,934 acres of the planning unit and the remainder is in Carbon, Stillwater, Sweet Grass, and Park Counties, Mont. Five alternate plans are presently being considered. The preferred plan proposes to use both surface and subsurface resources, but to the extent possible, development would be balanced with protection of existing soil, air, water, visual, recreation, and wildlife values. (USDA-FS-ADM-FES-01-08-77-11.) Comments made by: DOI, DOE, EPA, USDA, State and local agencies, groups, individuals, and businesses. (EPA Order No. 81102.)

RURAL ELECTRIFICATION ADMINISTRATION

Final

Black Fox Station Unis 1 and 2, guaranteed loan, Rodgers County, Okla. October 12: This statement concerns the use of REA guaranteed loan funds by Western Farmers Electric Cooperative, of Anadarko, Okla. and Associated Electric Cooperative, Inc., to finance a 30.13 percent undivided ownership interest in units 1 and 2 of the Black Fox Station, Rodgers County, Okla., consisting of two boiling water reactors. Steam turbine generators would use this heat to provide 1,150 megawatts of electrical power capacity per unit. (USDA-REA-EIS-ADM-78-4-F.) Comments made by: USDA, EPA, DOI, State agencies, groups and individuals. (EPA Order No. 81110.)

U.S. ARMY CORPS OF ENGINEERS

Contact: Dr. C. Grant Ash, Office of Environmental Policy Department, Atn: DAEN-CWR-P, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, 202-693-6795.

Draft

Manatee Harbor, Channel maintenance, Manatee County, Fla., October 12: Proposed is the maintenance of Manatee Harbor and Channel; the construction of a widened turning area at the intersection of the channel with the main Tampa Harbor Channel; and construction of a turning basin adjacent to the Port Manatee berthing area, part of an existing 60 acre island will be modified to form about 7 acres at about 2 feet mean low water to mitigate the loss of an equal area of sea-grassed bay bottom consequent to turning basin construction. The project will involve 164 acres for material fill area and is entirely located in Manatee County, Fla. (Jacksonville district). (EPA Order No. 81111.)

Large unnamed creek, Loves Park, Winnebago County, Ill., October 10: Proposed is a flood prevention plan for large unnamed creek in Loves Park, Winnebago County, Ill. The recommended plan consists of 15,500 L.F. of concrete and 2,400 L.F. of riprap channel improvements; use of 66 acres of existing gravel pits for ponding purposes with installation of a pumping station and a gravity outlet; removal of nine bridges; and construction of four new bridges. Alternatives include: (1) No action, (2) nonstructural solutions of flood plain evacuation, flood proofing, and flood insurance; and (3) structural measures of channel improvements, underground conduits, and reservoirs (Rock Island District). (EPA Order No. 81100.)

Final

Navigation season extension demonstration, fiscal year 1979: October 13: The proposed fiscal year 1979 navigation season extension demonstration program is part of an on-going investigation to demonstrate the practicability of certain enabling measures for extending the commercial navigation season on the Great Lakes-St. Lawrence Seaway system. This proposal covers only the demonstration of various methods needed to extend the navigation season and is not an environmental statement for the extension of the winter navigation season (Detroit District). Comments made by: DOI, DOT, USCG, USDA, FERC, DOE, DOC, EPA, State and local agencies, and groups. (EPA Order No. 81122.)

Final supplement

Channel/levee improvement, east fork Trinity River, Kaufman County, Tex., October 11: This supplemental statement updates information on the environmental statement relative to the increment I portion of the east fork channel and levee improvement of the authorized project, Lavon Reservoir enlargement and east fork channel and levee improvement. The final EIS for Lavon Dam and Reservoir modification and east fork channel improvement was filed with CEQ on March 29, 1971, and is considered inadequate by current standards. An updated EIS on the Lavon Dam and Reservoir was filed with CEQ on July 23, 1976. This proposal will improve channel and utilized excavated material to raise and strengthen associated levees to protect agricultural lands (Fort Worth District). Comments made by: EPA, USDA, DOT, DOI, HEW, DOE, State and local agencies, groups, and businesses. (EPA Order No. 81103.)

Toa Alta Heights development, Toa Alta, P.R., October 13: Proposed is the issuance of HUD home mortgage insurance for development of two sections of the Toa Alta Heights development, Toa Alta, P.R. The two sections involved, when completed, will provide 1,729 dwelling units and will involve 198.61 acres of land. Development will include both single and multufamily units, and community facilities. (EPA Order No. 81118.)

Final

Colony Creek Village, subdivision, Harris County, Tex., October 11: The proposed action is for the Department of Housing and Urban Development to accept for HUD-FHA mortgage insurance purposes, the proposed Colony Creek Village subdivision which is located in northwestern Harris County, Tex., about 20 miles northwest of downtown Houston. The 181.73 acre site is north of and adjacent to Louetta Road. When completed in 5 years, the subdivision will contain approximately 818 single family homes plus recreational facilitles to serve the subdivision (HUD-RO6-EIS-78-34-F). Comments made by: USDA, COE, EPA, DOI, DOT, HUD, State and local agencies. (EPA Order No. 81107.)

BUREAU OF LAND MANAGEMENT

Draft

Coal resources development, south central Wyoming, several counties, Wyoming and Colorado, October 13: Proposed are three coal mining and reclamation plans and the issuance of rights-of-way necessary to develop coal mines in Sweetwater and Carbon Counties, Wyo. and in Routt and Moffat Counties, Colo. Right-of-way will be used for ancillary facilities related to the project, including: (1) Telephone, power, and two transmission lines; (2) one access and one haul road; (3) a water pipeline and tailing pond; and (4) a State highway. Surface ownership of these lands includes Federal, State, and private. (DES-78-44.) (EPA Order No. 81119.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, U.S. Department of Transportation, 400 7th Street SW., Washington, D.C. 20590, 202-426-4357.

FEDERAL HIGHWAY ADMINISTRATION

Draft

Gretna Fish Hatchery Road, Louisville West, Sarpy County, Nebr., October 11: Proposed are two projects involving the improvement of approximately 11 miles of N-31 in Sarpy County, Nebr. The Gretna Fish Hatchery Road Project involves reconstruction of approximately 5 miles of N-31 from the south ramps of Gretna I-80 to the Schram Park area. The roadway will be a two-lane surfaced highway; will include two new bridges; and will involve relocation in the Schram Park area. The Louisville West project will involve construction of 6 miles of two-lane surfaced highway from the end of Gretna Fish Hatchery Road to the junction of N-31 and N-50 (FHWA-NEB-EIS-78-04-D). (EP A Order No. 81108.)

Final

I-10, 91st Avenue to the junction I-10, Phoenix, Maricopa County, Ariz., October 13: Proposed is the construction of a multilane, directionally-divided, controlled access highway facility for the purpose of connecting I-10 in the Phoenix Metropolitan Area of Maricopa County, Ariz. The proposed section would be a 15-mile, six- or eight-lane freeway extending east from 91st Avenue to the Maricopa Freeway near 20th Street. The I-10 route would follow a corridor approximately one-quarter mile south of McDowell Road from 91st Avenue east to the vicinity of 20th Street and then south to connect with Marlcopa Freeway (FHWA-AZ-EIS-76-1-F). Comments made by: DOT, DOI, EPA, HUD, AHP, COE, State and local agencies, groups, individuals, and businesses. (EPA Order No. 81124.)

Kuakini Highway realignment, Hawaii County, Hawaii, October 13: The proposed Kuakini Highway realignment project, FAP Route 11, is loeated in the North Kona District on the island and county of Hawaii, State of Hawaii. The project is 3.1 miles long, beginning at the intersection of Queen Kaahumanu Highway and Palani Road, and will terminate at the existing Kuakini Highway near the Kealakowaa Heiau. Project implementation will adversely affect the Great Wall of Kuakini and Kona Field system. An unspecified number of displacements will also result (FHWA-HI-EIS-76-01-F). Comments made by: DOI, DOC, AHP, HUD, EPA, HEW, DOT, USDA, State and local agencies, groups, and businesses. (EPA Order No. 81121.)

Dawson/McDowell/Cabarrus Streets—U.S. 70-401, Wake County, N.C., October 11: The proposed action is the improvement of traffic service in the south central portion of the Raleigh, N.C., urban area. The 3.4-mile project extends from the intersection of Dawson and McDowell Streets with Cabarrus Street south to U.S. 70-401, and between Saunders Street on the west and Wilmington Street on the east. Three alternatives are proposed to alleviate the existing traffic congestion and to accommodate traffic demand to the year 2000. Adverse impacts include increased noise and carbon monoxide levels, stream modification, and residential and business dislocation. (FHWA-NC-EIS-76-05-F). Comments made by: USDA, HEW, HUD, COE, EPA, DOT, DOI, State and local agencies, groups, and businesses. (EPA Order No. 81104.)

WA-90 junction WA-5 to vicinity junction WA-405, King County, Wash., October 13: proposed is the construction of an eight-lane interstate freeway (WA-90), extending from junction WA-5 to vicinity junction WA-405. Project length is 6.9 miles. Adverse effects include displacement of residences and businesses, the elimination of native vegetation, and the destruction of a small amount of wildlife. A 4(F) statement is included in reference to Sturgas Park, Judkins Playground and Luther Burbank Park (FHWA-EIS-75-05-F). Comments made by: USDA, DOC, DOD, COE, HEW, HUD, DOI, DOT, EPA, State and local agencies, groups, individuals, and businesses. (EPA Order No. 81120.)

Draft supplement

The Appalachian highway, GA-5, Gilmer County, Ga., October 13: This statement supplements a final EIS filed in April 1978, concerning construction of the Appalachian Highway in Georgia. The statement proposes new alignments for two sections on GA-5, of four-lane, class 1, rural free access highway in Gilmer County. The first section will be approximately 0.6 mile and will extend from 3 miles north of the Piekens/Gilmer County line to a point approximately 3.5 miles north of that line. The second section, a distanee of 1.8 miles, extending from 4 miles north of the Ellijay city limits to a point approximately 6 miles south of the Gilmer/Fannin County line (FHWA-GA-EIS-77-04-DS-2). (EPA Order No. 81115.)

OFFICIAL RETRACTION

It has come to EPA's attention that the following EIS was not distributed to the public at the same time the official filing was made by the originating Agency. Therefore, notice of availability is hereby republished. The official 30-day review period allocated to final EIS will hereby begin on the date stated below.

Contact: George R. Alexander, Jr., Environmental Protection Agency, Region V, 230 South Dearborn Street, Chicago, Ill. 60604, 312-353-2000.

Final

Detroit water pollution control systems, Wayne, Oakland, and Macomb Counties, Mich., October 12: The proposed action involves Federal financial assistance for the upgrading and expansion of an existing regional wastewater treatment plant in the city of Detroit, Mich. The plant capacity would be expanded to treat an average daily flow of 600 MG with a 48-hour sustained peak flow of 1050 MGD. The plan also includes expansion of the associate collection system. Operation, maintenance, financial and management improvement changes will be incorporated as well as modifications to existing contracts and ordinances (EPA region 5). Comments made by: DOI, DOT, DOC, HEW, State and local agency, groups, individuals, and businesses. (EPA Order No. 81051.)

FEDERAL MARITIME COMMISSION

[Docket No. 78-41]

TRAILER MARINE TRANSPORT CORP.—PROPOSED REDUCED AND INITIAL THROUGH RATES AND PROVISIONS BETWEEN U.S. ATLANTIC AND GULF PORTS IN THE U.S. VIRGIN ISLANDS

Order of Investigation

Trailer Marine Transport Corp. (TMT) hs established a new through service in the Atlantic-Gulf Coast/Virgin Islands trade. Governing rates and provisions for this new service have been published in its Tariff FMC-F No. 2, which also apply between U.S. Atlantic and Gulf ports as named and ports in Puerto Rico, and become effective on various dates, the earliest of which is October 15, 1978. The new rate sections establish two separate columns of trailerload minimum weight rates stated in cents per hundred pounds. One column sets forth the rates for trailers not exceeding 20 feet, and the second sets forth the rates for trailers exceeding 20 feet.

International Marine Transport Serv- ices, Inc. (IMTS), filed a formal protest against TMT's proposed new provisions on August 10, 1978. IMTS asks that the proposed amendments be suspended and placed under investigation because they violate section 3 of the Intercoastal Shipping Act, 1933, and sections 16 First and 18(a) of the Shipping Act, 1916.

IMTS states that the new rates are offered by TMT through its wholly owned affiliate or subsidiary, Interisland Intermodal Lines, Inc. (IIL), and involve selected major moving commodities carried by IMTS and essential to its survival. IMTS contends that the high minimum weight applied regardless of trailer size makes it obvious that the proposed through rates are geared to attract high density cargo. IMTS argues that the rates for the smaller trailers are drastically lower than those applied to larger trailers; accordingly, they are neither just nor reasonable and are obviously noncompensatory.

A reply to protest was filed September 12, 1978. According to TMT, IMTS is under the misconception that TMT and IMTS are the only competitors in the United States/Virgin Islands trade. The proposed through rates are designed to be competitive with Tropical Shipping and Construction Co., Ltd. (TSC), a carrier operating ships between Florida ports and the U.S. Virgin Islands. TMT states that two 20-foot trailers occupy a 40-foot slot on the vessel and thus the revenue derived is compensatory.

We do not believe that a suspension of the proposed through rates for a new service which, although lower than the existing combination of local rates, only meet the level of a competing through service, is dictated in this instance.

TSC is the only carrier publishing through rates for this service and upon entering a new trade area any carrier obviously would meet the rates of its competition. To enter a new trade area with a rate level higher than the dominant carrier would leave the new carrier in a noncompetitive position to attract cargo.

While suspension of the proposed changes does not appear to be warranted, conditions surrounding the filed publications would appear to necessitate investigation.

It is our understanding that virtually all of the cargo in the Atlantic Gulf Coast/Virgin Islands trade is presently moving in 20-foot containers. It appears unlikely that this will change even though TMT has published rates which apply to cargo moving in containers exceeding 20 feet. These rates are considerably higher than TMT's rates which apply to containers not exceeding 20 feet. It would seem that no carefully shipper would utilize the higher rate structure. Assuming this to be the case, TMT's rate structure, that is based on containers not exceeding 20 feet should be designed to recover TMT's total costs.

We are instituting this proceeding in part to determine if there are any circumstances under which shippers would be required to accept a 40-foot container with its attendant higher rates. More importantly, we believe that the TMT's rates applying to containers not exceeding 20 feet should be investigated to insure that they are designed to recover total costs attributable to the carriage of this cargo.

It is the Commission's intention to expeditiously resolve the issues in this proceeding. An expedited procedure is herein ordered to enable the Commission to adhere to deadlines imposed by H.R. 6503 to the extent practicable. The procedural schedule set forth in H.R. 6503 has been extend by 60 days, in order to allow TMT, Hearing Counsel and any intervenors to prepare their direct cases.[1]

[1] In order to adhere strictly to the procedural timetable imposed by H.R. 6503 it will

Footnotes continued on next page

V 43 / 207 OCT 25 78

TMT will be required to furnish to Hearing Counsel and any intervenors exhibits and direct testimony in support of the rate changes. Hearing Counsel and any intervenors will be required to file at a later date comparable information supporting their positions. Parties will provide each other with access to underlying material to their exhibits and statements unless the Administrative Law Judge directs for good cause shown that access to specific materials need not be granted. It is anticipated that this will obviate the need for lengthy discovery. After the parties exchange their direct testimony and underlying material, the Administrative Law Judge will convene a prehearing conference at which the parties will discuss issues, attempt to reach stipulations or settlements and submit recommendations identifying all unresolved issues and specifying the type of procedure best suited to resolve them. After consideration of these recommendations, the Administrative Law Judge will issue an appropriate Order limiting the issues and establishing the procedure for their resolution. To the extent possible, evidentiary hearings, if such are necessary, shall be held in one continuous session and shall be completed and the record closed no later than February 20, 1979. The Initial Decision of the Administrative Law Judge shall be submitted in writing to the Commission on or before April 23, 1979, and the Commission will serve the final decision in this proceeding on or before June 25, 1979.

Now, therefore, *it is ordered*, That pursuant to the authority of sections 18(a) and 22 of the Shipping Act, 1916 (46 U.S.C. 817, 821) and section 4 of the Intercoastal Shipping Act, 1933 (46 U.S.C. 845a), an expedited investigation is hereby instituted into the lawfulness of the tariff matters listed in Appendix A for the purpose of making such findings as the facts and circumstances warrant;

It is further ordered, that Trailer Marine Transport Corp. be named Respondent in this proceeding;

It is further ordered, that this proceeding be assigned for public hearing before an Administrative Law Judge of the Commission's Office of Administrative Law Judges and that the hearing be held at a date and place to be determined by the Presiding Administrative Law Judge.

The hearing shall include oral testimony and cross-examination in the discretion of the Presiding Officer only upon a proper showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statements, affidavits, depositions, or other documents or that the nature of the matters in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record;

It is further ordered, that Respondent serve Hearing Counsel and any intervenors with all exhibits and statements of direct testimony in support of the rate changes together with underlying material no later than November 22, 1978;

It is further ordered, that Hearing Counsel and any intervenors serve Respondent with all exhibits and statements of direct testimony in support of their positions together with underlying material no later than December 22, 1978;

It is further ordered, that upon service of their direct testimony, parties will provide each other with access to underlying materials unless the Administrative Law Judge directs for good cause shown that access to specific materials need not be granted;

It is further ordered, that the parties submit to the Administrative Law Judge, at a prehearing conference, recommendations identifying all unresolved issues and specifying the type of procedure best suited to resolve them. After consideration of these recommendations, the Administrative Law Judge will issue an appropriate order limiting the issues and establishing the procedure for their resolution;

It is further ordered, that copies of this Order shall be filed with the appropriate tariff schedules in the Bureau of Compliance of the Federal Maritime Commission;

It is further ordered, that during the pendency of this investigation, TMT will serve the Administrative Law Judge and all parties of record with notice of any tariff changes affecting the material under investigation at the same time such changes are filed with the Commission;

It is further ordered, that (1) a copy of this Order be forthwith served upon the Respondent and upon the Commission's Bureau of Hearing Counsel and published in the FEDERAL REGISTER, and (2) the Respondent and Hearing Counsel be duly served with notice of time and place of hearing.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies) having an interest in this proceeding and desiring to intervene herein should notify the Secretary of the Commission promptly and file petitions for leave to intervene in accordance with Rule 72 of the Commission's rules of practice and procedure (46 CFR 502.72) with a copy to all parties to the proceeding.

By the Commission.

FRANCIS C. HURNEY,
Secretary.

be necessary, in future proceedings, for the carrier to submit its written direct case (including underlying documents) concurrently with the rate increase. Complainants (including Hearing Counsel) will be required to submit their respective written direct cases (including underlying documents) on or shortly after the proposed effective date of the rates. The Commission's Rules of Practice and Procedure will be amended accordingly; but since the prescriptions of H.R. 6503 were not effective when the rates herein were filed, i.e., the written direct case of the carrier was not filed contemporaneously with the rate, the procedures outlined in this Order have been adjusted accordingly.

FEDERAL PREVAILING RATE ADVISORY COMMITTEE

CANCELLATION OF MEETING

Pursuant to the provisions of section 10 of the Federal Advisory Committee Act (Pub. L. 92-463) notice was published in 43 FR 41437 on September 18, 1978, that meetings of the Federal Prevailing Rate Advisory Committee would be held on October 5, October 12, and October 26, 1978. Notice is hereby given that the meeting scheduled for October 26 has been cancelled.

JEROME H. ROSS,
Chairman, Federal Prevailing Rate Advisory Committee.

OCTOBER 24, 1978.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

NATIONAL ADVISORY COUNCIL ON ADULT EDUCATION

Meeting

AGENCY: National Advisory Council on Adult Education.

ACTION: Notice of meeting.

SUMMARY: This notice sets forth the schedule and proposed agenda of a forthcoming meeting of the Program Liaison Committee of the National Advisory Council on Adult Education. This notice also describes the functions of the Council. Notice of this meeting is required under the Federal Advisory Committee Act (Pub. L. 92-463, sec. 10(a)(2)).

DATES: November 15, 1978, 9 a.m. to 10 p.m.; November 16, 1978, 9 a.m. to 2:30 p.m.

ADDRESS: Tucson Marriott Hotel, 180 West Broadway, Tucson, Ariz. 85701.

FOR FURTHER INFORMATION CONTACT:

Dr. Gary A. Eyre, Executive Director, National Advisory Council on Adult Education, 425 13th Street NW., Washington, D.C. 20004, 202-376-8892.

SUPPLEMENTARY INFORMATION: The National Advisory Council on Adult Education is established under section 311 of the Adult Education Act (80 Stat. 1216.20 U.S.C. 1201). The Council is directed to:

Advise the Commissioner in the preparation of general regulations and with respect to policy matters arising in the administration of this title, including policies and procedures governing the approval of State plans under section 306 and policies to eliminate duplication, and to effectuate the coordination of programs under this title and other programs offering adult education activities and services.

The Council shall review the administration and effectiveness of programs under this title, make recommendations with respect thereto, and make annual reports to the President of its findings and recommendations (including recommendations for changes in this title and other Federal laws relating to adult education activities and services). The President shall transmit each such report to the Congress together with his comments and recommendations.

The meeting of the Committee shall be open to the public.

The proposed agenda includes:

Reauthorization legislation.
Committee budget.
Council brochure and annual report.
December forums.
Community school legislation.
Tucson adult and community education visitation.
Liaison contact groups.

Records shall be kept of all Council proceedings, and shall be available for public inspection at the Office of the National Advisory Council on Adult Education, Room 323, Pennsylvania Building, 425 13th Street NW., Washington, D.C. 20004.

Signed at Washington, D.C., on October 19, 1973.

GARY A. EYRE,
Executive Director, National Advisory Council on Adult Education.

National Institutes of Health

AGING REVIEW COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Aging Review Committee, National Institute on Aging, on December 4, 5, 1978, in Building 31C, Conference Room 8, National Institutes of Health, Bethesda, Md.

The meeting will be open to the public from 9 a.m. to 10 a.m. on December 4, for introductory remarks. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code and section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on December 4, from 10 a.m. to adjournment on December 5, for the review, discussion, and evaluation of individual grant applications. These applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications.

Mrs. Suzanna H. Porter, Committee Management Officer, NIA, Building 31, Room 5C07, National Institutes of Health, Bethesda, Md., Area Code 301, 496-5345, will provide summaries of meetings and rosters of Committee members as well as substantive program information.

(Catalog of Federal Domestic Assistance Program No. 13.866, National Institutes of Health.)

Dated: October 17, 1978.

ANIMAL RESOURCES REVIEW COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Animal Resources Review Committee, Division of Research Resources, November 9-10, 1978, at the Zoo Hospital of the San Diego Zoological Society, San Diego, Calif. 92112.

The meeting will be open to the public on November 9 from 8:30 a.m. to 12 noon, during which time there will be a brief staff presentation on the current status of the Animal Resources Program, and on November 10 from 9 to 12 noon, during which time there will be a program demonstration. The Committee will select future meeting dates. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, United States Code and section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on November 9 from 1 p.m. to adjournment for the review, discussion, and evaluation of individual grant applications. These applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material and personal information concerning individuals associated with the applications.

Mr. James Augustine, Information Officer, Division of Research Resources, Room 5B13, Building 31, National Institutes of Health, Bethesda, Md. 20014, 301-496-5545, will provide summaries of the meeting and rosters of the Committee members. Dr Dennis O. Johnsen, Executive Secretary of the Animal Resources Review Committee, Room 5B55, Building 31, National Institutes of Health, Bethesda, Md. 20014, 301-496-5175, will furnish substantive program information.

(Catalog of Federal Domestic Assistance Programs No. 13.306, National Institutes of Health.)

Dated: October 17, 1978.

GENERAL RESEARCH SUPPORT REVIEW COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the General Research Support Review Committee, Division of Research Resources, November 16-17, 1978, from 9

This meeting will be open to the public on November 30, 1978, from 7:30 p.m. to approximately 11 p.m., to review the Committee's policies and procedures. Attendance by the public will be limited to space available.

In accordance with the provisions

V 43/207 0C 2578

1978, in Building 5, Room 216, and on November 3, 1978, in Building 31, Room 7A24, National Institutes of Health, Bethesda, Md.

This meeting will be open to the public on November 1 and 2 from 9 a.m. until recess. During this open session, the permanent staff of the Laboratory of Viral Diseases, the Laboratory of Streptococcal Diseases, and the DNA Recombinant Unit will present and discuss their immediate, past, and present research activities.

In accordance with the provisions set forth in Sections 552b(c)(6), Title 5, United States Code, and section 10(d) of Pub. L. 92-463, the meeting of the Board will be closed to the public on November 3 from 9 a.m. to adjournment from the review, discussion, and evaluation of individual intramural programs and projects conducted by the National Institute of Allergy and Infectious Diseases, including consideration of personal qualifications and performance, and the competence of individual investigators.

Mr. Robert L. Schreiber, Chief, Office of Research Reporting and Public Response, National Institute of Allergy and Infectious Diseases, Building 31, Room 7A32, National Institutes of Health, Bethesda, Md., telephone 301-496-5717, will provide summaries of the meetings and rosters of the Board member.

Dr. Kenneth W. Sell, Executive Secretary, Board of Scientific Counselors, NIAID, NIH, Building 5, Room 137, telephone 301-496-2144, will provide substantive program information.

(Catalog of Federal Domestic Assistance Program No. 13-301, National Institutes of Health.)

Dated: October 18, 1978.

SUZANNE L. FREMEAU,
Committee Management Officer,
National Institutes of Health.

BOARD OF SCIENTIFIC COUNSELORS, NIEHS

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Board of Scientific Counselors, National Institute of Environmental Health Sciences, December 5, 6, and 7, 1978, Building 18 Conference Room, National Institute of Environmental Health Sciences, Research Triangle Park, N.C.

This meeting will be open to the public from 9 a.m. to 4 p.m. on December 5 and 6, for the purpose of discussing recent developments in the Institute's budget, personnel, permanent facilities, contracts, scientific programs, and plans of the Laboratory of Environmental Biophysics, Laboratory of Behavioral and Neurological Toxicology, and the Inhalation Toxicology Section, Environmental Biology and Chemistry Branch. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in section 552b(c)(6) title 5, United States Code, and section 10(d) of Pub. L. 92-463, the meeting will be closed to the public from 9 a.m. to adjournment on December 7 for the evaluation of the program of the Laboratory of Environmental Biophysics, Laboratory of Behavioral and Neurological Toxicology, and the Inhalation Toxicology Section, Environmental Biology and Chemistry Branch, including the consideration of personnel qualifications and performance, the competence of individual investigators, and similar items, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

The Acting Executive Secretary, Dr. David G. Hoel, Acting Scientific Director, National Institute of Environmental Health Sciences, Research Triangle Park, N.C. 27709, telephone 919-541-3205, will furnish summaries of the meeting, rosters of committee members, and substantive program information.

Dated: October 18, 1978.

SUZANNE L. FREMEAU,
Committee Management Officer,
National Institutes of Health.

CANCER RESEARCH MANPOWER REVIEW COMMITTEE

Renewal

The Director, National Institutes of Health, announces the renewal on October 13, 1978, of the Cancer Research Manpower Review Committee, under the authority of section 410A(a) of the Public Health Service Act (42 U.S.C. 286e). Such advisory committees shall be governed by the provisions of the Federal Advisory Committee Act, as amended (Pub. L. 92-463) setting forth standards governing the establishment and use of advisory committees.

This committee provides to the Director, NCI, and the Director, Division of Cancer Research Resources and Centers, advice concerning review for merit of National Research Service Fellowship Awards. The committee will terminate October 13, 1980, unless renewed by appropriate action as authorized by law.

Dated: October 17, 1978.

DONALD S. FREDRICKSON,
Director,
National Institutes of Health.

CLINICAL TRIALS REVIEW COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the Clinical Trials Review Committee, National Heart, Lung, and Blood Institute, November 26-27, 1978, at the Holiday Inn of Bethesda, 8120 Wisconsin Avenue, Bethesda, Md.

This meeting will be open to the public from 8 p.m. to 8:30 p.m. on November 26, 1978, to discuss administrative details and to hear a report concerning the current status of the National Heart, Lung, and Blood Institute. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in section 552b(c)(6), Title 5, U.S. Code and section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on November 26, 1978 from 8:30 p.m. to adjournment, and on November 27, 1978 from 8:30 a.m. to adjournment, for the review, discussion and evaluation of two individual grant applications. These applications and the discussion could reveal personal information concerning individuals associated with these applications.

Mr. York Onnen, Chief, Public Inquiries and Reports Branch, NHLBI, National Institutes of Health, Building 31, Room 5A-03, phone 301-496-4236, will provide summaries of the meeting and rosters of the committee members. Dr. Fred P. Heydrick, Chief, Research Contracts Review Section, Division of Extramural Affairs, NHLBI, Westwood Building, Room 548B, phone 301-496-7363, will furnish substantive program information.

(Catalog of Federal Domestic Assistance Program No. 13.837, National Institutes of Health.)

Dated: October 17, 1978.

SUZANNE L. FREMEAU,
Committee Management Officer,
National Institutes of Health.

GENERAL RESEARCH SUPPORT REVIEW COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the

General Research Support Review Committee, Division of Research Resources, November 16-17, 1978, from 9 a.m. to 5 p.m. in Building 31, Conference Room 9, National Institutes of Health, Bethesda, Md. 20014.

This meeting will be open to the public from 9 a.m. to 1:30 p.m. on November 16, 1978, to discuss administrative matters relating to the programs. Attendance by the public will be limited to space available.

In accordance with provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code and section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on November 16, 1978, from 1:30 p.m. to 5 p.m., and on November 17, 1978, from 9 a.m. to adjournment for the review, discussion and evaluation of individual grant applications submitted on the Minority Biomedical Support Program. These applications and discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications.

Mr. James Augustine, Information Officer, Division of Research Resources, National Institutes of Health, Building 31, Room 5B13, Bethesda, Md. 20014, telephone 301-496-5545, will provide summaries of meetings and rosters of committee members.

Dr. Sidney A. McNairy, Jr., Executive Secretary of the General Research Support Review Committee, Building 31, Room 5B33, Bethesda, Md. 20014, telephone 301-496-6743 will furnish substantive program information.

(Catalog of Federal Domestic Assistance Programs No. 13.375, National Institutes of Health.)

Dated: October 17, 1978.

SUZANNE L. FREMEAU,
Committee Management Officer,
National Institutes of Health.

SUBCOMMITTEE ON ENVIRONMENTAL MUTAGENESIS OF THE DHEW COMMITTEE TO COORDINATE TOXICOLOGY AND RELATED PROGRAMS

Report

A report of the Subcommittee on Environmental Mutagenesis entitled "Approaches to Determining the Mutagenic Properties of Chemicals: Risk to Future Generations" was published in the Journal of Environmental Pathology and Toxicology 1: 301-352, 1977.

Notice is hereby given that reprints of the published report are available from:

Ms. Ronda Rice, National Institute of Environmental Health Sciences, P.O. Box 12233, Research Triangle Park, N.C. 27709

The purpose of this report is to review existing techniques to determine the mutagenic properties of various chemicals and to explore the present state of the art of mutagenic testing.

Dated, October 14, 1978.

DONALD S. FREDRICKSON,
Director,
National Institutes of Health.

[FR Doc. 78-30074 Filed 10-24-78; 8:45 am]

[4110-08-M]

SUBCOMMITTEE ON INHALATION TOXICOLOGY OF THE DHEW COMMITTEE TO COORDINATE TOXICOLOGY AND RELATED PROGRAMS

Report

The report of the Subcommittee on Inhalation Toxicology was published in the Journal of Environmental Pathology and Toxicology 1: 353-381, 1977.

Notice is hereby given that reprints of the published report are available from:

Ms. Ronda Rice, National Institute of Environmental Health Sciences, P.O. Box 12233, Research Triangle Park, N.C. 27709.

Based on an in-depth analysis of an 85 percent response to 81 letters of inquiry to academic institutions, government agencies and private organizations on the national needs in inhalation toxicology, it was concluded that:

1. Facilities for inhalation toxicology are not currently the major problem,

2. Manpower shortage is the most significant obstacle to expansion of needed programs, and

3. Methods development is essentially being ignored in favor of fundamental research on mechanisms and screening/testing programs.

The Subcommittee recommended that:

1. The Federal Government should stimulate and support an accelerated program to train inhalation toxicologists,

2. Government agencies should take the lead role in assuring methods development and protocol improvement for more efficient and effective safety assessment,

3. The private sector should conduct much of the screening/testing programs, and

4. A survey with periodic updating should be conducted by the Federal Government and a facilities roster of inhalation laboratories should be maintained.

Dated: October 14, 1978.

DONALD S. FREDRICKSON,
Director,
National Institutes of Health.

Public Health Service

QUALIFIED HEALTH MAINTENANCE ORGANIZATIONS

Notice is hereby given, pursuant to 42 CFR § 110.605, that in the month of August 1978, the following entities have been determined to be qualified health maintenance organizations (HMO's) under section 1310(d) of the Public Health Service Act (42 U.S.C. 300e-9(d)).

In addition, revised service areas are announced at the end of the list with respect to three previously qualified HMO's.

QUALIFIED HEALTH MAINTENANCE ORGANIZATIONS

NAME, ADDRESS, SERVICE AREA, AND DATE OF QUALIFICATION

(Operational Qualified Health Maintenance Organizations: 42 CFR § 110.603(a))

1. Matthew Thornton Health Plan, Inc. (Staff Model, see sec. 1310(b)(1) of the Public Health Service Act), 591 West Hollis Street, Nashua, N.H. 03060. Service area: Communities of: Nashua, Amherst, Brookline, Hollis, Hudson, Litchfield, Londonderry, Lyndeboro, Mason, Merrimack, Milford, Mont Vernon, Pelham, Wilton, and Windham, N.H. Date of qualification: August 15, 1978.

2. Prepaid Health Care, Inc. (Staff Model, see sec. 1310(b)(1) of the Public Health Service Act), 1417 South Belcher Road, Clearwater, Fla. 33516. Service area: Pinellas County, Fla. Date of qualification: August 3, 1978. (Achieved preoperational qualification on Aug. 2, 1978.)

(Transitionally Qualified Health Maintenance Organizations: 42 CFR § 110.603(b))

3. Arizona Health Plan, Inc. (Medical Group Model, see sec. 1310(b)(1) of the Public Health Service Act), 4811 North Seventh Street, Phoenix, Ariz. 85014. Service area: Maricopa County and the unincorporated area of Pinal County, known as Apache Junction. Date of qualification: August 24, 1978.

4. ABC HMO, Inc. (Medical Group Model, see sec. 1310(b)(1) of the Public Health Service Act), 4747 North 22d Street, Phoenix, Ariz. 85016. Service area: Maricopa County and the unincorporated area of Pinal County known as Apache Junction. Date of qualification: August 3, 1978.

(Preoperational Qualified Health Maintenance Organization: 42 CFR § 110.603(c))

5. The Health Care Plan, Inc. (Staff Model, see sec. 1310(b)(1) of the Public Health Service Act), 664 Ellicott Square Building, Buffalo, N.Y. 14203. Service area: Erie County, N.Y. Date of qualification: August 31, 1978.

The following HMO's were determined to have been operationally qualified in the month of April:

1. Crossroads Health Plan (Individual Practice Association, see sec. 1310(b)(2)(A) of the Public Health Service Act), 141 South Harrison Street, East Orange, N.J. (city of Newark to be included beginning Nov. 1, 1978). Date of qualification: April 1, 1978. (Achieved preoperational qualification on Mar. 17, 1978 (43 FR 20560).)

2. Health Maintenance Organization of Baton Rouge, Inc. (Medical Group Model, see sec., 1310(b)(1) of the Public Health Service Act), 9151 Interline Avenue, Baton Rouge, La. 70609. Service area: Parishes of Ascension, East Baton Rouge, Livingston, and West Baton Rouge, La. Date of qualification: April 3, 1978. (Achieved preoperational qualification on Mar. 13, 1978 (43 FR 20560).)

Revised Service Areas

Service areas listed in the annual cumulative list of qualified HMO's and published on April 7, 1978, in the FEDERAL REGISTER (43 FR 14908-13) are revised as follows:

1. Family Health Services, Inc., d.b.a General Medical Centers Health Plan, 300 South Park, Pomona, Calif. 91766. Service area:

Change from: Eastern Los Angeles County known as the San Gabriel and Pomona Valley area and the western part of San Bernardino County. All of this area lies within a 7-mile radius of a GMCHP medical office. The ZIP codes encompassed by the service area are as follows:

Los Angeles County:		
90601	91723	91765
90602	91724	91766
90606	91731	91767

Wilderness Aspects; Public Meetings

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: Notice is hereby given that the following public meetings will be held to discuss wilderness aspects of roadless areas of 5,000 acres or more that would be crossed by proposed electrical transmission, railroad and pipeline routes for the proposed Intermountain Power Project: Delat—November 14, at 7:30 p.m. in the Delta High School auditorium; Cedar City—November 15, at 7:30 p.m. in the BLM Cedar City district office, 1579 North Main Street; Castle Dale—November 16, at 7:30 p.m. in the Emery County Courthouse; Salt Lake City—November 17, at 7 p.m. in room 1408 of the University Club Building, 136 East South Temple.

The meetings are being held to gain public input for evaluating wilderness aspects of the areas. Information gain from public input and wilderness inventories will be discussed in the draft environmental statement now being prepared by BLM on the proposed power project.

Public comments on the wilderness aspects of the areas will be accepted until December 18. Comments should be mailed to: BLM Utah State Director, University Club Building, 136 East South Temple, Salt Lake City, Utah 84111.

FOR FURTHER INFORMATION CONTACT:

Mr. Don Baxa, BLM Utah State Office, Salt Lake City, 801-524-4229.

Dated: October 16, 1978.

PAUL L. HOWARD,
State Director.

[Int DES 78-46]

DEVELOPMENT OF COAL RESOURCES, CENTRAL UTAH

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft regional environmental impact statement on proposed coal development and associated activities in central Utah. The draft statement concerns a broad area of central Utah and includes the Book Cliffs, Wasatch Plateau, Salina Canyon, the western part of the Sego coal field, the Emery coal fields in east-central Utah, and the communities associated with these fields. The environmental statement is development is developed in two parts: An analysis of the cumulative impacts that would result from projected coal development in the region, and analyses of impacts that would result from specific mining and reclamation plans.

The major analysis in the cumulative statement is based on a projected regional coal production of 24 million tons per year (mty) by the year 1990. This includes full production from ten proposed mines and would supply the peak demand requirements of the proposed Intermountain Power project. Alternative production scenarios of 19 mty and 42 mty by 1990 are presented to to provide a basis for evaluating areas of environmental concern or impact sensitivity at lower and higher production levels. Seven applicants have submitted mining and reclamation plans for 10 proposed mines on existing leases in central Utah. The mines and applicants are the Deadman Canyon mine of AMCA Coal Leasing Inc., Skumpah Canyon mine of the Energy Reserves Group Inc., Mountain States No. 1 mine of the Mountain States Resources Co., Fish Creek and Dugout Canyon mines of the Pacific Gas and Electric Co., McKinnon No. 1 and No. 2 mines of Routt County Development, Ltd., B Canyon mine of the United States Steel Corp., Belina No. 2 and O'Connor mines of Valley Camp of Utah, Inc.

The draft environmental impact statement is available for public review in the U.S. Geological Survey (USGS) Library, 1526 Cole Boulevard, Golden, Colo.; the USGS Library, Room 4A100, 12201 Sunrise Valley Drive, Reston, Va.; USGS Area Mining Supervisor's Office, 8426 Federal Building, 125 South State Street, Salt Lake City, Utah; USGS District Mining Supervisor's Office, 126 Elk Street, Rock Springs, Wyo.; Office of the Regional Manager, Conservation Division, USGS, 7200 West Alameda Avenue, Lakewood, Colo.; Office of the State Director, Bureau of Land Management (BLM), University Club Building, 136 East South Temple, Salt Lake City, Utah; BLM Distict Office, Moab, Utah; BLM District Office, Richfield, Utah; BLM Price River Resource Area Office, Price, Utah; BLM Henry Mountain Resource Area Office, Hanksville, Utah; BLM Denver Service Center Library, Building 50, Federal Center, Denver, Colo.; Forest Supervisor's Office, USDA Forest Service (USFS), Manti-La Sal National Forest, 350 East Main Street, Price, Utah; USFS Ferron District Ranger, 50 South Main Street, Ferron, Utah; USFS Forest Supervisor, Fishlake National Forest, 170 North Main Street, Richfield, Utah; USFS Richfield District Ranger, 55 South First East, Richfield, Utah; USFS Teasdale District Ranger, Teasdale, Utah; USFS Loa District Ranger, Loa, Utah.

Copies will also be available for public review at the following libraries: Utah State University, Logan, Utah; University of Utah, Salt Lake City, Utah; Brigham Young University, Provo, Utah; Weber State College, Ogden, Utah; Southern Utah State College, Cedar City, Utah; Dixie College, St. George, Utah; Carbon College of Eastern Utah, Price, Utah; Sevier County Bookmobile, 83 East Lenter Street, Richfield, Utah; Price Public Library, 159 East Main Street, Price, Utah; Salt Lake City Public Library, 209 East 500 South, Salt Lake City, Utah; Salt Lake County Public Library, 2197 East 7000 South, Salt Lake City, Utah; Richfield Public Library, 83 East Center Street, Richfield, Utah; Carbon-Emery County Bookmobile, 159 East Main Street, Price, Utah; and Northern Arizona University Library, Flagstaff, Ariz.

A limited number of copies are available on request from the USGS Land Information and Analysis Office, Stop 701, Box 25046, Federal Center, Denver, Colo. 80225.

Written comments on the draft statement will be accepted until the close of business, December 26, 1978. All substantive comments received will be considered in preparing the final environmental statement on this proposal. Written comments should be addressed to Director, U.S. Geological Survey, National Center, Mail Stop 108, Reston, Va. 22092.

Notice is also given that oral and written comments will be received at public hearings scheduled on December 5, 1978, at the Salt Palace, Salt Lake City, Utah; on December 6, 1978, at Richfield, Utah; and on December 7, 1978, at Price, Utah. Hearings at all locations will start at 1 p.m. and 7 p.m. and will continue until all who wish to testify have been heard. Anyone wishing to make oral presentations at the hearings should submit their requests in writing at the hearings or by mail to the Federal Task Force Leader, U.S. Geological Survey, 350 South Main Street, Post Office Building, Salt Lake City, Utah 84101. Persons wishing to give oral comments are requested to limit their testimony to 10 minutes. Copies of complete oral statements and written comments presented at the hearings will be made part of the official record.

Dated: October 20, 1978.

LARRY E. MEIEROTTO,
Deputy Assistant Secretary
of the Interior.

[Secretary's Order [3027]

INTERIM LEGISLATIVE AUTHORITY FOR THE TRUST TERRITORY OF THE PACIFIC ISLANDS

This notice is issued in accordance with the provisions of 5 U.S.C. 552(a)(1). The Acting Secretary of the Interior has issued order No. 3027 dated September 29, 1978, to effect an interim reconstitution of the legislative authority of the government of the Trust Territory of the Pacific Islands (TTPI).

The order, which is published in its entirety below, provides interim arrangements for separate legislative authority for the TTPI districts that will become the Federated States of Micronesia, the Marshall Islands and Palau Districts. The concept of legislative and fiscal separation was discussed with members of the political status and transition commissions representing the central districts of the trust territory (the future Federated States of Micronesia) and the Marshall Islands District and the Palau District in Saipan during the week of September 18. These discussions continued through most of the week of September 25 prior to the issuance of the order. The political leadership of the legislative bodies were aware of changes in the legislative and fiscal structure of the trust territory contemplated by the order.

Further information regarding the order may be obtained from Mr. George Milner, Deputy Director, Office of Territorial Affairs, U.S. Department of the Interior, Washington, D.C. 20240, telephone 202-343-4736.

V 43 / 207 OCT 25 78

Dated: October 11, 1978.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

U.S. DEPARTMENT OF THE INTERIOR, OFFICE OF THE SECRETARY

ORDER NO. 3027

Subject: Interim transition to governments based on locally developed constitution—Trust Territory of the Pacific Islands.

Section 1 *Purpose.* The purpose of this order is to effect interim reconstitution of the legislative authority of the Government of the Trust Territory of the Pacific Islands; to provide for new interim legislative authority for the Districts that will become the Federated States of Micronesia (i.e.: Kosrae, Yap, Ponape, and Truk), the Marshall Islands and Palau Districts; to cancel the elections for the Congress of Micronesia scheduled for November 1978; to provide for the segregation of revenues and fiscal matters among the Marshall Islands District, Palau District, and the Districts that will become the Federated States of Micronesia; and to provide; that the High Commissioner shall initiate discussions with appropriate representatives for the purpose of reorganizing the Trust Territory Government to give appropriate effect to governments based on locally developed constitutions in the Marshall Islands, the Palau District, and the Districts which will comprise the Federated States of Micronesia.

Section 2 *Definitions.* For the purpose of this order, the terms belows shall have the following definitions unless the context clearly indicates otherwise:

a. "District" means any one of the chartered or administrative districts of the Trust Territory of the Pacfic Islands not including the Northern Mariana Islands;

b. "Trust Territory Legislature" means any one of the three legislative bodies reconstituted and given paramount local legislative authority pursuant to Section 3 of this order;

c. "Trust Territory statutory law" means the Trust Territory Code and all laws enacted by the Congress of Micronesia and approved by the High Commissioner as of the effective date of this order;

d. "Federated States of Micronesia" means the future political entity which will be comprised of the districts of Kosrae, Yap, Ponape, and Truk.

Section 3 *Legislative Authority.*

a. Except as provided in Section 4d. of this order, the legislative authority of the Government of the Trust Territory is hereby vested in three Trust Territory Legislatures. For the Districts of Kosrae, Yap, Ponape and Truk, this authority shall reside in the "Interim Congress of the Federated States of Micronesia," which shall consist of two houses, the Senate and the House of Representatives. For the District of Palau, this authority shall reside in the "Palau Legislature," which shall be organized according to the terms of the charter of the Palau Legislature in force on the effective date of this order. For the District of the Marshall Islands, this authority shall reside in the "Marshall Islands Nitijela," which shall be organized according to the terms of the charter of the Marshall Islands Legislature in force on the effective date of this order.

b. The authority of each of the three Trust Territory Legislatures shall be co-extensive; each shall enjoy the same relationship with the executive authority of the Government of the Trust Territory; but the authority and responsibility of each of the Trust Territory Legislatures shall not extend beyond the Districts which elect members to it.

c. Each of the Trust Territory Legislatures shall, as to their respective jurisdictions, succeed to the authority of the Congress of Micronesia. As of October 1, 1978, the Trust Territory Legislatures may meet in regular session.

Section 4 *Transition in Legislative Authority.*

a. The election of the Eighth Congress of Micronesia, scheduled for November 7, 1978, is hereby canceled.

b. (1) The members of the Seventh Congress of Micronesia representing the Districts that will constitute the Federated States of Micronesia shall constitute the Interim Congress of the Federated States of Micronesia. Vacancies in membership shall be filled in the same manner as provided in Part III, Section 21 of Secretarial Order 2918.

(2) The terms of the members of the Interim Congress of the Federated States of Micronesia shall extend until such time as the first Congress of the Federated States of Micronesia is elected and organized pursuant to the Constitution of the Federated States of Micronesia.

(3) Provision for election of the Congress of the Federated States of Micronesia not later than March 31, 1979, and organization of that Congress not later than May 15, 1979, shall be made by the Interim Congress of the Federated States of Micronesia.

c. The terms of the members of the Seventh Congress of Micronesia representing the Marshall Islands and the Palau Districts shall expire as provided in Section 4 d. of this order. The Nitijela and the Palau Legislature shall provide by law that such persons shall be members-at-large of their respective Trust Territory Legislatures. The terms of these members-at-large shall be determined by the Nitijela and the Palau Legislature respectively and their compensation shall be no less than that provided by law for the elected members of those Trust Territory Legislatures.

d. Notwithstanding any other provision of this order, the Seventh Congress of Micronesia shall retain its authority and responsibility under Trust Territory law relating to the July 12, 1978, referendum on the Constitution of the Federated States of Micronesia. The authority of the Congress to conduct legislative investigations as set forth in Title 2 of the Trust Territory Code shall remain in effect with respect to the referendum in all six administrative districts. This authority shall not extend beyond November 1, 1978, at which time the Seventh Congress of Micronesia shall be dissolved unless it is earlier dissolved by its own action. During the period of this continued legislative authority of the Seventh Congress of Micronesia, the provisions of the Trust Territory referendum law and the provisions of the Code relating to investigatory authority of the Congress may not be amended by any Trust Territory Legislature or the Congress of Micronesia.

e. The Seventh Congress of Micronesia shall also have the authority to consider and enact such legislation as the High Commissioner may submit relative to the implementation of Section 7 of this order. The terms of office of all members of the Seventh Congress of Micronesia shall expire upon the dissolution of that Congress.

Section 5 *Continuation of Laws.* Trust Territory statutory law shall continue in full force and effect, except as modified by this order, until and unless modified or repealed by appropriate action by any of the Trust Territory Legislatures for its respective jurisdiction. The term "Interim Congress of the Federated States of Micronesia," "Palau Legislature" or "Marshall Islands Nitijela" shall be substituted for the term "Congress of Micronesia" wherever the latter term appears in Trust Territory statutory law in its application to their respective jurisdictions.

Section 6 *Trust Territory-Wide Programs.* Trust Territory Social Security laws shall continue in effect on a Trust Territory-wide basis and Social Security taxes shall continue to be collected, deposited, and administered by the Trust Territory Social Security Fund.

Section 7 *Revenues.*

a. Except as provided by Section 6 of this order, effective October 1, 1978, all taxes, fees, interest, royalties, fines, licenses, and other government charges (hereinafter referred to as "revenues") collected pursuant to any provision of Trust Territory statutory law shall be deposited in full to the treasury of the Trust Territory Legislature having jurisdiction for the District of origin of such revenue, except in the case of those Districts under the legislative jurisdiction of the Interim Congress of the Federated States of Micronesia, in which case the revenues shall be distributed among the Interim Congress of the Federated States of Micronesia and its respective District legislatures in accordance with the provisions of appropriate Trust Territory statutory law.

b. The Revenue Division of the Government of the Trust Territory shall continue to have the authority and responsibility to collect revenues due pursuant to Trust Territory statutory law until such time as any one of the Trust Territory legislatures provides otherwise. During the period of such responsibility, the Revenue Division of the Government of the Trust Territory shall assess each Trust Territory legislature for the actual expense of revenue collection and attendant administrative expenses.

Section 8 *Trust Territory Headquarters.* The High Commissioner shall have the authority to hire such professional and administrative staff as may be necessary to carry out his duties and responsibilities. Reorganization of the Office of the High Commissioner and Trust Territory Government Headquarters as they exist on the effective date of this Order may be made by the High Commissioner including the establishment of new departments, bureaus, offices and lines of authority. Departments, bureau, and office subdivisions and lines of authority shall be set forth in a table of organization approved by the High Commissioner. Actions affecting Federal personnel are subject to the limitations contained in 205 DM 8.1C (6).

Section 9 *Government Reorganization.* Recognizing that this order is an interim step toward reorganization of the Government of the Trust Territory of the Pacific Islands in anticipation of the establishment of constitutional governments and the termination of the Trusteeship Agreement, the High Commissioner is directed to initiate consultations to prepare recommendations to the Secretary of the Interior for additional governmental reorganization giving effect to the maximum possible extent to developing constitutional arrangements consistent with the obligations of the High Commissioner, the Secretary of the Interior, and the United States Government under the Trusteeship Agreement, such laws of the United States as have been extended to the Trust Territory, and Executive Order 11021, as amended. Such consultations shall be completed as soon as practicable and should be completed by December 31, 1978, and recommendations forwarded to the Secretary of the Interior no later than January 5, 1979.

Section 10 *Superseded Authority and Effective Date.*

a. The provisions of Secretarial Order No. 2918, as amended, and other prior orders of the Secretary of the Interior, insofar as they are inconsistent with the provisions of this Order, are hereby superseded.

b. This Order takes effect on October 1, 1978. Its provisions will remain in effect until it is Amended, Superseded, or Revoked, whichever occurs first.

Dated: September 29, 1978.

JAMES A. JOSEPH,
Acting Secretary of the Interior.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-58]

CERTAIN FABRICATED STEEL PLATE PRODUCTS FROM JAPAN

Preliminary Conference

Notice is hereby given that a Preliminary Conference will be held in connection with the above styled investigation at 10 a.m. on Wednesday, November 1, in Room 610 Bicentennial Building, 600 E Street NW., Washington, D.C. Notice of this investigation was published in the FEDERAL REGISTER on September 15, 1978 (43 FR 41299). The purposes of this conference are to review Discovery Statements, to set dates for the final prehearing conference and hearing, and to resolve any other matters necessary to the conduct of this investigation.

If any questions should arise not covered by these instructions, the parties or their counsel shall call the chambers of the undersigned Presiding Officer.

The Secretary shall serve a copy of this notice upon all parties of record and shall publish it in the FEDERAL REGISTER.

Issued October 19, 1978.

JUDGE DONALD K. DUVALL,
Presiding Officer.

[7020-02]

[AA1921-185]

NYLON YARN FROM FRANCE

Determination of No Injury or Likelihood Thereof

On July 18, 1978, the U.S. International Trade Commission received advice from the Department of the Treasury that nylon yarn from France is being, or is likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)). Accordingly, on July 26, 1978, the Commission instituted investigation No. AA1921-185 under section 201(a) of said act to determine whether an industry in the United States is being, or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States. For purposes of Treasury's determination, the term "nylon yarn" refers to nylon yarn and grouped nylon filaments, not textured, provided for in items 309.3030, 309.3130, 310.0149, and 310.0249 of the Tariff Schedules of the United States Annotated (TSUSA).

Notice of the institution of the investigation and of the public hearing held in connection therewith was published in the FEDERAL REGISTER of August 1, 1978 (43 FR 33833). The public hearing was held in Washington, D.C., on August 29, 1978, and all persons requesting the opportunity to appear were permitted to appear by counsel or in person.

In arriving at its determination, the Commission gave due consideration to all written submissions from interested persons and information adduced at the hearing as well as information obtained by the Commission's staff from questionnaires, personal interviews, and other sources.

DETERMINATION

On the basis of information developed in investigation No. AA1921-185, the Commission unanimously determined [1] that an industry in the United States is not being, and is not likely to be injured, and is not prevented from being established by reason of the importation of nylon yarn from France that is being, or is likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended.

STATEMENT OF REASONS OF CHAIRMAN JOSEPH O. PARKER AND COMMISSIONERS BILL ALBERGER, GEORGE M. MOORE, AND CATHERINE BEDELL

In order for a Commissioner to make an affirmative determination in an investigation under the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), it is necessary to find that an industry in the United States is being or is likely to be injured, or is prevented from being established, and the injury or likelihood thereof must be by reason of imports at less than fair value (LTFV).

Determination. On the basis of information obtained in this investigation, we determine that an industry in the United States is not being and is not likely to be injured, and is not being prevented from being established [2] by reason of the importation of nylon yarn and grouped nylon filaments from France, which the Department of the Treasury (Treasury) has determined are being, or are likely to be sold at LTFV.

The imported article and the domestic industry. The subjects of this investigation are nylon yarn and grouped nylon filaments and includes all nylon yarn and grouped nylon filaments, [3] not textured. Nylon yarn and grouped nylon filaments are widely used in three major end use categories: industrial, carpet, and textile. We consider the relevant industry in this investigation to be those facilities in the United States devoted to the production of textile nylon yarn and grouped nylon filaments. At the present time, eight U.S. firms produce these articles.

LTFV sales. Treasury investigated imports during the period August 1, 1977, to January 31, 1978. The investigation was limited to Rhone Poulenc Textiles who is estimated to have accounted for 87 percent of all U.S. imports of nylon yarn and grouped nylon filaments from France. Comparisons were made on 83 percent of the sales from Rhone Roulenc to the United States. LTFV margins were found on 100 percent of the sales compared, with a weighted average margin of 22.4 percent.

The question of injury or likelihood by reason of LTFV sales U.S. imports and market share.—Total imports of textile nylon yarn increased by more than 75 percent between 1975 and 1976, more than 30 percent in 1977 and declined by more than 10 percent

[1] Chairman Parker, Vice Chairman Alberger, and Commissioners Moore and Bedell. Commissioner Stern had not yet assumed her duties as a Commissioner at the time that the determination was made.

[2] Prevention of the establishment of an industry is not an issue and will not be discussed further.

[3] For purposes of its investigation, Treasury defined "nylon yarn" as meaning nylon yarn and grouped nylon filaments, not textured, provided for in items 309.3030, 309.3130, 310.0149, and 310.0249 of the Tariff Schedules of the United States. The commission also has adopted this definition.

in the first 6 months of 1978 from the comparable period of 1977. Imports from France increased 6.2 percent in 1976, 28 percent in 1977, and then

NUCLEAR REGULATORY

I have determined in accordance with subsection 10(d) of Pub. L. 92-463 that it is necessary to close these ses-

hearing, November 29, 1978, in order to be considered by the Section 301 Committee. Interested persons are ad-

V 43 / 207 0 C 25 78

in the first 6 months of 1978 from the comparable period of 1977. Imports from France increased 6.2 percent in 1976, 28 percent in 1977, and then dropped off by 50 percent in the first half of 1978. During the period 1975 to June 1978, imports from France constituted less than 20 percent of total imports. The French nylon yarn accounted for 1.5 percent of total U.S. consumption in 1975, 1.9 percent in 1977 and fell to 0.7 percent in January-June 1978.

U.S. producers' shipments.—Producers' shipments declined from 360.6 million pounds in 1975 to 341.4 million pounds in 1976, then recovered to 366.3 million pounds in 1977. During January-June 1978, domestic shipments have continued to climb to 11.2 million pounds ahead of the comparable period of 1977; an increase of 5.9 percent.

Capacity utilization.—U.S. producers' capacity utilization remained at approximately 80 percent from 1975 through 1977, and has risen to 86 percent in the first half of 1978.

U.S. exports.—U.S. exports of textile nylon yarn closely followed the fluctuations of U.S. producers' domestic shipments. Exports declined by 1.6 million pounds from 1975 to 1976, but then increased 2.9 million pounds to 9.6 million pounds in 1977. During the first half of 1978, exports have increased dramatically over the comparable period of 1977, indicating a growing demand for American yarns in foreign markets.

Inventories.—U.S. producers' inventories have increased from 4.3 percent of domestic shipments at the end of 1975 to 8.6 percent at the end of 1977 and 15.3 percent in the first half of 1978. The inventory turnover ratio dropped during this period but is expected to level off in 1978. The data on inventories and the inventory turnover ratio are affected by the inclusion of data from a particular domestic company experiencing production problems. The inventory turnover ratio is raised significantly when data from this company is excluded.

Consumption.—U.S. consumption declined 1.2 percent from 1975 to 1976, but increased in 1977 to 9 percent over 1976. Consumption has continued to grow in the first two quarters of 1978, increasing 2 percent over the same period in 1977. The low growth rate for the textile nylon yarn industry is due to a number of factors: it is a "mature" industry in which markets are fairly well defined, increased competition from polyester, and lastly, apparently some competition between types of nylon.

Employment.—Both employment and man-hours increased steadily from 1975 to 1977, and have remained level in the first half of 1978.

Profits.—Net profits before taxes for the industry rose from $25.8 million in 1975 to $43.3 million in 1976, then fell off sharply in 1977 to $8.8 million although net sales increased steadily throughout the period. Net profits for 1978 projected to an annual basis indicate an increase of 16 percent over 1977. A portion of the profit loss can be attributed to higher costs. However, in 1976, although expenses rose modestly, the manufacturers average price rises were 10 percent to more than 20 percent, suggesting that prices may have increased before higher expenses occurred, and profits were thereby increased. The low profits in 1977 can also be attributed to the failure of one producer to maintain its market share due to increased competition from another domestic producer, rather than competition from imports.

Prices.—The margin of underselling of imports from France rose steeply in 1976, then dropped in 1977 and 1978 from that reported in 1976. In one of the three representative denier yarns for which price data was collected, prices offered by importers of the French product were higher than those offered by domestic producers by margins ranging from 1 to 6 percent in the period July 1975 through December 1977.

Lost sales.—Of the eight domestic producers, three furnished specific information on lost sales to imports from France. It is apparent from information gathered by the Commission, that quality and availability of the French yarn, as well as the desire of purchasers to develop an alternate source of supply, were all more important factors that price in those instances where purchasers bought the French yarn. Most of those customers no longer buy the French yarn.

Likelihood.—Furthermore, there is no likelihood of injury to the domestic industry producing textile nylon yarn and grouped nylon filaments as a result of LTFV imports from France. Producers shipments, apparent U.S. consumption, capacity utilization net sales, and profits show healthy increases for January-June 1978 in comparison to the comparable period of 1977.

Evidence of anticipated growth in the domestic market for nylon yarn is the fact that a major new producer, Chevron Fibers Co., entered in 1976. Another indication of the improved outlook for the domestic industry is that one of the two largest producers of textile nylon yarn, Monsanto Textiles Co., recently announced price increases of 7 to 9 percent on its textile-denier nylon yarns effective October 1, 1978. In the first 6 months of 1978, imports of textile nylon yarn from France have dropped to 0.7 percent of apparent U.S. consumption. One of the two French exporters, SNIA Viscosa, S.A., has discontinued production of textile nylon yarn for the U.S. market, and Rhone Poulenc plans to gradually curtail its exports to the U.S. market and withdraw completely by 1981.

Summary.—Considering all of these economic factors, it is apparent that this industry is not injured or likely to be injured by reason of imports from France at LTFV. U.S. imports from France have been minimal and have decreased in the first half of 1978; domestic producers shipments have continued to climb since 1976; capacity utilization has risen; U.S. exports have increased dramatically since 1977; inventories have increased, but only due primarily to a domestic company experiencing production problems; employment and man-hours have increased; profits declined in 1977, but due primarily to a number of nonimport related factors; and the lost sales reported were not the result of price. Thus we have found in the negative.

By order of the Commission.

Issued: October 20, 1978.

KENNETH R. MASON,
Secretary.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

ARCHITECTURE, PLANNING, AND DESIGN ADVISORY PANEL

Canceled Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that a meeting of the Architecture, Planning, and Design Advisory Panel to the National Council on the Arts which appeared in the FEDERAL REGISTER, Vol. 43, No. 195, p. 46390, Friday, October 6, 1978, has been canceled. The meeting was originally scheduled to meet November 2, 1978, from 9 a.m. to 5:30 p.m., and on November 3, 1978, from 9 a.m. to 5:30 p.m., in Room 1426, Columbia Plaza Building, 2401 E Street NW., Washington, D.C.

Further information with reference to this meeting can be obtained from Mr. John H. Clark, Advisory Committee management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call 202-634-6070.

JOHN H. CLARK,
Director, Office of Council and Panel Operation, National Endowment for the Arts.

[7590-01-M]

NUCLEAR REGULATORY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS

Meeting With the Federal Republic of Germany Reactor Safety Committee (RSK)

In accordance with the purposes of sections 29 and 182b of the Atomic Energy Act (42 U.S.C. 2039, 2232b), representatives of the Advisory Committee on Reactor Safeguards (ACRS) will meet with representatives of the Reactor Safety Committee (RSK), an advisory body to the regulatory agency for safety of nuclear installations of the Federal Republic of Germany on November 9-11, 1978. The meeting will be held in Room 1046, 1717 H Street NW., Washington, D.C. 20555.

Representatives of the ACRS, the RSK, and the Nuclear Regulatory Commission (NRC) Staff will meet to discuss reactor safety policy and practice in the United States and the Federal Republic of Germany.

The agenda for this meeting will be as follows:

NOVEMBER 9, 1978

8:30 a.m.-9:45 a.m.: Introduction (open).—Representatives of the ACRS and the RSK will present and discuss brief reports regarding the responsibilities and procedures of the respective bodies.

November 9, 1978 (10 a.m.-5 p.m.), November 10, 1978, and November 11, 1978 (closed).—Closed sessions will be held to discuss items related to nuclear plant and component design requirements, engineered safety features design and performance, risk assessment and related methodology, and application of safety research results and operating data to facility design and performance requirements.

Members of the ACRS and the RSK will discuss information considered confidential by the German Government and it will be provided only on the basis that it will be protected from public disclosure.

Procedures for the conduct of and participation in ACRS meetings were outlined in the FEDERAL REGISTER on October 4, 1978 (p. 45926). In accordance with these procedures, oral or written statements may be presented by members of the public. Questions may be asked only by members of the Committee, its consultants, and staff. Persons desiring to make oral statements should notify the ACRS Executive Director as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

I have determined in accordance with subsection 10(d) of Pub. L. 92-463 that it is necessary to close these sessions to insure the security of information identified and supplied by a foreign government as confidential (5 U.S.C. 552b(c)(1)).

Further information regarding topics to be discussed, whether the meeting has been canceled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the ACRS Executive Director, Mr. Raymond F. Fraley (telephone 202-634-3265) between 8:15 a.m. and 5 p.m., Washington, D.C. time.

Dated: October 20, 1978.

JOHN C. HOYLE,
Advisory Committee Management Officer.

OFFICE OF THE SPECIAL REPRESENTATIVE FOR TRADE NEGOTIATIONS

[Docket 301-15]

CERTAIN TELEVISION LICENSES

Hearing

On August 29, 1978, the Chairman of Section 301 Committee received from certain U.S. television licensees a petition under section 301 of the Trade Act (19 U.S.C. 2411) alleging certain unfair trade practices by the Government of Canada. This petition was published in the FEDERAL REGISTER of Wednesday, September 6, 1978 (43 FR 39617). Petitioners have requested a public hearing on their complaint and in the above mentioned FEDERAL REGISTER notice, the date of November 29 was tentatively scheduled for that public hearing. Pursuant to this notice there will be a public hearing on the issues raised in the petition filed by certain U.S. television licensees. The hearing will be held on Wednesday, November 29, and if necessary will continue on Thursday, November 30, 1978. The hearing will be held at the Office of the Special Representative for Trade Negotiations, 1800 G Street NW., Washington, D.C. Room 730, beginning at 10:30 a.m.

Requests to present oral testimony and accompanying briefs must be received in the Office of the Special Representative for Trade Negotiations on or before November 21, 1978. Written briefs from those persons not wishing to present oral testimony should be received in the Office of the Special Representative for Trade Negotiations on or before the date of the hearing, November 29, 1978, in order to be considered by the Section 301 Committee. Interested persons are advised to refer to the regulations promulgated by the Office of the Special Representative for Trade Negotiations covering procedures to be followed in all section 301 proceedings (15 CFR 2006 as amended by FEDERAL REGISTER notice of Tuesday, Oct. 18, 1977 p. 556711.) Please note that all communications to the Chairman of Section 301 Committee should be addressed to the Office of the Special Representative for Trade Negotiations, Room 715, 1800 G Street NW., Washington, D.C. 20506.

a. Submission of briefs and Requests to Present to Oral Testimony. Requests for oral testimony and submission of written Briefs should conform to the procedures set forth in 15 CFR 2006.6 and 2006.7 (found in the FEDERAL REGISTER of Aug. 28, 1978 p. 39497).

b. Rebuttal Briefs. In order to assure parties an opportunity to contest information provided by other interested parties in written briefs and oral testimony, rebuttal briefs may be filed by any party within 15 days after the transcript of the hearing becomes available.

c. Attendance at Hearings. The hearing will be open to the public.

SHIRLEY A. COFFIELD,
Chairman, 301 Committee, Office of the Special Representative for Trade Negotiations.

SECURITIES AND EXCHANGE COMMISSION

[File No. 81-381; Adm. Proceeding File No. 3-5540]

BLOCK ENGINEERING, INC.

Application and Opportunity for Hearing

OCTOBER 17, 1978.

In the matter of Block Engineering, Inc., file No. 81-381.

Notice is hereby given that Bio-Rad Laboratories, Inc. ("Bio-Rad") on behalf of Block Engineering, Inc. ("Applicant") has filed an application pursuant to section 12(h) of the Securities Exchange Act of 1934, as amended (the "1934 Act"), seeking an exemption from the requirements to file reports pursuant to sections 13 and 15(d) of the Exchange Act.

The Applicant states, in part:

1. The Applicant is a Delaware corporation subject to the reporting provisions of sections 13 and 15(d) of the 1934 Act.

2. On July 26, 1978, New Block, Inc., a wholly owned subsidiary of Bio-Rad, merged with and into the Applicant.

3. Pursuant to the terms of this

Notice is hereby given that Farmers Telephone Co. ("Applicant") has filed an application pursuant to section

[8010-01-M]

[File No. 81-409; Administrative Proceeding

For the Commission, by the Division of Corporation Finance, pursuant to

[8010-01-M]

SECURITIES AND EXCHANGE

mary purpose of such measures has been to deter unfriendly takeovers by relying, for the most part, on the

V 43/207 OCT 25 78

2. On July 26, 1978, New Block, Inc., a wholly owned subsidiary of Bio-Rad, merged with and into the Applicant.

3. Pursuant to the terms of this merger, all outstanding shares of Applicant's common stock not held by Bio-Rad and New Block were converted to rights to recieve $4.25 per share. Applicant's common stock was registered under 12(g) of the 1934 Act.

In the absence of an exemption, Applicant is required to file periodic reports pursuant to sections 13 and 15(d) of the 1934 act. Applicant believes that its requests for an order exempting it from the reporting requirements is appropriate in view of the fact that Applicant believes that the time, effort, and expense involved in preparation of additional periodic reports would be disproportionate to any benefit to the public.

For a more detailed statement of the information presented, all persons are referred to said application which is on file in the offices of the Commission at 500 North Capitol Street NW., Washington, D.C.

Notice is further given that any interested person not later than November 13, 1978, may submit to the Commission in writing his views of a hearing thereon. Any such communication or request should be addressed to Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549, and should state briefly the nature of the interest of the person submitting such information or requesting the hearing, the reason for such request, and the issues of fact and law raised by the application which he desires to controvert. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof. At any time after said date, an order granting the application may be issued or upon request or upon the Commission's own motion.

For the Commission, by the Division of Corporation Finance, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[File No. 81-293; Administrative Proceeding File No. 3-5444]

FARMERS TELEPHONE CO.

Application and Opportunity for Hearing

OCTOBER 17, 1978.

In the matter of Farmers Telephone Co., file No. 81-293.

Notice is hereby given that Farmers Telephone Co. ("Applicant") has filed an application pursuant to section 12(h) of the Securities Exchange Act of 1934 (the "1934 Act") for an order granting Applicant an exemption from the provisions of sections 12(g), 13, 14, and 16 of the 1934 Act.

The Applicant states, in part:

1. The operations of the Applicant are limited to Grant County, Wis.;

2. Practically all of Applicant's securities are owned by Wisconsin residents;

3. Applicant currently is required to meet the reporting and review requirements of the Wisconsin Public Service Commission;

4. Applicant's future offerings of equity securities will be restricted to Wisconsin residents; and

5. There is no active trading market for Applicant's debt or equity securities.

Applicant argues that the granting of the exemption would not be inconsistent with the public interest or the protection of investors.

For a more detailed statement of the information presented, all persons are referred to said application which is on file in the offices of the Commission at 500 North Capitol Street, Washington, D.C. 20549.

Notice is further given that any interested person not later than November 13, 1978, may submit to the Commission in writing his views or any substantial facts bearing on this application or the desirability of a hearing thereon. Any such communications or request should be addressed: Secretary, Securities and Exchange Commission, 500 North Capitol Street NW., Washington, D.C. 20549, and should state briefly the nature of the interest of the person submitting such information or requesting the hearing, the reason for the request, and the issues of fact and law raised by the application which such person desires to controvert. At any time after said date, an order granting the application may be issued upon request or upon the Commission's own motion.

For the Commission, by the Division of Corporation Finance, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[File No. 81-409; Administrative Proceeding File No. 3-550]

GULF REPUBLIC FINANCIAL CORP.

Application and Opportunity for Hearing

OCTOBER 17, 1978.

In the matter of Gulf Republic Financial Corp., file No. 81-409.

Notice is hereby given that Gulf Republic Financial Corp. ("Applicant") has filed an application pursuant to section 12(h) of the Securities Exchange Act of 1934, as amended (the "1934 Act") for an order granting Applicant an exemption from the provisions of section 15(d) of the 1934 Act.

The Applicant states, in part:

1. On July 12, 1978, GRFC, a company wholly owned by Founders (a group consisting of Arnold M. Miller, William E. Wright, J. Livingtqn Kosberg, and Jerry E. Finger and certain members of trusts for their respective families), merged into Applicant. As a result of the merger, the shareholders of Applicant received $13 per share in cash for their stock and Applicant no longer has any publicly owned common stock. Founders is now the sole shareholder of Applicant.

2. The Applicant has filed with the Commission its proxy statement, dated June 3, 1978, containing audited financial statements for the year ended June 30, 1977, plus a consolidated summary of earnings of Applicant for the 5 years ended June 30, 1977.

Applicant argues that the granting of the exemption would not be inconsistent with the public interest or the protection of investors.

For a more detailed statement of the information presented, all persons are referred to said application which is on file in the offices of the Commission at 500 North Capitol Street NW., Washington, D.C. 20549.

Notice is further given that any interested person not later than November 13, 1978, may submit to the Commission in writing his views or any substantial facts bearing on this application or the desirability of a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 500 North Capitol Street NW., Washington, D.C. 20549, and should state briefly the nature of the interest of the person submitting such information or requesting the hearing, the reason for the request, and the issues of fact and law raised by the application which such person desires to controvert. At any time after said date, an order granting the application may be issued upon request or upon the Commission's own motion.

For the Commission, by the Division of Corporation Finance, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

MICHIGAN POWER CO.

Application and Opportunity for Hearing

OCTOBER 17, 1978.

In the matter of Michigan Power Co. file No. 81-394.

Notice is hereby given that Michigan Power Co. ("MPC") has filed an application pursuant to section 12(h) of the Securities Exchange Act of 1934, as amended (the "1934 Act"), for an order exempting it from the periodic reporting requirements under sections 13(a) and 15(d) of the 1934 Act.

MPC's application discloses in part:

(1) On July 16, 1978, MPC redeemed its outstanding shares of cumulative preferred stock. As a result of such redemption, MPC no longer had any public security holders; and

(2) The Commission approved such redemption pursuant to section 11(e) of the Public Utility Holding Company Act (Holding Company Act Release No. 20569, dated June 1, 1978).

For a more detailed statement of the information presented, all persons are referred to said application which is on file in the offices of the Commission at 500 North Capitol Street NW., Washington, D.C. 20549.

Notice is further given that any interested person no later than November 13, 1978, may submit to the Commission in writing his views or any substantital facts bearing on this application or the desireability of a hearing thereon. Any such communications or requests should be addressed: Secretary, Securities, and Exchange Commission, 500 North Capitol Street NW., Washington D.C. 20549, and should state briefly the nature of the interest of the person submitting such information or requesting the hearing, the reason for such request, and the issures of fact and law raised by the application which he desires to controvert. At any time after said date, an order granting the application may be issued upon request or upon the Commission's own motion.

GEORGE A. FITZSIMMONS,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-15230]

DISCLOSURE IN PROXY AND INFORMATION STATEMENTS

Anti-Takeover or Similar Proposals

The Advisory Committee on Corporate Disclosure in its report urged the Commission staff to review closely proxy materials containing anti-takeover proposals in order to insure that there is adequate discussion of their disadvantages as well as advantages.[1] In february of 1978, the Commission responded with an indication that the suggestion would be implemented administratively and would be the subject of specific instructions to the staff of the Division of Corporate Finance.[2]

The Division is now making these instructions available to the public in the form of a statement of its views in order to assist registrants in preparing proxy or information statements which may contain such proposals for the upcoming proxy season. It should be noted, however, that these instructions have neither been reviewed nor approved by the Commission and therefore only reflect the views of the staff of the Division of Corporation Finance. The Division stresses, moreover, that these instructions are merely for the guidance of the staff and are subject to revision without formal notice. The Division also notes that the facts and circumstances underlying particular proxy or information statements or other filings must be given great weight and that the importance and effect of these instructions will vary as the context requires.

1. BACKGROUND

The increased use of tender offers to obtain corporate control has prompted many companies to consider defensive techniques to fend off hostile offers. In the past, these defensive measures have typically focused on actions taken on the eve of a tender offer or during a tender offer contest.[3] The primary purpose of such measures has been to deter unfriendly takeovers by relying, for the most part, on the single most effective weapon in the arsenal of the subject company—delay.[4] Recently, companies which view themselves as potential subject companies have given increased attention to other defensive measures, such as internal controls in the company's charter or bylaws. As with the delay techniques, the primary purpose of the defensive charter provisions is to deter unfriendly takeovers. Rather than using delay as the means to accomplish this purpose, these measures are designed to make the subject company unattractive as a potential target long before any specific tender offer is announced. By making a tender offer impracticable or by increasing the bidder's costs and likelihood of failure should an offer be made, these provisions are intended to cause a potential bidder to look elsewhere, rather than commence a tender offer for such a company.

Typically, a corporation proposing to adopt amendments to its charter or bylaws is required by State corporation law to submit the proposal to a shareholder vote.[5] In such cases, cor-

[1] Report of the Advisory Committee on Corporate Disclosure to the Securities and Exchange Commission, Committee Print 95-29, House Committee on Interstate and Foreign Commerce, 95th Cong., 1st sess., Nov. 3, 1977 ("Report"), at p. 39.

[2] Securities Act Release No. 5906 (Feb. 15, 1978).

[3] These measures include, but are not limited to the following:

(a) Repurchase its own securities, to make it less likely for the tender offeror to obtain control of the company;

(b) Induce friendly third parties to make open market purchases of the target company's securities;

(c) Announce dividend increases, or stock splits;

(d) Issue additional shares or classes of stock;

(e) Take steps to create an incompatibility between the target company and the tender offeror, for example, in inducing possible antitrust violations should the tender offer be successful;

(f) Arrange a defensive merger;

(g) Enter into restrictive loan agreements, with default to occur should the tender offer succeed;

(h) Institute litigation, challenging either directly or collaterally the conduct or effect of the tender offer;

(i) Arrange for cross or circular ownership of voting stock by parent and subsidiary corporations;

(j) Make the dismissal of directors expensive, by entering into costly employment contracts;

(k) Negotiate contracts—for example, labor, rent, loans or leases—which provide for acceleration, increase, or renegotiation of payment in the event of a change in management;

(l) Acquire other companies or accelerating the payment of outstanding debt for the purpose of spending access cash, thereby making the balance sheet of the target company less attractive to a potential offeror;

(m) Judicial action seeking a temporary or permanent injunction against the bidder alleging antitrust violations, inadequate disclosure and other securities laws violations; and

(n) Triggering the application of State anti-takeover statutes.

[4] Since time is of the essence to a bidder in tender offers, delay permits the subject company to prepare and consolidate an effective defense and to frustrate the bidder's efforts.

[5] A table listing a number of anti-takeover provisions, including novel measures, is appended to this release as Attachment A. This table is not intended to be an exclusive

Footnotes continued on next page

porations subject to, inter alia, section 12 of the Securities Exchange Act of 1934 ("Exchange Act") (15 U.S.C. 78a et seq., as amended by Pub. L. No. 94-

advantages of the management's proposals.[6]

In view of this recommendation and the increased attention given to defen-

cross-references are suggested. If the statement contains more than one anti-takeover proposal, the disclosure of each should generally not be sepa-

ate, such disclosure should include statements that the overall effects of the proposal, if adopted, may (would) be to render more difficult or to dis-

de-list any stock which has unusual voting provisions that tender or nullify or restrict its voting.

g. Comparison of anti-takeover

holders to change the majority of directors even when the only reason for the change may be the performance of the present directors. The fact that

porations subject to, inter alia, section 12 of the Securities Exchange Act of 1934 ("Exchange Act") (15 U.S.C. 78a et seq., as amended by Pub. L. No. 94-29 (June 4, 1975)) are required to furnish either proxy materials or information statements to shareholders, pursuant to Regulation 14A (17 CFR 240.14a-1 to 240.14a-103) or Regulation 14C (17 CFR 240.14c-1 to 240.14c-101), respectively. Over the years, the Division has reviewed many proxy and information statements containing anti-takeover measures and has gained a great deal of experience in identifying issues, formulating comments and dealing with registrants and their counsel.

Since at least 1969, the Division has taken the position that when management sponsors anti-takeover proposals and other devices to insulate management from removal, the issuer's proxy material or information statements should disclose in a prominent place that the overall effect of the proposal is to render more difficult the accomplishment of mergers or the assumption of control by a principal stockholder, and thus to make difficult the removal of management. Moreover, the report recommended that the Commission staff should intensively review proxy materials containing anti-takeover proposals with a view to requiring more adequate and uniform disclosure of the advantages and disadvantages of the management's proposals.[6]

In view of this recommendation and the increased attention given to defensive measures, the Division wishes to advise registrants that the treatment of anti-takeover proposals in proxy materials or information statements will generally be reviewed for compliance with the position stated below.[7] It is hoped that this advance notice will facilitate the preparation of proxy materials or information statements for the upcoming proxy season.

II. Position of Division of Corporation Finance With Respect to Disclosure in Proxy or Information Statements Containing Anti-Takeover Proposals

The Division's review of proxy and information statements containing anit-takeover measures will continue to focus on three areas: the placement of the disclosure in the statement; the disclosure of anti-takeover proposals generally; and the disclosure of specific types of provisions being proposed.

A. PLACEMENT OF DISCLOSURE

If a proxy or information statement contains an anti-takeover proposal, it should be included in a list of all proposals in the proxy soliciting material or disclosed in the information statement. The listing should be placed in the notice or forepart of the materials. If more than one anti-takeover proposal is included, they should not be separated by unrelated proposals in the listing made in the notice of materials.

The disclosure concerning an anti-takeover proposal should be set forth in a prominent place in the proxy or information statement. All of the information which is related to the proposal should be set forth in one place in the materials. If disclosure in more than one place cannot be avoided, cross-references are suggested. If the statement contains more than one anti-takeover proposal, the disclosure of each should generally not be separated by unrelated information or other proposals in the statement.

B. CONTENT OF DISCLOSURE

1. *General issues.* Despite significant variations in the form and operation of anti-takeover proposals, there are several areas in which certain basic disclosures are generally applicable. These include:

a. The reason(s) for the proposal and the bases of such reason(s). The proxy or information should clearly indicate why management is proposing to amend the corporation's charter or bylaws. The term "bases" for the reasons means an explanation of the factors and/or principles supporting or serving as a foundation for the reason stated.

If the proposal is the result of management's knowledge of any specific effort to accumulate the issuer's securities or to obtain control of the issuer by means of a merger, tender offer, solicitation in opposition to management or otherwise, a description of any such effort should be included. If the measure is not the result of any specific effort, disclosure should be made to that effect and a statement included as to why, in the absence of such efforts, the measure is being proposed at this time.

Disclosure should also be made as to whether the corporation's charter or bylaws presently contain other provisions having an anti-takeover effect, whether the instant proposal is part of a plan by management to adopt a series of such amendments, and whether management presently intends to propose other anti-takeover measures in future proxy solicitations. If similar measures have been adopted, are being proposed or considered, the inter-relationship of the proposals/provisions should be discussed. A chart or table which would list charter or bylaw provisions that have already been adopted which can be used as defensive provisions may also be appropriate. This chart, among other things, may include disclosure concerning a class of authorized, but unissued, common or preferred securities with respect to which the board of directors retains the power to determine voting rights. Additionally, an indication should be made whether or not cumulative voting is provided under the corporation's charter or bylaws or pursuant to State law.

b. The overall effects of the proposal, if adopted. The impact of the proposed amendments upon management's tenure and upon any proposal to alter the structure of the corporation should be disclosed. If appropriate, such disclosure should include statements that the overall effects of the proposal, if adopted, may (would) be to render more difficult or to discourage a merger, tender offer or proxy contest, the assumption of control by a holder of a larger block of the corporation's secutrities and the removal of incumbent management. A statement that the proposal could make the accomplishment of a given transaction more difficult even if it is favorable to the interests of shareholders may be warranted. Thus, the disclosure should focus on the effects of making the removal of management more difficult even if such removal would be beneficial to shareholders generally, and the effect of limiting shareholder participation in certain transactions such as mergers or tender offers whether or not such transactions are favored by incumbent management.

c. the advantages and disadvantages of the proposal. Although this item may overlap disclosure of the effects of the transaction, information should be included concerning the advantages and disadvantages of the proposal both to incumbent management and to shareholders generally. For example, if one of the effects of the proposal would be to render the accomplishment of a tender offer more difficult, the disclosure could include statements to the effect that such a provision may be beneficial to management in a hostile tender offer and may have an adverse impact on shareholders who may want to participate in such a tender offer. The favorable aspects of the proposal, to either management or shareholders, should also be disclosed.

d. Disclosure of how the proposal will operate. Because of the complicated nature of many of these proposals, it may be beneficial to shareholders to include an explanation of the operation of the proposal, if adopted. In the past, examples of the operation of staggered boards have been disclosed. Accordingly, an explanation of the operation of the proposal(s) should also be included in the proxy or information statement. Such an explanation is itended to assist shareholders in their understanding of what they are being asked to vote in favor of.

e. Whether the proposal was the subject of a vote of the issuer's board of directors and, if so, the results of such vote. Additionally, consideration should also be given to identifying any dissenting directors and stating the reasons given for any such dissent if available.

f. Limitations on the adoption of such proposals. Disclosure should be included as to whether the rules or practices or any stock exchange on which the issuer's securities are listed reserve the right to refuse to list or to de-list any stock which has unusual voting provisions that tender or nullify or restrict its voting.

g. Comparison of anti-takeover measure with comparable provision under State corporation law. If the charter or by-law amendment pertains to a matter that is specifically addressed under State corporation law, a comparison of the provision of such State corporation statute with those of the instant proposal should be furnished. For example, if the defensive charter amendment concerns the vote necessary to approve an extraordinary corporate transaction such as a merger, the provision of the proposal, such as the minimum percentage required, should be compared with that under the State statute.

2. ISSUES INVOLVING SOME SPECIFIC ANTI-TAKEOVER PROPOSALS

Because of the varied nature of anti-takeover proposals, disclosure specifically applicable to the type of proposal should also be made. Where applicable, the disclosure should include the following:

a. *Supermajority* * *voting provisions.* One of the specific effects should be indicated to be that management may obtain a veto power over mergers regardless of whether the transaction is desired by or beneficial to a majority of the shareholders and thereby assists management in retaining their present positions. Another specific effect would be to give the holders of a minority of the total shares outstanding and entitled to vote a veto power over a merger which management and/or a majority of the shareholders may believe is desirable and beneficial. In these types of proposals, disclosure should be included of the aggregate percentage of outstanding voting securities beneficially owned by management, the board of directors and principal shareholders of the corporation (including any persons or groups of persons who have filed a Schedule 13D with the Commission). If a supermajority is not needed to repeal such a provision and/or a supermajority is not needed to adopt the provision, disclosure of the reasons should be made.

b. *Classification of directors to serve for staggered terms.* Unlike certain internal corporate defense measures, staggered board provisions affect every election of directors and are not triggered by the occurrence of a particular event such as a hostile merger. Thus, such systems of electing directors make it more difficult for shareholders to change the majority of directors even when the only reason for the change may be the performance of the present directors. The fact that the provisions, if adopted, would be applicable to every election of directors, rather than only an election occurring after a change in control of the issuer, should be disclosed. The number of annual meetings necessary to change the majority of the directors under the staggered system should be contrasted to the number of annual meetings necessary for change under the present system. If a purpose of the proposed amendment is to limit the voting power of a particular block of common stock or to frustrate accumulations of such blocks, appropriate disclosure should be made. If one of the reasons for the proposal is to insure the continuity of the Board of Directors and/or management, it is suggested that management be asked to disclose whether there have been any problems with respect to such continuity in the past and, if so, to furnish a description of them.

c. *Authorization of certain classes of common or preferred stock.* In certain circumstances, the authorization of classes of preferred or common stock with either unspecified voting rights or rights providing for the approval of extraordinary corporate transactions may be used to create voting impediments or to frustrate persons seeking to effect a merger or to otherwise gain control of the issuer. If used for such a purpose, disclosure should be included as to whether the securities could be privately placed and, if such placement is contemplated by the issuer, whether the purchasers have any affiliation with the issuer or any agreement or understanding as to the manner in which the securities are to be voted.

In certain instances, a proposal to increase the amount authorized of a class of voting securities may have an anti-takeover effect. If used for such a purpose, the considerations discussed above would be applicable. Moreover, such additional shares could be used to dilute the stock ownership of persons seeking to obtain control of the issuer. If the purpose for the increase in the authorization is stated to be the elimination of later delays associated with a stockholder vote on specific issuances, reference should be made to any stock exchange requirements calling for a stockholder vote on issuances of additional shares. Additionally, the number of shares unissued and not reserved for issuance should be stated.

Questions related to these staff instructions should be directed to Rowland Cook, 202-755-1750.

Footnotes continued from last page

listing of all such measures. Proxy materials or information statements may contain variations of the provisions listed or other proposals which may be or operate as defensive charter provisions but which may not be included in the table. [6] Report of the Advisory Committee on Corporate Disclosure to the Securities and Exchange Commission, Committee Print 95-29, House Committee on Interstate and Foreign Commerce, 95th Cong., 1st Sess., November 3, 1977, at D-39 and 415-416.

[7] In this regard, the Division has established a monitoring system which is mainly intended to quantify the information received via proxy materials. The specific purposes for the monitoring program are: (1) To evaluate the disclosure being made by companies proposing such measures; (2) to determine whether more specific disclosure requirements should be published concerning the purpose and/or effect of such proposals; and (3) to collect data on the frequency of use of such proposals which may serve as an empirical basis for congressional proposals or testimony, or rulemaking action by the Commission. The monitoring proram will involve both preliminary materials and definitives. It is presently anticipated that the program, which is already in operation, will continue beyond the upcoming proxy season.

* Supermajority means any percentage requirement that exceeds the comparable requirement under applicable State law. If the requirement under State law is 66⅔ percent to approve a merger, a supermajority provision would be any percentage in excess of the State requirement—such as 80 percent.

ATTACHMENT A.—Table Relating to Internal Corporate Controls or Antitakeover Measure Disclosed in Proxy or Information Statement

Defensive corporate charter amendments/provisions may include, but are not limited, to:

(1) Classification of directors or staggering of boards

(2) Provisions to abolish cumulative voting

(3) Provisions establishing supermajority approval requirements (for example, requiring an 80 percent favorable vote) for certain corporate transactions including, but not limited to, any proposed merger or sale of assets

(4) Provisions requiring a supermajority vote to cancel a supermajority provision as described in category 3 above, but not to adopt one

(5) Provisions requiring a supermajority vote to amend the corporate charter in any relevant respect

(6) Provisions which reduce the supermajority required for a merger to a leser majority unless the other party to the transaction is a "related corporation" (such as one owning more than 5 percent of any class of voting securities of the issuer) in which case a merger would require supermajority approval of the common stock as a class in addition to approval by the holders of the voting power to all securities of the issuer entitled to vote

(7) The creation of a class of equity securities either common or preferred to be placed privately; the favorable vote of which is necessary to approve any tender offer, merger, sale or exchange of assets or other extraordinary corporate transaction

(8) Provisions which prevent the removal of directors without cause or by a supermajority vote

(9) Provisions prohibiting the removal from office for any reason of a director elected for a term longer than one year, notwithstanding any change in control due to tender offers, mergers or other transactions

(10) Provisions prohibiting the calling of special shareholder meetings altogether or allowing them to be called only upon the request of a holder or holders of a supermajority of the shares outstanding

(11) Provisions establishing the maximum permissible number of directors

(12) Provisions providing for the election of stand-by successor directors at the same time as the regular directors, who will fill a position upon the death or resignation of a regular director

(13) Reincorporation of the issuer in a state with an anti-takeover statute

(14) Creation of an Employee Stock Ownership Plan which, because of its size, percentage of total outstanding securities of the issuer which it may own, voting or other provisions, may be used in defense in a contested takeover attempt

(15) Provisions requiring the consideration for any merger following a tender offer to be no less than the highest consideration offered pursuant to the tender offer

(16) Shareholder approval of long term "sweetheart" employment contracts with executive officers of the issuer which cannot be abrogated or rescinded

[Release Nos. 33-5988, 34-15246, IC-10447]

PROCESSING POST-EFFECTIVE AMENDMENTS AND PRELIMINARY PROXY MATERIAL FILED BY INVESTMENT COMPANIES

Announcement of New Procedures

AGENCY: Securities and Exchange Commission.

ACTION: Announcement of New Procedures.

SUMMARY: The Commission's Division of Investment Management, which processes filings of registered investment companies, has adopted procedures designed to reduce the time needed to process certain routine investment company filings. The procedures were adopted in response to a projected increase in the number of filings to be processed by the Division. Review of annual updating post-effective amendments normally will be limited to financial statements, material which has been underscored or otherwise marked to indicate textual changes, and areas in which recent developments suggest that changes in disclosure are likely to be appropriate. Review of preliminary proxy material containing no proposals other than those relating to the uncontested election of directors, the ratification of the selection of accountants, and the continuation of a current advisory contract normally will be limited to a determination that it contains only these proposals.

EFFECTIVE DATE: October 19, 1978.

FOR FURTHER INFORMATION CONTACT:

W. Burrell Ellis, Assistant Director, 202-755-1190 or Anthony A. Vertuno, Special Counsel, 202-755-1192.

SUPPLEMENTARY INFORMATION: Consistent with its practice of publishing the views of its staff to assist issuers, their counsel and accountants, and other interested persons, the Commission has authorized the publication of this release which sets forth the Division of Investment Management's procedures henceforth applicable to certain investment company filings.

The Division, in order to reduce the time needed to process routine investment company filings, will adopt the following practices:

(1) Post-effective amendments to registration statements filed pursuant to the Securities Act of 1933 (15 U.S.C. 77a-1 et seq.) ("Securities Act"). The staff ordinarily will limit its review of annual updating post-effective amendments to (a) financial statements, (b) material which has been underscored or otherwise marked to indicate textual changes, and (c) areas in which recent developments suggest that changes in disclosure are likely to be appropriate.

(2) Preliminary proxy material filed pursuant to Securities Exchange Act Rule 14a-6 (17 CFR 240.14a-6). The staff ordinarily will limit its review of proxy statements which have no proposals other than those relating to the uncontested election of directors, the ratification of the selection of accountants, and the continuation of a current advisory contract to a determination that they contain no other proposals.

While these expediting procedures will be in effect generally, the staff may, at its discretion, increase its level of review with respect to individual filings. In this connection, it is important that persons making filings affected by the procedures described above should not assume that review has been completed without comment until ascertaining from the staff that there are no comments.

Any person making such a filing should comply with Securities Act Rule 472(a) (17 CFR 230.472(a)) and the note to Securities Exchange Act Rule 14a-6(a) requiring the marking of textual changes, and, in the letter transmitting the filing to the Commission, clearly indicate the extent and nature of changes from the last previous filing of the same kind and any problem areas to be called to the attention of the staff. A post-effective amendment that is the first filing of a registrant meeting the requirements of new Form N-1 (see Release No. 33-5964 (August 28, 1978) 43 FR 39548 (September 5, 1978)) should be marked to show textual changes from the last filing on Form S-5. The filing procedures for post-effective amendments discussed in Release 33-5738 (September 3, 1976), 41 FR 39012 (September 14, 1976), will remain in effect, and the continued cooperation of registrants is requested.

It is essential to the successful and continued employment of these procedures that registrants and their counsel act responsibly by preparing their filings so that they meet the required standards with the least necessity for staff review. Regardless of the procedure followed by the Division in its review of post-effective amendments and preliminary proxy material, registrants should be aware that the statutory burden of full disclosure is on the issuer, its affiliates, the underwriter, the accountants and others and that as a matter of law this burden cannot be shifted to the Commission or its staff. Attention is directed to *Escott* v. *BarChris Construction Corporation, et al.*, 283 F. Supp. 643 (D. S.D.N.Y. 1968).

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

OCTOBER 19, 1978.

[FR Doc. 78-30176 Filed 10-24-78; 8:45 am]

[8010-01-M]

[Release No. 15241; SR-Amex-78-22, etc.]

AMERICAN STOCK EXCHANGE, INC., ET AL.

Filing of Proposed Rules Changes and Order Approving Proposed Rules Changes

OCTOBER 18, 1978.

In the matter of American Stock Exchange, Inc., 86 Trinity Place, New York, NY 10006; Chicago Board Options Exchange, Inc. La Salle at Jackson, Chicago, IL 60604; Midwest Stock Exchange, Inc. 120 South LaSalle Street, Chicago, IL 60603; Philadelphia Stock Exchange, Inc., 17th Street and Stock Exchange Place, Philadelphia, PA 19103; Pacific Stock Exchange Inc. 618 South Spring Street, Los Angeles, CA 90014, (SR-Amex-78-22), (SR-CBOE-78-30), (SR-MSE-78-26), (SR-PSE-78-17), (SR-Phlx-78-18).

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78(s)(b)(1) (the "Act"), notice is hereby given that the American Stock Exchange, Inc. ("Amex"); the Chicago Board Options Exchange, Inc. ("CBOE"); the Midwest Stock Exchange, Inc. ("MSE"); Pacific Stock Exchange Inc. ("PSE"); and the Philadelphia Stock Exchange, Inc. ("Phlx"), filed with the Commission copies of proposed rules changes which, for a four-month trial period, would extend the trading hours for options by 10 minutes until 4:10 p.m. (e.s.t.). The extension of the options trading hours will continue from October 23, 1978, through February 28, 1979. During the trial period, those exchanges which presently conduct daily closing rotations will not conduct daily closing rotations and have suspended their rules and procedures applicable thereto.[1]

The Commission finds that the proposed uniform extension of options trading hours is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges and in particular, section 6 of the Act, which requires, among other things, that the rules of national securities exchanges be designed to promote just and equitable principles of trade; remove impediments to and perfect the mechanism of a free and open market and a national market system; protect investors and the public interest; and not to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Commission has approved the uniform extension of the options trading hours at this time, in lieu of daily closing rotations, in part because of its concern that the current prohibition against adjusting, canceling or replacing existing orders on the book, or entering new orders in the book during daily closing rotations may not be in the public interest or consistent with the protection of investors. The Commission also is concerned that the current disparity in closing procedures among the options exchanges may not be consistent with the maintenance of fair and orderly markets in exchange listed options or in the securities underlying such options. During this trial period, therefore, the Commission will seek to determine what daily options closing procedures on national securities exchanges would best serve the public interest and insure the maintenance of fair and orderly markets. In particular, during this 4-month period the Commission intends to address, and invites comment upon, the following issues:

(1) Whether daily closing rotations as currently conducted on the CBOE, MSE and PSE are in the public interest and consistent with the protection of investors;

(2) Whether there is a legitimate public interest to be served by permanently extending options trading hours beyond the close of the principal exchange markets in the underlying securities (4 p.m. (e.s.t.)); and

(3) Whether the purpose of the Act, and in particular the goal of maintaining fair and orderly markets in options and their underlying securities, would best be served by a uniform 4 p.m. (e.s.t.) close of options trading.

Since the proposed rules changes referenced above provide that the extension of exchanges' options trading hours is to continue for a 4-month period only, if the trail period is not extended the use of daily closing rotations may again begin on the CBOE, PSE, and MSE after that period. During the 4-month trial period, therefore, the Commission may initiate steps to eliminate such practices through the exercise of the Commission's broad rulemaking authority under the Act, particularly section 9 thereof, to mandate a uniform closing time and/or uniform closing procedures for all options exchanges.[2]

Each of the exchanges has agreed to monitor, during the 4-month trial period, the 10-minute extension of trading beyond 4 p.m. (e.s.t.), and will report the results of their monitoring efforts to the Commission.[3] At the end of this trial period, if the options exchanges seek Commission approval for a continuation of extended trading hours, either on a temporary or permanent basis, the Commission will expect the exchanges to demonstrate that such an extension is consistent with the purposes of the Act.

The Commission finds good cause for approving the proposed rules changes prior to the thirtieth day after the date of publication of notice of filing thereof. As noted above, the Commission is concerned that daily closing rotations as currently conducted, as well as the disparate closing procedures among the options exchanges, may not be in the public interest or consistent with the maintenance of fair and orderly markets. The Commission believes that the uniform extension of the options trading hours serves as an interim solution to the problems of nonuniform closing procedures and the resulting closing time disparities, and offers a 4-month period during which the Commission can explore the issues underlying its concerns. Further, the 4-month trial period will provide interested persons an opportunity to submit their views on the issues set forth above.

[1] A daily closing rotation is a procedure by which a board broker or order book official calls for bids and offers from the crowd for each option series in his or her assigned classes, one series at a time, after the close of trading. During the closing rotation, new orders may not be placed on the book nor may existing book orders be canceled, adjusted or replaced. Exchange members on the trading floor, however, may trade against the book. Amex and Phlx do not currently conduct daily closing rotations—options trading on Amex and Phlx ceases at 4 p.m. (e.s.t.). Thus, options trading on the CBOE, PSE and MSE, which conduct closing rotations after 4 p.m., currently continues after the close of options trading on the Amex and Phlx.

[2] The Commission also has authority pursuant to other sections of the Act to eliminate such practices.

[3] Among the factors which the exchanges will consider in monitoring the extension of trading hours are:

(1) The extent to which firms are permitting the entry of customers' orders after 4 p.m. (e.s.t.);

(2) The extent to which public news announcements made at or after 4 p.m. (e.s.t.) affect the options market;

(3) The extent to which agency orders and principal orders for options are executed during the last 10 minutes of trading;

(4) The volume of options transactions executed during the final 10 minutes of trading;

(5) The extent to which options trading after the close of the principal exchange markets in underlying securities enables the last quotation and/or last sale in the options market to reflect the last sale of the underlying stock; and

(6) The extent to which having the last sale and/or the last quotation in the options market reflect the last sale in the underlying security serves the public interest and to maintain fair and orderly markets in both options and their underlying securities.

V 43 / 207 OCT 25 78

Publication of notice of the proposed rules changes is expected to be made in the FEDERAL REGISTER during the week of October 23, 1978. Interested persons are invited to submit written data, views and arguments concerning the proposed rules changes and the three issues listed above within 45 days from the date of publication of the submission in the FEDERAL REGISTER. Persons desiring to make written comments should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to File Nos. SR-Amex-77-22; SR-CBOE-78-30; SR-MSE-78-26; SR-PSE-78-17; and SR-Ph 1x-78-18.

Copies of the submissions, all subsequent amendments, all written statements with respect to the proposed rules changes which are filed with the Commission, and all written communications relating to proposed rules changes between the Commission and any person, other than those which may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying at the Commission's Public Reference Room, 1100 L Street NW., Washington, D.C.

It is therefore ordered, Pursuant to section 19(b)(2) of the Act, that the proposed rules changes referenced above be, and they are hereby, approved.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 20734; 70-5513]

COLUMBIA GAS SYSTEM, INC. AND COLUMBIA ALASKAN GAS TRANSMISSION CORP.

Post-Effective Amendment Regarding Participation in Gas Pipeline Project

OCTOBER 18, 1978.

Notice is hereby given that Columbia Gas System, Inc. ("Columbia"), 20 Montchanin Road, Wilmington, Del. 19807, a registered holding company, and Columbia Alaskan Gas Transmission Corp. ("Columbia Alaskan"), 20 Montchanin Road, Wilmington, Del. 19807, a subsidiary of Columbia, have filed with this commission a post-effective amendment to the application in this proceeding pursuant to Sections 9, 10, and 12 of the Public Utility Holding Company Act of 1935 ("Act") and Rules 43, 45(b)(1) and 50(a)(3) promulgated thereunder regarding the following proposed transactions. All interested persons are referred to the amended application, which is summarized below, for a complete statement of the proposed transactions.

By order in this proceeding dated August 16, 1974 (HCAR No. 18534), Columbia Alaskan was authorized to participate in the Northern Border Pipeline Company General Partnership Agreement dated as of April 15, 1974 ("Northern Agreement"), which Columbia Alaskan had entered into along with five other companies. Columbia Alaskan now seeks approval of an agreement which substitutes a new partnership agreement for the Northern Agreement and gives Columbia Alaskan the option to become a member of such new partnership. The Northern Border project was organized to constitute and operate a natural gas pipeline representing the second leg of an overall project designed to bring substantial volumes of gas from the Arctic regions of Alaska and Canada down to markets in the lower forty-eight States of the United States, including those markets in Columbia's service area. The first leg of the project contemplates the transmission of gas from Purdhoe Bay, Alaska, to the Alaskan-Canadian border.

The second leg, the Northern Border Project, is intended to extend from a point on the United States Canadian border near Monchy, Saskatchewan, to a point near Dwight, Ill. Two of the parent companies of the six companies who were partners under the Northern Agreement, Northern Natural Gas Co. ("Northern Natural") and Panhandle Eastern Pipeline Company ("Panhandle") wish to construct and operate facilities from Monchy, Saskatchewan, to a point near Ventura, Iowa, in order to transport and deliver natural gas produced in the Province of Alberta, Canada, independent of any subsequent arrangements for the delivery of gas from Prudhoe Bay (this early construction is hereinafter referred to a "Prebuilding"). The other four partners under the Northern Agreement, including Columbia Alaskan, do not desire to participate in the Prebuilding but do wish to retain their option to join the project subsequent to the Prebuilding if and when pipeline facilites are built to transport gas from Prudhoe Bay to Monchy, and to expand the facilities from that point on to Dwight, Ill.

To effectuate the foregoing, all of the parties to the Northern Agreement have executed an Amendment and Agreement dated August 1, 1978, which effectively terminates the Northern Agreement and substitutes for it a substantially similar agreement called the Northern Border Pipeline Co. General Partnership Agreement, effective as March 9, 1978 ("Successor Partnership Agreement"). Simultaneously with execution of the successor Partnership Agreement, four companies, comprising Northern Plains Natural Gas Company and Pan Border Gas Co., two of the original signatories to the Northern Agreement and subsidiaries, respectively, of Northern Natural and Panhandle, and two new companies, Northwest border Pipeline Co., a subsidiary of Northwest Energy Corp., and United Mid-Continent Pipeline Co., a subsidiary of United Gas Pipe Line Co., have joined as partners in the new agreement. Under such agreement, if an when Prebuilding occurs, then at such time as the incremental pipeline facilities required to complete the overall Project for the transmission of gas from Prudhoe Bay to Dwight, Ill. are to constructed, Columbia Alaskan shall have the option to become a partner in the Successor Partnership Agreement, standing in place of the Northern Agreement.

In all other respects the proposed transactions remain the same. No state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than November 20, 1978, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment to the application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C., 20549. A copy of such request should be served personally or by mail upon the applicant at the above-stated address, and proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as now amended or as it may be further amended, may be granted as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 10446; 811-1756]

FUND FOR MUTUAL DEPOSITORS INC.

Filing of Application of the Act for an Order Declaring That Fund for Mutual Depositors Inc., Has Ceased To Be an Investment Company.

OCTOBER 19, 1978.

Notice is hereby given that Fund for Mutual Depositors Inc. ("Applicant"), 200 Park Avenue, New York, N.Y. 10017, registered under the Investment Company Act of 1940 (the "Act") as an open-end, diversified, management investment company, filed an application on August 4, 1977, and an amendment thereto on August 21, 1978, pursuant to section 8(f) of the Act, for an order of the Commission declaring that the Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

The Applicant, a New York corporation, registered under the Act on November 6, 1968. The application states that on June 17, 1977, at its annual meeting of shareholders, holders of more than two-thirds of issued and outstanding shares of capital stock of the Applicant approved an Agreement and Plan of Reorganization (the "Agreement") which provided for the sale by the Applicant of substantially all of its assets to Scudder, Stevens & Clark Common Stock Fund, Inc. ("Scudder Fund"), a Massachusetts corporation and a diversified, open-end management investment company registered under the Act, in exchange for shares of the capital stock of Scudder Fund.

The application further states that the above sale of the Applicant's assets was consummated on June 29, 1977, and that pursuant to the Agreement, Scudder Fund issued 1,522,710 shares of its capital stock to the Applicant, which represented an exchange ratio of 0.8249482 of Scudder Fund stock for each share of the Applicant's stock. These Scudder Fund shares have been distributed to the shareholders of the Applicant on a pro-rata basis.

Furthermore, the Applicant states that on June 29, 1977, it filed an appropriate Certificate of Dissolution with the State of New York and that it is currently engaged in no business activity other than those procedures necessary for its dissolution and liquidation and is not and does not hold itself out as being engaged, and does not propose to engage, in the business of investing, re-investing, owning, holding or trading in securities or in the business of issuing face-amount certificates of the installment type or securities, and has no such certificates or securities outstanding. The Applicant specifically states that it currently has no assets other than certain litigation proceeds described below, no liabilities adequate provision for payment of which has not been made, and no pending administrative proceedings or litigation (other than the class action described below) outstanding.

Applicant finally asserts that it is a member of the class of plaintiffs in *In Re Pennsylvania Life Company Securities Litigation* (MDL Docket No. 183-R), a class action instituted in the United States District Court for the Central District of California ("District Court") on behalf of certain purchasers (the "Class") of the common stock of Pennsylvania Life Co. ("PLC"). In connection with the acquisition by Scudder Fund of substantially all the assets of Applicant, the Applicant retained all rights under its claim in the PLC litigation. Pursuant to the terms of a settlement approved by the District Court, the Applicant received in June 1978, $5,980 principal amount out of an aggregate of $3,400,000, of 10 percent debentures due April 29, 1997, created by PLC and distributed to members of the Class, as well as $607.53 of accrued interest thereon. The Applicant states that it intends to sell the debentures as soon as a sale may be arranged for fair value, and in any event prior to June 30, 1979. The Applicant asserts that, insofar as it has been able to determine, no public market for the debentures has yet developed; and based on this and other factors it does not anticipate realizing from the sale of the debentures anything materially in excess of their $5,980 face value. It further asserts that the cost of making a distribution of the proceeds from a sale of the debentures to the approximately 4,100 persons who were shareholders of the Applicant immediately prior to its dissolution would either exceed the amount available for distribution or account for so large a portion of the available amount as to cause the amount distributed to be *de minimis*. Therefore, the Applicant has decided to apply all proceeds from such sale for proper nonreorganization corporate purposes as it deems appropriate, including payment of taxes, expenses of preparing and filing Federal tax returns, expenses in connection with a final audit, ongoing regular operational expenses, and expenses incurred in connection with the recovery and disposition of the debentures.

Section 8(f) of the Act provides, in pertinent part, that whenever the Commission, on its own motion or upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the effectiveness of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than November 13, 1978, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the application accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that the be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon the Applicant at the address stated above. Proof of such service (by affidavit, or in the case of an attorney-at-law by certificate) shall be filed contemporaneoulsy with the request. As provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons, who request a hearing or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 20735; 70-6216]

MISSISSIPPI POWER CO.

Proposed Issuance and Sale of First Mortgage Bonds

OCTOBER 18, 1978.

Notice is hereby given that Mississippi Power Co. ("Mississippi"), P.O Box 4079, Gulfport, Miss. 39501, an electric utility subsidiary of the Southern Co., a registered holding company has filed an application with this Commission pursuant to the Public Utility

V 43 / 207 OCT 25 78

Holding Company Act of 1935 ("Act"), designating sections 6(b) and 7 of the Act and Rule 50 promulgated thereun-

service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time

change to cover all notices published on or prior to the delivery date, rather than those published prior to that

tween the Commission and any person were considered and (with the exception of those statements or communi-

available to the public at the Commission's Public Reference Room.

The Commission finds that the pro-

Inc. ("SFI") is authorized to make borrowings from the Operating Companies, parent companies of SFI, to fi-

V 43/207 0C 25 78

Holding Company Act of 1935 ("Act"), designating sections 6(b) and 7 of the Act and Rule 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transaction.

Mississippi proposes to issue up to $10,000,000 principal amount of its first mortgage bonds of a series having a term of not less than five years nor more than 30 years ("new Bonds"), and to sell the new Bonds at competitive bidding for the best price obtainable but for a price to Mississippi of not less than 98 percent nor more than 101¾ percent of the principal amount thereof, plus accrued interest.

The new Bonds will be issued under the Indenture dated as of September 1, 1941, between Mississippi and Morgan Guaranty Trust Co. of New York, as Trustee, as heretofore supplemented by various indentures supplemental thereto, and as to be further supplemented by a Supplemental Indenture to be dated as of December 1, 1978.

It is difficult to determine, under present bond market conditions, whether it would be more advantageous to Mississippi to sell new Bonds having a 30-year or some shorter term. It is proposed, therefore, that Mississippi decide on the term of the new Bonds after the date of public invitation for proposals and then notify prospective bidders by telephone, confirmed in writing, of its decision, not less than 72 hours prior to the time of the bidding. Mississippi proposes to use the proceeds from the sale of the new Bonds, along with other funds, in financing its 1978 construction costs, estimated at July 1978, to be $42,597,000, and to reduce notes payable.

A statement of fees, commissions and expenses to be incurred in connection with the proposed transaction will be filed by amendment. It is stated that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, no later than November 20, 1978, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he may request that they be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01-M]

[Release No. 15243; SR-MSRB-78-10]

MUNICIPAL SECURITIES RULEMAKING BOARD

Order Approving Amended Proposed Rule Change

OCTOBER 19, 1978.

On June 15, 1978, the Municipal Securities Rulemaking Board (the "MSRB"), Suite 507, 1150 Connecticut Avenue NW., Washington, D.C. 20036, filed with the Commission, pursuant to Section 19(b) of the Securities Exchange Act of 1934 (the "Act"), and Rule 19b-4 thereunder, copies of a proposed rule change. That proposed rule change was amended by the MSRB on August 25, 1978. The amended proposed rule change would alter the MSRB's interdealer uniform practice rule, MSRB rule G-12, to provide that delivery of municipal securities for which a notice of call has been published for less than the entire issue on or prior to the delivery date, as opposed to trade date, does not constitute good delivery unless the securities are identified as "called" at the time of trade.

Notice of the amended proposed rule change together with the terms of substance of the amended proposed rule change was given by publication of Commission Releases (Securities Exchange Act Release No. 14879 (June 22, 1978) and Securities Exchange Act Release No. 15137 (September 7, 1978)) and by publication in the FEDERAL REGISTER (43 FR 28275 and 43 FR 41110 (1978)). Although no comments with respect to the proposed rule change were received by the Commission, the MSRB received one comment letter. In response to that letter the MSRB amended the proposed rule change to cover all notices published on or prior to the delivery date, rather than those published prior to that date.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to the MSRB and, in particular, the requirements of Section 15B and the rules and regulations thereunder.

It is therefore ordered, Pursuant to section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and it hereby is, approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01-M]

[Release No. 15245; SR-NYSE-78-49]

NEW YORK STOCK EXCHANGE, INC.

Order Approving Proposed Rule Change

OCTOBER 19, 1978.

On August 21, 1978, the New York Stock Exchange, Inc. ("NYSE"), 11 Wall Street, New York, New York 10005, filed with the Commission, pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78(s)(b)(1) (the "Act") and Rule 19b-4 thereunder, copies of a proposed rule change which would amend NYSE rules 301 and 325 to permit a member, whose membership is financed by his member organization pursuant to an a-b-c agreement and who ceases to be associated with the financing member organization, to transact business as an individual member on the floor during any period allowed for the exercise of the following options. Upon termination of an a-b-c agreement, a member must: (a) Retain the membership and pay the member organization the amount necessary to purchase another membership; (b) sell the membership and pay the proceeds to the member organization; or (c) transfer the membership to a person designated by the member organization for a nominal consideration.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 15130, September 6, 1978) and by publication in the FEDERAL REGISTER (43 FR 41116, September 14, 1978). All written statements with respect to the proposed rule change which were filed with the Commission and all written communications relating to the proposed rule change between the Commission and any person were considered and (with the exception of those statements or communications which may be withheld from the public in accordance with the provisions of 5 U.S.C. § 552) were made available to the public at the Commission's Public Reference Room.

The Commission finds that the proposed rule change is consistent with the requirements of the act and the rules and regulations thereunder applicable to registered national securities exchanges and in particular, the requirements of section 6 and the rules and regulations thereunder.

It is therefore ordered, Pursuant to section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and it hereby is, approved.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 15244; SR-NYSE-78-47]

NEW YORK STOCK EXCHANGE, INC.

Order Approving Proposed Rule Change

OCTOBER 19, 1978.

On August 21, 1978, the New York Stock Exchange, Inc. ("NYSE"), 11 Wall Street, New York, N.Y. 10005, filed with the Commission, pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78(s)(b)(1) (the "Act") and Rule 19b-4 thereunder, copies of a proposed rule change which would amend NYSE Rules 312 and 314 to extend the permitted period for retention of member organization status, following the death of the sole qualifying member, from 60 days to 90 days, and to expand the provisions which would be applicable in any situation where the sole qualifying member ceases to be associated with the member organization.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 15125, September 1, 1978) and by publication in the FEDERAL REGISTER (43 FR 41116, September 14, 1978). All written statements with respect to the proposed rule change which were filed with the Commission and all written communications relating to the proposed rule change between the Commission and any person were considered and (with the exception of those statements or communications which may be withheld from the public in accordance with the provisions of 5 U.S.C. 552) were made available to the public at the Commission's Public Reference Room.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to registered national securities exchanges and in particular, the requirements of section 6 and the rules and regulations thereunder.

It is therefore ordered, Pursuant to section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and it hereby is, approved.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01-M]

[Release No. 20736; 70-6055]

SYSTEM FUELS, INC., ET AL.

Post-Effective Amendments Regarding Financing Arrangements Related to the Purchase of Fuel by a Nonutility Subsidiary for Use by the Operating Companies

OCTOBER 19, 1978.

In the matter of System Fuels, Inc., 225 Baronne St., New Orleans, La. 70112; Arkansas Power & Light Co., First National Building, Little Rock, Ark. 72203; Louisiana Power & Light Co., 142 Delaronde St., New Orleans, La. 70174; Mississippi Power & Light Co., Electric Building, Jackson, Miss. 39205; New Orleans Public Service Inc., 317 Baronne St., New Orleans, La. 70112.

Notice is hereby given that Arkansas Power & Light Co. ("Arkansas"), Louisiana Power & Light Co. ("Louisiana"), Mississippi Power & Light Co. ("Mississippi"), and New Orleans Public Service Inc. ("NOPSI") (collectively referred to as "Operating Companies"), all public utility subsidiary companies of Middle South Utilities, Inc. ("Middle South"), a registered holding company, and System Fuels, Inc. ("SFI"), a jointly-owned nonutility subsidiary company of the Operating Companies, have filed post-effective amendments to their declaration in this proceeding pursuant to sections 6(a), 7, and 12(b) of the Public Utility Holding Company Act of 1935 ("Act") and Rules 45 and 50 promulgated thereunder as applicable to the following proposed transactions. All interested persons are referred to the amended declaration, which is summarized below, for a complete statement of the proposed transactions.

By order dated December 30, 1976, the Commission approved an extension of the period through December 31, 1977, during which System Fuels, Inc. ("SFI") is authorized to make borrowings from the Operating Companies, parent companies of SFI, to finance its fuel supply business. (HCAR No. 19835). In that proceeding, SFI committed itself to endeavor to obtain funds from external sources under arrangements advantageous to SFI and the Middle South Utilities System, in lieu of borrowing from the Operating Companies, to meet SFI's expenditure requirements.

By order dated November 7, 1977, the Commission authorized SFI to make borrowings, through the sale of bankers' acceptances under an Acceptance Facility Line of Credit Agreement ("Acceptance Agreement") with Citibank, N.A., New York, New York ("Bank"), to finance a portion of its requisite inventory of fuel oil through 1978. Pursuant to the Acceptance Agreement, SFI may borrow and reborrow through November 18, 1978, up to a maximum aggregate amount not to exceed at any one time outstanding the lesser of $25,000,000 or an amount equal to 50 percent of the fair market value of SFI's fuel oil inventory then in storage at specified locations (the "Acceptance Base"). As of September 30, 1978, SFI's borrowings from the Bank under the Acceptance Agreement aggregated $25,000,000.

To assure the availability to the Operating Companies and to Arkansas-Missouri Power Company, the other operating subsidiary of Middle South, of an adequate supply of fuel oil through 1979, SFI presently estimates that it will be necessary to maintain an inventory varying between 5,900,000 and 7,600,000 bbls., valued at as much as $83,700,000. Such requirements will vary because of seasonal factors, availability of natural gas and other changes in conditions. To finance a portion of its requisite inventory of fuel oil through 1979, SFI proposes to enter into an amendment of the Acceptance Agreement ("Amendment Agreement") which will provide for a 1-year extension, through November 18, 1979, of the period during which SFI may effect borrowings and reborrowings from the Bank thereunder.

The Amendment Agreement will provide for a modification of the provisions in the Acceptance Agreement relating to the rate at which the Bank will discount any Draft presented to it by SFI for acceptance so that the Bank will pay to SFI in immediately available funds on the date of such acceptance an amount equal to the face amount of such Draft less a discount equal to (a) the prevailing bid rate in effect in the bankers' acceptance market on the date of acceptance of such Draft for acceptances by the Bank of commercial drafts or bills ineligible for discount with Federal Re-

V 43/207 OCT 25 78

serve Banks and having he same maturity as such Draft,. multiplied by (b) the face amount of such Draft; provided that if during the extended term of the Acceptance Agreement the Drafts to be accepted by the Bank thereunder are at any time deemed to be eligible for discount with Federal Reserve Banks, the discount rate will accordingly be premised upon that applicable to eligible acceptances.

The Amendment Agreement will also provide for a modification of the provisions in the Acceptance Agreement relating to the acceptance charge payable by SFI to the Bank with respect to Drafts accepted and discounted by the Bank so that SFI will pay to the Bank on the date of acceptance of any Draft an acceptance charge of 1.40 percent per annum of the face amount of such Draft for the period thereof. The acceptance charge specified in the Amendment Agreement may be adjusted (1), subject to any necessary approvals of the Commission under the Act, to reflect a change in the regulations adopted under the Federal Reserve Act mandating a change in the amount of reserves required to be maintained by the Bank with respect to obligations arising from the creation of bankers' acceptances which are ineligible for discount with Federal Reserve Banks, any such adjustment to be in such amount as SFI and the Bank shall thereafter agree upon, and (2) automatically from 1.40 to 1 percent per annum with respect to Drafts accepted and discounted by the Bank which are deemed eligible for discount with Federal Reserve Banks. Based upon the prevailing bid rate of 9.35 percent in effect as of October 16, 1978, for 90-day commercial drafts or bills ineligible for discount with Federal Reserve Banks, and after giving effect to the Acceptance Charge of 1.40 percent per annum payable as to Drafts of SFI accepted and discounted by the Bank, SFI estimates that its cost of money in respect of the proposed borrowings under the Acceptance Agreement, as amended by the Amendment Agreement, would be 10.97 percent per annum.

In all other respects the proposed transactions remain the same.

The fees and expenses to be incurred in connection with the proposed transactions are to be filed by amendment. It is stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than November 13, 1978, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendments to the declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

SMALL BUSINESS ADMINISTRATION

[License No. 04/04-0140]

DADELAND CAPITAL INVESTMENT CORP.

Issuance of License

On July 17, 1978, a Notice was published in the FEDERAL REGISTER (43 FR 30634) stating that an application had been filed by Dadeland Capital Investment Corp., 7545 North Kendall Drive, Miami, Fla. 33156, with the Small Business Administration, pursuant to § 107.102 of the Regulations governing small business investment companies (SBIC).

Interested parties were given until the close of business August 1, 1978, to submit their comments to SBA. No comments were received.

Notice is hereby given that, pursuant to section 301(c) of the Small Business Investment Act of 1958, as amended, after having considered the application and all other pertinent information, the SBA issued License No. 04/04-0140 to Dadeland Capital Investment Corp., to operate as an SBIC.

[License No. 03/03-0022]

SHARON SMALL BUSINESS INVESTMENT CO.

Application

Notice is hereby given that Sharon Small Business Investment Co. (SSBIC), 385 Shenango Avenue, Sharon, Pa. 16146, a Federal licensee under the Small Business Investment Act of 1958 (Act), as amended (15 U.S.C. 661 et seq.), has filed an application with the Small Business Administration purusant to section 312 of the Act and covered by section 107.1004(b) (1) and (4) of the SBA's regulations governing small business investment companies (SBIC) (13 FR 107.1004 (1978)), for approval of a conflict of interest transaction falling within the scope of the above sections.

Subject to such approval SSBIC proposes to provide funds to Geneva Golden Dawn, Inc. (Geneva), 669 East Main Street, Geneva, Ohio 44041.

The proposed financing is brought within the purview of section 107.1004(b) (1) and (4) of the regulations because one of the principal stockholders of Geneva is a former employee of the parent company of the SBIC and therefore is considered an associate of SSBIC as defined by section 107.3 of the regulations. The individual involved is Mr. William F. Johnson.

The transaction also falls within section 107.1004(b)(4), in that the licensee's financing will provide funds, or release other funds, to discharge monetary obligations of Geneva to licensee's parent, as sublessee of real estate from it and the purchase of fixtures and equipment from the parent.

Notice is hereby given that any interested person may not, later than November 6, 1978, submit written comments on the proposed transaction to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 L Street NW., Washington, D.C. 20416.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies.)

Dated: October 12, 1978.

PETER F. MCNEISH,
Deputy Associate Administrator for Investment.

DEPARTMENT OF STATE

Agency for International Development

JOINT COMMITTEE FOR AGRICULTURAL DEVELOPMENT OF THE BOARD FOR INTERNATIONAL FOOD AND AGRICULTURAL DEVELOPMENT

Meeting

Pursuant to Executive Order 11769 and the provisions of section 10 (a), (2), Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given of the sixteenth meeting of the Joint Committee on Agricultural Development (JCAD) of the Board for International Food and Agricultural Development (BIFAD) on November 13-16, 1978.

The purpose of the meeting is to discuss: proposals for restructuring the JCAD monthly meetings; the implications for the BIFAD of the proposed establishment of an International Service for Agricultural Research by the Consultative group on International Agricultural Research (CGIAR); the development of a source book of American universities qualified to provide training in the different agricultural areas of specialization; and to consider other business brought before the Committee.

The JCAD will meet on November 13, 14, and 16 in the form of Regional Work Groups (RWGs): for Asia on November 13, 1978, from 10 a.m. to 4 p.m. in Room 206, Rosslyn Plaza Building, 1601 North Kent Street, Rosslyn, Va.; for Latin America on November 14, 1978, from 9:30 a.m. to 4 p.m. in Room 2242, New State Department Building; for Africa on November 16, 1978, from 9 a.m. to 1 p.m. in the Stockholm Room, Chase Park Plaza Hotel, 212 North Kings Highway, St. Louis, Mo.; and for the Near East on November 16, 1978, from 10 a.m. to 4 p.m. in Room 6484, New State Department Building. The JCAD meeting on November 15, 1978, will convene from 9:30 a.m. to 5 p.m. in the Stockholm Room of the Chase Park Plaza Hotel, 212 North Kings Highway, St. Louis, Mo. 63108. The entire four-day meeting is open to the public. Any interested person may attend, may file written statements with the Committee before or after the meeting, or may present oral statements in accordance with procedures established by the Committee, and to the extent the time available for the meeting permits.

Dr. Carl E. Ferguson, Office of Title XII Coordination and University Relations, Development Support Bureau, is designated A.I.D. Advisory Committee Representative at the meeting. It is suggested that those desiring further information write to him in care of the Agency for International Development, State Department, Washington, D.C. 20523, or telephone him at 703-235-9054.

Dated: October 18, 1978.

CARL E. FERGUSON,
A.I.D. Advisory Committee Representative, Joint Committee on Agricultural Development, Board for International Food and Agricultural Development.

OVERSEAS SCHOOLS ADVISORY COUNCIL

Meeting

The Overseas Schools Advisory Council, Department of State, will hold its annual meeting on Thursday, December 14, 1978, 9:30 a.m., in Conference Room 1408, Department of State Building, Washington, D.C.

Agenda items scheduled for discussion are as follows:

I. Welcome and Introduction of Participants.

II. Greetings from the Department of State.

III. Report of Executive Committee Meeting of June 8, 1978.

IV. Results of Surveys and Reports Relating to Local Fund-Raising Activities Conducted by the Schools:

A. The Role of Fund-Raising Handbook in Planning and Conducting Fund-Raising Programs;

B. Requests and Recommendations for Additional Council Assistance; and

C. Regional School Associations Meetings and Activities.

V. Status Report and Review of Council's Fund-Raising Activities 1968-1978.

VI. Activities Relating to Council's Second Phase:

A. Letter to 1300 U.S. Corporations and Foundations, Enclosing Directory of American-Sponsored Overseas Schools, a Sample of Updated School Fact Sheets and a List of U.S. Firms Represented on School Boards; and

B. Annual Letter to Heads of U.S. Corporations and Foundations Regarding the Needs of the Overseas Schools and Advisability for Interested Participation of Their Overseas Employees in School Activities.

VII. Other Business.

For purposes of fulfilling building security, members of the public desiring to attend the meeting should call Ms. Judy Knott, Office of Overseas Schools, Department of State, Washington, D.C., Area Code 703-235-9600, prior to December 14. The public may participate in discussion at the Chairman's instructions.

Dated: October 16, 1978.

ERNEST N. MANNINO,
Executive Secretary, Overseas Schools Advisory Council.

SHIPPING COORDINATING COMMITTEE, SUBCOMMITTEE ON SAFETY OF LIFE AT SEA

Meeting

The Working Group on Radiocommunications of the Subcommittee on Safety of Life at Sea (SOLAS), a part of the Shipping Coordinating Committee, will conduct an open meeting at 1:30 p.m. on November 16, 1978, in Room 8442 of the Department of Transportation, 400 Seventh Street SW., Washington, D.C. 20590.

The purpose of the meeting is to prepare position documents for the Twentieth Session of the Subcommittee on Radiocommunications of the Intergovernmental Maritime Consultative Organization (IMCO) to be held in London on March 26-30, 1979. In particular, the working group will discuss the following topics:

Survival craft radio equipment;
Operational requirements for future EPIRB's;
Operational standards for shipboard radio equipment; and
Maritime distress system.

Requests for further information should be directed to Lieutenant R. F. Carlson, U.S. Coast Guard (G-OTM/74), Washington, D.C. 20590, telephone 202-426-1345.

The Chairman will entertain comments from the public as time permits.

RICHARD K. BANK,
Chairman, Shipping Coordinating Committee.

DEPARTMENT OF THE TREASURY

MONETARY OFFICES

Financial Recordkeeping and Reporting of Currency and Foreign Transactions; Modification of Reporting Requirement

Notice is hereby given that a person who, under the provisions of 31 CFR 103.24, would otherwise be required to file a Treasury Department Form 90-22.1, Report of Foreign Bank and Financial Accounts, concerning his ownership or control over foreign financial accounts, need not make such a report if the accounts had an aggregate maximum value of $1,000 or less.

The above exemption from the reporting requirement is designed to reduce unnecessary paperwork occasioned by Federal reporting requirements, while insuring that the purpose and objectives of the statute are carried out. It is authorized by sections 241 and 242 of the Currency and Foreign Transactions Reporting Act, 84 Stat. 1124 and 31 CFR 103.45.

Dated: October 19, 1978.

BETTE B. ANDERSON,
Under Secretary.

Office of the Secretary

CERTAIN CARBON STEEL PLATES FROM VARIOUS COUNTRIES

Antidumping Proceeding Notice

AGENCY: Treasury Department.

ACTION: Initiation of antidumping investigation.

SUMMARY: This notice is to advise the public that, pursuant to information developed under the "Trigger Price Mechanism" for certain steel mill products, an antidumping investigation is being initiated for the purpose of determining whether imports of carbon steel plates from various countries are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended. Sales at less than fair value generally occur when the prices of the merchandise sold for exportation to the United Stetes are less than the prices in the home market.

EFFECTIVE DATE: October 25, 1978.

FOR FURTHER INFORMATION CONTACT:

Donald W. Elss, U.S. Treasury Department, Office of Tariff Affairs, 15th Street and Pennsylvania Avenue NW., Washington, D.C. 20220, telephone 202-566-8256.

SUPPLEMENTARY INFORMATION: On December 6, 1977, the President approved implementation by the Treasury Department of a "Trigger Price Mechanism" ("TPM") applicable to importations of certain steel mill products. As stated in the FEDERAL REGISTER of December 30, 1977 (42 FR 65214), the TPM consists of four major parts: (1) the establishment of trigger prices for steel mill products imported into the United States; (2) the use of a Special Summary Steel Invoice ("SSSI") applicable to imports of all steel mill products; (3) the continuous collection and analysis of data concerning (a) the cost of production and prices of steel mill products exported to the United States, and (b) the condition of the domestic steel industry; and (4) where appropriate, the expedited initiation and disposition of proceedings under the Antidumping Act of 1921 with respect to imports below the Trigger Prices.

The Trigger Price Mechanism is a monitoring device established by the Treasury Department to determine if basic steel mill products may be sold to the United States at less than fair value. Actual C.I.F. transaction prices on sales to the United States are compared to trigger prices established by the Treasury Department. Prices below the trigger prices are considered to represent potential sales at less than fair value since trigger prices reflect the estimated cost of production of the world's most efficient steel industry.

Information has been developed from analysis of the SSSI's submitted, indicating that imports of certain carbon steel plates, sold by the companies listed below, have been entering the Unites States at prices below the applicable "Trigger Prices". Such information indicates the possibility that the subject carbon steel plates are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act of 1921, as amended (19 U.S.C. 160 et seq.), by the following producers and/or sellers of this merchandise, and in those instances where the seller did not also produce the exported product, the manufacturers supplying the firms listed below:

Empresa Nacional Siderurgica, S.A.
Velasquez, 134
Madrid-6, Spain

"Stahlexport" Przedsiebiorstwoa
Handlu Zagranicznego
Katowice, Plebiscytowa 36
Poland

China Steel Corp.
(Taiwan)

The addresses listed above are for identification purposes only and do not necessarily reflect the countries from which those companies have made sales at less than "trigger prices". For purposes of this investigation, sales by those companies controlling, controlled by, or under the common ownership of each listed company in the same country, will be subject to any Finding of Dumping ultimately issued.

Customs' information indicates margins of dumping up to 48.5 percent based upon: the comparison of export prices to the U.S. with prices to third countries, as reflected by prices applicable to imports of this merchandise into the member states of the European Communities, for exports from Spain; and the comparison of export prices to the U.S. with the foreign market value, as reflected by prices applicable to this merchandise sold for export to the European Community by Spanish producers and set by the Commission of the European Communities for such imports, with respect to this merchandise imported from Poland. For this latter comparison of relevant pricing, Spain is considered to constitute a country at a comparable level of economic development within the meaning of § 153.7, Customs Regulations (19 CFR 153.7) as amended by 43 FR 35262, pertaining to merchandise from state-controlled-economy countries.

With respect to goods exported from the Republic of China, export prices to the United States were compared to the data developed under the Trigger Price Mechanism (TPM) for carbon steel plates contained in AISI category 5. Data regarding "trigger prices" for this product were utilized due to the lack of readily available data regarding Taiwanese home market prices, prices at which this product is sold to third countries by companies in Taiwan or the cost of producing carbon steel plate in Taiwan.

In establishing and administering the TPM, substantial evidence has been developed concerning injury and likelihood of injury to the United States steel industry from sales of foreign steel at less than its fair value. The sector of carbon steel plate seems particularly vulnerable. Domestic consumption increased in 1977 campared to 1976 by 10.3 percent, and in the first 8 months of 1978 by 21.5 percent compared to the same period in 1977. Based on U.S. Census statistics during those same time frames, imports have increased, respectively, 32.6 percent and 75.9 percent. During the first 8 months of 1978, total imports of carbon steel plate accounted for 24 percent of total U.S. domestic consumption. Evidence available indicates that imports from the three countries in which the above-named companies are situated, have increased their shares of this market in both absolute terms and in terms of market penetration. Imports from these companies, occurring at prices less than the relevant trigger prices have been significant, accounting for roughly 25 percent of total imports of this product from these three countries during the period May-August 1978. Accordingly, it has been determined that a preliminary referral to the International Trade Commission pursuant to section 201(c)(2) of the Antidumping Act is not required.

Having conducted a summary investigation pursuant to § 153.29 of the Customs Regulations (19 CFR 153.29) and having determined as a result thereof that there are grounds for so doing, the United States Customs Service is instituting an inquiry to verify information and to obtain the facts necessary to enable the Secre-

V 43/207 OC 25 78

tary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value. The inquiry will be conducted on an expedited basis.

Standard questionnaires will be promptly presented by the Customs Service to all appropriate parties. Responses to those sections of the questionnaire relating primarily to price data (sections A-C) must be received by the Customs Service within 21 days from the date of presentation but in no case more than 26 days after the date of publication of this notice in the FEDERAL REGISTER. Where appropriate, responses to that section of the questionnaire relating primarily to cost of production data (section D) must be received by the Customs Service within 35 days from the date of presentation but in no case more than 41 days after the date of publication in the FEDERAL REGISTER. Any responses received after the above-cited deadlines will not be considered by the Secretary in making the Tentative Determination and may not be used in making the Final Determination.

All information submitted during this investigation for which confidential treatment is requested must be accompanied (unless § 153.22(a)(2) of the Customs Regulations is applicable) by a full and descriptive nonconfidential summary in accordance with § 153.22 of the Customs Regulations (19 CFR 153.22). All information or portions of confidential submissions which are not adequately summarized will not be considered by the Secretary in detemining the question of sales at less than fair value.

This notice is published pursuant to § 153.30 of the Customs Regulations (19 CFR 153.30).

ROBERT H. MUNDHEIM,
General Counsel of the Treasury.

OCTOBER 20, 1978.

[Notice No. 199]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

OCTOBER 11, 1978.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

MC 720 (Sub-57TA), filed August 15, 1978. Applicant: BIRD TRUCKING CO., INC., P.O. Box 227, Waupun, WI 53963. Representative: Wayne W. Wilson, 150 East Gilman Street, Madison, WI 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods* (except in bulk) from the facilities used by Ore-Ida Foods, Inc., at or near Plover, WI, to points in and east of ND, SD, NE, KS, OK, and TX. Restriction: Restricted to traffic originating at the named origin and destined to the named States. Authority sought for 180 days. Supporting shipper: Ore-Ida Foods, Inc., Owyhee Plaza, Boise, ID 83702. Send protests to: (District Supervisor) Mr. John Ryden, Interstate Commerce Commission, U.S. Federal Courthouse, 517 East Wisconsin, Room 619, Milwaukee, WI 53202.

MC 29568 (Sub-5TA), filed August 21, 1978. Applicant: ASSOCIATED TRANSFER & STORAGE CO., INC., 730 North Northlake Way, Seattle, WA 98103. Representative: Susan W. Carlson, Aiken, St. Louis & Siljeg, 1215 Norton Building, Seattle, WA 98104. CHICAGO & NORTH WESTERN TRANSPORTATION CO.

Abandonment Near Faribault and Dundas in Rice County, Minn.; Findings

Notice is hereby given pursuant to section 1a of the Interstate Commerce Act (49 U.S.C. 1a) that by a Certificate and Decision decided September 29, 1978, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Oregon Short Line R. Co.—Abandonment Goshen*, 354 I.C.C. 584 (1978), the present and future public convenience and necessity permit the abandonment by the Chicago & North Western Transportation Co. of a portion of a line of railroad known as the Faribault-Dundas line, extending from C&NW milepost 45.8 near Faribault to milepost 55.7 near Dundas, a distance of 9.9 miles, located in Rice County, Minn. A certificate of public convenience and necessity permitting abandonment was issued to the Chicago & North Western Transportation Co. Since no investigation was instituted, the requirement of § 1121.38(a) of the regulations that publication of notice of abandonment decisions in the FEDERAL REGISTER be made only after such a decision becomes administratively final was waived.

Upon receipt by the carrier of an actual offer of financial assistance, the carrier shall make available to the offeror the records, accounts, appraisals, working papers, and other documents used in preparing exhibit I (§ 1121.45 of the regulations). Such documents shall be made available during regular business hours at a time and place mutually agreeable to the parties.

The offer must be filed and served no later than November 9, 1978. The offer, as filed, shall contain information required pursuant to § 1121.38(b) (2) and (3) of the regulations. If no such offer is received, the certificate of public convenience and necessity authorizing abandonment shall become effective December 11, 1978.

Coordination Project in the City of Albia, Monroe County, Iowa

Norfolk & Western Railway Co. (NW), 8 North Jefferson Street, Roanoke, Va. 24042, represented by R. Curtis Steele, Jr., assistant general attorney, Norfolk & Western Railway Co., Roanoke, Va. 24042, hereby give notice that on the 3d day of October 1978, it filed with the Interstate Commerce Commission at Washington, D.C., an application under section 5(2) of the Interstate Commerce Act for a decision seeking approval and authorization to purchase from Chicago & North Western Transportation Co. (C&NW) approximately 1,947 feet of trackage and a permanent easement over a strip of land approximately 30 feet extending from NW milepost 271.36 to NW milepost 271.73 in the city of Albia, Monroe County, Iowa.

The proposed transaction will permit Applicant to maintain the continuity of its line of railroad through Albia by acquiring trackage which would otherwise be retired by the owning railroad, rather than by resorting to the much more costly alternative of constructing new trackage to connect the two ends of NW's line at that city.

NW is currently operating three trains per week in each direction over the track pursuant to an 1899 trackage rights agreement between Iowa Central Railway Co. and Wabash Railroad Co., the predecessors in interest of C&NW and NW, respectively. No change in operations after the purchase is anticipated.

In the opinion of the applicant, the granting of the authority sought will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 CFR 1108.8) in Ex Parte No. 55 (Sub-No. 4), *Implementation—National Environmental Policy Act, 1969*, 352 ICC 451 (1976), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall indicate with specific data the exact nature and degree of the anticipated impact. See *Implementation—National Environmental Policy Act, 1969, supra*, at p. 487.

Interested persons may participate formally in a proceeding by submitting written comments regarding the application. Such submissions shall indicate the proceeding designation Finance Docket No. 28873 and the original and two copies thereof shall be filed with the Secretary, Interstate Commerce Commission, Washington, D.C. 20423, not later than December 11, 1978. Such written comments shall include the following: the person's position, e.g., party protestant or party in support, regarding the proposed transaction; specific reasons why approval would or would not be in the public interest; and a request for oral hearing if one is desired. Additionally, interested persons who do not intend to formally participate in a proceeding but who desire to comment thereon, may file such statements and information as they may desire, subject to the filing and service requirements specified herein. Persons submitting written comments to the Commission shall at the same time, serve copies of such written comments upon the applicant, the Secretary of Transportation and the Attorney General.

H. G. Homme, Jr.,
Acting Secretary.

[7035-01--M]

[Disaster Relief Order No. 14 (Sub-No. 2)]

SOUTHERN PACIFIC TRANSPORTATION CO.

Decision

Decided: October 20, 1978.

An application has been filed by the Southern Pacific Transportation Co. (SP) seeking authority under section 22 of the Interstate Commerce Act to publish allowances in order to provide reduced rates for persons who would normally ship via the Northwestern Pacific Railroal Co. (NWP) but cannot do so because of the effect of a fire in a tunnel on the NWP at mileage post 195 near Island Mountain, Calif.

It is ordered: The applicant is authorized to publish and file allowances to afford reduced rates under section 22 of the Interstate Commerce Act in the manner prescribed in section 6 upon not less than one day's notice and is authorized to publish in blanket supplements with relief from Rule 9(e) to do so in separate non-counting supplements, all the authority granted herein to expire with December 12, 1978.

The section of the United States and the class of persons entitled to such allowances are shippers of woodpulp from Fairhaven, Calif., on the NWP who, solely because of the fire in the tunnel, assume the cost of transporting woodpulp by highway to Richmond and Oakland, Calif., for loading onto railcars through covered facilities for protection from weather and impuritires and receivers of tank car products at Loleta, Calif., on the NWP which require heating to unload into tank trucks who, solely because of the fire in the tunnel, assume the cost of transporting the products by highway from Oakland, Calif., where heating facilities for unloading are available.

During the period in which any allowances authorized by this order are effective the carriers may, notwithstanding the provisions of section 4 of the Interstate Commerce Act, maintain higher rates to directly intermediate points and maintain through rates in excess of the aggregate of intermediate rates over the same routes if one or more of the factors of such aggregate of intermediate rates is a reduced rate established under authority of this order.

Any tariffs or tariff provisions published under this authority shall make reference to this order by number and date.

Notice to the affected railroads and the general public shall be given by depositing a copy of this order in the Office of the Acting Secretary of the Commission and by filing a copy with the Director, Office of the Federal Register. Copies will also be mailed to

V 43 / 207 OCT 25 78

the Chairman of the Traffic Executive Association—Eastern Railroads, New York, N.Y.; the Chairman of the Southern Freight Association, Atlanta, Ga.; the Chairman of the Executive Committee, Western Railroad Traffic Association, Chicago, Ill., and the Vice President, Economics and Finance Department of the Association of American Railroads, Washington, D.C.

By the Commission, A. Daniel O'Neal, Chairman.

H. G. HOMME, Jr.,
Acting Secretary.

[7035-01-M]

[Docket No. AB-20 (Sub-No. 1)]

TEXAS AND PACIFIC RAILWAY CO.

Abandonment Between Barnsdall and Pawhuska in Osage County, Okla.; [1]—Findings

Notice is hereby given pursuant to section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by a decision entered on September 28, 1977, and the decision of the Commission, Division 1, served April 17, 1978, adopted the decision of the Administrative Law Judge entered on September 28, 1977, which is administratively final, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Oregon Short Line R. Co.—Abandonment Goshen*, 354 ICC 584 (1978), the present and future public convenience and necessity permit the abandonment by the Texas and Pacific Railway Co. of that line of that company extending from milepost 188 near Barnsdall, Okla., in a northwesterly direction to milepost 201, the end of that line at Pawhuska, Okla., a distance of 12.98 miles, in Osage County, Okla.

A certificate of abandonment will not be issued to the Texas and Pacific Railway Co. based on the above-described finding of abandonment until final determination of the proceeding by the United States Court of Appeals. During the interim, however, the procedures specified in section 1a (6) and (7) of the Act will otherwise be followed. Thus, the Commission will be in a position to issue a certificate of abandonment 30 days after publication of this notice (November 24, 1978) unless within 30 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment), to enable the rail service involved to be continued; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect.

However, as previously indicated no such certificate will be issued until the pending court proceeding has been finally resolved. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691, as amended by publication of May 10, 1978, at 43 FR 20072. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced decision.

H. G. HOMME, Jr.,
Acting Secretary.

[FR Doc. 78-30160 Filed 10-24-78; 8:45 am]

[1] This proceeding is pending review in the United States Court of Appeals for the Tenth Circuit, entitled *Pawhuska, et al. v. Interstate Commerce Commission*, No. 78-1364.

[M-170, Amdt. 2; Oct. 18, 1978]

CIVIL AERONAUTICS BOARD.

Notice of deletion from the October 20, 1978, meeting.

TIME AND DATE: 1:30 p.m., October 20, 1978.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: 11. Docket 30356, *Transcontinental Low-Fare Route Proceeding*, (Instructions to Staff) for information memo dated September 26, 1978.

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: The memorandum on the case prepared for the Board by OGC was necessarily developed on the basis of the proceeding record and follows, to some extent, traditional lines for considering the major issues of the need for service, carrier selection and other related materials. The Board does not have before it any presentation or explanation of the effect that the Airline Deregulation Act of 1978, apparently to become effective upon the President's signature, will have on this proceeding. Inasmuch as the new Act, with a new Declaration of Policy and substantially changed "Factors" for interstate transportation, will be in effect before the Board's opinion can be prepared and issued, the Board has voted that it is desirable and essential that it receive the staff's analysis and recommendations on the implementation of the new Act before reaching a final decision. Accordingly, the following Members have voted that agency business requires that item 11 be deleted from the October 20, 1978, meeting agenda and be deferred to a later Board meeting and that no earlier announcement of this change was possible:

Chairman, Alfred E. Kahn
Member, Richard J. O'Melia
Member, Elizabeth E. Bailey
Member, Gloria Schaffer
Member, Marvin S. Cohen

2

[M-170, Amdt. 3; Oct. 18, 1978]

CIVIL AERONAUTICS BOARD.

Notice of addition of item to the October 20, 1978, agenda.

TIME AND DATE: 1:30 p.m., October 20, 1978.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: 5a. Docket 33461, Application of Qantas Airways Ltd. for waiver of Part 212 to carry individually-waybilled cargo on seven passenger charters (Memo 8244, BIA, OGC, BPDA).

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: This item is being added to the October 20, 1978, calendar because Qantas proposes to offer the service immediately. The first flight was scheduled for October 19 and the next is October 23. The staff circulated a memorandum and draft order to the Board on October 18 asking the Board to vote by notation. Because of the precedential and policy issues involved, the following Members voted instead to discuss the issues at the next Board meeting and, accordingly, determined that agency business requires the addition of this item to the October 20, 1978, agenda and that no earlier announcement of this addition was possible.

Chairman, Alfred E. Kahn
Member, Richard J. O'Melia
Member, Elizabeth E. Bailey
Member, Gloria Schaffer
Member, Marvin S. Cohen

All amendments to previously announced agendas are publicly posted at the Board's offices, sent to the Federal Register for publication, and mailed to parties to docketed cases affected by the change. We regret any inconvenience that may be caused by these changes or the delayed receipt of our notices.

3

[M-170, Amdt. 4; Oct. 19, 1978]

CIVIL AERONAUTICS BOARD.

Notice of deletion of item from the October 20, 1978, agenda.

TIME AND DATE: 1:30 p.m., October 20, 1978.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: 15. Docket 30452, Application for prior approval of the Universal Air Travel Plan (UATP)—1976, Agreements CAB 26433 and 26433-A1, under section 412 of the act. UATP is a joint venture among some 200 air carriers and foreign air carriers establishing a commonly accepted credit card (Memo 8236, 8236-A, BPDA, OGC, BALJ).

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: Member Cohen has requested that item 15 be deleted from the October 20, 1978, agenda in order to provide him with more time to consider the alternative procedures proposed by the staff. Accordingly, the following Members have voted that agency business requires the deletion of item 15 and that no earlier announcement of this deletion was possible:

Chairman, Alfred E. Kahn
Member, Richard J. O'Melia
Member, Elizabeth E. Bailey
Member, Gloria Schaffer
Member, Marvin S. Cohen

All amendments to previously announced agendas are publicly posted at the Board's offices, sent to the Federal Register for publication, and mailed to parties to docketed cases affected by the change. We regret any inconvenience that may be caused by

these changes or the delayed receipt of our notices.

Title 30—Mineral Resources

CHAPTER VII—OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT, DEPARTMENT OF THE INTERIOR

SUBCHAPTER R—ABANDONED MINE LAND RECLAMATION

ABANDONED MINE LAND RECLAMATION PROGRAM PROVISIONS

Procedures and Requirements

AGENCY: Office of Surface Mining Reclamation and Enforcement, Department of the Interior.

ACTION: Final rules.

SUMMARY: The regulations added to this chapter by these Parts established the abandoned mine land reclamation program as required by the Surface Mining Control and Reclamation Act of 1977 (Act). The Act requires that regulations be promulgated for the abandoned mine land reclamation program, which incorporates the provisions of Title IV of the Act. The regulations establish procedures and requirements for the preparation, submission and approval of State and Indian programs, consisting of a plan and annual submissions of projects.

EFFECTIVE DATE: October 25, 1978, except for public record and report requirements which are subject to General Accounting Office approval and will be effective 45 days following publication (December 11, 1978), unless the General Accounting Office notifies the Office that it does not approve those requirements.

ADDRESSES: Director, Office of Surface Mining Reclamation and Enforcement, Department of the Interior, Washington, D.C. 20240, 202-343-4006.

FOR FURTHER INFORMATION CONTACT:

Richard Nalbandian, 202-343-4057.

SUPPLEMENTARY INFORMATION: Proposed rules were published in the FEDERAL REGISTER on April 26, 1978 (43 FR 17918) as 30 CFR Parts 840, 841, 843, 845, 848, 850, 852, and 855. In order to consolidate the rules for ease of reference and use, the Office of Surface Mining has been assigned a block of numbers to accommodate all the rules of the Office. The table below is provided to assist the public in comparing the proposed and final rules for Abandoned Mine Land Reclamation.

Final Rules	Proposed Rules
Part 870	Part 837 (Final 12/13/77)
Part 872	Part 840
Part 874	Part 841
Part 877	Part 843
Part 879	Part 845
Part 882	Part 848
Part 884	Part 850
Part 886	Part 852
Part 888	Part 855

The Surface Mining Control and Reclamation Act of 1977 (Act), Pub. L. 95-87, requires the Secretary of the Interior to publish regulations implementing and abandoned mine land reclamation program incorporating the provisions of Title IV of the Act. The regulations establish procedures and requirements for the preparation of State and Indian programs, consisting of a Reclamation Plan, annual submissions of projects and applications for annual grants. The additional parts to this chapter also include implementation of the Federal, State, and Indian Abandoned Mine Reclamation Funds; general reclamation objectives and requirements; conditions and procedures for entry on land study, exploration, reclamation and emergency reclamation work; requirements for acquisition, management and disposition of eligible land and water; authorization for reclamation on private land; and establishment of interim procedures for Indian reclamation projects.

These regulations are established pursuant to the authority of sections 201(c) and 412(a) of the Act, 91 Stat. 449, 466 (30 U.S.C. 1211, 1242). It should be noted that the regulations implementing the provisions of Title IV relating to the amount and collection of reclamation fees have already been promulgated in 30 CFR Part 837 on December 13, 1977 (42 FR 62713). In conformance with the new numbering system they are redesignated Part 870. A brief discussion of the parts and major sections of the final regulations follows.

Part 872 sets forth general responsibilities for administration of abandoned mine reclamation funds to finance the program. If defines the source and use of moneys deposited in the Funds and the responsibilities of Federal and State agencies and Indian tribes in the conduct of the programs.

Part 874 establishes requirements for the selection of work to be performed with moneys from the applicable Fund. It includes land and water eligibility requirements, reclamation project objectives, and project evaluation factors.

Part 877 sets forth procedures for entry on land by the Office, a State or Indian tribe under an approved Reclamation Plan to conduct studies or exploratory work to determine the existence of adverse effects of past coal mining practices, or to perform necessary reclamation work.

Part 879 contains procedures for the acquisition, management, and disposition of eligible land and water by the Office or a State or Indian tribe under an approved Reclamation Plan. This part also provides requirements for the collection and disposition of charges from the use or sale of acquired lands.

Part 882 authorized reclamation activity on private land after the procedures under Part 877 have been met. Sections 882.12-14 establish procedures for the recovery of the cost of reclamation on privately-owned land.

Part 884 establishes requirements and procedures for the preparation, submission and approval of State Reclamation Plans. Sections 884.15 and 16 contain provisions for amendments to State Plans or withdrawal or Plan approval.

Part 886 sets forth procedures for grants to States having an approved State Reclamation Plan for the reclamation of eligible land and water and for other activities necessary to carry out the Plan as approved. This part also contains provisions for the reduction or termination of grants under certain circumstances and requirements for the administration of the grants.

Part 888 establishes intermim procedures for conducting reclamation activities on Indian land in recognition of the unique status of Indian tribes under Title IV as a result of section 710 of the Act. This part is included to provide a method for beginning reclamation of Indian lands which are determined to be emergency or extreme danger situations or are at otherwise high priority for reclamation activities.

CONCURRENCES: The reporting requirements contained in these regulations require General Accounting Office review prior to their implementation.

BACKGROUND: The Surface Mining Control and Reclamation Act of 1977 was signed into law on August 3, 1977. Proposed rules implementing Title IV of the Act were published in the FEDERAL REGISTER on April 26, 1978 (43 FR 17918). Public hearings on the proposed rules were held on May 22, 1978, in Denver, Colo., May 25, 1978, in St. Louis, Mo., and June 1, 1978, in Washington, D.C. At the close of the comment period on June 26, 1978, 28 commenters had responded. The transcripts of the public hearings, and all written comments have been considered in the development of these final regulations.

Comments pertaining to each Part of this chapter have been summarized and are stated below, including explanations of all the significant changes that have been made between the Proposed Rules and these Final Rules. In this way it is hoped that the public will more readily understand the response to each comment and will, therefore, have a better understanding of the bases and purposes of the final regulations.

PART 872—ABANDONED MINE RECLAMATION FUNDS

Part 872 sets forth general responsibilities for administration of State and Indian Reclamation Programs, the Rural Lands Reclamation Program and reclamation activities to be carried out by the Office of Surface Mining Reclamation and Enforcement (Office). It provides definition of terms used in the Abandoned Mine Land Reclamation Programs. It also states the sources of revenue and authorized uses for Federal, State, and Indian Abandoned Mine Reclamation Funds.

1. Three comments were received in regard to coordination between State and Federal Program efforts suggesting rewording to emphasize the need for coordination among programs conducted with moneys from the Fund.

Response: The Office is in full agreement with the importance of close coordination between the programs. The Office has, therefore reworded § 872.4(b) (4) and (5) for clarification of Federal responsibilities and added § 872.4(c)(7) to emphasize the States coordination responsibilities under the Act.

2. Four comments were received concerning the definition of "Emergency" and "Extreme Danger." Most of the concern centered around the use of the word "considerable" in both definitions which was considered to be too arbitrary and left too much to conjecture.

Response: We concur in the commenters concerns and have made the changes necessary for clarification in accordance with the Act.

To reflect the unpredictable nature of an emergency, § 872.5(c) is changed to read "Emergency means a sudden danger or impairment that presents a high probability of substantial physical harm to the health, safety, and welfare of people before the danger can be abated under normal program operation procedures".

The word "considerable" in § 872.5(e) was changed to "substantial" as it was in (c) above because: The word "substantial" was used in the Act in the definition of "Imminent danger"; and because Blacks dictionary defines "considerable" as worthy of consideration—and being merely relative—whereas "substantial" is defined as something of real worth and importance—something worthwhile as distinguished from something without value or merely nominal.

3. Three commenters expressed concern over the definition of "expended," proposing that it be modified by adding the words "or obligated."

Response: In our view such a modification would dilute "expend" as used in section 402(g)(2) of the Act to an almost meaningless term. Experience has shown that such latitude promotes hasty last minute obligations rather than well planned programs efforts. The commonly accepted definition of "expend" is to pay out or distribute. Blacks law dictionary definition is "to pay out, use up, consume" and implies receiving something in return; whereas "obligate" is to bind or constrain. No change has been made.

4. Numerous comments were made proposing that funds be made available for the preparation of State Reclamation Plans.

Response: After a careful indepth review of sections 102 (g) and (h), 401(c), and 412(b) of the Act, we have concluded that funds may be made available for some specific elements of the planning phase. We have, therefore, modified the regulations by adding § 872.11(b)(5)(vi) to allow the Office to enter into a cooperative agreement with a State or Indian tribe to gather the data required to assemble a State or Indian plan as specified in § 884.13(f). This may be done only at the request of the Governor or Indian tribe and only with those funds allocated or available for allocation to the State or Indian tribe.

5. One comment was received regarding fees collected from Indian reservations and suggesting that use of such fees exclusively on the reservation seriously impairs the availability of funds to States that are dominated by reservations.

Response: For purposes of Title IV of the Act (sec. 405(k)) Indian tribes have the same status as States, subject to the limitations of section 710 of the Act and Part 888 of this subchapter. Funds collected from reservations are subject to the same procedures—allocations, grants to and withdrawals from the tribes—that are applicable to funds collected from States. However, because Title IV explicitly provides for the allocation of moneys collected on coal producing lands in which an Indian tribe has an interest, the Office must make the necessary allocation.

In this regard, it should be noted that the Office has deleted all references to the term "Indian reservation" in § 872.11 and replaced it with the term "Indian lands." This change was made as a result of a memorandum from the Associate Solicitor, Division of Indian Affairs in the Solicitor's Office which concluded that the legislative history required such a change. The change made is also more consistent with other provisions of the Act and provides the Office with a more identifiable geographical area upon which to base its allocations. No other change was made.

6. Four commenters suggested that work done by the Director on noncoal projects should be done at the request of the Governor of a State, since the work will be done using moneys allocated or available for allocation to States.

Response: That is the requirement in section 409(b) of the Act, the intent of the regulations and is covered under § 874.12(b)(2). For clarification we have made the appropriate change in § 872.11(5)(ii).

7. Twelve comments were directed to the withdrawal of State fund allocations and grants. They range from a suggestion for withdrawal after only 1 year to a suggestion for withdrawal after 3 years of only those funds that have not been obligated.

In addition, suggestions were made to assure expenditure of withdrawn allocations and grants in the States from which they were withdrawn. Suggestions were also made regarding rules for allocation of Federal expenditures.

Response: Section 402(g)(2) of the Act is quite clear in specifying that "if funds—have not been expended within 3 years after their allocation, they shall be available to expenditure in any eligible area as determined by the Secretary." Considerable safeguards are included in the regulations to protect the States from automatic or indiscriminate withdrawals, i.e. § 872.11(b)(2) provides that "allocations *may* be withdrawn" and requires a written finding of fact—similarly § 886.18(b) requires a written notice and an opportunity for consultation and remedial action before termination of a grant. Section 886.18(b) also provides for retention of any portion of a grant required to meet contractual commitments made prior to an effective termination date.

In conformance with the Act, the geographic allocation of Federal expenditures from the fund, including those withdrawn from State allocations and grants, will reflect both the area from which the revenue came and the national program needs. Information regarding such needs is being and will be collected from a wide variety of sources including reports from private citizens, States and the direct data collection efforts of the Office. It must also be emphasized that Federal expenditures are taken from the Abandoned Mine Reclamation Fund; therefore, all the provisions of Part 874, General Reclamation Requirements, apply equally to the Federal Reclamation Program. Projects carried out with the discretionary funds by the

Office must also be carried out in accordance witht the procedural requirements of Parts 872, 877, 879, and 882 of this subchapter. The regulations, as

agement in accordance with approved Federal practice under OMB Circular A-102. No changes are necessary.

quirements as stated in section 404 of the Act, apparently feeling that this indicated a de-emphasis of the priority assigned to coal mined lands by the

more closely the wording of the act and the intent of Congress.

Response: Our efforts to combine coal and non-coal priorities were ap-

consistency of the Rural Abandoned Mine Program with these regulations.

Response: As stated in section 874.2, the objectives of this Part are to estab-

phasized that Pub. L. 95-87 is an environmental act. Hazards to people and the environment are the overriding concerns rather than cost-benefit con-

V 4 3 / 2 0 7 0 C 2 5 7 8

Office must also be carried out in accordance witht the procedural requirements of Parts 872, 877, 879, and 882 of this subchapter. The regulations, as written, are considered adequate for allocation of "discretionary" funds.

8. One comment was received regarding the deletion of the word "demonstration" in § 872.11(b)(5)(iii) and suggesting such deletion could change congressional intent.

Response: The word was inadvertently omitted in the proposed regulations. It has been added in the final regulations. (iii) now reads "* * * research, development, and demonstration projects," reflecting the common terminology in the scientific community.

9. Three suggestions were made suggesting that a provision be added to require withdrawal of funds transferred to the Secretary of Agriculture if not expended within 3 years.

Response. Under Federal budgeting procedures, funds will be transferred to Agriculture only in the amounts programed for use during a specific budget cycle. Provisions for withdrawal of funds are not required in these regulations since normal Federal accounting and budgeting procedures will achieve essentially the same results the commenters desired.

10. One commenter suggested making all of a State's allocation available on the date that a State's plan is approved.

Response: Allocations are technically available in their entirety upon approval of a State plan. They are available for appropriation by the Congress pursuant to section 401(d) of the Act and annual project requests may be made pursuant to section 405(f) of the Act. Grant applications may be submitted pursuant to § 886.15 of the regulations. We have requested appropriation of allocated funds for fiscal year 1979 based on our best estimate of the State plans and grant applications that will be submitted and approved during that period. If the number exceeds our expectations we are prepared to request supplemental appropriations to meet the need. This emphasizes the importance of the annual budget effort.

11. One commenter expressed concern that the application of OMB Circular A-102 in § 872.12 to management of the State Funds would discourage States from placing their own money in the accounts.

Response: We agree that it might serve as a deterrent for depositing other State money in the fund. We have provided the State the option of depositing other money in the account for their administrative convenience if they so desire. We have no alternative for management of the Fund which is established pursuant to section 401(a) of the Act, and which requires management in accordance with approved Federal practice under OMB Circular A-102. No changes are necessary.

PART 874—GENERAL RECLAMATION REQUIREMENTS

Part 874 sets forth requirements relating to eligibility, priorities, selection, and evaluation that are applicable to State, Indian and Rural Lands Reclamation Programs and reclamation activitles to be carried out directly by the Office. Consideration was given to including in this part standards for reclamation project operations comparable to the environmental performance standards for current coal mining operations. Such standards are not included at this time because a more extensive review is required to define specific national standards which are appropriate for the disparate reclamation activities to be conducted. Comments on the nature and content of standards which should be developed were requested and there were eleven such responses which are addressed in comment 17 below.

1. One commenter asked why the Rural Lands Reclamation Programs was mentioned in § 874.2, since proposed regulations for the program known as RAMP were published in the FEDERAL REGISTER in volume 43 at page 15312.

Response: No change to § 874.2 is needed. As stated in § 874.1, Scope, "This part establishes general requirements for the selection of work to be performed with moneys from the Abandoned Mine Reclamation Fund, * * *." The Rural Lands Reclamation Program (Rural Abandoned Mine Program or RAMP, as it has been named by the Soil Conservation Service) receives moneys from the Fund and is, therefore, subject to certain common conditions for the use of moneys from the Fund. The inclusion of such common conditions are intended to insure coordination and uniform management of programs carried out with the Fund, and have been carefully coordinated with the Soil Conservation Service.

2. Although no comment was received addressing this change, § 874.5 *Definitions* was added as a result of changes made in this Part that made it necessary to define the phrase "left or abandoned in either an unreclaimed or inadequately reclaimed condition." The definition reflects the language found in the Congressional Record at H.R. Rept. No. 2, 95th Cong., 1st sess. 140(1977).

3. Nine commenters suggested that the language of § 874.12 did not follow closely enough the wording of section 404 of the Act. In § 874.12(a) they objected specifically to the deletion of the word "coal" from the eligibility requirements as stated in section 404 of the Act, apparently feeling that this indicated a de-emphasis of the priority assigned to coal mined lands by the Act. Several also felt that the connecting words used between § 874.12(a) (1), (2), and (3) should also reflect the proper combinations of the requirements of the Act.

Response: The suggestions for insertion of the word "coal" in § 874.12(a) were not accepted. § 874.12(b) establishes eligibility requirements for reclamation of lands and water affected by past non-coal mining activities and incorporates the provisions of section 409 of the act. § 874.12(b), when read with § 874.12(a), establishes eligibility priorities consistent with both sections 404 and 409(c) of the act. Section 874.12(a) was, however, rewritten to reflect the proper combinations of the requirements of the act and to clarify the meaning of "continuing responsibility." Responsibility will be determined only by State Statutory law and will not include common law. In addition, the language was broadened to allow lands to remain eligible in the event a forfeited bond is insufficient to do an adequate job of reclamation. These changes reflect the best judgment of the Office regarding the intent of Congress gleaned from the act and the legislative history. The legislation did not specifically address the issues of common law responsibility or bond forfeiture and, as a result, the Office has made a judgment that will most likely result in accomplishing more reclamation activity than if lands subject to common law liability or under bond forfeitures had been excluded.

4. Three commenters suggested alternative or additional language for § 874.12(c), seeking to eliminate what they perceived as ambiguity or to set more flexible criteria for determining eligibility of proposed reclamation projects by deleting the phrase "beneficial use of land or water resources" and substituting the phrase "approved post-mining land use."

Response: The suggestions were not accepted. The language in § 874.12(c) was taken directly from section 102(h) of the act and provided sufficient latitude for selection of projects. However, the section has been moved in the final regulations and is now included in § 874.5(b).

5. Eight commenters recommended that the word "coal" be inserted in §§ 874.13 (a), (b), and (c) between the word "past" and the words "mining practices." They said that this is necessary to insure the observance of the priority to be given coal reclamation under the act. Two of these commenters further suggested that the work "coal" should be deleted from § 874.13(d), again in order to follow

more closely the wording of the act and the intent of Congress.

Response: Our efforts to combine coal and non-coal priorities were apparently difficult to understand. We have, therefore, accepted the recommendations to insert the word "coal", and have expanded the section to include the priorities established in section 409 (a) and (c), and 402(g)(2) of the act, respectively for non-coal mined lands. The suggestion to delete the word "coal" from § 874.13(d) was rejected because section 409(c) of the act sets forth a necessary action-oriented program which precludes "non-coal" from § 874.13 (d), (e) and (f) of the regulations. The changes are not substantive, but rather add language to clarify the intent of the rules.

6. One commenter recommended that development of land adversely affected by coal mining for housing of people who are disabled or dislocated as a result of coal mining be established as the sixth priority in § 874.13.

Response: The recommendation was not accepted. The section follows the priorities specified in the act. § 874.14(a)(3)(vi)(d) allows such benefits to be considered in evaluating proposed reclamation projects. Acquisition of land for housing is, in our view, dealt with by section 407(h) of the act as an authority rather than as a priority. We have treated it the same way in the regulations.

7. Two commenters asked for clarification of the exclusion of channelization under objective number three in section 403 of the act and objective (c) in § 874.13 of the regulations.

Response: No change to the regulation is needed. Section 403 of the act is construced to permit channelization necessary to meet objectives 1, 2, 4, 5, and 6 in section 403 of the act (objectives a, b, d, e, f, and g in § 874.13 of these regulations). That is, channelization is permitted in all cases except under section 403(3) and § 874.13(c), where it is specifically excluded by the act.

8. One comment noted that the notification and review requirements of OMB Circular A-95 are not addressed by the regulations.

Response: Section 886.15(a) has been rewritten to insure fulfilment of OMB Circular A-95 notification and review requirements. Such notification and review is required by Part 1 of the Circular itself. Furthermore, State and regional review insuring coordination of planning and implementation of projects involving public monies is simply a fundamental sound planning practice.

9. One commenter noted that § 874.14 does not recognize the unique requirements of section 406 of the act and the need for assurances on the consistency of the Rural Abandoned Mine Program with these regulations.

Response: As stated in section 874.2, the objectives of this Part are to establish conditions common to all programs. Likewise, § 874.11 specifies that the provisions of this Part apply to all projects. RAMP is included by reference because its funding comes from the Fund. Additional reference in § 874.14 is not necessary.

10. One commenter suggested adding an evaluation factor to § 874.14(a)(3) that specifically would consider erosion control and sediment reduction.

Response: The words "abatement of erosion and sedimentation," have been added to § 874.14(a)(3)(ii). This is justified since exacerbation of erosion and sedimentation is one of the major and most common environmental problems associated with abandoned mine lands. (See "Environmental Impact Statement, Rural Abandoned Mine Program," Soil Conservation Service, July 3, 1978, pp. 16, 18, 32, 36.)

11. One commenter suggested that § 874.14(a)(8) should emphasize that maintenance of the reclaimed area and post-reclamation management are essential factors upon which an evaluation should be based.

Response: The word "maintenance" has been added. It is obvious that maintenance will often be necessary to successful reclamation, e.g., irrigation may be required until self-supporting vegetation is established, or periodic dredging of a sedimentation pond or impoundment may be needed to insure adequate storage capacity.

12. One commenter suggested the addition of two new evaluation factors in subpart 874.14; one related to hazards that may be created by sealing abandoned underground openings adjacent to active mines and a second related to the need for local, State, Indian and Federal coordination where mines lie near or across jurisdictional boundaries.

Response: The first evaluation factor suggested was provided for by adding the words "or after" in § 874.14(a)(4). This gives sufficient latitude to consider such potential hazards. The second comment was not accepted, since such intergovernmental coordination is already considered in Part 872 of this subchapter.

13. One commenter felt that in § 874.14(a)(5) "costs of reclamation" and "economy and efficiency" were given too little consideration and suggested that more emphasis should be given to these criteria.

Response: The comment was not accepted. The commenter apparently believed that the evaluation factors are listed in order of weight or value assigned. This is not so. No values or priorities have yet been assigned to the factors. But in any case, it must be emphasized that Pub. L. 95-87 is an environmental act. Hazards to people and the environment are the overriding concerns rather than cost-benefit considerations.

14. One commenter asked the meaning of "future" in § 874.14(a)(6)(i) and of "special consideration" in § 874.14 (a)(6)(ii). Further, he asked what actions a State may take if no one has indicated an interest in resource recovery despite the presence of a major resource in a refuse site.

Response: The Office or State has flexibility in determining "future" as any time subsequent to the present. "Special consideration" means that the Office or State should carefully examine the site proposed for reclamation to determine if it is likely to be reminded in the near future, thereby negating the proposed reclamation work. The Office and the State have an obligation to insure for as long as possible the benefits derived from reclamation. Finally, the Office or State may recover the coal itself in the course of reclamation, or may otherwise reclaim the site if it so desires and if the project fulfills the other selection criteria.

15. One commenter suggested addition of the words "if *economical* to recover the resource" to § 874.14(a)(6)(ii).

Response: The comment was not accepted. The regulation simply requires consideration of the resource as one of the evaluation factors, not recovery of it. Sufficient latitude is given by the regulation to allow the recoverable coal resource either to be recovered as a part of the reclamation effort or foregone if necessary.

Finally, as a result of consultation with the U.S. Fish and Wildlife Service, § 874.14(a)(3)(ii) was changed to read "—quality, fish (and), wildlife, *and plant* habitat * * *" in order to be in accord with the requirements of the Endangered Species Act of 1973.

16. Eleven comments were received concerning the application of specific standards to reclamation work on abandoned mine lands. The comments ranged from proposing specific standards or areas for consideration to challenging the authority of the Office to promulgate such standards under Title IV.

Response: Each of the comments will be carefully considered in the development of reclamation standards for abandoned mine lands. Additional public comment and discussion will be invited and considered during the subsequent rulemaking. Proposed rules will be published, a formal comment period will be provded, and final regulations will be promulgated. A tenative schedule for this rulemaking will be published in the near future. However, until such rules are promulgated, the specific requirements for reclamation

V 4 3 / 2 0 7 0 OCT 25 1978

work will be considered on a case-by-case basis. The Office believes this will be an acceptable practice because the reclamation work done during this period will generally address only emergency or extreme danger situations.

However, the comment challenging the authority of the Office to establish standards does deserve a response at this time. Sections 201(c) and 412(a) of the act provide ample authority to promulgate necessary regulations for the implementation of the act. Furthermore, section 405 places an obligation on the Office to monitor the progress and quality of State reclamation programs. It is self-evident that in authorizing, funding, evaluating, or directly undertaking work under Title IV, the Office must establish certain minimum standards for the quality and acceptability of the work and upon which it may make a judgment about the progress and quality of work performed. Obviously, the Office must be able to judge whether the objectives in section 403 of the act are indeed being fulfilled.

Part 877—Rights of Entry

Part 877 establishes procedures for entry on private lands for purposes of study or exploratory work, and reclamation. The rules state a policy preference for entry under a written consent from the owner rather than under the police powers provided in sections 407 (a) and (b) and 410(b) of the act. When advance consent cannot be obtained, entry for study or exploration and reclamation is limited to those cases, or discovering those cases, where there is reason to believe that the adverse effects of past coal mining may be harmful to the public health, safety or general welfare. Notice requirements and procedures for certain wirtten findings are proposed for those cases when consent cannot be obtained.

1. There were 22 comments concerning the right of entry. Most of these comments related to § 877.11 concerning the legal description of the land. Most commenters were under the impression that a legal description would entail getting a metes and bounds description by a survey of the property. Others wanted to have only oral consent or just a handshake agreement to enter upon the property.

Response: We did not accept the suggestions for adoption of an oral consent or deletion of the legal description. It is extremely important to establish ownership and the specific nature of any agreement, in order to determine such things as land eligibility and liening requirements. The requirement for a legal description can be satisfied by using the description found in the county land records, tax maps or abstract of title, without employing the metes and bound method.

2. One commenter expressed the need for protection of the landowner from reclamation efforts that result in more hazardous conditions, and Federal responsibility for after-effects of emergency reclamation.

Response: Under the Anti-Deficiency, Act, 31 U.S.C. 665, *et seq*, the Federal Government is prohibited from entering into agreements to indemnify or hold harmless any landowner receiving assistance. The Office is, therefore, prohibited from making rules to provide for such indemnification. The Office intends, however, that all work will be performed according to the highest professional standards and approved work plans.

3. Under § 877.14 a number of commenter suggested that we add the word "state" after the word "Office".

Response: This section addresses provisions for emergency situations. Section 410 of the act only authorizes the Secretary to do emergency reclamation work. Moreover, section 405(d) specifically excludes States from engaging in emergency reclamation work under section 410. Therefore, the Office cannot accept this comment.

Part 879—Acquisition, Management, and Disposition of Lands and Water

Part 879 reflects several provisions of Title IV of the Act for acquisition, use and disposal of land and water. For the convenience of the public, the following table reflects the primary authority in the Act for selected provisions of this part.

Section of proposed rules	Section of the Act
879.11(a)	407(c) (1) and (2) and 407(f)
879.11(b)	407(c) (3) and 407(f)
879.11(c)	407(h)
879.11(d)180409(e)	
879.12(c)	407(c)
879.12 (d), (e), and (f)	407(d)
879.13	407(c) and 409(e)
879.14	407(f)
879.15	407(g)(2)
879.15 (b) and (c)	412(b)(2)
879.15 (d) and (e)	407 (e)
879.15(f)	407(h)
879.15(g)	407(g)(1)

Sections of the regulations not specifically identified in the above table, as well as some portions of the sections identified, are promulgated under section 412(a) of the Act, which allows the Secretary to promulgate rules that are necessary or expedient to implement or administer the provisions of Title IV.

OSM received 32 comments from 12 agencies and organizations in public hearings and letters. Six comments were editorial and eight recommended changes to clarify and enhance comprehension of the regulations. Several commenters applauded the expressed policy of the Office to restrict acquisition and condemnation of real property as much as possible and thereby use the Fund for reclaiming lands rather than acquiring lands. They further suggested that the acquisition of lesser interest in land (e.g., leases, easements) whenever possible to accomplish the reclamation work would avoid acquisition and a large inventory of real property that may not be productively utilized.

1. Three commenters recommended that we add "or lands necessary to abate pollution from past coal mining practices" after "Land adversely affected by past coal mining practices." in section 879.11(a).

Response: Section 404 of the Act clearly specifies that eligible lands are those lands which were mined for coal or directly affected by mining processes. Section 407(c) of the Act restricts purchase to adversely affected lands. Therefore, to the extent this addition is directed at purchasing nonaffected lands, the Office would be exceeding the scope of the Act to include it. This does not, however, prevent the placement of a treatment plant on other than abandoned mine land. It simply prevents the purchase of such land with money from the Fund.

2. The question was raised as to whether a State needs to have specific legislative authority to acquire land, condemn land or enter upon land by exercise of the police power. As an example, one State reclamation agency has authority to acquire property but does not have authority to (1) condemn property for reclamation, (2) levy liens for reclamation, or (3) exercise the police power to effect entry onto private lands. They raise the question as to whether the reclamation agency will need to ask the State legislature to provide the same authorities as provided in Pub. L. 95-87 in order for the State to have its reclamation plan approved.

Response. Section 405(d) of the Act requires that a State enact or already have in effect existing legislation to implement Pub. L. 95-87 in order to qualify for program approval. This is interpreted as requiring the State legislature to give or make available to the State reclamation agency comparable authority to that provided in Title IV of the Act, including the authority to condemn, enter and place liens. Guidelines for State statutes are being prepared at the present time and will be provided to the States upon completion.

3. One commenter recommended deletion of § 879.11(e) because it is overly restrictive and serves no overriding public interest. He cautioned that fragmented ownership should be avoided.

Response: The comment was not accepted. Section 407(c) of the Act provides for acquisition of only those interests in land or water necessary for reclamation or post-reclamation uses. Consequently, land acquisition will be the exception rather than the rule and limited by the scope of the project.

4. One commenter recommended the deletion of § 879.12, Procedures for Acquisition, to provide flexibility and recognition of differing standards for different States by inserting instead "The Office, State or Indian tribe which acquires land under this Part shall comply with the applicable relocation law, regulations and procedures specified by the Office, State or Indian tribe."

Response: The comment was rejected. Section 407(e) of the Act and other Federal regulations (OMB Circular A-102, 41 CFR 114-50-103) provide for accomplishing this as set out in the regulations of this section. The Office is legally bound to follow the regulations of the Department of Interior, the Department of Justice and the Office of Management and Budget.

5. Two commenters suggested that a State be allowed to waive user charges on acquired land.

Response: The comment was accepted. The language in § 879.14(b) was changed to include States and Indian tribes. User fees may be waived when determined to be in the public interest. When the use primarily benefits the health, safety, or environmental values of the greater community or area in which the land is located and such use will protect the land and improvements and will not result in a significant monetary gain or profit to the user, it may be considered to be in the public interest. A determination must be made as to whether the land use is in itself beneficial to the public, whether the cost of collecting fees would be excessive in terms of returns and whether user fees are required to offset maintenance costs. These are determinations that must be made locally; therefore, the States and Indian tribes are in the best position to make them on lands under their jurisdiction.

6. Several commenters objected to the fact that land use agreements and reverter provisions are provided for when reclaimed land is transferred to a State agency or political subdivision, but such restrictions are not provided for in the case of sales for industrial, commercial, residential or recreational development.

Response: Section 407(e) of the Act requires land use agreements and reverter provisions in transfers to State or local governments. General safeguards, applicable to all land disposals, are included in § 879.15 of the regulations to assure that disposition of land is not contrary to the purposes for or authority under which the acquisition was made.

7. One commenter objected to the fact that the State's preference right to purchase reclaimed land requires the State to pay fair market value or not less than the cost to the United States of the purchase and reclamation of the land.

Response: Section 407(e) of the Act sets forth this requirement. It should be noted that, alternatively, the State can also bid at public sale.

Part 882—Reclamation on Private Land

Part 882 states the authority of the Office, States and Indian tribes to perform reclamation on private lands. It establishes a requirement for appraisals of the land value before and after reclamation work consistent with uniform appraisal standards. The rules also establish conditions and procedures for the filing of liens on private property equal to the increase in fair market value that results from reclamation work under certain circumstances.

Thirty-seven comments were received from 17 commenters.

1. One commenter suggested that loans be made to private landowners for reclamation work and another commenter suggested that the landowner be sent a bill for reclamation costs.

Response: The comments were not accepted. The Act does not provide authority for those activities. Section 408 of the Act does, however, provide for the filing of liens in specific instances. Rules for filing liens are found in § 882.13 of the regulations.

2. One commenter recommended that the wording of the regulations be changed to specify that the lien shall not exceed the increase in the market value of the land and asked that we delete the requiremnt for a statement of moneys expended.

Response: We agree that the lien cannot exceed the difference between the pre-reclamation and post-reclamation appraised market values. The rule as proposed stated this concept in old § 848.12(a) now § 882.12(a). Section 408(a) of the Act requires that a statement of moneys expended for the reclamation work be filed along with the appraisals. No change was required.

3. One commenter was concerned that the provision for filing a lien within 6 months was not a sufficient time to evaluate the increase in market value of the reclaimed land.

Response: This provision for filing the lien within 6 months of completion of reclamation work is required by section 408(a) of the Act.

4. One commenter suggested that the regulations provide for an appraisal to be made by an independent appraiser and notarized rather than provide for following procedures of the Uniform Appraisal Standards handbook.

Response: The suggestion was accepted for appraisals made for the purpose of filing liens. This conforms more closely to the language of the Act. The requirement for following the Uniform Appraisal Standards handbook was, however, retained to meet the requirements placed on us by the Department of Interior regulations and requirements of the Department of Justice.

5. Eleven commenters objected to the word *shall* in describing when a lien is to be filed in § 882.13 of the regulations. The Act indicates *may* and all commenters favored *may*.

Response: The legislative history is clear that Congress intended that no windfall profits should inure to the benefit of private landowners as a result of reclamation work on their land. Both House Report No. 95-218 at page 139 and the Conference Report on the final bill at page 100 indicate that a lien should be used by either the State or the Secretary to recover the costs, up to the increase in fair market value, of reclaiming abandoned property. Therefore, the use of mandatory language in § 882.13(a) requiring the State, Office, or Indian tribe to place a lien on private property is justified.

However, there were three problems with proposed § 882.13(a)(3), which allowed the Director to waive a lien if he determined a lien would not be consistent with the purposes of the reclamation and the landowner dedicated the property for a valid public use for an appropriate period of time. First, that provision took the decision of waiver away from States or Indian tribes. If a waiver is justified, that decision should reside equally with States or Indian tribes because the Act itself states that "• • • the Secretary or the State, pursuant to an approved State program, shall itemize the monies so expended and may file a statement • • •. Such statement shall constitute a lien upon the said land." Section 408(a). Indian tribes are included because section 405(k) of the Act defines Indian tribes as "States" for purposes of Title IV.

Second, while the concept of a waiver provision is authorized by use of the discretionary word "may" in section 408(a), House Report No. 95-218 at page 139 is clear that Congress did not intend the use of any device which would, in effect, amortize the cost of the reclamation work over a period of time at the end of which the landowner would be released from all repayment obligations. The language in proposed § 882.13(a)(3) contravened the expressed intent not to amortize by suggesting the use of a dedication for a limited period of time.

Third, the waiver provision as written did not address those situations where it may be unfair to burden a private landowner with a lien. For instance, a landowner may have had his land reclaimed by the Office, State or Indian tribe and then sold the land to a third party. The landowner would not have received any benefit from the reclamation work and should not be required to repay the cost of reclamation. Therefore, the waiver provision was changed to allow the Director to waive a lien if he determines that the landowner did not receive any benefit from the reclamation work.

4. One commenter suggested that the regulations provide for an appraisal to be made by an independent appraiser and notarized rather than provide for following procedures of the Uniform Appraisal Standards handbook.

Response: The suggestion was accepted for appraisals made for the purpose of filing liens. This conforms more closely to the language of the Act. The requirement for following the Uniform Appraisal Standards handbook was, however, retained to meet the requirements placed on us by the Department of Interior regulations and requirements of the Department of Justice.

5. Eleven commenters objected to the word *shall* in describing when a lien is to be filed in § 882.13 of the regulations. The Act indicates *may* and all commenters favored *may*.

Response: The legislative history is clear that Congress intended that no windfall profits should inure to the benefit of private landowners as a result of reclamation work on their land. Both House Report No. 95-218 at page 139 and the Conference Report on the final bill at page 100 indicate that a lien should be used by either the State or the Secretary to recover the costs, up to the increase in fair market value, of reclaiming abandoned property. Therefore, the use of mandatory language in § 882.13(a) requiring the State, Office, or Indian tribe to place a lien on private property is justified.

However, there were three problems with proposed § 882.13(a)(3), which allowed the Director to waive a lien if he determined a lien would not be consistent with the purposes of the reclamation and the landowner dedicated the property for a valid public use for an appropriate period of time. First, that provision took the decision of waiver away from States or Indian tribes. If a waiver is justified, that decision should reside equally with States or Indian tribes because the Act itself states that "• • • the Secretary or the State, pursuant to an approved State program, shall itemize the monies so expended and may file a statement • • •. Such statement shall constitute a lien upon the said land." Section 408(a). Indian tribes are included because section 405(k) of the Act defines Indian tribes as "States" for purposes of Title IV.

Second, while the concept of a waiver provision is authorized by use of the discretionary word "may" in section 408(a), House Report No. 95-218 at page 139 is clear that Congress did not intend the use of any device which would, in effect, amortize the cost of the reclamation work over a period of time at the end of which the landowner would be released from all repayment obligations. The language in proposed § 882.13(a)(3) contravened the expressed intent not to amortize by suggesting the use of a dedication for a limited period of time.

Programs. Limited variations to this format are provided.

1. Several commenters suggested

the limitations set forth therein, approval must be made to insure that the amendment proposals conform to

10. One commenter suggested that wording be added to § 886.24 to make records available for public inspection.

V 4 3 / 2 0 7 0 C 2 5 7 8

Third, the waiver provision as written did not address those situations where it may be unfair to burden a private landowner with a lien. For instance, if subsidence occurs on land recently purchased and the purchaser had no knowledge of the underground mine workings which were the cause of the subsidence, placing a lien on that property may result in the landowner paying twice. In fact, the value of his land may not increase over the amount he paid for the land only a short time before the property subsided. However, compared to the value of the land in a subisided condition, the reclaimed portion may be worth substantially more. In such a case, it is doubtful that a genuine windfall would result. Another example may be the case where reclamation work on an individual's land would actually produce far more benefit to the community at large, such as reclamation to correct acid drainage, siltation into streams, or aesthetic impacts. Such work may be deemed to be in the interests of the public health, safety or general welfare rather than viewed only in terms of the benefit to the individual landowner.

The facts and circumstances surrounding each such case, and others that may arise, must be examined to determine whether a lien is appropriate or necessary to protect the public from windfall profits inuring to the benefit of private landowners. The Office has, therefore, redrafted § 882.13(a)(3) to extend waiver authority to States and Indian tribes when the work performed is primarily for off-site benefits or is the result of unforeseen problems and will not result in a significant increase in value.

6. Thirteen commenters objected to the provision in subpart 882.14 for satisfaction of the lien within 5 years on the grounds that it will discourage program participation, create hardships on landowners and generally result in ill-will.

Response: These comments were generally accepted. There is nothing in the Act or the legislative history that requires satisfaction of a lien within a specified period of time. The Conference Report at page 100 does indicate that the Secretary or State is empowered to act to recover the costs of reclaiming privately owned lands. However, under an earlier House bill (H.R. 9725) it is clear that Congress contemplated satisfaction of liens at the time of sale. To more accurately reflect Congressional intent the Office has redrafted this section.

This rule is now written to exclude gratuitious and testate or intestate transfers, but it covers all other transfers where there is consideration involved. In other words, liens shall be fully or partially satisfied at the time of sale or exchange for other personal or real property. If partially satisfied, unsatisfied amounts will remain as a lien against the property. New paragraph (b) recognizes that there may be jurisdictions in which liens must be periodically renewed or otherwise maintained to remain effective and subject to satisfaction at the time specified under paragraph (a).

PART 884—STATE RECLAMATION PLANS

Part 884 establishes the procedures and requirements for the State plan required by section 405(b) of the Act. Such plans are required before the Office is authorized to make grants to the States for reclamation work. A State is not eligible to have a plan approved until it has an approved State regulatory program pursuant to section 503 of the Act and subchapter C of this chapter.

1. One commenter asked to have the regulations specify an exact length of time that the State plan covers.

Response: It is recognized that moneys will come into the Fund over a 15-year period. However, a State may elect in its Plan to include any or all of the various uses of the Fund and to address these uses in varying degrees, provided that first priority be given to correcting abandoned coal mine problems. If the magnitude of the problem is known and a reasonable method of solving it is presented, then the time frame of the plan need not be predetermined. We will, however, expect the States to present plans covering a reasonable future period, probably a minimum of 3 to 5 years, allowing appropriate adjustments State by State.

2. One commenter requested that the regulations be revised to reflect the desire that a State planning agency would be the most appropriate agency to be in charge of the State program.

Response: The Act is quite specific in saying that once the State has an approved plan, it has exclusive responsibility and authority to implement the provisions of the approved program. The Governor of the State may choose and so designate any competent agency of the State to carry out the program.

3. Two commenters requested that a State be given the opportunity to take corrective action to prevent withdrawal of Plan approval.

Response: The comments were accepted because it is desirable to provide a fast and informal means to prevent a State program from being interrupted or withdrawn. Section 884.16(b) has been changed to provide the opportunity for corrective action by allowing for consultation, a hearing if requested and performance of remedial action prior to the notice of withdrawal.

4. The question was asked whether the regulations allow a private citizen to submit a project directly to the Office of Surface Mining for funding if the project was previously submitted to and rejected by his State.

Response: Although the Act and the regulations strongly encourage citizens to work with an active State program, a private citizen can submit a proposed project to the Office for consideration provided it meets the reclamation requirements set forth in Part 874 of the regulations.

5. Numerous comments were received criticizing the amount of detail required in the State plan, especially the reclamation activities in § 884.13(f).

Response: The regulations, as proposed, require a general description of these reclamation activities. It was intended that the word "general" would convey the meaning that existing and readily available information would be gathered, analyzed, and summarized. The States must, however, present enough data to demonstrate to the Office and to the public that the plan represents a feasible and orderly approach to the required reclamation. It is recognized that additional information may have to be obtained in future years to either update the State plan or to fill in minor gaps. In view of the requirements in the Act to consider on-site and off-site local and regional impacts of past mining, it is felt that the information required is not excessive.

6. One commenter questioned the difference between the public involvement in § 884.13(c)(7) and § 884.13(e).

Response: Subsection 884.13(c)(7) requires the State to give a detailed description of the policies and procedures to be followed in the State Reclamation Program, i.e. operation of the program (which includes the original Plan, amendments and annual grants). Section 884.13(e) requires the State to give a detailed description of the extent of public involvement in the preparation of the proposed State Reclamation Plan. No changes were required.

PART 886—STATE RECLAMATION GRANTS

Part 886 includes procedures and requirements for annual grants to States to conduct reclamation activities under their approved Reclamation Plans. Grant applications will be approved by the Regional Directors of the office. The procedures for processing grant applications follow closely thje procedures for other grant programs administered by the Office with one major exception: Grant applications will be submitted according to the requirements of OMB Circular A-102 in the format for Federal Assistance Applications for Construction Programs. Limited variations to this format are provided.

1. Several commenters suggested that § 886.12(b) and § 886.15(b)(1) be expanded to clarify the administrative costs incurred in support of the State abandoned mine land program which can be included in the annual grant.

Response: These comments have been accepted. Since § 886.21(a) sets forth those costs which are allowable under section 401(2)(9) of the Act, it has been revised and referenced in §§ 886.12(b) and 886.15(b)(1).

2. Two comments were received requesting that the grant period set forth in section 886.13 be extended so that funding may be approved for the life of the proposed project.

Response: These comments were partially accepted. The grant will provide funding for both support of the State program and for individual projects as required in section 405(f) of Pub. L. 95-87 of the Act. Supportive costs, including administrative, are to be funded on an annual basis. However, individual projects applied for in any year may be funded for a maximum of 3 years. The regulations have been rewritten to provide this flexibility. The alternative for States to fund projects through sequential grants has been retained.

3. For §§ 886.15(c) and 886.17(c) one commenter suggested that if notification is not received within 30 days regarding whether or not the grant application is approved, the application should be deemed approved.

Response: The comment was rejected. The language of section 405(h) of the Act indicates grants should not be self-executing, but rather they require action by the Office on an annual basis. Section 405(i) of the Act requires monitoring of the program. Therefore, positive action is required to approve a grant. The language has been changed, however, to provide notification within 30 days regarding the status of the application.

Because of the concern over the funding for the life of the project, language has been added to § 886.15(b)(1) allowing funding for individual parts of multiphased projects. The information submitted with the individual project for which funding is being requested must include information on the overall magnitude, scope, and total cost of the entire project.

4. One commenter suggested that the requirements for notification of grant changes in section 886.17(b) should be deleted.

Response: This comment has been rejected since section 405(h) of the Act requires prior approval of both the plan and proposed projects. Changes in projects which require notice are set forth in OMB Circular A-102. Where the proposed changes exceed the limitations set forth therein, approval must be made to insure that the amendment proposals conform to the requirements of the approved plan.

5. For § 886.18(a)(3) one commenter suggested changing the authorization provided to the Regional Director for terminating, suspending or reducing grants so that he has discretionary authority on the action.

Response: This comment has been rejected since section 405(d) of the Act requires such action in cases of failure to implement, enforce or maintain an approved State regulatory program. However, the regulations do provide the retention of those funds that are necessary to meet contractual commitments made prior to the effective date of the termination to the extent such commitments cannot be reduced.

6. One commenter suggested that the 10-day minimum time limit for response upon notification of intent to reduce, suspend or terminate a grant in § 886.18(b)(1) be extended to 30 days.

Response: This comment was rejected. The language of this section conforms to the provisions of OMB Circular A-102. The time frame is considered sufficient for the agency to request the opportunity for consultation and remedial action prior to termination, suspension or reduction of the grant. It was noted that paragraphs (4) and (5) of § 886.18(b) were inconsistent; therefore, paragraph (5) was deleted and subsequent paragraphs renumbered accordingly.

7. Several commenters suggested that subpart 886.21 be reworded to clarify in what instances the 90 percent matching funds are applicable.

Response: These comments were accepted and § 886.21 was reworded so that it is clear that 90 percent matching funds apply only to the acquisition of land as set forth in section 407(e) of the Act.

8. For § 886.21 several commenters suggested that language be added to cover other administrative costs necessarily incurred in the program.

Response: Administrative costs are authorized by section 401(c)(9) of the Act. Section 886.21 has been reworded to allow for such costs. As a matter of policy, the Office will assign a lower priority to costs incurred from the operation and maintenance of treatment plants because of the increasing costs associated with permanent facilities.

9. One commenter suggested that the time required for the retention of records in § 886.24 be specified.

Response: This comment has not been accepted. The regulations reference OMB Circular A-102, Attachment C, which contains the specific retention requirements, setting the minimum at 3 years.

10. One commenter suggested that wording be added to § 886.24 to make records available for public inspection.

Response: This comment was not accepted since the regulations reference OMB Circular A-102, Attachment C, which specifies the requirements for availability of records to the public.

11. One comment suggested that the regulations should include grants to other Federal agencies, in addition to the Bureau of Indian Affairs, for reclamation of lands under their jurisdiction.

Response: The regulations are intended to include all eligible lands in the United States. The regulations specifically cover lands under the jurisdiction of States and Indian tribes because those lands are "private" lands as opposed to lands owned by the U.S. Funds may be transferred to other Federal agencies for reclamation of eligible lands if provided for in a cooperative agreement under section 412(b) of the Act.

PART 888—INDIAN RECLAMATION

Part 888 establishes special interim procedures for identifying and conducting needed reclamation work on Indian lands. Such procedures are necessary because the Act does not provide for Indian regulatory programs until a study of how Indian lands are to be regulated is completed (section 710 of the Act) and legislation providing for Indian regulation of these lands is enacted. Section 405(c) of the Act prohibits approval of funding of a State abandoned mine reclamation program unless the State has an approved State regulatory program. Section 405(k) of the Act requires that Indian tribes be considered as States for purposes of Title IV.

1. One comment was received expressing concern over the proposed regulations because they did not authorize Indian tribes to formally adopt reclamation plans. The commenter expressed the hope that the Office would complete the study under section 710 of the Act so that tribes would not be penalized for a long period of time.

Response: The Office lacks authority to approve or fund an Indian Reclamation Plan at this time because Indian tribes are not authorized to develop and get approval of a regulatory program; therefore, such authorization cannot be provided in these regulations.

The regulations authorize the Regional Directors of the Office to work with Indian tribes and to consult with the Bureau of Indian Affairs to develop plans for reclamation activities on Indian lands. Such a procedure is authorized by section 412(a) of the Act. No significant alternative has been identified other than deferral of

V 43/207 OCT 25 78

Indian programs until the section 710 study is completed. Such an alternative might effectively preclude reclamation work on Indian lands and would be detrimental to developing a systematic approach for reclamation activities on Indian land during the development of the Abandoned Mine Land Program. Deferral of Indian programs at this time would also be in conflict with the overall structure of Title IV which anticipates Indian tribe participation at the same level as States, section 710 of the Act not to the contrary.

In this regard, Indian tribes were included in the drafting of Parts 872-888 in anticipation of specific legislative authority granting regulatory status to them. If the Congressional authorization is ultimately the same as for States, Part 888 may be deleted. If the authorization differs from that given States, Parts 872-888 can be appropriately amended and Part 888 may also be amended and expanded. It should be observed, however, that Parts 872-888 do not contain any independent authority for Indian tribes to act beyond that allowed by the Act. Part 888 is established to provide an administrative vehicle for the Office to begin necessary reclamation activities on Indian lands in accordance with Parts 872-888 when an Indian tribe desires such activity. The Office is making every effort to complete the study specified in section 710 of the Act as quickly as possible, providing for full participation of affected tribal groups.

INFORMATION COLLECTION PROVISIONS

A number of these regulations require the States and Indian tribes to collect, submit or retain certain information. By publication of these final regulations, this Department has determined that such information is necessary to the performance of its responsibilities under the Act and must be collected, submitted or retained. Accordingly, these requirements, included in regulation §§ 872.4(c), 872.11(b) (2) and (3), 872.12(a), 872.13(a), 877.13(c), 879.13, 879.14(b), 879.15 (a)(3) and (e)(1), 882.12, 882.13, 884.13, 884.15, 886.14, 886.15, 886.17(b), 886.18(c)(2), 886.19, 886.22, 886.23, and 886.24, are adopted, subject to review by the General Accounting Office, pursuant to 44 U.S.C. 3512, to insure that a minimum burden is imposed upon States or Indian tribes in the manner in which such information is proposed to be obtained. The specific reporting provisions in these regulations will be effective November 15, 1978, or on the date of GAO clearance, whichever is earlier.

DRAFTING INFORMATION

The principal authors of these regulations are Paul Reeves, Dan Jones, Ray Booker, Richard Nalbandian and Don O'Bryan, Office of Surface Mining Reclamation and Enforcement; and John Beattie, Office of the Solicitor.

Interested persons may examine the information, comments and legal opinions relied on by the authors during normal business hours in the Office of the Assistant Director, Abandoned Mine Land Reclamation, Office of Surface Mining Reclamation and Enforcement.

Dated: October 18, 1978.

JOAN M. DAVENPORT,
Assistant Secretary—Energy and Minerals.

30 CFR Chapter VII is amended by adding a new Subchapter R to read as set forth above. Subchapter R consists of a new Part 870 which is redesignated from Part 837, and new Parts 872, 874, 877, 879, 882, 884, 886, and 888; the new Parts read as set forth below:

PART 837—[REDESIGNATED AS PART 870]

PART 870—[REDESIGNATED FROM PART 837]

PART 872—ABANDONED MINE RECLAMATION FUNDS

Sec.
872.1 Scope.
872.2 Objectives.
872.4 Responsibilities.
872.5 Definitions.
872.11 Abandoned Mine Reclamation Fund.
872.12 State Abandoned Mine Reclamation Funds.
872.13 Indian Abandoned Mine Reclamation Funds.

AUTHORITY: Secs. 102(g), 201(c), 401, 402(8) and 412, Pub. L. 95-87, 91 Stat. 449, 456, 458 and 466 (30 U.S.C. 1211, 1231, 1232, and 1242).

§ 872.1 Scope.

(a) This Part sets forth general responsibilities for administration of abandoned Mine Land Reclamation Programs and procedures for the Abandoned Mine Reclamation Funds to finance such programs.

(b) Included in this Part are general provisions describing—

(1) The source of money and use of such monies to administer the Abandoned Mine Land Reclamation Program; and

(2) The general responsibilities of agencies of the Federal Government, States, and Indian tribes in the conduct of the programs.

(c) Regulations for implementation of the Rural lands Rural Lands Reclamation Program are the responsibility of the Secretary of Agriculture. The Department of Agriculture has identified this program as the Rural abandoned Mine Program (RAMP).

§ 872.2 Objectives.

The objectives of this Part are to provide an overview of the Abandoned Mine Land Reclamation Program responsibilities and to provide detailed procedures for administration of State, Indian and Federal Abandoned Mine Land Reclamation Funds.

§ 872.4 Responsibilities.

(a) The Director, under the general direction of the Assistant Secretary, Energy and Minerals, is responsible for exercising the authority of the Secretary for administration of the Abandoned Mine Reclamation Fund and Abandoned Mine Land Reclamation Program.

(b) The regional Directors of the Office are responsible for—

(1) Conducting reclamation activities where work is performed by the Office using the funds available to the Secretary;

(2) Reviewing and approving annual submissions of project grant applications by States and Indian tribes under approved reclamation programs;

(3) Consulting with Indian tribes for which receipts to the Abandoned Mine Reclamation Fund are allocated to develop an orderly approach to reclamation until such time as the study required by section 710 of the Act is completed and authorities provided for Indian regulatory programs comparable to those of States under section 503 of the Act;

(4) Coordinating projects carried out by the Office with activities carried out under Rural Lands, State and Indian Reclamation Programs conducted with monies from the Fund; and

(5) Consulting with Federal and State agencies as necessary and developing cooperative agreements with the appropriate surface management agency when Federal lands are considered for inclusion in a Federal or State Reclamation Program.

(c) The States are responsible for—

(1) Preparing and submitting a State Reclamation Plan to the Director if the State elects to participate in the Abandoned Mine Land Reclamation Program;

(2) Establishing a State Abandoned Mine Reclamation Fund for use in conducting the State Reclamation Program;

(3) Submitting annual applications for grants, including descriptions of proposed projects;

(4) Submitting requests to the Regional Director for work to be done on noncoal mined lands;

(5) Submitting requests to the Regional Director for construction of specific facilities in communities impacted by coal development;

(6) Conducting reclamation work in accordance with grant agreements;

(7) Consulting with State and Federal agencies as necessary and developing cooperative agreements with the appropriate surface management agency when State or Federal lands

are considered for inclusion in a State Reclamation Program; and

(8) Submitting reports annually to the Regional Director describing progress on previously funded projects.

(d) The Secretary of Agriculture through the Soil Conservation Service is responsible for—

(1) Promulgating regulations for conducting the Rural Lands Reclamation Program;

(2) Submitting annual requests to the Director for allocation of moneys for use in the Rural Lands Reclamation Program;

(3) Submitting annual reports to the Director describing progress of work previously funded; and

(4) Coordinating the Rural Lands Reclamation Program with State and Indian Reclamation Programs and with reclamation activities conducted by the Office.

§ 872.5 Definitions.

(a) *The Abandoned Mine Reclamation Fund*, or *Fund* is a trust fund established on the books of the U.S. Treasury for the purpose of accumulating revenue designated for reclamation of abandoned mine lands and other activities authorized by Title IV of the Act.

(b) *Allocate* means the administrative identification in the records of the Office of moneys in the Fund for a specific purpose; e.g., identification of moneys for exclusive use by a State.

(c) *Emergency* means a sudden danger or impairment that presents a high probability of substantial physical harm to the health, safety, or general welfare of people before the danger can be abated under normal program operation procedures.

(d) *Expended* means that moneys have been paid out by a State or Indian tribe for work that has been accomplished or services rendered.

(e) *Extreme danger* means a condition that could reasonably be expected to cause substantial physical harm to persons property, or the environment and to which persons or improvements on real property are currently exposed.

(f) *Indian Abandoned Mine Reclamation Fund*, or *Indian Fund*, means a separate fund established by an Indian tribe for the purpose of accounting for moneys granted by the Director under an approved Indian Reclamation Program and other moneys authorized by these regulations to be deposited in the Indian Fund.

(g) *Indian reclamation program* means a program established by an Indian tribe in accordance with this chapter for reclamation of land and water adversely affected by past mining, including the reclamation plan and annual applications for grants under the plan.

(h) *Reclamation activities* means restoration, reclamation, abatement, control, or prevention of adverse effects of mining.

(i) *Reclamation plan* means a plan submitted and approved under 30 CFR Part 884.

(j) *State Abandoned Mine Reclamation Fund* or *State Fund*, means a separate fund established by a State for the purpose of accounting for moneys granted by the Director under an approved State Reclamation Program and other moneys authorized by these regulations to be deposited in the State Fund.

(k) *State reclamation program* means a program established by a State in accordance with this chapter for reclamation of land and water adversely affected by past mining, including the reclamation plan and annual applications for grants under the plan.

§ 872.11 Abandoned mine reclamation fund.

(a) Revenue to the Fund shall include—

(1) Reclamation fees collected under section 402 of the Act and 30 CFR Part 870;

(2) Amounts collected by the Office from charges for use of land acquired or reclaimed with moneys from the Fund under 30 CFR Part 879;

(3) Moneys recovered by the Office through satisfaction of liens filed against privately owned lands reclaimed with moneys from the Fund under 30 CFR Part 882;

(4) Moneys recovered by the Office from the sale of lands acquired with moneys from the Fund or by donation under 30 CFR Part 879; and

(5) Moneys donated to the Office for the purpose of abandoned mine land reclamation.

(b) Moneys deposited in the Fund and appropriated by the Congress shall be used for the following purpose—

(1) An amount not exceeding 10 percent of the reclamation fees collected each quarter, up to a maximum of $10,000,000 each year, shall be used to finance the Small Operator Assistance Program under 30 CFR Part 795.

(2) An amount equal to 50 percent of the reclamation fees collected from within a State shall be allocated at the end of the fiscal year in which they are collected for use in that State under an approved State Reclamation Plan. Reclamation fees collected from Indian lands shall not be included in the calculation of amounts to be allocated to a State. If a State advises the Office in writing that it does not intend to submit a State Reclamation Plan, no moneys shall be allocated to that State. Amounts allocated to a State that have not been granted to the State within 3 years from the date of allocation shall be available to the Director for other purposes under paragraph (b)(5) of this section. Amounts allocated and granted to the State that have not been expended within 3 years from the date of allocation may be withdrawn from the State if the Director finds in writing—

(i) That the amounts involved are not necessary to carry out the approved reclamation activities; or

(ii) That failure to expend is a result of avoidable delays in conducting approved reclamation activities.

(3) An amount equal to 50 percent of the reclamation fees collected from Indian lands shall be allocated to the Indian tribe having an interest in those lands at the end of the fiscal year in which they are collected for use by that tribe under an approved Indian Reclamation Plan. If an Indian tribe advises the Office in writing that it does not intend to submit an Indian Reclamation Plan, no moneys shall be allocated to that tribe. Amounts allocated to Indian lands that have not been granted to the Indian tribe within 3 years from the date of allocation shall be available to the Director for other purposes under paragraph (b)(5) of this section. Amounts allocated and granted to the Indian tribe that have not been expended within 3 years from the date of allocation may be withdrawn from the Indian tribe if the Director finds in writing—

(i) That the amounts involved are not necessary to carry out the approved reclamation activities; or

(ii) That failure to expend is a result of avoidable delays in conducting approved reclamation activities.

(4) An amount not exceeding 20 percent of the moneys deposited in the Fund annually may be transferred to the Secretary of Agriculture to carry out the Rural Lands Reclamation Program.

(5) All amounts not used for the above purposes shall be available to the Director for the following purposes—

(i) Acquisition, reclamation, and restoration of land and water resources adversely affected by past coal mining.

(ii) Filling of voids and sealing of tunnels, shafts, and entryways and the reclamation of the adverse surface impacts of underground or surface mining for other minerals and materials, including acquisition of land and water if required. This work shall be done only with those moneys allocated or available for allocation to a State or Indian lands under paragraphs (b) (2) or (3) of this section and at the request of the Governor of a State or the Indian tribe.

(iii) Studies by contract with public or private organizations to provide information, advice, or technical assistance, including research development,

(b) Revenue to the Indian Fund shall include—

(1) Amounts granted to the Indian tribe by the Office for purposes of

tinuing operations existed as of August 3, 1977, or, if a permit did exist on that date, but all mining processes had ceased, it has since lapsed and has

priority first. Preference among those projects competing for available resources shall be given to projects

proposed reclamation will be undertaken and to assign priorities to proposals intended to meet the same ob-

(5) The costs of reclamation. Consideration shall be given to both the economy and efficiency of the recla-

V 4 3 / 2 0 7 0 0 C 2 5 7 8

(iii) Studies by contract with public or private organizations to provide information, advice, or technical assistance, including research, development, and demonstration projects.

(iv) Reclamation fee collection activities and other administrative expenses necessary to accomplish the purposes of Title IV of the Act.

(v) Reclamation grants to States or Indian tribes in excess of amounts provided under paragraph (b) (2) or (3) of this section.

(vi) Cooperative projects to compile information required for the preparation of State and Indian reclamation plans, as specified in Part 884.13(f) of this subchapter. This work shall be done only with those moneys allocated or available for allocation to a State or Indian tribe and at the request of the Governor of a State or the Indian tribe.

§ 872.12 State abandoned mine reclamation funds.

(a) An account to be known as the State Abandoned Mine Reclamation Fund shall be established in each State with an approved State Reclamation Plan. The State Fund shall be managed in accordance with Office of Management and Budget Circular No. A-102.

(b) Revenue to the State Fund shall include—

(1) Amounts granted to the State by the Office for purposes of conducting the approved State Reclamation Plan under 30 CFR Part 886.

(2) Moneys collected by the State from charges for uses of lands acquired or reclaimed with moneys from the State Fund under 30 CFR Part 879.

(3) Moneys recovered by the State through the satisfaction of liens filed against privately owned lands reclaimed with moneys from the State Fund under 30 CFR Part 882.

(4) Moneys recovered by the State from the sale of lands acquired with moneys from the State Fund under 30 CFR Part 879.

(5) Such other moneys as the State decides should be deposited in the State Fund for use in carrying out the State Reclamation Program.

(c) Moneys deposited in the State Fund shall be used to carry out the State Reclamation Plan approved under 30 CFR Part 884.

§ 872.13 Indian abandoned mine reclamation funds.

(a) An account to be known as the Indian Abandoned Mine Reclamation Fund shall be established by each Indian tribe with an approved Indian Reclamation Plan. The Indian Fund shall be managed in accordance with Office of Management and Budget Circular No. A-102.

(b) Revenue to the Indian Fund shall include—

(1) Amounts granted to the Indian tribe by the Office for purposes of conducting the approved Indian Reclamation Plan.

(2) Moneys collected by the Indian tribe from charges for uses of land acquired or reclaimed with moneys from the Indian Fund under 30 CFR Part 879.

(3) Moneys recovered by the Indian tribe through the satisfaction of liens filed against privately owned lands reclaimed with moneys from the Indian Fund under 30 CFR Part 882.

(4) Moneys recovered by the Indian tribe from the sale of lands acquired with moneys from the Indian Fund under 30 CFR Part 879.

(5) Such other moneys as the Indian tribe decides should be deposited in the Indian Fund for use in carrying out the Indian Reclamation Program.

(c) Moneys deposited in the Indian Fund shall be used to carry out reclamation activities under 30 CFR Part 888.

PART 874—GENERAL RECLAMATION REQUIREMENTS

Sec.
874.1 Scope.
874.2 Objectives.
874.5 Definitions.
874.11 Applicability.
874.12 Eligible land and water.
874.13 Reclamation objectives.
874.14 Reclamation project evaluation.

AUTHORITY: Secs. 201(c), 403, 404, 409, and 412(a), Pub. L. 95-87, 91 Stat. 449, 458, 459, 465, and 466 (30 U.S.C. 1211, 1233, 1234, 1239, and 1242).

§ 874.1 Scope.

This Part establishes general requirements for the selection of work to be performed with moneys from the Abandoned Mine Reclamation Fund, and State or Indian Abandoned Mine Reclamation Funds. It includes land and water eligibility requirements, reclamation project objectives and standards, and project selection and evaluation factors.

§ 874.2 Objectives.

The objectives of this Part are to establish conditions for the use of Abandoned Mine Reclamation Funds that are common to approved State and Indian Reclamation Programs, the Rural Lands Reclamation Program, and the reclamation activities conducted or funded directly by the Office.

§ 874.5 Definitions.

Left or abandoned in either an unreclaimed or inadequately reclaimed condition means lands and water:

(a) Where all mining processes ceased and no current permit for continuing operations existed as of August 3, 1977, or, if a permit did exist on that date, but all mining processes had ceased, it has since lapsed and has not been renewed or superseded by a new permit as of the date of the request for reclamation assistance; and

(b) Which continue, in their present condition, to substantially degrade the quality of the environment, prevent or damage the beneficial use of land or water resources, or endanger the health or safety of the public.

§ 874.11 Applicability.

The provisions of this Part apply to all reclamation projects to be carried out with money from the Fund or a State or Indian Fund as defined by Part 872 of this subchapter.

§ 874.12 Eligible lands and water.

(a) Lands and water are eligible for reclamation activities if:

(1) They were mined or affected by mining processes;

(2) They were mined prior to August 3, 1977, and left or abandoned in either an unreclaimed or inadequately reclaimed condition; and

(3) There is no continuing responsibility for reclamation by the operator, permittee, or agent of the permittee under statutes of the State or Federal Government, or the State as a result of bond forfeiture. Bond forfeiture will render lands or water ineligible only if the amount forfeited is sufficient to pay the total cost of the necessary reclamation. In cases where the forfeited bond is insufficient to pay the total cost of reclamation, additional moneys from the Fund may be sought under 30 CFR 886 and 888.

(b) Lands and water which were mined or affected by mining for minerals and materials other than coal shall be eligible for reclamation activities under a State or Indian Reclamation Program if the Director finds in writing that—

(1) The conditions of paragraph (a) of this section have been met;

(2) The reclamation has been requested by the Governor of the State or head of the tribal governing body;

(3) All reclamation with respect to abandoned coal mine land and water has been accomplished within the State or Indian lands in which they are located or the reclamation is necessary for the protection of the public health and safety; and

(4) Moneys allocated to the State or Indian tribe under § 872.11(b) (2) and (3) are available for the work.

§ 874.13 Reclamation objectives and priorities.

Reclamation projects shall meet one or more of the objectives stated in this section. The objectives are stated in the order of priority with the highest

priority first. Preference among those projects competing for available resources shall be given to projects meeting higher priority objectives.

(a) Protection of public health, safety, general welfare and property from extreme danger resulting from the adverse effects of past coal mining practices.

(b) Protection of public health, safety, and general welfare from adverse effects of past coal mining practices which do not constitute an extreme danger.

(c) Restoration of eligible land and water and the environment previously degraded by adverse effects of past coal mining practices, including measures for the conservation and development of soil, water (excluding channelization), woodland, fish and wildlife, recreation resources, and agricultural productivity.

(d) Research and demonstration projects relating to the development of surface coal mining reclamation and water quality control program methods and techniques.

(e) Protection, repair, replacement, construction, or enhancement of public facilities such as utilities, roads, recreation, and conservation facilities adversely affected by past coal mining practices.

(f) Development of publicly owned land adversely affected by past coal mining practices, including land acquired under 30 CFR Part 879, for recreation and historic purposes, conservation, and reclamation purposes and open space benefits.

(g) Protection of the public from hazards endangering life and property resulting from the adverse effects of past noncoal mining practices. However, upon the request of the Governor of a State or head of an Indian tribe, such work may be under taken before the priorities related to past coal mining have been fulfilled.

(h) Protection of the public from hazards to health and safety from the adverse effects of past noncoal mining practices.

(i) Restoration of the environment degraded by the adverse effects of past noncoal mining.

(j) Construction of public facilities in communities impacted by coal development if the Governor of a State or head of an Indian tribe certifies that all other objectives of the fund have been met, the available impact funds are inadequate for such construction consistent with § 884.12(d) and the Director concurs.

§ 874.14 Reclamation project evaluation.

(a) Proposed reclamation projects and completed reclamation work shall be evaluated in terms of the factors stated in this section. The factors shall be used to determine whether or not proposed reclamation will be undertaken and to assign priorities to proposals intended to meet the same objective under § 874.13. Completed reclamation shall be evaluated in terms of the factors set forth below as a means of identifying conditions which should be avoided, corrected, or improved in plans for future reclamation work. The factors shall include—

(1) The need for reclamation work to accomplish one or more specific reclamation objectives as stated in § 874.13.

(2) The availability of technology to accomplish the reclamation work with reasonable assurance of success. In the case of research and demonstration projects, the research capability and plans shall provide reasonable assurance of beneficial results without residual adverse impacts.

(3) The specific benefits of reclamation which are desirable in the area in which the work will be carried out. Benefits to be considered include but are not limited to—

(i) Protection of human life, health, or safety.

(ii) Protection of the environment, including air and water quality, abatement of erosion and sedimentation, fish, wildlife, and plant habitat, visual beauty, historic or cultural resources and recreation resources.

(iii) Protection of public or private property.

(iv) Abatement of adverse social and economic impacts of past mining on persons or property including employment, income, and land values or uses, or assistance to persons disabled, displaced or dislocated by past mining practices.

(v) Improvement of environmental conditions which may be considered to generally enhance the quality of human life.

(vi) Improvement of the use of natural resources, including post-reclamation land uses which—

(*a*) Increase the productive capability of the land to be reclaimed.

(*b*) Enhance the use of surrounding lands consistent with existing land use plans.

(c) Provide for construction or enhancement of public facilities.

(*d*) Provide for residential, commercial, or industrial developments consistent with the needs and plans of the community in which the site is located.

(vii) Demonstration to the public and industry of methods and technologies which can be used to reclaim areas disturbed by mining.

(4) The acceptability of any additional adverse impacts to people or the environment that will occur during or after reclamation and of uncorrected conditions, if any, that will continue to exist after reclamation.

(5) The costs of reclamation. Consideration shall be given to both the economy and efficiency of the reclamation work and to the results obtained or expected as a result of reclamation.

(6) The availability of additional coal or other mineral or material resources within the project area which—

(i) Results in a reasonable probability that the desired reclamation will be accomplished during the process of future mining; or

(ii) Requires special consideration to assure that the resource is not lost as a result of reclamation and that the benefits of reclamation are not negated by subsequent, essential resource recovery operations.

(7) The acceptability of post-reclamation land uses in terms of compatibility with land uses in the surrounding area, consistency with applicable State, regional, and local land use plans and laws, and the needs and desires of the community in which the project is located.

(8) The probability of post-reclamation management, maintenance and control of the area consistent with the reclamation completed.

(b) States, Indian tribes, or Federal agencies administering reclamation programs and projects shall incorporate the evaluation factors stated in paragraph (a) into the procedures and processes for selecting projects in a manner which they deem appropriate. Additional factors may be developed to meet specific or unique needs. Specific values may be assigned to the factors stated in paragraph (a). All evaluation factors are subject to the plan approval process in 30 CFR Part 884.

PART 877—RIGHTS OF ENTRY

Sec.
877.1 Scope.
877.11 Consent to entry.
877.12 Entry for studies or exploration.
877.13 Entry and consent to reclaim.
877.14 Entry for emergency reclamation.

AUTHORITY: Secs. 201(c), 407 (a) and (b), 410 and 412(a), Pub. L. 95-87, 91 Stat. 449, 462, 463, and 466 (30 U.S.C. 1211, 1237, 1240, and 1242).

§ 877.1 Scope.

This part establishes procedures for entry to lands or property by the Office, or a State, or Indian tribe under an approved Reclamation Plan, for the purposes of conducting studies or exploratory work to determine the existence of adverse effects of past coal mining practices and for the purpose of performing reclamation work.

§ 877.11 Consent to entry.

The Office, State, or Indian tribe shall take all reasonable actions to

V 4 3 / 2 0 7 0 C 2 5 7 8

obtain written consent from the owner of record of the land or property to be entered in advance of such entry. The consent shall be in the form of a signed statement by the owner of record or his authorized agent which, as a minimum, includes a legal description of the land to be entered, the projected nature of work to be performed on the lands and any special conditions for entry. The statement shall not include any commitment by the Office, State, or Indian tribe to perform reclamation work nor to compensate the owner for entry.

§ 877.12 Entry for studies or exploration.

(a) The Office, State, or Indian tribe or their agents, employees, or contractors, shall have the right to enter upon any property for the purpose of conducting studies or exploratory work to determine the existence of adverse effects of past coal mining practices and the feasibility of restoration, reclamation, abatement, control, or prevention of such adverse effects.

(b) If the owner of the land to be entered under this section will not provide consent to entry, the Office, State, or Indian tribe shall give notice in writing to the owner of its intent to enter for purposes of study and exploration to determine the existence of adverse effects of past coal mining practices which may be harmful to the public health, safety, or general welfare. The notice shall be by mail, return receipt requested, to the owner, if known, and shall include a statement of the reasons why entry is believed necessary. If the owner is not known, or the current mailing address of the owner is not known, or the owner is not readily available, the notice shall be posted in one or more places on the property to be entered where it is readily visible to the public and advertised once in a newspaper of general circulation in the locality in which the land is located. Notice shall be given at least 30 days before entry.

(c) Entry required to investigate and explore reported emergency conditions will be governed by the provisions of § 877.14(c).

§ 877.13 Entry and consent to reclaim.

(a) The Office, State, or Indian tribe or their agents, employees, or contractors, may enter upon land to perform reclamation activities if the consent of the owner cannot be obtained.

(b) Prior to entry under this section, the Regional Director, State, or Indian tribe shall find in writing with supporting reasons that—

(1) Land or water resources have been adversely affected by past coal mining practices;

(2) The adverse effects are at a state where, in the interest of the public health, safety, or the general welfare, action to restore, reclaim, abate, control, or prevent should be taken; and

(3) The owner of the land or water resources where entry must be made to restore, reclaim, abate, control, or prevent the adverse effects of past coal mining practices is not known or readily available; or

(4) The owner will not give permission for the Office, the State, or Indian tribe, their agents, employees, or contractors to enter upon such property to restore, reclaim, abate, control, or prevent the adverse effects of past coal mining practices.

(c) The Regional Director, State, or Indian tribe shall give notice of its intent to enter for purposes of conducting reclamation at least 30 days before entry upon the property. The notice shall be in writing and shall be mailed, return receipt requested, to the owner, if known, with a copy of the findings required by this section. If the owner is not known, or if the current mailing address of the owner is not known, notice shall be posted in one or more places on the property to be entered where it is readily visible to the public and advertised once in a newspaper of general circulation in the locality in which the land is located. The notice posted on the property and advertised in the newspaper shall include a statement of where the findings required by this section may be inspected or obtained.

§ 877.14 Entry for emergency reclamation.

(a) The Office, its agents, employees, or contractors shall have the right to enter upon any land where an emergency exists and on any other land to have access to the land where the emergency exists to restore, reclaim, abate, control, or prevent the adverse effects of coal mining practices and to do all things necessary or expedient to protect the public health, safety, or general welfare.

(b) Prior to entry under this section, the Regional Director shall make a written finding with supporting reasons that—

(1) An emergency exists constituting a danger to the public health, safety, or general welfare;

(2) Emergency restoration, reclamation, abatement, control, or prevention of adverse effects of past coal mining is necessary and;

(3) No other person or agency will act expeditiously to restore, reclaim, abate, control, or prevent the adverse effects of past coal mining practices.

(c) Notice to the owner shall not be required prior to entry for emergency reclamation. The Regional Director shall make reasonable efforts to notify such owner and obtain consent prior to entry consistent with the emergency conditions that exist. Written notice shall be given to the owner as soon after entry as practical. The notice shall be mailed, return receipt requested, to the owner, if known, and shall include a copy of the findings required by this section. If the owner is not known, or if the current mailing address of the owner is not known, notice shall be posted on the property entered in one or more places where it is readily visible to the public and advertised once in a newspaper of general circulation in the locality in which the land is located. The notice posted on the property and advertised in the newspaper shall include a statement that an emergency existed and where the findings required by this section may be inspected or obtained.

(d) The moneys expended for such work, and the benefits accruing to any such premises so entered, shall be chargeable against such land and shall mitigate or offset any claim in, or any action brought by any owner of any interest in such premises for any alleged damages as a result of the entry.

PART 879—ACQUISTION, MANAGEMENT AND DISPOSITION OF LANDS AND WATER

Sec.
879.1 Scope.
879.11 Land eligible for acquisition.
879.12 Procedures for acquisition.
879.13 Acceptance of gifts of land.
879.14 Management of acquired land.
879.15 Disposition of reclaimed land.

AUTHORITY: Sec. 201(c); 407 (c), (d), (e), (f), (g), and (h); and 412(a), Pub. L. 95-87, 91 Stat. 449, 463, 464, and 466 (30 U.S.C. 1211, 1237, and 1242).

§ 879.1 Scope.

This Part establishes procedures for acquisition, management, and disposition of eligible land and water for reclamation purposes by the Office or a State or Indian tribe under an approved Reclamation Plan. It also establishes requirements for the collection of charges for the use of acquired land and disposition of the proceeds from the use or sale of acquired land.

§ 879.11 Land eligible for acquisition.

(a) Land adversely affected by past coal mining practices may be acquired with moneys from the Fund by the Office or by a State or Indian tribe if approved in advance by the Office. Prior to approval of the acquisition of such land, the Regional Director shall find in writing that acquisition is necessary for successful reclamation and that—

(1) The acquired land will serve recreation, historic, conservation, and reclamation purposes or provide open space benefits after restoration, reclamation, abatement, control, or prevention of the adverse effects of past coal mining practices; and

(2) Permanent facilities such as a mine drainage treatment plant or a re-

located stream channel will be constructed on the land for the restoration, reclamation, abatement, control, or prevention of the adverse effects of past coal mining practices.

(b) Coal refuse disposal sites and all coal refuse thereon may be acquired with moneys from the Fund by the Office or by a State or Indian tribe if approved in advance by the Office. Prior to approval of the acquisition of such sites, the Regional Director shall find in writing that the acquisition of such land is necessary for successful reclamation and will serve the purposes of the Abandoned Mine Land Reclamation Program or that public ownership is desirable to meet an emergency situation and prevent recurrence of adverse effects of past coal mining practices.

(c)(1) Land adversely affected by past mining practices may be acquired by the Office if the Director finds in writing that acquisition with moneys from the Fund is an integral and necessary element of an economically feasible plan for a project to construct or rehabilitate housing for—

(i) Persons disabled as the result of employment in the mines or work incidental thereto;

(ii) Persons displaced by acquisition of land under these regulations;

(iii) Persons dislocated as the result of adverse effects of coal mining practices which constitute an emergency for which the Regional Director has made the determination required by § 877.14;

(iv) Persons dislocated as the result of natural disasters or catastrophic failures from any cause.

(2) The Director may acquire such land in the name of the United States directly or through a State or Indian tribe, any department, agency, or instrumentality of a State or Indian tribe, or any public body or nonprofit organization designated by a State or Indian tribe.

(d) Land or interests in land needed to fill voids, seal abandoned tunnels, shafts, and entry ways or reclaim surface impacts of underground or surface mines may be acquired by the Office if the Director finds that acquisition is necessary under § 874.12(b).

(e) The Office, State or Indian tribe which acquires land under this part shall acquire only such interests in the land as are necessary for the reclamation work planned or the post-reclamation use of the land. Interests in improvements on the land, mineral rights, or associated water rights may be acquired if—

(1) The customary practices and laws of the State in which the land is located will not allow severance of such interests from the surface estate; or

(2) Such interests are necessary to the reclamation work planned or the post-reclamation use of the land; and

(3) Adequate written assurances cannot be obtained from the owner of the severed interest that future use of the severed interest will not be in conflict with the reclamation to be accomplished.

§ 879.12 Procedures for acquisition.

(a) An appraisal of the fair market value of all land or interest in land to be acquired shall be obtained from a professional appraiser by the Office, State, or Indian tribe. The appraisal shall state the fair market value of the land as adversely affected by past mining and shall otherwise conform to the requirements of the handbook on "Uniform Appraisal Standards for Federal Land Acquisitions" (Interagency Land Acquisition Conference 1973).

(b) When practical, acquisition shall be by purchase from a willing seller. The amount paid for interests acquired shall reflect the fair market value of the interests as adversely affected by past mining.

(c) When necessary, land or interests in land may be acquired by condemnation. Condemnation procedures shall not be started until all reasonable efforts have been made to purchase the land or interests in lands from a willing seller.

(d) The Office, State, or Indian tribe which acquires land under this part shall comply, at a minimum and to the extent applicable, with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, 42 U.S.C. 4601, et seq; 41 CFR Part 114-50; Solicitor of the Interior's regulations for Approval of Title to Lands and Condemnation, I SRM 6.1 et seq.; and regulations of the Attorney General under Order No. 440-70 dated October 2, 1970, establishing standards for title approval of lands to be acquired for Federal public purposes.

(e) Title to all interests in land acquired by the Office shall be in the name of the United States.

(f) Title to all interests in land acquired by a State shall be in the name of the State and shall be recorded in accordance with applicable State law and regulation.

(g) Title to all interests in land acquired by an Indian tribe shall, where authorized by law, be held in the name of the United States in trust for the benefit of that tribe and shall be recorded in the appropriate office of the Bureau of Indian Affairs. In absence of a trust authorization, title shall be held in the name of the tribe and shall be recorded in accordance with applicable law.

(h) Property acquired by the Office under this part shall be included in the Annual Report of Real Property which shall be compiled and filed in accordance with IPMR 114-3.2. The report shall include real property acquired by donation.

§ 879.13 Acceptance of gifts of land.

(a) The Director, in accordance with Department of Justice procedures for the acquisition of real property, or a State or Indian tribe under an approved Reclamation Plan, may accept donations of title to land or interest in land that is necessary for reclamation activities. A donation shall not be accepted if the terms or conditions of acceptance are inconsistent with the objectives or requirements of the program.

(b) Offers to make a gift of such land or interest in land shall be in writing and shall include—

(1) A statement of the interest which is being offered.

(2) A legal description of the land and a description of any improvements on it.

(3) A description of any limitations on the title or conditions as to the use or disposition of the land existing or to be imposed by the donor.

(4) A statement that—

(i) The offeror is the record owner of the interest being offered.

(ii) The interest offered is free and clear of all encumbrances except as clearly stated in the offer.

(iii) There are no adverse claims against the interest offered.

(iv) There are no unredeemed tax deeds outstanding against the interest offered.

(v) There is no continuing responsibility by the operator under State or Federal statutory law for reclamation.

(5) An itemization of any unpaid taxes or assessments levied, assessed or due which could operate as a lien on the interest offered.

(c) If the offer is accepted, a deed of conveyance shall be executed, acknowledged, and recorded. The deed shall state that it is made "as a gift under the Surface Mining Control and Reclamation Act of 1977." Title to donated land shall be in the name of the United States if the donation is to the Office or in the name of the State if the donation is to a State. Title to land donated to an Indian tribe shall, where authorized by law, be taken in the name of the United States in trust for the benefit of that tribe. In the absence of a trust authorization, title shall be taken in the name of the tribe.

§ 879.14 Management of acquired lands.

(a) Land acquired under this Part may be used pending disposition under § 879.15 for any lawful purpose that is not inconsistent with the reclamation

V 4 3 / 2 0 7 0 C 2 5 7 8

activities and post-reclamation uses for which it was acquired.

(b) Any user of land acquired under this part shall be charged a use fee. The fee shall be determined on the basis of the fair market value of the benefits granted to the user, charges for comparable uses within the surrounding area, or the costs to the Office, State, or Indian tribe for providing the benefit, whichever is appropriate. The Regional Director, State, or Indian tribe may waive the fee if found in writing that such a waiver is in the public interest.

(c) All use fees collected shall be deposited in the appropriate Abandoned Mine Reclamation Fund in accordance with 30 CFR Part 872, unless previously appropriated or otherwise authorized by the Congress, State legislature, or tribal governing body for the specific purpose of operating and maintaining improvement of the land.

§ 879.15 Disposition of reclaimed lands.

(a) Prior to the disposition of any land acquired under this Part, the Regional Director, State, or Indian tribe which acquired the land shall—

(1) Publish a notice which describes the proposed disposition of the land in a newspaper of general circulation within the area where the land is located for a minimum of 4 successive weeks. The notice shall provide at least 30 days for public comment and state where copies of plans for disposition of the land may be obtained or reviewed and the address to which comments on the plans should be submitted. The notice shall also state that a public hearing will be held if requested by any person.

(2) Hold a public hearing if requested as a result of the public notice. The Regional Director, State, or Indian tribe may determine that a hearing is appropriate even if a request is not received. It shall be scheduled at a time and place that affords local citizens and governments the maximum opportunity to participate. The time and place of the hearing shall be announced in a newspaper of general circulation in the area in which the land is located at least 30 days before the hearing. All comments received at the hearing shall be recorded.

(3) Make a written finding that the proposed disposition is appropriate considering all comments received and consistent with any local, State, or Federal laws or regulations which apply.

(b) The Director may transfer the administrative responsibility for land acquired by the Office to any other Federal Department or agency, with or without cost to that Department or agency. The agreement, including amendments, under which a transfer is made shall specify—

(1) The purposes for which the land may be used which shall be consistent with the authorization under which the land was acquired; and

(2) That the administrative responsibility for the land shall revert to the Office if, at any time in the future, the Director finds that the land is not used for the purposes specified.

(c) A State or Indian tribe may transfer, with approval of the Regional Director, the administrative responsibility for land acquired under this part to any agency or political subdivision of the State or Indian tribe with or without cost to that agency. The agreement, including amendments, under which a transfer is made shall specify—

(1) The purposes for which the land may be used consistent with the authorization under which the land was acquired; and

(2) That the administrative responsibility for the land will revert to the State or Indian tribe which acquired the land if, at any time in the future, the land is not used for the purposes specified.

(d) A State or Indian tribe may, with approval by the Regional Director, transfer title to abandoned and unreclaimed land to the United States to be reclaimed and administered by the Office. The State or Indian tribe which transfers land to the Office under this paragraph shall have a preference right to purchase such land from the Office after reclamation is completed. The price to be paid by the State or Indian tribe shall be the fair market value of the land in its reclaimed condition less any portion of the land acquisition price paid by the State or Indian tribe.

(e) The Director may sell any land acquired and reclaimed under this Part except that acquired under § 879.11(c) to the State or local government within whose borders the land is located or to an Indian tribe if the land is within the exterior boundaries of an Indian reservation.

(1) Before reclaimed land is sold to a State, local government, or Indian tribe, the purchaser shall state in writing the public purposes for which the land is to be used. The public purpose shall be considered valid if it is authorized as a public function by appropriate State law or Indian tribal ordinance and is consistent with the conditions under which the land was acquired.

(2) The price to be paid by the State, local government, or Indian tribe shall be the fair market value of the land in its reclaimed condition. The land may be sold at a lower price negotiated by the Director, but the price shall not be less than the cost to the United States for acquiring and reclaiming the land.

(3) The sales agreement for land sold under this paragraph shall state valid public purposes for which the land may be used. If, at any time in the future, the land is not used for the purposes stated, all right and title to or interest in such land shall revert to the United States.

(f) The Director may transfer or sell land acquired under § 879.11(c), with or without monetary consideration, to any State or political subdivision of a State, to any Indian tribe, or to any person, firm, association or corporation.

(1) The transfer or sale shall not be made unless the Director finds in writing that the transfer or sale is an integral and necessary element of an economically feasible plan for the project for which the land was acquired.

(2) The price at which land is sold under paragraph (f) of this section shall be negotiated between the Director and the purchaser. The price maybe below the fair market value if economically necessary for the success of the project.

(3) If the price at which the land is sold is below the fair market value of the land, or if the land is transferred at no cost to the recipient, the recipient shall agree in advance that no portion of the difference between the amount paid and the fair market value will accrue as a profit, or as an offset to other business losses, to any private person, firm, association or corporation.

(4) The transfer or sales agreement for land disposed of under paragraph (f) of this section shall state the purposes for which the land was acquired and will be used. If, at any time in the future the land is not used for the purposes stated, all right, title and interest in such land shall revert to the United States.

(g) The Director, a State, or Indian tribe with the approval of the Regional Director may sell land acquired under this part by public sale if such land is suitable for industrial, commercial, residential, or recreational development and if such development is consistent with local, State, or Federal land use plans for the area in which the land is located.

(1) Land shall be sold by public sale only if it is found that retention by the Office, State, or Indian tribe, or disposal under other paragraphs of this section, is not in the public interest.

(2) Land shall be sold for not less than fair market value under a system of competitive bidding which includes at a minimum—

(i) Publication of a notice once a week for 4 weeks in a newspaper of general circulation in the locality in which the land is located. The notice shall describe the land to be sold, state the appraised value, state any restrictive covenants which will be a condition of the sale, and state the time and place of the sale.

(ii) Provisions for sealed bids to be submitted prior to the sale date followd by an oral auction open to the public.

(h) All moneys received from disposal of land under this Part shall be deposited in the appropriate Abandoned Mine Reclamation Fund in accordance with 30 CFR Part 872.

PART 882—RECLAMATION ON PRIVATE LAND

Sec.
882.1 Scope.
882.11 Operations on private land.
882.12 Appraisals.
882.13 Liens.
882.14 Satisfaction of liens.

AUTHORITY: Sec. 201(c), 407 (a) and (b), 408, 410 and 412(a), Pub. L. 95-87, 91 Stat. 449, 462, 463, 465, and 466 (U.S.C. 1211, 1237, 1238, 1240, and 1242).

§ 882.1 Scope.

This Part authorizes reclamation on private land and establishes procedures for recovery of the cost of reclamation activities conducted on privately owned land by the Office, State, or Indian tribe.

§ 882.11 Operations on private land.

Reclamation activities may be carried out on private land if a consent to enter is obtained under § 877.11, or if entry is required and made under §§ 877.13 or 877.14.

§ 882.12 Appraisals.

(a) A notarized appraisal of the fair market value of private land to be reclaimed shall be obtained by the Office, State, or Indian tribe from an independent professional appraiser. Such appraisal shall meet the quality of appraisal practices found in the handbook on "Uniform Appraisal Standards for Federal Land Acquisitions" (Interagency Land Acquisition Conference 1973). The appraisal shall be obtained before any reclamation activities are started, unless the work must start without delay to abate an emergency. If work must start because of an emergency, the appraisal shall be completed at the earliest practical time and before related nonemergency work is commenced. The appraisal shall state the fair market value of the land as adversely affected by past mining.

(b) An appraisal of the fair market value of all land reclaimed shall be obtained after all reclamation activities have been completed. The appraisal shall be obtained in accordance with paragraph (a) of this section and shall state the market value of the land as reclaimed.

(c) The landowner is to be provided with a statement of the increase in market value, an itemized statement of reclamation expenses and notice that a lien will or will not be filed in accordance with § 882.13.

(d) Appraisals for privately owned land which fall under § 882.13(a) (1), (2), and (3) may be obtained from either an independent or staff professional appraiser.

§ 882.13 Liens.

(a) The Regional Director, State, or Indian tribe which performs the reclamation work shall place a lien against land reclaimed if the reclamation results in an increase in the fair market value based on the appraisals obtained under § 882.12.

(1) A lien shall not be placed against the property of a surface owner who acquired title prior to May 2, 1977, and who did not consent to, participate in, or exercise control over the mining operation which necessitated the reclamation work.

(2) The Regional Director, State, or Indian tribe may waive the lien if the cost of filing it, including indirect costs to the Office, State, or Indian tribe, exceeds the increase in fair market value as a result of reclamation activities.

(3) The lien may be waived by the Regional Director, State or Indian tribe if the reclamation work performed on private land primarily benefits health, safety or environmental values of the greater community or area in which the land is located, or if reclamation is necessitated by an unforeseen occurrence and the work performed to restore that land will not result in a significant increase in the market value of the land as it existed immediately before the occurrence.

(b) If a lien is to be filed, the Office, State, or Indian tribe shall, within 6 months after completion of the reclamation work, file a statement in the office having responsibility under applicable law for recording judgments against land and for the lands to be liened. Such statement shall consist of an account of moneys expended for the reclamation work, together with notarized copies of the appraisals obtained under § 882.12. The amount reported to be the increase in value of the property shall constitute the amount of the lien recorded and shall have priority as a lien second only to the lien of real estate taxes imposed upon the land.

(c) Within 60 days after the lien is filed the landowner may petition under local law to determine the increase in market value of the land as a result of reclamation work. Any aggrieved party may appeal in the manner provided by local law.

§ 882.14 Satisfaction of liens.

(a) A lien placed on private property shall be satisfied, to the extent of the value of the consideration received, at the time of transfer of ownership. Any unsatisfied portion shall remain as a lien on the property and shall be satisfied in accordance with this paragraph.

(b) The Office, State, or Indian tribe which files a lien on private property shall maintain or renew it from time to time as may be required under State or local law.

(c) Moneys derived from the satisfaction of liens established under this part shall be deposited in the appropriate Abandoned Mine Reclamation Fund.

PART 884—STATE RECLAMATION PLANS

Sec.
884.1 Scope.
884.2 Objectives.
884.11 State eligibility.
884.12 Activities eligible for inclusion in State Reclamation Plan.
884.13 Content of proposed State Reclamation Plan.
884.14 State Reclamation Plan approval.
884.15 State Reclamation Plan amendment.
884.16 Withdrawal of Plan approval.

AUTHORITY: Secs. 201(c), 402(g)(2), 403, 404, 405, 407, 409 and 412(a), Pub. L. 95-87, 91 Stat. 449, 458, 459, 462, 465, and 466 (30 U.S.C. 1211, 1232, 1233, 1234, 1235, 1237, 1239 and 1242).

§ 884.1 Scope.

This Part establishes the procedures and requirements for the preparation, submission and approval of State Reclamation Plans. A State must have an approved State Reclamation Plan to be eligible to administer a State Abandoned Mine Land Reclamation Program under this subchapter and to receive grants for abandoned mine land reclamation projects under 30 CFR Part 886.

§ 884.2 Objectives.

The objectives of this Part are to encourage maximum participation by the States in the reclamation of eligible land and water through effective use of moneys in the Abandoned Mine Reclamation Fund and to—

(a) Establish uniform guidelines and procedures for preparation and submission of proposed State Reclamation Plans; and

(b) Insure that State Reclamation Plans meet the requirements of Title IV of the Act.

V 4 3 / 2 0 7 0 C 2 5 7 8 V 4

§ 884.11 State eligibility.

A State is eligible to submit a State Reclamation Plan if it has eligible land and water as defined in § 874.12 within its boundaries. A State is eligible for a State Reclamation Plan to be approved by the Director if it has an approved State regulatory program under section 503 of the Act and meets the other requirements of this Chapter and the Act.

§ 811.12 Activities eligible for inclusion in State reclamation plan.

The State Reclamation Plan may provide for any or all of the following activities—

(a) Acquisition and reclamation and restoration of land and water resources adversely affected by past coal mining practices in accordance with the reclamation objectives stated in § 874.13.

(b) Acquisition and filling of voids and sealing tunnels, shafts and entryways and the reclamation of the adverse surface impacts of underground or surface mining for minerals and materials other than coal. The plan shall not, however, provide for reclamation of such land with moneys from the State Fund until all reclamation with respect to coal mining has been accomplished or the Governor of the State has requested and the Director has determined that reclamation is necessary for the protection of the public health and safety under § 874.12(b).

(c) Acquisition of land which is an integral and necessary part of an economically feasible plan to construct or rehabilitate housing under § 879.11(c).

(d) Construction of specific public facilities in communities impacted by coal development. The plan shall not, however, provide for construction of such facilities with moneys from the State Fund until the Governor of the State has certified, and the Director has concurred, that—

(1) All reclamation with respect to past coal mining and with respect to the mining of other minerals and materials has been accomplished;

(2) The specific public facilities are required as a result of coal development; and

(3) Impact funds which may be available under the Federal Mineral Leasing Act of 1920, as amended, or the act of October 20, 1976, Pub. L. 94-565 (90 Stat. 2662) are inadequate for such construction.

§ 881.13 Content of proposed State reclamation plan.

Each proposed State Reclamation Plan shall be submitted to the Director in writing and shall include as a minimum the following information:

(a) A designation by the Governor of the State of the agency authorized to administer the State Reclamation Program and to receive and administer grants under 30 CFR Part 886.

(b) An opinion of the State's chief legal officer that the designated agency has the authority under State law to conduct the program in accordance with the requirements of Title IV of the act, the regulations of this subchapter and the State Reclamation Plan.

(c) A detailed description of the policies and procedures to be followed by the designated agency in conducting the reclamation program including, but not limited to—

(1) The goals and objectives of the State Reclamation Program;

(2) Reclamation project ranking and selection procedures;

(3) Policies regarding the coordination of reclamation work among the State Reclamation Program, the Rural Lands Reclamation Program administered by the Soil Conservation Service and the reclamation programs of any Indian tribes located within the State;

(4) Policies and procedures regarding land acquisition, management and disposal under 30 CFR Part 879.

(5) Policies and procedures regarding reclamation on private land under 30 CFR Part 882;

(6) Policies and procedures regarding rights of entry under 30 CFR Part 877; and

(7) Policies regarding public participation and involvement in the State Reclamation Program.

(d) A detailed description of the administrative and management structure to be used in conducting the reclamation program including, but not limited to—

(1) A description of the organization of the designated agency and of its relationship to other State organizations or officials which will participate in conducting or managing the State Reclamation Program.

(2) A description of personnel staffing policies which will govern the assignment of personnel to the State Reclamation Program.

(3) A description of the purchasing and procurement systems to be used by the agency. Such systems shall meet the requirements of Office of Management and Budget Circular No. A-102, Attachment O.

(4) A description of the accounting system to be used by the agency, including specific procedures for the operation of the State Fund required by § 872.12

(e) A detailed description of the extent of public involvement in the preparation of the proposed State Reclamation Plan. At a minimum, the public shall be given an opportunity to inspect and comment on the proposed plan in the counties having eligible land and water within their boundaries before it is submitted for approval. The comments shall be recorded and considered.

(f) A general description of the reclamation activities to be conducted under the State Reclamation Plan, including as a minimum—

(1) A general description of the known or suspected eligible land and water within the State which require reclamation, including a map showing their general location at a scale of 1:250,000 or larger;

(2) A general description of the problems occurring on the eligible land and water identified on the map and how the plan proposes to deal with each;

(3) A general description of how the land to be reclaimed and the proposed reclamation relates to the existing and planned uses of lands in surrounding areas;

(4) A table summarizing the quantities (e.g. acres, miles) of land and water affected by the problems identified under paragraph (f)(2) of this section and an estimate of the quantities proposed for reclamation during each year covered by the plan;

(5) A general narrative description of the social, economic and environmental conditions prevailing in the different geographic areas of the State where reclamation is planned including, but not limited to—

(i) The economic base;

(ii) The primary sociologic and demographic characteristics;

(iii) Significant esthetic, historic or cultural, and recreational values;

(iv) Hydrology, including any surface or underground water quality or quantity problems associated with past mining;

(v) Flora and fauna, including endangered or threatened plants, fish or wildlife and their habitats;

(vi) Underlying or adjacent beds of commercially mineable coal and other minerals and materials and projected methods of extraction; and

(vii) Anticipated benefits from reclamation.

§ 884.14 State reclamation plan approval.

(a) The Director shall approve, disapprove or otherwise act upon a State Reclamation Plan within 60 days after it is submitted or after a State Regulatory Program is approved, whichever is later. The Director shall not approve a State Reclamation Plan until he has—

(1) Held a public hearing on the plan within the State which submitted it. The Director may waive the public hearing if he finds that the State has given the public adequate notice and opportunity to comment in public hearings and that the record of such hearings does not reflect major unresolved controversies.

(2) Solicited and considered the views of other Federal agencies having an interest in the plan.

(3) Determined that the State has the legal authority, policies, and administrative structure necessary to carry out the proposed plan.

(4) Determined that the proposed plan meets all the requirements of this subchapter.

(5) Determined that the State has an approved State regulatory program.

(6) Determined that the proposed plan is in compliance with all applicable State and Federal laws and regulations.

(b) If the Director disapproves a proposed State reclamation plan, he shall advise the State in writing of the reasons for disapproval. The State may submit a revised proposed State Reclamation plan at any time under the procedures of this section.

§ 884.15 State Reclamation Plan amendment.

A State may, at any time, submit to the Director a proposed amendment or revision to its approved Plan. If the amendment or revision changes the objectives, scope or major policies followed by the State in the conduct of its reclamation program, the State shall include a description of the extent of public involvement in the preparation of the amendment or revision. The Director shall follow the procedures set out in § 884.14 in approving or disapproving an amendment or revision of a State Reclamation Plan.

§ 884.16 Withdrawal of plan approval.

(a) The Director shall withdraw approval of a State Reclamation Plan, in whole or in part, if he determines that—

(1) Approval of the State regulatory program has been withdrawn in whole or in part; or

(2) The State is not conducting the State reclamation program in accordance with the Plan or a Reclamation Program Grant Agreement.

(b) If the Director determines that plan approval should be withdrawn, he shall notify the State by mail, return receipt requested, of his proposed action. The notice shall state the reasons for the proposed action. Within 30 days the State must show cause why such action should not be taken. The Director shall afford the State an opportunity for consultation, including a hearing if requested by the State, and performance of remedial action prior to the notice of withdrawal of Reclamation Plan approval.

(c) The Director shall notify the State of his decision in writing. The decision of the Director shall be final.

PART 886—STATE RECLAMATION GRANTS

Sec.
886.1 Scope.
886.2 Objectives.
886.3 Authority.
886.4 [Reserved].

886.21 Allowable costs.
886.22 Financial management.
886.23 Reports.
886.24 Records.
886.25 Disclosure of information.

AUTHORITY: SEC. 201(c), 401 (a) and (c), 402(g), and 412(a), Pub. L. 95-87, 91 Stat. 449, 456, 458, and 466 (30 U.S.C. 1211, 1231, 1232, and 1242).

§ 886.1 Scope.

This part set forth procedures for grants to States having an approved State Reclamation Plan for the reclamation of eligible land and water and for other activities necessary to carry out the plan as approved.

§ 886.2 Objectives.

The objectives of this part are to assure that adequate information is provided by the State to support its application for a grant and that funds granted to the State are handled in accordance with applicable Federal laws and regulations.

§ 886.3 Authority.

(a) The Regional Director is authorized to approve or disapprove applications for grants under this part if the totla amount of the grants does not exceed the moneys appropriated by the Congress and specifically allocated to the State under § 872.11(b)(2). The Regional Director is responsible for assuring that any required approvals by the Director are obtained before the grant is made.

(b) The Director is authorized to approve, or to authorize the Regional Director to approve, additional grants to a State from the moneys available to the Director under § 872.11(b)(5).

§ 886.5 Definitions.

Agency means the State agency designated by the Governor to administer the State reclamation program and to receive and administer grants under this part.

§ 886.11 Eligibility for grants.

A State is eligible for grants under this part if it has a State Reclamation Plan approved under 30 CFR 884.

§ 886.12 Coverage and amount of grant.

(a) An agency may use moneys granted under this part to administer the approved State reclamation program and to carry out the specific reclamation activities included in the plan and described in the annual grant agreement. The moneys may be used to cover direct costs to the agency for services and materials obtained from other State agencies or local governments if approved by the Regional Director.

(b) Grants shall be approved for 100 percent of the total agreed upon costs for reclamation of eligible land and water, construction of public facilities, program administration as specified in § 886.21 and the incremental cost of filling voids and sealing tunnels with waste from mine waste piles reworked for conservation purposes.

(c) Grants shall be approved for up to 90 percent of the total agreed upon costs for acquisition of land or interests in land and any mineral or water rights associated with the land. Grants for proposed reclamation projects on these lands shall be approved in accordance with § 886.12(b).

§ 886.13 Grant period.

The grant funding period shall not exceed 3 years. However, the grant period for administrative costs of the authorized agency shall be for 1 year.

§ 886.14 Submission of estimated annual budgets.

The agency shall cooperate with the Regional Director in the development of advance budget estimates for use by the Director in the preparation of his requests for appropriation of moneys from the Fund. The schedule for such estimates shall be determined by the Director on an annual basis.

§ 886.15 Grant application procedures.

(a) The agency shall submit its grant application to the Regional Director no later than July 1 for funding during the fiscal year commencing October 1. An application for funding during the fiscal year in which a State Reclamation Plan is approved may be submitted with the proposed Plan for approval when the Plan is approved. Office of Management and Budget Circular No. A-95 notification and review requirements shall be fulfilled for each project included in the grant application.

(b) The agency shall use the application format for Federal Assistance Application for Construction Programs and other procedures specified in Office of Management and Budget

Circular No. A-102, Attachment M. A preapplication is not required if the total of the grant requested is within the amounts allocated to the State

for overall administration of the grant, including use of funds and reporting.

(c) The Regional Director shall

tor may reduce, suspend, or terminate the grant.

(2) If an agency fails to expend moneys allocated and granted within 3

suspension, or reduction of the grant in writing by mail, return receipt requested.

(4) Upon termination, the agency

bursed according to Federal Management Circular 74-4.

(c) Costs must be in conformity with any limitations, conditions, or exclu-

size in acres, and any revenues derived from use of the land.

(4) For any permanent facilities acquired or constructed but not disposed

V 43 / 207 OCT 25 78

Circular No. A-102, Attachment M. A preapplication is not required if the total of the grant requested is within the amounts allocated to the State under § 872.11(b)(2).

(1) Part I of the application shall be a single Standard Form 424 covering all administrative costs and projects included in the grant application. Section IV of the form shall include a listing of the individual projects to be funded. Those individual projects that are part of a multiphased project should include information relative to the scope, magnitude and total costs of the entire project proposed for funding. Program administration cost as specified in § 886.12(a) may be considered as a single project and identified as Program Administration Costs.

(2) Parts II, III, and IV of the application shall be completed for each individual project in accordance with Office of Management and Budget Circular No. A-102.

(i) Complete copies of plans and specifications for projects shall not be required before the grant is approved. The Regional Director may review such plans and specifications in the agency office or on the project site.

(ii) A description of the actual or planned public involvement in the decision to undertake the work, in the planning of the reclamation activities, and in the decision on how the land will be used after reclamation shall be included in part IV of the application.

(c) The Regional Director shall notify the agency of the status of the application within 30 days after receipt of a complete application. If the application is not approved, the Regional Director shall set forth in writing the reasons for disapproval and may propose modifications if appropriate. The agency may resubmit the application or appropriate revised portions of the application.

§ 886.16 Grant agreement.

(a) If the Regional Director approves an agency's grant application, the Regional Director shall prepare a grant agreement which includes—

(1) A statement of the work to be covered by the grant;

(2) A statement of the approvals of specific actions as required under this subchapter or of the conditions to be met before such approvals can be given if moneys are included in the grant for such actions;

(3) The amounts approved for each individual project included in the grant application; and

(4) Allowable transfers of funds to other State agencies.

(b) The Regional Director may allow an agency to assign functions and funds to other State agencies. The Regional Director shall require the grantee agency to retain responsibility for overall administration of the grant, including use of funds and reporting.

(c) The Regional Director shall transmit four copies of the grant agreement by mail, return receipt requested, or by hand to the agency for signature. The agency shall execute the grant agreement and return all copies within 3 weeks after receipt, or within an extension of time granted by the Regional Director.

(d) The Regional Director shall sign the agreement upon its return from the agency or when funds are available for the grants, whichever is later, and return one copy to the agency. The grant is effective and constitutes an obligation of Federal funds at the time the Regional Director signs the agreement.

(e) Neither the approval of the grant application nor the award of any grant shall commit or obligate the United States to award any continuation grant or to enter into any grant amendment, including grant increases to cover cost overruns.

§ 886.17 Grant amendments.

(a) A grant amendment is a written alteration of the amount, terms, conditions, budget, time, administrative, technical, financial or other provisions of the grant agreement, whether accomplished on the initiative of the agency or the Regional Director.

(b) The agency shall promptly notify the Regional Director in writing of events or proposed changes which may require a grant amendment. At a minimum, the agency shall notify the Regional Director in advance of—

(1) Planned changes in the scope or objective of any individual project, whether or not the change will result in a change in the total cost for the project.

(2) Changes will result in an increase or decrease in the total cost of any individual project of more than $5,000 or 5 percent of the budgeted amount, whichever is greater. Changes of lesser amounts may be made by the agency without advance notification or approval if the change can be made within the total grant to the agency and does not involve a change in the scope or objective of the projects involved.

(c) The Regional Director shall notify the agency of the status of each proposed amendment within 30 days of receipt thereof. The procedures of § 886.16 shall be followed.

§ 886.18 Grant reduction, suspension, and termination.

(a) Conditions for reduction, suspension, or termination.

(1) If an agency violates the terms of a grant agreement or an approved Reclamation Plan, the Regional Director may reduce, suspend, or terminate the grant.

(2) If an agency fails to expend moneys allocated and granted within 3 years from the date of allocations, the director may reduce the grant in accordance with § 872.11(b)(2) of this subchapter.

(3) If an agency fails to implement, enforce, or maintain an approved State regulatory program or any part thereof and, as a result, the administration and enforcement grant provided under Part 735 of this Chapter is terminated, the Regional Director shall terminate the grant awarded under this Part.

(4) If an agency is not in compliance with the following nondiscrimination provisions, the Regional Director shall terminate the grant—

(i) Title VI of the Civil Rights Act of 1964, Pub. L. 88-352, 78 Stat. 252 (42 U.S.C. 2000d-1). Nondiscrimination in federally assisted programs, which provides that no person in the United States shall on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance, and the implementing regulations in 43 CFR Part 17.

(ii) Executive Order 11246, as amended by Executive Order 11375, Equal Employment Opportunity, requiring that employees or applicants for employment not be discriminated against because of race, creed, color, sex, or national origin, and the implementing regulations in 41 CFR Part 60.

(iii) Section 504 of the Rehabilitation Act of 1973, Pub. L. 93-112, 87 Stat. 355 (29 U.S.C. 794), as amended by Executive Order 11914, Nondiscrimination With Respect to the Handicapped in federally assisted programs.

(5) If an agency fails to enforce the financial interest provisions of Part 705 of this Chapter, the Regional Director shall terminate the grant.

(6) If an agency fails to submit reports required by this subchapter or Part 705 of this Chapter, the Regional Director shall terminate the grant.

(b) Grant reduction, suspension, and termination procedures.

(1) The Regional Director shall give at least 10 days written notice to the agency by mail, return receipt requested, of intent to reduce, suspend or terminate a grant. The Regional Director shall include in the notice the reasons for the proposed action and the proposed effective date of the action.

(2) The Regional Director shall afford the agency opportunity for consultation and remedial action prior to reducing or terminating a grant.

(3) The Regional Director shall notify the agency of the termination, suspension, or reduction of the grant in writing by mail, return receipt requested.

(4) Upon termination, the agency shall refund or credit to the Fund that portion of the grant money paid or owed to the agency and allocated to the terminated portion of the grant. However, any portion of the grant that is required to meet contractual commitments made prior to the effective date of termination shall be retained by the agency.

(5) Upon notification of intent to terminate the grant the agency shall not make any new commitments without the approval of the Regional Director.

(6) The Regional Director may allow termination costs as determined by applicable Federal cost principles listed in Federal Management Circular 74-4.

(c) *Appeals.* (1) Within 30 days of the Regional Director's decision to reduce or terminate a grant, the agency may appeal the decision to the Director.

(2) The agency shall include in the appeal—

(i) A statement of the decision being appealed; and

(ii) The facts which the agency believes justify a reversal or modification of the decision.

(2) The Director shall act upon appeals within 30 days of their receipt. The decision of the Director shall be a final decision by the Department of the Interior.

§ 886.19 Audit.

The agency shall arrange for independent audit at least once every 2 years, pursuant to the requirements of Office of Management and Budget Circular No. A-102. The audit will be performed in accordance with the *Standards for Audit of Governmental Organizations, Programs, Activities, Functions* published by the Comptoller General of the United States and audit guides provided by the Department of the Interior.

§ 886.20 Administrative procedures.

The agency shall follow administrative procedures governing accounting, payment, property and related requirements contained in Office of Management and Budget Circular No. A-102.

§ 886.21 Allowable costs.

(a) Reclamation project costs which shall be allowed include actual costs of construction, operation and maintenance, planning and engineering, construction inspection, other necessary administrative costs and up to 90 percent of the costs of the acquisition of land.

(b) The Regional Director shall determine costs which may be reimbursed according to Federal Management Circular 74-4.

(c) Costs must be in conformity with any limitations, conditions, or exclusions set forth in the grant agreement.

(d) Costs must be allocated to the grant to the extent of benefit properly attributable to the period covered by the grant.

(e) Costs must not be allocated or included as a cost of any other federally assisted program.

§ 886.22 Financial management.

(a) The agency shall account for grant funds in accordance with requirements of Office of Management and Budget Circular No. A-102. Agencies shall use generally accepted accounting principles and practices, consistently applied. Accounting for grant funds must be accurate and current.

(b) The agency shall adequately safeguard all funds, property, and other assets and shall assure that they are used solely for authorized purposes.

(c) The agency shall provide a comparison of actual amounts spent with budgeted amounts for each grant.

(d) When advances are made by a letter-of-credit method, the agency shall make drawdowns from the U.S. Treasury through its commercial bank as closely as possible to the time of making the disbursements.

(e) The agency shall design a systematic method to assure timely and appropriate resolution of audit findings and recommendations.

§ 886.23 Reports.

(a) The agency shall, for each grant made under this Part, submit annually to the Regional Director a Financial Status Report in accordance with Office of Management and Budget Circular No. A-102, Attachment H.

(b) The agency shall, in each year after the first grant, submit to the Regional Director, no later than September 1, a performance report prepared according to Office of Management and Budget Circular No. A-102, Attachment H. The report shall include—

(1) For each project previously funded and completed during the year, a brief description of the project and the type of reclamation performed, the project location, the landowner's name, the amounts of land or water reclaimed, and a summary of achieved benefits.

(2) For each project previously funded but not yet completed, a brief description of the project and the status of reclamation work, the project location, landowner's name, and a summary of expected benefits.

(3) For any land previously acquired but not disposed of, a statement of current or planned uses, location and size in acres, and any revenues derived from use of the land.

(4) For any permanent facilities acquired or constructed but not disposed of, a description of the facility and a statement of current or planned uses, location, and any revenues derived from the use of the facility.

(c) The reports required under this section shall reflect revenue deposited in the State Abandoned Mine Reclamation Fund under § 872.12.

§ 886.24 Records.

(a) The agency shall maintain complete records in accordance with Office of Management and Budget Circular No. A-102, Attachment C. This includes, but is not limited to, books, documents, maps, and other evidence and accounting procedures and practices, sufficient to reflect properly—

(1) The amount and disposition by the agency of all assistance received for the program.

(2) The total direct and indirect costs of the program for which the grant was awarded.

(b) Subgrantees and contractors, including contractors for professional services, shall maintain books, documents, papers, maps, and records which are pertinent to a specific grant award.

PART 888—INDIAN RECLAMATION PROGRAM

Sec.
888.1 Scope.
888.2 Objectives.
888.11 Interim procedures.

AUTHORITY: Secs. 201(c), 405(k), 412(a), and 710, Pub. L. 95-87, 91 Stat. 449, 460, 466, and 523 (30 U.S.C. 1211, 1235, 1242, and 1300).

§ 888.1 Scope.

This part is reserved for any additional or unique regulations that may be required as a result of the special study report submitted pursuant to section 710 of the Act and to achieve the purpose of the Act on Indian lands. Because of the special jurisdictional status of Indian lands, general responsibilities for administration of Indian Reclamation Programs are set forth on an interim basis.

§ 888.2 Objectives.

(a) The objectives of this part are to provide a temporary vehicle for mitigation of emergency situations or extreme danger situations arising from past mining practices and to begin reclamation of other areas determined to have high priority on Indian lands.

(b) Upon completion of the special study report and enactment of any required legislation, this Part will be either deleted and supplemented by the other Parts of this chapter dealing with State and Indian Abandoned Reclamation Programs or expanded as re-

V 43 / 207 OCT 25 78

quired to achieve the purposes of the Act.

§ 888.11 Interim procedures.

WEDNESDAY, OCTOBER 25, 1978
PART III

V 43/207 OC 25 78

quired to achieve the purposes of the Act.

§ 888.11 Interim procedures.

(a) The Regional Director is authorized to receive proposals from Indian tribes for projects which should be carried out on Indian land and to carry out such projects pursuant to 30 CFR Parts 872 through 882.

(b) The Regional Director shall consult with the Indian tribe and the Bureau of Indian Affairs office having jurisdiction over the Indian land on all reclamation activities carried out on Indian land under this subchapter.

(c) If a proposal is made by an Indian tribe and approved by the Regional Director, the tribal governing body shall approve the project plans. The costs of the project may be charged against the money allocated to the Indian tribe under § 872.11(c)(3).

(d) Approved projects may be carried out directly by the Regional Director or through such arrangements as the Regional Director may make with the Bureau of Indian Affairs or other agencies.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Health Resources Administration

REQUIREMENTS FOR PROVISIONS OF SERVICES TO PERSONS UNABLE TO PAY AND COMMUNITY SERVICES BY ASSISTED HEALTH CARE FACILITIES

Proposed Rulemaking; Public Hearing

V 43 / 207 OCT 25 78

[4110-83-M]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Health Resources Administration

[42 CFR Part 124]

REQUIREMENTS FOR PROVISION OF SERVICES TO PERSONS UNABLE TO PAY THEREFOR AND COMMUNITY SERVICE BY ASSISTED HEALTH CARE FACILITIES

Proposed Rulemaking

AGENCY: Public Health Service, HEW.

ACTION: Proposed rules and notice of public hearing.

SUMMARY: This notice proposes rules establishing requirements for health care facilities assisted by the Department of Health, Education, and Welfare under titles VI and XVI of the Public Health Service Act to fulfill assurances, given in their applications for assistance, that they will provide a community health service and a reasonable volume of services to persons unable to pay. The Department has become increasingly concerned that the regulations as currently in effect do not adequately assure compliance with the law. Conflicting concerns have been expressed by health care facilities and consumer advocacy groups, and those concerns have, in a number of cases, become the subject of litigation.

DATES: Comments must be received on or before December 26, 1978. A public hearing will be held on the proposed rules on December 5 and 6, 1978.

ADDRESSES: Wirtten comments and requests to testify at the public hearing should be sent to William T. Berry, Acting Director, Bureau of Health Facilities Financing, Compliance, and Conversion, Room 6-50, Center Building No. 1, 3700 East-West Highway, Hyattsville, Md., 20782. Attention: Albert T. Billingslea. The public hearing will be held at the Department Auditorium, HEW North Building, 330 Independence Avenue SW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

William T. Berry, Acting Director, Division of Facilities Compliance, Bureau of Health Facilities Financing, Compliance, and Conversion, Room 6-50, Center Building No. 1, 3700 East-West Highway, Hyattsville, Md. 20782, 301-436-6893.

SUPPLEMENTARY INFORMATION: The Assistant Secretary for Health, with the approval of the Secretary of Health, Education, and Welfare, proposes to issue regulations to implement the requirements of section 1602(6) of the Public Health Service Act (42 U.S.C. 300o—1(6)). That section requires the Secretary to prescribe:

> the general manner in which each entity which receives financial assistance under this title or has received financial assistance under this title or title VI shall be required to comply with the assurances required to be made at the time such assistance was received and the means by which such entity shall be required to demonstrate compliance with such assurances.

Subpart F below proposes requirements concerning the assurance that an assisted facility will provide a reasonable volume of services to persons unable to pay while subpart G proposes requirements concerning the assurance that an assisted facility will provide a community service.

The "uncompensated services" and "community service" requirements which currently apply to title VI-assisted facilities are set out at 42 CFR 53.111 and 53.113, respectively. The only regulations which have been issued to date relating to title XVI-assisted facilities (42 CFR part 124, subpart B) incorporate §§ 53.111 and 53.113 by reference.

BACKGROUND AND SUMMARY OF CURRENT RULES

Section 605(b)(3) of the act provides that as a condition of obtaining assistance under title VI, an applicant must give assurance that—

> "(1) The facility or portion thereof to be constructed or modernized will be made available to all persons residing in the territorial area of the applicant; and (2) there will be made available in the facility or portion thereof to be constructed or modernized a reasonable volume of services to persons unable to pay therefor, but an exception shall be made if such a requirement is not feasible from a financial viewpoint." Section 603(e), PHS Act.

These provisions, known as the "community service" and "uncompensated services" assurances, respectively, have been part of title VI in substantially this form since it was enacted in 1946.

A UNCOMPENSATED SERVICES REGULATIONS

Before 1972, the regulatory standard of compliance with the statutory requirement for a reasonable volume of services to persons unable to pay was extremely general. In 1972, the Department undertook to define more specific compliance standards for the uncompensated services assurance. The regulations codified at 42 CFR 53.111 were accordingly issued in substantially their present form. 37 FR 14721 (July 22, 1972). Principally, the regulations provided for the following: Administration of assurance compliance by the title VI State agency, which was to set eligibility criteria for persons unable to pay and conduct a monitoring and enforcement program; definition of the volume of uncompensated services provided by a facility to persons unable to pay as the difference between the total amount charged such persons and the reasonable cost (as determined by the application of medicare cost principles) of the services provided to them; the period of compliance limited to 20 years for grants, and to the time the loan remains unpaid for loans and loan guarantees; two annual presumptive compliance options (the lesser of 3 percent of operating costs or 10 percent of title VI assistance and the "open door" option); exclusion from computation of uncompensated services those services for which a collection action (other than the rendition of bills) had been initiated against the patient; and exclusion from computation of uncompensated services those services for which payment was or could be obtained from a third party payor.

Following their issuance, several provisions of the uncompensated services regulations were challenged in court. The validity of the 20-year limitation and the 3 percent to 10 percent presumptive compliance option was repeatedly upheld. *Cook* v. *Ochsner Foundation Hospital*, 559 F. 2d 968 (5 Cir. 1977); *Lugo* v. *Simon*, 426 F. Supp. 28 (N.D. Ohio 1976); *Corum* v. *Beth Israel Medical Foundation*, 373 F. Supp. 550 (S.D.N.Y. 1974). The only major change to the 1972 uncompensated service regulations was made in 1975, as a result of the decision in *Corum* v. *Beth Israel Medical Center*, *supra*. That decision invalidated the billing provision of the regulation. The court stated that persons unable to pay should not have to incur liabilities for services in the hope of qualifying for free or below cost services, nor should facilities be able to meet their uncompensated services obligation simply by charging off bad debts against the obligation. Rather, a determination of inability to pay prior to provision of services was required if the services were to be counted toward fulfillment of the uncompensated services obligation. The regulations were accordingly amended on October 6, 1975 (40 FR 46203), to require determinations prior to service except in certain circumstances (emergencies, change in circumstances, false or erroneous information given by the patient). At the same time, a requirement that facilities post notice of their uncompensated services obligations was also added to the regulations. See §§ 53.111(f) (1) and (i).

Title VI has not been funded since fiscal year 1974. Instead, in January 1975, Congress enacted title XVI to replace the program of assistance under

title VI. Pub. L. 93-641, sec. 4. Like title VI-assisted applicants, title XVI-assisted applicants are required to give a uncompensated services assurance. The title XVI assurance requirement, however, reads as follows:

> "• • • [A]t all times after (the) application is approved • • • (ii) there will be made available in the facility or portion thereof to be constructed, modernized, or converted a reasonable volume of services to persons unable to pay therefor and the Secretary, in determining the reasonableness of the volume of services provided, shall take into consideration the extent to which compliance is feasible from a financial viewpoint." Section 1604(b)(1)(J), PHS Act.

There provisions of title XVI impact directly on facilities assisted under title VI: (1) Section 1602(6), set out above, which requires the Secretary to prescribe the general manner in which facilities aided under title VI shall be required to comply with the assurances, and the means by which compliance shall be demonstrated; (2) the next-to-last sentence of section 1602, which provides for periodic reporting on compliance by title VI and XVI-assisted facilities; and (3) section 1612(c), which provides that the Secretary shall periodically investigate and ascertain the compliance of title VI and XVI-assisted facilities with their assurances and take appropriate action to effect such compliance, including requesting the Attorney General to bring an action against the facility for specific performance of its assurance. Section 1612(c) also provides that any person may file a complaint with the Secretary charging noncompliance by a facility and, if the Secretary dismisses the complaint or the Attorney General has not brought an action against the facility within 6 months of when the complaint was filed, that person may bring an action against the facility to effect compliance.

As a result of the enactment of title XVI, there has been an increasingly heavy volume of administrative complaints filed under section 1612(c). Numerous investigations of facilities and decisions have been made by the Department. The revised regulations proposed by the Department in part reflect the knowledge acquired about the operation of the present assurances requirements as a result of those investigations.

B. COMMUNITY SERVICE REGULATIONS

As enacted in 1946, the title VI community service assurance provision read as follows:

> "the facility or portion thereof to be constructed or modernized will be made available to all persons residing in the territorial area of the applicant, without discrimination on account of race, creed or color, but an exception shall be made in cases where separate hospital facilities are provided for separate population groups if the [State] plan makes equitable provision on the basis of need for facilities and services of like quality for each group." Section 622(f)(1); Pub. L. 79-725 (1946).

In 1963, the "separate but equal" portion of the statute was declared unconstitutional, *Simkins* v. *Moses H. Cone Memorial Hospital*, 323 F. 2d 959 (4 Cir. 1963), cert. den. 376 U.S. 938 (1964). Subsequently, and after enactment of title VI of the Civil Rights Act, Congress amended the community service language in 1964 by deleting both the "separate but equal" and the nondiscrimination provisions, resulting in the present language of the assurance. Pub. L. 88-443.

Like the original uncompensated services regulations, the community service regulations adopted subsequent to the 1964 amendment were extremely general. However, in 1974 the Secretary issued the more specific compliance standards presently codified in § 53.113 in response to the order in *Cook* v. *Ochsner Foundation Hospital*, 61 F.R.D. 354 (E.D. La. 1972). 39 FR 31766 (Aug. 30, 1974). That order directed the Secretary to require title VI-assisted facilities to participate in the medicaid program and refrain from excluding persons because they are medicaid recipients. Consistent with the *Cook* holding, the regulations were revised to require assisted facilities to participate in medicare and most other third party payment programs in addition to medicaid. The regulations also provided for the following: Administration of assurance compliance by the title VI State agency, which was to conduct a monitoring and enforcement program; a requirement that services be made available to all persons residing in the facility's territorial area, except that availability could be limited on the basis of age, medical indigency, or type or kind of medical or mental disability; and limitation of the community service obligation to 20 years for grants and the time the loan remained unpaid for loans and loan guarantees.

The validity of the 20-year limitation on the community service assurances was successfully challenged in two suits. *Cook* v. *Ochsner Foundation Hospital*, Civil No. 70-1969 (E.D. La. 1975), and *Lugo* v. *Simon*, *supra*. Both courts found no statutory basis for a durational limitation of the assurance. Consequently, the regulation was amended to delete the durational limitation. 42 FR 16780 (Mar. 30, 1977).

It should be noted that the provisions of title XVI described above which apply to title VI-assisted facilities (i.e., the requirement to issue regulations, the reporting requirement, the requirement for periodic investigation and the provision for administrative complaints and a private right of action) cover the community service assurance as well as the reasonable volume assurance.

The community service assurance provision which applies to title XVI-assisted facilities reads as follows:

> "• • • [A]t all times after (the title XVI) application is approved (i) the facility or portion thereof to be constructed, modernized, or converted will be made available to all persons residing or employed in the area served by the facility • • •" Section 1604(b)(1)(J), PHS Act.

II. SUMMARY OF PROPOSED RULES AND MAJOR ISSUES

While the regulations set forth below continue many policies of the present rules, they propose a number of policy changes which in the Department's judgment will improve the effectiveness of the assurance program. The most significant policy changes are summarized below, along with an explanation of the major implications of those changes for beneficiaries of the assurances and the assisted facilities. Public comment on the probable impact of these regulations, as well as suggestions for alternative policies, are solicited and welcomed. Public comment on the administration of the current regulations and any problems requiring the Department's attention will also be helpful. Any empirical data or personal experiences or observations that can be cited in support of positions taken in the public comments would be particularly useful, as would discussions of particular problems that specific provisions of the proposed rules may raise for facilities under State or local law.

A. UNCOMPENSATED SERVICES REGULATIONS—PROPOSED SUBPART F

Subpart F proposes requirements for how facilities assisted under titles VI and XVI of the Public Health Service Act are to comply with the assurance, given as a condition of assistance under those titles, that they would provide a reasonable volume of services to persons unable to pay. The proposed regulations would replace 42 CFR 53.111 and, while they are similar in some respects to § 53.111, they also differ in many respects. Like § 53.111, the proposed rules attempt to accomplish several related purposes. They seek to assure that: (1) Facilities provide the required amount of uncompensated services, (2) those services are provided to the persons who should get them, and (3) those services are distributed in a fair manner. The proposed rules establish those requirements which the Secretary believes are necessary to effect these general purposes. The most significant aspects of the proposed regulations are discussed below.

1. *Duration of obligation.* The proposed regulations establish require-

ments for facilities assisted under title VI of the Act and for facilities assisted under title XVI of the Act. The requirements applicable to the two types of facilities are, in general, the same for this purpose is proposed. See proposed § 124.512.

This centralization of administration of the assurances compliance program explains certain changes in the pro-

While this approach may result in some inequities, it is felt that inclusion of resources in the consideration of eligibility would be both extremely diffi-

need in areas where there have been sudden or severe changes in the local employment situation or other substantial economic problems. Facilities

approach has been repeatedly upheld by the courts as a reasonable interpretation of the statutory language. However, § 124.503 proposes several signifi-

Another option would be to estimate the total operating costs for the preceding year by assuming that the costs for the final two months after publica-

V 43/207 OCT 25 78

ments for facilities assisted under title VI of the Act and for facilities assisted under title XVI of the Act. The requirements applicable to the two types of facilities are in general the same. However, it should be noted that the length of time the obligation under the assurance applies to a facility (see proposed § 124.501(b)) is different under the two programs. The durational limitation (20 years for grants, the time during which the loan remains unpaid for loans and loan guarantees) has been retained for title VI-assisted facilities. As noted above, this durational limitation has been repeatedly upheld by the courts and Congress did not amend it in enacting title XVI. There is no similar limitation for title XVI-assisted facilities, however, reflecting the requirement in section 1604(b)(1)(J) of the Act that both assurances must apply to those facilities "at all times after [the] application is approved."

2. *Federal administration.* Under 42 CFR 53.111, the uncompensated services assurance compliance program has been administered primarily by the State agencies designated under section 604(a) of the Act, with the Secretary's role in the process being relatively minor. Any State wishing to maintain a monitoring function consistent with nationally set standards established by the Secretary will be given the opportunity to do so, but the proposed regulations otherwise eliminate the role of the State agencies for both title VI and title XVI facilities, and place responsibility for administering the entire assurance compliance program squarely with the Secretary. This change reflects in part the congressional concern with the unevenness of enforcement of the assurance by the various State agencies (see S. Rep. No. 93-1285 at 61). In addition, the Secretary has concluded that direct administration of the entire assurances compliance program would generally promote the more efficient discharge of his new enforcement responsibilities under section 1612(c) of the Act. Moreover, since no funds are available under the statute for the administration of the assurances compliance program by the State agencies other than the funds available for all other administrative functions under titles XV (health planning) and XVI of the Act, the Secretary believes that not all States would devote sufficient resources to administering an assurance compliance program to insure adequate administration. This consideration likewise dictates Federal administration of the program. However, recognizing that some States may wish and be able to continue to assist the Secretary in administering the program, provision for an agreement between the Secretary and such States for this purpose is proposed. See proposed § 124.512.

This centralization of administration of the assurances compliance program explains certain changes in the program. The need to use the limited Federal resources most effectively and to assure consistent administration throughout the Department's 10 regions favors the choice of policy alternatives which minimize exceptions and the need for complex and individualized judgments and which simplify the processing of required information. This consideration thus in part explains the establishment of National, rather than State, standards of eligibility for uncompensated services (see proposed § 124.506), and the simplified procedure for setting a lower level of compliance (compare § 53.111(h) with proposed § 124.504).

3. *Eligibility criteria.* A major change in the assurances compliance program is the proposed adoption of Federal, rather than State, eligibility criteria. See proposed § 124.506(a). Under the current regulations, the States are required to set criteria in accordance with very general Federal guidelines. As a result, the actual eligibility criteria vary widely from State to State and may consider resources or high expenses in addition to gross income. The proposed criteria, by contrast, are uniform, and are based on the index used in numerous Department programs, the poverty income guidelines of the Community Services Administration.[1] Persons unable to pay are divided into two categories—those with incomes at or below the poverty income guidelines (category A) and those with incomes above the guidelines up to twice the guideline (category B). This two-tiered approach is consistent with the eligibility criteria in use in major health services programs of the Public Health Service. The criteria consider income only and do not consider resources.

[1]The current CSA poverty income levels are as follows:

COMMUNITY SERVICES ADMINISTRATION

POVERTY INCOME GUIDELINES FOR ALL STATES EXCEPT ALASKA AND HAWAII

	Nonfarm family	Farm family
Size of family unit:		
1	$3,140	$2,690
2	4,163	3,550
3	5,180	4,410
4	6,200	5,270
5	7,220	6,130
6	8,240	6,990

For family units with more than 6 members add $1,020 for each additional member in a nonfarm family and $860 for each additional member in a farm family.

While this approach may result in some inequities, it is felt that inclusion of resources in the consideration of eligibility would be both extremely difficult and expensive for facilities to administer and infeasible for the Secretary to monitor.

Proposed § 124.506(a) adds a new requirement related to the new eligibility criteria. Facilities are required to provide uncompensated services to category A persons without charge; uncompensated services to category B persons must be provided either without charge or in accordance with a schedule of charges reduced proportionally to income, at the option of the facility. This general approach is likewise consistent with the charging policies currently applicable in the health services programs referred to above.

Proposed § 124.506(b) sets forth two alternative methods for determining whether persons fall within category A or B. The facility must calculate annual income either by: (1) Multiplying the person's income for the previous three months by four, or (2) using the actual income for the preceding 12 months. The former method is proposed in order to allow facilities the option of providing uncompensated services to persons who have sustained severe but recent financial reverses, such as the recently unemployed. This option is proposed to help enable facilities to take account of community

POVERTY GUIDELINES FOR ALASKA

	Nonfarm family	Farm family
Size of family unit:		
1	$3,940	$3,380
2	5,210	4,450
3	6,480	5,520
4	7,750	6,590
5	8,020	7,860
6	10,290	8,730

For family units with more than 6 members add $1,270 for each additional member in a nonfarm family and $1,070 for each additional member in a farm family.

POVERTY GUIDELINES FOR HAWAII

	Nonfarm family	Farm family
Size of family unit:		
1	$3,620	$3,130
2	4,790	4,110
3	5,960	5,090
4	7,130	6,070
5	8,300	7,050
6	9,470	8,030

For family units with more than 6 members add $1,170 for each additional member in a nonfarm family and $980 for each additional member in a farm family.

SOURCE: 43 FR 14316 (Apr. 5, 1978). It should be noted that the CSA Poverty Income Guidelines are periodically revised. Under these regulations such revisions would automatically be incorporated into the eligibility criteria.

need in areas where there have been sudden or severe changes in the local employment situation or other substantial economic problems. Facilities are encouraged to take community preferences into consideration in determining which method of calculation of income they will use. While the choice of method is left up to the facility, once made, it must be used for the entire fiscal year for all persons requesting uncompensated services during the year. This latter requirement is proposed to ensure that the eligibility criteria are applied in an equitable manner by the facility.

The Secretary solicits comments on the ramifications of the above policies. He is particularly interested in information concerning the impact of the proposed income standards from region to region of the country (i.e., if they will be very restrictive in some areas and very inclusive in others because of relative income levels). He welcomes suggestions for alternative criteria, and particularly explanations of why those alternatives are superior. If there will be difficulty in applying the income criteria or using the required methods of calculating income, he would appreciate specific examples of such problems along with suggestions for improvement. If the requirement for providing services to category A persons without charge and to category B persons without or at a reduced charge will create problems under State or local law, citation to and explanation of such laws would be extremely helpful. Comments are also solicited on the option provided to applicants to provide free, rather than reduced cost, services to individuals in category B. Should the Secretary require that category B patients be charged so that more care is available for persons who are needier? In any case, should the Secretary prescribe the schedule of charges required to be used for Category B patients when charges will be made, or should he continue to leave the establishment of the schedule to the facilities?

4. *Compliance level.* Under the present regulations, facilities are in presumptive compliance with their reasonable volume obligation if they: (1) Provide a dollar level of uncompensated services at least equal to the lesser of 3 percent of their operating costs or 10 percent of the title VI assistance received, or (2) certify that they will not deny admission to persons on the basis of inability to pay and provide uncompensated services to all persons admitted who meet the State criteria for "persons unable to pay". Section 53.111(d). The latter option is known as the "open door option."

Proposed § 124.503 retains the concept of percentage compliance options of the present regulations, since this approach has been repeatedly upheld by the courts as a reasonable interpretation of the statutory language. However, § 124.503 proposes several significant policy changes. First, the "open door option" is eliminated. Experience with the present regulations has shown that its requirements are ill-understood by facilities and that this lack of understanding has resulted in denial of uncompensated services to persons who should have received them. Moreover, determining compliance with the option is extremely difficult. However, provision has been made to accommodate the needs of those facilities for whom the "open door option" was principally designed, i.e., facilities which—because of the socio-economic characteristics of their service areas—do not have a demand for uncompensated services sufficient to enable them to meet the 3 percent—10 percent compliance levels. See proposed § 124.504, which sets out the method by which facilities can obtain a reduction of the required level of compliance in cases of insufficient demand for uncompensated services.

Second, the definition of "operating costs," the base on which the 3 percent option is calculated, has been clarified. The term "operating costs" now refers to the total operating expenses reported on the audited annual financial statement required under § 124.510. Thus, the base on which the "3 percent" option is calculated is a clearly identifiable sum certain, which will enable all parties concerned—the Secretary, facilities and beneficiaries—to know readily what the required dollar volume to be met is for a given fiscal year. It is the Secretary's understanding that this change in definition in fact accords with how the same term in the present regulations has generally been interpreted. For this reason, it should not require a significant change in practice by facilities.

However, comments would be helpful with respect to one problem which arises under the 3 percent option because of the requirement that the level of uncompensated services to be provided must be published 60 days prior to the close of the fiscal year. See § 124.505(a)(1). Thus, the 3 percent option for any fiscal year is required to be based on operating costs "for the preceding fiscal year," yet that preceding year will not have ended by the date on which the compliance level must be published. One solution would be to base the calculation of operating costs on the most recent year for which a financial statement is available. This would mean, however that the uncompensated services obligation would be based on costs which are as much as 2 years behind the provision of the services.

Another option would be to estimate the total operating costs for the preceding year by assuming that the costs for the final two months after publication of the required notice will be proportionate to the costs in the first ten months (or equal to one-fifth of those costs).

Third, the base on which the 10 percent option is calculated has been changed in two ways. The first change is the inclusion in the base of so-called "supplemental" Federal assistance received in connection with the assisted project. The rationale for this change is that since the assurance was given with respect to the project as a whole (of which Title VI funded part and assistance under the supplementary programs funded part), the "Federal assistance" base should be expanded to reflect that fact. The second change is a provision for adjusting the base on which the 10 percent option is calculated to take account of inflation. Under the current version of the 10 percent option, while the dollar amount of uncompensated services to be provided remains the same each year, the actual volume of those services declines with inflation in the cost of health care. This change remedies that inequity. The national Consumer Price Index (CPI) figure for medical care is proposed as the inflation factor to be applied. The national, rather than local, figure is proposed to facilitate administration, since the CPI is computed only for a limited number of geographic areas. The medical care component of the CPI is proposed as the one most reasonably reflective of changes in the cost of medical facility care. The inflation factor will be used to calculate the scope of the uncompensated services obligation under the 10 percent option only in fiscal years following the effective date of the revised regulations, and will not be applied retrospectively to take into account inflation which occurred in years prior to 1979.

Finally, the proposed regulation provides that any amount by which a facility fails to meet the required annual level of compliance will be added to the subsequent fiscal year's compliance level, subject to the procedures for obtaining lower compliance levels and extensions of the time in which to make up the deficit. This requirement would apply to fiscal years subsequent to the effective date of these regulations, and is included to make sure that facilities provide the services which they assured would be provided.

While doing so is not required under proposed § 124.503, the Secretary urges facilities which have met their quotas to refer persons unable to pay to other facilities which have not met their quotas.

V 4 3 / 2 0 7

0 C 2 5 7 8

There are several aspects of these proposed changes in policy on which the Secretary would particularly welcome comment. First, if there are valid reasons for retention of the open door option, what are they? Second, are there problems associated with including supplemental assistance in the base for calculation of the 10 percent option? Third, is the proposed method for adjusting the amount of Federal assistance to account for inflation equitable and workable? If alternatives are suggested, the Secretary would appreciate an explanation of how they would work in various areas of the country.

5. *Amounts to be credited.* The present regulations permit a facility to credit against its uncompensated services obligation no more than the amount by which the "reasonable cost" of services provided to a specific patient exceeds the amount actually charged the patient. "Reasonable cost" is to be determined under Medicare cost principles. Under Medicare cost principles, however, "reasonable cost" is not susceptible to computation on a current basis for specific patients. As a result, many facilities have simply aggregated their usual charges for services provided to beneficiaries of uncompensated services, and applied to that total the proportion of costs reimbursable under Medicare as a method of determining the total allowable uncompensated services provided. The Secretary believes that approach is generally satisfactory and wishes to avoid imposing unnecessary accounting burdens on facilities in order to determine compliance with their uncompensated services assurance. However, since there is a need to determine the amount to be credited against the quota for services to individual patients, the proposed regulations set forth a similar methodology for making that determination. See the definition of "allowable credit" in § 124.502.

It should be noted that, consistent with current regulations, the proposed regulations provide that the only amount which may be credited against the uncompensated services obligation is the allowable credit minus the amount actually charged the patient. Any amounts billed according to the schedule of charges established for Category B patients, to a patient determined to be eligible for reduced charge services which are not paid, may not be counted as uncompensated services. These amounts are bad debts and not uncompensated services.

6. *Lower level of compliance.* Proposed § 124.504 sets out a method for establishing a lower compliance level for facilities who request it. The basis for such a request may be that either (1) there is insufficient need in the facility's service area to permit it to meet the applicable compliance level under proposed § 124.503, or (2) the facility cannot afford to meet the applicable compliance level.

The proposed regulation provides that decisions on applications for lower compliance levels will be made by the Administrator of the Health Resources Administration and will not be further delegated by him without the Secretary's approval. The Secretary wishes to assure to the extent possible the uniform application of this exception to the compliance level, and therefore he intends to review the matter carefully before any further delegation will be authorized. Comments on the soundness of this administrative decision are requested.

Comments are also sought on whether the proposed criteria for granting a lower level should be made more specific. For example, should the requirement that a facility be unable to afford provision of uncompensated services at the required compliance level be defined as the likelihood of bankruptcy within some specific period (e.g., 2 years) if the level were met? Should factors for determining need in the facility's service area be spelled out, such as general income levels, medicaid or public assistance eligibility rates, or the availability of public or charity hospitals in the area? If more specific and additional criteria are suggested, a statement of why those criteria would be more appropriate than the ones proposed would be appreciated.

Comments are also sought on the proposed time frame and other requirements of the proposed procedure for obtaining a lower compliance level. Under the proposal, facilities must request a lower level of compliance for a year not less than 60 days before the close of the preceding fiscal year, and publish a notice of that request and notify the HSA. This period is intended to give the Secretary sufficient time to do a preliminary review of the request, and the public and the HSA sufficient time to begin preparation of any comments. An audited financial statement is required within 60 days of the close of the fiscal year. This period should give the facility enough time to obtain the audit while not unduly delaying a final determination. Public comments must be submitted within 150 days of the publication of the notice that a lower level is requested, which gives the public at least 30 days to review the audited financial statement. The Secretary's decision will be made no later than 60 days following receipt of the audited financial statement. This period of time is intended to assure a relatively prompt decision, while affording the public an adequate opportunity to comment. It should be noted that during the period in which a request for a lower level of compliance is pending, the applicant will be required to provide uncompensated services at the annual compliance level, not at the lower level requested. The applicant may then adjust the amount of uncompensated services to be provided throughout the remainder of the year if, following the Secretary's decision, the applicant is permitted to meet a level of compliance lower than the annual compliance level.

7. *Allocation of uncompensated services.* Proposed § 124.507 would require facilities to allocate their uncompensated services among persons unable to pay either on a first-come, first-served basis until the quota for the quarter is exhausted or in accordance with another plan of its own choosing. The option to use its own plan is available only if the facility publishes the plan, notifies and provides opportunity to comment to the local health systems agency, and if the plan itself provides for (1) some distribution of uncompensated services throughout the year, (2) some services to category A persons, and (3) provision of uncompensated services to any person who falls within the plan who requests them.

The present regulations contain no such requirement, and this laissez-faire approach has resulted in allegations of discrimination. Further, various groups have suggested that the Secretary require very specific types of allocation, such as requiring a facility to provide its uncompensated services equally among outpatient, inpatient and emergency services; to provide a specific dollar volume of inpatient services; to limit the services provided to those for which total cost is below a fixed dollar amount, such as $3,000; or to limit services to those involving catastrophic loss. Some of these suggestions have been based on the practice of some facilities of providing most or all of their free care on an outpatient or emergency basis, thus depriving financially eligible individuals of the opportunity to receive quality inpatient care. Others are based on a desire to have the limited amount of uncompensated services distributed to those most in need, or to as many persons as possible.

The Secretary has decided not to propose an inflexible allocation requirement, however, because any one allocation scheme may not be the most appropriate for all facilities and communities and administering compliance with it would be infeasible. However, the Secretary has concluded that requiring some method of allocation is necessary to prevent arbitrariness or discrimination in the distribution of uncompensated services, and to promote (but not require) planning for

community health needs. Thus, the alternatives proposed satisfy the need to assure some objective method of allocation, while giving facilities sufficient flexibility to take account of local and their own institutional needs.

It should be emphasized that the Secretary is *not* dictating how facilities allocate their uncompensated services. Rather, facilities are free, under § 124.507, to adopt their own plans as long as they meet the procedural and minimal substantive requirements of that section. All he is doing is requiring that they adopt a plan (which many facilities undoubtedly already do) or use the first-come, first-served alternative of § 124.507(b). Facilities which adopt their own plans are encouraged to cooperate with other facilities in their service area in devising their allocation plans, in order to best meet community needs. The local HSA can be helpful to the applicant in identifying community needs, and therefore the Secretary proposes to require facilities which adopt their own plans to give the HSA a chance to comment on the proposed allocation scheme. However, under either alternative, if a facility improperly denies a person uncompensated services who would have come within the allocation scheme, the facility must provide that person uncompensated services in order to be in compliance with its assurance, regardless of whether it has met its quota in the interim.

If these requirements will raise particular practical problems or problems under State or local law for facilities, the Secretary is interested in being so informed. Suggestions as to alternative approaches that might be workable or improvements of the above are also solicited.

8. *Notice requirements.* The proposed rules carry forward the existing notice requirements of the present regulations without substantial change. Compare §§ 53.111(h)(4) and (i) with proposed §§ 124.505(a) and (b), respectively. However, the standards for compliance with the posted notice provision have been clarified in these regulations by three additions. First, the proposed rules would require that the heading of the posted notice be legible to a person of normal vision from a distance of 15 feet. The present regulations contain no such explicit requirement, and site investigations have turned up cases where the notice is posted so as to be virtually unnoticeable (e.g., behind a door, on a 3"x5" card in small type). The proposed rule thus seeks to prevent such practices. Second, the term "multilingual" as applied to the community served by a facility has been defined, using the definition presently being applied in the Department's health planning programs. Third, if a facility has met is quota for the applicable time period, it would be required to post a notice to that effect; under the present regulations, such notice is optional.

One major change has been made in the overall structure of the notice requirements. Proposed § 124.505(c) requires facilities to give individual written notice of the availability of uncompensated services to each person seeking services. The notice must, among other things, state the eligibility and allocation criteria being applied and state that determination of whether the person will receive uncompensated services will be made promptly on request. This notice must be provided before service except in emergency cases. The new notice requirement is proposed as part of the general change in approach ot the prior determination requirement, summarized in the next section, and because experience has shown that posted notice alone is inadequate as the main vehicle for informing persons under stress, as those seeking medical care usually are. This requirement is also consistent with the recent decision in *Newsom v. Professional Adjustment Services*, 453 F. Supp. 401 (M.D. Tenn. 1978). Whether or not individual written notice must be required as suggested by the *Newsom* court, the Secretary believes that such a requirement will promote the proper administration of the statute.

The Secretary solicits suggestions for improving the proposed requirements. Specifically, is there other information which the individual written notice should contain? Should additional requirements be imposed for conveying the content of the individual written notice to persons who are illiterate or are no such additional requirements necessary? Is the definition of "multilingual" feasible to administer or are improvements needed? Although the Secretary believes that the requirement of providing individual written notice can readily be accommodated within the present admissions process of most facilities, he solicits comment on this question. Comments on the need for requiring posted notice of the availability of uncompensated services if individual notice is required are also solicited.

9. *Eligibility determination requirement.* Among the most significant changes proposed are the policies set forth in proposed § 124.508. That section is designed to replace the requirements presently set out at § 53.111(f)(1). The prior determination requirements of that section have been changed substantially, as discussed below.

As noted in section IA above, § 53.111(f)(1) was adopted to comply with the decision in *Corum v. Beth Israel Medical Center, supra.* Consistent with the *Corum* decision, that section requires facilities to make a determination of eligibility for uncompensated services prior to the provision of service unless one of the exceptions (emergency, change of circumstances, erroneous or incomplete information provided by the patient) applies. Site investigations over the past year suggest that this provision is not well understood by facilities. Monitoring compliance with it has also proved to be extremely difficult, since it is often hard to tell whether individual cases fall within the general rule or one of the exceptions, and documentation of the determinations made is frequently incomplete.

Thus, the Secretary has chosen another approach to satisfy the principles enunciated in *Corum.* Under the proposed rule, the determination of eligibility must be made promptly on request. See proposed § 124.508(a)(2). Since persons seeking services will be given individual notice as soon as they seek those services that uncompensated services are available and that they can get a prompt determination of their eligibility for uncompensated services (proposed § 124.506(c)), these provisions together will assure that anyone who intends to rely on the eligibility determination in incurring medical expenses will be able to get it before he or she incurs those expenses. Hence, the requirement is consistent with *Corum* while at the same time avoiding one of the more mechanistic results of the present requirement. Under the present regulations facilities which begin to provide services while processing paperwork for the determination are penalized even when a determination prior to service has not been requested, and perhaps is not even desired by the patient. In such a case, under the proposed rules, the determination must be made promptly, but not necessarily prior to service.

The elimination of the strict requirement of the current regulation that determinations of eligibility must be made prior to the provision of services does not authorize facilities to satisfy their uncompensated services obligation simply by charging off bad debts against it. Credit against the obligation is available only if the services are provided to persons who qualify under the eligibility criteria and allocation plan and if all other requirements of the subpart are met. Thus bad debts of persons who do not qualify under the eligibility criteria and allocation plan cannot be used to satisfy the obligation. The provision recognizes, however, that persons who do qualify for uncompensated services may not apply for them before services are provided. It thus gives the facilities sufficient flexibility to take this into account

V 43 / 207 OCT 25 78

and gives those persons the chance to get a determination whenever they decide to apply. It should be stressed, though, that the determination must be made promptly whenever it is requested.

The rules also propose documentation requirements for the first time, to remedy the monitoring problems experienced under the present regulations. See proposed § 124.508(a)(1) (i) and (ii). In addition, they require that persons who request and are denied uncompensated services be given a written statement of why those services were denied. See proposed § 124.508(b). This latter requirement will, among other things, help assure that the eligibility and allocation criteria are being properly applied, since persons will have those criteria available to compare with the reasons for denial (see proposed § 124.505(c)(1)(ii)).

Proposed § 124.508(c) makes explicit what is implicit in § 53.111(f)(1), that facilities may verify eligibility information provided by the person seeking services. While facilities may choose to accept the information provided by the patient at face value, they are not required to do so. Requiring such verification is not proposed because the cost and difficulty involved may be unduly burdensome for some facilities (e.g., public health centers). However, the Secretary believes that it is completely consistent with the purpose of these regulations for facilities to seek to verify such information, so that the uncompensated services go only to those who are in fact eligible for them. However, it should be noted that facilities cannot use verification as a means of avoiding the "prompt determination" requirements of § 124.508(a)(2). Thus, these provisions together may mean that facilities will have to make prompt determinations which are conditioned on later verification. Under such an arrangement, where the determination was made that a person would get uncompensated services, that determination would remain unchanged, if the person provided accurate information. If he did not provide accurate information, the determination could be reversed.

The Secretary particularly solicits comment on the practical ramifications of the above proposals. The Secretary's objective is to assure that persons eligible for free care know that such care is available and obtain a timely determination of their eligibility by the facility. However, the Secretary wishes to accomplish this objective in the least burdensome manner for facilities. If the individual notice/determination requirements will on balance be more burdensome than the present posted notice/prior determination requirements, he would like such information. If improvements can be made to the process, particularly if there are better and less burdensome ways of assuring individual notice, they should be suggested. Estimates of the cost of the proposed system relative to the present system are also solicited. If verification procedures are likely to create problems for beneficiaries, he would appreciate being so advised.

10. *Reporting requirements.* The reporting requirements which apply to assisted facilities are set out at proposed § 124.510. The Secretary intends to minimize the paperwork burden on facilities by developing an assurance reporting form which would include the information need to review performance, rather than requiring facility's to submit financial statements and other data to the Secretary on a routine basis.[2] However, the underlizing statements and other data documents must be returned by the facility for 5 years to permit an investigation if analysis of the reporting forms, or complaints, suggests the needed for further review.

Proposed § 124.510(a)(2) also gives the Secretary general authority to request additional information relating to compliance. The section is purposely left general so as to enable the Secretary to request additional information from facilities where there appear to be significant compliance problems, while not requiring him to burden those facilities which do not appear to have significant compliance problems with such additional reporting.

II. *Investigations.* Proposed § 124.511(a)(1)(i) sets out a general provision for investigation, implementing the Secretary's new statutory authority under section 1612(c) of the Act (discussed in section IA above) periodically to investigate the compliance of assisted facilities. At present, the Secretary hopes to be able to implement this general authority by reviewing each year the annual submission of the facilities, discussed in the preceding paragraph, to ascertain compliance. Based on these reviews, complaints filed, and other information called to the Secretary's attention, it is the Secretary's intention to conduct in-depth investigations of those facilities which appear most likely to be out of compliance.

Proposed § 124.509(a)(1)(ii) spells out certain requirements for filing complaints of noncompliance with the Secretary under section 1612(c) of the Act. The purpose of the new requirements is to assure that the information necessary to investigate complaints is provided to the Secretary, in view of both the statutory 6-month period during which administrative enforcement takes precedence over private litigation, and the fact that the Department will be handling many complaints presently handled entirely by the State agencies as well as carrying out the periodic investigations described in the preceding paragraph. The Secretary does not intend by these requirements to erect barriers to the making of complaints, and Department officials will do their best to assure that incomplete complaints are completed as expeditiously as possible. The Secretary solicits comment on whether the proposed requirements will unduly burden beneficiaries and what, if any, improvements could be made.

One possible approach to resolving allegations of non-compliance with the uncompensated services or community service assurances would be to establish a procedure for third party mediation of disputes and fact-finding where mediation fails. A mediation/fact-finding process might facilitate a prompt resolution of complaints without the need for administrative or judicial adjudication and could free limited Department resources to concentrate on the most severe patterns of non-compliance. The Secretary would like comments on the efficacy of a mediation/fact-finding procedure and suggestions for a frame work for such a procedure. Questions that need to be explored include: should mediation be a voluntary procedure available to individuals denied service or should it be a prerequisite to the filing of a complaint under section 1612(c) of the Act?; should all facilities be required to establish a mediation or similar grievance procedure, or can a method be established to target such a requirement only on those facilities likely to have a substantial number of complaints filed against them?; should the Department establish a core of federally-trained mediators?; what costs may be involved, and to what extent can volunteers or salaried resources be authorized to reduce costs (e.g., community dispute centers, the local Bar Association, the Federal Mediation and Conciliation Service or similar State services might supply trained mediators without cost)?; and would a mediation process speed up resolution of disputes?

Finally, proposed § 124.511(a)(3) draws attention to the statutory provision of a private right of action to obtain compliance for persons who have filed a complaint with the Secretary under section 1612(c) of the Act.

[2] A copy of the most recent draft of a proposed reporting form, which has been widely circulated among the provider and legal services communities, is available from the Acting Director, Division of Facilities Compliance, at the address given above. It should be noted that the most recent draft will, of course, be changed to reflect any changes in policies adopted. Comments on the type of information which should be included on the form would be helpful.

Under this section, private individuals may bring an action to effectuate compliance with the uncompensated services or community service assurances only after the complaint has been dismissed by the Secretary or the Attorney General has not brought an action for compliance within 6 months. It is likely that limited Department resources will mean that many complaints will not be finally resolved within 6 months. Further, even when a departmental recommendation to the Attorney General can be completed in that period of time it will be extremely difficult for the civil action to be commenced in so short a timeframe. Therefore, the Secretary is considering the possibility of establishing a procedure under which complaints would be dismissed on the request of a complainant whenever the Secretary determines that he cannot resolve the complaint within the 6-month period. Once the complaint is dismissed a judicial action would be authorized. This procedure would free complainants to pursue judicial remedies where they believe that delay is causing them harm, while at the same time preserving for the Department the right to make an administrative decision where that is possible within the statutory period. Moreover, this procedure would maintain the right of those complainants who are willing to wait for an administrative decision, or who are unable to retain counsel to bring a court action, to obtain a decision from the Secretary. Comments would be helpful if they were directed to the desirability of such a procedure and to how the procedure might be designed.

12. *Enforcement.* Proposed § 124.511(b)(2) provides a major departure from the present requirements. The present regulations make no provision for application of a sanction by the Secretary against facilities found to be out of compliance, although there is provision for sanctions to be applied by the State agencies. However, this section provides that if the Secretary finds that a facility has not met its uncompensated services obligation for any year he will require it to make up that deficit whether or not the 20-year durational limitation on the uncompensated services obligation for Title VI assisted facilities otherwise would have expired. This remedial action is consistent with the requirement of § 124.503(b) that facilities make up any deficit discovered in their fulfillment of the required annual level of compliance. The provision does not impose any new burden on facilities. Rather, the Secretary is simply insisting that facilities in fact provide the volume of uncompensated services which they assured will be provided.

The Secretary believes that the deficit makeup requirement, which eliminates any advantage to a facility which does not meet its uncompensated services obligation, is a remedy which will be a deterrence to noncompliance. However, there might be other remedies which would be equally or more effective in deterring noncompliance, and he requests suggestions along this line.

The Secretary is concerned, as was the Congress, about allegations of substantial noncompliance with the uncompensated services assurance in past years. He has explored the possibility of including in the regulations a provision for adding to the required compliance level in future years amounts by which facilities have in the past failed to comply with their obligations. Any such deficit makeup requirement would necessarily be limited to fiscal years after 1971 because prior to 1972 no dollar volume requirements existed. See *Newsom, supra.*

The Secretary considered the possibility of applying makeup requirements retrospectively to years after 1971. The problem of establishing a uniform and equitable procedure for enforcing such requirements, however, were found to be severe. The Secretary was unable to design satisfactory resolutions of those problems. First, it appears not to be feasible to apply the requirement to facilities which elected the open door option. Under the open door option, facilities are not required to provide a specific dollar volume of uncompensated services. Hence, by definition, no dollar "deficit" can be calculated. While it could be argued that those facilities should be held to either the "3 percent" or "10 percent" level for those years, this option likewise does not appear viable. It would retroactively impose a requirement that does not presently exist and which some open door facilities could not have met (i.e., where there is not enough need for uncompensated services in the facility's service area to meet either the "3 percent" or "10 percent" level).

Second, the Secretary is concerned that many facilities may not have adequate records which would demonstrate compliance even if, in fact, the facility did comply with its assurance. Moreover, some States failed to develop specific criteria for eligibility for uncompensated services. Thus, even where records were maintained by facilities, there may be no clear test of eligibility against which compliance may be measured.

Third, noncompliance on the part of many facilities may have been the result of procedural violations (e.g., the prior written determination rule) whereas, in fact, the facility may have provided the appropriate dollar volume of uncompensated services to eligible individuals. In such a case, there would be no "deficit" for the facility to make up.

The Secretary, however, will consider proposals which might overcome the problems outlined above. It should be noted, however, that the Secretary feels that departmental resources can be most usefully concentrated on prospective compliance. Diversion of any substantial portion of those resources to deal with problems of past noncompliance which are fraught with legal and administration difficulties would, in the Secretary's view, detract from the main thrust of the enforcement effort and may therefore be counterproductive.

It should be emphasized that the Secretary's decision not to include a deficit makeup requirement for past noncompliance is not intended to compromise the rights of individuals who have been improperly denied uncompensated services. Those persons are, and will continue to be, free to pursue the legal remedies available to them.

13. *Nondiscrimination.* Finally, it should be noted that the nondiscrimination requirements of the community service regulations of course apply to the provision of uncompensated services. The community service requirements are discussed in section B, immediately following. In addition, a denial of uncompensated services on the basis of race, national origin, creed, or other ground unrelated to eligibility for services under the income criteria and allocation plan would violate the requirements pertaining to allocation of services in § 124.507.

B. COMMUNITY SERVICE REGULATIONS—PROPOSED SUBPART G

Subpart G proposes requirements for how facilities assisted under Titles VI and XVI of the Act are to comply with their community service assurances. The proposed regulations would replace 42 CFR 53.113.

The proposed community service regulations—like the proposed uncompensated services regulations discussed above—propose a changeover from State to Federal administration of the assurance program for the reasons discussed in section IIA2 above. The proposed reporting, investigation and enforcement provisions are substantially the same as those in proposed Subpart F. Hence, the considerations discussed in sections IIA10, 11, and 12 above likewise generally apply to proposed §§ 124.604 and 124.605 below.

1. *Duration of Obligation.* Like the present § 53.113(a), these rules make clear that there is no time limit to the community service obligation for either Title VI-assisted facilities or Title XVI-assisted facilities. See pro-

posed § 124.601. For Title VI facilities, this rule is consistent with the way the *Cook* and *Lugo* courts have read the statute. See the discussion at section IB above. For Title XVI facilities, this

of discrimination under Titles VI and XVI which also raise a question of compliance with other acts (such as the Civil Rights Act of 1964) will be in-

for admission. He is thus considering a specific prohibition of preadmission deposits, either under the community service assurance or the uncompensat-

or against any other class of persons for non-medically related reasons. Some types of information which the Secretary is considering collecting in-

through publication of the facility's proposed plan and notification of the

Persons or groups wishing to testify at the public hearing should make such request by writing to:

V 4 3 / 2 0 7

0 C 2 5 7 8

posed § 124.601. For Title VI facilities, this rule is consistent with the way the *Cook* and *Lugo* courts have read the statute. See the discussion at section IB above. For Title XVI facilities, this rule is consistent with the "at all times" language of section 1604(b)(1)(J) of the Act.

2. *Nondiscrimination.* The main requirements for compliance with the community service obligation are set out in proposed § 124.603. Proposed § 124.603(b), which sets out the requirement for providing services to beneficiaries of governmental programs, is substantially the same as § 53.113(d)(2). Like the latter section, proposed § 124.603(b) follows the holdings in *Cook* and *Lugo, supra,* that discrimination against such beneficiaries is inherently inconsistent with the community service assurance. See the discussion at section IB above.

The language of proposed § 124.603(a) differs in many respects from the analogous provisions of the present regulations, § 53.113(d)(1). Some of the changes are proposed for purposes of clarity or to make explicit what is implicit in the present regulation. Under the present regulations, a facility can limit the available of its services only by age, medical indigency, or type of medical or mental disability (§ 53.113(d)(1)(ii)). Under the proposed regulations, essentially the same limitations on availability are permissible: Subject to the requirements of Subpart F for the provision of a reasonable volume of services to persons unable to pay for the services, a facility is not otherwise required to provide services to the medically indigent, and it is not required to make available a service not available in the facility. Thus, facilities which serve particular age groups (e.g., children's hospitals, geriatric facilities) or only special types of disabilities (e.g., mental facilities, eye-ear-nose clinics, orthopedic facilities) are not required by these regulations to become full-service hospitals.

Further, § 124.603(a) explicitly states that a facility may not discriminate in the provision of its services on the basis of race, creed, color, or national origin. This requirement was implicit in § 53.113(d)(1). As discussed in section IB above, similar nondiscrimination provisions were part of the statutory community service assurance language as originally enacted and were only removed (apparently as redundant) after the "separate but equal" provisions of the assurance were declared unconstitutional in 1963. The Department has determined that it ought to make explicit what has been implicit in the statute, so that neither facilities nor beneficiaries are unclear as to the scope of the obligation. As indicated in the next section, complaints of discrimination under Titles VI and XVI which also raise a question of compliance with other acts (such as the Civil Rights Act of 1964) will be investigated under those other acts.

Further explanation is needed, however, of the requirement that a facility may not discriminate on "any • • • ground unrelated to an individual's need for the service or the availability of the needed service in the facility". The regulations specifically provide that an applicant will be considered to be out of compliance with this requirement if it adopts an admissions policy which would have the effect of excluding persons on a ground other than need for the service or availability of the service. The Secretary is concerned, as a result of numerous complaints and charges by poor persons and minorities and their representatives, that some medical facility admissions policies (such as pre-admission deposit requirements and admission only through physicians with staff privileges) have served to limit access to those facilities by persons in need of their services and particularly by beneficiaries under governmental programs such as Medicaid. Thus, persons who do not have a family doctor who can arrange for hospital admission may be excluded despite their ability to pay or eligibility for free care. Similarly, a policy of admitting only patients referred by physicians with staff privileges has the effect of excluding Medicaid recipients, despite their source of payment and the facility's status as a Medicaid provider, if none of the physicians with staff privileges will accept Medicaid patients. The Secretary wishes to make clear that any such policy which has the effect of excluding persons from admission to a facility on grounds unrelated to the need for or availability of services will be considered a violation of the facility's community service assurance. The Secretary does not, however, purpose to prescribe specific admissions policies. There are different alternatives available to each facility, and so long as persons in the facility's area who are able to pay or eligible for uncompensated services are not excluded the facility is free to use any policies it finds appropriate. It is emphasized once again, however, that a facility which has met its uncompensated services obligations may deny services to persons who are unable to pay for them.

The Secretary is particularly concerned that the widespread requirement of substantial preadmission deposits may operate to exclude persons who would be able to pay or who would otherwise qualify for uncompensated services, simply because they are not able to come up with the necessary cash at the time of their need for admission. He is thus considering a specific prohibition of preadmission deposits, either under the community service assurance or the uncompensated services assurance, or both. The Secretary solicits comments on the practical ramifications of such a ban and on whether there are other solutions than those proposed to the problems of exclusionary practices outlined above.

The proposed rules do not define the term "area served" or "service area". However, it is recognized that some definition of the term is most likely necessary, since the community service obligation only applies within a facility's service area. The Secretary solicits comments on whether the regulations should define the term and, if so, how they should define it. One approach he is considering is using the facility service areas set out in the Title VI State plan or, after it is approved, the Title XVI State medical facilities plan. He requests suggestions on any problems this approach might have as well as other approaches to defining the term.

3. *Investigations and enforcement.* As noted above, the proposed procedures for investigations and filing of complaints with respect to the community service regulations are substantially similar to those of the proposed reasonable volume regulations. However, it is the Secretary's intention to delegate the job of investigating complaints of discrimination under the community services requirements to the Office for Civil Rights, since the Office has the trained staff experienced in such investigations. Where questions of compliance with Title VI of the Civil Rights Act, the Age Discrimination Act, or section 504 of the Rehabilitation Act of 1973 arise out of those investigations, the enforcement procedures and sanctions of those statutes will be applied. Where those investigaations demonstrate discrimination not covered by the Civil Rights Act, the Age Discrimination Act, or section 504, the Public Health Service will proceed under its authority. The Secretary solicits suggestions of other, more effective sanctions which he might adopt.

4. *Reporting requirements.* Reporting requirements which apply to assisted facilities are set out at proposed § 124.604. The Secretary intends to minimize the paperwork burden on facilities by developing one reporting form through which the Department may monitor compliance with both the community service and uncompensated services assurances. At a minimum, the Secretary will need to collect sufficient information to allow him to determine whether there are patterns or practices of discrimination against public program beneficiaries or against any other class of persons for non-medically related reasons. Some types of information which the Secretary is considering collecting include admissions or discharge data by race, and data indicating source of payment by patients. Suggestions for the least burdensome, most useful information which the Secretary should require to be reported to enable him to monitor compliance with the community service assurance are encouraged.

III. Regulatory Objectives and Strategy

The basic objective of these proposed regulations is to assure that the uncompensated and community services required by law are provided by facilities within the context of sound planning and management for the delivery of health care services. In preparing the proposed regulations, the Department took account of the dissatisfaction expressed by Congress and others with the way the uncompensated services and community service assurances have been implemented and monitored to date. After reviewing the situation carefully, the Secretary has determined that significant changes in administration such as those described above are needed to assure full compliance with the statutory requirements. However, in proposing these changes the Secretary has sought to hold to a minimum the administrative burdens imposed on facilities, in keeping with the President's policy of imposing on recipients of Federal funds only those burdens necessary for proper and efficient program implementation, and with the Secretary's Operation Common Sense Program.

For example, while the Secretary believes that some plan for the allocation of uncompensated services is needed to promote a fair and objective distribution of those services, he wished to provide facilities with maximum flexibility to devise their own plans. For this reason the regulations allow a facility either to adopt a service allocation plan providing all services on a first-come-first-served basis, allocated quarterly, or to adopt any other plan meeting minimal Federal standards which is believed appropriate under the particular local circumstances.

Furthermore, the regulations seek to encourage—but not mandate—the inclusion of uncompensated services as part of a comprehensive and integrated health planning process. For this reason the regulations require that the facility notify the local HSA of its proposed service allocation plan but do not require the HSA to take any specific action with respect to that plan. Local consumer's participation is likewise encouraged—but not mandated—through publication of the facility's proposed plan and notification of the HSA. To the extent that local officials, health care providers and consumers wish to develop a rational program for the distribution of the total amount of uncompensated services available to a community, these regulations seek to be supportive and not restrictive.

These regulations also seek to allow public officials, providers and consumers at the local level maximum flexibility to fashion their own approach which they believe is most appropriate to their needs, resources and circumstances consistent with broad national principles and Congressional mandates.

Finally, the regulations seek to assure compliance with the requirements of the law that the uncompensated and community services actually be delivered. For this reason patients seeking services must be individually notified of the availability of uncompensated services; annual reports of facility performance are required; unused, uncompensated services in 1 year must be carried over to the next year, and compliance investigations and field visits will be conducted by departmental officials.

As an aid to the fair, prompt and efficient settlement of disputes arising under these regulations, the Department is considering a mediation settlement process consistent with the requirements of the law. The disputes settlement process would not supplant the complaint and enforcement procedures but would seek to use the 180-day waiting period to resolve as many complaints as possible, making further adversarial procedures and litigation unnecessary.

Public comments are sought by the Department on the regulatory objectives and procedures as described above. How can the proposed procedures be improved to achieve the twin objectives of compliance and local discretion and flexibility? Would a mediation dispute settlement procedure aid in the achievement of compliance with these regulations?

IV. Procedures for Public Hearing

Because of the importance of the rules proposed below, the Secretary has decided to hold a hearing at which members of the public may testify on them. The hearing will be held on Tuesday, December 5, and Wednesday, December 6, at the Department auditorium, HEW North Building, 330 Independence Avenue SW., Washington, D.C. 20201. The hearing will be held from 9 a.m. to 5 p.m. each day, with a 1-hour break in the middle of each day. Speakers will be allotted a maximum of 10 minutes to testify.

Persons or groups wishing to testify at the public hearing should make such request by writing to:

Mr. William T. Berry, Acting Director, Bureau of Health Facilities Financing, Compliance, and Conversion, Room 6-50 Center Bldg. No. 1, 3700 East-West Highway, Hyattsville, Md. 20782, Attention: Mr. Albert T. Billingslea.

The Department will notify persons and groups seeking to testify of the date and time they have been allotted. If the demand for time to testify exceeds the time available, the Department will make every effort to make a reasonable allocation of time available among the various points of view, and persons who are not allotted time will be so informed. Persons who testify are encouraged to submit written remarks for consideration along with their testimony. If time remains at the end of either scheduled day persons in the audience who have been allotted time will be given an opportunity to testify.

NOTE: The Assistant Secretary for Health has determined that a regulatory analysis as required by Executive Order No. 12044 is not required for these proposed regulations.

In consideration of the above, it is proposed to add new Subparts F and G to 42 CFR Part 124, to read as set forth below.

Dated: October 19, 1978.

JULIUS B. RICHMOND,
Assistant Secretary for Health.

Approved: October 20, 1978.

HALE CHAMPION,
Acting Secretary.

1. A new Subpart F is added to 42 Code of Federal Regulations, Part 124, to read as follows:

Subpart F—Reasonable Volume of Uncompensated Services to Persons Unable to Pay

Sec.
124.501 Applicability.
124.502 Definitions.
124.503 Compliance level.
124.504 Lower level of compliance.
124.505 Notice of availability of uncompensated services.
124.506 Eligibility criteria for identifying persons unable to pay.
124.507 Allocation of services.
124.508 Determinations of eligibility.
124.509 Exclusions from uncompensated services.
124.510 Reporting requirements.
124.511 Investigation and enforcement.
124.512 Agreements with State Agencies.

AUTHORITY.—Secs. 215, 1525, 1602(6), Public Health Service Act as amended; 58 Stat. 690, 88 Stat. 2249, 88 Stat. 2259; (42 U.S.C. 216, 300m-4, 3000-1(6)).

V 43/207 OCT 25 78

Subpart F—Reasonable Volume of Uncompensated Services to Persons Unable to Pay

§ 124.501 Applicability.

(a) The provisions of this subpart apply to every applicant who has given an assurance that it will make available in the facility or portion thereof constructed, modernized or converted with Federal assistance under Title VI of the Public Health Service Act (42 U.S.C. 291 *et seq.*) or Title XVI of the Public Health Service Act (42 U.S.C. 300o *et seq.*) a reasonable volume of services to persons unable to pay therefor.

(b) The provisions of this subpart apply to applicants for the following periods:

(1) *Applicants assisted under Title VI of the Act.* The provisions of this subpart apply to applicants under Title VI of the Act for whichever of the following periods is applicable:

(i) Twenty years after the completion of construction, as determined by the Secretary in the case of a facility for which grant assistance under section 606 of the Act was paid. For purposes of this subsection, "completion of construction" means the date on which the Secretary determines the facility was opened for service, if available; if the opening date is not available, it means the date on which the final part of the applicant's application for assistance under Title VI of the Act was approved, if available; if the date of final approval is not available, it means whatever date the Secretary determines most reasonably approximates the date of final approval.

(ii) The period during which any amount of a direct loan under section 610 or section 623 of the Act or any amount of a loan with respect to which a guarantee and interest subsidy has been provided under section 623 of the Act remains unpaid in the case of a facility for which such a loan was made.

(2) *Applicants assisted under title XVI of the Act.* The provisions of this subpart apply to applicants under title XVI of the Act at all times following the Secretary's approval of the applicant's application for assistance under title XVI, except that if the facility does not at the time of such approval provide health services, the assurance applies at all times following the facility's initial provision of health services to patients, as determined by the Secretary.

§ 124.502 Definitions.

As used in this subpart—

"Act" means the Public Health Service Act, as amended.

"Allowable credit" for services provided to a specific patient means the facility's usual charge for those services, or the usual charge multiplied by the percentage which the total allowable cost determined for the facility's most recent fiscal year under Title XVIII of the Social Security Act (42 U.S.C. 1395) and Subpart D of the regulations thereunder (42 CFR 405.401 *et seq.*) bears to the facility's total patient revenues for the year, which is less.

"Applicant" means an applicant for and recipient of a grant, a direct loan, or a loan guarantee under Title VI or Title XVI of the Act.

"Complaint" means a written statement by or on behalf of a person claiming to be a person unable to pay, submitted to the Secretary in the form and manner and containing the information required under § 124.510 (a)(1)(ii).

"Federal assistance", for purposes of § 124.503, means assistance received by the applicant under Title VI or Title XVI of the Act and any assistance supplementary to that Title VI or Title XVI assistance received by the applicant under any of the following acts: The District of Columbia Medical Facilities Construction Act of 1968, 82 Stat. 631 (Pub. L. 90-457); the Public Works Acceleration Act of 1962 (42 U.S.C. 2641, *et seq.*); the Public Works and Economic Development Act of 1965 (42 U.S.C. 3121, *et seq.*); the Appalachian Regional Development Act of 1965, as amended (40 U.S.C. App.); the Local Public Works Capital Development and Investment Act of 1976 (Pub. L. 94-369). In the case of a loan guarantee with interest subsidy or a direct loan sold and guaranteed by the Secretary with an interest subsidy, the amount of Federal assistance under title VI or Title XVI, as applicable, shall be the total amount of the interest subsidy which the Secretary is, or will be, obligated to pay over the full life of the loan, as well as any other payments which the Secretary makes on behalf of the applicant in connection with the loan guarantee or the direct loan which has been sold.

"Fiscal year" means the applicant's fiscal year.

"Health Systems Agency" or "HSA" means an agency designated by the Secretary under section 1515 of the Act.

"Operating costs" for any fiscal year means the total operating expenses of a facility as set forth in the audited financial statement required by § 124.510(a)(1), minus the amount of reimbursement, if any, received (or if not received, claimed) under Titles XVIII and XIX of the Social Security Act.

"Persons unable to pay" means persons who meet the income criteria set out in § 124.506 of this subpart.

"Secretary" means the Secretary of Health, Education, and Welfare or any officer or employee of the Department of Health, Education, and Welfare to whom the authority concerned has been delegated.

"State agency" means the agency of a State designated by the Secretary as the State health planning and development agency under section 1521 of the Act.

"Uncompensated services" means services which are made available to persons unable to pay for them without charge or at a charge which is less than the allowable credit for such services. The amount of uncompensated services provided in a fiscal year is the total allowable credit for the services less the amount actually charged such persons for the services.

§ 124.503 Compliance level.

(a) *Annual level.* Except as provided in § 124.504 and § 124.511, an applicant assisted under title VI or XVI of the Act is in compliance with its assurance to provide a reasonable volume of services to persons unable to pay therefor for a fiscal year if, for the fiscal year, it provides on request uncompensated services in accordance with the requirements of this subpart at a level not less than the lesser of—

(1) Three percent of its operating costs for the preceding fiscal year, or

(2) Ten percent of all Federal assistance provided to or on behalf of the applicant, adjusted as follows: The amount of Federal assistance provided in any year shall be increased or decreased, as the case may be, by a percentage equal to the percentage change in the national Consumer Price Index for medical care between the year in which the assistance was provided or 1979, whichever is later, and the most recent year for which a published Index is available. For purposes of this paragraph, the total amount of the interest subsidy which the Secretary is obligated to pay over the life of a loan which is guaranteed or made and sold by the Secretary will be deemed to have been provided in the year in which the loan is made.

(b) *Deficit makeup.* If in any fiscal year a facility fails to meet its annual compliance level under paragraph (a) of this section, or under § 124.511, it shall make up that deficit in the following fiscal year unless an extension of time is granted under § 124.511(b)(3).

§ 124.504 Lower level of compliance.

(a) The Secretary may establish a level of compliance with this subpart for a fiscal year lower than the applicable compliance level of § 124.503 if he finds, in accordance with the applicable procedures of this section—

(1) That the applicant cannot reasonably be expected to meet the applicable compliance level because there is

insufficient need for uncompensated services in the area it serves; or

(2) That the applicant is financially unable to provide uncompensated services at the level required under § 124.503.

(b) A level of compliance for a fiscal year lower than that required by § 124.503 will not be established unless the following procedures are followed:

(1) Not later than 60 days before the close of the applicant's fiscal year, except for good cause shown, the applicant must submit to the Secretary a written request that the level of compliance applicable to it for the next fiscal year be lower than the applicable compliance level. The written request shall contain:

(i) A justification, supported by adequate documentation (including the most currently available financial data) of why granting the lower compliance level is warranted; and

(ii) The applicant's proposed budget for the next fiscal year.

(2) The applicant shall, not later than 60 days before the close of its fiscal year, publish in a newspaper of general circulation in the area served by the facility notice that it has applied to the Secretary for a lower level of compliance with the requirements of this subpart. It shall simultaneously provide a copy of such notice to the HSA for the area, which may hold a public hearing, comment to the Secretary on the level proposed, or take any other action it considers appropriate. The notice must contain the following:

(i) The amount of uncompensated services it proposes to provide in the next fiscal year;

(ii) The amount of uncompensated services it will have to provide under this subpart in the next fiscal year if a lower level of compliance is not established for the applicant under this section;

(iii) A statement that it will provide uncompensated services at the level set forth in subparagraph (2)(ii) of this paragraph until the required level of compliance is established by the Secretary under paragraph (b)(3) of this section;

(iv) A statement that any persons wishing to object to the applicant's request for a lower level of compliance may file written objections, along with any supporting materials, with the Secretary within 150 days of the date of publication of notice under this paragraph; and

(v) A statement that it will make available for inspection all materials submitted under subparagraphs (1) and (3) of this paragraph.

(3) Not more than 60 days after the close of the applicant's fiscal year the applicant shall submit to the Secretary in support of its request for a lower level of compliance, and simultaneously provide a copy to the HSA in the area, the audited financial statement which provided the basis for the report submitted under § 124.510(a).

(4) Not more than 120 days after the beginning of the applicant's current fiscal year, the Secretary will—

(i) Establish a level of compliance for the fiscal year which shall be equal to or as close to the level applicable to the applicant under § 124.503 as the Secretary finds is consistent with paragraph (a)(1) or (a)(2) of this section, as applicable; and

(ii) Notify the applicant in writing of the level of uncompensated services which has been established for the applicant for the fiscal year.

(5) Within 7 days of its receipt of notification by the Secretary under paragraph (b)(4)(ii) of this section the applicant shall publish in a newspaper of general circulation in the area it serves a notice of the level established by the Secretary for the facility for the fiscal year, and simultaneously provide a copy of the notice to the HSA for the area.

(6) From the beginning of the fiscal year for which the lower level is requested until the applicant receives notification from the Secretary under paragraph (b)(4)(ii) of this section, the applicant must provide uncompensated services at the compliance level required by § 124.503 or § 124.511.

(c) The authority to make determinations under this section will be delegated to the Administrator of the Health Resources Administration, and will not be further delegated without the approval of the Secretary.

§ 124.505 Notice of availability of uncompensated services.

(a) *Published notice.* (1) An applicant shall, no later than 60 days before the beginning of its fiscal year, publish in a newspaper of general circulation in the area it serves notice of the amount of uncompensated services which it will make available in the fiscal year, and the plan of allocation it proposes to adopt under either § 124.507(b) or § 124.507(c). It shall simultaneously provide a copy of such notice to the HSA for the area, which may hold a public hearing, comment to the applicant on the extent to which the plan will or will not meet community needs, or take any other action it considers appropriate. An applicant may revise the plan published under this paragraph based on comments received from the HSA or the public, and shall publish the plan as adopted, and simultaneously send a copy to the HSA for the area, at the beginning of the fiscal year.

(2) Where an applicant has applied for a level less than the annual compliance level for a fiscal year under § 124.504 it may include the information required by that section in the notice required by this paragraph.

(b) *Posted notice.* (1) The applicant shall post a notice in accordance with the following requirements:

(i) The notice shall be posted in appropriate areas of the facility (e.g., admissions office, business office, emergency department).

(ii) The notice shall be multilingual where the applicant serves a multilingual community. For purposes of this section, a community is multilingual if the "usual language of households" of 5 percent or more of its population, according to the most recent figures published by the Bureau of the Census, is other than English.

(iii) The notice must be printed and posted so that the heading is legible to a person with normal vision from a distance of 15 feet.

(iv) The notice shall contain substantially the following language:

FREE OR BELOW CHARGE CARE AVAILABLE

This (hospital, clinic, etc.) is required by law to give a reasonable amount of care at no charge or at less than full charge, to people who cannot afford to pay. If you feel you are not able to pay for all or part of the care you need, please contact (fill in office or person, and location) and ask for free or below charge care.

If you are not satisfied with the decision that is made in your case, you may complain to (fill in the name, title, and address of the Regional Health Administrator of the Department of Health, Education, and Welfare). If you decide to complain, your complaint must state your name and address (or the name and address of the person for whom you are writing), the name and address of the facility, the date on which the event you are complaining about occurred, and describe as precisely as you can why you think the facility's action or actions violate the law. You may be asked for further information by a representative of the Department of Health, Education, and Welfare. If you do not understand this complaint procedure, you may call the Department on the toll free number 800-638-0742 (Maryland residents: 800-492-0359).

(2) The applicant must, at its option, either—

(i) Add to the notice required by subparagraph (1) of this paragraph language stating that the facility's obligation is limited to a specified dollar volume of uncompensated services and that if the facility has, during a specified period (e.g., year, quarter, month), already provided a volume of uncompensated services sufficient to satisfy its obligation for the period, any person inquiring about such services will be given a written statement to that effect, which shall also state when additional uncompensated services will be available; or

(ii) When appropriate, post an additional notice stating that the facility's obligation has been satisfied for the current period and stating when addi-

tional uncompensated services will be available.

(c) *Individual notice.* (1) The applicant shall, in accordance with subparagraph (2) of this paragraph, provide

(b) In calculating annual income the applicant may use either of the following methods, as long as it uses the same method for all determinations

the date on which the determination was made, the income of the person unable to pay as determined in accordance with § 124.506, and the date on

for good cause shown, an applicant shall submit to the Secretary—

(1) A reporting form, prescribed by the Secretary, which will include the

comply with the requirements of this subpart.[1]

§ 124.511 Investigation and enforcement.

(2) If the Secretary finds, based on his investigation under paragraph (a) of this section, that an applicant did not in any fiscal year after (the effec-

V 4 3 / 2 0 7

tional uncompensated services will be available.

(c) *Individual notice.* (1) The applicant shall, in accordance with subparagraph (2) of this paragraph, provide individual written notice of the availability of uncompensated services to each person who seeks services in the facility on behalf of himself or another. The notice must:

(i) Contain the information required by paragraph (b) of this section;

(ii) Set forth the criteria applied by the applicant for determining eligibility for uncompensated services (in accordance with the income criteria of § 124.506) and receipt of such services (in accordance with the allocation plan adopted under § 124.507);

(iii) State that the applicant will make on request a written determination of whether the person will receive uncompensated services and will promptly inform the person of the determination made.

(2) The individual written notice described in subparagraph (1) of this paragraph must be provided prior to the provision of services in all cases except where the emergency nature of the services provided makes such prior notice impracticable. If this exception applies, the written notice must be provided to next of kin or to the patient as soon as practicable, and in no event later than the first rendition of a bill for the services.

§ 124.506 Eligibility criteria for identifying persons unable to pay.

(a) For the purposes of this subpart, a person unable to pay for health services is a person who falls into either of the following categories:

(1) *Category A*—Persons whose individual or family incomes, as applicable, for the 12 months preceding the determination of eligibility are not more than the current poverty income guideline of the Community Services Administration (as set forth in 45 CFR 1060.2-1 et seq.) applicable to such individual or family. The applicant shall provide uncompensated services to those persons without charge.

(2) *Category B*—Persons whose individual or family incomes, as applicable, for the 12 months preceding the determination of eligibility are greater than the current poverty income guideline of the Community Services Administration (as set forth in 45 CFR 1060.2-1 et seq.) applicable to such individual or family but not more than twice such guideline. Services to such persons must be provided, at the option of the applicant, either without charge or in accordance with a schedule of charges for services reduced from the allowable credit for such services in proportion to the relative income of the persons in Category B.

(b) In calculating annual income the applicant may use either of the following methods, as long as it uses the same method for all determinations made throughout the entire fiscal year:

(1) Multiple by four the person's income for the 3 months preceding the determination of eligibility; or

(2) Use the person's actual income for the 12 months preceding the determination of eligibility.

§ 124.50 Allocation of services.

(a) An applicant must provide its uncompensated services in accordance with a plan which sets out a method by which the facility will distribute its uncompensated services amongst persons unable to pay. The plan specified in paragraph (b) of this section must be used, whether or not published as required by § 124.505, unless the applicant adopts a plan under paragraph (c) of this section and publishes that plan in accordance with § 124.505.

(b) Unless a plan is adopted under paragraph (c) of this section, an applicant shall divide the amount of its annual uncompensated service obligation under this subpart into four approximately equal quarterly allocations and provide all services of the facility to the eligible persons who first request such services, beginning with the first day of each quarter and continuing until the allocation for the quarter is exhausted.

(c) An applicant may adopt and use a plan for allocation of its uncompensated services other than that described in paragraph (b) of this section only if the plan provides—

(1) There will be some distribution of uncompensated services throughout the applicant's fiscal year (i.e., that not all uncompensated services will be provided in the first 6 months of the year);

(2) There will be some services provided without charge to individuals in income category A (§ 124.505(a)); and

(3) All persons coming within the plan will be provided uncompensated services until the applicant's obligation for the period has been satisfied.

§ 124.508 Determinations of eligibility.

(a) *Eligibility determination requirement.* (1) In determining the amount of uncompensated services provided by an applicant, there shall be included only those services provided to an individual with respect to whom the applicant has made a written determination of eligibility. A determination of eligibility will be considered to be a written determination within the meaning of this section only if it states that uncompensated services at no charge or at a specified charge less than the allowable credit for the services will be furnished the patient, and specifies the date on which the determination was made, the income of the person unable to pay as determined in accordance with § 124.506, and the date on which such services were or will be first provided to the patient.

(2) The determination of eligibility shall be made promptly on request and the determination, or a copy of it, shall be furnished to the patient promptly. The determination, or a copy of it, shall be retained by the applicant for 5 years.

(b) *Reasons for denial.* The applicant must provide each person who requests uncompensated services and is denied them, in whole or in part, a written statement of the reasons for such denial when the determination of ineligibility is made.

(c) *Verification.* The applicant may, as a condition to providing uncompensated services to any individual, require any information necessary to substantiate the individual's eligibility for such services, consistent with other applicable legal requirements.

§ 124.509 Exclusions from uncompensated services.

The following shall be excluded from the computation of uncompensated services provided by an applicant:

(a) Any amount which the applicant has received, or is entitled to receive, from a thrid party insurer or under a governmental program, except that if the person to whom the services were provided refused to take any reasonable action necessary to perfect his entitlement to those benefits, the facility may at its option count the services provided as uncompensated services.

(b) Any amount in excess of the payment which the applicant has received, or is entitled to receive, from a third party insurer or under a governmental program (e.g. medicare or medicaid) where the applicant has agreed or is otherwise required to accept such payment as payment in full for the services rendered;

(c) Any amount attributable to services provided 96 hours or more following notification of the applicant by a professional standards review organization that such services have been disapproved under section 1155(a)(1) of the Social Security Act (42 U.S.C. 1320c-4); and

(d) Any amounts for which reimbursement would be available under a governmental program (e.g. medicare or medicaid) in which the applicant, although eligible to do so, and required by § 124.603(b)(1)(ii) to do so, does not participate.

§ 124.510 Reporting requirements.

(a) Not later than 60 days after the close of its fiscal year, unless a longer period is approved by the Secretary for good cause shown, an applicant shall submit to the Secretary—

(1) A reporting form, prescribed by the Secretary, which will include the following information:

(i) The facility's budget for its current fiscal year, including the amount of uncompensated services which the applicant proposes to provide in the fiscal year;

(ii) The facility's operating expenses, total patient revenue, the amount claimed for reimbursement under Titles XVIII and XIX of the Social Security Act, and the amount of uncompensated services provided in the preceding fiscal year, based on an audited financial statement for that year, and the compliance option selected and the amount of uncompensated services required to have been provided in the preceding fiscal year under § 124.503, § 124.504 or § 124.511;

(iii) The date on which the notice required by § 124.505(a) was published and sent to the HSA for the area, and the name of the newspaper which printed the notice;

(iv) If the amount of uncompensated services provided by the applicant in the preceding fiscal year was lower than the level required for the applicant under, as applicable, § 124.503, § 124.504 or § 124.511, an explanation of why the required level of compliance was not met and an affirmative action plan for meeting the level of compliance for the current fiscal year required under § 124.503, § 124.504, or § 124.511, as applicable. The affirmative action plan shall provide for notice and outreach to encourage utilization of the uncompensated services, and shall provide for modifications, if appropriate, in the allocation plan; and

(v) Other information which may be prescribed by the Secretary.

(2) Such other information relating to its compliance with the requirements of this subpart as the Secretary may request in writing.

(b) The budget, audited financial statement, published notice, and any other documents from which the information required to be reported under paragraph (a) of this section was obtained, shall be made available to the public for inspection and retained by the applicant for 5 years. The applicant shall promptly provide such documents to the Secretary upon request.

(c) Not later than 10 days after service on it of a summons and/or complaint, the applicant shall notify the Regional Health Administrator for the Region of the Department of Health, Education, and Welfare in which it is located of any legal action brought against it alleging that it has failed to comply with the requirements of this subpart.[1]

§ 124.511 Investigation and enforcement.

(a) *Investigations.* (1) The Secretary will:

(i) Periodically investigate the compliance of applicants with the requirements of this subpart pursuant to the authority of section 1612(c) of the Act. Such investigations include, but are not limited to, investigations done in response to information received pursuant to § 124.510(a) which indicates that the applicant failed to meet the level of compliance applicable to it in the preceding fiscal year or otherwise with the requirements of this subpart.

(ii) Investigate the compliance of applicants with the requirements of this subpart in response to complaints properly submitted under section 1612(c) of the Act. A complaint will be considered to have been filed with the Secretary on the date on which the following information is received in the Office of the Regional Health Administrator for the Region of the Department of Health, Education, and Welfare in which the facility is located:

(A) The name and address of the person making the complaint or on whose behalf the complaint is made;

(B) The name and address of the facility;

(C) The date on which the event complained of occurred, and

(D) A statement of why the complainant considers the applicant's action or actions violate the requirements of this subpart.

(2) When the Secretary investigates an applicant under subparagraph (1) of this paragraph, the applicant shall make available to the Secretary any documents, records and other information concerning the facility's operations as they relate to the requirements of this subpart which he requests.

(3) Section 1612(c) of the Act provides that if the Secretary dismisses a complaint or the Attorney General has not brought an action for compliance within 6 months from the date on which the complaint is filed, the person filing it may bring a private action to effectuate compliance with the assurance.

(b) *Enforcement.* (1) If the Secretary finds, based on his investigation under paragraph (a) of this section, that an applicant did not comply with the requirements of this subpart he may take any action authorized by law, including but not limited to voluntary agreement or a request to the Attorney General to bring an action against the applicant for specific performance, to secure such compliance.

[1] The addresses of the Regional Offices of the Department of Health, Education, and Welfare are set out at 45 CFR 5.31.

(2) If the Secretary finds, based on his investigation under paragraph (a) of this section, that an applicant did not in any fiscal year after (the effective date of these regulations) meet the level of compliance required of it under this subpart, he—

(i) Will set a level of compliance for the applicant for the current fiscal year which shall be equal to the level applicable under § 124.503 plus the amount by which he finds that the applicant failed to meet the level of compliance applicable to it in such prior fiscal year, or he will add such amount to the level of compliance to be set for the next fiscal year, as he determines to be appropriate; and

(ii) Shall promptly notify the applicant in writing of such higher level. The applicant shall promptly publish in a newspaper of general circulation in the area served by it notice of the level established under this paragraph and shall promptly provide a copy of that notice to the HSA for the area.

(3) An applicant that receives a notice of a higher level of compliance under this paragraph may, within 20 days of receipt of such notice, request that the period within which the deficit must be made up, be extended, or, if subject to § 124.501(b)(1), that it be given a longer period than there provided to make up the deficit in services. If the request for an extension is approved by the Secretary, he may establish such deficit makeup period as he determines to be appropriate. If necessary, the period of applicability of this subpart shall be extended accordingly.

§ 124.512 Agreements with State agencies.

(a) Where the Secretary finds that it will promote the purposes of this subpart, he may enter into an agreement with a State agency able and willing to do so under which the State agency will assist him in the administration of this subpart in the State. The agreement shall provide that the State agency will provide the Secretary with such assistance as he may request in any one or more of the following areas, as set out in the agreement:

(1) Investigation of complaints submitted under section 1612(c) of the Act;

(2) Monitoring under section 1612(c) of the Act of the compliance of facilities within the State with the requirements of this subpart;

(3) Review of requests submitted by applicants within the State under § 124.504;

(4) Review of reports submitted under § 124.510

(b) A State agency may use funds received under section 1525 of the Act to pay for expenses incurred in the course of carrying out an agreement

0 C 2 5 7 8

V 4 3 / 2 0 7 0 C 2 5 7 8

entered into under paragraph (a) of this section.

2. A new Subpart G is added to 42 Code of Federal Regulations, Part 124, to read as follows:

Subpart G—Community Service

Sec.
124.601 Applicability.
124.602 Definitions.
124.603 Provision of services.
124.604 Reporting requirements.
124.605 Investigation and enforcement.
124.606 Agreements with State agencies.

AUTHORITY: Secs. 215, 1525, 1602(6), Public Health Service Act as amended; 58 Stat. 690, 88 Stat. 2249, 88 Stat. 2259; 42 U.S.C. 216, 300m-4, 300o-1(6).

Subpart G—Community Service

§ 124.601 Applicability.

The provisions of this subpart apply to every applicant who has given an assurance that it will make the facility or portion thereof assisted under Title VI of the Public Health Service Act (42 U.S.C. 291 et seq.); or Title XVI of the Public Health Service Act (42 U.S.C. 300o et seq.) available to all persons residing (or employed, for Title XVI assisted applicants) in the territorial area it serves. This assurance is referred to herein as the "community service assurance."

§ 124.602 Definitions.

As used in this subpart, the following terms have the following meanings:

"Act" means the Public Health Service Act, as amended.

"Applicant" means an applicant for and recipient of a grant, a direct loan or a loan guarantee under Title VI or Title XVI of the Act.

"Community service" means the provision of health care services by a facility in accordance with the requirements of this subpart.

"Complaint" means a written statement submitted to the Secretary in the form and manner and containing the information prescribed under § 124.605(a)(1)(ii).

"Fiscal year" means the applicant's fiscal year.

"Secretary" means the Secretary of Health, Education, and Welfare or any officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

"State Agency" means the agency of a State designated by the Secretary as the State health planning and development agency of the State under section 1521 of the Act.

§ 124.603 Provision of services.

In order to comply with its assurance that it would provide a community service, an applicant must:

(a) Make the services provided in the facility or portion thereof constructed, modernized, or converted with Federal assistance under Title VI or XVI of the Act available to all persons residing (and, in the case of applicants under Title XVI of the Act, employed) in the area served by the facility without discrimination on the ground of race, color, national origin, creed, or any other ground unrelated to an individual's need for the service or the availability of the needed service in the facility, except that an applicant may deny services to persons who are unable to pay for them after its uncompensated services obligation for the appropriate period has been satisfied. An applicant will be considered to be out of compliance with this requirement if it adopts an admissions policy which has the effect of excluding persons on a ground other than those permitted under the preceding sentence.

(b)(1) Make arrangements, if eligible to do so, for reimbursement for services with:

(i) Those principal State and local governmental third-party payors which provide reimbursement for services that is not less than the actual cost of such services as determined in accordance with accepted cost accounting principles; and

(ii) Federal governmental third-party programs, such as medicare and medicaid; and

(2) Take such additional steps as may be necessary to insure that admission to and services of the facility will be available to beneficiaries of the governmental programs specified in subparagraph (1) of this paragraph without discrimination or preference on account of their being such beneficiaries.

§ 124.604 Reporting requirements.

(a) Not later than 60 days after the close of its fiscal year, unless a longer period is approved by the Secretary for good cause shown, an applicant shall submit to the Secretary—

(1) A reporting form, prescribed by the Secretary, which will include the following information;

(i) The amount of reimbursement claimed by the applicant in the fiscal year pursuant to each arrangement it has with a third-party payor described in § 124.603(b)(1) as indicated on the applicant's audited financial statement for the preceding fiscal year; and

(ii) Other information which may be prescribed by the Secretary.

(2) Such other information relating to its compliance with the requirements of this subpart as the Secretary may request in writing.

(b) The audited financial statement, an any other documents from which the information required to be reported under paragraph (a) of this section was obtained shall be made available to the public for inspection and retained by the applicant for 5 years. The applicant shall provide such documents to the Secretary upon request.

(c) Not later than 10 days after service on it of a summons and/or complaint, the applicant shall notify the regional health administrator for the region of the Department of Health, Education, and Welfare in which it is located of any legal action brought against it to compel it to comply with the requirements of this subpart.[1]

§ 124.605 Investigation and enforcement.

(a) *Investigations.* (1) The Secretary will:

(i) Periodically investigate the compliance of applicants with the requirements of this subpart pursuant to the authority of section 1612(c) of the Act. Such investigations include, but are not limited to, investigations done in response to information received pursuant to § 124.604(a) which indicates that the applicant failed to comply with the requirements of this subpart in the preceding fiscal year.

(ii) Investigate the compliance of applicants with the requirements of this subpart in response to complaints properly submitted under section 1612(c) of the Act. A complaint shall include the information required by § 124.511(a)(1)(iii) and will be deemed to have been filed with the Secretary on the date on which that information is received in the office of the regional health administrator for the region of the Department of Health, Education, and Welfare in which the facility is located.

(2) When the Secretary investigates an applicant under subparagraph (1) of this paragraph, the applicant shall make available to the Secretary any documents, records, or other information concerning the facility's operations as they relate to the requirements of this subpart as he may request.

(3) Section 1612(c) of the Act provides that if the Secretary dismisses a complaint or the Attorney General has not brought an action for compliance within 6 months from the date on which the complaint is filed, the person filing it may bring a private action to effectuate compliance with the assurance.

(b) *Enforcement.* If the Secretary finds, based on his investigation under paragraph (a) of this section, that an applicant has limited the availability of its services in a manner proscribed by this subpart, he may, in addition to any other action which he is authorized to take in accordance with section 1612(c) of the act, establish an affirmative action plan for the facility which

[1] The addresses of the regional officers of the Department of Health, Education, and Welfare are set out at 45 CFR 5.31.

in his judgment is designed to insure that its services are made available in accordance with the requirements of this subpart.

§ 124.606 Agreements with State agencies.

(a) Where the Secretary finds that it will promote the purposes of this subpart, he may enter into an agreement with a State agency able and willing to do so under which the State agency will assist him in the administration of this subpart in the State. The agreement shall provide that the State agency will provide the Secretary with such assistance as he may request in any one or more of the following areas, as set out in the agreement:

(1) Investigation of complaints submitted under section 1612(c) of the Act;

(2) Monitoring under section 1612(c) of the Act of the compliance of facilities within the State with the requirements of this subpart;

(3) Review of reports submitted under § 124.604.

(b) A State agency may use funds received under section 1525 of the Act to pay for expenses incurred in the course of carrying out an agreement entered into under paragraph (a) of this section.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/COAST GUARD	USDA/ASCS		DOT/COAST GUARD	USDA/ASCS
DOT/NHTSA	USDA/APHIS		DOT/NHTSA	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/OHMO	USDA/FSQS		DOT/OHMO	USDA/FSQS
DOT/OPSO	USDA/REA		DOT/OPSO	USDA/REA
CSA	CSC		CSA	CSC
	LABOR			LABOR
	HEW/FDA			HEW/FDA

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408

NOTE: As of August 14, 1978, Community Services Administration (CSA) documents are being assigned to the Monday/Thursday schedule.

federal register
Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

[3410-02-M]

Title 7—Agriculture

CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK), DEPARTMENT OF AGRICULTURE

[Milk Order No. 1; Docket No. AO-14-A57]

PART 1001—MILK IN THE NEW ENGLAND MARKETING AREA

Order Amending Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This action amends the order based on industry proposals considered at a public hearing held February 14-16, 1978. More than the required two-thirds of dairy farmers affected approved the order as amended.

The amended order changes milk prices throughout the production area to more closely relate the location value of milk to the costs incurred in transporting milk from farms and country plants to bottling plants in the major consuming centers of the market. The amended order reflects current marketing conditions and will insure orderly marketing in the area.

EFFECTIVE DATE: December 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Clayton H. Plumb, Marketing Specialist, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-6273.

SUPPLEMENTARY INFORMATION: Prior documents in this proceeding:

Notice of Hearing, issued January 18, 1978, published January 23, 1978 (43 FR 3127).

Recommended decision, issued July 14, 1978, published July 20, 1978 (43 FR 31146).

Notice of extension of time for filing exceptions to the recommended decision, issued August 4, 1978, published August 10, 1978 (43 FR 35490).

Final decision, issued September 27, 1978, published October 2, 1978 (43 FR 45520).

FINDINGS AND DETERMINATIONS

The following findings and determinations are made for the order in this proceeding. They supplement those that were made when the order was first issued and when it was amended. The previous findings and determinations are hereby ratified and affirmed, except where they may conflict with those set forth below.

(a) *Findings upon the basis of the hearing record.* A public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the New England marketing area. The hearing was held according to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure (7 CFR Part 900).

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in Sec. 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

ORDER RELATIVE TO HANDLING

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the New England marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

1. Section 1001.43(c) is revised to read as follows:

§ 1001.43 Assignment of receipts to classes in general.

* * * * * *

(c) If receipts from more than one plant are to be assigned under a paragraph in § 1001.45 or § 1001.47, the receipts shall be assigned in sequence according to the zone locations of the plants, beginning with the plant in the lowest numbered zone for assignments to Class I milk and beginning with the plant in the highest numbered zone for assignments to Class II milk.

§ 1001.46 [Amended]

2. In § 1001.46(c), the words "zone nearest to Boston" are changed to read "lowest numbered zone".

§ 1001.47 [Amended]

3. In § 1001.47(a), the words "pool plants located outside the nearby plant zone" are changed to read "other pool plants".

§ 1001.50 [Amended]

4. In § 1001.50(a), the number "$2.58" is changed to "$2.42".

5. Section 1001.52 is revised to read as follows:

V 43 / 208 OCT 26 1978

§ 1001.52 Plant location adjustments.

The Class I and blended prices computed under §§ 1001.50 and 1001.61 shall be subject to plant location adjustments based upon the zone locations of plants. The zone location of any plant and the location adjustments applicable to each zone location shall be determined as specified in this section.

(a) Each plant that is located in the State of Rhode Island, the Massachusetts counties of Barnstable, Bristol, Dukes, Norfolk, Plymouth or Suffolk, or between Boston and Massachusetts highway route number 128 shall be in Zone 1.

(b) Each plant that is located in the Connecticut counties of Fairfield, Hartford, Litchfield, Middlesex (only the townships of Cromwell, Durham, Haddam, Middlefield, Middletown, or Portland), New Haven, or Tolland (only the townships of Ellington or Somers) shall be in Zone 7.

(c) Each plant that is located in the Massachusetts counties of Hampden (except the townships of Brimfield, Holland, Monson, Palmer, or Wales) or Hampshire (except the township of Ware) shall be in Zone 8.

(d) The zone location of each plant in the States of Connecticut or Massachusetts (except Berkshire County) that is outside the areas specified in paragraphs (a), (b) or (c) of this section shall be based upon its highway mileage distance to the nearer of Boston, Mass., or Providence, R.I. The distance for each plant shall be the mileage between the applicable basing point and the named point nearest to the plant, measured to the greatest extent possible over roads designated as principal roads, on the road maps specified in paragraph (e) of this section.

(e) The zone location of each plant that is outside the areas specified in paragraphs (a) through (d) of this section shall be based upon its highway mileage distance to Boston, Mass., as determined by use of Mileage Guide No. 11, and supplements to and revisions thereof, issued by Household Goods Carriers' Bureau, Agent, Arlington, Va. The mileages used shall be those shown between designated key points in the mileage charts, and between named points on the appropriate State road maps, as published in the mileage guide. In any instance in which the map does not clearly show the mileage between points on a road, the mileage used shall be the mileage as determined by the highway authority for the State in which the road is located. The distance for each plant shall be the mileage between Boston and the named point nearest to the plant, as shown in the mileage charts. If that named point is not listed in the mileage charts, the distance for the plant shall be the lowest mileage distance between Boston and that named point, computed as follows:

(1) Determine from the charts the mileage between Boston and each of the three key points nearest to the named point which are nearer to Boston than the named point; and

(2) For each of these key points, add to the result in paragraph (e)(1) of this section the mileage between the key point and the named point, measured to the greatest extent possible over roads designated as principal roads.

(f) Notwithstanding the provisions of paragraph (e) of this section, for any named point located in Maine, New Hampshire, Vermont, New York, or Berkshire County, Mass., determine the highway mileage distance between Boston and the named point by use of the appropriate State maps contained in Mileage Guide No. 7, issued by Household Goods Carriers' Bureau, Agent, Arlington, Va. Such distance shall be the lowest highway mileage between Boston and the named point on the map, over roads designated thereon as paved, all-weather roads. In the event that the named point is not located on a through, paved, all-weather road, such other roads shall be used to reach a through, paved, all-weather road as will result in the lowest highway mileage to Boston, except that such other roads shall not be used for a distance of more that 15 miles if it is otherwise possible to connect with a through, paved, all-weather road. In any instance in which the map does not clearly show the mileage between points on a road, the mileage used shall be the mileage as determined by the highway authority for the State in which the road is located. The mileage so determined, or the mileage determined under paragraph (e) of this section, whichever is less, shall be considered to be the lowest highway mileage distance between Boston and the named point.

(g) The location adjustments for each plant shall be the amounts shown in the following table for the zone in which the plant is located:

LOCATION ADJUSTMENTS FOR DETERMINATION OF ZONE PRICE

Distance to basing point (miles)	Plant location zone	Class I and blended price adjustments (cents per hundredweight)
1 to 10	1	+50.0
11 to 20	2	+48.2
21 to 30	3	+46.4
31 to 40	4	+44.6
41 to 50	5	+42.8
51 to 60	6	+41.0
61 to 70	7	+39.2
71 to 80	8	+37.4
81 to 90	9	+35.6
91 to 100	10	+33.8
101 to 110	11	+32.0
111 to 120	12	+30.2
121 to 130	13	+28.4
131 to 140	14	+26.6
141 to 150	15	+10.8
151 to 160	16	+9.0
161 to 170	17	+7.2
171 to 180	18	+5.4
181 to 190	19	+3.6
191 to 200	20	+1.8
201 to 210	21	+0.0
211 to 220	22	−1.5
221 to 230	23	−3.0
231 to 240	24	−4.5
241 to 250	25	−6.0
251 to 260	26	−7.5
261 to 270	27	−9.0
271 to 280	28	−10.5
281 to 290	29	−12.0
291 to 300	30	−13.5
301 to 310	31	−15.0
311 to 320	32	−16.5
321 to 330	33	−18.0
331 to 340	34	−19.5
341 to 350	35	−21.0
351 to 360	36	−22.5
361 to 370	37	−24.0
371 to 380	38	−25.5
381 to 390	39	−27.0
391 to 400	40	−28.5
401 and over	[1]41	(1)

(1) Class I and blended price location adjustments applicable to plants located in subsequent zones shall be obtained by extending the table at the rate of 1.5 cents for each additional 10 miles except that in no event shall the Class I or blended price at any zone be less than the Class II price for the month.
[1]Includes 41 and over.

§ 1001.53 [Amended]

6. In § 1001.53(g), the words "zone nearest to Boston" are changed to read "lowest numbered zone".

§ 1001.73 [Amended]

7. In § 1001.73(d), the words "to a plant at which a lower blended price would apply under this order" are deleted.

(Secs. 1-19, 48 Stat. 31, as amended (7 U.S.C. 601-674).)

Effective date: December 1, 1978.

Signed at Washington, D.C., on October 20, 1978.

P. R. "BOBBY" SMITH,
Assistant Secretary for Marketing Services.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. Z; Docket No. R-0175]

PART 226—TRUTH IN LENDING ACT

Massachusetts Exemption

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final rule.

SUMMARY: The Board exempts Federally-chartered credit unions having their main office, or office of charter, in Massachusetts, from some of the disclosure requirements of the Truth in Lending Act and Regulation Z. This exemption is based on an agreement between the Massachusetts Commissioner of Banks and the National Credit Union Administration.

EFFECTIVE DATE: November 20, 1978.

FOR FURTHER INFORMATION CONTACT:

Robert C. Plows, Section Chief, Regulations Section, Division of Consumer Affairs, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, 202-452-3667.

SUPPLEMENTARY INFORMATION: (1) The Board has approved the application of the Commissioner of Banks for the Commonwealth of Massachusetts for an extension of Massachusetts' current exemption from the disclosure requirements of Chapter 2 of the Truth in Lending Act (15 U.S.C. 1601, 1631-1639) as implemented by Regulation Z (12 CFR Part 226). The application was filed pursuant to section 123 of the Federal act (15 U.S.C. 1633) and § 226.12 and Supplement II to Regulation Z (12 CFR 226.12).

(2) The Board's action has the effect of extending to Federally-chartered credit unions having their main office, or office of charter, in the Commonwealth the terms of Massachusetts' current exemption, as set forth in Supplement III to Regulation Z. This action is based on an agreement between the Massachusetts Commissioner of Banks and the National Credit Union Administration. Aside from the addition of Federally-chartered credit unions having their main office, or office of charter, in Massachusetts, this action does not alter or expand Massachusetts' current exemption as set forth in Supplement III.

(3) Notice of the Commissioner's application, affording an opportunity for interested parties to comment, was published in the FEDERAL REGISTER on August 14, 1978 (43 FR 36002). Having reviewed the proposed rule and the comments that were received, the Board has determined, pursuant to section 123 of the act and § 226.12 of Regulation Z, to grant the application. Accordingly, section (d) of Supplement III of Regulation Z is amended to read:

. . . . . .

(d) *Massachusetts:* Except as provided in § 226.12(c) and except for those transactions in which a Federally-chartered institution—other than a Federally-chartered credit union having its main office, or office of charter, within Massachusetts—is a creditor, the following classes of credit transactions within the Commonwealth of Massachusetts are hereby granted an exemption from the requirements of Chapter 2 of the Truth in Lending Act:

. . . . . .

By order of the Board of Governors, October 18, 1978.

THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc. 78-30264 Filed 10-25-78; 8:45 am]

[6210-01-M]

[Docket No. R-0184]

PART 262—RULES OF PROCEDURE

PART 265—RULES REGARDING DELEGATION OF AUTHORITY

Reconsideration of Certain Board Actions

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final rule.

SUMMARY: In order to expedite and facilitate performance of certain of its functions, the Board of Governors has instituted a procedure by which requests for reconsideration of Board action on certain applications will receive prompt attention, and has delegated to its General Counsel the authority to determine whether or not reconsideration should be granted.

EFFECTIVE DATE: October 19, 1978.

FOR FURTHER INFORMATION CONTACT:

Robert E. Mannion, Associate General Counsel, 202-452-3274 or Bronwen M. Mason, Senior Attorney, 202-452-3564, Legal Division, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

SUPPLEMENTARY INFORMATION: The Board has the authority under several statutes and regulations promulgated thereunder to require that companies make applications for the Board's prior approval of certain transactions involving banking organizations. The Board's rules of procedure presently provide that upon request the Board may reconsider its actions on applications under sections 3 and 4 of the Bank Holding Company Act and the Bank Merger Act, but do not specify a time period within which such a request is to be submitted or within which the Board will normally act on requests for reconsideration. In order to establish procedures to be followed by parties seeking reconsideration of Board action on applications the Board considers, and in order to insure that such requests for reconsideration are given prompt attention, the Board has, by the instant amendment, instituted procedures governing requests for reconsideration of Board actions with respect to certain applications.

The provisions of 5 U.S.C. 553 relating to notice and public participation and deferred effective date are not followed in connection with the adoption of these amendments because the rules involved herein are procedural in nature and do not constitute a substantive rule subject to the requirements of such section. The amendment is effective immediately.

In order to institute these procedures, 12 CFR Part 262 is amended by adding new § 262.3(i) by redesignating the subsequent sections accordingly and by withdrawing § 262.3(g)(5). The new § 262.3(i) is to read as follow:

§262.3 Applications.

. . . . . .

(i) *Reconsideration of certain Board actions.* The Board may reconsider any action taken by it on an application upon receipt by the Secretary of the Board of a written request for reconsideration from any party to such application, on or before the 15th day after the effective date of the Board's action. Such request should specify the reasons why the Board should reconsider its action, and present relevant facts that for good cause shown, were not previously presented to the Board. Within 10 days of receipt of such a request, the General Counsel, acting pursuant to delegated authority (12 CFR 265.2(b)(7)), shall determine whether or not the request for reconsideration should be granted, and shall notify all parties to the application orally by telephone of this determination within 10 days. Such notification will be confirmed promptly in writing. In the exercise of this authority, the General Counsel shall confer with the Directors of other interested Divisions of the Board or their designees. Notwithstanding the foregoing, the Board may, on its own motion if it deems reconsideration appropriate, elect to re-

consider its action with respect to any application, and the parties to such application shall be notified by the Secretary of the Board of its election

of Governors of the Federal Reserve System, Washington, D.C. 20551.

SUPPLEMENTARY INFORMATION:

tion that requests a hearing must include a statement of why a written presentation would not suffice in lieu

the 7th line, after the word "certificated", insert the word "ground".

(4) On page 46800, in the middle

800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION

tor, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by amending Amendment

V 43 208 OCT 26 78

consider its action with respect to any application, and the parties to such application shall be notified by the Secretary of the Board of its election as provided above. If it is determined that the Board should reconsider its action with respect to an application, such action will be stayed and will not be final until the Board has acted on the application upon reconsideration. If appropriate, notice of reconsideration of an application will be published promptly in the FEDERAL REGISTER.

In addition, in order to accomplish the delegation provided for above, 12 CFR Part 265 is amended by adding § 265.2(b) (7) to read as follows:

§ 265.2 Specific functions delegated to Board employees and to Federal Reserve Banks.

* * * * * *

(b) The General Counsel of the Board (or in the General Counsel's absence, the Acting General Counsel) is authorized:

* * * * * *

(7) pursuant to § 262.3 (h) of this chapter (Rules of Procedure) to determine whether or not to grant a request for reconsideration of any action taken by the Board with respect to an application as provided in that part.

Board of Governors of the Federal Reserve System, October 19, 1978.

THEODORE E. ALLISON,
Secretary of the Board.

[6210-01-M]

[Docket No. R-0184]

PART 262—RULES OF PROCEDURE

Submission of Comments on Applications and Requests for Hearing

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final rule.

SUMMARY: In order to expedite and facilitate performance of certain of its functions, the Board of Governors has instituted procedures to govern its consideration of comments and requests for hearing on certain applications required by law.

EFFECTIVE DATE: October 19, 1978.

FOR FURTHER INFORMATION CONTACT:

Robert E. Mannion, Associate General Counsel, 202-452-3274 or Bronwen M. Mason, Senior Attorney, 202-452-3564, Legal Division, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

SUPPLEMENTARY INFORMATION: The Board has the authority under several statutes and regulations promulgated thereunder to require that companies make application for the Board's prior approval of certain transactions involving banking organizations. While the public, as well as certain supervisory agencies, have generally been afforded an opportunity to comment on certain applications, such comments have not been handled uniformly in the past, and consideration of untimely comments has often resulted in extraordinary delays in the processing of applications. In order to effectuate an orderly procedure for the processing of applications, and to insure that comments or requests for a hearing with respect to applications are handled in a uniform manner, the Board has, by the instant amendment, instituted procedures governing the consideration of comments and requests for hearing with respect to applications that it considers.

The provisions of 5 U.S.C. 553 relating to notice and public participation and deferred effective date are not followed in connection with the adoption of these amendments because the rules involved herein are procedural in nature and do not constitute a substantive rule subject to the requirements of such section. The amendment is effective immediately.

In order to institute these procedures, 12 CFR Part 262 is amended by adding new § 262.3(d) and redesignating the subsequent sections. The new § 262.3(d) is to read as follows:

§ 262.3 Applications.

* * * * * *

(d) *Submission of comments and requests for hearing.* The Board will consider a comment or request for hearing with respect to an application only if it is in writing and is sent to the Secretary of the Board or the appropriate Federal Reserve Bank on or before the date prescribed in the FEDERAL REGISTER notice with respect to applications filed under sections 3 or 4 of the Bank Holding Company Act or, in the case of other applications, the date specified in the newspaper notice with respect to such applications, or where no such date is prescribed, on or before the 13th day after the date such notice is first published. Similarly, the Board will consider comments on an application from the Attorney General or a banking supervisory authority to which notification of receipt of an application has been given, only if such comment is received by the Secretary of the Board within 30 days of the date of the letter giving such notification. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing. In every case where a timely comment or request for hearing is received as provided herein, a copy of such comment or request shall be forwarded promptly to the applicant for its response. The Board will consider the applicant's response only if it is in writing and sent to the Secretary of the Board on or before the 10th day after the date of the letter by which it is forwarded to the applicant. At the same time it transmits its response to the Board, the applicant should transmit a copy of its response to the person or supervisory authority making such comment or requesting a hearing. Notwithstanding the foregoing, the Board may, in its sole discretion and without notifying the parties, take into consideration the substance of comments with respect to an application, (but not requests for hearing) that are not received within the time periods provided herein.

Board of Governors of the Federal Reserve System, October 19, 1978.

THEODORE E. ALLISON,
Secretary of the Board.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 16097; Amdt. Nos. 121-147, 127-35, and Rev. of Part 135]

REGULATORY REVIEW PROGRAM; AIR TAXI OPERATORS AND COMMERCIAL OPERATORS

Correction

In FR Doc. 78-27489 appearing at page 46742 in the issue for Tuesday, October 10, 1978, make the following corrections:

(1) On page 46744, in the third column, in the paragraph under the heading "FLIGHT AND DUTY TIME REGULATIONS (PROPOSED SUBPART F)", in the 10th line, the notice number "87-3" should read "78-3".

(2) On page 46752, in the middle column, in the second full paragraph, the 18th line should read: "dence of operator cost impacts, the".

(3) On page 46776, in the middle column, in the first full paragraph, in the 7th line, after the word "certificated", insert the word "ground".

(4) On page 46800, in the middle column, in § 135.243(b)(2), in the third line, "1000 hours" should read "100 hours".

(5) On page 46814, in the first column, in § 135.439(a), in the third line, "135.427(1)" should read "§ 135.4271)".

(6) On page 46820, in the third column, above the signature, the incomplete sentence should read: "Issued in Washington, D.C., on September 26, 1978.".

NOTE.—On October 19, 1978 (43 FR 48653), the Office of the Federal Register published a correction which purported to correct a proposed amendment to 14 CFR Parts 1, 21, 23, and 135. The headings to this correction were completely in error. Therefore, the correction at 43 FR 48653 should be disregarded. Item 6 above contains the information which was intended for publication on October 19, 1978.

[Docket No. 76-CE-24-AD; Amendment 39-3324]

PART 39—AIRWORTHINESS DIRECTIVES

Beech Models 58P and 58PA Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule (Revision).

SUMMARY: This amendment revises Airworthiness Directive (AD) 76-17-02, Amendment No. 39-2697, applicable to Beech 58P and 58PA airplanes by referring to a later version of Beechcraft Service Instructions No. 0828-110, entering cutoff serial numbers in the applicablity statement and deleting the requirement for the 100-hour repetitive cabin window inspections for cracks after the window frame reinforcement has been installed. This revision will reduce the present burden on owners/operators of affected airplanes without compromising safety.

EFFECTIVE DATE: October 31, 1978.

ADDRESSES: Beechcraft Service Instructions No. 0828-110, Revision I, applicable to this AD, may be obtained from local Beechcraft Aviation and Aero Centers or Beech Aircraft Corp., Commercial Service Department, 9709 East Central, Wichita, Kans. 67201. A copy of the service instructions cited above is contained in the Rules Docket, Office of the Regional Counsel, Room 1558, 601 East 12th Street, Kansas City, Mo. 64106 and Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

William L. (Bud) Schroeder, Aerospace Engineer, Engineering and Manufacturing Branch, FAA, Central Region, 601 East 12th Street, Kansas City, Mo. 64106, telephone 816-374-3446.

SUPPLEMENTARY INFORMATION: This amendment revises Amendment 39-2697 (41 FR 35059), AD 76-17-02, applicable to Beech Models 58P and 58PA airplanes, which currently requires reinforcement of one cabin window frame, on certain affected airplanes, within 125 hours time-in-service after August 24, 1976, and repetitive inspections of the window, on all 58P and 58PA model airplanes, for cracks each 100 hours time-in-service thereafter. AD 76-17-02 required repetitive inspections of the window after installation of the frame reinforcement because, at the time of issuance of the AD, there was no data available to confirm that the window frame reinforcement would prevent cracking of the window. Some operators have now accumulated 800 hours time-in-service on their airplanes since installation of the window frame reinforcement and no window cracks have been reported. This service history justifies deletion of the mandatory repetitive window inspections from the AD. Beech Aircraft Corp. has now issued Revision I to Beechcraft Service Instructions No. 0828-110 deleting the requirement for repetitive window inspections on all airplanes which have the window frame reinforcement installed.

Based on the foregoing, the FAA has determined that mandatory window inspections are no longer justified when the window frame reinforcement is installed. Therefore, the agency is revising Amendment 39-2697 by referring to Revision I of Beechcraft Service Instructions No. 0828-110, entering cutoff serial numbers in the applicability statement and deleting the requirement for repetitive window inspections after the window frame reinforcement is installed.

Since this amendment is relieving in nature and imposes no additional burden on any person, notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days after the date of publication in the FEDERAL REGISTER.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by amending Amendment 39-2697 (41 FR 35059), AD 76-17-02, as follows:

(1) Delete the existing applicability statement and in its place add the following new applicability statement:

"Beech. Applies to Models 58P and 58PA (Serial No. TJ-2 through TJ-19, TJ-21 through TJ-45, TJ-47 through TJ-54, and TJ-56 through TJ 58) airplanes certificated in all categories."

(2) Delete the first paragraph of Paragraph A and add the following new first paragraph:

"A. On airplanes that do not have the window frame reinforcement installed, as defined in Beechcraft Service Instructions 0823-110, Revision I or later approved revisions, accomplish the following in accordance with said service instructions:"

(3) In Paragraph A.2. delete the words: "and thereafter comply with the inspection and, if necessary, the replacement requirements required by Paragraph B".

(4) Delete "Paragraph B" in its entirety.

(5) Delete "Paragraph C" and in its place add the following new Paragraph B:

"B. On airplanes that are flown unpressurized following discovery of a cracked window during any inspection required by Paragraph A of this Airworthiness Directive:

(1) Fabricate a placard worded as follows "Do Not Pressurize In Flight" and

(2) Install said placard near the cabin pressurization control switch, and

(3) Operate the aircraft in accordance with the placard until the cracked window is replaced."

(6) Delete "Paragraph D" in its entirety.

(7) Reletter "Paragraph E" as "Paragraph C".

This amendment becomes effective October 31, 1978.

(Secs. 313(a), 601 and 603 of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1354(a), 1421 and 1423); Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)); § 11.89 of the Federal Aviation Regulations (14 CFR § 11.89).)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Kansas City, Mo. on October 16, 1978.

C. R. MELUGIN, Jr.,
Director, Central Region.

[4910-13-M]

[Docket No. 78-EA-53; Amdt. 39-3323]

PART 39—AIRWORTHINESS DIRECTIVES

Piper Aircraft

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) applicable to Piper PA-38-112 type airplanes and requires periodic inspection of the clearance for the rudder leading and fin trailing edges with eventual installation of a rudder kit or repair as applicable. This results from insufficient clearance between the rudder and fin. The amendment is necessary because of reports of excessive binding in the rudder controls requiring extensive effort to return the controls to neutral.

EFFECTIVE DATE: October 30, 1978. Compliance is in accordance with the directive.

ADDRESSES: Piper Service Bulletins may be acquired from the manufacturer at Piper Aircraft Corp., 820 East Bald Eagle Street, Lock Haven, Pa. 17745.

FOR FURTHER INFORMATION CONTACT:

C. Kallis, Airframe Section, AEA-212, Engineering and Manufacturing Branch, Federal Building, J.F.K. International Airport, Jamaica, N.Y. 11430; telephone 212-995-2875.

SUPPLEMENTARY INFORMATION: There have been reports of excessive binding in the rudder controls requiring extensive effort to return the controls to neutral. An inspection disclosed the lack of clearance between rudder and fin. Since the deficiency involved an immediate air safety problem, an emergency AD was transmitted under date of May 19, 1978, to all known owners of such airplanes. Since the issuance of the emergency AD, a permanent alteration has been devised and this is required by this AD to be incorporated within 50 hours in service. The air safety aspect still remains and thus notice and public procedure hereon are impractical and good cause exists for making this AD effective in less than 30 days.

ADOPTION OF THE AMENDMENT

Accordingly, and pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended, by issuing a new airworthiness directive, as follows:

Applies to Piper Model Pa-38-112, Serial Nos. 38-78A0001 through 38-78A0400 certificated in all categories.

To prevent possible binding of the rudder or elevator in flight, accomplish the following:

(a) Applies to Model PA-38-112, Serial Nos. 38-78A0001 through 38-78A0215 and 38-78A0217 through 38-78A0226. Before further flight, unless already accomplished, and at intervals thereafter not to exceed 25 hours in service inspect for proper clearance between the rudder leading edge and fin trailing edge and repair in accordance with the "instructions": of Piper Service Bulletin Nos. 607 or 607A dated May 19, 1978, and June 2, 1978, or equivalent.

(b) Applies to Model PA-38-112, Serial Nos. 38-78A0001 through 38-78A0215, and 38-78A0217 through 38-78A0226. Within the next 50 hours in service after the effective date of this AD, unless already accomplished, install Piper Kit 763 872 Rudder Leading Edge Modification or equivalent. The inspections of (a) may be dispensed with upon incorporation of this modification.

(c) Applies to Model PA-38-112 Serial Nos. 38-78A0001 through 38-78A0400. Within the next 50 hours in service after the effective date of this AD, unless already accomplished, inspect and repair the elevator leading edge in accordance with the procedure under "instructions": of Part II of Piper Service Bulletin No. 607A dated June 2, 1978, or equivalent.

(d) Equivalent inspections, repairs and modifications must be approved by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region.

(e) The affected airplanes may be flown in accordance with FAR 21.197 to a location where the AD compliance procedures can be accomplished.

(f) Upon submission of substantiating data through an FAA Maintenance Inspector, the compliance times specified in this AD may be adjusted by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region.

Effective Date: This amendment is effective October 30, 1978.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended, 49 U.S.C. 1354(a), 1421, and 1423; Sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c); and 14 CFR 11.89.)

Issued in Jamaica, N.Y., on October 16, 1978.

WILLIAM E. MORGAN,
Director, Eastern Region.

[4910-13-M]

[Docket No. 78-NE-15; Amdt. 39-3322]

PART 39—AIRWORTHINESS DIRECTIVES

Sikorsky Models S-58BT, S-58DT, S-58ET, S-58FT, S-58HT, and S-58JT Helicopters

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) to require the modification of the tail rotor control system and the tail rotor blades of Sikorsky S-58T series helicopters. This AD is to prevent possible tail rotor instability which could result in the loss of control of the helicopter.

DATES: Effective Date—November 30, 1978.

ADDRESSES: The applicable service bulletins may be obtained from Sikorsky Aircraft, Division of United Technologies Corp., Stratford, Conn. 06602. Copies of the service bulletins are contained in the Rules Docket, Office of the Regional Counsel, New England Region, 12 New England Executive Park, Burlington, Mass. 01803.

FOR FURTHER INFORMATION CONTACT:

William E. Garlock, Airframe Section, ANE-212, Engineering and Manufacturing Branch, Flight Standards Division, Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Mass. 01803; telephone: 617-273-7336.

SUPPLEMENTARY INFORMATION: A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring the installation of a tail rotor control system spring control rod and improved tail rotor abrasion strips on Sikorsky S-58T series helicopters was published in the FEDERAL REGISTER at 43 FR 32432. The proposal was prompted by reports of incidents where the tail rotor vibrated excessively (generally associated with approaches to landing) and reports of structural damage that indicated the occurrence of tail rotor instability. The development of tail rotor instability or the damage caused by this condition could result in the loss of control of the helicopter.

Interested persons have been afforded an opportunity to participate in making the amendment. No objections were received. Accordingly, the proposal is adopted without change.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13), is amended by adding the following new airworthiness directive:

SIKORSKY AIRCRAFT. Applies to S-58BT, S-58DT, S-58ET, S-58FT, S-58HT, and S-58JT helicopters certificated in all categories.

To prevent possible tail rotor instability accomplish the following:

Within 200 hours time in service or 3 months, whichever comes first, after the effective date of this AD, unless already accomplished, complete the following:

(a) Install improved abrasion strips, Sikorsky Modification Kit 58070-10008-011, on tail rotor blades, P/Ns S1615-30100-3, -4, -7, -10, -11, -15, -16, -041, -042, and -043. This modification is covered by Sikorsky Service Bulletin No. 58B15-18.

(b) Install Sikorsky control rod assembly, P/N 58400-64010-101.

This modification is covered by Sikorsky Service Bulletin No. 58B40-5.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1665(c)); 14 CFR 11.89.)

Issued in Burlington, Mass., on October 13, 1978.

ROBERT E. WHITINGTON,
Director, New England Region.

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 18423; Amdt. 39-3328]

PART 39—AIRWORTHINESS DIRECTIVES

Short Bros., Ltd.—Model SD3-30 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) which requires replacement of a one-way restrictor assembly in the nose landing gear retraction system on early production Short Bros., Ltd., SD3-30 airplanes with one of a new part number. Replacement of the restrictor is necessary to insure positive downlock of the nose landing gear. The AD is prompted by reports of failure of the original restrictor in service which could result in collapse of the nose landing gear on landing.

DATES: Effective November 13, 1978. Compliance schedule—As prescribed in body of AD.

ADDRESSES: The applicable service bulletin may be obtained from: Manager—Spares Support, Production Support Department, Short Bros., Ltd., P.O. Box 241—Airport Road, Belfast BT3 9DZ, Northern Ireland.

A copy of the service bulletin is contained in the rules docket for this amendment in Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

D. C. Jacobsen, Chief, Aircraft Certification Staff, AEU-100, Europe, Africa, and Middle East Region, Federal Aviation Administration, c/o American Embassy, Brussels, Belgium, telephone 513.38.30.

SUPPLEMENTARY INFORMATION: There have been reports of inservice failure of restrictor, P/N SD3-73-1209, in the nose landing gear retracting system on early production Short Bros., Ltd., SD3-30 airplanes. Failure of the restrictor could result in collapse of the nose landing gear on landing. Since this condition is likely to exist or develop on other airplanes of the same type design, an AD is being issued to require the replacement of the original restrictor with one of improved design, P/N HTE.9950 to insure positive downlock capability of the nose landing gear on Short Bros., Ltd., model SD3-30 airplanes.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

SHORT BROS., LTD. Applies to Model SD3-30 airplanes, S/Nos. 3001, 3002, and 3010 through 3016, certificated in all categories.

Compliance is required as indicated, unless already accomplished.

To prevent possible collapse of the nose landing gear, prior to the accumulation of 50 landings after the effective date of this AD, replace restrictor assembly, P/N SD3-73-1209xA with a new restrictor assembly, P/N HTE.9950 in the nose landing gear "UP" line in accordance with section 2, "Accomplishment Instructions," and Figure 1 of Short Bros., Ltd., Service Bulletin SD3-32-44, dated July 7, 1978, or an FAA-approved equivalent.

This amendment becomes effective November 13, 1978.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89)

Issued in Washington, D.C., on October 19, 1978.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

[Airspace Docket No. 78-NE-16]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Designation of the State of New Hampshire as a 1,200-foot transition area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes the State of New Hampshire transition area by consolidating all existing 1,200-foot transition areas within the State and by converting a small segment of uncontrolled airspace into 1,200-foot transition area controlled airspace.

EFFECTIVE DATE: December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Richard G. Carlson, Operations Procedures and Airspace Branch, ANE-536, Air Traffic, Federal Aviation Administration, 12 New England Executive Park, Burlington, Mass. 01803, telephone 617-273-7285.

SUPPLEMENTARY INFORMATION: On September 14, 1978, the Federal Aviation Administration published a notice proposing to designate the entire State of New Hampshire as a 1,200-foot transition area; excluding designated 700-foot transition areas. Interested persons were invited to participate in the rulemaking process by submitting written comments on the proposal to the FAA. No objections were received.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 71.181 of Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., December 28, 1978, by adding the following:

NEW HAMPSHIRE

That airspace extending upward from 1,200-feet above the surface within the territorial boundaries of the State of New Hampshire, including offshore air space beginning at latitude 42°56'00" N., longitude 70°34'00" W.; to latitude 42°56'00" N., longitude 70°25'00" W.; to latitude 42°43'15" N., longitude 70°25'00" W., to latitude 42°41'20" N., longitude 70°30'00" W.; to latitude 42°52'00" N., longitude 70°45'00" W., then via State territorial boundaries to point of beginning.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

[Airspace Docket No. 78-RM-27]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Redesignation of Control Zones

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment revises the legal description of the Akron, Colo., Eagle, Colo., Rawlins, Wyo., and Cut Bank, Mont., control zone hours of operation. An amendment effective September 7, 1978, allowed for changing the hours of operation of the control zones by NOTAM because of anticipated shortage of personnel for short periods at these locations. The effectiveness of the control zones is dependent on weather and communications availability. Additional personnel resources have been identified negating the need for a contingency plan to NOTAM the control zone hours of operation. It was futher determined that issuance of a notice of proposed rulemaking for this amendment would be impractical and not within the public interest.

EFFECTIVE DATE: 0901 G.m.t., November 2, 1978.

FOR FURTHER INFORMATION CONTACT:

Joseph Taber, Operations, Procedures and Airspace Branch, Air Traffic Division, ARM-500, Federal Aviation Administration, Rocky Mountain Region, 10455 East 25th Avenue, Aurora, Colo. 80010; telephone 303-837-3937.

SUPPLEMENTARY INFORMATION:

HISTORY

The control zones at Akron, Colo., Eagle, Colo., Rawlins, Wyo., and Cut Bank, Mont., were amended effective September 7, 1978 (FR Vol. 43-37681), to allow for changing the hours of operation by NOTAM. This action was taken as a contingency because of anticipated shortage of personnel at these locations for short periods of time. Weather and communications are an integral requirement to support a control zone and the anticipated shortage of personnel for short periods would have caused a loss of these services during certain time periods. Subsequent to the effective date of the amendment, additional personnel resources have been identified negating the need for a contingency plan to NOTAM the control zone hours of operation.

RULE

This amendment to Part 71 of the Federal Aviation Regulations (14 CFR part 71) revises the control zones at Akron, Colo., Eagle, Colo., Rawlins, Wyo., and Cut Bank, Mont.

DRAFTING INFORMATION

The principal authors of this document are Joseph T. Taber, Operations, Procedures and Airspace Branch, Air Traffic Division, and Daniel J. Peterson, Office of Regional Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended effective November 2, 1978, as follows:

By amending subpart F, § 71.171 by deleting the following:

AKRON, COLO.

This control zone is effective during specific dates and times established in advance by a Notice to Airmen. The effective date and time, thereafter, will be continuously published in the Airport Facility Directory.

EAGLE, COLO.

This control zone is effective during specific dates and times established in advance by a Notice to Airmen. The effective date and time, thereafter, will be continuously published in the Airport Facility Directory.

RAWLINS, WYO.

This control zone is effective during specific dates and times established in advance by a Notice to Airmen. The effective date and time, thereafter, will be continuously published in the Airport Facility Directory.

CUT BANK, MONT.

This control zone is effective during specific dates and times established in advance by a Notice to Airmen. The effective date and time, thereafter, will be continuously published in the Airport Facility Directory.

(Sec. 307(a) Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c); and 14 CFR 11.69).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Excutive Order 11949, and OMB Circular A-107.

Issued in Aurora, Colo., on October 18, 1978.

M. M. MARTIN,
Director,
Rocky Mountain Region.

[FR Doc. 78-30260 Filed 10-25-78; 8:45 am]

[6320-01-M]

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER D—SPECIAL REGULATIONS

[Reg. SPR-155; Amdt No. 1]

PART 380—PUBLIC CHARTERS

Notice of Approval by the Comptroller General

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., October 10, 1978.

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: This final rule gives notice of approval by the Comptroller General of the reporting and record-retention requirements contained in part 380—Public Charters. This approval is required by the Federal Reports Act and was transmitted to the Civil Aeronautics Board by letter dated October 3, 1978.

DATES: Effective: October 10, 1978. Adopted: October 10, 1978.

FOR FURTHER INFORMATION CONTACT:

Raymond Kurlander, Director, Bureau of Accounts and Statistics, Civil Aeronautics Board, 1825 Connecticut Avenue NE., Washington, D.C. 20428, 202-673-5270.

Accordingly, the Civil Aeronautics Board amends Part 380 (43 FR 36611, August 18, 1978), of its Economic Regulations (14 CFR Part 380) by deleting the note currently shown at the end of Part 380 and substituting therefore the following:

NOTE.—The record-retention requirement contained in § 380.43 and the reporting requirement contained in § 380.50(c) have been approved by the U.S. General Accounting Office under No. B-180226 (RO558).

This amendment is issued under authority delegated from the Board to the Secretary in 14 CFR 385.24(b). (Sec. 204 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743; U.S.C. 1324.)

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[7510-01-M]

CHAPTER V—NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

PART 1214—SPACE TRANSPORTATION SYSTEM

AGENCY: National Aeronautics and Space Administration.

ACTION: Final rule.

SUMMARY: The regulations authorize each individual participating on a space transportation system flight to carry on the flight a personal preference kit. The kit consists of items to be given as momentos to the individual's relatives or close friends. The items carried are subject to restrictions as to their kind, number, and weight as well as to their use. Under no circumstances will commercialization of personal items flown be allowed or tolerated. For the first time individuals who are not NASA employees will have the opportunity to participate in space flights. The same restrictions apply to individuals participating on flights who are not NASA employees.

EFFECTIVE DATE: October 26, 1978.

ADDRESS: Office of General Counsel, Mail Code: GG-1, National Aeronautics and Space Administration, Washington, D.C. 20546.

FOR FURTHER INFORMATION CONTACT:

Susan McGuire Smith, 202-755-3924.

SUPPLEMENTARY INFORMATION: On June 14, 1978, notice was published in the FEDERAL REGISTER (43 FR 25693) inviting public comments by July 15, 1978, on the proposed regulations on "Articles Authorized to be Carried on Space Transportation System Flights." For the first time, individuals who are not NASA employees will have the opportunity to participate in space flights. NASA will apply the same restrictions to these individuals as will apply to agency employees insofar as carrying personal items on a flight is concerned. These regulations generally are the same as those used internally in the past.

No substantive public comments were received on the proposal. Therefore, the regulation is adopted with a few technical changes as set forth below.

ROBERT A. FROSCH,
Administrator.

1. 14 CFR Part 1214 is amended by adding a new subpart 1214.6 reading as follows:

Subpart 1214.6—Articles Authorized To Be Carried on Space Transportation System Flights

Sec.
1214.600 Scope.
1214.601 Definitions.
1214.602 Policy.
1214.603 Approval and disposition of contents of the official flight kit.
1214.604 Policy on personal preference kits.
1214.605 Safety requirements.
1214.606 Procedures for approval of contents of personal preference kits.
1214.607 Preflight packaging and storage of kits.
1214.608 Public announcements of contents of kits.
1214.609 Disposition of kits after flight.
1214.610 Loss or theft.
1214.611 Applicability of this subpart.

AUTHORITY: Pub. L. 85-568, 72 Stat. 426, 42 U.S.C. 2473(c).

Subpart 1214.6—Articles Authorized To Be Carried on Space Transportation System Flights

§ 1214.600 Scope.

This subpart established policy, procedures, and responsibilities governing the selection, approval, packing, storage, post-flight disposition, and public announcement of articles authorized to be carried on space transportation system flights.

§ 1214.601 Definitions.

(a) The official flight kit contains selected items such as flags, patches, medallions, and other memorabilia to be presented to Government officials, Members of the Congress, and others who receive such awards as a result of individual contributions to the space program, as determined by the Administrator.

(b) The personal preference kit contains individual items of a personal nature selected by each individual who participates on a space transportation system flight.

(c) The flight crew consists of the commander, pilot, and mission specialist(s).

(d) A payload specialist is an individual selected to operate assigned payload elements on a specific space transportation system flight.

§ 1214.602 Policy.

Articles authorized to be carried on a space transportation system flight, other than articles related to the execution of a mission, are limited to those items approved by the Administrator for carrying in the official flight kit or a personal preference kit, in accordance with the requirements of this subpart.

§ 1214.603 Approval and disposition of contents of the official flight kit.

(a) *Proposed contents.* Both the Director, Johnson Space Center, and the program Associate Administrator responsible for payload mission management for a given flight shall suggest items for inclusion in the official flight kit to the associate administrator for space transportation systems.

(b) *Recommendation by Associate Administrator for Space Transportation Systems.* The Associate Administrator for Space Transportation Systems shall recommend to the Administrator a final list to be included in the official flight kit.

(c) *Disposition of kit.* Once the flight is completed the contents of the official flight kit shall be forwarded by the Director, Johnson Space Center, through the Associate Administrator for Space Transportation Systems, to the Administrator.

(d) *Approval authority.* The Administrator shall make all decisions concerning the contents and disposition of the official flight kit.

§ 1214.604 Policy on personal preference kits.

(a) *Purpose.* Each individual who participates on a flight, including flight crew members and payload specialists, shall be permitted to carry certain items of a personal nature in his/her personal preference kit on each space transportation system flight for use by him/her as personal gifts for immediate family and relatives (spouses, children, parents, inlaws, siblings) or close friends. No more than one article may be given to one individual.

(b) *Limit on number of items.* No more than 20 items will be included in the personal preference kit.

(c) *Weight limitations.* Each personal preference kit will be limited to 1.5 pounds which limitation may be reduced on a given flight because of overall weight considerations, if approved by the Associate Administrator for Space Transportation Systems upon the recommendation of the Director, Flight Operations, Johnson Space Center. Under no circumstances will an increase in the limitation be authorized.

(d) *Sale or commercial use prohibited.* Items carried in the personal preference kit shall not be sold or transferred for sale, or used, or transferred for economic gain or for any commercial or fund-raising purpose. Items will not be approved for carrying that by their nature may lend themselves to exploitation by the recipients, create problems with respect to good taste, or have a known or suspected commercial value, such as philatelic covers and coins.

V 4 3 1 2 0 8

(e) *Certification required.* At the time a list of proposed contents is submitted, each individual desiring to carry a personal preference kit shall make the following written agreement:

In compliance with the requirements of 14 CFR 1214.6—Articles Authorized to be Carried on Space Transportation System Flights—I submit this certification along with my proposed list of items to be carried in my Personal Preference Kit on _____ (applicable flight).

1. I have read and understand the requirements of 14 CFR 1214.6 and agree to comply with those requirements.

2. My proposed list of items to be carried in my personal preference kit complies with the requirements.

3. Other than items approved by the Administrator for inclusion in my personal preference kit, I will carry no other items for use by myself or anyone else.

4. The items carried in my personal preference kit will be used as personal gifts. I will present no more than one item to an individual. The items will not be sold or transferred for sale, or used, or transferred for economic gain or for any commercial or fund-raising purpose.

5. I understand and agree that if I carry an item in violation of the requirements of 14 CFR 1214.6, that item will become the property of the U.S. Government, and that I may be subject to disciplinary or appropriate legal action.

6. I understand and agree that I assume the risk of loss for items carried in my kit, no matter what the cause.

_____
(Signature)

(f) *Violations.* Any item carried in violation of the requirements of this subpart shall become the property of the U.S. Government subject to applicable Federal laws and regulations.

(g) *Exceptions.* The Administrator may make exceptions to the policy of this section on personal preference kits by not permitting an individual to carry a preference kit. Flight crew members and payload specialists will not receive any U.S. Government or other property carried on the flight unless it is property contained in a personal preference kit.

§ 1214.605 Safety requirements.

Items included in the official flight-kit and personal preference kits shall meet the safety requirements of the NASA Headquarters document "Safety Policy and Requirements for Payloads Using the STS."

§ 1214.606 Procedures for approval of contents of personal preference kits.

(a) *Individual submits list.* At least 60 days before the scheduled launch date an individual desiring to carry a personal preference kit shall provide the Director, Flight Operations, Johnson Space Center, a list with the following information:

(1) A description of each item proposed to be included;

(2) The intended recipient of each item and his/her relationship;

(3) The certification required by § 1214.604(e).

In the case of a payload specialist, the list shall first be approved by the program Associate Administrator responsible for the payload mission management.

(b) *Action by Johnson Space Center.* The Director, Flight Operations, Johnson Space Center, shall review the lists for compliance with this subpart, and will submit them with weight data through the Director, Johnson Space Center, to the Associate Administrator for Space Transportation Systems, not later than 45 days before the scheduled launch date.

(c) *Action by headquarters.* The Associate Administrator for Space Transportation Systems shall submit the lists with his/her recommendation to the Administrator for approval. A final decision will be made not later than 30 days before the scheduled launch date.

(d) *Approved list.* A copy of each approved list, including the required certification, shall be provided to the individual requesting, as well as the Associate Administrator for External Relations, the Associate Administrator for Space Transportation Systems, the General Counsel and the Director, Johnson Space Center.

§ 1214.607 Preflight packaging and storage of kits.

The Director, Flight Operations, Johnson Space Center, shall:

(a) Insure that the official flight kit and the personal preference kits are packaged and sealed in the Director's presence and that the contents of each kit correspond with the lists approved by the Administrator;

(b) Verify that each kit meets the weight requirements of § 1214.604(c);

(c) Place the packed kits in bonded storage not less than 21 days before the scheduled launch date; and

(d) Certify in writing to the Associate Administrator for Space Transportation Systems, through the Director, Johnson Space Center, that the above actions have taken place.

§ 1214.608 Public announcements of contents of kits.

(a) *Official flight kit.* The contents of the official flight kit shall be announced in a NASA press release no later than 30 days after the flight has been completed.

(b) *Personal preference kits.* The contents of each personal preference kit shall be announced in a NASA press release no later than 30 days after the flight has been completed. At the request of the individual the contents of his/her kit may be announced sooner by NASA, but only after the contents of the kit have been approved by the Administrator.

(c) *Responsibility.* The Associate Administrator for External Relations is responsible for insuring that the required press releases are issued.

(d) *Inquiries before announcements.* The Director, Flight Operations, Johnson Space Center, will respond to all inquiries concerning the contents of the kits prior to the required press releases being issued.

§ 124.609 Disposition of kits after flight.

The Director, Flight Operations, Johnson Space Center, shall:

(a) Insure the removal and safekeeping of the kits following the flight;

(b) Return the personal preference kits to the individuals to whom they belong; and

(c) Forward the official flight kit as required by § 1214.603(c).

§ 1214.610 Loss or theft.

(a) *Responsibility.* Each individual who carries a personal preference kit assumes the risk of loss for that kit or any item in it, regardless of the cause. The National Aeronautics and Space Administration shall not be responsible for the loss, theft of, or damage to a personal preference kit.

(b) *Report of loss of theft.* Any NASA employee who becomes aware that an item contained in a personal preference kit or the official flight kit has been lost or is missing shall immediately notify the Inspections Division and the Installation Security Office.

§1214.611 Applicability of this subpart.

(a) *Acknowledgement of requirements.* When this subpart goes into effect, or upon his/her selection each individual shall sign an acknowledgement that he/she has read the subpart and will comply with its requirements, and provide the acknowledgement to the Director, Johnson Space Center.

(2) The acknowledgement required by this section shall be updated upon the assignment of an individual to a flight.

(3) Acknowledgements required by this section and made by individuals who are NASA employees, shall be retained in the individual's official personnel folder.

(4) Acknowledgements made by individuals who are not NASA employees shall be retained by the program Associate Administrator sponsoring their activities, or by the Associate Administrator for Space Transportation Systems, as appropriate.

(b) *Procedures required to bring non-NASA employees under this subpart.* (1) The requirements of this subpart will be made applicable to individuals who participate on a flight who are not NASA employees.

(2) The Associate Administrator for External Relations, the Associate Administrator for Space Transportation Systems, or the Director, Procurement Office, is responsible for insuring that individuals not employed by NASA are made subject to these requirements through the terms of the applicable interagency agreement, contract, or other agreement.

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISION

[Docket No. C-2928]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Australian Land Title, Ltd., Et Al.

AGENCY: Federal Trade Commission.

ACTION: Final Order.

SUMMARY: In settlement of alleged violations of Federal law prohibiting unfair acts and practices and unfair methods of competition, this provisionally accepted consent agreement, among other things, would require a Los Angles, Calif. seller of undivided interests in Australian land to cease advertising, selling, transferring or collecting payments on such land. Additionally, the firm would be required to return all payments received on or after July 1, 1977; pay property taxes and other charges levied against the tracts as they become due; and provide consumer redress to eligible parties.

DATES: Complaint and order issued September 14, 1978.[1]

FOR FURTHER INFORMATION CONTACT:

FTC/P. Albert H. Kramer, Washington, D.C. 202-523-3727.

SUPPLEMENTARY INFORMATION: On Tuesday, May 2, 1978, there was published in the FEDERAL REGISTER, 43 FR 18685, a proposed consent agreement with analysis In the Matter of Australian Land Title, Ltd., et al., for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions, or objections regarding the proposed form of order.

Comments were filed and considered by the Commission. The Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered its order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

The prohibited trade practices and/of corrective actions, as codified under 16 CFR Part 13, are as follows: Subpart—Advertising Falsely or Misleadingly: § 13.90 History of product for offering; § 13.155 Prices; § 13.155-55 Government requirements; § 13.195 Safety; § 13.195-30 Investment; § 13.205 Scientific of other relevant facts; § 13.260 Terms and conditions; § 13.275 Undertaking, in general. Subpart—Corrective Actions and/or Requirements: 13.155-45 Maintain records; 13.155-55 Refunds, rebates and/or credits. Subpart—Misrepresenting Oneself and Goods—Goods: § 13.1650 History of product; § 13.1675 Law or legal requirements; § 13.1740 Scientific or other relevant facts; § 13.1760 Terms and conditions; § 13.1765 Undertakings, in general. Prices: § 13.1815 Goverment requirements. Subpart—Neglecting, Unfairly or Deceptively, To Make Material Disclosure: § 13.1854 History of products; § 13.1863 Limitations of product; § 13.1889 Risk of loss; § 13.1895 Scientific or other relevant facts; § 13.1905 Terms and conditions.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; (15 U.S.C. 45))

CAROL M. THOMAS,
Secretary.

[FR Doc. 78-30226 Filed 10-25-78; 8:45 am]

[1] Copies of the Complaint, and the Decision and Order are filed with the original document.

[4310-02-M]

Title 25—Indians

CHAPTER I—BUREAU OF INDIAN AFFAIRS, DEPARTMENT OF THE INTERIOR

SUBCHAPTER B—LAW AND ORDER

PART 11—LAW AND ORDER ON INDIAN RESERVATIONS

Listing of Courts of Indian Offenses

OCTOBER 16, 1978.

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Final rule.

SUMMARY: There is a need to inform the public of which Indian reservations operate tribal courts and which operate Courts of Indian Offenses. To meet this need, the Bureau has compiled a complete list of all Courts of Indian Offenses. Future changes to the listing below will be done by an amending publication.

EFFECTIVE DATE: November 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Patrick A. Hayes, Judicial Services Officer, Division of Tribal Government Services, Office of Indian Services, Bureau of Indian Affairs, Department of the Interior, Washington, D.C. 20245, telephone 202-343-7885; or David C. Etheridge, Division of Indian Affairs, Office of the Solicitor, Department of the Interior, Washington, D.C. 20240, telephone 202-343-6967.

SUPPLEMENTARY INFORMATION: This amendment provides a complete list of courts who derive the core of their substantive law from 25 CFR Part 11, and are known as Court of Indian Offenses (also known as CFR courts). In the future, Courts of Indian Offenses will be officially established or disestablished by amendments to 25 CFR 11.1(a).

The Couer d' Alene and Navajo Reservations now have tribal courts rather than CFR courts. For that reason, the special sections applicable to those tribes are deleted. Although the Hopi Reservation also has a tribal court, the tribe's attorney has asked that the special grazing regulations applicable to that reservation be retained. The CFR court for the Hoopa Reservation in California was established solely to enforce those regulations promulgated to regulate fishing activities on that reservation. This amendment is based on a notice of proposed rulemaking published in the FEDERAL REGISTER on February 9, 1978, at page 5528. Interested persons have been afforded an opportunity to participate in the making of this amendment and due consideration has been given to all matters presented.

DISCUSSION OF COMMENTS

Comments were received from a few Indian tribes protesting their omission from, or inclusion in, the listing. Their comments have been accepted and investigated and the listing is revised accordingly. This amendment is made under the authority contained in 5 U.S.C. 301 and 25 U.S.C. 2 and delegated by the Secretary of the Interior to the Assistant Secretary for Indian Affairs by 230 DM 2. With the above revisions, §§ 11.1-11.87H of Subchapter B, Chapter I, of Title 25 of the Code of Federal Regulations are amended to read as follows:

1. Section 11.1(a) of Subchapter B, Chapter I, of Title 25 of the Code of Federal Regulations is revised to read as follows:

OCT 26 1978

V 4 3 / 2 0 8 0 C 2 6 7 8

§ 11.1 Application of regulations.

(a) Except as otherwise provided in this part, § 11.1-11.87H apply to the following Indian reservations:

(1) Omaha (Nebraska).
(2) Flandreau (South Dakota).
(3) Yankton (South Dakota).
(4) Wind River (Wyoming).
(5) Menominee (Wisconsin).
(6) Isabella (Michigan).
(7) Sault Ste. Marie (Michigan).
(8) Boise Forte (Minnesota).
(9) Choctaw (Mississippi).
(10) Cocopah (Arizona).
(11) Fort Mojave (Arizona).
(12) Kaibab (Arizona).
(13) Yavapai-Prescott (Arizona).
(14) Fallon (Nevada).
(15) Goshute (Nevada).
(16) Lovelock (Nevada).
(17) Reno Sparks (Nevada).
(18) Te-Moak (Nevada).
(19) Walker River (Nevada).
(20) Washoe (Nevada).
(21) Winnemucca (Nevada).
(22) Yomba (Nevada).
(23) Kootenai (Idaho).
(24) Shoalwater Bay (Washington).
(25) Hopi (Arizona) (Tribal court enforcement of special grazing regulations).
(26) Hoopa (California) (Jurisdiction limited to special fishing regulations).

* * * * * *

2. The following sections as set forth below are deleted:

§§ 11.2CA, 11.3CA, 11.5CA, 11.6CA, 11.8CA, 11.22CA, 11.24CA, 11.25CA, 11.28CA, 11.30CA, 11.31CA, 11.33.CA, 11.37CA, 11.19CA, 11.52CA, 11.53CA, 11.63CA, 11.75CA, and 11.76CA [Reserved]

§ 11.77-11.87H [Amended]

3. The letter "N" is deleted from section numbers § 11.77NH-11.87NH so that these sections will not apply to the Navajo Reservation.

GEORGE V. GOODWIN,
Deputy Assistant Secretary, Indian Affairs.

Title 38—Pensions, Bonuses, and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

Subpart D—Administration of Educational Benefits; 38 U.S.C. Chapters 34, 35, and 36

COLLEGIATE UNDERGRADUATE: CREDIT-HOUR BASIS

AGENCY: Veterans Administration.

ACTION: Final regulation.

SUMMARY: The amended regulation is intended to make it easier for a school to get a nonaccredited course measured on a credit-hour basis for Veterans Administration purposes. Often graduates from a nonaccredited course of high quality are admitted without reservation to graduate or advanced professional programs offered by accredited colleges and universities. Previously, the Veterans Administration did not consider this in determining whether the course could be measured on a credit-hour basis for the purpose of determining the amount of educational assistance to be paid to eligible veterans and other eligible persons enrolled in the course. The amended regulation corrects this oversight.

EFFECTIVE DATE: October 19, 1978.

FOR FURTHER INFORMATION CONTACT:

June C. Schaeffer, Assistant Director for Policy and Program Administration, Education and Rehabilitation Service, Department of Veterans Benefits, Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420, 202-389-2092.

SUPPLEMENTARY INFORMATION: On page 37204 of the FEDERAL REGISTER of August 22, 1978, there was published a notice of proposed regulatory development to amend § 21.4272(b)(3) relating to measurement of nonaccredited courses on a credit-hour basis.

Interested persons were given 30 days in which to submit comments, suggestions or objections regarding the proposed regulation. No written comments have been received and the proposed regulation is hereby adopted without change and is set forth below.

Approved: October 19, 1978.

By direction of the Administrator.

RUFUS H. WILSON,
Deputy Administrator.

In § 21.4272, paragraph (b)(3) is revised to read as follows:

§ 21.4272 Collegiate undergraduate; credit-hour basis.

* * * * * *

(b) *Degree courses; nonaccredited.* * * *

(3) The school will furnish a letter from a State university or letters from three schools that are full members of a nationally recognized accrediting association. In each letter the State university or accredited school must certify either:

(i) That credits have been accepted on transfer at full value without reservation, in partial fulfillment of the requirements for a baccalaureate or higher degree for at least three students within the last 5 years, and that at least 40 percent of the subjects within each curriculum, for which credit-hour measurement is sought, has been accepted without reservation by the certifying State university or accredited school, or

(ii) That in the last 5 years at least three students, who have received a baccalaureate or higher degree as a result of having completed the nonaccredited course, have been admitted without reservation into a graduate or advanced professional program offered by the certifying State university or accredited school. (38 U.S.C. 1788(b))

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5651]

[Idaho 9790]

IDAHO

Revocation of Public Land Order No. 4416

AGENCY: Bureau of Land Management (Interior).

ACTION: Final rule.

SUMMARY: This document revokes Public Land Order No. 4416, May 16, 1968, which withdrew certain public lands in Idaho for use by the Forest Service, U.S. Department of Agriculture. This action will restore 80 acres of the land to the operation of public land laws generally, including the mining laws.

EFFECTIVE DATE: November 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Louis Bellesi, 202-343-8731.

By virtue of the authority contained in section 204 of the Federal Land Policy and Management Act of October 21, 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. Public Land Order No. 4416 of May 16, 1968, which withdrew the following described public lands as an administrative site for use by the Forest Service, Department of Agriculture, is hereby revoked:

BOISE MERIDIAN

SODA SPRINGS ADMINISTRATIVE SITE

T. 8 S., R. 42 E.,
Sec. 28, E½SW¼.

The area described contains 80 acres in Caribou County.

2. At 10 a.m. on November 23, 1978, the lands shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on November 23, 1978, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

3. The lands will be open to location under the United States mining laws at 10 a.m. on November 23, 1978. They have been open to applications and offers under the mineral leasing laws.

Inquiries concerning the lands should be addressed to the state director, Bureau of Land Management, P.O. Box 042, Boise, Idaho 83724.

GUY R. MARTIN,
Assistant Secretary of the Interior.

OCTOBER 18, 1978.

SUBCHAPTER C—MINERALS MANAGEMENT (3000)

[Circular No. 2437]

PART 3300—OUTER CONTINENTAL SHELF LEASING; GENERAL

Subpart 3308—Leasing Program

AGENCY: Office of Outer Continental Shelf Program Coordination.

ACTION: Final rule.

SUMMARY: The regulations which are being published today, pursuant to section 18(f) of the Outer Continental Shelf Lands Act, as amended, establish procedures to be followed in developing a 5-year Outer Continental Shelf oil and gas leasing program. The topics covered are: (1) Receipt and consideration of nominations; public notice and participation; (2) review by State and local governments; (3) periodic consultation with interested parties, and (4) consideration of coastal zone management programs. The procedures are applicable to the preparation of the oil and gas leasing program as required by section 18 of the Outer Continental Shelf Lands Act, as amended, and to any significant revision or reapproval of the leasing program.

DATE: This rule is effective October 26, 1978. Interested persons are invited to submit written comments, recommendations or objections with respect to this final rule prior to December 15, 1978.

ADDRESS: Send comments to: Director, Office of OCS Program Coordination, Department of the Interior, Room 4126, 18th and C Streets NW., Washington, D.C. 20240. Comments will be available for public review in room 4126 at the above address during regular business hours (9 a.m. to 5:30 p.m.), Monday through Friday.

FOR FURTHER INFORMATION, CONTACT:

Carolita Kallaur, Office of OCS Program Coordination, Office of the Assistant Secretary for Policy, Budget and Administration, Department of the Interior, Room 4126, 18th and C Streets NW., Washington, D.C. 20240, phone No. 202-343-9314.

SUPPLEMENTARY INFORMATION: Based on the comments received and experience gained from implementation of the procedures, a determination will be made whether it is necessary to revise the regulations.

The leasing program shall consist of a planning schedule for proposed lease sales indicating the size, timing, and location of leasing activity for the 5-year period following its approval or reapproval and shall include estimates of the appropriations and staff required for the program. A timetable for the development of the first leasing program and a request for information appear today in the FEDERAL REGISTER.

In accordance with the provisions of the Administrative Procedure Act (5 U.S.C. § 553(d)), the Secretary of the Interior had determined that it is in the public interest for these regulations to become effective as final regulations upon publication. This determination is based on the need to have regulations implementing the OCS Lands Act Amendments of 1978, effective as soon as possible after enactment in order to develop a proposed 5-year leasing program within the required 9-month period.

AUTHOR: Carolita Kallaur, Office of OCS Program Coordination, Office of the Assistant Secretary for Policy, Budget and Administration, Department of the Interior, Room 4126, 18th and C Streets NW., Washington, D.C. 20240, phone No. 202-343-9314.

The Department of Interior has determined that publication of this document is not a major action significantly affecting the quality of the environment and does not require preparation of an Environmental Impact Statement under the National Environmental Policy Act of 1969. The Department has also determined that this document is not a significant regulatory action and does not require preparation of a regulatory analysis under Executive Order 12044.

Accordingly, under the authority of section 18(f) of the Outer Continental Shelf Lands Act, as amended (43 U.S.C. 1344), Part 3300, Group 3300, Subchapter C, Chapter II, Title 43 of the Code of Federal Regulations is amended by adding a new subpart 3308 as set forth below:

Dated: October 19, 1978.

LARRY E. MEIEROTTO,
Deputy Secretary of the Interior.

Sec.
3308.0-1 Purpose.
3308.0-2 Authority.
3308.0-5 Definitions.
3308.1 Receipt and consideration of nominations; public notice and participation.
3308.2 Review by State and local governments.
3308.3 Periodic consultation with interested parties.
3308.4 Consideration of coastal zone management program.

§ 3308.01 Purpose.

The purpose of this subpart is to provide procedures for the development of a 5-year OCS leasing program. The leasing program shall consist of a schedule of proposed lease sales indicating, as precisely as possible, the size, timing, and location of leasing activity which the Secretary of the Interior determines will best meet national energy needs for the 5-year period following its approval or reapproval and shall include estimates of the required appropriations and staff. This leasing program shall be prepared and maintained in a manner consistent with the principles of section 18(a) of the OCS Lands Act, as amended (43 U.S.C. 1344).

§ 3308.0-2 Authority.

Outer Continental Shelf Lands Act of 1953, as amended (43 U.S.C. 1331 et. seq.).

V 43 / 208 OCT 26 78

§ 3308.0-5 Definitions.

As used in this subpart, the term:

(a) "Affected State" and "affected States" means Maine, New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas, California, Oregon, Washington, and Alaska.

(b) "OCS" means Outer Continental Shelf.

(c) "Secretary" means the Secretary of the Interior.

§ 3308.1 Receipt and consideration of nominations; public notice and participation.

During preparation of a proposed 5-year leasing program, the Secretary shall invite and consider suggestions and relevant information for such program from Governors of affected States, local government, industry, other Federal agencies, including the Attorney General in consultation with the Federal Trade Commission, and all interested parties, including the general public. This request for information shall be issued as a notice in the FEDERAL REGISTER. Local governments wishing to respond to such request shall first submit their responses to the Governor of the State in which the local government is located.

The Secretary shall send letters to the Governors of the affected States requesting them to identify specific laws, goals, and policies which they believe should be considered by the Secretary in connection with the leasing program. The Secretary shall also request from the Secretary of Energy information on regional and national energy markets, on OCS production goals and on transportation networks.

§ 3308.2 Review by State and local governments.

(a) (1) The Secretary shall prepare a proposed leasing program. At least 60 days prior to publication of the proposed program in the FEDERAL REGISTER, a copy of the draft of the proposed program shall be forwarded to the Governor of each affected State for comment. The Governor may solicit comments from local governments in his or her State which the Governor determines will be affected by the proposed program.

(2) The Secretary shall reply in writing to any comment on the draft of the proposed program from the Governor of an affected State which is received at least 15 days prior to the submission of the proposed program to the Congress and publication in the FEDERAL REGISTER. All such correspondence between the Secretary and Governor of such State shall accompany the proposed program when it is submitted to the Congress.

(b) The proposed leasing program shall be submitted to the Governors of the affected States for review and comment at the time it is submitted to the Congress and the Attorney General and published in the FEDERAL REGISTER. The Governor of an affected State shall, upon request from any local government affected by the program, submit a copy of the proposed program to such local government. Comments and recommendations on any aspect of the proposed program may be submitted by a State or local government to the Secretary within 90 days after the date of its publication in the FEDERAL REGISTER. Comments and recommendations from local governments shall be submitted first to the Governor of the State in which the local government is located.

(c) At least 60 days prior to approving the final leasing program, the Secretary shall submit it to the President and the Congress, together with any comments received on the proposed program. The Secretary shall indicate in each submission why any specific recommendation of the Attorney General or of a State or local government was not accepted.

§ 3308.3 Periodic consultation with interested parties.

The Secretary shall provide for periodic consultation with State and local governments, existing and potential oil and gas lessees and permittees, and representatives of other individuals or organizations engaged in any activity in or on the OCS, including those involved in fish and shellfish recovery, and recreational activities. This consultation shall take place primarily through appropriate public notice as described in § 3308.1 and § 3308.2 and through the OCS Advisory Board and its committees, on a regional and national basis. Meetings of the OCS Advisory Board shall be held on specific issues as required by the Board's charter.

§ 3308.4 Consideration of coastal zone management program.

In the development of the leasing program, consideration shall be given to the coastal zone management program being developed or administered by an affected coastal State under section 305 or 306 of the Coastal Zone Management Act of 1972 as amended, (16 U.S.C. 1454, 1455). Information concerning the relationship between a State's coastal zone management program and OCS oil and gas activity shall be requested from the Governors of the affected coastal States and from the Secretary of Commerce prior to the development of the proposed leasing program at the time information is requested under § 3308.1 of this title.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S. O. No. 1304-A]

PART 1033—CAR SERVICE

Distribution of Covered Hopper Cars

AGENCY: Interstate Commerce Commission.

ACTION: Emergency order (service order No. 1304-A).

SUMMARY: Service order No. 1304 was issued directing that no common carrier by railroad shall permit the use in unit-grain train service of more than 20 percent of its ownership of jumbo covered hopper cars. Service order No. 1304-A vacates corrected service order No. 1304 because it is no longer needed.

DATE: Effective October 20, 1978.

FOR FURTHER INFORMATION CONTACT:

C. C. Robinson, Chief, Utilization and Distribution Branch, Interstate Commerce Commission, Washington, D.C. 20423, telephone 202-275-7840, telex 89-2742.

SUPPLEMENTARY INFORMATION: The order is printed in full below.

Decided October 19, 1978.

Upon further consideration of corrected service order No. 1304 (43 FR 9281, 19048 and 29126), and good cause appearing therefor:

It is ordered,

Section 1033.1304 *Distribution of covered hopper cars* is vacated effective October 20, 1978.

(49 U.S.C. 1 (10-17).)

A copy of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement and upon the American Short Line Railroad Association. Notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members Joel E. Burns, Robert S. Turkington, and John R. Michael.

H. G. HOMME, JR.,
Acting Secretary.

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

SUBCHAPTER C—THE NATIONAL WILDLIFE REFUGE SYSTEM

PART 32—HUNTING

Opening of Certain National Wildlife Refuges in Arizona, California, New Mexico, Oklahoma, and Texas; Correction

AGENCY: U.S. Fish and Wildlife Service, Department of the Interior.

ACTION: Special regulations; correction.

SUMMARY: The Fish and Wildlife Service is correcting a document relating to the opening to hunting of the Kofa National Wildlife Refuge in Arizona appearing at 43 FR 44538, September 28, 1978. The correction adds a special condition which is intended to make the upland game hunting regulation more effective.

FOR FURTHER INFORMATION CONTACT:

Kofa National Wildlife Refuge, P.O. Box 1032, Yuma, Ariz. 85464, telephone 602-261-2619. Quail, cottontails, coyotes, gray fox, and bobcat.

SUPPLEMENTARY INFORMATION: In FR Doc. 78-27296 appearing at 43 FR 44538, September 28, 1978, the following correction should be made:

Under the heading "Arizona" which begins in the middle column, insert the following special condition (5) to appear at the top of the third column, second line:

§ 32.22 Special regulations: upland game: for individual wildlife refuge areas.

* * * * *

ARIZONA

* * * * *

(5) Possession of all rimfire firearms and ammunition on this refuge is prohibited.

(Sec. 2, 33 Stat. 614, as amended; sec. 5, 43 Stat. 651; sec. 5, 45 Stat. 449; sec. 10, 45 Stat. 1224; sec. 4, 48 Stat. 402, as amended; sec. 4, 48 Stat. 451, as amended; sec. 2, 48 Stat. 1270; sec. 4, 80 Stat. 927; 5 U.S.C. 301, 16 U.S.C. 685, 725, 690d, 715i, 664, 718d, 43 U.S.C. 315a; 16 U.S.C. 460k, 668dd; sec. 2, 80 Stat. 926; 16 U.S.C. 668bb.)

PART 32—HUNTING

Opening of Bosque del Apache National Wildlife Refuge, N. Mex.

AGENCY: U.S. Fish and Wildlife Service, Department of the Interior.

ACTION: Special regulations.

SUMMARY: The Director has determined that the opening to hunting of the Bosque del Apache National Wildlife Refuge, N. Mex., is compatible with the objectives for which this area was established, will utilize a renewable national resource, and will provide additional recreational opportunity to the public. This document establishes special regulations effective for the upcoming hunting season for migratory game birds.

EFFECTIVE DATES: November 25, 1978, through January 2, 1979.

FOR FURTHER INFORMATION CONTACT:

Richard W. Rigby, Refuge Manager, Bosque del Apache National Wildlife Refuge, P.O. Box 1246, Socorro, N. Mex., telephone 505-835-1828.

GENERAL CONDITIONS

Hunting on the refuge shall be in accordance with applicable State and Federal regulations. Special conditions applying to the refuge are listed on hunting leaflets available at the refuge headquarters or from the Area Office, U.S. Fish and Wildlife Service, 2953 West Indian School Road, Phoenix, Ariz. 85017.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

Bosque del Apache National Wildlife Refuge, P.O. Box 1246, Socorro, N. Mex. 87801, telephone 505-835-1828.

Snow blue and Ross's geese.

Special conditions: (1) Refuge hunting days will be November 25 through December 3, 1978, and December 27, 1978, through January 2, 1979. Shooting hours will be from sunrise until 10 a.m., local time. (2) For each day's hunt, each hunter will be limited to eight (8) steel (iron) shot shotshells. It will be illegal to possess any shells other than the eight (8) steel shotshells within the goose hunt area. (3) Hunters will be required to apply (by preseason application) for hunting dates. Applications are available from the New Mexico Department of Game and Fish, Bosque del Apache National Wildlife Refuge, and U.S. Fish and Wildlife Service's Regional Office, P.O. Box 1306, Albuquerque, N. Mex. 87103, telephone 505-766-2036. (4) Hunters may apply as a party of 1, 2, or 3 persons. If the application is for a party of less than three (3) persons, the blind vacancies may be filled from other applications, or by a daily drawing. No substitutions for an original applicant will be permitted. (5) A hunter's name may appear on only one application each season. If an applicant's name appears on more than one application, all applications containing his/her name will be voided. (6) Applicants may indicate up to four (4) choices of hunting days. All hunters will be limited to no more than two hunts by reservations. Only applications received at the refuge office before 10 a.m., October 2, 1978, will be accepted. (7) All successful applicants and those wishing to participate on a standby basis will have to have attended a snow goose hunter training program sponsored specifically for this hunt by the U.S. Fish and Wildlife Service. A passing score must be received on any test given at this program. Locations for programs to be presented will be contained in materials sent to successful hunt applicants and news releases sent to State news media. (8) Hunters selected to participate in each day's hunt will be assigned to their blinds by lot. (9) Hunting is permitted only from the assigned blinds, with no more than three (3) hunters per blind. Switching from assigned blinds is prohibited. (10) Each hunter will pay a special hunter service recreation fee of $3 on the day of the hunt. Holders of "Golden Age Passports" are entitled to a 50-percent discount on this $3 fee. (11) The daily bag limit will be four (4) of the permitted species, except that no more than one Ross's goose will be permitted in a daily bag. (12) Hunters will be permitted to use only snow goose decoys. (13) Hunters must check in through the middle refuge gate on New Mexico Highway 1, one and one-half (1½) miles south of the north boundary of the refuge. This gate is located on the east side of the A.T. & S.F. R.R. which parallels the highway. Check-in must be no later than 5 a.m., local time, on the day they are to hunt and must check out through the hunter check station by 11 a.m. of that same day. (14) Dogs are prohibited.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge

proposed rules

V 43/208 OCT 26 78

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

(Sec. 2, 33 Stat. 614, as amended; sec. 5, 43 Stat. 651; sec. 5, 45 Stat. 449; sec. 10, 45 Stat. 1224; sec. 4, 48 Stat. 402, as amended; sec. 4, 48 Stat. 451, as amended; sec. 2, 48 Stat. 1270; sec. 4, 80 Stat. 927 (5 U.S.C. 301, 16 U.S.C. 685, 725, 690d, 715i, 664, 718d, 43 U.S.C. 315a, 16 U.S.C. 460k, 668dd), sec. 2, 80 Stat. 926 (16 U.S.C. 668bb).)

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11949 and OMB Circular A-197

GORDON H. HANSEN,
Acting Regional Director,
Albuquerque, N. Mex.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons on opportunity to participate in the rule making prior to the adoption of the final rules.

[6210-01-M]

FEDERAL RESERVE SYSTEM

[12 CFR Part 202]

[Reg. B; Docket No. R-0185]

EQUAL CREDIT OPPORTUNITY

Proposed Rulemaking

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Proposed rules.

SUMMARY: The Board proposes amendments to regulation B that would (1) bring within the scope of the regulation persons such as real estate brokers who select the creditor(s) to which a credit application will be submitted; (2) eliminate the exemption of business credit from the recordkeeping and notification requirements in certain transactions under $100,000; and (3) eliminate the exemption of business credit from the marital status information bar. The proposed amendment regarding business credit would also clarify the existing exemption as it applies to notification requirements.

DATE: Comments must be received on or before December 26, 1978.

ADDRESS: Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. All comments should refer to docket No. R-0185.

FOR FURTHER INFORMATION CONTACT:

Dolores S. Smith, Section Chief, Division of Consumer Affairs, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, 202-452-2412.

SUPPLEMENTARY INFORMATION:

1. CREDIT ARRANGERS

The Board's regulation B, which implements the Equal Credit Opportunity Act, applies to all persons who are creditors, as that term is defined by the regulation. The existing § 202.2(l) definition provides that a creditor is a person who in the ordinary course of business "regularly participates in the decision of whether or not to extend credit."

The staff of the Federal Trade Commission has urged the Board to amend that definition, to include persons who in the ordinary course of business regularly "arrange for the extension of credit." The FTC staff expresses concern that real estate brokers may not be covered by regulation B, since ostensibly they do not participate in the credit decision. The FTC staff points out that, by their participation in the credit application process, real estate brokers may nevertheless be in a position to influence the outcome. They cite a recent HUD report [1] in support of the proposition that discriminatory "steering" by real estate brokers is the cause of serve problems faced by members of minority groups in obtaining housing and that credit discrimination may exacerbate this problem. The FTC staff believes there is authority for making the regulation applicable to these persons based on the statutory definition of "creditor," which includes persons who regularly arrange for the extension of credit.

The proposed amendment would define "creditor," which includes persons who regularly arrange for the extension of credit.

The proposed amendment would define "creditor" in regulation B to include persons who in the ordinary course of business regularly arrange for the extension of credit. "Arrange for the extension of the credit" would mean to refer applicants to sources of credit, or to select the creditors to which applications are to be submitted. Under the proposed language, arrangers of credit would be subject to the basic antidiscrimination rules of regulation B. They would not be subject to its "mechanical" provisions, such as the notification and recordkeeping requirements and the rules concerning applications.

If this proposal were adopted, persons and organizations such as builders, auto dealers, and loan brokers would become creditors to the extent that they engage in referral activities. Groups that regularly refer persons to financing sources, such as neighborhood service centers or State departments of economic development, would also fall within the definition.

The Board invites comments on the following aspects of the proposal in particular:

1. Should arrangers who do not participate in the credit decision be subject to regulation B?

2. If so, should they be subject to provisions different from those proposed?

3. Should the text of the amendment be drawn more narrowly, and if so, how?

2. RECORDKEEPING AND NOTIFICATION REQUIREMENTS IN BUSINESS CREDIT TRANSACTIONS

The second and third proposals relate to the notification and record retention exemptions for business credit provided by Regulation B.

In a consumer credit transaction, a creditor must give the applicant notice of the action it takes and retain its records regarding the credit application for 25 months. Where adverse action occurs, creditors must provide written notice about an applicant's ECOA rights, together with a statement of the reasons or of the right to request the reasons for the denial.

Existing § 202.3(e) partially exempts business credit transactions from the record retention and adverse action requirements. That is, an applicant for business credit may request written notice of reasons for adverse action, but does not receive it automatically. Similarly, the business applicant can request to have the records of the transaction retained for 25 months. If there is no such request, the creditor may discard its records 90 days after it takes adverse action.

The Board has been urged to modify these regulatory exemptions. The FTC staff and the President's Interagency Task Force on Women Business Owners have expressed concern about enforcement of the ECOA in business credit transactions. The FTC staff and the Task Force contend that, without notification by the creditor, women and minority group members who own small businesses may not realize that the ECOA applies to business credit. When credit is denied, they may not know of their right to obtain the reasons for the denial. Thus, they may not protect their rights when unlawful discrimination occurs. In addition, the FTC relies on complaints to guide its enforcement efforts, and the FTC staff is concerned that applicants might not complain to the FTC or to other Federal enforcement agencies about discriminatory treatment. Record retention is similarly considered important to enforcement, in order that documentary evidence be

[1] "Housing Market Practices Survey," prepared jointly by the Department of Housing and Urban Development and the National Committee Against Discrimination, April 1978.

V 4 3 / 2 0 8
0 C 2 6 7 8

available to both private litigants and enforcement agencies.

The proposed amendments would eliminate the business credit exemptions for notification and record-keeping in transactions involving direct loans where the total amount of credit extended by the creditor to the applicant is less than $100,000. In the case of an application, the amount of the loan applied for would be added to loans previously granted in determining whether the exception applies.

As proposed, the amendments regarding notification and record-keeping would affect identical classes of business credit transactions. They are, however, separate proposals and will be dealt with accordingly when the Board takes final action.

If these amendments are adopted, business creditors would be required to comply routinely with the notification and record-keeping provisions in transactions falling within the specified dollar cutoff. The proposal is limited to direct loans to avoid imposing record-keeping and notification requirements on suppliers, who may extend trade credit as an incident to their primary business.

The Board is particularly interested in comments on the following points:

1. What proportion of loan applications are made by business whose outstanding obligations to the creditor aggregate to $25,000 or less, and what proportion of these are declined? $50,000 or less? $75,000 or less? $100,000 or less?

2. What proportion of these businesses have a net worth of more than $100,000?

3. What would it cost to generate an adverse action notice regarding an application for a business loan?

4. When a business loan application is denied, what records do lenders normally retain, and for how long? When an application is granted, what records are retained?

5. What would the incremental cost be of retaining the records of business loan applications as necessary to comply with the proposed record-keeping requirements?

6. Is the $100,000 limitation in the proposal a reasonable criterion in terms of defining a class of businesses that may need additional protection under Regulation B; if not, what other criterion would be better?

3. CLARIFICATION OF NOTIFICATION REQUIREMENTS GENERALLY

Aside from the changes discussed above, the proposed amendment to § 202.3(e) would also clarify the notification responsibilities of creditors to whom the existing business credit exemption applies. Official Staff Interpretation EC-0009 states that, while the full notification requirements of § 202.9 do not apply automatically, a creditor nevertheless must give business applicants some notice, oral or written, of action taken regarding an application or existing account, within a reasonable time. Despite the issuance of this official staff interpretation, however, the Board's staff continues to receive questions on this matter. The Board proposes to amend the business credit provisions (see proposed § 202.3(e)(1)(ii)) so as to incorporate the substance of EC-0009.

4. MARTIAL STATUS INFORMATION BAR FOR BUSINESS CREDIT.

Under Regulation B, a creditor who receives an application for business credit is exempt from the restrictions on asking the applicant's martial status that apply in certain consumer credit applications. The Interagency Task Force on Women Business Owners expresses concern that this exemption is contrary to the congressional intent in enacting the ECOA. They believe it dilutes the protection of the ECOA for women business owners.

The proposed amendment would eliminate the exemption. Business credit would then be subject to all the same restrictions on solicitation of information as consumer credit.

The Board is particularly interested in comments addressing the following issues:

1. To what extent would changes in forms (such as application forms and financial statements) be required?

2. Should the exemption be eliminated only as to certain classes of business credit transactions, as is proposed regarding notification and recordkeeping; and if so, would the same criteria be appropriate?

3. What percentage of business credit applications is for credit to be secured by the owner's assets?

To aid in the consideration of these proposals by the Board, interested persons are invited to submit relevant data, views, comments, or arguments. All such material should be submitted in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than December 26, 1978. All material submitted should refer to docket No. R-0185. Such information will be made available for inspection and copying upon request, except as provided in § 261.6(a) of the Board's rules regarding availability of information (12 CFR 261.6(a)).

This notice is published pursuant to section 553(b) of Title 5 United States Code and § 262.2(a) of the rules of procedure of the Board of Governors of the Federal Reserve System (12 CFR 262.2(a)).

Pursuant to the authority granted in section 703(a) of the ECOA (15 U.S.C. 1691b(a)), the Board proposes to amend Regulation B, 12 CFR part 202, as follows:

1. Section 202.2(1) would be amended to read:

§ 202.2 Definitions and rules of construction.

* * * * *

(l) *Creditor* means any person who in the ordinary course of business regularly participates in the decision of whether or not to extend credit. The term includes an assignee, transferee, or subrogee of an original creditor who so participates; but an assignee, transferee, subrogee, or other creditor is not a creditor regarding any violation of the Act or this part committed by the original or another creditor unless the assignee, transferee, subrogee, or other creditor knew or had reasonable notice of the act, policy, or practice that constituted the violation before its involvement with the credit transaction. The term also includes any person who in the ordinary course of business regularly arranges for the extension of credit but does not participate in the credit decision, except that such persons shall be exempt from the requirements of §§ 202.5(b) through (e) concerning applications, 202.9 relating to notifications, 202.10 relating to furnishing of credit information, 202.12 relating to record retention, and 202.13 relating to information for monitoring purposes. *Arrange for the extension of credit* means to refer applicants or prospective applicants to other creditors, or to select or offer to select creditors to which requests for credit may be made. The term creditor does not include a person whose only participation in a credit transaction involves honoring a credit card.

* * * * *

2. Section 202.3(e) would be amended by deleting paragraph (1), by renumbering existing paragraphs (2), (3), and (4) as paragraphs (1), (2), and (3), respectively, and by revising the paragraphs renumbered (1) and (3):

§ 202.3 Special treatment for certain classes of transactions.

* * * * *

(e) *Business credit.* The following provisions of this part shall not apply to extensions of credit of the type described in subsection (a)(4):

(1) Section 202.9(a) relating to notifications, except that:

(i) This exemption is not available regarding applications for or existing extensions of direct loans where the aggregate of the amounts owed by the applicant to the creditor and any amount applied for is less than $100,000; and

(ii) In the case of any application or account where this exemption is available, the creditor nevertheless shall notify the applicant, orally or in writing, within a reasonable time of any action taken regarding the application or account; and if the applicant, within 30 days after a notification of adverse action is given, requests in writing the reasons for such action, the creditor shall furnish a written statement of specific reasons for the adverse action and the ECOA notice within 30 days of such a request, in accordance with § 202.9(b);

(2) Section 202.10 relating to furnishing of credit information; and

(3) Section 202.12(b) relating to record retention, except that:

(i) This exemption is not available regarding applications for or existing extensions of direct loans where the aggregate of the amounts owed by the applicant to the creditor and any amount applied for is less than $100,000; and

(ii) In the case of any application or account where this exemption is available, the creditor nevertheless shall comply with § 202.12(b) if the applicant, within 90 days after adverse action has been taken, requests in writing that the records relating to the application or account be retained.

* * * * *

By order of the Board of Governors, October 19, 1978.

THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc. 78-30266 Filed 10-25-78; 8:45 am]

DATES: Comments must be received on or before December 26, 1978.

ADDRESSES: Send comments on the proposal in duplicate to: Federal Aviation Administration Office of the Chief Counsel, Attn: Rules Docket (AGC-24) Docket No.—, 800 Independence Avenue SW., Washington, D.C. 20591.

The applicable service bulletin may be obtained from: Manager—Spares and Support, Product Support Department, Short Brothers, Ltd., P.O. Box 241, Airport Road, Belfast BT3 9DZ, Northern Ireland.

A copy of the service bulletin is contained in the Rules Docket, Rm 916, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

D. C. Jacobsen, Aircraft Certification Staff, AEU-100, Europe, Africa and Middle East Region, Federal Aviation Administration, c/o American Embassy, Brussels, Belgium, telephone 513.38.30.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA-public contact, concerned with the substance of the proposed AD, will be filed in the Rules Docket.

There has been a report by the manufacturer that failure of the fuselage skin panel buttstraps on certain serial numbered Short Brothers Ltd. Model SD3-30 airplanes could occur if left in service beyond 10,000 flights. The life limit is established as a result of the discovery that certain early production airplanes had installed buttstraps of a material other than that specified. Since this condition exists on these serial numbered airplanes, an AD is being proposed which would require the replacement or reinforcement of the original fuselage skin panel buttstraps with an improved standard buttstrap installation before the accumulation of 10,000 flights.

THE PROPOSED AMENDMENT

Accordingly, the Federal Aviation Administration proposes to amend § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) by adding the following new Airworthiness Directive:

SHORT BROTHERS LTD. Applies to Model SD3-30 airplanes, S/Nos. SH 3004, 3005, 3006, 3007, and 3008, certificated in all categories.

Compliance is required prior to the accumulation of 10,000 flights, unless already accomplished.

To prevent failure of the fuselage skin panel buttstraps, accomplish the following:

(a) Replace or reinforce the original fuselage skin panel buttstraps in accordance with Section 2, "Accomplishment Instructions" of Short Brothers Ltd. Service Bulletin SD3-53-28, dated May 5, 1978, or an FAA-approved equivalent.

(b) For purposes of complying with this AD, a flight is defined as one takeoff and one landing.

(Secs. 313(a), 601, and 603 Federal Aviation Act of 1958, as amended, (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.85)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9592; March 8, 1978).

Issued in Washington, D.C. on October 19, 1978.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

AIRWORTHINESS DIRECTIVES

Short Brothers Ltd., Model SD3-30 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to adopt an Airworthiness Directive that would require replacement of life limited fuselage skin panel buttstraps on Short Brothers Ltd., Model SD3-30 airplanes. The proposed AD is prompted by a report that failure of the affected components could occur if left in service beyond 10,000 flights which could result in structural failure of the fuselage.

TRANSITION AREA

Alteration of Hartford, Conn., 700-Foot Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice (NPRM) proposes to amend the Hartford, Conn., 700-foot transition so as to provide added protected airspace for aircraft executing two (2) new special MLS standard instrument approach procedures to runways 4 and 22, Rentchler Field, East Hartford, Conn.

DATES: Comments must be received on or before November 21, 1978.

V 43 / 208 0 C 26 7 8

ADDRESSES: Send comments to the Federal Aviation Administration, Office of the Regional Counsel, ANE-7, Attention: Rules Docket Clerk, Docket No. 78-NE-19, 12 New England Executive Park, Burlington, Mass. 01803.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, ANE-7, Federal Aviation Administration, 12 New England Executive Park, Burlington, Mass. 01803.

FOR FURTHER INFORMATION CONTACT:

Richard G. Carlson, Operations Procedures and Airspace Branch, ANE-536, Federal Aviation Administration, Air Traffic Division, 12 New England Executive Park, Burlington, Mass. 01803; telephone 617-273-7295.

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking process by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted to the Office of the Regional Counsel, ANE-7, Attention: Rules Docket Clerk, Docket No. 78-NE-19, Federal Aviation Administration, 12 New England Executive Park, Burlington, Mass. 01803. All communications received on or before November 21, 1978, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of the Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling 202-426-8085. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

The FAA is considering an amendment to subpart G of part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter the Hartford, Conn., 700-foot transition area by adding additional controlled airspace to the northeast of Rentchler Field, a private airport. This action is needed to provide added controlled airspace for aircraft executing new special MLS runways 4 and 22 standard instrument approach procedures (SIAP) to serve Rentchler Field, East Hartford, Conn.

THE PROPOSED AMENDMENT

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend the description of the Hartford, Conn., 700-foot transition area in § 71.181 of the Federal Aviation Regulations (14 CFR Part 71) by:

Deleting from the description, line 7, the words:

Within 3.5 miles each side of a 130° bearing from the Brainard NDB extending from the NDB to 11.5 miles southeast of the NDB; within 2 miles each side of the centerline of runway 4 extending 10 miles from the end of the runway; within 2 miles each side of the centerline of runway 22 extended 10 miles from the end of the runway.

and substituting in lieu thereof the words:

Within 4.0 miles each side of runway 4 centerline extended from the 9-mile radius to 10 miles southwest of the runway threshold and within 4.5 miles each side of runway 22 centerline extended from the 9-mile radius to 10 miles northeast of the runway threshold; within 3.5 miles each side of a 130° bearing from the Brainard NDB extending from the NDB to 11.5 miles southeast of the NDB.

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; Mar. 8, 1978).

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348(a); and section 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Burlington, Mass., on October 9, 1978.

ROBERT E. WHITTINGTON,
Director, New England Region.

[Airspace Docket No. 78-WA-171]

TEMPORARY RESTRICTED AREA

Proposed Designation

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to designate a temporary restricted area south of Fairbanks, Alaska, to contain a military joint readiness exercise called "JACK FROST 79." The proposed action would provide for the safe and efficient use of the navigable airspace by prohibiting unauthorized flight operations of nonparticipating aircraft within the restricted area during its proposed time of designation.

DATES: Comments must be received on or before November 24,1978.

ADDRESSES: Send comments on the proposal in triplicate to: Director, FAA Alaskan Region, Attention: Chief, Air Traffic Division, Docket No. 78-WA-17, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, Alaska 99501.

The official docket may be examined at the following location: FAA Office of the Chief Counsel, Rules Docket (AGC-24), Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

An informal docket may be examined at the office of the Regional Air Traffic Division.

FOR FUTHER INFORMATION CONTACT:

Mr. John Watterson, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; telephone 202-426-8525.

SUPPLEMENTARY INFORMATION:

COMMENT INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Alaskan Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, Alaska 99501. All communications received on or before November 24, 1978, will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling 202-426-8058. Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

The FAA is considering amendments to § 71.151 of Part 71 and § 73.22 of Part 73 of the Federal Aviation Regulations (14 CFR Parts 71 and 73) to designate a temporary restricted area identified as R-2212 south of Fairbanks, Alaska, to contain a military joint readiness exercise called "JACK FROST 79." Since this restricted area would penetrate the continetal control area, it would be listed under § 71.151 to provide controlled airspace above 14,500 feet MSL. Training exercise JACK FROST 79 will involve a variety of missions including close air support, air interdiction, tactical reconnaissance, aerial resupply, and paradrops and aerial refueling. Total air traffic associated with this exercise is expected to total approximately 100 fixed wing and 150 helicopter sorties per day. The restricted area would be designated as joint use and nonparticipation flights would be authorized to penetrate the area when not in use by the using agency. The controlling agency for the proposed restricted area would be the FAA, Fairbanks Air Route Traffic Control Center.

The Department of Air Force, Alaskan Air Command, will serve as lead agency for purposes of compliance with the National Environmental Policy Act. Comments on any land use problems can be addressed to Maj. J. R. Davis, 907-752-5346, DOOS Headquarters, Alaskan Air Command, Elmendorf, Alaska 99506.

In addition to the rulemaking action proposing to establish R-2212, the FAA proposes nonrulemaking action which would establish a temporary MOA identified as FROSTY to contain a lesser concentration of aircraft including jet fighters primarily operating to and from the proposed restricted area. The temporary MOA would be established as follows:

FROSTY MOA

Boundaries. Beginning at Lat. 64°23'00"N., Long. 148°0700"W.; via the east bank of the Wood River to Lat. 64°15'30"N., Long. 147°45'00"W.; to Lat. 64°15'30"N., Long. 147°00'00"W.; to Lat. 64°23'00"N., Long. 147°00'00"W., via the west bank of the Tanana River to Lat. 64°16'30"N., Long. 146°43'00"W., via the east bank of the Little Delta River to Lat. 63°50'00"N., Long. 146°48'00"W., to Lat. 63°56'00"N., Long. 147°03'00"W., to Lat. 63°58'00"N., Long. 148°00'00"W., to point of beginning.

Altitudes. From 1,000 feet AGL to but not including FL 180.

Times of use. January 22, 1979, through February 7, 1979, from 0600 to 1800 local time, intermittent other times.

Controlling agency. Federal Aviation Administration, Anchorage ATRCC.

Scheduling agency. Alaskan Air Command, Elmendorf Air Force Base, Alaska.

THE PROPOSED AMENDMENT

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend § 71.151 of Part 71 and § 73.22 of Part 73 of the Federal Aviation Regulations (14 CFR Parts 71 and 73) as republished (43 FR 344 and 663) as follows:

In § 71.151 (43 FR 344), the following temporary restricted area is added during its time of designation:

R-2212 CLEAR CREEK, ALASKA

In § 73.22 (43FR 663), the following temporary restricted is added:

R-2212 CLEAR CREEK, ALASKA

Boundaries. Beginning at Lat. 64°41'00"N., Long. 147°55'00"W.; to Lat. 64°40'00"N., Long. 147°20'00"W.; via the west bank of the Tanana River to Lat. 64°23'00"N., Long. 147°00'00"W.; to Lat. 64°15'30"N., Long. 147°00'00"W.; to Lat. 64°15'30"N., Long. 147°45'00"W.; via the east bank of the Wood River to Lat. 64°23'00"N., Long. 148°07'00"W.; to point of beginning.

Designated altitudes. Surface to but not including Flight Level 200.

Time of designation. January 22, 1979, through February 7, 1979, continuous from 0600 to 1800 local time, intermittent other times.

Controlling agency. Federal Aviation Administration, Anchorage ARTCC.

Using agency. Alaskan Air Command, Elmendorf Air Force Base, Alaska.

(Secs. 307(a), 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a), 1354(a)); sec. (6), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.65.)

NOTE.—The FAA has determined that this document involves a regulation which is not significant under the procedures and criteria prescribed by Executive Order 12044 and implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Washington, D.C., on October 23, 1978.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

OBJECTS AFFECTING NAVIGABLE AIRSPACE

Regulatory Review Program Conference

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of Availability of Agenda; Compilation of Proposals; and Announcement of Conference.

SUMMARY: This notice announces the availability of the agenda and compilation of proposals, and the location, times and date of the conference to consider proposals submitted in response to Notice 78-9 concerning the Part 77 Regulatory Review program.

DATE: The conference will be held December 4-8, 1978, in Washington, D.C.

ADDRESSES: Copies of agenda and compilation of proposals may be requested from: Federal Aviation Administration, Air Traffic Service, Airspace and Air Traffic Rules Division (AAT-200), 800 Independence Avenue SW., Washington, D.C. 20591. The review will be held in: Department of Transportation Conference Room 2230, 400 Seventh Street SW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

O. E. Falsetti, Airspace Obstruction and Airports Branch (AAT-240) Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone 202-426-8777.

SUPPLEMENTARY INFORMATION

HISTORY

On June 16, 1977, the Federal Aviation Administration published Notice No. 77-7 in the FEDERAL REGISTER (42 FR 30643) inviting interested persons to submit proposals to amend part 77. On June 19, 1978, the Federal Aviation Administration published Notice No. 78-9 in the FEDERAL REGISTER (43 FR 26322) announcing a regulatory review program and inviting interested persons to submit proposals for a regulatory review conference concerning recommended amendments to part 77 of the Federal Aviation Regulations.

COMPILATION OF PROPOSALS

The FAA has prepared a compilation of proposals after reviewing and evaluating each proposal submitted by interested persons in response to the invitation in Notice No. 78-9. This compilation also contains FAA proposals for consideration during the regulatory review. The FAA hereby announces the availability of this compilation. A copy will be sent to each person who submitted a proposal in response to Notice Nos. 77-7 and 78-9. Any other persons desiring a copy of the compilation may request it by writing to the above address. It is expected the compilation will be mailed on or about November 3, 1978.

AGENDA

All proposals received were considered in preparing the agenda for the Part 77 Regulatory Review Confer-

ence. That agenda is included with the compilation.

LOCATION AND TIMES

Office of the General Counsel, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428, 202-673-5206.

course for British Airways is to file comments addressed to these issues. To allow interested persons to address the issues in light of our action here,

Aviation Act and part 223 of the Board's Economic Regulations, an airline receiving the benefits of free or reduced-rate transportation must be

§ 223.2 Persons to whom free and reduced-rate transportation may be furnished.

In addition to the persons specified

William F. Adler, Office of the General Counsel, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428, 202-

V 43 / 208 OCT 26 78

ence. That agenda is included with the compilation.

LOCATION AND TIMES

The review will be held in the Department of Transportation Conference Room 2230 at 400 Seventh Street SW., Washington, D.C. The conference hours on December 4 will be 9 a.m. to 4 p.m. For all other days the hours will be 8:30 a.m. to 4 p.m.

There will be no charge or other fee to attend or participate in the conference. All conference sessions will be open on a space available basis. All meetings will be tape recorded.

PROPOSED AND FINAL RULEMAKING

Orat and written presentations at the conference and written comments received during the periods June 16 to September 14, 1977, and June 19 to August 7, 1978, will be considered in developing any subsequent notices of proposed rulemaking issued in conjunction with the Part 77 Regulatory Review program.

(Secs. 104, 307, 313(a), and 1101, Federal Aviation Act of 1958 (49 U.S.C. subsections 1304, 1348, 1354(a), and 1501); sec. 6(c), Department of Transportation Act (49 U.S.C. Sec. 1655(c); and 14 CFR 11.45).)

Issued in Washington, D.C., on October 23, 1978.

B. KEITH POTTS,
Acting Chief,
Airspace and Air Traffic Rules Division, AAT-200.

CIVIL AERONAUTICS BOARD

[14 CFR Ch. II]

[EDR-347E/PDR-49E, Docket No. 32219, Dated: October 18, 1978]

U.S. CORPORATIONS WHICH DO NOT QUALIFY AS A "CITIZEN OF THE UNITED STATES"

Supplemental Advance Notice of Proposed Rulemaking

AGENCY: Civil Aeronautics Board.

ACTION: Supplemental advance notice of proposed rulemaking.

SUMMARY: This notice denies the motion of British Airways for clarification of how the Board's tentative legal conclusion that U.S. corporations are citizens of the United States for purposes of section 408(a)(4) of the Federal Aviation Act would be applied to foreign governments if finalized, and extends the comment date until November 6

DATE: Comments by November 6, 1978.

FOR FURTHER INFORMATION CONTACT:

Donald H. Horn, Routes Division, Office of the General Counsel, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428, 202-673-5206.

SUPPLEMENTAL INFORMATION: By advance notice of proposed rulemaking (EDR-347/PDR-49, 43 FR 10938, March 16, 1978), the Civil Aeronautics Board gave notice of its tentative conclusion that U.S. corporations are citizens of the United States for purposes of section 408(a)(4) of the Federal Aviation Act. It requested comments on that tentative conclusion, including the nature and extent of the problems that might be created by finalizing that tentative conclusion, and what regulatory action might be taken to minimize them consistent with statutory objectives. Comments were requested to be filed by May 1, 1978. By a series of supplemental advance notices of proposed rulemaking, the date for the filing of comments has been extended until October 23, 1978 (EDR-347D/PDR-49D, 43 FR 41410, September 18, 1978).

On June 26, 1978, British Airways filed a motion for clarification and extension of time. It states that there are grounds for assuming that the Board intends to apply section 408(a)(4) to all acquisitions of U.S. corporations engaged in a phase of aeronautics by governments which control foreign air carriers. However, the Department of State's statement of further views suggests that the Board had not intended to extend the application of section 408(a)(4) to foreign government acquisitions of U.S. corporations engaged in a phase of aeronautics unrelated to commercial air services, such as the manufacture, distribution, sale, or purchase of aerospace products. British Airways asserts that the resulting confusion as to whether and/or how the Board intends to apply section 408(a)(4) to foreign governments controlling foreign air carriers makes it impossible to evaluate the impact of the proposed rulemaking. It, therefore, asks the Board to clarify the point and extend the comment time pending that clarification.

We have decided to deny the motion for clarification. British Airways states that our proposed legal conclusion can be interpreted in at least two ways, and requests that we clarify our interpretation. However, the issues in this rulemaking specifically include how section 408(a)(4) should properly be interpreted and, as to relationships which are covered, what means (including rules, reports, approvals, and disclaimers) should be employed to minimize regulatory requirements consistent with statutory objectives. Thus, British Airways is, in essence, requesting that we resolve, at the outset, issues that this rulemaking was designed to help us decide. The proper course for British Airways is to file comments addressed to these issues. To allow interested persons to address the issues in light of our action here, we will extend the comment date by two weeks.

Accordingly, British Airways' motion for clarification of EDR-347/PDR-49 is denied. Comments in this rulemaking are due by November 6, 1978.

(Sec. 204(a), Federal Aviation Act of 1958, as amended, 72 Stat. 743, (49 U.S.C. 1324).)

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[EDR-364, Docket 33724, October 20, 1978]

INTRASTATE CARRIERS

Exemption for Air Carriers to Provide Free or Reduced-Rate Transportation

AGENCY: Civil Aeronautics Board.

ACTION: Notice of proposed rulemaking.

SUMMARY: Under existing Board regulations, air carriers may provide free or reduced-rate transportation only to other "air carriers" within the meaning of the Act. Currently, intrastate carriers may not receive the benefits of this free and reduced-rate transportation unless exempted from section 403(b) of the Act. This notice proposes a blanket exemption allowing free or reduced-rate transportation to officers, directors, employees, and retirees (and their immediate families) of intrastate air carriers.

DATE: Comments by: December 26, 1978. Comments and other relevant information received after this date will be considered by the Board only to the extent practicable.

ADDRESSES: Twenty copies of comments should be sent to Docket 33724, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428. Individuals may submit their views as consumers without filing multiple copies. Copies may be examined in Room 711, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. as soon as they are received.

FOR FURTHER INFORMATION CONTACT:

Judith E. Retchin, Bureau of Pricing and Domestic Aviation, 1825 Connecticut Avenue NW., Washington, D.C. 20428; 202-673-35009.

SUPPLEMENTARY INFORMATION: Under section 403(b) of the Federal Aviation Act and part 223 of the Board's Economic Regulations, an airline receiving the benefits of free or reduced-rate transportation must be an air carrier within the meaning of the Act.[1] Therefore, if an air carrier wishes to engage in reciprocal nonrevenue transportation with an intrastate carrier, the air carrier must be granted an exemption from section 403(b).

We anticipate many air carriers will seek exemptions under section 416(b). To obviate the necessity of applying for exemptions on an ad hoc basis and to free Board staff to concentrate on more pressing matters, we propose to grant a blanket exemption from section 403(b) to air carriers desirous of engaging in reciprocal free or reduced-rate transportation with intrastate carriers.

Under section 416(b), a blanket exemption is warranted because it would be a needless exercise and an undue burden to require air carriers to file pro forma requests for exemptions, when the Board has already indicated its willingness to grant these exemptions. The blanket exemption is in the public interest because it facilitates interlining, a statutory objective of section 404(a). Besides the statutory language in section 404(a) which encourages interlining, Congress recently enacted Pub. L. 95-163[2] which statutorily permits specified intrastate carriers to interline. In orders 78-3-63 and 78-3-137, the Board invited other intrastate carriers to seek exemption authority to carry interline traffic. In short, the Board believes interlining promotes the public interest, and free and reduced-rate transportation which facilitates interlining should be encouraged.

Besides facilitating interlining, free and reduced-rate transportation is consistent with the public interest in that it familiarizes airline employees with the services and facilities of other airlines, thus resulting in more knowledgeable travel advice and information from airline personnel; it promotes air transportation by building good will between the airlines; it bolsters the morale of airline employees; and it comports with out policy of permitting airlines greater flexibility in business decisions.

PROPOSED RULE

We propose to add a new subsection (i) to § 223.2 of the Board's Economic Regulations (14 CFR 223.2), to read as follows:

[1] By orders 76-8-80 and 77-1-139, the Board disapproved an agreement for reciprocal nonrevenue transportation between Continental and Air California, because Air California, an intrastate airline, did not come within the definition of air carrier.

[2] The applicable section of Pub. L. 95-163 is found in section 401(d)(4)(A) of the Act.

§ 223.2 Persons to whom free and reduced-rate transportation may be furnished.

In addition to the persons specified in subparts B and C of this part:

. . . . . .

(i) Any air carrier is hereby exempted from section 403(b) of the Act and part 221 of the Board's Economic Regulations to the extent necessary to enable it to provide free or reduced-rate transportation to directors, officers, employees and retirees (and members of their immediate families) of intrastate carriers.

(Sections 204, 401, 403 and 416, Federal Aviation Act of 1958, as amended; 72 Stat. 743, 754 as amended, 758 as amended, and 771; 49 U.S.C. 1324, 1371, 1373 and 1386.)

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc. 78-30332 Filed 10-25-78; 8:45 am]

[PDR-57, Docket 33723, October 20, 1978]

RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

Applications for Route Authority

AGENCY: Civil Aeronautics Board.

ACTION: Notice of proposed rulemaking.

SUMMARY: These proposed amendments would require a motion to have a new route application consolidated with an earlier one to be made within 30 days of the filing date of the earlier one. It would also prohibit petitions for reconsideration asking for changes in the scope of route proceedings after instituting orders have been issued. The Board is proposing these amendments on its own initiative to reduce the time needed to complete route proceedings.

DATE: Comments by December 26, 1978. Comments and other relevant information received after this date will be considered by the Board only to the extent practicable.

ADDRESSES: Twenty copies of comments should be sent to Docket 33093, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428. Individuals may submit their views as consumers without filing multiple copies. Comments may be examined in Room 711, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C., as soon as they are received.

FOR FURTHER INFORMATION CONTACT:

William F. Adler, Office of the General Counsel, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428, 202-673-5205.

SUPPLEMENTARY INFORMATION: In recent months, the Board's progress in reducing the time period between the filing of applications for route authority and the grant or denial of those applications has been impeded by the necessity to act on numerous requests to change the scope of recently instituted route proceedings. For example, if the Board, in response to an application, issues an order instituting an investigation into the need for service in markets A-B and A-C, a second applicant may then submit a petition for reconsideration to expand the case to include A-D and A-E. A third applicant may then seek the inclusion of the B-C and D-E markets, and a fourth may thereafter ask for the inclusion of consideration of beyond-market authority such as A-B-X or A-D-Y.

The task of determining the proper scope of route proceedings will remain, regardless of the timing of these requests. We have tentatively concluded, however, that these scoping decisions will be made easier if any requests to add markets or issues to the proceeding are made before an instituting order is issued.

To accomplish this, we first proposed to amend rule 908 of our rules of practice in economic proceedings to specify that motions to consolidate one route application with another must be filed within 30 days of the service date of the earlier one. We realize that this action may not completely solve the problem, since potential applicants will have the right, within 30 days after a second motion is filed, to seek consolidation of a third application with the second one, and so forth. In most instances, however, we believe that the major outlines of potential cases will be revealed by the time that the second or third "round" of pleadings has been received.

We propose to amend rule 37 of our rules of practice to provide that the Board will not consider requests to change the scope of a route proceeding after an instituting order has been issued. Thus, unless a petitioner can establish that there was a good reason why its request was not made sooner, in an accompanying motion to file an otherwise unauthorized document under rule 4, only one instituting order will be required to define each proceeding. We would also amend rule 12 (CFR 302.12) to make it clear that its general provisions are superseded, to the extent of any conflict, by the more specific provisions of rule 908.

These proposed rules represent only tentative conclusions as to how to

V 43 / 208 OCT 26 78

solve this problem. We would like to receive other suggestions, instead of or in addition to these proposals, on how to reduce regulatory delays in the structuring of route investigations.

Accordingly, we propose to amend 14 CFR Part 302, Rules of Practice in Economic Proceedings, as follows:

1. In paragraph (b) of § 302.12, the phrase "and except as provided in Rule 908," would be added after the phrase "Unless the Board has provided otherwise in a particular proceeding,".

2. In paragraph (a) of § 302.27, the phrase "and except for petitions seeking changes in the scope of route proceedings as defined in instituting or scoping orders," would be added after the phrase "unless an order or a rule of the Board specifically provides otherwise,".

3. A new paragraph (g) would be added to § 302.908, to read as follows:

§ 302.908 Applications for new or modified certificated route authority.

* * * * *

(g) All motions seeking consolidation for hearing with another application must be filed within 30 days of the service date of the application with which consolidation is sought.

(Sec. 204 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 49 U.S.C. 1324.)

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc. 77-30334 Filed 10-25-78; 8:45 am]

[6320-01-M]

[14 CFR Part 380]

[SPDR-50C; Special Regulations Docket 29165; Dated: October 19, 1978]

CONSUMER PROTECTIONS FOR CHARTER PARTICIPANT

Simplified Prospectus Filing Procedures

AGENCY: Civil Aeronautics Board.

ACTION: Supplemental Notice of Proposed Rulemaking.

SUMMARY: This action extends for 21 days the filing date for comments in a rulemaking proceeding regarding refund provisions and disclosure requirements in charter packages, and simplified prospectus filing procedures. This action was requested by Amexco and supported by the National Air Carrier Association.

DATES: Comments by November 13, 1978. Reply comments by November 28, 1978.

ADDRESSES: Comments should be sent to Docket 29165, Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. Docket comments may be examined at the Docket Section, Civil Aeronautics Board, Room 711, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., as soon as they are received.

FOR FURTHER INFORMATION CONTACT:

Mark Schwimmer, Office of the General Counsel, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428; 202-673-5442.

SUPPLEMENTARY INFORMATION: By Notice of Proposed Rulemaking SPDR-50B (43 FR 39807, September 7, 1978) the Board proposed to amend the Public Charter regulation (14 CFR Part 380) to entitle charter participants to refunds when there are major changes, and to establish new requirements for advertising and for contracts between tour operators and participants. The proposed amendment also would simplify procedures for filing prospectuses, and requested comments on requiring operators to obtain permits. The comment closing date was October 23, 1978.

American Express Co. (Amexco) has requested an extension of 21 days for filing comments. The request is supported by the National Air Carrier Association.

Amexco stated that its staff has undertaken an analysis and review of the cost impact of compliance with the proposed regulation and needs more time to complete it. Amexco further stated that an extension would be beneficial to many other persons, since the American Society of Travel Agents (ASTA) is having its annual meeting during the week immediately preceding the October 23 filing date. SPDR-50 is a likely topic of discussion there and the result would be that travel officers would be able to submit more informed responses to the proposal.

The supporting letter from NACA based its request on the complexity of the Board's proposal and the need to address the cost impact of each aspect of that proposal, as well as the reasons given in the Amexco request.

Upon consideration of the above, the undersigned finds good cause to grant the request for an extension of time for the preparation of views on the proposed rule.

Accordingly, pursuant to authority delegated in § 385.20(d) of the Board's Organization Regulations (14 CFR 385.20(d)), the time for filing comments is extended to November 13, 1978, and the time for reply comments is extended to November 28, 1978. The Board intends to maintain the target date of January 15, 1979 for adoption of a final rule, so that the new rules can apply to participants in summer charters.

(Sec. 204(a) of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 49 U.S.C. 1324.)

RICHARD B. DYSON,
Associate General Counsel,
Rules Division.

DEPARTMENT OF COMMERCE

Office of the Secretary

[15 CFR Part 7C]

NATIONAL VOLUNTARY LABORATORY ACCREDITATION PROGRAM

Optional Laboratory Accreditation Procedures Designed for Voluntary Standards Bodies in the Private Sector

AGENCY: Assistant Secretary of Commerce for Science and Technology.

ACTION: Proposed optional procedures for a National Voluntary Laboratory Accreditation Program (NVLAP) serving the needs of voluntary standards bodies in the private sector.

SUMMARY: The original NVLAP procedures (redesignated as Title 15, CFR Part 7A) place upon the Secretary of Commerce the responsibility for making a finding of need for a laboratory accreditation program after a request for such program serving a specific product has been received by the Secretary from any person (including associations, companies, societies, etc.). In addition, under those procedures, the Secretary is responsible for establishing a Criteria Committee to recommend general and specific criteria for use in accrediting laboratories which voluntarily seek such accreditation.

This document proposes optional NVLAP procedures to allow for more flexibility in the initiation of laboratory accreditation programs by relying upon the private sector, namely, certain voluntary standards bodies, to define a need for such programs and recommend criteria to the Secretary. Portions of the Original NVLAP procedures (redesignated Title 15, CFR Part 7A) dealing with promulgating proposed laboratory accreditation criteria for public comment, evaluating testing laboratories based upon a final criteria arrived at by considering the public comment, and appeals of actions remain essentially unchanged in these optional procedures.

DATES: Interested parties are requested to submit their comments not later than December 26, 1978. A request for an informal hearing may be made before November 15, 1978.

FOR FURTHER INFORMATION CONTACT:

Dr. Howard I. Forman, Deputy Assistant Secretary for Product Standards, Room 3876, U.S. Department of Commerce, Washington, D.C. 20230, 202-377-3221.

SUPPLEMENTAL INFORMATION: In line with the Federal Government's general policy of relying upon the private sector to supply Government needs for goods and services, and of relying on voluntary standards whenever feasible and consistent with law and regulation pursuant to law, the Secretary proposes to rely on voluntary standards bodies in the private sector to articulate the need for laboratory accreditation programs and to recommend general and specific criteria compatible with such criteria promulgated under NVLAP Part 7A for accrediting laboratories. The original NVLAP procedures (which have been redesignated as Title 15, CFR Part 7A) remain applicable to serve any requestor and voluntary standards bodies in the private sector which may choose to use those procedures instead of the optional procedures described herein.

The original procedures for the operation of the national Voluntary Laboratory Accreditation Program (NVLAP) were published in the FEDERAL REGISTER (41 FR 8163-8168) on February 25, 1976. The goal of that program is to provide, in cooperation with the private sector, a national voluntary system to examine upon request the professional and technical competence of private and public testing laboratories that serve regulatory and nonregulatory product evaluation and certification needs. These original procedures require that the Secretary of Commerce make a preliminary finding of need for each laboratory accreditation program, obtain public comment on the preliminary finding and, where appropriate, make a final finding of need. Once the final finding of need has been established, general and specific criteria for accrediting laboratories are developed and recommended to the Secretary by a National Laboratory Accreditation Criteria Committee (NLACC) established for that purpose. The Secretary, after consideration of such recommendations, then publishes the proposed accreditation criteria in the FEDERAL REGISTER for public comment. After evaluation of such comment, the Secretary, where appropriate, will publish in the FEDERAL REGISTER the final accreditation criteria and a statement of fees to be charged applicants for accreditation, and will begin to evaluate and accredit testing laboratories which apply and which meet the requirements of those criteria.

The optional procedures proposed herein do not in any way affect the NVLAP operations under the original procedures. These optional procedures do, however, provide an alternative approach to establishing a NVLAP for use by voluntary standards bodies in the private sector should such bodies desire to use them in specific situations. Voluntary standards bodies are nongovernmental bodies which are broadly based, multimember, domestic, and multinational organizations including, for example, nonprofit organizations, industry associations, and professional technical societies which develop, establish, and coordinate voluntary standards.

This optional approach considerably shortens the time required to initiate a laboratory accreditation program under NVLAP by eliminating the time required by the Secretary to make a final finding of need for such program and eliminating the need to establish an independent criteria committee if the program is requested by a voluntary standards body in the private sector accompanied by recommended evaluation criteria compatible with criteria published under NVLAP Part 7A procedures. These optional procedures retain the provisions in the original NVLAP procedures which require that proposed evaluation criterial be published in the FEDERAL REGISTER and be subjected to public review and comment which must be taken into account in arriving at the final criteria for accrediting laboratories.

This optional approach also makes provision for payment of the actual or estimated cost of developing the NVLAP program requested by the voluntary standards body. The actual cost of examining the laboratories, however, will be charged to the laboratories actually accredited.

Regulatory analysis. President Carter's Executive Order 12044, "Improving Government Regulations," directs that a regulatory analysis be prepared for each significant regulation determined to have potential major economic consequences for the general economy, for individual industries, geographic regions, levels of government, or specific elements of the population. These proposed procedures would not in and of themselves have such major economic consequences. It is only in the implementation of these procedures by the development of a laboratory accreditation program for a given product that such economic consequences could be estimated.

Under these part 7C procedures, the request for a NVLAP program can only come from voluntary standards bodies, it is presumed that any potentially major economic consequences will be considered during deliberations of such voluntary standards body in arriving at the decision to request such a NVLAP. Since the requesting voluntary standards body must comply with due process provisions which provide for input from all affected parties, no regulatory analysis will be required under these part 7C procedures.

Request for comments. Interested persons desiring to comment on the proposed part 7C operational procedures set out below are invited to submit such comments, in four copies, on or before December 26, 1978, to the Assistant Secretary for Science and Technoloy, Department of Commerce, Room 3864, Main Commerce Building, Washington, D.C. 20230.

Any person desiring to express his or her views in an informal hearing relative to the mentioned preliminary finding of need shall notify the Assistant Secretary for Science and Technology at the address shown in the preceding paragraph of that desire in writing on or before November 15, 1978. Upon receipt of such requests, informal public hearings will be held so as to give all interested persons an opportunity for the oral presentation of data, views, or arguments, in addition to the opportunity to make written submissions. If deemed appropriate, such hearings may be held at two locations, one of which shall be east of the Mississippi River and the other west thereof. Notice of such hearing will be published in the FEDERAL REGISTER at least twenty (20) days in advance thereof. A transcript will be made of any oral presentation.

All written and oral comments and testimony that are furnished in response to the invitation made by this notice will also be made part of the public record and will be available for inspection and copying in the Department's Central Reference and Records Inspection Facility (CRRIF), Room 5317, Main Commerce, Building, 14th Street between E Street and Constitution Avenue NW., Washington, D.C. 20230.

Dated: October 20, 1978.

JORDAN J. BARUCH,
Assistant Secretary for Science and Technology.

Part 7C is added to Title 15 CFR to read as follows:

AUTHORITY: Sec. 2, 31 Stat. 1449, as amended; sec 1, 64 Stat. 371 (15 U.S.C. 272); Reorganization Plan No. 3 of 1946, part VI.

§ 7C.1 Purpose.

The purpose of this part is to establish procedures under which a National Voluntary Laboratory Accreditation Program (NVLAP) serving voluntary standards bodies in the private sector which determine that a need for such accreditation program exists will function.

§ 7C.2 Description and goal of program.

(a) This program extends the provisions of NVLAP (title 15 CFR Part 7A) to examine the professional and technical competence of testing laboratories that serve the public interest. Testing laboratories that meet the qualifications established pursuant to the procedures set out below would be accredited. This program will also require those testing laboratories wanting to maintain accredited status to undergo periodic checks and examinations. In conjunction with the NVLAP Part 7A program (part 7A is the redesignation of the original Part 7, CFR Title 15 titled, "Procedures for a National Voluntary Laboratory Accreditation Program," as published in the FEDERAL REGISTER, volume 41, No. 38, Wednesday, February 25, 1976 (pp. 8163-8168)), this part 7C program will seek, through coordination and consultation, to maximize benefits derived from other testing laboratory examination and accreditation activities. In this way, it is intended that the program will avoid duplication of other testing laboratory examination or accreditation programs conducted by the public and private sectors.

(b) The intended goal of this program is to simplify and shorten the NVLAP procedures, thereby serving the needs of industry and consumers in an even more timely basis by accrediting this Nation's testing laboratories when requested to do so by voluntary standards bodies in the private sector. Achievement of this goal would be attained by a uniformly acceptable base of clearly defined professional and technical competence in testing laboratories and by establishing a background of experience necessary to the orderly evolution of a laboratory accreditation system designed to serve national needs as they develop.

§ 7C.3 Definitions.

(a) The term "Secretary" means the Secretary of Commerce or the Secretary's designee.

(b) The term "voluntary standards bodies" refers to nongovernment bodies which are broadly based, multimember, domestic, and multinational organizations including, for example, nonprofit organizations, industry associations, and professional technical societies which develop, establish, or coordinate voluntary standards. To be eligible to request a NVLAP under these procedures, such voluntary standards bodies must comply with the conditions set out below:

(1) Public notice of meetings and other standards activities, including requests for NVLAP's is provided in an appropriate and timely fashion;

(2) Meetings are open and participation in standards activities is available to interested persons;

(3) Decisions reached by voluntary standards bodies in their standards activities represent substantial agreement;

(4) Prompt consideration is given to the expressed views and concerns of all interested parties;

(5) Adequate and impartial mechanisms for handling substantive and procedural complaints and appeals are in force;

(6) Appropriate records are maintained and official procedures of the standards body are published.

(c) The term "Product" includes the plural thereof and means a type or a category of manufactured goods, constructions, installations and natural and processed materials or those associated services whose characterization, classification or functional performance determination is specified by standards.

(d) The term "Criteria Committee" means a National Laboratory Accreditation Criteria Committee appointed by the Secretary under these procedures.

(e) The term "person" means associations, companies, corporations, educational institutions, firms, government agencies at the Federal, State and local level, partnerships, and societies, as well as divisions thereof, and individuals.

(f) The term "testing laboratory" means any "person" as defined above whose functions include testing, analyzing or inspecting "product," as defined above, and/or evaluating the designs or specifications of such "products" according to the requirements of applicable standards.

(g) The term "general criteria" means those characteristics of a testing laboratory commonly found in, and generally expected of, such a laboratory serving the product under consideration. See in this connection § 7C.5(a).

(h) The term "specific criteria" means those detailed requirements deemed essential to assuring an acceptable examination and evaluation of the testing function performed by a testing laboratory in performing specific tests related to identified standards for the product under consideration. See in this connection § 7C.5(a).

§ 7C.4 Request to accredit testing laboratories.

(a) Any voluntary standards body which has determined there is a need to accredit testing laboratories that test products using identical standards may request the Secretary to establish a NVLAP based on these part 7C procedures for use in helping to assure that such product meets the requirements of those identical standards.

(b) Such a request shall be in writing and will include the following:

(1) Identification of the product;

(2) Test of applicable standards;

(3) Text of test methods, if not included in the applicable standard identified in paragraph (b)(2) of this section; and

(4) Recommended general and specific criteria compatible with NVLAP part 7A criteria to be used in accreditation of test laboratories or a request for the establishment of a National Laboratory Accreditation Criteria Committee to develop and recommend such criteria to the Secretary.

(5) A statement of need identified under paragaraph (a) of this section for accrediting testing laboratories that serve the product identified in paragraph (b)(1) of this section and a list of users who committed themselves to make use of the program.

(6) A statement of willingness to support any necessary developmental aspects of the program with funding and personnel as agreed between the Secretary and the voluntary standards body.

(c) If on the basis of the information provided or because of the lack of funding and personnel from the requesting voluntary standards body the Secretary is unable to justify the establishment of a NVLAP under these part 7C procedures, the Secretary will decline to act further on the request. The Secretary shall in that event notify the requesting agency in writing within ten (10) working days after making a decision and shall state the reasons for so declining.

(d) If a request received under this section is believed to affect an existing or developing testing laboratory examination or accreditation program of a Federal regulatory agency, the Secretary shall seek from the head of such agency its views relative to the Secretary's making a preliminary finding of need. If within thirty (30) days after receipt of the Secretary's solicitation of views, of such extension of time as may be agreed to by the Secretary, the head of the affected Federal regulatory agency explains, in writing, his objections to the Secretary's making a preliminary finding of need, the Secretary shall cease to act further on the making of such finding. In that event, the Secretary shall notify the requestor of such objections and of his declination to act on the request pursuant to paragraph (c) of this section.

§ 7C.5 Establishment of criteria with which to accredit laboratories.

(a) Laboratories will be accredited on the basis of their conformance to general and specific accreditation criteria issued by the Secretary under these procedures. The general criteria will deal with those qualities which make for an effective testing laboratory. The specific criteria will be based on the requirements of the relevant standards and test methods involved.

(b) Laboratory accreditation criteria may be recommended to the Secretary by the requesting voluntary standards body, or may be developed by a National Laboratory Accreditation Criteria Committee described in the NVLAP procedures (newly redesignated § 7A.6) The choice of which approach to use will lie with the voluntary standards body requesting the program.

(c) The Secretary will decide, after consultation with the requesting voluntary standards body, on the precise language and format of the proposed general and specific criteria to be published by the Secretary in the FEDERAL REGISTER. In making the decision, the Secretary will consider:

(1) The needs and scope of the program of the requesting voluntary standards body;

(2) Compatibility with other criteria already established and being used in other NVLAP's; and

(3) The nature and content of other related laboratory accreditation programs that may be applicable to this specific request.

§ 7C.6 Establishment and functions of a National Laboratory Accreditation Criteria Committee.

(a) In those instances where a voluntary standards body declines to recommend laboratory accreditation criteria, the Secretary, will establish a National Laboratory Accreditation Criteria Committee in order to develop and recommend general and specific criteria for accrediting laboratories serving the product specified.

(b) Membership in each National Laboratory Accreditation Criteria Committee thus established shall consist of a combination of Federal, State, and local government personnel and qualified representatives chosen from among producers, users, consumers, testing laboratories, academia and general interest groups, in accordance with the relevant provisions of the NVLAP procedures (redesignated § 7A.6 of Part 7 CFR Title 15).

§ 7C.7 Development and recommendation of criteria for accrediting testing laboratories.

(a) The Secretary, the requesting voluntary standards body in those cases where it has elected to recommend general and specific criteria, or the Criteria Committee acting at the request of the Secretary in developing general and specific criteria to accredit testing laboratories that serve a specific product shall consider factors such as:

(1) For general criteria pertaining to testing laboratories:

(i) Organization;

(ii) Staff;

(iii) Physical plant;

(iv) Operational processes;

(v) Control procedures;

(vi) Quality assurance; and

(vii) Professional and ethical business practices, as appropriate.

(2) For specific criteria pertaining to testing laboratories:

(i) Personnel and equipment qualifications required of the testing laboratory function;

(ii) Requirements applicable to proficiency sample programs;

(iii) Application requirements;

(iv) Initial and periodic examination and audit procedures; and

(v) Professional and technical qualifications of personnel who examine testing laboratories.

(b) The general and specific criteria developed under this section for accrediting testing laboratories will be based upon criteria found in existing standards where such existing criteria are deemed appropriate and compatible with criteria developed under NVLAP part 7A procedures. Where appropriate existing criteria cannot be found, the requesting voluntary standards body, in those cases where it has elected to recommend general and specific criteria to the Secretary of the Criteria Committee, will, at the request of the Secretary, undertake to develop and recommend such appropriate general and specific criteria as may be needed.

(c) The criteria shall contain instructions for making application for accreditation by testing laboratories serving the product involved and shall require that each testing laboratory that desires to participate in this program must agree to conditions that include but are not limited to the following:

(1) Be examined and audited initially and on a continuing basis;

(2) Pay accreditation fees and charges; and

(3) Avoid reference by itself and forbid others utilizing the services of an accredited testing laboratory from referencing its accredited status in consumer media and in product advertising or on product labels, containers and packaging or the contents therein.

(d) The criteria shall contain a statement that compliance by testing laboratories with general and specific criteria and other conditions established by the Secretary and which are accredited by the Secretary under these procedures shall in no way relieve such laboratories from the necessity of also observing and being in compliance with any existing Federal, State and local statutes, ordinances, and regulations that may be applicable to the operation of such laboratories, including consumer protection and antitrust laws.

(e) In carrying out the activities authorized by this section:

(1) No action will be taken or criteria developed that would prohibit the accreditation of a testing laboratory solely on the basis of that laboratory's association or nonassociation with manufacturing, distributing or vending organizations, or because the testing laboratory is a foreign firm;

(2) No action will be taken under this program to develop a product standard or test method standard;

(3) No action will be taken under this program to modify a product standard or a test method standard where such a standard is in existence; and

(4) The Secretary, under this program, will not ask for or accept confidential business data, trade secrets or other proprietary information.

§ 7C.8 Publication of proposed criteria.

(a) Upon its development of the general and specific criteria for accrediting testing laboratories under § 7C.7, the requesting voluntary standards body, where it has elected to recommend general and specific criteria to the Secretary or the Criteria Committee, shall forward its recommendations for such criteria to the Secretary for consideration. The Secretary, after consideration of such recommendations, will publish in the FEDERAL REGISTER a notice giving the complete text of the proposed general and specific criteria, and inviting any interested persons to submit written comments on such proposed criteria within sixty (60) days after such publication in the FEDERAL REGISTER, unless another time limit is provided by the Secretary.

(b) Interested persons wanting to express their views in an informal hearing shall notify the Secretary in writ-

ficials within those agencies. The coordination efforts will include opportunities for representatives designated

and information contained therein, the Secretary shall, upon the acceptance thereof, notify the applicant test-

ceived. If the determination is not made within such time limit, the Secretary shall notify the applicant test-

within that thirty (30) day period, the Secretary's proposed revocation shall be stayed at least until the hearing is

tion of the denial thereof, the testing laboratory will be refunded such fees except for the application fee, if any,

V 4 3 / 2 0 8
0 C 2 6 7 8

(b) Interested persons wanting to express their views in an informal hearing shall notify the Secretary in writing of that desire within twenty (20) days after such proposed criteria are published in the FEDERAL REGISTER. Upon receipt by the Secretary of such request, informal public hearings shall be held so as to give all interested persons an opportunity for the oral presentation of data, views, or arguments, in addition to the opportunity to make written submissions. If deemed appropriate by the Secretary, such hearings will be held at two locations, one of which shall be east of the Mississippi River and the other west thereof. Notice of such hearings shall be published in the FEDERAL REGISTER at least twenty (20) days in advance thereof. A transcript will be kept of any oral presentation.

(1) All written and oral comments that are furnished in response to the invitation made by that notice will be filed in the Central Reference and Records Inspection Facility, room 5317, Department of Commerce Building, 14th Street between E Street and Constitution Avenue NW., Washington, D.C. 20230, and will be available for public inspection and copying at that location.

(c) The Secretary upon receipt of all written and oral comments will ask the requesting voluntary standards body in those cases where it has recommended general and specific criteria to the Secretary or the Criteria Committee, to conduct and return to the Secretary in writing, within a time period specified by the Secretary, its evaluation and recommendations with respect to such comments. After considering such evaluation and recommendations, the Secretary will prepare her evaluation and publish in the FEDERAL REGISTER a notice:

(1) Announcing the final general and specific criteria that testing laboratories must meet in order to be accredited and the date when such final criteria shall go into effect which shall not be less than sixty (60) days after the date of publication of such notice;

(2) Stating that the proposed general and specific criteria will be further developed before final publication; or

(3) Withdrawing the proposed general and specific criteria from further consideration.

§ 7C.9 Coordination with Federal agencies.

As a means of assuring effective and meaningful cooperation, input, and participation by those Federal agencies that have an interest in and may be impacted by the laboratory accreditation program carried out under these procedures, the Secretary shall undertake to communicate and consult with appropriate authoritative officials within those agencies. The coordination efforts will include opportunities for representatives designated by those agencies to serve on each Criteria Committee established by the Secretary in which those agencies have an interest.

§ 7C.10 Establishment of fees and charges.

(a) The Secretary in conjunction with the use of the working capital fund of the National Bureau of Standards, as authorized by section 12 of the Act of March 3, 1901, as amended (15 U.S.C. 278b), or any similar financial arrangement for this program, shall establish fees and charges for examining, accrediting, and auditing testing laboratories. The fees and charges established by the Secretary, which may be revised when the Secretary deems it appropriate to do so, shall be in amounts calculated to enable the self-sufficiency of this program. A separate notice will be published in the FEDERAL REGISTER simultaneously with the notice of proposed general and specific criteria referred to in § 7C.8(a). Such notice will set out a schedule of estimated fees and charges the Secretary proposes to establish. The notice would be furnished for information and guidance purposes only in order that the public may evaluate the proposed criteria in light of the expected fees to be charged.

(b) At such time as the Secretary publishes the notice announcing the final general and specific criteria referred to in § 7C.8(c)(1), the Secretary shall also simultaneously publish a separate notice in the FEDERAL REGISTER setting forth the final schedule of fees that will be charged testing laboratories that serve a specific product. The effective date of such final schedule of fees shall be the same as the date on which the final general and specific criteria are to take effect.

(c) Revisions, if any, to the fees and charges established by the Secretary under paragraph (b) of this section shall be published in subsequent FEDERAL REGISTER notices and shall take effect not less than thirty (30) days after the date of publication of such notice. Mention of such revisions shall also be published in the appropriate quarterly reports referred to in § 7C.17(a).

§ 7C.11 Participation of testing laboratories.

(a) Each testing laboratory serving a product for which final general and specific criteria have been promulgated under § 7C.8(c)(1), and desiring to be accredited under this program, will notify the Secretary of its desire pursuant to the provisions of such criteria.

(b) After receipt and evaluation of the testing laboratory's application and information contained therein, the Secretary shall, upon the acceptance thereof, notify the applicant testing laboratory and the National Bureau of Standards in writing of the specific applicable examination requirements for accreditation and the fees and charges for such examination and accreditation. If the application is not accepted, the Secretary shall notify the applicant testing laboratory of the reasons for rejection of its application, and such testing laboratory may reapply under § 7C.13(d) after correcting the deficiencies set out in the Secretary's notification of rejection. Alternatively, the applicant testing laboratory shall have thirty (30) days to request a hearing pursuant to 5 U.S.C. 556. In the event, however, that the applicant testing laboratory requests a hearing within that thirty (30) day period the Secretary's rejection shall be stayed until the hearing held pursuant to 5 U.S.C. 556.

(c) A testing laboratory desiring to be accredited under this program to serve the product identified by the Secretary under § 7C.4 of these procedures and in accordance with the standards and test methods identified therein must meet the general and specific criteria promulgated by the Secretary.

(d) Upon receipt by the National Bureau of Standards of the applicant testing laboratory's written response pertaining to the specific applicable examination requirements and of the fees and charges specified in paragraph (b) of this section, the National Bureau of Standards, on behalf of the Secretary, will arrange for by contract or will itself conduct, the examination in accordance with the examination requirements of the Secretary. In all cases where testing laboratories are examined, the National Bureau of Standards will assure that the personnel used by the contractor or by the National Bureau of Standards possess the professional and technical qualifications set out in the specific criteria promulgated under § 7C.8(c)(1). If the National Bureau of Standards conducts the examination, the resultant examination report will be forwarded to the Secretary. In cases where the examination report was prepared by a contractor, the National Bureau of Standards, before making payment thereunder or forwarding the report to the Secretary, will review the report to assure that the contract terms have been fulfilled.

(e) The Secretary, after reviewing the examination report furnished under paragraph (d) of this section, will make a determination granting or proposing to deny accreditation to the applicant testing laboratory, not later than twenty (20) working days following the date on which the report is received. If the determination is not made within such time limit, the Secretary shall notify the applicant testing laboratory in writing of the reasons for the delay. Upon making such determination, the Secretary will notify the testing laboratory in writing of its accreditation status. If the Secretary proposes to deny accreditation to an applicant testing laboratory, the notification will state the reasons for such proposed denial.

(f) If an applicant testing laboratory is notified by the Secretary of a proposal to deny accreditation, the testing laboratory shall have thirty (30) days from the date of receipt of such notification to request a hearing under the provisions of 5 U.S.C. 556. The Secretary's proposed denial shall become final through the issuance of a written decision to the applicant in the event that the applicant does not appeal such notification by the end of that thirty (30) day period. In the event, however that the applicant testing laboratory requests a hearing within that thirty (30) day period, the Secretary's proposed denial shall be stayed until the hearing held pursuant to 5 U.S.C. 556.

§ 7C.12 Reference to accredited status.

Except as limited under § 7C.7 (c)(3), a testing laboratory accredited under this program may use the following statement on its letterheads and in professional, technical and trade publications: "Accredited by the Department of Commerce, National Laboratory Accreditation Program for (appropriate wording as authorized by the Secretary's notification under § 7C.11(e))."

§ 7C.13 Revocation or termination of accreditation of a testing laboratory.

(a) If the Secretary finds that a testing laboratory which has previously been accredited violated the terms of its accreditation or the provisions of these procedures, the Secretary, after consultation with such testing laboratory, shall notify that testing laboratory of the proposed revocation of its accreditation.

(b) Upon receipt of a notice from the Secretary of the proposed revocation, which notice shall set forth the reasons for such proposed revocation, the accredited testing laboratory shall have thirty (30) days from the date of receipt of such notification to request a hearing under the provisions of 5 U.S.C. 556. The Secretary's proposed revocation shall become final through the issuance of a written decision to the testing laboratory in the event that such testing laboratory does not appeal the proposed revocation within that thirty (30) day period. In the event, however, that the accredited testing laboratory requests a hearing within that thirty (30) day period, the Secretary's proposed revocation shall be stayed at least until the hearing is held pursuant to 5 U.S.C. 556.

(c) A testing laboratory may at any time terminate its participation and responsibilities under this NVLAP part 7C program or withdraw its application for accreditation by giving written notice to the Secretary. Upon receipt by the Secretary of such notice, the Secretary shall terminate further processing of the testing laboratory's application for accreditation. If such testing laboratory has been accredited, the Secretary shall terminate that testing laboratory's accreditation. The Secretary shall notify the testing laboratory that its accreditation has been terminated pursuant to its request.

(d) A testing laboratory whose application has been rejected or whose accreditation has been denied, revoked or terminated or which has withdrawn its application prior to being accredited may reapply for and be accredited if it meets the applicable general and specific criteria promulgated by the Secretary under § 7C.8(c)(1) and agrees also to meet the conditions set out under § 7C.7(c) and the provisions of § 7C.12.

§ 7C.14 Cessation of accreditations.

(a) The Secretary shall cease the accreditation of testing laboratories that serve a specific product if requested to do so by the voluntary standards body which requested the program and that body makes a determination that the program is no longer needed. Such request may not be made if the program has been in existence for less than one year after publication of the final accreditation criteria. The determination that the program is no longer needed shall be submitted to the secretary in writing and shall set forth the requesting agency's reasons for causing the Secretary to cease accreditation through this NVLAP. Termination of the program will occur sixty (60) days after the Secretary has published in the FEDERAL REGISTER a notice of such determination.

(b) If the Secretary ceases the accreditation of testing laboratories that serve a specific product as provided in this section, accreditation issued to all those testing laboratories serving the same specific product before termination of the program has occurred shall continue for the remainder of the period for which accreditation has been granted.

§ 7C.15 Refund of fees and charges.

(a) If a testing laboratory withdraws its application for accreditation after it has submitted the required examination fees and provides written notice to the Secretary of such withdrawal prior to the issuance of an accreditation of the denial thereof, the testing laboratory will be refunded such fees except for the application fee, if any, and for any other costs that have been incurred relative to its application.

(b) If a testing laboratory terminates its participation and responsibilities under this part 7C program at any time after it has been accredited or after it has been notified by the Secretary that it is not being accredited, no part of the fees and charges paid by the testing laboratory will be refunded.

(c) If the accreditation of a testing laboratory is revoked by the Secretary under § 7C.13, no part of the fees and charges paid by the testing laboratory will be refunded.

(d) If the secretary ceases the accreditation of testing laboratories that serve a specific product under § 7C.14 and withdraws the accreditation of a testing laboratory to test a specific product under that section, no part of the fees and charges paid by the testing laboratory will be refunded as the testing laboratory will have been allowed to continue its accreditation status for the period for which it had paid fees.

§ 7C.16 Amendment or revision of criteria.

The Secretary, the requesting voluntary standards body in those cases where it recommended general and specific criteria to the Secretary, or a Criteria Committee acting at the request of the Secretary, may undertake the development of amendments or revisions of any applicable general or specific criteria previously promulgated by the Secretary by following the same procedures pertaining to the original development of such criteria.

§ 7C.17 User education and reports.

(a) For each specific product for which a NVLAP part 7C accreditation exists, the Secretary will publish a quarterly report noting all actions regarding such matters as accreditations, revocations, the establishment of fees and charges, the promulgation of general and specific criteria and any amendments or revisions to such criteria. Such publications shall clearly state that testing laboratories accredited by the Secretary under these procedures are in no manner immune from the necessity of being in compliance with all legal obligations and responsibilities imposed by existing Federal, State, and local laws, ordinances, and regulations, including those related to consumer protection and antitrust prohibitions.

(b) The Secretary will also prepare an annual report summarizing all activities carried out under these procedures which shall include a listing of all testing laboratories accredited by

V 4 3 1 2 0 8 0 C 2 6 7 8

the Secretary during the year to which the annual report relates.

(c) As a means of giving prompt notice to the public of accreditation action taken, the Secretary shall, in addition to the reports called for under this section, publish in the FEDERAL REGISTER all actions taken during the preceding month which grant, revoke, terminate or result in the withdrawal of the accreditation of a testing laboratory. Such notice shall include the name and address of the testing laboratory concerned, and a brief explanation of the action taken by the Secretary with respect to that laboratory.

§ 7C.18 Support function.

The Secretary is authorized to make provisions for administrative and technical support and staff services as may be needed to carry out this program. The Secretary is also authorized to negotiate for and use funds of the requesting voluntary standards body as such funds are authorized for use by the requesting voluntary standards body.

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Notice of Proposed Approval of an Administrative Order Issued by the Air Pollution Control District of Jefferson County to Rohm & Haas Kentucky, Inc.

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve an administrative order issued by the air pollution control district of Jefferson County to Rohm & Haas Kentucky, Inc. The order requires Rohm & Haas Kentucky, Inc., to bring air emissions from its boilers in Louisville, Ky., into compliance with certain regulations contained in the federally approved Kentucky State implementation plan (SIP) by December 31, 1978. Because the order has been issued to a major source and permits a delay in compliance with provisions of the SIP, it must be approved by EPA before it becomes effective as a delayed compliance order under the Clean Air Act (the Act). If approved by EPA, the order will constitute an addition to the SIP. In addition, a source in compliance with an approved order may not be sued under the Federal enforcement or citizen suit provisions of the Act for violations of the SIP regulations covered by the order. The purpose of this notice is to invite public comment on EPA's proposed approval of the order as a delayed compliance order.

DATE: Written comments must be received on or before November 27, 1978.

ADDRESSEES: Comments should be submitted to Director, Enforcement Division, EPA, Region IV, 345 Courtland Street NE., Atlanta, Ga. 30308. The State order, supporting material, and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Leon Folsom, Air Enforcement Branch, U.S. Environmental Protection Agency, Region IV, 345 Courtland Street NE., Atlanta, Ga. 30308, telephone 404-881-4298.

SUPPLEMENTARY INFORMATION: Rohm & Haas Kentucky, Inc., operates three (3) boilers at its facility in Louisville, Ky.

The order under consideration addresses particulate matter emissions from the three (3) boilers at the facility, which are subject to Jefferson County air pollution control regulation V, section 4(3)(a) and Kentucky air pollution control regulation 401 KAR 3:060, section 3(3)(d). These regulations limit the emissions of particulate matter, and are part of the federally approved Kentucky State implementation plan. The order requires final compliance with the regulation by December 31, 1978, through the implementation of the following schedule for the construction or installation of control equipment:

1. Completed—Complete general specifications for emission control equipment and submit to the air pollution control district of Jefferson County a control plan that describes at a minimum the steps to be taken to achieve compliance with the applicable sulfur dioxide emission limiting regulations.

2. June 30, 1978—Negotiate and sign necessary contracts for an emission control system.

3. July 30, 1978—Initiate onsite construction of modifications or installation of emission control equipment.

4. Oct. 31, 1978—Complete onsite construction or installation of emission control equipment.

5. Dec. 31, 1978—Complete performance testing and achieve compliance with all applicable particulate emission limiting regulations and certify such compliance to the air pollution control district of Jefferson County and EPA.

The source has consented to the terms of the order and has agreed to meet the order's increments during the period of this informal rulemaking. The source is required to submit monthly reports by the twentieth (20th) of the month, specific information on the progress toward each milestone in the above schedule. If any delay is anticipated in meeting said milestones, the company shall immediately notify the air pollution control district of Jefferson County in writing of the anticipated delay and reasons therefor. Notification of any anticipated delay shall not excuse the delay. In addition, the company shall submit, no later than five (5) days after the deadline for completing each milestone required by the above schedule, certification to the air pollution control officer whether such milestone has been met.

As an interim control measure, particulate emissions from the boilers shall not exceed 0.4 lbs. of particulate matter per million Btu's heat input based on an instantaneous 2-hour test. Furthermore, the company shall, by June 14, 1978, have equipment installed and operational on the boilers to monitor and record continuously visible emissions from the unit.

Because this order has been issued to a major source of particulate matter emissions and permits a delay in compliance with the applicable regulation, it must be approved by EPA before it becomes effective as a delayed compliance order under section 113(d) of the Clean Air Act (the Act). EPA may approve the order only if it satisfies the appropriate requirements of this subsection. EPA has tentatively determined that the above reference order satisfies these requirements.

If the order is approved by EPA, source compliance with its terms would preclude Federal enforcement action under section 113 of the Act against the source for violations of the regulation covered by the order during the period the order is in effect. Enforcement against the source under the citizen suit provision of the Act (section 304) would be similarly precluded. If approved, the order would also constitute an addition to the Kentucky SIP. Compliance with the proposed order will not exempt the company from the requirements contained in any subsequent revisions to the SIP which are approved by EPA.

All interested persons are invited to submit written comments on the proposed order. Written comments received by the date specified above will be considered in determining whether EPA may approve the order. After the public comment period, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the order in 40 CFR Part 65.

(42 U.S.C. 7413, 7601.)

Dated: October 4, 1978.

JOHN C. WHITE,
Regional Administrator,
Region IV.

AIR POLLUTION CONTROL DISTRICT OF JEFFERSON COUNTY

In the matter of Rohm & Haas Kentucky Inc.

DELAYED COMPLIANCE ORDER

This delayed compliance order is issued this date pursuant to KRS Chapter 77 and section 113(d) of the Clean Air Act, as amended, 42 U.S.C. 7413(d). This delayed compliance order contains a schedule and timetable for compliance, interim requirements, and emission monitoring and reporting requirements. Public notice and opportunity for a public hearing have been provided pursuant to KRS Chapter 77 and section 113(d)(1) of the Clean Air Act.

FINDINGS

Whereas, the Air Pollution Control District of Jefferson County finds that the Rohm & Haas Kentucky is operating its boilers at its plant in Jefferson County, Ky., in violation of Jefferson County regulations dealing with the control of particulate matter, from its boilers, respectively; and

Whereas, the Air Pollution Control District of Jefferson County finds that the Company is presently unable to comply with said regulations: *It is hereby ordered:*

I

ABATEMENT PROGRAM

That the attached appendix governing an abatement program is incorporated into and made a part of this delayed compliance order for the control of the specified pollutants at the Rohm & Haas Kentucky located in Jefferson County, Ky.

The appendix is designated as appendix A: Control of particulate emissions.

II

REPORTING—ADDRESSEES

That all submissions of source performance test results, reports and other items required by this delayed compliance order be made to the Air Pollution Control Officer of Jefferson County, 914 East Broadway, Louisville, Ky. 40204, with copies to the Director, Enforcement Division, U.S. Environmental Protection Agency, 345 Courtland Street NE., Atlanta, Ga. 30308 (hereinafter referred to as the "Director").

III

PROGRESS REPORTS AND MILESTONE CERTIFICATION

That the Company submit, no later than 20 days after the end of each month a monthly progress report for the emission point specified in part I. These reports shall contain specific information on the progress toward each milestone in part I. If any delay is anticipated in meeting said milestones, the Company shall immediately notify the Air Pollution Control District of Jefferson County in writing of the anticipated delay and reasons therefore. Notification of any anticipated delay shall not excuse the delay. In addition, the Company shall submit, no later than five (5) days after the deadline for completing each milestone required by part I, certification to the Air Pollution Control Officer whether such milestone has been met.

IV

INTERIM REQUIREMENTS

A. For the period during which this order is in effect, the Company shall at all times comply with the following interim emission limitations for the boilers which represent the best practicable system or systems of emission reduction:

Particulate emissions—0.4 pounds of particulate matter per million Btu's heat input based on an instantaneous 2-hour test.

If, at any time during the pendency of this order, the applicable interim particulate emission limitations are exceeded, the Company shall immediately take all actions necessary to minimize and/or abate such excess emissions and to prevent their recurrence; the Company shall notify the Air Pollution Control District of Jefferson County, but no later than 48 hours after the start of the occurrence, and the Company shall, within 10 days after the termination of each such occurrence, submit to the Air Pollution Control District a written report regarding the occurrence, which shall address the cause(s) of the occurrence and all the efforts the Company has taken to date concerning it.

B. In addition to the foregoing interim emission limitations, for the period during which this order is in effect, the Company shall take all necessary steps to comply with the applicable emission limitations contained in the State implementation plan insofar as the Company is able, and shall take all necessary precautions to insure that its emissions will not cause or contribute to a violation or violations of national ambient air quality standards.

C. Furthermore, the Company shall comply with any emergency requirements specified by the Air Pollution Control District of Jefferson County pursuant to KRS Chapter 77 and/or by EPA pursuant to section 303 of the Clean Air Act, 42 U.S.C. § 7603, to prevent an imminent and substantial endangerment to human health.

V

CONTINUOUS MONITORING

The Company shall, by June 14, 1978, have equipment installed and operational on the boilers to monitor and record continuously visible emissions from the unit.

VI

VIOLATION OF REQUIREMENTS

Violation of any requirement of this order shall result in immediate enforcement action by the Air Pollution Control District of Jefferson County pursuant to KRS Chapter 77 and/or by EPA pursuant to sections 113(d)(9), 113(b), and 113(c) of the Clearn Air Act.

VII

COMPLIANCE RESPONSIBILITY

Nothing herein shall relieve the source from complying with all other applicable Federal, State, local law or regulation.

VIII

NONCOMPLIANCE PENALTY

Failure of the Company to achieve compliance with any emission limitation, emission standard, or compliance schedule under the State implementation plan by July 1, 1979, or such later date as is provided in accordance with section 120(b)(3) of the Act shall subject the Company to an administratively assessed noncompliance penalty pursuant to the requirements of section 120 of the Act and any rules and regulations promulgated pursuant thereto, unless the Company is exempted by section 120(a)(2)(B) or (C) of the Act. In the event of such noncompliance, the Company will be formally notified of its noncompliance pursuant to section 120(b)(3) of the Act.

Dated: July 31, 1978.

SANTLEY L. CRAIG,
Chairman, Air Pollution Control
District of Jefferson County.

APPENDIX A—AIR POLLUTION CONTROL DISTRICT OF JEFFERSON COUNTY

DELAYED COMPLIANCE ORDER[1]

The Company shall complete the following acts with respect to the control of particulate emissions from the boilers at its plant in Jefferson County, Ky., on or before the dates specified:

1. Completed—Complete general specifications for emission control equipment and submit to the Air Pollution Control District of Jefferson County a control plan that describes at a minimum the steps to be taken to achieve compliance with the applicable sulfur dioxide emission limiting regulations.

2. June 30, 1978—Negotiate and sign necessary contracts for an emission control system.

3. July 30, 1978—Initiate onsite construction of modifications or installation of emission control equipment.

4. October 31, 1978—Complete onsite construction or installation of emission control equipment.

[1]This appendix is attached to and incorporated by reference into a delayed compliance order issued to Rohm & Haas Kentucky Inc., on July 31, 1978, pursuant to KRS Chapter 77 and sec. 113(d) of the Clean Air Act, 42 U.S.C. 7413(d).

5. December 31, 1978—Complete performance testing and achieve compliance with all applicable particulate emission limiting regulations and certify such compliance to the Air Pollution Control District of Jefferson

SUMMARY: In response to a petition filed by various religiously affiliated groups, including the office of communications of the United Church of

dramatizations concerning public issues.[1]

2. Turning to the first proposal, petitioners contend that broadcasters are

§ 73.670 of the Commission's rules. As proposed, a community service program is one presented on a sustaining basis and is supplied by or produced in

V 4 3 / 2 0 8 0 C 2 6 7 8

5. December 31, 1978—Complete performance testing and achieve compliance with all applicable particulate emission limiting regulations and certify such compliance to the Air Pollution Control District of Jefferson County and EPA.

CONSENT[2]

The Rohm & Haas Kentucky Inc. acknowledges that the particulate matter, from its boilers located at its facility in Jefferson County, Ky., are in violation of the applicable emission limitations contained in the federally-approved State implementation plan. The Company has reviewed this delayed compliance order, believes it to be a reasonable and expeditious means to achieve compliance with the applicable particulate emission limiting regulations as contained in the federally-approved State implementation plan, and consents to all of the requirements and terms of this delayed compliance order.

Furthermore, the Company acknowledges the necessity of complying with the interim emission limitations and abatement procedures contained herein which are designed to ensure the attainment and maintenance of national ambient air quality standards for the specified pollutants and consents to said interim emission limitations and abatement procedures in order to protect the public health and welfare.

The Company hereby represents that it has full corporate authority and the neeessary corporate approval to enter into and peform in accordance with the terms and provisions of this delayed compliance order. The signatory below represents that he has the requisite corporate authority to execute this consent on behalf of the Company.

Dated: July 27, 1978.

E. T. SAUER,
Rohm & Haas Kentucky Inc.

[FRL 994-6]

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Approval of an Administrative Order Issued by the Air Pollution Control Board of the State of Indiana to Medora Brick Co.

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve an administrative order issued by the Indiana Air Pollution Control Board to Medora Brick Co. The order requires the company to bring air emissions from its coal-fired kilns in Medora, Ind., into compliance with certain regulations contained in the federally approved Indiana State implementation plan (SIP) by June 30, 1979. Because the order has been issued to a major source and permits a delay in compliance with provisions of the SIP, it must be approved by EPA before it becomes effective as a delayed compliance order under the Clean Air Act (the Act). If approved by EPA, the order will constitute an addition to the SIP. In addition, a source in compliance with an approved order may not be sued under the Federal enforcement or citizen suit provisions of the Act for violations of the SIP regulations covered by the order. The purpose of this notice is to invite public comment on EPA's proposed approval of the order as a delayed compliance order.

DATE: Written comments must be received on or before November 27, 1978.

ADDRESS: Comments should be submitted to Director, Enforcement Division, EPA, Region V, 230 South Dearborn Street, Chicago, Ill. 60604. The State order, supporting material, and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Pierre Talbert, Attorney, Enforcement Division, EPA, Region V, 230 South Dearborn Street, Chicago, Ill. 60604, telephone 312-353-2082.

SUPPLEMENTARY INFORMATION: Medora Brick Co. owns and operates a brick manufacturing plant at Medora, Ind. The order under consideration addresses emissions from four coal-fired kilns at the facility, which are subject to Indiana amended regulation APC-3 as approved at 40 FR 50032, October 28, 1975. The regulation sets standards for visible emissions of particulate matter and is part of the federally approved Indiana SIP. The order requires final compliance with the regulation by June 30, 1979, through installation of stoker-firing units on each of its four beehive kilns which are currently hand fired. The stoker-firing units are to be installed in the following manner: The first stoker-firing unit shall be operating by October 1, 1978; subsequent units are to be installed and operating by February 1, 1979, and June 1, 1979; the final unit is to be taken out of operation by June 1, 1979, and is not to be put back in operation until stoker firing is installed.

Because this order has been issued to a major source of particulate matter emissions and permits a delay in compliance with the applicable regulation, it must be approved by EPA before it becomes effective as a delayed compliance order under section 113(d) of the Act. EPA may approve the order only if it satisfies the appropriate requirements of this subsection.

If the order is approved by EPA, source compliance with its terms would preclude Federal enforcement action under section 113 of the Act against the source for violations of the regulation covered by the order during the period the order is in effect. Enforcement against the source under the citizen suit provision of the Act (sec. 304) would be similarly precluded. If approved, the order would also constitute an addition to the Indiana SIP.

All interested persons are invited to submit written comments on the proposed order. Written comments received by the date specified above will be considered in determining whether EPA may approve the order. After the public comment period, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the order in 40 CFR Part 65.

The provisions of 40 CFR Part 65 will be promulgated by EPA soon,[1] and will contain the procedure for EPA's issuance, approval, and disapproval of orders under section 113(d) of the Act. In addition, part 65 will contain sections summarizing orders issued, approved, and disapproved by EPA. A prior notice proposing regulations for part 65, published at 40 FR 14876 (Apr. 2, 1975), will be withdrawn and replaced by a notice promulgating these new regulations.

[BC Docket No. 78-335; RM-2709; FCC 78-724]

PROGRAM DEFINITIONS FOR COMMERCIAL BROADCAST STATIONS BY ADDING A NEW PROGRAM TYPE, "COMMUNITY SERVICE" PROGRAM AND EXPANDING THE "PUBLIC AFFAIRS" PROGRAM CATEGORY AND OTHER RELATED MATTERS

Inquiry

AGENCY: Federal Communications Commission.

ACTION: Notice of inquiry.

[2]This consent is hereby attached to and incorporated by reference into a delayed compliance order issued to the Rohm & Haas Kentucky Inc., on June —, 1978, pursuant to sec. 113(d) of the Clean Air Act, 42 U.S.C. 7413(d).

[1]Published at 43 FR 44522, Sept. 28, 1978.

SUMMARY: In response to a petition filed by various religiously affiliated groups, including the office of communications of the United Church of Christ, the Commission has decided to conduct an inquiry into the possible creation of a new, sustaining, program category, "Community Service" programs, and the enlargement of the definition of public affairs programming to include dramatizations produced on a sustaining basis. These proposals could involve changes in the Commission's rules and application forms. Through its proposal, petitioners seek to encourage the presentation of programs of a noncommercial community service character and of dramatizations concerning public issues.

DATES: Comments must be filed on or before December 26, 1978, and reply comments on or before January 25, 1979.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Freda Lippert Thyden, Broadcast Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION:

MEMORANDUM OPINION AND ORDER AND NOTICE OF INQUIRY

Adopted: October 5, 1978.

Released: October 25, 1978.

By the Commission: Commissioner Lee concurring in the result.

In the matter of amendment of the Commission's rules concerning program definitions for commercial broadcast stations by adding a new program type, "Community Service" program and expanding the "Public Affairs" program category and other related matters, BC Docket No. 78-335, RM-2709.

1. On May 20, 1976, a petition for rulemaking and request for policy statement was filed by the Communications Committee of the United States Catholic Conference, the Communication Commission of the National Council of Churches of Christ in the U.S.A., the office of communication of the United Church of Christ, UNDA-USA, and 70 individual church communicators (hereinafter called "petitioners"). Comments both in support of and against the petition have been filed and will later be discussed. Briefly stated, the proposed rule changes concern (1) the creation of a new program type, entitled community service program, by which is meant noncommercial programs produced by or in conjunction wth nonprofit organizations and Government agencies and (2) the expansion of the definition of public affairs programing to include dramatizations concerning public issues.[1]

2. Turning to the first proposal, petitioners contend that broadcasters are not meeting their public service obligations since local government agencies and nonprofit organizations have little access to television broadcast facilities to foster their activities in serving the community. They assert that the broadcast time given to nonprofit groups gradually was diverted to commercial programing. Petitioners submit that it is the Commission's responsibility to see that commercial broadcast stations continue to provide adequate service to nonprofit groups. In this connection, the petition noted that in 1946, the Commission in a report entitled Public Service Responsibility of Broadcast Licensees (more commonly known as the Blue Book), stress the importance of sustaining (that is noncommercial) programs, among other reasons to meet the needs of nonprofit agencies and provide programs for significant minority tastes and interests. Although they disagree with it, petitioners point to the Report and Statement of Policy Re: Commission En Banc Programing Inquiry (hereafter called the 1960 Programing Statement), 44 F.C.C. 2303 (1960), where the Commission concluded that sponsored programs were as useful in meeting community needs as sustaining programs. The Commission stated that there was "* * * no public interest basis for distinguishing between sustaining and commercially sponsored programs in evaluating station performance."[2] In effect, petitioners question this conclusion by the Commission and ask the Commission to reevaluate it based on the experience gained since the 1960 Programing Statement was issued. It is their view that programs which serve the needs and purposes of nonprofit groups, such as cultural programs, generally have not attracted advertisers and as a consequence often have been neglected.

3. To remedy the situation described above, petitioners have proposed that a new program type, entitled community service program, be added to the program definitions for commercial television stations listed in note 1 of § 73.670 of the Commission's rules. As proposed, a community service program is one presented on a sustaining basis and is supplied by or produced in conjunction with a nonprofit organization having significant membership in the service area or a governmental agency serving the area. Petitioners believe that by amending the Commission's annual programing report form for commercial television licensees (form 303A) and license renewal application form for television stations (form 303) to reflect the time devoted by television licensees to community service programing, the Commission will indicate to licensees that by broadcasting such programing they will receive recognition in building a positive record for license renewal. Petitioners also suggest that the Commission issue a policy statement emphasizing the importance with which it views the broadcasting of community service programs in meeting a station's public service obligation. Finally, to encourage the production of public affairs programs cast in dramatic form, petitioners advocate that the definition of a public affairs program, as currently used by commercial television stations, be expanded to include this format. Petitioners propose that to qualify as a public affairs program, such dramatization must concern local, national or international public affairs and meet the criteria of a community service program, that is, be presented on a sustaining basis and be supplied by or produced in conjunction with a nonprofit organization or a governmental agency.

4. Several parties supported the proposal, but the only filing in favor of the petition which did significantly more than express support for the proposal was the formal comments jointly submitted by the Population Institute and the National Organization for Women (hereafter called "PI/NOW").[3] PI/NOW argue that the creation of a community service program category and the enlargement of the public affairs program definition to include dramatic presentations would serve the most fundamental policy underlying the structure of our present broadcast system, namely localism. They contend that not only would there be more local programing if the proposed rule changes were adopted, but programs which have not been presented because commercial sponsors have been unavailable would be available. Additionally, PI/NOW assert that the proposed definitional changes for a public affairs program to include dramatizations would open

[1]Public affairs programs presently are defined as follows: Public affairs programs are programs dealing with local, State, regional, national or international issues or problems, including, but not limited to, talks, commentaries, discussions, speeches, editorials, political programs, documentaries, minidocumentaries, panels, roundtables, vignettes and extended coverage (whether live or recorded) of public events or proceedings, such as local council meetings, congressional hearings, and the like.

Revision of FCC form 303, FCC 76-264, 37 R.R. 2d 1, at 56 (1976).

[2]The 1960 Programing Statement, 44 F.C.C. 2303, at 2315.

[3]In addition to PI and NOW, formal comments in support of the petition were filed on behalf of the Public Media Center and the National Citizens Committee for Broadcasting.

V 4 3 / 2 0 8 0 C 2 6 7 8

up that type of programing to a new format not considered by the Commission when it amended the public affairs definition in the proceeding revising the broadcast renewal application form, FCC form 303.[1] Furthermore, they argue that these changes should apply to commercial radio, as well as to commercial television.

5. Turning to those opposing the petition, CBS argues that not only have petitioners failed to show that the American viewing audience is presently receiving inadequately diversified program service, but that CBS' own study indicates just the opposite. Specifically, the network asserts that many advertisers are interested in and already do sponsor the type of programming which would be covered under the community service category. Consequently, CBS contends that there were more than sufficient grounds for the Commission to conclude that sustaining and commercially sponsored programs need not be distinguished in evaluating station performance. CBS further asserts that over 270 noncommercial television stations and over 890 noncommercial FM stations already broadcast many programs which fit that category.

6. ABC also opposes the petition, arguing that the proposed rulemaking would require television stations to afford special consideration to a particular type of program in a manner that would infringe upon programing judgments committed by statute, precedent and long-established Commission policy to the good faith discretion of individual licensees. Moreover, contends ABC, such rule changes would single out local nonprofit organizations and government agencies to receive favored treatment. ABC insists that only by happenstance would the needs of these groups coincide with the needs of the community at large. To the extent that such organizations represent significant groups in the community, states ABC, their views will be considered by the licensee when meeting his obligation to ascertain the needs of his community. Moreover, according to this network, such organizations have traditionally been consulted by broadcast licensees in carrying out their public interest responsibilities. Although the views of all such groups may not be reflected in specific programing, ABC contends that present procedures insure that over a period of time representative viewpoints will have the opportunity to be heard. It also states that the type of programing here proposed should and typically does play a part in the overall programing of most commercial television stations, whether on a sustaining or commercial basis. Furthermore, asserts ABC, the Commission, in the 1960 Programing Statement, made its own independent determination that sponsorship would foster rather than diminish the availability of cultural programing. Additionally, ABC opposes petitioners' proposal to enlarge the public affairs program definition to include dramatizations concerning public affairs as ill-advised, contending that petitioners have misconceived the basic nature of public affairs programing which is issue-oriented and not merely issue-related as would be the case if issues were addressed in a dramatic context. ABC asserts that to be properly characterized as a public affairs program, broadcast material must deal with or discuss a public issue in some substantial and direct manner.

7. We have examined the arguments made by both petitioners and opponents and conclude that proposing adoption of any rules or modification of any forms or issuance of any policy statement at this stage would be premature. The record does not provide an adequate basis for proposing the addition and/or expansion of program categories. However, it is apparent from the record that an inquiry is warranted. The question of whether a specific public interest is served by sustaining programing which cannot be served as well through sponsored programing has not been evaluated since the programing inquiry in 1960. Although the Commission was persuaded at that time that there was no public interest basis for distinguishing between sustaining and commercially sponsored programs, it noted that this observation did not relieve broadcasters from the responsibility of retaining flexibility to accommodate public needs.[5] Although we note that petitioners allege that licensees in fact have not met this responsibility and further, that programs serving the needs and purposes of nonprofit groups generally do not attract advertisers, our decision to begin this inquiry is not based on our having reached a like conclusion on this issue. Rather, we wish to explore this area and, among other things, determine to what extent these assertions are accurate. We invite the submission of any and all data in support of the views expressed by commenting parties.

8. As to the proposal itself, we invite parties to comment on whether a new program category, called community service, should be added to the program definitions[6] for commercial broadcast stations. If so, should it be necessary that a community service program be presented on a sustaining basis and be supplied by or produced in conjunction with a nonprofit organization having significant membership in the service area? Although petitioners proposed that the community service category only be added to the commercial television program definitions, we believe this inquiry should also deal with the appropriateness of adding such a category to the commercial radio program definitions. Only in this manner can we gather all the pertinent information necessary to decide what, if any, action should be taken in this regard.

9. We also need to consider if radio and television should be treated differently with respect to the addition of a community service category to program definitions, and commenters should indicate their views on this issue giving their reasons for their opinions. One point suggested by petitioners is not being made a part of this proceeding. The suggestion that sustaining programs produced by Government agencies should be included in the community service category would be an inappropriate one to pursue. Providing for Government programs on this basis might well be an improper intrusion into the sensitive are of programing, and it could pose first amendment difficulties as well. Since it is not a necessary part of this proposal, we have decided not to include it as a subject for inquiry. However, we do invite comments on whether the community service category should be defined further by subject matter. For instance, petitioners seek by the creation of a sustaining program category to encourage licensees to broadcast programs featuring local talent and cultural events. Should the community service category consist of only cultural programs to the exclusion of other programing such as sports? In fact, petitioners suggest such an exclusion, alleging that there are already sufficient inducements for the presentation of local athletic events.

10. There are a number of other matters which need to be considered in connection with this inquiry. For instance, what role does noncommercial educational radio and television play in contributing to the airing of cultural material such as that desired by petitioners, as well as in broadcasting programs for special groups like nonprofit organizations. Further, does the Commission's procedure for ascertaining and meeting community needs provide a vehicle for responding to the needs of nonprofit groups?[7]

[1] In the Matter of Revision of FCC Form 303, Application for Renewal of Broadcast Station License (hereafter called "Revision of FCC Form 303"), FCC 76-264, 37 R.R. 2d 1 (1976).

[5] The 1960 Programing Statement, 44 F.C.C. 2303, at 2315.

[6] These definitions are listed for television stations in § 73.670, n. 1, and for radio stations in §§ 73.112, n. 1 (AM) and 73.252, n. 1 (FM). As to noncommercial educational FM, program definitions are listed in section 73.582, n. 2.

[7] The commercial broadcast licensee, as part of its obligation to serve the public in-

Footnotes continued on next page

11. We also invite suggestions on how the community service proposal could be implemented. For example, which local agencies would be given access to commercial broadcast facilities and on what basis? Petitioners suggest that community service programing be aired during afternoon and evening hours. Commenters might wish to address themselves to the matter of encouraging the broadcast of such programs during those time periods. Petitioners also recommend that if a community service program falls within the category of news, public affairs, or other programing, the station should be credited with having aired programs in both categories. We invite comments on this suggestion as well. Finally, we invite comments on the economic implications of establishing such a sustaining program category.

12. As another matter for inquiry, we raise the question of whether it is in the public interest to expand the definition of a public affairs program for commercial radio and television stations to include dramatizations which concern local, national, and international public affairs and which meet the criteria of a community service program; that is, are presented on a sustaining basis and are produced in conjunction with or supplied by a nonprofit organization. Would such a change in definition encourage the broadcasting of dramatic programs concerning public issues? Further, in what if any ways would the proposed sustaining category serve the public better than dramatizations presented on a commercial basis. In this context, we raise for inquiry whether the public affairs definition should be modified in any other manner and if so in what way. Finally, all other suggestions and comments pertinent to the areas of inquiry raised in this notice are invited.

13. Because of our decision to conduct this inquiry, we also need to examine whether the license renewal application forms for commercial radio (form 303-R) and television (form 303) broadcast stations and the annual programing report (form 303-A) for television licensees should be modified to reflect time given to community service programing. As they now exist, these forms require information on the airing of programs during the composite week in three categories, "news," "public affairs" and "other," the last category being exclusive of entertainment, sports, and public service announcements.[8] Commenters might wish to address themselves to the question of whether a community service category reporting requirement would encourage the airing of such programing, and what effect such a requirement would have on broadcasters.

14. Based on the foregoing discussion, and pursuant to authority contained in sections 4(i), 303(r), and 403 of the Communications Act of 1934, as amended, it is proposed to inquire into the matters set out above.

15. Pursuant to applicable procedures set forth in §§ 1.4, 1.46, and 1.415 of the Commission's rules, interested parties may file comments on or before December 26, 1978, and reply comments on or before January 25, 1979. All relevant and timely comments will be considered by the Commission before final action is taken in this proceeding.

16. In accordance with the provisions of §1.419 of the Commission's rules, an original and five copies of all comments, replies, pleadings, briefs, and other documents shall be furnished the Commission. Members of the general public who wish to participate informally in the proceeding may submit one copy of their comments, specifying the docket number, including the entire designation (BC docket No. 78-335) in the heading. All filings made in this proceeding will be made available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street NW., Washington, D.C.

17. *Accordingly, it is ordered*, That the petition for rulemaking and policy statement is granted as to the institution of a notice of inquiry and is denied in all other respects.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

[BC Docket No. 78-291]

PERSONAL ATTACKS AND APPLICABILITY OF THE FAIRNESS DOCTRINE TO SECTION 315 "USES"

Proposed Rulemaking and Inquiry; Correction

AGENCY: Federal Communications Commission.

ACTION: Correction.

SUMMARY: This action corrects the text to § 73.1920 as set forth in appendix I to the notice of proposed rulemaking in BC docket No. 78-291, 43 FR 45899.

DATES: Comments must be received on or before December 15, 1978, and reply comments on or before January 16, 1979.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Milton O. Gross, Broadcast Bureau, 202-632-7586.

SUPPLEMENTARY INFORMATION:

Released: October 17, 1978.

In the matter of amendment of part 73 of the rules regarding personal attacks, and applicability of the fairness doctrine to section 315 "uses," BC docket No. 78-291.

1. In the above-captioned notice of proposed rulemaking and notice of inquiry (BC docket No. 78-291; FCC 78-639), text of the personal attack rule is appended to the document as appendix I.

2. Appendix I of the notices states the correct section number, "Section 73.1920," and the correct section title, "Personal Attacks," but uses the text from the former rule, § 73.123, Personal attacks; political editorials.

3. The correct text of the rule is attached below.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

APPENDIX I

§ 73.1920 Personal attacks.

(a) When, during the presentation of views on a controversial issue of public importance, an attack is made upon the honesty, character, integrity, or like pesonal qualities of an identified person or group, the licensee shall, within a reasonable time and in no event later than 1 week after the attack, transmit to the person or group attacked:

(1) Notification of the date, time, and identification of the broadcast;

(2) A script or tape (or an accurate summary if a script or tape is not available) of the attack; and

(3) An offer of a reasonable opportunity to respond over the licensee's facilities.

(b) The provisions of paragraph (a) of this section shall not be applicable:

(1) To attacks on foreign groups or foreign public figures;

(2) To personal attacks which are made by legally qualified candidates, their authorized spokesmen, or those associated with them in the campaign on other such candidates, their authorized spokesmen or pesons associated with the campaign; and

(3) To bona fide newseasts, bona fide news interviews, and on-the-spot coverage of a bona fide news event, in-

V 4 3 / 2 0 8 0 C 2 6 7 8

cluding commentary or analysis contained in the foregoing programs.

(c) The provisions of paragraph (a) of this section shall be applicable to editorials of the licensee, except in the case of noncommercial educational stations since they are precluded from editorializing (Section 399(a), Communications Act).

DEPARTMENT OF TRANSPORTATION

Materials Transportation Bureau

[49 CFR Part 177]

[Docket No. HM-164; Advance Notice]

CARRIAGE BY PUBLIC HIGHWAY

Highway Routing of Radioactive Materials; Public Hearing

AGENCY: Materials Transportation Bureau, Research and Special Programs Administration, DOT.

ACTION: Notice of public hearing.

SUMMARY: This publication announces the scheduling of a public hearing for the purpose of receiving oral comments on matters concerning highway routing of radioactive materials which were opened for discussion in Docket HM-164, 43 FR 36492, August 17, 1978. This will be an informal rather than a judicial or evidentiary-type hearing and there will be no cross-examination of persons presenting statements.

DATES: The date of the hearing is November 29, 1978, from 9:30 a.m. to 5 p.m. Any person wishing to present an oral statement at the hearing should notify the Dockets Branch in writing prior to November 16, 1978.

ADDRESSES: The hearing will occur in the third floor auditorium of Federal Office Building 10 located at 800 Independence Avenue SW., Washington, D.C. Requests for time to make an oral presentation must be addressed to Dockets Branch, Information Services Division, Materials Transportation Bureau, Research and Special Programs Administration, U.S. Department of Transportation, Washington, D.C. 20590. Each request should identify the speaker and the length of the presentation, not to exceed 7 minutes.

FOR FURTHER INFORMATION, CONTACT:

Douglas A. Crockett, 202-426-2075.

SUPPLEMENTARY INFORMATION: On April 20, 1978, the MTB published an opinion (43 FR 16954) concerning the legal relationship between section 175.111 of the New York City health code and regulations issued by DOT under the Hazardous Materials Transportation Act (HMTA, Title I of Pub. L. 93-633). § 175.111 of the city's health code prohibits the transportation in or through the city of most commercial shipments of radioactive materials. The HMTA is the basic Federal legislation under which the transportation safety of hazardous materials, including radioactive materials, is regulated. In the opinion, MTB concluded that HMTA routing authority is sufficient to preempt State and local highway routing requirements (see HMTA, sections 105, 112; 49 U.S.C. 1804, 1811), but that because a routing requirement has not yet been established under the HMTA, that act does not at present preempt § 175.111 of the city's health code.

On August 17, 1978, the Materials Transportation Bureau (MTB) published Docket HM-164, an Advance Notice of Proposed Rulemaking. The purpose of the Advance Notice was to invite comment on the need, and possible methods for establishing routing requirements applicable to highway carriers of radioactive materials under the Hazardous Materials Transportation Act. The Advance Notice and this public hearing are intended to assist the MTB in deciding what Federal action may be justified in light of local ordinances which have been or may be enacted and which restrict or halt the movement of radioactive materials in some localities.

Copies of the Advance Notice of Proposed Rulemaking may be obtained from the Dockets Branch at the address given above. Written comments may still be submitted concerning the Advance Notice of Proposed Rulemaking if received by the Dockets Branch on or before January 1, 1979. Copies of oral statements should be submitted to the hearing officer at the time of the presentation.

AUTHORITY: 49 U.S.C. 1803, 1804, 1808; 49 CFR 1.53(e) and paragraph (a) of app. A to part 106.

Issued in Washington, D.C. on October 18, 1978.

ALAN I. ROBERTS,
Associate Director for Hazardous Materials Regulation, Materials Transportation Bureau.

[FR Doc. 78-29970 Filed 10-25-78; 8:45 am]

[4910-60-M]

[49 CFR Part 195]

[Docket No. PS-53, Notice 2]

TRANSPORTATION OF LIQUIDS BY PIPELINE

Valve Spacing on Pipelines Carrying Highly Volatile Liquids

AGENCY: Materials Transportation Bureau.

ACTION: Extension of comment period.

SUMMARY: The Materials Transportation Bureau extends the period for comments on a proposed rule document published at 43 FR 39402, September 5, 1978. The extension is in response to a request by the American Petroleum Institute who argued the additional time was needed for completion of planned studies.

DATE: Comments must be received on or before January 15, 1979.

FOR FURTHER INFORMATION CONTACT:

F. S. Robinson, 202-426-2082.

SUPPLEMENTARY INFORMATION: A written request for an extension of comment period from October 31, 1978, to December 31, 1978, was submitted by the American Petroleum Institute (API) on September 29, 1978. API argued that the requested time extension was necessary in order to (1) determine the effects of the new definition of "inhabited area" proposed for § 195.2, (2) conduct an extensive survey of hardware to automate sectionalizing valves, and (3) determine costs and benefits of the proposal.

At a meeting on October 5, 1978, called by the Materials Transportation Bureau (MTB) to learn more details about the requested extension, API requested that an extension be granted until January 31, 1979, to allow additional time for completion of planned studies.

MTB has considered this request in light of the urgency of the rulemaking proposal and the need to obtain additional information upon which to base a final decision in this proceeding. From the information API has submitted, it appears that the planned studies are reasonable and they would provide better background data than are now available for use in assessing the impact of the rulemaking proposal on the regulated industry. At the same time, because of the seriousness of the potential hazards to which the proposed rules are directed, MTB is mindful of the need for prompt action. Therefore, while some extension appears justified, the full period requested cannot be granted. Accordingly, the comment period is extended to January 15, 1979.

(Sec. 6, Pub. L. 89-670, 80 Stat. 437 (49 U.S.C 1655; 18 U.S.C 831-835); 49 CFR 1.53, App. A of Part 1, and App. A of Part 102.)

Issued in Washington, D.C., on October 18, 1978.

CESAR DE LEON,
Associate Director for Pipeline Safety Regulation.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

[6110-01-M]

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

COMMITTEE ON GRANTS, BENEFITS, AND CONTRACTS

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that the meeting of the Committee on Grants, Benefits, and Contracts of the Administration Conference of the United States, scheduled (43 FR 43745) for October 25, 1978, in the library of the Administrative Conference, the Gelman Building, 2120 L Street NW., Suite 500, Washington, D.C., has been rescheduled for 1:45 p.m., November 2, 1978, at the same location.

The committee will meet to consider the comments on the report by Professor Peter W. Martin entitled "Procedures Used in Forming and Carrying out Federal-State Agreements under the Supplemental Security Income Program," and to put its imposed recommendations into final form.

Attendance is open to the interested public, but limited to the space available. Persons wishing to attend should notify this office at least 2 days in advance. The committee chairman, if he deems it appropriate may permit members of the public to present oral statements at the meeting; any member of the public may file a written statement with the committee before, during or after the meeting.

For further information concerning this meeting contact David B. H. Martin, 202-254-7065. Minutes of the meeting will be available on request.

RICHARD K. BERG,
Executive Secretary.

GUADALUPE ESCARPMENT WILDERNESS PROPOSAL

Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture has prepared a draft environmental statement for the Guadalupe Escarpment Wilderness Proposal on the Lincoln National Forest, USDA-FS-DES-03-03-79-01.

The environmental statement concerns a proposal that 21,000 acres of land in the Lincoln National Forest and 1,800 acres of adjacent land administered by the Bureau of Land Management be designated as wilderness by an Act of Congress and added to the National Wilderness Preservation System. Total area proposed for wilderness is 22,800 acres.

This draft environmental statement was transmitted to EPA on October 18, 1978.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service,
South Agriculture Bldg., Room 3210,
12th St. & Independence Ave., SW.,
Washington, D.C. 20013.

USDA, Forest Service,
Southwestern Region,
517 Gold Avenue, SW.,
Albuquerque, N. Mex. 87102.

Lincoln National Forest,
Federal Building, 11th & New York,
Alamogordo, N. Mex. 88310.

Single copies are available upon request to the Forest Supervisor, Lincoln National Forest, Federal Building, 11th & New York, Alamogordo, N. Mex. 88310. Please refer to the name and number of the environmental statement when ordering.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the EPA guidelines.

Comments are invited from the public, State, and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to the Forest Supervisor, Lincoln National Forest, Federal Building, 11th & New York, Alamogordo, N. Mex. 88310. Comments must be received within 60 days from the date the statement was transmitted to EPA in order to be considered in the preparation of the final environmental statement.

ROBERT E. CAREY,
Acting Regional Forester, Region 3.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Statutory Import Programs Staff, Bureau of Trade Regulation, U.S. Department of Commerce, Washington, D.C. 20230, on or before November 20, 1978.

Regulations (15 CFR 301.9) issued under the cited act prescribe the requirements for comments.

A copy of each application is on file, and may be examined between 8:30 a.m. and 5 p.m., Monday through Friday, in room 6886C of the Department of Commerce Building, 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No. 79-00001. Applicant: Children's Hospital Medical Center, Department of Neuroscience, 300 Longwood Avenue, Boston, Mass. 02115. Article: LKB 2088 Ultrotome V Ultramicrotome and accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for μm and thin sectioning of developing and adult brain and retina; in particular for studies of neurological mutant mice. The experiments include studying the ultrastructure of cells in mice that contain mixtures of normal and diseased cells. The objective of these studies is to determine in which cell type that mutant gene is acting and whether the normal cells can help save the mutant cells. Application received by Commissioner of Customs: October 3, 1978.

Docket No. 79-00002. Applicant: Hahnemann Medical College and Hospital, 230 North Broad Street, Philadelphia, Pa. 19102. Article: LKB 2088 Ultrotome V Ultramicrotome and accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for the study of biologic materials from humans suffering from a variety of diseases and from experimental animals which serve as animal models for diseases. In addition, the article will be used for training of medical students, cytotechnicians and residents in pathology, and residents from other subspecialties in the use and application of electron microscopy. Application received by Commissioner of Customs: October 3, 1978.

Docket No. 79-00003. Applicant: Providence Medical Center, Department of Pathology, 700 North East 47th Avenue, Portland, Oreg. 97213. Article: Electron Microscope, Model EM 9S-2 and accessories. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used for studies of human tissue, removed by biopsy, surgical operation or autopsy and submitted for pathological examination. Specimens of major interest are poorly differentiated neoplasms from several organs, kidney, skeletal and cardiac muscle, skin, blood, bone marrow, lymph nodes, and body fluids. In addition, the article will be used for educational purposes in the courses:

Introduction to Basic Electron Microscopic Technique,
Ultrastructural Alterations in Human Disease,
Advanced Electron Microscopic Technique—Independent Study.

Other courses or segments of conferences are based on data generated by the article during the above cited research. Application received by Commissioner of Customs: October 3, 1978.

Docket No. 79-00004. Applicant: College of Medicine and Dentistry of New Jersey-Rutgers Medical School, Department of Biochemistry, University Heights, Piscataway, N.J. 08854. Article: HF-Reaction Apparatus Type I and accessories. Manufacturer: Protein Research Foundation Peptide Institute, Japan. Intended use of article: The article is intended to be used to handle hydrogen fluoride and carry out chemical reactions which newly synthesized synthetic peptides are cleaved from either solid supports or from chemical groups which are used to block the peptide for various stages in the synthesis. Application received by Commissioner of Customs: October 3, 1978.

Docket No. 79-00005. Applicant: Department of Health, Education, and Welfare, NIH, Division of Cancer Biology and Diagnosis, NCI, Building 31, Room 3A-05, Bethesda, Md. 20014. Article: Gammacell 40—(small animal irraditor) with accessories. Manufacturer: Atomic Energy of Canada Ltd., Canada. Intended use of article: The article is intended to be used in a variety of types of basic biomedical research, primarily involving investigation of immunologic functions of various types from the administration of relatively low doses (200-300 rads) which permits the transplantation of foreign neoplasms to lethal doses in the 800-900 rad range followed by the transplantation of hematopoietic cells. Application received by Commissioner of Customs: October 3, 1978.

Docket No. 79-00006. Applicant: DHEW, National Institutes of Health, Laboratory of Biophysics, IRP, NINCDS, Marine Biological Laboratory, L-320, Woods Hole, Mass. 02543. Article: Electron Microscope, Model EM 400 HMG and accessories. Manufacturer: Philips Electronics Instruments, NVD, the Netherlands. Intended use of article: The article is intended to be used in a variety of modes to study the fine structure of cell membranes and cytoplasmic macromolecular architecture, particularly in the newrons of a number of invertebrate and vertebrate species. In general, the main feature distinguishing the fine structure of neural material is its high degree of liability. Hence, there will be special emphasis on developing preservation techniques designed to minimize ultrastructural changes during fixation and subsequent processing for electron microscopy. Application received by Commissioner of Customs: October 3, 1978.

Docket No. 79-00007. Applicant: University of Pennsylvania, School of Medicine, 36th and Hamilton Walk, Philadelphia, Pa. 19104 Article: Electron Microscope, Model EM 201C and accessories. Manufacturer: Philips Electronics Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for research involving the study of contractile proteins in muscle and non-muscle systems. In the latter, studies of the formation and orientation of actin filaments in relation to the state of motion of a specific portion of the cell are of greatest interest. Tissue culture cells, pollen cells, blood platelets and the slime mold will be used to study the changes in non-muscle acting filaments during various forms of cell motility. The formation of myosin filaments *in vitro* will be examined using vertebrate skeletal muscle. The interaction of the M-band proteins with synthetic myosin filaments will be pursued along with the structure of smooth muscle myosin filaments, primarily rabbit uterine myosin filaments. In addition, the article will be used in the following courses to give a cellular understanding of the structure of the body:

Histology, Neurobiology, Cell Differentiation, Tissue Interactions, Molecular Organization of Striate Myofibritis, Cell Motility and Membranes, Independent Study and Research.

Application received by Commissioner of Customs: October 3, 1978.

Docket No. 79-00008. Applicant: University of Michigan, Department of Medicine, 1405 East Ann Street, Ann Arber, Mich. 48109 Article: Scanning Microdensitometer, Model M85 and accessories. Manufacturer: Vickers Instruments, Inc., United Kingdom. Intended use of article: The article is intended to be used to quantitate the intensity of staining of gastric fundal parietal cells as an index of acid secretion. When the parietal tissue is subject to stimulation with various agents, an enzyme (carbonic anhydrase) is stimulated and catalyzes a reaction between water and carbon dioxide to form carbonic acid which then generates hydroxyl (OH) ions. Application received by Commissioner of Customs: October 4, 1978.

Docket No. 79-00009. Applicant: Iowa State University, Ames, Iowa 50011. Article: FX 90Q MHz Integrated Broadbad DQD FT NMR System and accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used to obtain the ^{13}C and ^{1}H NMR spectra of organic molecules most of which will be new compositions of matter. The majority of the experiments will be routine structural analysis. Kinetic experiments may be performed occasionally as well as studies of fluctional molecules as a function of temperature. One set of experiments is presently planned detecting CIDNP in a reaction which may proceed via a radical pair mechanism. The article will also be used to prepare postgraduate students for a career in research. Application received by Commissioner of Customs: October 4, 1978.

Docket No. 79-00010. Applicant: University of Nebraska, Department of Agronomy, Lincoln, Nebr. 68583. Article: 2KW X-ray Diffraction System, Model 2028 and accessories. Manufacturer: Rigaku Inc., Japan. Intended use of article: The article is intended to be used for studies involving weathering within, origin of, and classification of soils. Also, phenomena of cation exchange and forces holding certain elements within the soil will be studied. In addition, the article will be used in the course Soil Genesis and Classification in which is a study of origins, properties, and classification of soils for M.Sc. and Ph. D. students.

Application received by Commissioner of Customs: October 4, 1978.

UNIVERSITY OF ILLINOIS MEDICAL CENTER

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an applicatin for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No.: 78-00193. Applicant: University of Illinois Medical Center, College of Medicine, 1853 West Polk Street, Chicago, Ill. 60612. Article: Nuclear Magnetic Resonance Spectrometer, Model CXP-180. Manufacturer: Bruker Physik, A.G., West Germany. Intended use of article: The article is intended to be used in studies of the conformation and molecular dynamics of hormones (peptide hormones), key neurotransmitters (e.g., acetycholine) and drug membrane interactions. The article will also be used in studies of metabolism in intact cells, in obtaining information regarding physiological processes at nerve endings (synaptosomes) and in studies of the binding of ligands to hemoproteins and the interrelation between the binding and the conformation. The experiments to be conducted will include: (a) Oxygen-17 chemical shift measurements in the presence of paramagnetic ion probes, (b) oxygen-17 nuclear relaxation measurements, (c) determination of carbon-13 chemical shift tensor components in the solid state of oligopeptides and peptide hormones by means of transfer of polarization from the protons spin system to the carbon-13 nuclei, and (d) deuterium NMR chemical shift and line shape analysis of deuterium labeled peptides. The article will also be used for training in a teaching program in Nuclear Magnetic Resonance and its applications.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: This application is a resubmission of Docket No. 77-00268 which was denied without prejudice to resubmission on November 30, 1977, for informational deficiencies. The foreign article provides the capability of wide spectral range for ^{17}oxygen (364 KHz) with its pulse width of three microseconds for a 90° pulse. The Department of Health, Education, and Welfare advises in its memorandum dated August 14, 1978, that (1) the capability of the foreign article described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

UNIVERSITY OF PUERTO RICO ET AL.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Statutory Import Programs Staff, Bureau of Trade Regulation, U.S. Department of Commerce, Washington, D.C. 20230, on or before November 20, 1978.

Regulations (15 CFR 301.9) issued under the cited act prescribe the requirements for comments.

A copy of each application is on file, and may be examined between 8:30 a.m. and 5 p.m., Monday through Friday, in room 6886C of the Department of Commerce Building, 14th and

V 43/208 OC 26 78

Constitution Avenue NW., Washington, D.C. 20230.

Docket No.: 78-00358. Applicant: University of Puerto Rico, Mayaguez Campus, Mayaguez, P.R. 00708. Article: Centrifugal force apparatus and accessories. Manufacturer: Experimental Engineering Equipment Ltd., Canada. Intended use of article: The article is intended to be used for educational purposes in the course Engineering 242-Dynamics, Study of the Principles of Dynamics. Application received by Commissioner of Customs: October 3, 1978.

Docket No.: 78-00434. Applicant: National Eye Institute, Building 9, room 1E118, National Institutes of Health, Bethesda, Md. 20014. Article: LKB 8800A Ultrotome III Ultramicrotome and accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used in experiments concerned with understanding the functional organization of primate retina. These include identifying active and inactive synapses using ultrastructural characteristics and various histochemical procedures. Understanding the functional organization of primate retina at the cellular level will be valuable in understanding human visual functioning and malfunctioning, which for many retinal diseases has its origins at the cellular level. Application received by Commissioner of Customs: September 29, 1978.

Docket No.: 78-00436. Applicant: Veterans Administration Hospital, 3801 Miranda Avenue, Palo Alto, Calif. 94304. Article: LKB 8800A Ultrotome III Ultramicrotome and accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for investigation of peripheral nerve, central white matter tracts and central neuropil as well as bony structures such as the labyrinth and spinal vertebrae. Experiments to be conducted will include ultrastructure and cytochemical studies on normal and pathological nerve cells, developmental studies on the nervous system and on muscle, and studies on membrane structure on both normal and pathological animals. Application received by Commissioner of Customs: September 29, 1978.

Docket No.: 78-00448. Applicant: Illinois Institute of Technology, 3300 South Federal, Chicago, Ill. 60616. Article: TEA-103-2 Multimode CO_2 Laser with accessories. Manufacturer: Lumonics Research Ltd., Canada. Intended use of article: The article is intended to be used for the study of gases which absorb 9-11μ radiation produced by a CO_2 TEA laser and which have bond strengths less than about 60 kcal/mole. Experiments will be conducted to produce polyatomic free radicals under controlled conditions suitable for the study of their subsequent reactions. Application received by Commissioner of Customs: September 27, 1978.

Docket No.: 78-00450. Applicant: Johns Hopkins University, School of Medicine, 725 North Wolfe Street, Baltimore, Md. 21205. Article: Electron Microscope, Model EM 10A and accessories. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used for the study of the localization of cytoskeletal proteins in non-muscle cells by immunochemical electron microscopic methods. In particular, the investigation of the localization of the protein alpha-actinin with respect to the substructure of the brush border and junctional complex of epithelial cells. In addition, the article will be used to train people in basic electron microscopy techniques. Application received by Commissioner of Customs: September 29, 1978.

Docket No. 78-00451. Applicant: University of Rochester Nuclear Structure Research Laboratory, 271 East River Road, Rochester, N.Y. 14627. Article: Particle acceleration tube. Manufacturer: Dowlish Developments Ltd., United Kingdom. Intended Use of Article: The article is intended to be used to upgrade an existing Van de Graaf accelerator which is being used in a variety of nuclear studies. The projects being conducted will involve the following:

I. Light Ion Studies:
A. Multi-Step Processes in the Interpretation of the ^{28}Si(d, ^{3}He) ^{27}Al Reaction,
B. Study of the (^{3}He,n) and (^{3}He,p) Reactions on ^{27}Al and ^{29}Si to Analogue Final States,
C. Study of the ^{29}Si(d,py) Reaction, etc.
II. Heavy Ion Reactions:
A. The transition between Light- and Heavy-Ion Elastic Scattering,
B. Unnatural Parity Levels Populated in the ^{16}O(^{6}Li,d)^{20}Ne Reaction,
C. Further Attempts To Resolve the Double Near 6.3 MeV in ^{22}Ne in the Reaction ^{18}O(^{6}Li,d)^{22}Ne.
III. Measurement of Total Muon-Capture Rates in ^{232}Th, ^{235,238}U and ^{239}Pu.

Application Received by Commissioner of Customs: September 29, 1978.

Docket No. 78-00452. Applicant: University of Rochester Nuclear Structure Research Laboratory, 271 East River Road, Rochester, N.Y. 14627. Article: Particle Acceleration Tube, Manufacturer: Dowlish Developments Ltd., United Kingdom. Intended Use of Article: The article is intended to be used to upgrade an existing Van de Graaf accelerator which is being used in a variety of nuclear studies. The projects being conducted will involve the following:

I. Light Ion Studies:
A. Multi-Step Processes in the Interpretation of the ^{28}Si(d, ^{3}He) ^{27}Al Reaction,
B. Study of the (^{3}He,n) and (^{3}He,p) Reactions of ^{27}Al and ^{29}Si to Analogue Final States,
C. Study of the ^{29}Si(d,py) Reaction, etc.
II. Heavy Ion Reactions:
A. The transition between Light- and Heavy-Ion Elastic Scattering,
B. Unnatural Parity Levels Populated in the ^{16}O(^{6}Li,d) ^{20}Ne Reaction,
C. Further Attempts To Resolve the Double Near 6.3 MeV in ^{22}Ne in the Reaction ^{18}O(^{6}Li,d)^{22}Ne.
III. Measurement of Total Muon-Capture Rates in ^{232}Th, ^{235,238}U and ^{239}Pu.

Application Received by Commissioner of Customs: September 29, 1978.

Docket No. 78-00453. Applicant: Georgetown University Medical School, Department of Pathology, 3900 Reservoir Road Northwest, Washington, D.C. 20007. Article: Microlab automatic tissue processor. Manufacturer: Microlab Products, Canada. Intended Use of Article: the article is intended to be used during investigations of surgical and autopsy material and experimental animal model tissues for immuno-electron microscopic identification of tissue antigens. The article will also be used in the course Electron Microscopy in Pathology for educational purposes. Application Received by Commissioner of Customs: October 2, 1978.

Docket No. 78-00454. Applicant: Case Western Reserve University, Department of Pharmacology, 2119 Abington Road, Cleveland, Ohio 44106. Article: MS-3076 dual-beam mass Spectrometer and accessories. Manufacturer: AEI Scientific Appartus, Ltd., United Kingdom. Intended Use of Article: The article is intended to be used primarily for the study of drug metabolism as part of a comprehensive program for the study of parasitic diseases. Isolation of purified drug metabolites from biological sources will be followed by introduction of minute quantities of material into the source of the mass spectrometer either by direct insertion probe or via gas chromatography. The accurate mass information about the drug molecule, hopefully to determine its chemical structure. In addition, the article will be used to train graduate students pharmacology in utlization of the mass spectrometer data system. Application Received by Commissioner of Customs: October 3, 1978.

Office of the Secretary

ADVISORY COMMITTEE ON FEDERAL POLICY ON INDUSTRIAL INNOVATION ADVISORY SUBCOMMITTEE ON PATENTS AND INFORMATION

Meetings

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. (1976), notice is hereby given that the Advisory Subcommittee on Patents and Information of the Advisory Committee on Federal Policy on Industrial Innovation will hold a series of four meetings with the following schedule:

Thursday, November 2, 1978, Room B-841.
Thursday, November 16, 1978, Room 6802.
Thursday, November 30, 1978, Room B-841
Wednesday, December 13, 1978, Room B-841.
Department of Commerce Building, 14th and Constitution Avenue NW., Washington, D.C.

These meetings will start of 9:30 a.m. and will finish at 5 p.m.

The agenda for these meetings is as follows:

1. Review the work-to-date.
2. Develop the format and content of the final report.
3. At the final meeting (Dec. 13, 1978) the final report will be reviewed and approved.

The Advisory Subcommittee on Patents and Information was established to examine the impact of Federal patent and information policy on industrial innovations and to identity policy options that can be taken by the Federal Government to encourage industrial innovation with minimal negative effects on other important national goals.

The meetings will be open to public observation. A limited number of seats will be available to the public and press on a first-come, first-serve basis.

Copies of the minutes and materials distributed will be made available for reproduction, following certification by the subcommittee chairman, in accordance with the Federal Advisory Committee Act, at the U.S. Department of Commerce, Central Reference and Records Inspection Facility, Washington, D.C. 20230.

Further information may be obtained from Mr. John R. Heizer, Room 3868A, U.S. Department of Commerce, Washington, D.C., telephone 202-377-3648.

The department regrets that emergency circumstances have prevented us from giving at least 15 days advanced notice of the meeting on November 2, 1978. The work plan for the Domestic Policy Review on Industrial Innovation requires that the subcommittee produce a printed report of its recommendations by December 15, 1978. The four meetings specified in this notice are essential to the completion of the committee's work by that deadline. Earlier notice was not possible because appointment of members to the subcommittee was not completed until October 19, 1978, and it was necessary to await completion of such appointments before establishing a schedule for the meetings. The subcommittee's report will be subject to public review and criticism.

Dated: October 24, 1978.

JORDAN J. BARUCH,
Assistant Secretary for Science and Technology.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

REPUBLIC OF SINGAPORE

Announcing Import Restraint Levels Under New Multifiber Agreement

OCTOBER 20, 1978.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Establishing import restraint levels for textile products in categories 347/348 (cotton trousers), 445/446 (wool sweaters), 604 (manmade fiber yarn), 638/639 (manmade fiber knit shirts and blouses), and 641 (manmade fiber blouses, not knit) from Singapore during the 12-month period beginning on January 1, 1978 and extending through December 31, 1978. (A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on January 4, 1978 (43 FR 884), as amended on January 25, 1978 (43 FR 3421), March 3, 1978 (43 FR 8828), June 22, 1978 (43 FR 26773), and September 5, 1978 (43 FR 39408)).

SUMMARY: The Governments of the United States and the Republic of Singapore exchanged notes dated September 21 and 22, 1978 establishing a new Bilateral Cotton, Wool, and Manmade Fiber Textile Agreement for the 4-year period beginning on January 1, 1978 and extending through December 31, 1981. Within the aggregate and group ceilings, levels of restraint have been established, among other categories, for cotton, wool, and manmade fiber textile products in categories 347/348, 445/446, 604, 638/639, and 641, produced or manufactured in Singapore and exported to the United States during the 12-month period which began on January 1, 1978 and extends through December 31, 1978. Accordingly, in the letter published below the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to limit imports for consumption, or withdrawals from warehouse for consumption, of cotton, wool, and manmade fiber textile products in the foregoing categories to the designated amounts, pursuant to the new agreement. The levels of restraint have not been adjusted to account for imports during the period beginning on January 1, 1978 and extending through October 31, 1978. Imports during this period will be charged.

This letter and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

EFFECTIVE DATE: November 1, 1978.

ROBERT E. SHEPHERD,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Domestic Business Development.
OCTOBER 20, 1978.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C.

DEAR MR. COMMISSIONER: Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977; pursuant to the Bilateral Cotton, Wool, and Man-Made Fiber Textile Agreement of September 21 and 22, 1978, between the Governments of the United States and the Republic of Singapore; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on November 1, 1978, and for the 12-month period beginning on January 1, 1978 and extending through December 31, 1978, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool and man-made fiber textile products exported from Singapore in the following categories, in excess of the designated 12-month levels of restraint:

Category	12-mo level of restraint [1]
347/348	500,000 doz. of which not more than 430,625 doz. shall be in category 347 and not more than 194,375 doz. shall be in category 348.
445/446	20,000 doz.
604	700,000 lb.

V 4

Category	12-mo level of restraint [1]
638/639	2,720,000 doz. of which not more than 340,000 doz. shall be in category 638.

[3510-25-M]

SOCIALIST REPUBLIC OF ROMANIA

ects the Commissioner of Customs to amend the previously established levels of restraint for Categories 334

[3910-01-M]

DEPARTMENT OF DEFENSE

Department of the Air Force

Groups of the Committee on Unconventional Gas Sources of the National Petroleum Council will meet on Tuesday and Wednesday, November 14 and

Evaluation, 202-566-9482, prior to the meeting and reasonable provision will be made for their appearance on the agenda.

V 43/208 OCT 26 78

Category	12-mo level of restraint [1]
638/639	2,720,000 doz. of which not more than 340,000 doz. shall be in category 638.
641	55,775 doz.

[1] The levels of restraint have not been adjusted to reflect any imports after Dec. 31, 1977.

In carrying out this directive entries of cotton, wool, and man-made fiber textile products in the foregoing categories, produced or manufactured in Singapore and exported to the United States prior to January 1, 1978, and entered on and after the effective date of this directive, shall not be charged against the levels of restraint established in this directive.

Cotton, wool, and man-made fiber textile products in the foregoing categories that have been released from the custody of the U.S. Customs Service under the provisions of 19 U.S.C. 1448(b), before the effective date of this directive, shall not be denied entry under this directive.

The levels of restraint set forth above are subject to adjustment in the future according to the provisions of the bilateral agreement of September 21 and 22, 1978, between the Governments of the United States and the Republic of Singapore which provide, in part, that: (1) Within the aggregate and applicable group limits, specific limits and sublimits may be exceeded by designated percentages; (2) specific levels of restraint may be increased for carryover and carryforward up to 11 percent of the applicable category limit; and (3) administrative arrangements or adjustments may be made to resolve minor problems arising in the implementation of the agreement. Any appropriate adjustments under the provisions of the bilateral agreement, referred to above, will be made to you by letter.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on January 4, 1978 (43 FR 884), as amended on January 25, 1978 (43 FR 3421), March 3, 1978 (43 FR 8828), June 22, 1978 (43 FR 26773), and September 5, 1978 (43 FR 39408).

In carrying out the above directions, entry into the United States shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Republic of Singapore and with respect to imports of cotton, wool, and man-made fiber textile products from Singapore have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

ROBERT E. SHEPHERD,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Domestic Business Development.

[3510-25-M]

SOCIALIST REPUBLIC OF ROMANIA

Amending the Import Levels for Certain Cotton Apparel Products

OCTOBER 20, 1978.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Amending the levels of restraint for imports of certain men's and boys' cotton coats and knit shirts in Categories 334 and 338 from Romania under the terms of the bilateral cotton textile agreement.(A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on January 4, 1978 (43 FR 884), as amended on January 25, 1978 (43 FR 3421), March 3, 1978 (43 FR 8828), June 22, 1978 (43 FR 26773), and September 5, 1978 (43 FR 39408)).

SUMMARY: The Governments of the United States and the Socialist Republic of Romania have exchanged letters dated October 13 and 14, 1978, amending the Bilateral Cotton Textile Agreement of January 6 and 25, 1978, among other things, to increase the level of restraint for cottom textile products in Category 334 and decrease the level for cotton textile products in Category 338, produced or manufactured in Romania and exported to the United States during the 12-month period which began on January 1, 1978.

EFFECTIVE DATE: October 26, 1978.

FOR FURTHER INFORMATION CONTACT:

Jane C. Bonds, International Trade Specialist, Office of Textiles, U.S. Department of Commerce, Washington, D.C. 20230, 202-377-5423.

SUPPLEMENTARY INFORMATION: On March 31, 1978, there was published in the FEDERAL REGISTER (43 FR 13604), a letter dated March 28, 1978, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, establishing import restraint levels for certain cotton textile products from Romania during the 12-month period which began on January 1, 1978, pursuant to the terms of the Bilateral Cotton Textile Agreement of January 6 and 25, 1978, between the Governments of the United States and the Socialist Republic of Romania. In the letter published below, the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to amend the previously established levels of restraint for Categories 334 and 338 in accordance with the bilateral agreement, as amended.

ROBERT E. SHEPHERD,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Domestic Business Development.

OCTOBER 20, 1978.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C.

DEAR MR. COMMISSIONER: Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977; pursuant to the Bilateral Cotton Textile Agreement of January 6 and 25, 1978, between the Governments of the United States and the Socialist Republic of Romania; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to amend, effective on October 26, 1978, the levels of restraint established in the directive of March 28, 1978 for Categories 334 and 338 as follows:

Category	Amended 12-mo level of restraint [1]
334	186,320 doz. of which not more than 36,320 doz. shall be in all T.S.U.S.A. numbers in the category except T.S.U.S.A. 380.0611.
338	300,000 doz. of which not more than 97,222 doz. shall be in T.S.U.S.A. Nos. 380.0028, 380.0029, 380.0651, and 380.0652.

[1] The amended levels of restraint have not been adjusted to account for any imports after Dec. 31, 1977.

The actions taken with respect to the Government of the Socialist Republic of Romania and with respect to imports of cotton textile products from Romania have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This lettrer will be published in the FEDERAL REGISTER.

Sincerely,

ROBERT E. SHEPHERD,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Domestic business Development.

DEPARTMENT OF ENERGY

NATIONAL PETROLEUM COUNCIL COORDINATING SUBCOMMITTEE AND TASK GROUPS OF THE NPC COMMITTEE ON UNCONVENTIONAL GAS SOURCES

Meetings

Notice is hereby given that the Coordinating Subcommittee and Task Groups of the Committee on Unconventional Gas Sources of the National Petroleum Council will meet on Tuesday and Wednesday, November 14 and 15, 1978 at the following time and locations:

COORDINATING SUBCOMMITTEE

November 14, 1978, 2 p.m., NPC Conference Room, 1625 K Street NW., Washington, D.C.

AGENDA

1. Introductory remarks by Chairman and Government Co-chairman.
2. Discussion of scope of the NPC Study on Unconventional Gas Sources.
3. Discussion of the Study methodology to be employed by Coordinating Subcommittee.
4. Discussion of any other matters pertinent to the overall assignment of the Coordinating Subcommittee.

TASK GROUPS

Coal Seams

November 14, 1978, 10 a.m., NPC Conference Room, 1625 K Street NW., Washington, D.C.

Geopressured Zones

November 15, 1978, 9 a.m., International Club, Scandinavian Room, 1800 K Street NW., Washington, D.C.

Tight Sands

November 15, 1978, 10 a.m., International Club, African Room, 1800 K Street NW., Washington, D.C.

Devonian Shale

November 15, 1978, 11 a.m., International Club, Tasterin Room, 1800 K Street NW., Washington, D.C.

The agenda for the Task Groups sessions is:

1. Introductory remarks by the Chairman and Government Co-chairman.
2. Discussion of scope of the assignment of the Task Group.
3. Discussion of the study methodology of the Task Group.
4. Discussion of the timetable of the Task Group.
5. Discussion of any other matters pertinent to the overall assignment of the Task Group.

The meetings are open to the public. The chairmen of the Coordinating Subcommittee and Task Groups are empowered to conduct the meetings in a fashion that will, in their judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Coordinating Subcommittee or Task Groups will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Lucio D'Andrea, Office of Policy and Evaluation, 202-566-9482, prior to the meeting and reasonable provision will be made for their appearance on the agenda.

Transcripts of the meeting will be available for public review at the Freedom of Information Public Reading Room, Room 2107, Department of Energy, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. Any person may purchase a copy of the transcripts from the reporter.

Issued at Washington, D.C., October 23, 1978.

WILLIAM S. HEFFELFINGER,
Director of Administration.

Economic Regulatory Administration

DOMESTIC CRUDE OIL ALLOCATION PROGRAM

Entitlement Notice for August 1978

AGENCY: Department of Energy, Economic Regulatory Administration.

ACTION: August 1978 entitlement notice.

SUMMARY: Under the Department of Energy's (DOE) domestic crude oil allocation (entitlements) program, this is the monthly entitlement notice which sets forth the entitlement purchase or sale requirements of domestic refiners for August 1978.

DATES: Payments for entitlements required to be purchased under this notice must be made by October 31, 1978. The monthly transaction report specified in § 211.66(i) shall be filed with the DOE by November 10, 1978.

FOR FURTHER INFORMATION CONTACT:

Douglas McIver (Entitlements Program Office), Economic Regulatory Administration, 2000 M Street NW., Room 61281, Washington, D.C. 20461, 202-254-8660.

Fred Wolgel (Office of General Counsel), Department of Energy, 12th and Pennsylvania Avenue NW., Room 7134, Washington, D.C. 20461, 202-566-2454.

SUPPLEMENTAL INFORMATION: In accordance with the provisions of 10 CFR 211.67 relating to the domestic crude oil allocation program of the Department of Energy (DOE), administered by the Economic Regulatory Administration (ERA), the monthly notice specified in § 211.67(i) is hereby published.

Based on reports for August 1978 submitted to the DOE by refiners and other firms as to crude oil receipts, crude oil runs to stills, eligible product imports and imported and the still[illegible]

number of entitlements for the month of August 1978 in excess of the number of barrels of deemed old oil included in their adjusted crude oil receipts for that [illegible]

by the President on October 17, 1978, we have adopted amendments to the residual fuel oil provisions of the entitlements program. These amendments

	Volumes	Weighted average cost	Percent of total volumes*

V 4 3 / 2 0 8 0 C 2 6 7 8

Based on reports for August 1978 submitted to the DOE by refiners and other firms as to crude oil receipts, crude oil runs to stills, eligible product imports and imported naphtha utilized as a petrochemical feedstock in Puerto Rico; application of the entitlement adjustment for residual fuel oil production shipped in foreign flag tankers for sale in the east coast market provided in § 211.67(d)(4); application of the entitlement adjustments for California lower tier and upper tier crude oil provided in § 211.67(a)(4); September 1978 deliveries of crude oil for storage in the strategic petroleum reserve; and application of the entitlement adjustment for small refiners provided in § 211.67(e), the national domestic crude oil supply ratio for August 1978 is calculated to be 0.165475.

In accordance with § 211.67(b)(2), to calculate the number of barrels of deemed old oil included in a refiner's adjusted crude oil receipts for the month of August 1978, each barrel of old oil is equal to one barrel of deemed old oil and each barrel of upper tier crude oil is equal to 0.165183 of a barrel of deemed old oil.

The issuance of entitlements for the month of August 1978 to refiners and other firms is set forth in the appendix to this notice. The appendix lists the name of each refiner or other firm to which entitlements have been issued, the number of barrels of deemed old oil included in each such refiner's adjusted crude oil receipts, the number of entitlements issued to each such refiner or other firm, and the number of entitlements required to be purchased or sold by each such refiner or other firm.

Pursuant to 10 CFR 211.67(i)(4), the price at which entitlements shall be sold and purchased for the month of August 1978 is hereby fixed at $8.06, which is the exact differential as reported for the month of August between the weighted average per barrel costs to refiners of old oil and of imported and exempt domestic crude oil, less the sum of 21 cents.

In accordance with 10 CFR 211.67(b), each refiner that has been issued fewer entitlements for the month of August 1978 than the number of barrels of deemed old oil included in its adjusted crude oil receipts is required to purchase a number of entitlements for the month of August 1978 equal to the difference between the number of barrels of deemed old oil included in those receipts and the number of entitlements issued to and retained by that refiner. Refiners which have been issued a number of entitlements for the month of August 1978 in excess of the number of barrels of deemed old oil included in their adjusted crude oil receipts for that month and other firms issued entitlements shall sell such entitlements to refiners required to purchase entitlements. In addition, certain refiners are required to purchase or sell entitlements to effect corrections for reporting errors for the months of September 1975 through July 1978 pursuant to 10 CFR 211.67(j)(1).

The listing of refiners' old oil receipts contained in the appendix reflects any adjustments made by ERA pursuant to § 211.67(h).

The listing contained in the appendix identifies in a separate column labeled "Exceptions and Appeals" additional entitlements issued to refiners pursuant to relief granted by the Office of Hearings and Appeals (prior to March 30, 1978, the Office of Administrative Review of the Economic Regulatory Administration). Also set forth in this column are adjustments for relief granted by the Office of Hearings and Appeals for 1975 and 1976, which adjustments are reflected in monthly installments. The number of installments is dependent on the magnitude of the adjustment to be made. For a full discussion of the issues involved, see *Beacon Oil Company, et al.*, 4 FEA par. 87,024 (November 5, 1976).

The listing contained in the appendix continues the "Consolidated Sales" entry initiated in the October 1977 entitlement notice. The "Consolidated Sales" entry is equal to the August 1978 entitlement purchase requirement of Arizona Fuels. The purpose of providing for the "Consolidated Sales" entry is to insure that Arizona Fuels is not relieved of its August 1978 entitlement purchase requirement and that no one firm will be unable to sell its entitlements by reason of a default by Arizona Fuels. For a full discussion of the issues involved, see entitlement notice for October 1977 (42 FR 64401, December 23, 1977).

For purposes of § 211.67(d) (6) and (7), which provide for entitlement issuances to refiners or other firms for sales of imported crude oil to the U.S. Government for storage in the strategic petroleum reserve, the number of barrels sold to the Government totaled 7,112,825 barrels.

Pursuant to section 307 of the Act Making Appropriations for the Department of the Interior and Related Agencies for the Fiscal Year Ending September 30, 1979, which was signed by the President on October 17, 1978, we have adopted amendments to the residual fuel oil provisions of the entitlements program. These amendments basically provide that imports of residual fuel oil into the Bureau of Mines East Coast Refining District and the State of Michigan will be eligible to earn 50 percent of the per barrel crude oil entitlement value. Domestic refiners will receive 100 percent entitlement value for all barrels of domestically produced residual fuel oil sold into the east coast market (which, as defined, includes Michigan), unless such barrels are shipped in foreign flag tankers. In accord with the terms of the legislation, the amendments are being adopted effective for July 1978 crude oil runs to stills and imports of residual fuel oil. The listing contained in the appendix reflects the adjustments that are necessary to implement these amendments effective for July 1978. In particular, certain refiners that made adjustments to crude oil runs to stills pursuant to the provisions of § 211.67(d)(4) for July sales of residual fuel oil into the east coast market (the "reverse entitlements" provision) are granted compensating entitlement issuances in this notice. Importers of residual fuel oil are granted additional entitlement issuances for July 1978 imports of residual fuel oil into the east coast market (including the State of Michigan) to reflect the new 50-percent entitlement value for such imports. For a further discussion of these regulatory changes, reference should be made to the final rule implementing the statutory requirements.

For the month of August 1978, imports of residual fuel oil eligible for entitlements issuances totaled 31,741,122 barrels.

In accordance with § 211.67(a)(4), the number of barrels of California lower tier and upper tier crude oil as reported by refiners to the DOE, and the weighted average gravity thereof are as follows:

	Volumes	Weighted average gravity
California lower tier crude oil	9,971,100	19
California upper tier crude oil	7,975,087	19

The total number of entitlements required to be purchased and sold under this notice is 21,302,304.

Based on reports submitted to the DOE by refiners as to their adjusted crude oil receipts for August 1978, the pricing composition and weighted average costs thereof are as follows:

	Volumes	Weighted average cost	Percent of total volumes*
Lower tier	91,245,630	$5.98	18.3
Upper tier	91,529,682	12.71	18.3
Exempt domestic:			
Alaskan	39,148,647	12.90	7.8
Stripper	37,021,831	14.44	7.4
Naval petroleum reserve	2,878,709	13.51	.6
Total domestic	261,824,499	10.65	52.4
Total imported	237,438,315	14.46	47.6
Total reported crude oil receipts	499,262,814	12.46	100.0
Total reported crude oil runs to stills	504,568,443		

*Numbers may not add due to rounding.

Payment for entitlements required to be purchased under 10 CFR 211.67(b) for August 1978 must be made by October 31, 1978.

On or prior to November 10, 1978, each firm which is required to purchase or sell entitlements for the month of August 1978 shall file with the DOE the monthly transaction reports specified in 10 CFR 211.66(i) certifying its purchases and sales of entitlements for the month of August. The monthly transaction report forms for the month of August have been mailed to reporting firms. Firms that have been unable to locate other firms for required entitlement transactions by October 31, 1978, are requested to contact the ERA at 202-254-3336 to expedite consummation of these transactions. For firms that have failed to consummate required entitlement transactions on or prior to October 31, 1978, the ERA may direct sales and purchases of entitlements pursuant to the provisions of 10 CFR 211.67(k).

This notice is issued pursuant to subpart G, 10 CFR part 205. Any person aggrieved hereby may file an appeal with the Office of Hearings and Appeals in accordance with subpart H of 10 CFR part 205. Any such appeal shall be filed on or before November 27, 1978.

Issued in Washington, D.C., on October 18, 1978.

DAVID J. BARDIN,
Administrator, Economic Regulatory Administration.

[3128-01-C]

DEPARTMENT OF ENERGY

Economic Regulatory Administration

STANDARD OIL CO. OF CALIFORNIA

Proposed Consent Order

I. Introduction

Pursuant to 10 CFR 205.199J, the Office of Special Counsel (OSC) of the Department of Energy (DOE) hereby gives notice of a consent order which was executed between Standard Oil Co. of California acting through Chevron, U.S.A., and the OSC on September 22, 1978. In accordance with that section, the OSC will receive comments with respect to this consent order. Although the consent order has been signed and tentatively accepted by OSC, the OSC may, after consideration of comments received, withdraw its acceptance and if appropriate, attempt to negotiate an alternative consent order.

II. The Consent Order

Pursuant to the authority promulgated in 10 CFR 205.199J, and section 301 of the Department of Energy Organization Act, 42 U.S.C. 1751, the Office of Special Counsel (OSC) of the Department of Energy (DOE) hereby enters into this consent order with Standard Oil Co. of California (SOCAL) through Chevron U.S.A., Inc. (Chevron). As of January 1, 1977, Chevron became the organization responsible for the domestic operations of SOCAL encompassed by this consent order.

Recently OSC conducted an examination of the books and records of Chevron, pursuant to its authority conferred by the Economic Stabilization Act of 1970, as amended, 12 U.S.C. 1904, note (Economic Stabilization Act) and the Emergency Petroleum Allocation Act of 1973, as amended, 15 U.S.C. 751 et seq. (Allocation Act). The examination conducted by OSC focused on Chevron's computation of product and nonproduct cost increases for natural gas liquids (NGL's) and natural gas liquid products (NGLP's) from Chevron-operated and interest-owned gas plants during the period from September 1, 1973 through December 31, 1976.

This consent order constitutes a resolution of the compliance matters arising from the aforementioned audit for the period September 1, 1973 through December 31, 1976.

Special Counsel's audit of Chevron's NGL processing activities was performed during January and February 1978. It involved an examination of product and nonproduct cost calculations for Four of Chevron's gas processing plants, Colonia Booster, Oxnard, Calif.; West Cameron, Cameron, La; Snyder, Scurry County, Tex.; and Swanson River, Soldotna, Alaska, in the months of November 1973, July and September 1974, February and September 1975, and January and December 1976. Review of these plants enabled OSC to identify errors in Chevron's increased cost calculation methodology as applied to all its gas plants.

Jurisdiction

The Office of Special Counsel was created by a delegation of authority from the Administrator of the Economic Regulatory Administration which was created by 206 of the Department of Energy Organization Act, 42 U.S.C. 7136. Consequently, OSC is empowered to conduct and conclude audits and proceedings concerning the DOE Mandatory Price and Allocation Regulations.

Facts

The stipulated facts upon which this consent order is based are contained in the following paragraphs numbered 1 through 13.

1. Chevron, a refiner as defined by CLC regulations 6 CFR 150.352 (31 FR 22536, August 22, 1973) and FEA regulations at 10 CFR 212.31 (39 FR 1924, January 15, 1974) and a gas plant owner-operator as defined under FEA regulations at 10 CFR 212.162 (39 FR 44407, December 24, 1974), produces and sells NGL's and NGLP's.

2. OSC alleges that Chevron's computation of increased product costs (natural gas shrinkage costs) considered only product cost increases and not net product cost increases. A net cost increase involves both increases and decreases in product costs since May 1973, but Chevron's computations eliminated all cost decreases in apparent violation of 6 CFR 150.350(e), 150.355(e); 10 CFR 212.83(c), 212.161(2), and 212.166(b).

3. Chevron's NGL cost computations included increased shrinkage costs for NGL's and NGLP's which were given in kind to unrelated third parties under terms of processing and/or fractionation agreements. OSC alleges that Chevron should have included in increased product costs only the increased costs for those NGL/NGLP's to which it retained title, and that Chevron's calculation method is in violation of 10 CFR 212.166(a).

4. Chevron used lease meters in some fields rather than plant inlet meters to determine the inlet measurement in the shrinkage cost calculation. OSC alleges Chevron's actions to be in violation of 10 CFR 212.166(b)(3) which requires that the cost calculation be based on actual gas volumes processed. OSC believes that Chevron's methodology may have resulted in significant overstatements of actual gas volumes processed for NGL.

5. Chevron residue gas prices utilized in shrinkage cost calculations for Louisiana gas plants included an increment for recoupment of severance taxes resulting in an overstatement of calculated increased shrinkage costs which OSC alleges to be in violation of 10 CFR 212.166.

6. Chevron's shrinkage cost calculations included volumes attributable to removal of carbon dioxide (CO_2) which OSC alleges to be in violation of 10 CFR 212.162 which provides that shrinkage cost is only attributable to that volume or quantity of gas lost due to removal of NGL's. Since CO_2 is not a natural gas liquid, it may not properly be considered in the calculation of natural gas shrinkage costs.

7. Chevron calculated shrinkage costs in some instances by multiplying the difference between the May 1973 residue gas price and the month of measurement residue gas price times the shrinkage volume. OSC alleges Chevron's actions to be in violation of 10 CFR 212.166(b)(3) and contrary to ruling 1975-18 "Computation of Increased Cost of Natural Gas Shrinkage," which provide that natural gas shrinkage increase is the difference between the May 15, 1973 shrinkage cost per volume of gas processed and the current month cost of shrinkage per volume of gas processed, multiplied by the volume of natural gas processed in the current month.

8. OSC alleges Chevron's shrinkage calculations were in violation of 10 CFR 212.162 in some instances due to calculation of the shrinkage value based on MCF's rather than the BTU's lost in the extraction process. 10 CFR 212.162 states that the shrinkage cost is to be calculated on the same basis the residue gas is sold. The Chevron calculations alleged to be in error were sales under FPC opinions which provided for MCF price adjustments based on BTU content of the residue gas. OSC considers that these provisions made the gas sale, in effect, a BTU sale and required a BTU shrinkage calculation.

9. OSC alleges that Chevron has not maintained DOE required accounting records at the plants formerly under the supervision of the California Co., a division of Chevron, in apparent violation of 10 CFR 212.126(b). Those records which were maintained which purported to support NGL cost pass throughs were found by OSC to differ substantially in dollar amount from the actual costs reported by Chevron for the California Co.

V 43 / 208 OC 26 78

10. Chevron did not calculate nonproduct cost increases on a rate per gallon basis which OSC alleges to be in violation of 10 CFR 212.165 and the class exception order covering the period prior to 1975 (2 FEA paragraph 84,901).

11. At certain of Chevron's gas processing plants (which extract NGL's but do not fractionate NGLP's), Chevron used the $.005 nonproduct cost limitation, rather than the $.00375 limitation which OSC alleges to be in violation of 10 CFR 212.165.

12. At one plant operated by Chevron it was noted that a commingled stream of natural gasoline and condensate was produced. No analysis of this commingled stream had ever been made which would permit identification of the respective quantities of natural gasoline and condensate contained in the mixed stream. It was further noted that plant fuel used in the condensate recovery operations could not be differentiated from plant fuel volumes used in NGL extraction and recovery. OSC alleges this to be in violation of 10 CFR 212.126(b).

13. Chevron, without admitting any noncompliance with, or violation of, any rule or regulation of the DOE, desires to resolve, pursuant to 10 CFR 205.199J, the dispute arising between itself and the OSC as a result of the matters described herein. OSC, by means of this consent order, desires to conclude the compliance proceedings arising from its NGL audit of Chevron. Therefore, Chevron and OSC have mutually determined to conclude these matters and agree to the terms and conditions specified herein.

Terms and Conditions

1. Chevron shall have 30 days from the effective date of this consent order or until November 30, 1978, which ever is later, to recompute and to provide to OSC its allowable increased shrinkage costs on a monthly basis for the periods of May 1973 and September 1, 1973 through December 31, 1976, incorporating therein the exceptions described in items one (1) through eleven (11) contained in the fact section herein. It is understood item twelve (12) is to be implemented prospectively and is to be implemented within 30 days from the effective date of this consent order or by November 30, 1978, whichever is later. In its recomputation Chevron shall adhere to 10 CFR Part 212, Subpart K and the clarification outlined in DOE ruling 1975-18 (2 FEG para. 16058). The following methodology shall be used by Chevron in the recomputation:

A. Chevron will determine and document any and all data necessary for the calculation of shrinkage which were not previously included in calculations of shrinkage by the firm. Such data shall include but shall not be limited to data for interest-owned gas plants and NGL's acquired from other firms through provisions of processing/fractionation agreements.

B. Chevron will review calculations of shrinkage for all Chevron-operated gas plants; for all plants operated by other firms which process Chevron gas and in which Chevron retains title to some or all of NGL's extracted; and for all NGL's acquired from other firms through processing and/or fractionation agreements. Chevron will make revised calculations for all plants which are not in full conformance with the provisions of this consent order. Chevron will make these calculations in accordance with one of the following three alternatives:

(1) Chevron shall make the calculations required by B. above for May 1973 and for each month of the period September 1973 through and including December 1976.

(2) Chevron shall make the calculations required by B. above for May and November 1973; for January, July, and September 1974; for February, June, and September 1975; and January, May, and December 1976.

Chevron shall then agree to extrapolate to determine the total net adjustment to costs for each of calendar years 1973-76 by the following method: Based on the results of the review of the test month or months in each calendar year period, it will be assumed that all other months in that calendar year period will be similarly over/understated and a percentage adjustment based on the test month/months reviewed will be applied to the cost pass through for the other months in each calendar year period. For example, if the recalculation of November 1973 shows the previously calculated and reported pass through for November 1973 to be overstated by 10 percent, then Chevron agrees that a 10 percent reduction will also be made to the reported NGL cost pass through for September, October, and December 1973. Similarly for each year of the 1974 through 1976 period, if a comparison of the sum of the recalculated shrinkage costs of the 3 test months with actual cost pass throughs for those months shows the pass through to be overstated by 10 percent, then the NGL shrinkage cost pass through for each month of that year will be reduced by 10 percent.

(3) Chevron may choose at its option to use either (1) or (2) above for any year of the audit period, 1973 through 1976. However, under either alternative all objections as stated in the facts section of this consent order must be complied with for the period being recomputed. For any year or years for which Chevron chooses to use option (2), all cost pass throughs as reported for months in that year will be adjusted based on the results of the recomputed test months in that calendar year.

C. The increased shrinkage cost calculations as required above shall take into account:

(1) The exclusion from the shrinkage volume of all non-NGL products or byproducts extracted such as helium, CO_2, sulphur, scrubber oil, and condensate.

(2) The exclusion of increased shrinkage costs associated with the ethane sales volume percentage computed in accordance with 10 CFR 212.167(a) for each month of the period subsequent to January 1974.

D. Chevron agrees to recalculate nonproduct costs on a per gallon basis in accordance with 2 FEA para. 84901 for the 1974 period and 10 CFR 212.165 for the period subsequent to 1974. Chevron agrees to provide special counsel with a summary of the revised calculations showing the recalculated amounts, previously claimed nonproduct costs and under or overcharges in a format similar to that to be provided for shrinkage costs.

Chevron will identify and document to the special counsel any and all instances during the period September 1, 1973 through December 31, 1973 where nonproduct costs were claimed and passed through. For the period January 1, 1974 to December 31, 1974 Chevron will identify all instances where nonproduct costs in excess of $.0025 per gallon were claimed and for the period January 1975 and thereafter Chevron will identify where nonproduct costs in excess of $.00375 per gallon were incurred and claimed on sales of unfractionated natural gas liquid streams. Further, for the same period, Chevron will identify and document nonproduct costs in excess of $.005 per gallon incurred and claimed from the sale of fractionated natural gas liquid products.

E. Attached herewith and hereby incorporated as a part of this consent order is a format of summary schedules for each month of the audit period September 1973 through December 1976. Chevron agrees to provide OSC with completed summary schedules for each audit period month in the manner as outlined in the attachment within 30 days following the effective date of this consent order or by November 30, 1978, whichever is later.

2. When all data and recomputations described herein are compiled and completed, a final certified summary shall be submitted to: Larry James, Manager, Dallas Branch Office, Natural Gas Liquids Audit Division, Office of Special Counsel, P.O. Box 35228, Dallas, Tex. 75235.

Additionally, Chevron shall make available to OSC at Chevron's offices all data, computations, and worksheets used in obtaining the results described in the final summary. OSC shall inspect, review, and test such recalculations and shall notify Chevron in writing as to whether OSC finds the recalculations are satisfactory under the terms of this consent order.

3. Chevron agrees to adjust its increased product costs according to the recalculations required by this consent order in each month of the period September 1973 through December 1976. Chevron further agrees to do the same with regard to its increased nonproduct costs for the period September 1973 through December 1976. Chevron will make the foregoing adjustments in accordance with instructions applicable to forms CLC-22, FEO-96, and P-110-M-1. Within 30 days of the effective date of this consent order or November 30, 1978, whichever is later, Chevron will file with OSC schedules in the form attached hereto detailing such adjustments. All adjustments to increased product and nonproduct costs in any 1 month shall be carried forward and reflected in Chevron's cost calculations in all subsequent months.

Upon 90 days prior notice in writing from the Director of Field Operations or his designee, Chevron shall incorporate such schedules prepared pursuant to this consent order and approved by the NGL Division of OSC into a CLC-22, FEO-96 or P-110 for the period September 1973 through December 1976. Such forms shall then be refiled to reflect the recomputed data for that particular month and accumulated data from the prior month's refiling.

4. OSC has determined that the alleged errors resolved by this consent order are subject to civil penalties as provided by 10 CFR § 205.203. Therefore, OSC and Chevron hereby agree that civil penalties are compromised in the amount of $25,000. Said compromise applies only to the issues discussed herein and is expressly limited to the period September 1973 through December 1976. Within 10 days from the effective date of this consent order, Chevron shall tender to DOE a certified check in that amount payable to the U.S. Treasury.

5. Satisfactory performance under this order by Chevron will constitute compliance with the regulations of DOE pertaining to Natural Gas Liquids from September 1973 through December 1976 provided, however, that OSC reserves the right to take further remedial action in this case if OSC determines that information upon which this order is based is materially erroneous or that the actions of Chevron, or its calculations and revised reports filed hereunder have not been undertaken in a manner consistent with the aforementioned terms and conditions of this order or with applicable DOE rules and regulations.

6. should the DOE take a position different from that upon which this consent order is based, as a result of an interpretation issued to Atlantic Richfield Oil Co. (ARCO) (see 43 FR 28518, June 30, 1978), OSC will deem, for the purpose of this consent order, only, and upon proper application to OSC by Chevron pursuant to 10 CFR Part 205, Subpart J (Modification and Rescission), such interpretation to be a "significantly changed circumstance" as that term is construed in 10 CFR 205.135(b). Chevron shall note in its application the specific differences between the ARCO interpretation and the position taken by OSC which Chevron believes warrants a modification or rescission of this consent order.

7. This order shall be a final order of the DOE having the same force and effect as a remedial order issued pursuant to 10 CFR 205.199B. In consideration of OSC's agreement to the terms of this consent order and in accordance with § 205.199J, Chevron hereby expressly waives its right to appeal or obtain judicial review of this order.

8. This consent order shall become effective upon publication of notice to that effect in the Federal Register. Prior to its effective date, the OSC will publish notice in the Federal Register pursuant to 10 CFR 205.199J(c) that it has entered into this consent order and will provide not less than 30 days for members of the public to submit written comments with respect to it. After expiration of the comment period and prior to the effecive date of this consent order, the OSC reserves the right to withdraw its consent to this order for any reason.

9. The provisions of 10 CFR 205.199J are applicable to this consent order and are incorporated by reference herein.

III. Submission of Written Comments

Interested persons are invited to comment on the consent order by submitting such comments in writing to Nick L. Kelly, Director, NGL Division, Office of Special Counsel, Department of Energy, P.O. Box 35228, Dallas, Tex. 75235.

Copies of this consent order may be received free of charge by written request to this same address or by calling 214-749-7727.

Comments should be identified on the outside of the envelope and on documents submitted with the designation "Comments on Standard Oil Co. of California Consent Order." All comments received by 4:30 p.m. c.s.t. on or before November 26, 1978 will be considered by the OSC in evaluating the consent order.

Any information or data which, in the opinion of the person furnishing it, is confidential, must be identified as such and submitted in accordance with the procedures outlined in 10 CFR 205.9(f).

Dated: October 20, 1978.

Paul L. Bloom,
Special Counsel for Compliance.

Federal Energy Regulatory Commission

[Docket No. RP72-110]

ALGONQUIN GAS TRANSMISSION CO.

Rate of Change Pursuant to Purchased Gas Cost Adjustment Provision

October 19, 1978.

Take notice that Algonquin Gas Transmission Company ("Algonquin Gas") on October 10, 1978, tendered for filing Substitute 44th Revised Sheet No. 10 to its FERC Gas Tariff, First Revised Volume No. 1.

Algonquin Gas states that this sheet is being filed pursuant to Algonquin Gas' Purchased Gas Cost Adjustment Provision set forth in section 17 of the General Terms and Conditions of its FERC Gas Tariff, First Revised Volume No. 1. Algonquin Gas also indicates that the rate change is being filed to reflect a change in purchased gas costs to be paid by Algonquin Gas to its supplier, Texas Eastern Transmission Corp. ("Texas Eastern"), scheduled to be effective October 1, 1978. Algonquin Gas states that the underlying Texas Eastern filing modified Texas Eastern's rates filed under a general rate increase on August 31, 1978, in Docket No. RP78-87, to reflect the new cost allocation method prescribed by Opinion No. 21 issued August 9, 1978, in Texas Eastern's Docket No. RP74-41.

The proposed effective date of the revised tariff sheet is October 1, 1978, the scheduled effective date of Texas Eastern's rate increase, according to the filing.

Algonquin Gas noted that copies of this filing were served upon all affected parties and interested State commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure

V 4

(18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 27, 1978. Protests will be considered by the Commission in deter-

[Docket No. RI78-71]

AMERICAN PETROFINA CO. OF TEXAS, ET AL.

Order Granting Petition for Special Relief

OCTOBER 16, 1978.

By Order issued April 12, 1978, in Docket No. RI77-120, the Commission granted a petition of American Petrofina Co. of Texas, et al. (American Petrofina)[1] for special relief and authorized American Petrofina to collect a rate of 85.89 cents per Mcf at 15.025 psia for the sale of 50 percent of the production of gas from the state lease 2833 well No. 1, Lake Palourde Field, St. Martin Parish, La. to Texas Gas Transmission Corp. (Texas Gas).

In its petition for special relief in Docket No. RI77-120, American Petrofina proposed to rework well No. 1, in which it had a 50-percent-working interest. CNG Producing Co. (CNG), which owned the other 50 percent working interest in well No. 1, did not join in American Petrofina's petition for special relief in Docket No. RI77-120 and has elected not to participate in the workover of well No. 1. Under the contractual terms of the operating agreement between the working interest owners, American Petrofina is entitled, as a result of CNG's election not to participate, to receive CNG's share of the production of gas from well No. 1 until the proceeds from the production equal 200 percent of the costs of reworking the well plus 100 percent of the costs of operating the well during such period.

Because American Petrofina must now incur the additional cost relating to CNG's interest, it filed on June 15, 1978, an amended petition for special relief seeking authority to collect 85.89 cents per Mcf at 15.025 psia for the sale of the gas to be relinquished by CNG to American Petrofina for sale to Texas Gas. Because we have already issued an order in Docket No. RI77-120 granting special relief to American Petrofina for the sale of 50 percent of the production from well No. 1, we shall treat this amended petition as a new petition for special relief limited to the production of gas from well No. 1 being relinquished by CNG to American Petrofina.

American Petrofina is selling this gas under FERC Gas Rate Schedule No. 85 pursuant to a certificate issued in Docket No. CI66-1070. The present authorized rate for the sale of CNG's gas is 29.325 cents per Mcf at 15.025 psia.

Notice of American Petrofina's amended petition for special relief was issued on July 14, 1978, and subsequently published in the FEDERAL REGISTER. No petitions to intervene, notice of intervention, or protests in opposition were filed.

American Petrofina is selling this gas to Texas Gas under a contract dated November 20, 1958. In letters dated June 14, 1977, and August 17, 1978, Texas Gas stated it is willing to amend the pricing provision of the November 20, 1958, contract to a price found to be just and reasonable by the Commission.

STAFF'S COST STUDY

The Commission based its determination of the rate in Docket No. RI77-120 on American Petrofina's pro rata share of the workover costs and production expenses and its proportional entitlement to the gas produced. The Commission determined that a unit price of 85.89 cents per Mcf at 15.025 psia would allow American Petrofina to recover all the costs of production associated with the project, including a 15-percent rate of return. Staff has concluded that the unit price does not change if American Petrofina assumes CNG's share of the costs and expenses and is entitled to its share of the production.[2]

American Petrofina must collect the same unit price in order to recover all the costs of production associated with the project including a 15-percent rate of return. Therefore, staff concludes that the requested rate for special relief is cost supported.

The Commission finds: The petition for special relief of Petrofina meets the criteria set forth in § 2.76 of the Commission's general policy and interpretations.

The Commission orders: (A) The petition for special relief filed by American Petrofina is granted.

(B) American Petrofina is authorized to collect 85.89 cents per Mcf at 15.025 psia for the sale of gas from well No. 1 State lease 2833, Lake Palourde Field, St. Martin Parish, La. which is to be relinquished by CNG to American Petrofina for sale to Texas Gas effective upon either the date of issuance of this order or the date the proposed work is completed, whichever is later, subject to the conditions set forth in paragraphs (C), (D), and (E), below:

(C) Within 30 days of the date of this order, American Petrofina must file with the Commission an executed contract amendment relating to the acquisition of CNG Producing Co.'s working interest and payment of the approved rate;

(D) Within 30 days of the date of this order, American Petrofina must file with the Commission appropriate certificate and rate schedule amendments, and

(E) This authorization is conditioned that if the interest in the gas relinquished by CNG Producing Co. (under its contractual operating agreement with American Petrofina) reverts back to CNG, then the authorized rate for the sale of such gas, insofar as it relates to CNG's interest, will also revert back to 29.325 cents per Mcf at 15.025 psia.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP79-1]

CITIES SERVICE GAS CO.

Notice of Application

OCTOBER 19, 1978.

Take notice that on October 2, 1978, Cities Service Gas Co. (Applicant), P.O. Box 25128, Oklahoma City, Okla. 73125, filed in Docket No. CP79-1 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon the direct sale of natural gas to ninety-six (96) mainline domestic customers in the state of Kansas as set forth in the appendix hereto. Under Applicant's proposal, the sale of gas to these customers would be transferred to local distribution companies which, Applicant says, are willing and able to perform such service. Applicant's proposal is more fully set forth in the application which is on file with the Commission and is open to public inspection.

Applicant seeks authority to transfer eighty-five (85) customers to the Gas Service Co., eight (8) to Union Gas System, Inc., two (2) to the Kansas Public Service Co., and one (1) to Kansas Power and Light Co. Applicant says that these sales were made pursuant to right-of-way agreements and easements or to customers located adjacent to Applicant's pipeline system and at the time the sales were commenced, these customers were not within the local franchise area of any of Applicant's distribution customers. Applicant indicates that the distribution customers have agreed to take over the service to these customers at the distribution companies' respective resale rates. The distribution companies' requirements would be purchased from Applicant under its F-1 and F-2 Rate Schedules, it is said. Applicant states that the various distributors are willing to make the required applications to the Kansas Corporation Commission.

Applicant says that as a result of this proposal, no new facilities would be required, no facilities would be abandoned, and no service to customers would be terminated.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 13, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP79-21]

COLUMBIA GAS TRANSMISSION CORP.

Application

OCTOBER 19, 1978.

Take notice that on October 12, 1978, Columbia Gas Transmission Corporation (Applicant), P.O. Box 1273, Charleston, W.Va. 25325, filed in Docket No. CP79-21 an applicant pursuant to section 7 of the Natural Gas Act and section 157.7(g) of the Commission's Regulations under the Natural Gas Act (18 CFR 157.7(g)) for a certificate of public convenience and necessity authorizing the construction and for permission for and approval of the abandoment, during the 12-month period commencing March 1, 1979, and operation of field gas compression and related metering and appurtenant facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in the construction, relocation, and operation and abandonment of facilities which will not result in changing Applicant's system saleable capacity or service from that authorized prior to the filing of the instant application.

Applicant states that the total cost of the proposed construction and abandonment of facilities would not exceed $2,000,000, and that the cost of any single project would not exceed $500,000. Applicant indicates that it would finance such cost from funds generated from internal sources.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 13, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.70). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[8740-02-M]

[Docket No. CP78-506]

CONSOLIDATED GAS SUPPLY CORP. AND TEXAS EASTERN TRANSMISSION CORP.

Notice of Application

OCTOBER 18, 1978.

Take notice that on September 29, 1978, Consolidated Gas Supply Corp. (Consolidated), 445 West Main Street, Clarksburg, W.Va. 26301, and Texas Eastern Transmission Corp., (Texas Eastern), P.O. Box 2521, Houston, Tex. 77001 (jointly referred to as Applicants), jointly filed in Docket No. CP78-506 an application, pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicants to provide transportation and storage services for Columbia Gas Transmission Corp. (Columbia) and New Jersey Natural Gas Co. (NJN), all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicants state that by its order of September 7, 1978 in Docket No. CP78-506, the Commission granted Applicants temporary authorization to render transportation and storage services for Columbia and NJN subject to the condition that Applicants apply for permanent authorization for such services. Applicants state that the service for which they request authorization would entail the following: Texas Eastern would deliver up to 6 million dekatherms (dt) equivalent of natural gas to Consolidated for Columbia's account. This volume would be made available to Texas Eastern for delivery to Consolidated by Columbia's reducing the volumes of gas it receives from Texas Eastern in Texas Eastern's Rate Zone "C". The volumes delivered to Consolidated would then be injected into its storage facilities for Columbia's account, and would be withdrawn from storage during the 1978-79 winter heating season for redelivery to Texas Eastern and Columbia. It is stated that this service would be provided on an interruptible basis. It is further stated that the purpose of the proposed service is to enable Columbia to take all the volumes of gas which will be available to it up to October 31, 1978 inasmuch as Columbia's storage facilities are currently more than 10,000,000 Mcf above scheduled injection levels. Applicants state that Columbia has agreed to pay Applicants in accordance with the currently effective rates of each, which would

result in Consolidated receiving 30 cents per dt of gas injected for storage, and Texas Eastern receiving 7.08 cents

Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commis-

on file with the Commission and open to public inspection.

It is indicated that Fruehauf has

Rate Schedule T and set forth at proposed Original Sheet No. 17, Third Revised Volume No. of Consolidated's

sheets, to become effective October 1, 1978.

ORIGINAL VOLUME NO. 1

El Paso states that the above described PGAC tariff sheets provide for net PGAC adjustments for its East-of-

V 4 3 1 2 0 8 0 C 2 6 7 8

result in Consolidated receiving 30 cents per dt of gas injected for storage, and Texas Eastern receiving 7.08 cents per dt equivalent for the volumes of gas which it transports on forward haul less 3 percent and 9.78 cents per dt equivalent for volumes of gas transported above the combined total of curtailment sales to Columbia under Texas Eastern's firm sales rate schedules. When Texas Eastern transports gas from Columbia on backhaul Columbia will pay $1,148.43 per day, and when the transportation on backhaul is to Columbia it will pay $1,351.10 per day.

The services for which Applicants request authorization to perform for NJN, it is stated, would entail the following: To enable NJN to receive gas purchased pursuant to an emergency gas purchase agreement with Louisiana Gas Intrastate, Inc., up to 1,000,000 dt. equivalent of natural gas would be delivered to Texas Gas Transmission Corp. in Louisiana for redelivery to Texas Eastern. Texas Eastern would transport such volumes for delivery to Consolidated for injection into storage for NJN's account. During the 1978-79 winter heating season equivalent volumes would be withdrawn from Consolidated's storage, transported by Texas Eastern and delivered to NJN. The service proposed would be provided on an interruptible basis. It is stated that the reason for the proposed arrangement is that NJN is in need of additional storage to offset critically low storage balances resulting from the past two winter seasons. It is further stated that the rates which would be paid by NJN would be 30 cents per dt equivalent injected into storage by Consolidated, and 22.21 cents per dt equivalent of gas transported by Texas Eastern to Consolidated less 3 percent, 34.12 cents per dt equivalent for gas transported above the combined total equivalent of sales to NJN under Texas Eastern's firm sales rate schedule. NJN would pay Texas Eastern 14.16 cents per dt equivalent of gas, less 3 percent, transported from Consolidated, and 19.56 cents per dt equivalent for gas transported above the total curtailment of sales to NJN under Texas Eastern's Rates Schedules TS-1 and ISS.

The services for Columbia for which Applicants seek authorization commenced on September 22, 1978, and the services for NJN for which Applicants seek authorization commenced on September 9, 1978, pursuant to the temporary authorization issued September 7, 1978 in the instant docket.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 9, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission, or its designee, on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on it own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. CP79-14]

CONSOLIDATED GAS SUPPLY CORP. AND TEXAS EASTERN TRANSMISSION CORP.

Application

OCTOBER 19, 1978.

Take notice that on October 10, 1978, Consolidated Gas Supply Corp. (Consolidated), 445 West Main Street, Clarksburg, W. Va. 26301, and Texas Eastern Transmission Corp. (Texas Eastern), P.O. Box 2521, Houston, Tex. 77001, (Applicants) filed in Docket No. CP79-14 a joint application pursuant to section 7(c) of the Natural Gas Act and § 2.79 of the Commission's general policy and interpretations (18 CFR 2.79) for a certificate of public convenience and necessity authorizing the transportation for 2 years of up to 400 dekatherms (dt) equivalent of natural gas per day for Fruehauf Corp. (Fruehauf), all as more fully set forth in the application on file with the Commission and open to public inspection.

It is indicated that Fruehauf has contracted the subject gas from Fruekel, Inc. (Fruekel), a wholly-owned subsidiary of Fruehauf, at a unit price of $1.95, which gas is produced from wells owned by Fruekel in Tuscarawas and Guernsey Counties, Ohio. Applicants are advised that Fruekel produced the subject gas for sale to Fruehauf only, and is, therefore, not available for sale to Applicants or any other interstate purchaser, it is said.

It is indicated that Fruehauf has requested Applicants and Columbia Gas Transmission Corp. (Columbia) to transport the gas. Consequently, Fruehauf has entered into agreements with Columbia, Texas Eastern and Consolidated dated May 1, April 28, and October 2, 1978, respectively to effect the transportation of the Fruekel gas from Ohio to New York. It is stated that pursuant to the May 1, 1978 agreement, Columbia would transport up to 400 dt of natural gas per day to Texas Eastern and pursuant to Texas Eastern's T3 Rate Schedule and the April 28, 1978 agreement, Texas Eastern would receive from Columbia at an existing interconnection between their respective pipeline systems near Lebanon, Ohio, and would transport for Fruehauf's account the subject gas for redelivery, less 3 percent for gas used in providing the proposed service, to Consolidated at an existing interconnection between their pipeline facilities near Oakford, Pa. In turn, Consolidated would, pursuant to its Rate Schedule T and the October 2, 1978 agreement, receive such quantities of natural gas and transport the gas for Fruehauf's account, less 4 percent, for delivery to Niagara Mohawk Power Corp. (Niagara), the sole supplier of gas to Fruehauf's plant in Utica, N.Y., at an existing point of delivery near Utica, N.Y., it is said. It is indicated that Niagara would then deliver the natural gas to Fruehauf's plant in Utica, N.Y., where the gas would be used to assist Fruehauf in obtaining gas for use in offsetting such curtailments as may be imposed on its Utica plant by Niagara during the 2-year term of this instant proposal. It is stated that the gas would be used for Priority 2 uses only.

The application states that Texas Eastern would charge Fruehauf a transportation rate pursuant to its TS Rate Schedule, which rate is currently 9.78 per dt, and that Consolidated would charge Fruehauf a transportation charge of 25.53 cents per dt, which rate is based on the average system-wide storage and zone transmission costs reflected in Consolidated's rate filing in Docket No. RP77-140, less fuel costs. This rate is the applicable rate under Consolidated's

Rate Schedule T and set forth at proposed Original Sheet No. 17, Third Revised Volume No. of Consolidated's Gas Tariff.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 13, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket Nos. RP72-155 (PGA78-2) and RP78-18]

EL PASO NATURAL GAS CO.

Tariff Sheets Tender

OCTOBER 19, 1978.

Take notice that on October 13, 1978, El Paso Natural Gas Co. ("El Paso") tendered for filing, pursuant to part 154 of the Commission's regulations under the Natural Gas Act, the following substitute revised tariff sheets, to become effective October 1, 1978.

ORIGINAL VOLUME NO. 1

Second Substitute Twenty-second Revised Sheet No. 3-B.

THIRD REVISED VOLUME NO. 2

Second Substitute Twelfth Revised Sheet No. 1-D.

ORIGINAL VOLUME NO. 2A

Second Substitute Fourteenth Revised Sheet No. 1-C.
Second Substitute Tenth Revised Sheet No. 1-D.

El Paso states that by order issued September 29, 1978, in the captioned proceeding, the Commission, inter alia, accepted for filing and suspended for one (1) day the notice of change in rates for jurisdictional gas service[1] filed by El Paso on August 31, 1978, and permitted the increased rates to become effective October 2, 1978, subject to refund. El Paso states that said Commission order made effective as of October 2, 1978, tariff sheets reflecting El Paso's revised PGAC provision and settlement of issues as proposed under the stipulation and agreement dated June 23, 1978, at docket No. RP78-18[2] and the tariff sheet applicable to the PGAC-CHPG.

El Paso states that ordering paragraph (C) of such order provides that El Paso shall be permitted to file revised PGAC rates to become effective October 1, 1978, without refund obligation, excluding rate changes attributable to increases in the cost of gas purchased by El Paso from reversionary interest owners.[3] In accordance with ordering paragraph (C) of the Commission's September 29, 1978, order, El Paso is tendering the instant filing in order to submit substitute revised tariff sheets containing PGAC AND PGAC-CHPG rates to become effective October 1, 1978.

El Paso states that the above described PGAC tariff sheets provide for net PGAC adjustments for its East-of-California ("EOC") customers and its California customers of 10.73 cents per Mcf and 4.10 cents per Mcf, respectively, applicable to all rate schedules subject to the PGAC.[4] The said adjustments are 0.72 cent per Mcf and 0.84 cent per Mcf, respectively, below the net PGAC adjustment in settlement rates of 11.45 cents per Mcf and 4.94 cents per Mcf applicable to El Paso's EOC customers and California customers respectively, and suspended for one (1) day until October 2, 1978, by said order issued September 29, 1978, in the captioned proceeding.[5]

El Paso further states that the net PGAC-CHPG resulting from the elimination of reversionary interest owners' purchases, and reflected by the tendered Second Substitute Tenth Revised Sheet No. 1-D, is a net decrease of 25.4946 cents per Mcf below those rates in effect on September 30, 1978.[6] Said adjustment is 16.0478 cents per Mcf below the net decrease in PGAC-CHPG rates of 9.4468 cents per Mcf suspended for one (1) day until October 2, 1978, by said September 29, 1978, order.

El Paso respectfully requested that the substitute revised tariff sheets described above be accepted for filing and permitted to become effective as of October 1, 1978, the effective date provided by the Commission in said order issued September 29, 1978.

In addition, El Paso resubmitted the tariff sheets containing the PGAC and PGAC-CHPG rates made effective as of October 2, 1978, by the Commission's September 29, 1978, order. Said resubmitted tariff sheets are proposed to be effective October 2, 1978, and are identical to their counterpart sheets tendered by El Paso on August 31,

[1] Such service is rendered under rate schedules affected by and subject to Art. 19, Purchased Gas Cost Adjustment Provision ("PGAC"), contained in the general terms and conditions applicable to El Paso's FERC Gas Tariff, Original Vol. No. 1, Third Revised Vol. No. 2 and Original Vol. No. 2A, and under rate schedules affected by and subject to the PGAC-clean high pressure gas provision ("PGAC-CHPG") contained in El Paso's FERC Gas Tariff, Original Vol. No. 2A.

[2] By letter order dated Sept. 5, 1978, at docket No. RP78-18, the Commission approved such stipulation and agreement.

[3] Ordering paragraph (B) of such order issued Sept. 29, 1978, provides for further action by the Commission in the referenced proceeding upon final Supreme Court action on rehearing in *California v. Southland Royalty Company*. It is El Paso's understanding that the petition for rehearing in such case has been denied. Reversionary interest owners are the subject of the Commission's opinion No. 737, as amended, issued July 11, 1975, at docket Nos. CP75-209 and C175-594.

[4] The PGAC tendered sheets also reflect a revision in the 84.9134 cents per Mcf average purchased gas cost set forth on the tariff sheets effective Oct. 2, 1978, to 84.0459 cents per Mcf, as a result of the deletion of that portion of the reversionary interest owner purchases made at rates paid to the prior owners of such gas.

[5] Also included as a part of the current adjustment to El Paso's jurisdictional rates are a unit reduction of 0.05 cent per Mcf, a unit reduction of 3.55 cents per Mcf and a unit increase of 0.03 cent per Mcf, respectively, which rates reflect certain adjustment mechanisms designed to track variations in El Paso's costs attributable to advance payments, gas well royalties, and transportation costs, respectively, as such provisions are set forth in the stipulation and agreement dated June 23, 1978, at docket No. RP78-18.

[6] The PGAC-CHPG sheet also reflects a revision in the 73.5396 cent-per-Mcf weighed average purchased gas cost set forth on the counterpart tariff sheet tendered Aug. 31, 1978, to 64.3795 cents per Mcf as a result of the deletion of the increased costs of gas purchased from reversionary interest owners.

1978, except that such resubmitted sheets reflect the appropriate superseding pagination reference required as a result of the submittal of the

mission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commis-

the Commission and are available for public inspection.

KENNETH F. PLUMB,

[6740-02-M]

[Docket No. RP73-8]

said petition to amend should on or before November 13, 1978, file with the Federal Energy Regulatory Com-

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the

1978, except that such resubmitted sheets reflect the appropriate superseding pagination reference required as a result of the submittal of the tariff sheets tendered herewith to be effective as of October 1, 1978.

El Paso states that copies of the instant tender have been served upon all parties of record in docket Nos. RP72-155 (PGA78-2) and RP78-18 and, otherwise, upon all affected customers and interested State regulatory commissions.

Any person desiring to be heard or to make any protest with reference to said tariff filing should, on or before October 30, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make any protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. ER79-16]

FITCHBURG GAS & ELECTRIC LIGHT CO.

Filing

OCTOBER 20, 1978.

Take notice that Fitchburg Gas & Electric Light Co. (Fitchburg) on October 12, 1978, tendered for filing as a rate schedule an electric generating capability sales agreement between Fitchburg and Reading Municipal Light Department (Reading). Fitchburg indicates that the agreement provides for the sale by Fitchburg to Reading of approximately 10.0 MW of electric generating capability.

Fitchburg proposes an effective date of November 1, 1978, and therefore requests waiver of the Commission's notice requirements.

Fitchburg states that copies of this agreement have been sent to the Massachusetts Department of Public Utilities.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 30, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-30241 Filed 10-25-78; 8:45 am]

[6740-02-M]

[Docket No. ER79-22]

GEORGIA POWER CO.

Proposed Tariff Change

OCTOBER 19, 1978.

Take notice that Georgia Power Co. (Georgia Power), on October 10, 1978, tendered for filing Third Revised Sheet Nos. 11 to its FERC Electric Tariff, Original Volume No. 2 (partial requirements service). According to Georgia Power, the proposed change makes explicit the company's intention of recovering variable operation and maintenance expenses associated with providing partial requirements service in the energy charge pursuant to its rate schedule PR-3, the subject of docket No. ER78-166. Georgia Power states that based on the 12-month period ended February 28, 1979, and maintenance expenses to be collected from Georgia Power's partial requirements customers amounts to $9,798,717. Georgia Power requests an effective date of July 1, 1978, for the change, the same date that rate schedule PR-3 became effective subject to refund in docket No. ER78-166.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 30, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-30242 Filed 10-25-78; 8:45 am]

[6740-02-M]

[Docket No. CP76-320]

NATURAL GAS PIPELINE CO.

Petition To Amend

OCTOBER 19, 1978.

Take notice that on October 12, 1978, Natural Gas Pipeline Co. of America (Petitioner), 122 South Michigan Avenue, Chicago, Ill. 60603, filed in Docket No. CP76-320 a petition to amend the order of January 13, 1977, issued in the instant docket (57 FPC ——) [1] pursuant to section 7(c) of the Natural Gas Act so as to authorize the operation of and transportation of increased deliveries through Petitioner's U-T offshore system (UTOS) interconnecting facilities from 196,640 Mcf, as previously authorized, to 482,259 Mcf of natural gas per day, all as more fully set forth in the petition on file with the Commission and open to public inspection.

It is indicated that pursuant to the FPC order of Janurary 13, 1977, Petitioner was authorized to construct and operate 3.3 miles of 24-inch pipeline to connect its existing onshore transmission system in Cameron Parish, La., to the northern terminus of the UTOS for the transportation of up to a maximum of 196,640 of natural gas per day. Said facilities were available for service in September, 1977, it is stated.

It is indicated that at the time that the instant application was filed, Petitioner had anticipated that UTOS would deliver natural gas at a minimum pressure of 916 psig which would allow Petitioner to transport up to 196,640 Mcf per day through this interconnect facility. Subsequently, Petitioner entered into a transportation agreement with UTOS dated December 1, 1977, which agreement provided for a minimum delivery pressure of 935 psig, it is said. Petitioner states that this higher delivery pressure would enable it to transport up to 482,259 Mcf per day through this facility without the construction and operation of any additional facilities. Petitioner asserts that in order to be able to accommodate the volumes which it is now obligated to transport for itself and others, it requires the modification to the capacity limitation as proposed herein.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before November 13, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-30243 Filed 10-25-78; 8:45 am]

[1] This proceeding was commenced before the FPC. By joint regulation of Oct. 1, 1977 (10 CFR 1000.1), it was transferred to the FERC.

[6740-02-M]

[Docket No. RP73-81]

NORTH PENN GAS CO.

Proposed Changes in FERC Gas Tariff

OCTOBER 19, 1978.

Take notice that North Penn Gas Co. (North Penn) on October 10, 1978, tendered for filing proposed changes in its FERC Gas Tariff, First Revised Volume No. 1, pursuant to its PGA clause for rates to be effective September 1, 1978.

Substitute Fifty-seventh Revised Sheet No. PGA-1 is being filed in substitution for Fifty-seventh Revised Sheet No. PGA-1 filed September 5, 1978, for effectiveness September 1, 1978, and reflects the changes in supplier rates filed by Consolidated Gas Supply Corp. (Congas) on September 29, 1978, and Transcontinental Gas Pipe Line Corp. (Transco) September 15, 1978, both for effectiveness September 1, 1978.

Substitute Fifty-seventh Revised Sheet No. PGA-1 reflects a decrease of 0.026 cent per Mcf from the rates contained in Fifty-seventh Revised Sheet No. PGA-1.

On September 5, 1978, North Penn filed Fifty-eighth Revised Sheet No. PGA-1 to track the change in rates filed by Transco on August 1, 1978, for effectiveness September 2, 1978. Due to the uncertainty of the Commission's action regarding this filing, North Penn requests that it be permitted to withdraw Fifty-eighth Revised Sheet No. PGA-1 stating that North Penn will accumulate in its deferred account any change in rates the Commission permits Transco to put into effect September 2, 1978, and that it will track such increase in its next PGA filing.

North Penn requests a waiver of the Commission's rules and regulations, specifically § 154.22, Notice Requirements, or any other of the Commission's rules and regulations as may be deemed necessary to allow the revised rates to become effective as proposed.

Copies of this filing were served upon North Penn's jurisdictional customers as well as interested State commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 27, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

NEW ENGLAND POWER POOL

Notice of Filing

OCTOBER 20, 1978.

Take notice that on October 10, 1978, New England Power Pool (NEPOOL) tendered for filing NEPOOL Power Pool Agreement, dated as of September 1, 1971, as amended, signature page executed by the town of Hull municipal lighting plant, proposed to become effective on October 1, 1977, and NEPOOL Power Pool Agreement, dated as of September 1, 1971, as amended, signature page executed by Massachusetts Municipal Wholesale Electric Co., proposed to become effective on November 18, 1977.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 30, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. RI78-24]

NORTHERN PUMP CO.

Order Granting Petition for Special Relief

OCTOBER 18, 1978.

On January 11, 1978, Northern Pump Co. (Northern) filed its original petition for special relief in Docket No. RI78-24. Northern sought authorization in its original petition for special relief to sell gas produced from the Becker Well No. 1, Hugoton Field, Finney County, Kans., to Northern Natural Gas Co. (Natural) at a total rate of 91.5494 cents per Mcf at 14.65 psia. Subsequently, Northern amended its original petition for special relief on May 22, 1978, requesting authorization to sell its gas at a lower total rate of 78.07 cents per Mcf. Northern owns 100 percent working interest in the subject gas.

On March 22, 1978, notice of Northern's original petition for special relief was issued. Notice of Northern's amended petition for special relief was issued on July 14, 1978. No protests or petitions to intervene were filed in response to either notice.

Northern is selling the subject gas pursuant to a small producer certificate issued in Docket No. CS71-22 at a contract rate of 17.9932 cents per Mcf.

Northern proposes to install a pumping unit and related equipment to effectively remove water accumulations and to continue production of the well. Northern estimates that the pumping unit, tubing, rods, sub-surface pump, other equipment and installation will cost $17,869. This additional equipment will enable Northern to produce an estimated 146,591 Mcf of remaining reserves over the next 10 years and 10 months, which otherwise would not be produced. On November 28, 1977, Northern and Natural amended their gas purchase contract to provide for a price of $1.25 per Mcf exclusive of Btu and production tax adjustment to cover the increased costs.

Staff has verified the data filed by Northern and determined that Northern's net book investment of $506, new equipment and installation expense of $17,869, and estimated production expenses of $51,421 over the remaining 10 years and 10 months life of the project, were reasonable.

These costs and the net working interest reserves of 106,785 Mcf of gas were used in a traditional cost study. The results of the study [1] indicate that a total rate of 78.07 cents per Mcf is required to allow Northern to recoup all costs associated with this project, including a 15 percent rate of return.

[1] See App. A, attached hereto.

Upon consideration of the data submitted by Northern and Staff's analysis thereof, we conclude that the proposed rate is justified.

The Commission finds:

(1) The petition for special relief filed by Northern meets the criteria set forth in section 2.76 of the Commission's Statements of General Policy and Interpretations.

(2) It is in the public interest to grant Northern's request for special relief.

The Commission orders:

(A) The petition for special relief of Northern is hereby granted.

(B) Northern is authorized to collect a total rate of 78.07 cents per Mcf at 14.65 psia for all gas produced from the Becker Well No. 1, Hugoton Field, Finney County, Kans., and sold to Northern effective on the date of the Commission order herein or date of completion of the installation of the proposed equipment, whichever is later, subject to the conditions set forth in paragraph (C) below.

(C) Within 30 days of the effective date specified above, Northern shall file a statement signed by Natural that the proposed work has been completed to Natural's satisfaction, and within 30 days of the date of the order herein file a notice of Independent Producer Rate change reflecting the above authorized rate.

By the Commission.

KENNETH F. PLUMB,
Secretary.

APPENDIX A.—*Northern Pump Co., Docket No. RI78-24, Becker No. 1 Gas Unit, Hugoton Field, Finney County, Kans.*

[Unit cost of gas]

[Docket No. CP78-18]

OKLAHOMA NATURAL GAS CO.

Petition for Declaratory Order

OCTOBER 20, 1978.

Take notice that on October 10, 1978, Oklahoma Natural Gas Co. (Petitioner), 624 South Boston Avenue, Tulsa, Okla. 74119, filed in Docket No. CP79-18 a petition pursuant to § 1.7(c) of the Commission's Rules of Practice and Procedure (18 CFR 1.7(c)) for a declaratory order declaring that all facilities utilized and the transportation and exhange service rendered by Petitioner for United Gas Pipe Line Co. (United) and Phillips Petroleum Co. (Phillips) would remain exempted from jurisdiction of the Commission.

Petitioner states that it purchases, transports, produces, stores and distributes natural gas within the State of Oklahoma, and that it receives all of such natural gas within the State of Oklahoma for ultimate consumption within such State; its rates and services are fully regulated by the Corporation Commission of the State of Oklahoma. Accordingly, Petitioner is exempted from regulation by the Commission under the provision of section 1(c) of the Natural Gas Act, it is stated.

Petitioner indicates that Phillips has entered or will enter into a gas purchase contract with United for the purchase of natural gas produced in central Oklahoma for a term of approximately 2 years provided transportation of gas can be arranged. Petitioner proposes to accept delivery of the gas in Kingfisher County, Okla., at the outlet of the Kingfisher processing plant and also at the outlet of the Phillips Cimmaron plant in Oklahoma, and have the gas redelivered through ONG Western, Inc. (ONG Western) to Northern Natural Gas Co. for the account of United in Woodward County, Okla. It is stated that Oklahoma Natural and ONG Western would not charge any transportation fee for this delivery of gas.

Petitioner states that it is not willing, or able, to dedicate any of these facilities to long-term, certificated service in interstate commerce. However, Petitioner and ONG Western are willing to make capacity available for a temporary exempt service. It is asserted that the proposed temporary exempt period is limited to a period not to extend more than the number of years sought by Phillips in its limited term certificate application.

Petitioner asserts that since it cannot undertake the subject delivery and exchange without the requested waiver of jurisdiction, the temporary act or operation contemplated would not be performed at all unless the Commission exercises its exemption authority under section 7(c) of the Natural Gas Act and issue the requested declaratory order. Petitioner states that such order would advance the public interest in that it would permit badly needed supplies of natural gas to flow to interstate pipelines presently curtailing service to their customers without additional cost to them.

Consequently, Petitioner requests that the Commission issue a declaratory order declaring that: (1) The temporary exchange of natural gas for Phillips and United shall not exceed a period of the related limited term sale by Phillips to United; (2) the facilities and service that ONG and Western may utilize or render in providing this service would remain exempt from the Commission's jurisdiction; (3) Petition be exempted from any accounting and reporting requirements to the Commission other than reporting volumes exchanged; (4) the exchange be terminated without further action by Petitioner and without further order of the Commission at the end of said limited term sale; and (5) that the facilities of and the producer-suppliers remain exempt.

Any person desiring to be heard or to make any protest with reference to said petition should on or before November 14, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. RP63-1, et al.]

UNITED GAS PIPELINE CO.

Filing of Pipeline Refund Reports And Refund Plans

OCTOBER 18, 1978.

Take notice that the pipeline listed in the appendix hereto have submitted to the Commission for filing proposed refund reports or refund plans. The date of filing, docket number, and type of filing are also shown on the appendix.

Any person wishing to do so may submit comments in writing concerning the subject refund reports and plans. All such comments should be filed with or mailed to the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, on or before November 2, 1978. Copies of the respective filings are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER78-511]

PUBLIC SERVICE CO. OF OKLAHOMA

Order Accepting Rates for Filing, Suspending Rates, Granting Intervention, Establishing Procedures, and Making Summary Disposition

OCTOBER 12, 1978.

On July 28, 1978, the Public Service Co. of Oklahoma (PSO) tendered for filing Supplement No. 4 to FERC Rate Schedule Nos. 168-171, 188, 192, 193, and 195; Supplement No. 3 to FERC Rate Schedule Nos. 190, and 197-207; Supplement No. 2 to FERC Rate Schedule No. 189, and a Supplement to PSO's proposed agreement with the Southwestern Power Administration (SWPA). PSO indicates in the filing that the supplements reflect an across-the-board increase to all of the jurisdictional customers served under its RE-5 rate, or a variant thereof with respect to SWPA. The filing proposes to incease revenues by $3,009,446, based upon the 12-month period ending December 31, 1978.

Public notice of PSO's filing was issued on August 7, 1978, with any protests or petitions to intervene due on or before August 31, 1978. Two petitions for intervention were timely filed.[1] One petition was filed out-of-time.

A recital of the background of this filing is in order. On June 3, 1977, PSO submitted for filing on behalf of itself and Oklahoma Gas and Electric Co. (OGE), Notices of Cancellation of a Joint Interconnection Agreement with SWPA. This was designated Docket No. ER77-422. Under this Agreement, PSO and OGE had purchased power and energy from SWPA and supplied the full requirements of SWPA's preference customers for the account of SWPA since 1951. In exchange, PSO and OGE were entitled to purchase from SWPA each month an amount of hydroelectric peaking power and associated energy based upon the preference customers' demands. The Notice of Cancellation was suspended for 5 months and set for an expedited hearing. Subsequently, both PSO and OGE filed proposed Settlement Agreements with the Presiding Administrative Law Judge which were certified to the Commission on November 10, 1977. In addition to the two Settlement Agreements, both PSO and OGE filed with this Commission in Docket Nos. ER78-20 and ER78-49, respectively, rates for full-requirements service to SWPA's municipal preference customers in the event arrangements for service under the proposed Settlement Agreements could not be arranged before the effective date of the suspended Notice of Cancellation.

The Commission accepted the Settlement Agreements for filing, suspended them for 1 day, and made them effective subject to refund. It further directed PSO and OGE to file the rates contained in the Settlement Agreements along with appropriate cost support data in two new dockets—Docket Nos. ER78-67 and ER78-68, respectively. The Commission also found that acceptance of the Settlement Agreements eliminated the need for the full requirements rate filing in Docket Nos. ER78-20 and ER78-49. These filings were, therefore, allowed to be withdrawn.

The Commission then terminated the proceedings in Docket Nos. ER77-422, ER78-20, and ER78-49.[2]

Subsequently, OGE filed cost support data in Docket No. ER78-68, but increased the rates therein. This filing was designated Docket No. ER78-433 and suspended and consolidated with Docket No. ER78-68 for hearing. PSO made its cost support data filing in Docket No. ER78-67, and that data is now under Staff review.

The instant filing in Docket No. ER78-511 would supplement the Agreement reached with SWPA in Docket No. ER78-67 now pending. It would also increase the present rate to wholesale customers who receive service under PSO's RE-5 wholesale tariff. This includes 19 municipal customers and two rural electric cooperatives. The rates would be increased by approximately 16.4 percent, resulting in an earned rate of return of 10.38 percent.

On September 20, 1978, Mr. Ed Edmonson, of Muskogee, Okla., filed out of time, a petition to be heard in opposition to this proposed rate increase. He contends that PSO's present rates are more than sufficient to provide services to the public, including a fair rate of return to the Company's investors. He asserts that no increase is needed. Although Mr. Edmondson's Petition was filed late, we believe that this representation could be in the public interest. Consequently, we allow his intervention.

On July 31, 1978, the U.S. Department of Energy, on behalf of the Southwestern Power Administration, filed its Notice of Intervention and Motion For Suspension. The Secretary declares that SWPA markets power produced at federally-owned generating facilities to 11 municipalities, the U.S. Army's Ft. Sill, Okla., and the Federal Ammunition Department at McAlester, Okla.

A Protest, Petition to Intervent, and Motion for Maximum Suspension of The Public Service Co. of Oklahoma Wholesale Customer Group was timely filed by the Municipal Electric Systems of Oklahoma (MESO) on behalf of a number of municipalities,[3] Western Farmers' Electric Cooperative, and the KAMO Electric Cooperative, Inc. (Wholesale Customers). These parties protest and petition for leave to intervene and moved for the imposition of the maximum suspension of the proposed wholesale electric increase filed in the instant proceeding. The Petitioners contend that each of the members of the Wholesale Customers Group purchases power directly from PSO or is affected by the rates which PSO charges Southwestern Power Administration. These wholesale customers contend that the Company's proposed rate increase is patently excessive, and protests numerous elements of the Company's computations of expense requirements, cost of capital, capitalization, and rate base. Among the contested items is PSO's decision to include unamortized investment tax credits in the equity component of capital structure.

The Wholesale Customers also claim that the Company's forecasted equity capitalization is much too high, and they raise questions concerning the recovery of investment in the Davis-McCoy fuel subsidiary as fuel expenses, and certain construction work in progress included in rate base.

The Wholesale Customer's petition also alleges that the City of Pawhuska has a Mobile-Sierra type rate contract with PSO. Our investigation reveals that Pawhuska did in fact have a fixed rate contract at one time. However, by letters dated March 7, 1977, and May 2, 1977, PSO submitted to this Commission an agreement dated January 5, 1977, and executed by Pawhuska to run concurrently with the fixed rate contract until September 1, 1978, when the fixed rate contract terminated by its own terms. The January 5, 1977, agreement is now the effective rate schedule. It permits PSO to file for rate increases unilaterally. That agreement was accepted for filing by a letter from the Commission Secretary dated June 28, 1977.[4] Accordingly, we find no validity in the fixed rate allegation raised with respect to Pawhuska.

Subsequently, on September 21, 1978, Public Service of Oklahoma, the Western Farmers' Electric Cooperative, the Municipal Electric System of Oklahoma, the two Cooperatives, the municipalities and the Southwestern Power Administration filed a Joint Motion For Suspension Of Effective Date Of Proposed Rates with this Commission. The parties jointly moved that the Commission suspend the effective date for the rates proposed in PSO's filed from October 1, 1978 to January 1, 1979. They further stated that PSO and all intervenors have engaged in negotiations for settlement in all matters at issue in Docket No. ER78-511 and have reached an agreement in principal. As an integral part of such agreement in principal, the parties have further agreed that the effective date of such rate increase should be suspended until January 1, 1979, which would allow time for presentation to the Commission Staff, the Presiding Administrative Law Judge, and to the Commission a Stipulation and Agreement among PSO, its intervenors, and all affected in this proceeding provided for a settlement of the proposed increase in rates.

We note that PSO's case-in-chief assigned a portion of R&D contributions related to Liquid Metal Fast Breeder Reactor (LMFBR) research. It also failed to reduce the rate base by the amount of the accumulated provision for deferred Federal income taxes recorded in Account 281. The latter procedure is decidedly in conflict with several prior FERC decisions.[5] With respect to LMFBR, in *Carolina Power & Light Co.*, Opinion No. 19, we affirmed that part of the Initial Decision, in which the Presiding Administrative Law Judge removed LMFBR contributions from the wholesale customers' cost of service.[6] Accordingly, we believe it is appropriate to make summary disposition on these two issues based upon the established precedents. PSO shall file its cost of service support and rates to reflect these modifications.

We also find that PSO included Accumulated Deferred Investment Tax Credit (ADITC) in the common equity portion of its capitalization. This Commission has held several times previously that the return allowed on ADITC shall be measured by the overall rate of return rather than the higher common equity return.[7] Therefore, we shall summarily dispose of this issue and direct PSO to refile its capital structure and rates to reflect the Investment Tax Credit component consistent with the *Carolina Power & Light Co.* Opinion.

One other item comes to our attention, concerning the basis for functionalization of General Plant. In *Minnesota Power & Light Co.*, Opinion No. 20, issued on August 3, 1978, in Docket Nos. E-9499, et. al., we held that "General Plant as covered by accounts 389-399 in the Commission's Uniform System Of Accounts for Public Utilities and Licenses, should be properly allocated on the basis of labor costs", and that "the Company's plant allocation method is not reasonable." We also "requir(ed) that labor ratios be used in allocating general plant * * * in succeeding cases." In a subsequent order,[8] we indicated that the use of labor ratios in fuctionalizing general plant was a "general rule" and held that the burden on the applicant was "to show that labor ratios are unreasonable as applied to the Company, not merely that its alternative method might be reasonable". PSO must sustain this same burden in the instant case.

Our review of the filing in the instant docket indicates that the proposed rate increases have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful. We will accept Public Service Co.'s submittal for filing and suspend the proposed rate changes until January 1, 1979, when they will become effective subject to refund pursuant to the provisions of section 205(e) of the Federal Power Act. In taking this action, we are mindful of the Joint Motion and the settlement in principal reached by the parties in this proceeding.

We also find that participation of the intervenors in this proceeding may be in the public interest.

The Commission orders: (A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by section 402(a) of the DOE Act and by the Federal Power Act and pursuant to the Commission's Rules of Practice and Procedure and the Regulations under the Federal Power Act (18 CFR, Chapter I), a public hearing shall be held concerning the justness and reasonableness of the rates proposed by the Public Service Co. of Oklahoma.

(B) Pending such hearing and decision thereon, the rates proposed by Public Service Co. of Oklahoma are hereby accepted for filing and suspended and shall become effective on January 1, 1979, subject to refund.

(C) For good cause shown, the Secretary of the Department of Energy representing the Southwestern Power Administration, Mr. Ed Edmondson, the Municipal Electric Systems of Oklahoma on behalf of the Municipalities of Altus, Frederick, Cordell, Kaw City, Anadarko, South Coffeyville, Marlow, Pawhuska, Hominy, Copan, Manitou, Walters, Granite, El Dorado, Olustee, Commanche, Ryan, Wetumka, and Duncan, Okla. and the Western Farmers' Electric Cooperative and KAMO Electric Cooperative, Inc. are hereby permitted to intervene subject to the Rules and Regulations of the Commission; *Provided, however,* That the participation of these intervenors shall be limited to matters set forth in their petitions to intervene; *Provided, further,* That the admission of these intervenors shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders by the Commission entered in this proceeding.

(D) Nothing contained herein shall be construed as limiting the rights of the parties to this proceeding regarding the convening of conferences or offers of settlement pursuant to Section 1.18 of the Commission's Rules of Practice and Procedure.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose shall convene a conference in this proceeding to be held within ten (10) days of the serving of top sheets in a hearing room of the Federal Energy Regulatory Commision, 825 North Capitol Street NE, Washington, D.C. 20426. Said Law Judge is authorized to establish procedures and to rule upon all motions (except motions to consolidate and sever and motions to dismiss) as provided for in the Commission's Rules and Practice and Procedure.

(F) The Staff shall serve top sheets in this proceeding on or before February 12, 1979.

(G) Based upon review of the facts concerning the allegation by the City of Pawhuska that Public Service Co. has violated the terms of a fixed rate contract in filing for this increase with respect to Pawhuska, no validity to this charge can be found. Accordingly, we dismiss this charge. It shall not be an isue in this contested proceeding.

(H) Summary disposition with respect to the treatment of deferred Federal income taxes recorded in Account 281, the treatment of Accumulated Deferred Investment Tax Credit, and the assignment of R. & D. contributions related to Liquid Metal Fast Breeder Reactor research is hereby ordered in accordance with the discus-

---

[1] The filing was found deficient. A deficiency letter was forwarded by the Commission's Secretary to the PSO on August 25, 1978. The Company satisfied the deficiency on September 13, 1978.

TAMPA ELECTRIC CO.

Filing

OCTOBER 20, 1978.

Take notice that on October 12, 1978, Tampa Electric Co. (Tampa) tendered for filing an Agreement for Interchange Service between Ft. Pierce Utilities Authority (Ft. Pierce) and Tampa. Tampa requests that the Agreement be permitted to become effective on November 1, 1978, so that the economy interchange transactions between Tampa and Ft. Pierce may be initiated as soon as possible. Tampa requests waiver of the Commission's notice requirements to allow for such effective date.

Copies of the filing were served upon Ft. Pierce and the Florida Public Service Commission, according to Tampa.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with the requirements of sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 30,1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party should file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI79-41]

TEXAS OIL & GAS CORP.

Petition for Order Enforcing Certificate Obligation

OCTOBER 18, 1978.

Take notice that Valley Gas Transmission Co., Inc. ("Valley") on October 12, 1978, submitted, pursuant to section 1.7(c) of the Commission's Rules of Practice and Procedure, a petition for an order enforcing the certificate obligation originally imposed in Docket No. CI60-554 on Christie, Mitchell, and Mitchell Co. That obligation, according to Valley, calls for the delivery to Valley of any and all natural gas produced from certain acreage in the Hinnant Field, Live Oak County, Tex., at depths down to and including 6,500 feet. Valley states that, to the best of its knowledge, no abandonment authorization has been sought or obtained to alter that obligation.

More specifically, Valley's petition asks the Commission to order Texas Oil & Gas Corp. (TXO), the present lessee of the acreage involved, to deliver any and all future production from the dedicated acreage to Valley and to pay back to Valley volumes equivalent to all gas producted from any wells on the dedicated acreage (from depths down to and including 6,500 feet) that has not been delivered to Valley since TXO acquired its interest in such acreage.

In view of the seriousness of the allegations contained in Valley's petition, a shortened time period will be prescribed for the filing of answers by TXO and all other interested persons.

Any person desiring to be heard or to protest said filing should file an answer with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Section 1.9 of the Commission's Rules of Practice and Procedure. (18 CFR 1.9). All such answers should be filed on or before October 25, 1978.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. CP79-15]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Application

OCTOBER 20, 1978.

Take notice that on October 10, 1978, Transcontinental Gas Pipe Line Corp. (Applicant), P.O. Box 1396, Houston, Tex. 77001, filed in Docket No. CP79-15 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of up to 378 dekatherms (dt) equivalent of natural gas on an interruptible basis, all as more fullly set forth in the application of file with the Commission and open to public inspection.

Specifically, Applicant requests authorization to transport up to 378 dt equivalent per day on an interruptible basis for the account of Carolina Pipeline Co.; NCNG Exploration Corp., an affiliate of North Carolina Natural Gas Corp.; Philadelphia Electric Co.; Piedmont Exploration Co., Inc., an affiliate of Piedmont Natural Gas Co., Inc.; Tar Heel Energy Corp., an affiliate of Public Service Co., of North Carolina, Inc.; Owens-Corning Fiberglas Corp.; UCG Energy Corp., an affiliate of United Cities Gas Co., North and South Carolina Division; Rockingham Exploration Co., an affiliate of North Carolina Gas Service Division of Pennsylvania & Southern Gas Co., all of which Applicant maintains are existing customers of Applicant, or affiliates of such customers. Applicant states that the proposed transportation service would be rendered for such transportation customers, who have joined the Transmac Exploration and Development Program (Transmac), a joint venture exploration and development program formed to finance the search for and development of new natural gas reserves in onshore areas, and in non-Federal waters, in the Gulf Coast region, which received temporary authorization by order of December 21, 1977 in Docket No. CP77-421. Applicant further states that the transportation customers' participation in the Transmac joint venture entitles them to a proportionate share of the natural gas produced as a result of the project. It is stated that such a discovery has been developed in the Popcorn Bayou Field, Plaquemines Parish, La., and Applicant proposes to transport such customers' interests in the discovery to existing points of delivery to its customers.

It is stated that the gas would be delivered to Southern Natural Gas Co. (Southern), which has facilities adjacent to the Popcorn Bayou Field, and Southern would transport and redeliver the gas to Applicant at existing delivery points. Applicant states that it would initially charge 23.5 cents and 24 cents per dt equivalent for transportation service into its Rate Zones 2 and 3, respectively. Also, Applicant states that it would initially withhold 3.8 percent and 4.4 percent of the transportation volumes destined for delivery in its Rate Zones 2 and 3, respectively, for compressor fuel and line loss makeup.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 14, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission, or its designee, on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, futher notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[6740-02-M]

[Docket No. CP76-118]

U-T OFFSHORE SYSTEM

Application to Amend

OCTOBER 19, 1978

Take notice that on October 2, 1978, U-T Offshore System (Applicant), P.O. Box 1396, Houston, Tex. 77001, filed in Docket No. CP76-118, [1] an application to amend further the order issued January 13, 1977 in said docket, as amended, pursuant to section 7(c) of the Natural Gas Act so as to authorize Applicant to transport (a) up to 730,000 Mcf per day of gas for its shippers on a firm basis, and (b) to the extent its existing facilities permit Applicant to do so, all gas its shippers are able to make available to it from High Island Offshore System (HIOS) on an interruptible overrun basis, all as more fully set forth in the application to amend which is on file with the Commission and open to public inspection.

Applicant states that on January 13, 1977, the Federal Power Commission issued an order in Docket No. CP76-118 granting it a certificate of public convenience and necessity (a) to construct, own and operate approximately 30 miles of 42-inch pipeline and appurtenant facilities extending from a point of interconnection with the HIOS system in West Cameron Block 167, offshore Louisiana, to a point of interconnection with the existing onshore facilities of Transcontinental Gas Pipe Line Corp. (Transco) near Johnson's Bayou, La., and (b) to transport up to 589,920 Mcf per day of natural gas for Natural Gas Pipeline Co. of America (Natural), Transco, and United Gas Pipe Line Co. (United). By order issued March 7, 1978, the Commission amended certain conditions contained in the January 13, 1977 order to provide for an interim rate and denied an application for rehearing filed by Applicant on February 14, 1977, and subsequently, on June 12, 1978, the Commission issued an order giving both HIOS and Applicant blanket authorization to transport, within the limits of their respective certificated capacities, natural gas for shippers not affiliated with HIOS or U-TOS, it is asserted.

It is stated that Applicant has executed transportation agreements with the following non-affiliated shippers: Columbia Gas Transmission Corp. (Columbia), Consolidated Gas Supply Corp. (Consolidated), Tennessee Gas Pipeline Co., a Division of Tenneco Inc. (Tennessee), El Paso Natural Gas Co. (El Paso), Trunkline Gas Co. (Trunkline), Northern Natural Gas Co. (Northern) and National Fuel Gas Supply Corp. (National Fuel). It is further stated that the capacity requested in Applicant by its affiliated and nonaffiliated shippers exceeds 1,000,000 Mcf per day. However, it is said that due to the certificated capacity limitation of 589,920 Mcf per day contained in the Commission's June 12, 1978 order, all of the Applicant shippers have received smaller firm capacity entitlements (their "Currently Effective Contract Demands") under Paragraph 2.2 of their transportation agreements with Applicant than each of them requested originally. Moreover, it is said that as a result of the mechanics of Paragraph 2.2 of Applicant's transporta-

[1] This proceeding was commenced before the FPC. By joint regulation of October 1, 1977 (10 CFR 1000.1), it was transferred to the FERC.

V 43 / 208 0 OCT 26 78

tion agreements (which provisions are virtually identical to the provisions in Paragraph 2.2 of the HIOS transportation agreements, except for the "short haul" shipper situation on HIOS) and the different mix of shippers on the HIOS and Applicant systems, Applicant's shippers in HIOS have less firm capacity in Applicant than they have in HIOS, as shown by the following table:

[Mcf per day]

Applicant's shippers	HIOS Currently effective contract demands	Applicant Currently effective contract demands
Natural	131,800	107,041
Transco	131,800	107,041
United	143,800	107,041
Columbia	40,700	33,205
Consolidated	25,000	20,413
Tennessee	15,300	12,520
El Paso	17,600	15,786
Trunkline	133,400	108,869
Northern	88,600	73,486
National Fuel	5,500	4,518
Total	731,500	589,920

It is stated that the sum of the Currently Effective Contract Demands of Applicant's shippers in HIOS is 731,500 Mcf per day, while the sum of their Currently Effective Contract Demands from Applicant is only 589,920 Mcf per day. Thus, it is said, none of Applicant's shippers presently are able to transport through HIOS on a firm basis.

It is estimated that approximately 634,000 Mcf per day would be available for transportation through Applicant on a peak day in October 1978. It is said that this peak day volume is estimated to gradually increase to approximately 1,094,300 Mcf per day in October 1979, at which time Applicant plans to place additional onshore facilities in service that would enable Applicant to transport up to approximately 1,200,000 Mcf per day on a firm basis. It is further said that Applicant is now preparing an application for a certificate of public convenience and necessity covering these new onshore facilities, which application will be filed with the Commission in the near-term future.

Furthermore, it is said that, some of the shippers in HIOS would not be utilizing all of their Currently Effective Contract Demands in HIOS on a daily basis, as a result of the gradual build-up in deliverability as new fields are attached to the HIOS system, routine downtime due to normal pipeline and producer maintenance, well workovers, weather, and other delays. Consequently, it is further said that HIOS would from time to time have unused certificated capacity under contract to certain shippers, which can be made available to other HIOS shippers having gas in excess of their Currently Effective Contract Demands on a *pro rata*, interruptible basis. Many of these HIOS shippers are also Applicant's shippers, it is said.

It is said that the facilities of Applicant installed onshore at Johnson's Bayor, La., were designed to handle up to 600,000 Mcf per day of gas having an average liquid hydrocarbon content of 10 barrels per Mcf at a pressure of 850 psi and at a temperature of 120 degrees Fahrenheit. However, it is said that the gas transported through Applicant's system to date has had an average liquid hydrocarbon content of only about 2 barrels per Mcf. In addition, it is said, the gas temperature has been approximately 70 degrees Fahrenheit and the gas pressure has been about 1,050 psi. Finally it is further said that the gas delivered to Applicant has also contained less water vapor than expected, which has enabled Applicant to redeliver at its onshore terminus gas having an average water vapor content of only 3 pounds per Mcf.

Applicant, accordingly, it is said, without the installation of any new facilities, is presently capable of transporting and redelivering on a sustained basis all pipeline quality natural gas that its shippers are able to transport through HIOS within their Currently Effective Contract Demands.

Applicant submits that it should be permitted to transport, to the extent possible, all gas that its shippers make available to it from HIOS. On a firm basis, it is stated that this volume totals approximately 730,000 Mcf per day, after appropriate deductions for fuel and other uses on the HIOS sytem. Applicant's shippers' new Currently Effective Contract Demands would be as follows:

[*Mcf per day*]

Applicant shippers	Proposed currently effective contract demands
Natural	131,530
Transco	131,530
United	143,500
Columbia	40,620
Consolidated	24,950
Tennessee	15,270
El Paso	17,560
Trunkline	133,130
Northern	86,420
National Fuel	5,490
Total	730,000

Applicant also submits that it should be allowed to transport as much overrun gas as possible that its shippers are able to transport through the unused capacity on the HIOS system.

It is said that the transportation of these additional supplies of gas by Applicant would materially assist Applicant's shippers in meeting their customers' requirements, especially during the upcoming 1978-1979 winter heating season. It is further said that if the past two winters are any indication of the type of weather to be experienced this heating season, Applicant's shippers would need all of the additional volumes to be made available hereunder from the offshore Texas area to ameliorate severe curtailments of high priority consumers.

In light of the foregoing, it is said that Applicant seeks Commission authorization to transport, to the extent, its existing facilities permit, all gas that its shippers make available to it from HIOS. Moreover, it is further said that because of the faster buildup in production than previously anticipated, Applicant proposes to cease transportation service under its interim rate and to commence service under its permanent rates on November 1, 1978. Applicant would utilize the Commission's prescribed demand-commodity rate design. It is said that Applicant would increase its shippers' Currently Effective Contract Demands up to the levels shown above and Applicant would compute the demand component of its rate on the basis of the 730,000 Mcf per day figure.

Applicant presently estimates that some 239,805,000 Mcf of gas would be available for transportation through its system during the 12-month period, November 1, 1978 through October 31, 1979. It is said that Applicant proposes to utilize the 239,805,000 Mcf figure to compute the commodity component of its two-part rate. Applicant submits that such volume, which equates to a 90 percent load factor, is a realistic estimation of the volume that Applicant would transport during the 12-month period beginning November 1, 1978. It is said that aside from downtime attributable to normal pipeline maintenance and repair, underutilization of capacity can be caused by weather conditions, routine producer well workovers and scheduled maintenance and production schedule changes, delays in obtaining necessary production equipment and delays occasioned by failure to receive requisite governmental authorizations respecting producer and pipeline applications for certificates of public convenience and necessity. Finally, it is said that it is difficult for Applicant to forecast the volumes of gas, Natural, Trunkline, and other shippers may transport through Stingray Pipeline Co.'s facilities into HIOS and Applicant, given that gas apparently can physically flow either to or from the Stingray system across the High Island Block A-330 platform. Thus, it is said, Applicant is almost totally dependent upon the actions of and information furnished to it by others, the vast majority of whom shoulder no risk of capacity underutilization in Applicant.

It is said that utilizing 730,000 Mcf as the demand charge billing determinant and 239,805,000 Mcf as the commodity charge billing determinant, Applicant's demand and commodity rates during the period November 1, 1978 through October 31, 1979 will be 61 cents per Mcf and 1.72 cents per Mcf, respectively. These rates, it is said, of course, would be subject to refund, pending final resolution of the appropriate rate of return for Applicant.

It is stated that Applicant also requests Commission authorization to transport, on an interruptible overrun basis, all gas its shippers are able to transport through the HIOS system in excess of their Currently Effective Contract Demands, to the extent Applicant's existing facilities permit it to do so. It is further stated that this service, which is to be an interruptible overrun transportation service, would be provided to all of Applicant's shippers under a proposed new Rate Schedule I. Pursuant to Rate Schedule I, it is said that, Applicant would charge its shippers a rate for this overrun service equivalent to the proposed demand-commodity rate for regular service at a 100 percent load factor (3.73¢ per Mcf). It is said that Applicant would determine the revenues associated with the transportation of overrun gas under Rate Schedule I during the 12-month period commencing on November 1, 1978. It is further said that demand revenues received under Rate Schedule I attributable to overrun gas transported through temporary unused capacity under contract to Applicant's shippers would be distributed proportionately to shippers having such unused capacity, as a credit on their monthly billings within 45 days after the end of such 12-month period. It is said that as to demand revenues collected under Rate Schedule I that are not redistributed by Applicant to its shippers, Applicant proposes to credit such revenues to its reserve for depreciation, after appropriate allowance for income taxes.

It is said that in the event Applicant transports more than the estimated 239,805,000 Mcf during the 12-month period commencing November 1, 1978, Applicant would recompute its commodity rate on the basis of the larger volume and, if an overcollection has occurred, would, within 45 days after the end of such period, file with the Commission a report of such overcollection, together with supporting data. It is further said that Applicant proposes to credit such overcollection to its reserve for depreciation, after appropriate allowance for income taxes.

Any person desiring to be heard or to make any protest with reference to said petition should on or before November 13, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 994-2]

POLYCHLORINATED BIPHENYLS

Notice of Approved PCB Disposal Facilities

On February 17, 1978, the U.S. Environmental Protection Agency published in the FEDERAL REGISTER the final rule for the "Disposal and Marking of Polychlorinated Biphenyls (PCB's)" (43 FR 7150). (This rule is required by sec. 6(e)(1) of the Toxic Substances Control Act (Pub. L. 94-469, 15 U.S.C. 2605(e)).)

Under this rule, disposal of many PCB's, as defined in the regulation, is prohibited subsequent to April 18, 1978, except at EPA approved facilities. All facility approvals will be granted in writing by the appropriate Regional Administrator in which the respective facility is located.

To date, the following facilities have been approved by EPA under the authority of §§ 761.40(d) and 761.41(c) of the PCB Disposal and Marking Regulation to dispose of PCB's:

EPA Region II (26 Federal Plaza, New York, N.Y. 10007).

1. *Facility:* General Electric Co., Silicone Products Division.

Facility address: 260 Hudson River Road, Waterford, N.Y. 12189.

Facility telephone number: 518-237-3330.

Type of facility approved: Incinerator.

Type of PCB waste handled: Approval allows G.E. to incinerate only those PCB wastes which are generated on-site, i.e., G.E. cannot accept PCB's for incineration from any other company or any other G.E. facility.

Expiration date of approval: September 1, 1981.

EPA regional office contact: Wayne Pierre.

EPA telephone number: 212-264-0505.

2. *Facility:* Newco Chemical Waste Systems, Inc.

Facility address: 4526 Royal Avenue, Niagara Falls, N.Y. 14303.

Facility telephone number: 716-285-6944.

Type of facility approved: Chemical waste landfill.

Type of PCB waste handled: Capacitors (small and large); properly drained transformers; contaminated soil, dirt, rags, and other debris; dredge spoils; municipal sludges; and properly drained containers (drums).

Expiration date of approval: August 18, 1981.[1]

EPA regional office contact: Wayne Pierre.

EPA telephone number: 212-264-0505.

3. *Facility:* SCA Chemical Services, Inc.

Facility address: 1550 Balmer Road, Model City, N.Y. 14107.

Facility telephone number: 716-754-8231.

Type of facility approved: Chemical waste landfill.

Type of PCB waste handled: Capacitors (small and large); properly drained transformers; contaminated soil, dirt, rags, and other debris; dredge spoils; municipal sludges; and properly drained containers (drums).

Expiration date of approval: October 2, 1981.[1]

EPA regional office contact: Wayne Pierre.

EPA telephone number: 212-264-0505.

EPA Region IV (345 Courtland Street, Northeast, Atlanta, Ga. 30308).

1. *Facility:* Waste Management of Alabama, Inc.

Facility address: P.O. Box 1200, Livingston, Ala. 35470.

Facility telephone number: 205-652-9529.

Type of facility approved: Chemical waste landfill.

Type of PCB waste handled: Capacitors (small and large); properly drained transformers; contaminated soil, dirt, rags, and other debris; dredge spoils; municipal sludges; and properly drained containers (drums).

Expiration date of approval: Open-ended.[1]

EPA regional office contact: Mr. James Scarbrough.

EPA telephone number: 404-881-3016.

EPA Region X (1200 Sixth Avenue, Seattle, Wash. 98101).

1. *Facility:* Chem-Nuclear Systems, Inc.

Facility address: P.O. Box 1269, Portland, Oreg. 97205, main office (site located in Arlington, Oreg.).

Facility telephone number: 503-223-1912.

Type of facility approved: Chemical waste landfill.

Type of PCB waste handled: Capacitors (small and large); properly drained transformers; contaminated soil, dirt, rags, asphalt, and other debris; and properly drained containers (drums).

[1] NOTE.—After Jan. 1, 1980, PCB capacitors and contaminated soils, rags, and other debris cannot be disposed of in chemical waste landfills. A special provision does permit, without time limits, the disposal in chemical waste landfills of contaminated soil and debris resulting from spills or from old disposal sites that predate the PCB regulations.

V 43 / 208 0 C 26 78

Expiration date of approval: January 1, 1980.

EPA regional office contact: Mr. Roger Fuentes.

EPA telephone number: 206-442-1260

2. *Facility:* Wes-Con, Inc.

Facility address: P.O. Box 564, Twin Falls, Idaho 83301, main office (site located in Grand View, Idaho).

Facility telephone number: 208-734-7711.

Type of facility approved: Disposal in missile silos.

Type of PCB waste handled: Capacitors (small and large); properly drained transformers; contaminated soil, dirt, rags, asphalt, and other debris; and properly drained containers (drums).

Expiration date of approval: January 1, 1980.

EPA regional office contact: Mr. Roger Fuentes.

EPA telephone number: 206-442-1260.

Future notices, updating this list of approved facilities will be published in the FEDERAL REGISTER approximately every month. For further information on the EPA approval of these disposal facilities, please get in touch with the appropriate EPA Regional Office contact.

Dated: October 20, 1978.

STEFFEN W. PLEHN,
Deputy Assistant Administrator for Solid Waste.

[Dockets No. 401 et al.; FRL 994-4]

PESTICIDE PRODUCTS CONTAINING DIBROMOCHLOROPROPANE (DBCP)

Notice of Ojections and Request for Hearing

Notice is hereby given, pursuant to the Rules of Practice, 40 CFR 164.8 (1977), governing hearings under the Federal Insecticide, Fungicide, and Rodenticide Act, 7 U.S.C. 136 et seq. (1976), that requests for a hearing and objections to the notice of intent to cancel the registration or change the classification of pesticide products containing dibromochloropropane, dated October 27, 1977 (42 FR 57545 (Nov. 3, 1977)), were filed by Shell Oil Co., Pineapple Growers Association of Hawaii and the State of Hawaii, and the Dow Chemical Co. These proceedings were consolidated and pursuant to the notice of intent to cancel or change classification, commencement of the evidentiary phase of the proceedings was postponed until completion of the RPAR review then in process and the filing and service of any amended notice of intent to cancel or change classification which may result therefrom.

An amended notice of intent to cancel, dated September 6, 1978, having now been issued and published, 43 FR 40911 (Sept. 13, 1978), requests for hearing and objections have also been filed by Amvac Chemical Corp. and Carlos Amaya, et al. These proceedings have been consolidated with the consolidated proceeding pending with respect to the original notice.

For information concerning the issues involved and other details of these proceedings, interested persons are referred to the dockets of these proceedings on file with the Hearing Clerk (A-110), Room 3708, U.S. Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460.

GERALD HARWOOD,
Administrative Law Judge.

[FRL 994-1]

VARIANCES IN EFFLUENT GUIDELINES AND STANDARDS

Withdrawal of Interpretations

EPA has published best practicable technology (BPT) national effluent guidelines regulations for numerous industrial categories under sections 301 and 304 of the Clean Water Act. Included in the regulations for each industrial category is a "variance clause." This clause allows case-by-case redefinitions of BPT where one can show that certain plant-specific factors—such as age or size of the plant—are "fundamentally different" from the factors EPA considered in setting the national guidelines.

In interpretations published at 39 FR 28926 and 30073 (August 12 and 20, 1974), EPA stated that plant-specific compliance costs were not among the factors which could be considered under the BPT variance clause. These interpretations have, however, been superseded by EPA's decision *In the Matter of Louisiana-Pacific Corp. and Crown Simpson Pulp Co.*, 10 ERC 1841 (September 15, 1977).

As recently noted by the U.S. Court of Appeals for the D.C. Circuit, EPA's *Louisiana-Pacific* decision "seems significantly to have liberalized the Agency's approach to the variance provision." *Weyerhaeuser Co. v. Costle*, 11 ERC 2149, 2168 (D.C. Cir., September 5, 1978). In fact, EPA recently proposed for public comment its tentative formulations of how compliance costs should be considered in applying the variance clause.[1] See proposed 40 CFR 125.26(a), 43 FR 37133, August 21, 1978. (The deadline for public comments on this proposal has been extended to November 20, 1978. See 43 FR 47213, October 13, 1978.) More definitive guidance will be set forth in the final version of these regulations.

To clear up any lingering confusion as to the status of the interpretations of August 12 and 20, 1974, I am hereby formally withdrawing them. While EPA allows compliance costs to be considered under the BPT variance clause, it should be noted that EPA continues to believe that § 301(c) of the Clean Water Act (allowing waivers based upon plant-specific economic *capability* or "affordability") applies only to best available technology (BAT) limitations.

Thus a plant may be able to secure a BPT variance by showing that the plant's own compliance costs with the national guideline limitation would be *x* times greater than the compliance costs of the plants EPA considered in setting the national BPT limitation. A plant may not, however, secure a BPT variance by alleging that the plant's own financial status is such that it cannot afford to comply with the national BPT limitation.[2] The D.C. Circuit agreed with EPA's position on this point in the *Weyerhaeuser* decision cited above. See 11 ERC at 2166.

Dated: October 17, 1978.

JOAN Z. BERNSTEIN,
General Counsel.

In re applications of Kankakee Telephone Answering Service, Inc., CC Docket No. 78-349, File No. 21552-CD-P-78, for a construction permit to establish additional one-way signaling facilities for Station KWH301 to operate on 158.70 MHz in the Domestic Public Land Mobile Radio Service at Kankakee, Ill.; Richard L. Adcock d.b.a. Dial-A-Page, CC Docket No. 78-350, File No. 21000-CD-P-78, for a construction permit to establish a new one-way signaling station to operate on 158.70 MHz in the Domestic Public Land Mobile Radio Service at Watseka, Ill.

1. Presently before the Chief, Common Carrier Bureau, pursuant to delegated authority, are the applications of Kankakee Telephone Answering Service, Inc. (Kankakee), File No. 21552-CD-P-78, for a Construction Permit to add the one-way signaling frequency 158.70 MHz to Station KWH301 at Kankakee, Ill., and the application of Richard L. Adcock d.b.a. Dial-A-Page, File No. 21000-CD-P-78, for a Construction Permit to establish a new one-way signaling station to operate on frequency 158.70 MHz at Watseka, Ill. These applications are electrically mutually exclusive.

2. Section 21.516 of the rules requires an applicant for an additional channel to submit with its application a traffic load study showing the present use of its existing facilities, and such other information as may justify its request. Normally, if the traffic load study shows sufficient congestion, we will grant an additional channel. Although Kankakee has submitted a traffic load study for its existing facilities, it acknowledges that the degree of loading it has shown would not warrant grant of an additional channel.[1] Instead, Kankakee argues that its proposed additional channel will be used to provide a new wide area service, that the wide area service it intends to provide is technically and operationally incompatible with its existing local service, and that, therefore, the loading of existing facilities is inapplicable to its present proposal. Kankakee further states that it is holding orders for wide area service for 50 paging units from new subscribers and that its existing subscribers have requested 25 units.

3. We find that Kankakee has failed to demonstrate a public need for its proposed facilities. As we have indicated, the usage of its existing channel will not warrant grant of an additional channel. Further, it is unclear how Kankakee intends to provide its wide area service in the greater Chicago area. The service area of its proposed facilities is approximately the same as its existing facilities; and, although Kankakee has apparently entered into an agreement with Beeper Call, Inc. (Beeper Call) and South Shore Radio Telephone, Inc. (South Shore)[2], who share 158.70 MHz facilities in the greater Chicago area, this agreement does not authorize Kankakee to provide service to its customers over the facilities of Beeper Call and South Shore. Rather, it appears that Kankakee has agreed to permit Beeper Call and South Shore to use Kankakee's proposed facilities to provide service to their customers in Kankakee, Ill., solely in exchange for Beeper Call's and South Shore's consent to Kankakee's proposal.[3] Accordingly, Kankakee has not shown how it will be able to provide its proposed wide area service. We further find that Kankakee's statement that its proposed service is operationally and technically incompatible with its existing facilities is vague and conclusory and cannot support grant of the instant application. Accordingly, we will specify disqualifying issues against Kankakee to determine the capacity and use of its existing facilities and whether it has adequately demonstrated a need for its proposed facilities.

4. Since the above-captioned applications are electrically mutually exclusive, a comparative hearing must be held to determine which applicant would better serve the public interest, convenience, and necessity. *Ashbacker v. FCC*, 326 U.S. 327 (1945). Except to the extent indicated in the following issues, we find the applicants to be legally, financially, technically and otherwise qualified to construct and operate the proposed facilities.

5. *Accordingly, it is ordered*, Pursuant to section 309(e) of the Communications Act of 1934, as amended, That the application of Kankakee Telephone Answering Service, Inc., File No. 32552-CD-P-78, and the application of Richard L. Adcock d.b.a. Dial-A-Page, File No. 21000-CD-P-78, are designated for hearing in a consolidated proceeding upon the following issues:

(a) To determine in accordance with § 21.516 of the Commission's rules the nature and extent of services now rendered by Kankakee Telephone Answering Service, Inc. and the capacity of its existing facilities;

(b) To determine whether Kankakee Telephone Answering Service, Inc. has adequately demonstrated a public need for its proposed facilities;

(c) To determine on a comparative basis, the nature and extent of service proposed by each applicant, including the rates, charges, maintenance, personnel, practices, classifications, regulations, and facilities pertaining thereto;

(d) To determine on a comparative basis, the areas and populations that each applicant will serve within the prospective 43 dBu contours, based upon the standards set forth in § 21.504(a) of the Commission's rules,[4] and to determine the need for the proposed services in said areas; and

(e) To determine, in light of the evidence adduced pursuant to the foregoing issues, what disposition of the above-referenced applications would best serve the public interest, convenience, and necessity.

6. *It is further ordered*, That, with respect to issues (a) and (b), the burden of proof and the burden of proceeding with the introduction of evidence are placed on Kankakee Telephone Answering Service, Inc.

7. *It is further ordered*, That, with respect to issues (c) and (d), the burden of proof and the burden of proceeding with the introduction of evidence are placed jointly on the applicants, and that the ultimate burden of proof with respect to issue (f) is placed jointly on the applicants.

8. *It is further ordered*, That the hearing shall be held at the Commission offices in Washington, D.C., at a time and place and before an Administrative Law Judge to be specified in a subsequent Order.

9. *It is further ordered*, That the Chief, Common Carrier Bureau, is made a party to the proceeding.

10. *It is further ordered*, That the applicants may avail themselves of an opportunity to be heard by filing with the Commission, pursuant to § 1.221(c) of the rules, within 20 days of the release date hereof, a written notice stating an intention to appear on the date for the hearing and present evidence on the issues specified in this Memorandum Opinion and Order.

LARRY F. DARBY,
Acting Chief, Common Carrier Bureau.

[SS Docket Nos. 78-318, 78-319; File Nos. 176-A-L-58, 221-A-L-88]

TRANS REGIONAL AIR AND CITY OF BIG SPRING

Order Designating Applications for Consolidated Hearing on States Issues; Correction

In re applications of Trans Regional Air, Big Spring, Tex., SS Docket No. 78-318, File No. 176-A-L-58; City of Big Spring, Big Spring, Tex., SS Docket No. 78-319, File No. 221-A-L-

[1] This proposal would not apply to the steam electric generating point source category. See proposed 40 CFR 125.25, 43 FR 37133, excluding guidelines under 40 CFR part 423 (steam electric). EPA recently published a separate variance clause for that category in response to a court order. 43 FR 44846, Sept. 29, 1978.

[2] This discussion does not apply to the steam electric generating point source category. See 43 FR 44846, Sept. 29, 1978.

[1] See Exhibit 5 to Kankakee's application. The traffic load study submitted by Kankakee shows an average transmitter use per hour of approximately 15 minutes. We find this insufficient loading to warrant grant of an additional channel.

[2] The copy of this agreement in the application was unexecuted.

[3] The operation of Kankakee's proposed facilities would not have been possible without such consent since, as determined under § 21.503 of the Rules, Kankakee's proposed facilities would cause harmful electrical interference to Beeper Call and South Shore. It thus appears that if Kankakee's facilities are authorized, it will have to time share with Beeper Call and South Shore.

[4] Section 21.504(a) of the Commission's rules and regulations describes a field strength contour of 43 decibels above 1 microvolt per meter as the limits of the reliable service area for base stations engaged in one-way communications service. Propagation data set forth in § 21.504(b) are the proper bases for establishing the location of service contours (F50, 50) for the facilities involved in this proceeding.

FEDERAL OPEN MARKET COMMITTEE

Domestic Policy Directive of September 19, 1978

In accordance with § 271.5 of its rules regarding availability of information, there is set forth below the Committee's Domestic Policy Directive issued at its meeting held on September 19, 1978.[1]

The information reviewed at this meeting suggests that real output of goods and services has grown moderately in the current quarter, although the pace is somewhat below the average for the first two quarters of the year. In August the dollar value of total retail sales rose, after having declined in July, but remained close to the level reached in April. Industrial production continued to expand at about the moderate pace of the preceding 3 months, and nonfarm payroll employment rose somewhat further. The unemployment rate declined from 6.2 to 5.9 percent, slightly below the average rate in the first 7 months of the year. Since midyear average prices of goods and services have risen less rapidly than earlier, in large part because of declines in prices of foods. The advance in the index of average hourly earnings has been somewhat faster so far in 1978 than it had been on the average during 1977.

After a sharp decline in early August, the trade-weighted value of the dollar against major foreign currencies has recovered against a background of uncertain conditions in exchange markets. In late August it was announced that the U.S. trade deficit had increased sharply in July.

Growth in M-1 picked up in August to about the average rate in the first two quarters of the year. Inflows of the interest-bearing deposits included in M-2 and M-3 also accelerated somewhat, and expansion in the broader aggregates was relatively rapid. Short-term market interest rates have risen appreciably since mid-August, but longer-term rates generally have edged down further. On August 18 an increase in Federal Reserve discount rates from 7¼ to 7¾ percent was announced.

In light of the foregoing developments, it is the policy of the Federal Open Market Committee to foster monetary and financial conditions that will resist inflationary pressures while encouraging continued moderate economic expansion and contributing to a sustainable pattern of international transactions. At its meeting on July 18, 1978, the Committee agreed that these objectives would be furthered by growth of M-1, M-2, and M-3 from the second quarter of 1978 to the second quarter of 1979 at rates within ranges of 4 to 6½ percent, 6½ to 9 percent, and 7½ to 10 percent, respectively. The associated range for bank credit is 8½ to 11½ percent. These ranges are subject to reconsideration at any time as conditions warrant.

In the short run, the Committee seeks to achieve bank reserve and money market conditions that are broadly consistent with the longer-run ranges for monetary aggregates cited above, while giving due regard to developing conditions in domestic and international financial markets more generally. Early in the period until the next regular meeting, System open market operations shall be directed at attaining a weekly-average Federal funds rate slightly above the current level. Subsequently, operations shall be directed at maintaining the weekly-average Federal funds rate within the range of 8¼ to 8¾ percent. In deciding on the specific objective for the Federal funds rate the Manager shall be guided mainly by the relationship between the latest estimates of annual rates of growth in the September-October period of M-1 and M-2 and the following ranges of tolerance: 5 to 9 percent for M-1 and 6½ to 10½ percent for M-2. If, giving approximately equal weight to M-1 and M-2, their rates of growth appear to be significantly above or below the midpoints of the indicated ranges, the objective for the funds rate shall be raised or lowered in an orderly fashion within its range.

If the rates of growth in the aggregates appear to be above the upper limit or below the lower limit of the indicated ranges at a time when the objective for the funds rate has already been moved to the corresponding limit of its range, the Manager is promptly to notify the Chairman who will then decide whether the situation calls for supplementary instructions from the Committee.

By order of the Federal Open Market Committee, October 20, 1978.

MURRAY ALTMANN,
Secretary.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

National Institute of Education

UNSOLICITED PROPOSALS TO CONDUCT EDUCATIONAL RESEARCH AND DEVELOPMENT

Reminder of Closing Date for Receipt of Proposals and Notice of Change in Mailing Requirements

Under the authority provided in section 405 of the General Education Provisions Act (20 U.S.C. 1221c) and regulations published at 45 CFR 1403.6, the Institute has announced its interest in receiving unsolicited proposals to conduct educational research and development activities. While the majority of NIE funds are awarded through competitions basd upon Requests for Proposals and specific program grants announcements, the Institute also wishes to assist in the development of other outstanding projects relevant to NIE's mission. Consequently, the Institute encourages eligible persons and groups to originate unique ideas for improving education and to submit their ideas as unsolicited proposals.

Approximately 3 to 5 percent of the Institute's budget has been set aside in the current fiscal year to support unsolicited proposals. Proposals may be submitted at any time, but awards will usually be made twice a year in June/July and January/February based upon competitive reviews of proposals.

This notice is a reminder that October 31, 1978, is the next closing date for the receipt of unsolicited proposals.

The Institute is particularly interested in receiving proposals from minority group researchers, women researchers, and researchers from institutions which primarily serve minorities and women; teachers, school administrators, and others involved in education at the local level; and scholars from disciplines not normaly involved in educational research.

Under a new procedure a mailed proposal will be accepted for review if it is mailed on or before the closing date and the required proof of mailing is provided. Proof if mailing must consist of a legible U.S. Postal Service dated

postmark or a legible mail receipt with the date of mailing stamped by the U.S. Postal Service. Private metered postmarks or mail receipts will not be accepted without a legible date.

all persons wishing to attend should call for reservations by November 13, 1978, area code 202-724-0114 and speak with Mrs. Lisa Haywood.

respect to consumer interests in Federal policies and programs, encourage and assist in development and implementation of consumer programs; co-

postmark or a legible mail receipt with the date of mailing stamped by the U.S. Postal Service. Private metered postmarks or mail receipts will not be accepted without a legible date stamped by the U.S. Postal Service.

NOTE.—The U.S. Postal Service does not uniformly provide a dated postmark. Proposal submitters should check with their local post office before relying on this method.

Submitters are encouraged to use registered or certified mail. Each late submitter will be notified that the proposal will not be consisdered in the current competition.

Additional information may be obtained from the Proposal Clearinghouse, National Institute of Education, Room 708, 1832 M Street, NW., Washington, D.C. 20208, 202-254-5600.

Dated: October 24, 1978.

JOHN W. CHRISTENSEN,
Associate Director for Administration, Management, and Budget.

Office of Education

NATIONAL ADVISORY COUNCIL ON THE EDUCATION OF DISADVANTAGED CHILDREN

Meeting

Notice is hereby given, pursuant to PL 92-463, that the next meeting of the National Advisory Council on the Education of Disadvantaged Children will be held on Friday, November 17, and on Saturday, November 18, 1978. The meeting will be held on Friday from 9 a.m. until 5 p.m., and on Saturday from 9 a.m. until 1 p.m. The two-day meeting will be held at 425 13th Street NW., Suite 1012, Washington, D.C. 20004.

The National Advisory Council on the Education of Disadvantaged Children is established under section 148 of the Elementary and Secondary Act (20 U.S.C. 2411) to advise the President and the Congress on the effectiveness of compensatory education to improve the educational attainment of disadvantaged children.

The purpose of the meeting is to:

1. Review and comment on drafts of special reports on Migrant Education, Mandated Studies and Urban Education.

2. Hear reports from members who represented the Council at various conferences, and

3. Outline activities for upcoming meetings.

The entire meeting will be open to the public. Because of limited space, all persons wishing to attend should call for reservations by November 13, 1978, area code 202-724-0114 and speak with Mrs. Lisa Haywood.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the National Advisory Council on the Education of Disadvantaged Children located at 425 13th Street NW., Suite 1012, Washington, D.C. 20004.

Signed at Washington, D.C., on October 23, 1978.

ROBERTA LOVENHEIM,
Executive Director.

Office of the Secretary

U.S. OFFICE OF CONSUMER AFFAIRS

Statement of Organization, Functions, and Delegations of Authority

A. Chapter AW, (39 FR 34088, Sept. 23, 1974), of Part A of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health, Education, and Welfare, Office of the Secretary, is amended to reflect a reorganization of the Office of Consumer Affairs and redesignation as the U.S. Office of Consumer Affairs (hereinafter referred to as US/OCA). The mission and functions of the U.S. Office of Consumer Affairs remain unchanged. The reorganization is designed to improve the overall efficiency in the conduct of activities. The revised Chapter reads as follows:

Section AW.00 Mission: The U.S. Office of Consumer Affairs executes the functions assigned by Executive Orders 11583 and 11566, serves as advisor to the Secretary on consumer-related policy and programs, advises the President on consumer affairs, and coordinates consumer functions in the Federal government.

Section AW.10 Organization: A. The Director of the U.S. Office of Consumer Affairs reports directly to the Secretary and directs and coordinates the activities of the U.S. Office of Consumer Affairs.

B. The U.S. Office of Consumer Affairs consists of the following components:

Office of the Director
General Counsel
Division of Consumer Organization
Division of Consumer Programs
Division of Consumer Information
Office of Management and Consumer Complaints

Section AW.20 Functions: A. *U.S. Office of Consumer Affairs.* (1) With respect to consumer interests in Federal policies and programs, encourage and assist in development and implementation of consumer programs; coordinate and review policies and programs; seek resolution of conflicts; advise and make recommendations to Federal agencies with respect to policy matters, the effectiveness of their programs and opérations, and the elimination of duplications; (2) assure that the interest of consumers are presented and considered in a timely manner by the appropriate levels of the Federal Government in the formulation of policies and in the operation of programs that affect the consumer interest; (3) conduct investigations, conferences, and surveys concerning the needs, interests and problems of consumers, except that it shall, where feasible, avoid duplicating activities conducted by other Federal agencies; (4) submit recommendations to the President on how Federal programs and activities affecting consumers can be improved; (5) take action with respect to consumer complaints; (6) provide advice, assistance and continuing policy guidance to the Consumer Information Center and perform related responsibilities pertaining to consumer product information as set forth in Executive Order 11566; (7) encourage and coordinate the development of information of interest to consumers by Federal agencies and the publication and distribution of materials which will inform consumers of matters of interest to them in language which is readily understandable by the layman; (8) encourage and coordinate research conducted by Federal agencies leading to improved consumer products, services and consumer information; (9) encourage, initiate, coordinate, evaluate and participate in consumer education programs and consumer counseling programs; (10) encourage, cooperate with and assist State and local governments in the promotion and protection of consumer interests; and (11) cooperate with and encourage private enterprise in the promotion and protection of consumer interests.

B. *Office of the Director.* Directs and coordinates the activities of the U.S. Office of Consumer Affairs.

C. *General Counsel.* Participates in the design and enactment of the President's consumer legislative program, including preparation of Congressional testimony, and serving as Congressional liaison; prepares and reviews materials for presentation to Departments and Agencies; and provides all necessary legal services for US/OCA.

D. *Division of Consumer Organization.* Maintains liaison with the U.S. Congress, Federal, State, county and city officials responsible for consumer protection, and with representatives of other nations, particularly within the framework of the Committee on Consumer Policy of the Organization for Economic Coordination and Development; and serves as focal point for liaison with individual consumers and with national, State and local organizations which represent consumers and citizens.

E. *Division of Consumer Programs.* Monitors and evaluates ongoing programs and emerging issues in Fedcral agencies affecting consumers, with a view to determining the effectiveness of current and proposed programs; develops and implements new programs to insure that each agency of the Federal Government adequately responds to consumer needs in the development of policy, and provides adequate opportunities for consumer participation in the decisionmaking process; encourages private industry voluntarily to develop self-regulatory programs and adopts competitive policies and programs aimed at resolving complaints common to large numbers of consumers; and maintains liaison with trade associations and industry as necessary.

F. *Division of Consumer Information.* Is responsible for relations with the press and media; prepares speeches and articles and syndicated radio programs and a newspaper column; publishes a newsletter for consumers; and maintains liaison with Federal, State and local government officials responsible for consumer education.

G. *Office of Management and Consumer Complaints.* Recommends and applies administrative policy and procedures; is responsible for the activities of the United States Office of Consumer Affairs in the areas of annual budget, procurement, personnel and record keeping; and takes action with respect to consumer complaints and requests for information.

Dated: October 18, 1978.

LEONARD SCHAEFFER,
Assistant Secretary for Management and Budget.

ALASKA

Segregation of Lands

Notice is hereby given that pursuant to the act of May 24, 1928 (49 U.S.C. 211-214), the State of Alaska Department of Transportation and Public Facilities has applied for an airport lease for the following land:

ATTACHMENT

Commencing at USC & GS station, May 1953, which is located approximately 10 miles southeast of McCarthy, Alaska, proceed N. 44°23' W., 419.44 feet to a 1" I.P. located on the N-S centerline of the existing May Creek landing strip; thence N. 30°25' W., 3,200 feet along the extended N-S centerline of the said landing strip to corner No. 1 of tract II, the true point of beginning; thence N. 59°35' E., 1,000 feet to corner No. 2; thence S. 30°25' E., 9,600 feet to corner No. 3; thence S. 59°35' W., 2,000 feet to corner No. 4; thence N. 30°25' W., 9,600 feet to corner No. 5; thence N. 59°35' E., 1,000 feet to corner No. 1 of tract II, the true point of beginning.

This tract having an area of approximately 440.77 acres, more or less.

(The parcel described above is depicted as tract II on the State of Alaska, May Creek Airport property plan dated August 1959, revised through August 30, 1978.)

The purpose of this notice is to inform the public that the filing of this application segregates the described land from all other forms of use or disposal under the public land laws.

Interested persons desiring to express their views should promptly send their name and address to the State Director, Alaska State Office, Bureau of Land Management, 555 Cordova Street, Pouch 7-512, Anchorage, Alaska 99510.

CURTIS V. MCVEE,
State Director.

ARIZONA

Filing of Plat of Survey

OCTOBER 19, 1978.

1. The plat of survey described below will be officially filed in the Arizona State Office, Bureau of Land Management, Phoenix, Ariz., effective at 10 a.m., on December 5, 1978.

GILA AND SALT RIVER MERIDIAN

A dependent resurvey of a portion of the former boundary of the Fort Mohave Indian Reservation, portions of the subdivisional lines, and a portion of the former left bank of the Colorado River, T. 18 N., R. 22 W.

This plat was accepted July 27, 1978.

2. If protests against the survey, as shown on this plat, are received prior to the date of official filing, the filing will be stayed pending consideration of the protests. This plat will not be officially filed until the day after all protests have been dismissed and become final or appeals from the dismissal affirmed.

3. The plat will be placed in the open files of the Arizona State Office, Bureau of Land Management, 2400 Valley Bank Center, Phoenix, Ariz. 85073, and will be available to the public as a matter of information only. Copies of the plat may be obtained from that office upon payment of $1 per sheet.

4. A person or party who wishes to protest against the survey must file with the State Director, Bureau of Land Management, Phoenix, Ariz., a notice that he wishes to protest prior to the proposed official filing date given above. A statement of reasons for the protest may be filed with the notice of protest to the State Director or with the Director, Bureau of Land Management, Washington, D.C. 20240. The statement of reasons must be filed with the Director within 30 days after the proposed official file date.

ROBERT O. BUFFINGTON,
State Director.

Termination of Proposed Withdrawal and Reservation of Lands

Notice of an application filed by the Corps of Engineers, U.S. Army, Serial No. AR 04855, for withdrawal and reservation of lands was published as FEDERAL REGISTER document No. 60-999 in the issue for February 2, 1960. The applicant Agency has canceled its application insofar as it involves the lands described below. Therefore, pursuant to the regulations contained in 43 CFR Subpart 2091.2-5(b)(1), such lands will be relieved of the segregative effect of the above-mentioned application at 10 a.m., on November 24, 1978. However, the lands herein involved are included in multiple use classification A 922 for the Fred Weiler Green Belt and will remain segregated as provided in the classification. A portion of the lands in T. 4 S., R. 7 W., are also withdrawn for powersite purposes by powersite classification order No. 402, dated June 6, 1949.

The lands involved in this notice of termination are:

GILA AND SALT RIVER MERIDIAN, ARIZONA

BURLEY DISTRICT GRAZING ADVISORY BOARD

Changed Meeting

OCTOBER 19, 1978.

A notice of the Burley District Grazing Advisory Board meeting was published in the FEDERAL REGISTER, vol. 43, No. 185, Friday, September 22, 1978, on pages 43074 and 43075.

We would like to amend this notice by deleting the following from the agenda above item (5) on page 43075, "Bannock-Oneida grazing environmental statement;"

In place of the deletion we would like to add the following:

(4) A review of the current policy and program relating to allotment management plans;

NICK JAMES COZAKOS,
District Manager.

GRAND JUNCTION DISTRICT GRAZING ADVISORY BOARD

Meeting

Notice is hereby given in accordance with Pub. L. 92-463 that a meeting of the Grand Junction District Grazing Advisory Board will be held on December 12, 1978.

The meeting will begin at 9 a.m. in the Conference Room of the Bureau of Land Management Office at 50629 Highway 6 and 24 West, Glenwood Springs, Colo.

The agenda for the meeting will include: (1) A review of the new grazing regulations related to allotment management plans and range improvements; (2) expenditure of range betterment and advisory board funds for range improvements; (3) a status report on the Grand Junction Grazing Environmental Statement; (4) the implementation of allotment management plans in the Grand Junction Resource Area following completion of the environmental statement; (5) a discussion of the board's future involvement in allotment management plans and; (6) the arrangements for the next meeting.

The meeting is open to the public. Interested persons may make oral statements to the board between 3:30 and 4:30 p.m. on December 12, 1978, or file written statements for the board's consideration. Anyone wishing to make an oral statement must notify the District Manager, Bureau of Land Management, 764 Horizon Drive, Grand Junction, Colo. 81501, by December 5, 1978. Depending on the number of persons wishing to make oral statements, a per person time limit may be established by the District Manager.

Summary minutes of the board meeting will be maintained in the District Office and be available for public imspection and reproduction (during regular business hours) within 30 days following the meeting.

ROBERT J. JUAREZ,
Acting District Manager.

NEW MEXICO

Application

OCTOBER 17, 1978.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), Gas Co. of New Mexico has applied for one 4-inch natural gas pipeline and related facilities right-of-way across the following land:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 22 S., R. 25 E.,
Sec. 1, lot 10.

This pipeline will convey natural gas across 0.109 mile of public land in Eddy County, N.M.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1397, Roswell, N.M. 88201.

WYOMING

Notice of Application

OCTOBER 17, 1978.

Notice is hereby given that pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Northwest Pipeline Corp. of Salt Lake City, Utah, filed an application for a right-of-way to construct a 4½ inch O.D. pipeline as an addition to their Big Piney gathering system for the purpose of transporting natural gas across the following described public lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 30 N., R. 113 W.,
Sec. 33, NE¼ and NE¼NW¼;
Sec. 34, W½NW¼.

The proposed pipeline will transport natural gas from a well located in the NE¼NW¼ of section 33 to a point of connection with an existing pipeline located in the NW¼NW¼ of section 34, T. 30 N. R. 113 W., Sublette County, Wyo.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, Highway 187 North, P.O. Box 1869, Rock Springs, Wyo. 82901.

WYOMING

Notice of Application

OCTOBER 17, 1978.

Notice is hereby given that pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Northwest Pipeline Corp. of Salt Lake City, Utah, filed an application for a right-of-way to construct a 8⅝- and 12¾-inch O.D. pipeline as an addition to their Moxa Arch gathering system for the purpose of transporting natural gas across the following described public lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 21 N., R. 111 W.,
Sec. 8, W½W½;
Sec. 18, SE¼NE¼ and E½SE¼;
Sec. 20, W½W½.
T. 22 N., R. 111 W.,
Sec. 20, W½W½;
Sec. 32, W½W½.

The proposed 12¾-inch O.D. pipeline will extend from a point of connection with Northwest Pipeline Corp.'s trunk "A" pipeline located in the NW¼SW¼ of section 29, T. 21 N., R. 111 W., and will connect into the proposed 8⅝-inch O.D. pipeline at a point in the NW¼NW¼ of section 8, T. 21 N., R. 111 W., and will end at a point in the NW¼NW¼ of section 20, T. 22 N., R. 111 W., all within Sweetwater County, Wyo.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, Highway 187 North, P.O. Box 1869, Rock Springs, Wyo. 82901.

ALASKA NATIONAL INTEREST LANDS PROPOSAL

Availability of Supplement to Final Environmental Statement

Notice is hereby given that the Department of the Interior is making available for public review and comment, a draft supplement to the environmental evaluation made in 1974 on the Alaska National Interest Lands proposed under section 17(d)(2) of the Alaska Native Claims Settlement Act of 1971. These actions were described in the final environmental impact statement issued in 1974 (28 volumes) and covering proposed legislative authorization to establish new units or expand existing units of the National Park System, the National Wildlife Refuge System, and the National Wild and Scenic Rivers System. This supplement updates that environmental statement and includes revisions due to new study information. It also assesses the potential impacts of alternatives not previously discussed in the original evaluation. Copies of this draft supplement will be mailed to recipients of the 1974 documents. Individual copies may be secured or examined upon request at the folowing Government offices.

[4310-10-M]

5-YEAR OUTER CONTINENTAL SHELF OIL AND GAS LEASING PROGRAM

Request for Comments

AGENCY: Office of Outer Continental Shelf Program Coordination.

ACTION: Notice of request for comment on 5-year Outer Continental Shelf oil and gas leasing program.

SUMMARY: Section 18 of the Outer Continental Shelf Lands Act, as amended, requires the Secretary of the Interior to prepare, periodically revise and maintain an oil and gas leasing program. The leasing program will consist of a schedule of proposed lease sales which the Secretary of the Interior determines will best meet national energy needs for the 5-year period following its approval. Suggestions and information are being requested to assist the Department of the Interior in the preparation of a proposed leasing program for the years mid-1980 through mid-1985.

DATES: Comments and information must be received on or before December 1, 1978.

ADDRESSES: Information should be submitted to Director, Office of OCS Program Coordination, Office of Assistant Secretary—Policy, Budget and Administration, Department of the Interior, Room 4126, 18th and C Streets NW., Washington, D.C. 20240. Envelopes or packets should be marked "Request for Comments on Five-Year Outer Continental Shelf Oil and Gas Leasing Program."

FOR FURTHER INFORMATION CONTACT:

Carolita Kallaur, Office of OCS Program Coordination, Department of the Interior, Room 4126, 18th and C Streets NW., Washington, D.C. 20240, telephone 202-343-9314.

AUTHOR: Carolita Kallaur, Office of OCS Program Coordination, Department of the Interior, Room 4126, 18th and C Streets NW., Washington, D.C. 20240, telephone 202-343-9314.

SUPPLEMENTARY INFORMATION: Suggestions and information are requested from States, local governments, industry, other Federal agencies and all interested parties to assist the Department of the Interior in the preparation of a leasing program for the years mid-1980 through mid-1985. Suggestions and information from local governments must be first submitted to the Governor of the State in which the local government is located. (43 CFR 3308.1).

The leasing program will be prepared and maintained in a manner

consistent with the principles of section 18(a) of the OCS Lands Act, as amended (43 U.S.C. 1344).

The leasing schedule will provide

Area	Approximate location [1]
1. North Atlantic	North of 39° N. lat., east of 71° W. long.

A map of the 22 OCS areas is shown below.

V 43/208 OCT 26 1978

consistent with the principles of section 18(a) of the OCS Lands Act, as amended (43 U.S.C. 1344).

The leasing schedule will provide dates for possible Outer Continental Shelf sales to be held during the years mid-1980 through mid-1985. As part of this effort, the planning schedule issued by the Department of the Interior in August 1977, will be reviewed for necessary adjustments and continuity with the proposed 5-year leasing schedule and for conformance with the Outer Continental Shelf Lands Act, as amended.

The Outer Continental Shelf leasing schedule enables the Federal Government, the States, industry, and other interested parties to plan for their involvement in the steps leading to the consideration of lease sales. A decision on whether to proceed with specific sales on the schedule will be made only after all of the applicable requirements of the Outer Continental Shelf Lands Act, as amended, the National Environmental Policy Act, and other statutes have been met.

Oil and gas resources of the continental margin, including those beyond the 200-meter isobath, subject to jurisdiction of the United States are to be considered for possible leasing. Precise continental shelf boundaries between the United States and opposite or adjacent nations have not been determined in all cases. Accordingly, certain areas are or may be subject to negotiation or dispute. No decision has been made to undertake leasing in actual or potential disputed areas while efforts are being made to reach agreement with the nations concerned.

The areas to be commented on are as follows:

Area	Approximate location [1]
1. North Atlantic..	North of 39° N. lat., east of 71° W. long.
2. Mid-Atlantic.....	Between 35° N. lat. and 39° N. lat. with that portion north of 39° N. lat. west of 71° W. long.
3. South Atlantic..	Between 28° N. lat. and 35° N. lat. seaward to 200 m water depth.
4. Blake Plateau....	Between 28° N. lat. and 35° N. lat. seaward beyond 200 m water depth.
5. Florida Straits...	South of 28° N. lat.
6. Eastern gulf.....	East of 88° W. long.
7. Central and western gulf.	West of 88° to Mexican border.
8. Southern California.	South of 34° N. lat. to Mexican border.
9. Santa Barbara...	Santa Barbara Channel.
10. Central and northern California.	North of 34° N. lat. to the line of latitude west from the California-Oregon border (except Santa Barbara Channel).
11. Washington-Oregon.	North of area No. 10.
12. Cook Inlet.....	Lower Cook Inlet (south of 60° N. lat.) and Shelikof Strait.
13. Gulf of Alaska...	North of 56° N. lat., east of 150° W. long.
14. Kodiak.....	Between 150° W. and 156° W. long.
15. Southern Aleutian Shelf.	West of 156° W. long. and south of a line drawn through the Aleutian Island Chain.
16. Bristol Basin.....	East of 165° W. long.
17. St. George Basin.	South of 58° N. lat., west of 165° W. long.
18. Navarin Basin ...	Between 58° and 63° N. lat., west of 165° W. long.
19. Norton Basin.....	Between 63° and 66° N. lat.
20. Hope Basin	Between 66° and 69° N. lat.
21. Chukchi Sea.....	North of 69° N. lat., west of 160° W. long.
22. Beaufort Sea	East of 160° W. long.

[1] The Government of the United States is engaging in consultations and negotiations with governments of neighboring countries concerning the delimitation of areas subject to their respective jurisdictions. The Department of State published in the Mar. 7, 1977, FEDERAL REGISTER at p. 12937, a notice of limits pursuant to the Fishery Conservation and Management Act of 1976.

Section 4(a)(2)(B) of the Outer Continental Shelf Lands Act, as amended, requires that within a year the President shall establish procedures for settling any outstanding interntional boundary disputes.

A map of the 22 OCS areas is shown below.

Information requested.

A. The following information is requested with respect to each area:

(1) Existing information concerning geographical, geological, and ecological characteristics.

(2) Other uses of the sea and seabed, including fisheries, navigation, existing or proposed sealanes, potential sites of deepwater ports, and other anticipated uses of the resources and space of the OCS.

(3) Identification of areas of environmental sensitivity and marine productivity, including a ranking by area of the level of environmental sensitivity.

(4) Technological feasibility of conducting exploration and development within specified time periods.

(5) Estimated time periods required to achieve initial and peak production after a discovery is made.

(6) Ranking by order of oil and gas potential.

(7) Ranking by order of interest in exploration and development, including reasons for any possible differences in response to item (6) alone.

B. The following general information is requested:

Availability of transportation networks to bring oil and gas supplies to demand areas, both on a current and projected basis.

Dated: October 19, 1978.

5-YEAR OUTER CONTINENTAL SHELF OIL AND GAS LEASING PROGRAM

Timetable for Development

AGENCY: Office of OCS Program Coordination.

ACTION: Notice to interested parties—timetable for development of 5-Year Outer Continental Self oil and gas leasing program.

SUMMARY: The Department of Interior is developing a 5-Year Outer Continental Shelf oil and gas leasing program as required by section 18 of the OCS Lands Act, as amended (43 U.S.C. 1331 et. seq.). Regulations on the leasing program and a request for information appear in the FEDERAL REGISTER today. This notice provides a timetable of the major steps to be followed in preparing the leasing program as an aid for those parties who will participate in the development of or will be affected by the leasing program.

FOR FURTHER INFORMATION CONTACT:

Carolita Kallaur, Office of OCS Program Coordination, Office of the Assistant Secretary for Policy, Budget and Administration, Department of the Interior, room 4126, 18th and C Streets NW., Washington, D.C. 20240, phone 202-343-9314.

Author: Carolita Kallaur, Office of OCS Program Coordination, Office of the Assistant Secretary for Policy, Budget and Administration, Department of the Interior, room 4126, 18th and C Streets NW., Washington, D.C. 20240, phone 202-343-9314.

ALAN D. POWERS,
Director, Office of OCS Program Coordination.

OCTOBER 19, 1978.

TIMETABLE OF MAJOR STEPS—5-YEAR OUTER CONTINENTAL SHELF LEASING PROGRAM

STEP AND APPROXIMATE DATE
1. Request for comments and information—notice in FEDERAL REGISTER, letters to Governors of affected States, and letters to relevant Federal agencies (43 CFR 3308.1), October 24, 1978.
2. Responses to request for comments and information, December 1, 1978.
3. Draft proposed program sent to Governors of affected States for comment (43 CFR 3308 2 (a)), March 2, 1979.
4. Responses from Governors on draft proposed program, April 17, 1979.
5. Publication of proposed program in FEDERAL REGISTER and transmittal to the Congress, the Attorney General, and the Governors of affected States for comment (43 CFR 3308.2(b)), June 5, 1979.
6. Comments from Governors and the Attorney General on proposed program, September 4, 1979.
7. Submission of proposed final leasing program to the President and the Congress (43 CFR 3308.2(c)), November 9, 1979.
8. Approval of final leasing program by the Secretary of the Interior and publication of the program in the FEDERAL REGISTER, January 15, 1980.

OREGON

Availability of Final Environmental Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(c)), the Bureau of Land Management, Department of the Interior, has prepared a final environmental statement for its proposed 10-year timber management plan for public lands administered by the BLM in the Josephine sustained yield unit, southwestern Oregon.

The statement is an assessment of the impact of a proposed annual harvest of 20.10 million cubic feet (approximately 103 million board feet Scribner log rule) of timber from BLM administered lands in the Josephine unit.

Copies of the final statement are available for inspection at the following locations:

Office of Public Affairs, Bureau of Land Management, Interior Building, 18th and C Streets NW., Washington, D.C. 20240, telephone 202-343-4151.
Oregon State Office, Bureau of Land Management, Room 100, 729 Northeast Oregon Street, Portland, Oreg. 97208, telephone 503-234-3361, extension 4024.
Medford District Office, Bureau of Land Management, 310 West 6th Street, Medford, Oreg. 97501, telephone 503-779-2351.
Medford District Office, Bureau of Land Management, Grants Pass Information Office, Room 3, Post Office Building, Grants Pass, Oreg. 97526.

LIBRARIES

Josephine County Library, Illinois Valley Branch, Cave Junction, Oreg. 97523.

[INT DES 78-48]

PROPOSED DEVELOPMENT OF COAL RESOURCES IN EASTERN POWDER RIVER BASIN OF WYOMING

Availability of Draft Environmental Statement and Holding of Public Hearings

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, notice is hereby given that the Bureau of Land Management, U.S. Department of the Interior, has prepared an environmental statement on proposed development of coal resources in the Eastern Powder River Basin of Wyoming, and has made copies of the document available for public review and comment.

The draft statement analyzes environmental impacts that would result from development of one (1) site specific surface coal mine. The statement further analyzes the cumulative regional environmental impacts of proposed coal development and other regional development, and presents two additional regional coal development scenarios (low level and high level), for comparison with the most probable level (proposed actions).

Copies of the draft statement are available for inspection at the following locations (see attached list).

Single-copies of the draft statement can be obtained from the Team Leader, Bureau of Land Management, Eastern Powder River Basin Coal Environmental Statement, 951 Union Boulevard, Casper, Wyo., 82601; or the State Director (952), Bureau of Land Management, Wyoming State Office, 2515 Warren Avenue, P.O. Box 1828, Cheyenne, Wyo., 82001.

Written comments on the draft environemental statement will be accepted on or before December 11, 1978. They are to be addressed to Julie Elfving, Team Leader, Bureau of Land management, Eastern Powder River Coal Environmental Statement, 951 Union Boulevard, Casper, Wyo., 82601.

Oral and written comments will also be received at public hearings as follows: November 28, 1978, Auditorium, Campbell County High School, 1000 Camel Drive, Gillette, Wyo., at 1:30 p.m. and 7:30 p.m.; November 29, 1978, Durham Hall in the Fine Arts Building, Casper College, 125 College Drive, Casper, Wyo. at 1:30 p.m. and 7:30 p.m.

Oral testimony of ten minutes duration will be accepted from each witness at the hearing, in lieu of written comments or in addition to any written comments submitted by such a witness. The 10-minute limitation will be strictly enforced by the presiding officer. Complete text of prepared speeches may be filed at the hearing whether or not the speaker has been able to finish with oral delivery in the allotted 10 minutes.

Speakers will be heard in their established order on the witness list. After the last listed witness has been heard, the presiding officer will consider the request of any other person present and wishing to testify. Only one witness will be allowed to represent the viewpoints of a single organization. However, any witness will be permitted to give germane testimony if offered as the views or opinions of a private citizen.

Written requests to testify orally should be received at the Casper District Office of the Bureau of Land Management at the above address prior to close of business on November 24, 1978. Requests should identify the organization represented, should be signed by the prospective witness, and should state the approximate time (afternoon or evening) for giving oral testimony. The cutoff date is necessary so that a witness list can be made available in the Casper District Office on the day before the public hearing.

Comments on the draft environmental statement, whether written or oral, will receive equal consideration in preparation of a final environmental statement.

ARNOLD E. PETTY,
Acting Associate Director, Bureau of Land Management.

Approved:

LARRY E. MEIEROTTO,
Deputy Assistant Secretary of the Interior.

[4310-55-M]

RAVALLI NATIONAL WILDLIFE REFUGE, MONT.

Name Change to Lee Metcalf National Wildlife Refuge

AGENCY: Office of the Secretary, Department of the Interior.

ACTION: Notice.

SUMMARY: This notice changes the name of the Ravalli National Wildlife Refuge in Montana to Lee Metcalf National Wildlife Refuge. This name change is made to honor the late Senator Lee Metcalf for his contribution to the National Wildlife Refuge System.

EFFECTIVE DATE: October 26, 1978.

FOR FURTHER INFORMATION CONTACT:

Walter R. McAllester, Chief, Division of Realty, Fish and Wildlife Service, phone number 202-343-4026.

SUPPLEMENTARY INFORMATION: The primary author of this notice is Robert R. Poinsett, Realty Specialist, Fish and Wildlife Service.

The Migratory Bird Conservation Commission at its meeting on May 23, 1978, requested the Secretary of the Interior to change the name of Ravalli National Wildlife Refuge to the Lee Metcalf National Wildlife Refuge, in profound appreciation for Senator Metcalf's contributions to the National Wildlife Refuge System and the conservation of the Nation's natural resources for the lasting benefit of the American people.

Senator Lee Metcalf of Montana had served with distinction and devotion on the Migratory Bird Conservation Commission from 1961 to 1975, thus establishing the unparalleled record of having attended without exception each of the 50 meetings held during his Commission membership. His membership coincided with a major, accelerated land acquisition program to preserve fast disappearing waterfowl habitat, and during this time the Commission approved the purchase of 525,000 acres of land and creation of 43 new waterfowl refuges, plus additions to many others.

Additionally, Senator Metcalf was a strong supporter of increased appropriations for refuge acquisitions. He

V 43/208 OC 26 78

sponsored legislation amending the Land and Water Conservation Fund Act, which broadened funding for refuge acquisition and will result in substantial additions to the National Wildlife Refuge System.

Through his deep interest and dedication, Senator Metcalf established himself as a true benefactor to the Nation's wildlife and to all who enjoy these irreplaceable treasures.

Upon publication of this notice, the Ravalli National Wildlife Refuge shall hereafter be known as the Lee Metcalf National Wildlife Refuge.

Dated: August 16, 1978.

CECIL D. ANDRUS,
Secretary of the Interior.

DEPARTMENT OF JUSTICE

PROPOSED CONSENT JUDGMENT IN ACTION TO ENJOIN DISCHARGE OF WATER POLLUTANTS

In accordance with Departmental Policy, 28 CFR § 50.7, 38 FR 19029, notice is hereby given that a proposed consent decree in *United States* v. *City of Lynn, Massachusetts, et al.*, Civil Action No. 76-2184-G, has been lodged with the District Court for the District of Massachusetts. It requires the city of Lynn to bring its sewage discharges into compliance with its previously issued NPDES permit in accordance with certain schedules or to pay $1,000 per day penalty for failing to do so. Although the schedules are contingent on certain State and Federal review and funding actions, it is estimated that the city of Lynn will be required to complete its secondary treatment facilities no later than February 1, 1982, and to abate all combined sewer overflows no later than June 1, 1984.

The Department of Justice will receive written comments relating to the proposed judgment for 30 days from the date of publication of this notice. Comments should be addressed to the Assistant Attorney General of the Land and Natural Resources Division, Department of Justice, Washington, D.C. 20530 and refer to "*United States* v. *City of Lynn, Massachusetts, et al.*", D.J. Ref. No. 90-5-1-1-545.

The proposed decree may be examined at the office of the U.S. Attorney, 1107 John W. McCormack Post Office and Courthouse, Boston, Mass. 02109; at the Region I Office of the Environmental Protection Agency, Enforcement Division, 2103 John F. Kennedy Federal Building, Boston, Mass. 02203; and at the Pollution Control Section, Land and Natural Resources Division of the Department of Justice, Room 2625, Washington, D.C. 20530. A copy of the proposed decree may be obtained in person or by mail from the Pollution Control Section, Land and Natural Resources Division of the Department of Justice.

JAMES W. MOORMAN,
Assistant Attorney General, Land and Natural Resources Division.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

MUSIC ADVISORY PANEL

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), as amended, notice is hereby given that a meeting of the Music Advisory Panel (Orchestra Section) to the National Council on the Arts will be held on November 14, 1978, from 9:30 a.m. to 5:30 p.m.; November 15, 1978, from 9 a.m. to 5:30 p.m. November 16, 1978, from 9 a.m. to 4 p.m. in Columbia Plaza, Room 1422, 2401 E Street NW., Washington, D.C. 20506.

A portion of this meeting will be open to the public on November 14, 1978 from 9:30 a.m. to 4 p.m. The topics of discussion will be policy and guidelines.

The remaining sessions of this meeting on November 14, 1978, from 4 p.m. to 5:30 p.m.; November 15, 1978, from 9 a.m. to 5:30 p.m.; November 16, 1978, from 9 a.m. to 4 p.m. are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER March 17, 1977, these sessions will be closed to the public pursuant to subsections (c)(4), (6) and 9(b) of section 552b of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Mr. John H. Clark, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call 202-634-6070.

JOHN H. CLARK,
Director Office of Council and Panel Operation, National Endowment for the Arts.

NATIONAL TRANSPORTATION SAFETY BOARD

[N-AR 78-43]

ACCIDENT DATA AND REPORTS; SAFETY RECOMMENDATIONS AND RESPONSES

Availability

Annual Review of Aircraft Accident Data, U.S. Air Carrier Operations, 1977. Released October 17 by the National Transportation Safety Board, presents the record of aviation accidents in all operations of U.S. air carriers for last year. It includes an analysis by class of carrier and type of service in which the 1977 performances were compared with 5-year base-period averages.

A 10-year review, 1968 through 1977, of the certificated route carriers is presented for accident rates by aircraft make and model, types of accidents, phases of operation, causes or related factors, and a comparison between scheduled and nonscheduled revenue service. The appendixes of the review contain statistical tables which summarize the accidents, fatalities, and accident rates, as well as causal tables and accident reports in brief format. (Report No. NTS B-ARC-78-2)

Aircraft Accident Reports Brief Format, U.S. Civil Aviation, 1977. Also now available are Issues Nos. 2, 3, and 4 of the Safety Board reports, in computer printout format, on general aviation accidents selected at random which occurred during calendar year 1977. The brief format presents the facts, conditions, circumstances, and probable cause(s) for each accident reported. Additional statistical information in each of the three volumes is tabulated by type of accident, phase of operation, kind of flying, injury index, aircraft damage, conditions of light, pilot certificate, injuries, and causal factors.

Issue No. 2 (Report No. NTS B-BA-78-2) covers 887 accidents. The Safety Board's press release SB-88-39 for this issue provides a safety message for all general aviation pilots, citing as an illustration of the problem the Cessna 207 air taxi cargo accident which occurred at Atlanta, Ga., March 30, 1977. The probable cause of the crash, which killed the pilot and destroyed the Cessna, was inadequate preflight planning that resulted in an overloaded and out of balance airplane.

The board commented that it is essential for safe flight that an aircraft be loaded "within" its maximum gross weight limits and that its load, whether passengers or cargo, be distributed "within" its center of gravity limits. If these weight and balance limits are exceeded it will adversely affect aircraft performance and control. This is a fact of aeronautical life that should be understood by all pilots, the Board said. Weight and balance limitations, available for the pilot's immediate reference, are set forth in the flight manual that must be carried in every aircraft.

Nevertheless, the Board expressed its concern over the persistent reoccurrence of weight and balance type accidents in general aviation. The statistical dimension of this problem, over the 10-year period 1968 through 1977, as retrieved from the Board's accident data bank, reveals 442 weight and balance accidents. Of these, 176 were fatal accidents (39.8 percent), that resulted in 577 fatalities.

As an educational aid in correcting the situation, the Board urged general aviation pilots to send for the pamphlet on "Weight and Balance" (NTS B-PAM-74-1) available free from the Public Inquiry Section, National Transportation Safety Board, Washington, D.C. 20594. For a more detailed treatise on the subject, the Board recommended "The Pilot's Weight and Balance Handbook" (AC-91-23) issued by the Federal Aviation Administration, U.S. Department of Transportation, and for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, at $1.25 per copy.

Issue No. 3 (Report No. NTS B-BA-78-3) covers 912 general aviation accidents, and Issue No. 4 (Report No. NTS B-BA-78-4) reports on 902 additional accidents. Issue No. 5, final volume of the brief format reports on 1977 accidents, is expected to be released in the near future.

NOTE: The brief reports of accidents in these publications contain essential information; more detailed data may be obtained from the original factual reports on file in the Washington Office of the Safety Board. Upon request, factual reports will be reproduced commercially at an average cost of 17 cents per page for printed matter, $5 per page for black-and-white photographs, and $4 per page for color photographs, plus postage. Requests should be directed to the Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594. The requester is asked to provide this information concerning the accident: (1) Date and place of occurrence, (2) type of aircraft and registration number, and (3) name of pilot.

Copies of Issues Nos. 2, 3, and 4 of the brief format accident reports may be purchased from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151.

AVIATION SAFETY RECOMMENDATIONS

A-78-75.—The Safety Board's concern about the removal of evidence on airport runways or taxiways after an aircraft accident was addressed in a recommendation letter issued on October 16 jointly to the American Association of Airport Executives and to the Airport Operators Council International, Inc. For example, following the Continental Airlines DC-10 accident at Los Angeles International Airport on March 1, 1978, and the Northwest Orient Airlines B-747F accident at John F. Kennedy International Airport, Jamaica, N.Y., on November 17, 1977, the runways were swept clean of debris. Both of these accidents resulted from tire failures, and the removal of evidence in cases such as these can adversely affect the Board's ability to determine failure sequences—vital parts of these investigations. Accordingly, both organizations were asked to—

> Advise member airport operators of the importance of preserving and documenting the location of accident debris in accordance with the provisions of 49 CFR 830.10 before debris is removed and before runways and taxiways are swept clean.

A-78-76.—The Safety board recommended on March 30, 1967, that the Federal Aviation Administration issue and Airworthiness Directive to require an internal inspection of the main integral fuel tanks on Piper PA-28 and PA-32 series airplanes for evidence of fuel-tank sealant (sloshing compound) deterioration. Those tanks found faulty were to be repaired or replaced before further passenger or commercial flights. The Safety Board further recommended that the inspection be required continually on all PA-28 and PA-32 series airplanes at appropriate intervals until a permanent solution to the peeling and flaking problem could be found.

In response to the Safety Board's recommendation Airworthiness Directive 67-26-3 was issued, calling for inspections of the fuel tanks and removal of loose sealant material in certain model PA-28 and PA-32 production aircraft. Since the manufacturer changed the compound used in subsequent models PA-28 and PA-32 production aircraft, only those with the older compound were affected by the AD. However, despite the change to a different sloshing compound, difficulties continued. A review of FAA Service Difficulty Reports from 1974 through 1977 disclosed 14 cases involving problems directly associated with fuel-tank sealant deterioration in Piper PA-28 and PA-32 aircraft. Seven of these cases involved loss of engine power either just after takeoff or during the final approach sequence; four resulted in serious accidents.

In view of these findings, the Safety Board on October 17 issued the following recommendation to the Federal Aviation Administration:

> Issue an Airworthiness Directive similar to AD 67-26-3 for all Piper PA-28 and PA-32 aircraft to require that the interior surfaces of both main fuel tanks are imspected for evidence of sealant deterioration. This inspection should be repeated at prescribed intervals to insure continued airworthiness of the aircraft until a permanent solution to the problem of fuel-tank sealant deterioration is resolved.

RESPONSES TO SAFETY RECOMMENDATIONS

Aviation

A-74-55—Letter of October 2 from the Federal Aviation Administration is in response to the Safety Board's August 4 inquiry about the status of this recommendation. A-74-55 called for installation of visual approach slope indicators (VASI) on all instrument landing system (ILS) runways with first priority given to runways where the slide slope is unusable below decision height and to those runways used by air carrier aircraft. The Board noted that FAA's August 8, 1974, response indicated that FAA agreed in principle with the recommendation but was giving priority to installing VASI on nonprecision runways.

FAA's latest response indicates that its policy of assigning the highest priority for VASI to nonprecision runways is unchaged. However, FAA says it has made significant progress toward fulfillment of the recommendation. At present, ther are 1,013 VASI installations on airports certificated for either full or limited air carrier operations. The FAA operates and maintains 526 of these 1,013 VASI's on runways used by air carriers. Also, VASI systems have been installed on 87 ILS runways, five of which have glide slope restrictions.

A-78-3—FAA's response of October 11 is in answer to the Safety Board's letter of September 19 commenting on FAA's initial response of May 5 (43 FR 25889, June 15, 1978). This recommendation asked FAA to establish a joint Government/industry committee to develop flight techniques for coping with inadvertent encounters with severe wind shear at low altitudes. The Board also made reference in its September 19 letter to recommendation A-76-76 asking FAA to evaluate all air carrier takeoff and climb procedures to determine whether different procedures can be developed to better enable flightcrews to cope with known or suspected low-altitude wind shear. FAA's reply to A-76-76 indicated belief that the best procedure possible is for crews to avoid such conditions.

FAA's May 5 response indicated that establishment of a joint Government/industry committee to develop wind shear flight techniques is not necessary at this time but did speak of revising Air Carrier Operations Bulletin 7-76-34 on low-level wind shear to insure that flightcrew members are provided with procedures, guidance, and training to enable them to deal

V 4

with the low-level wind shear problem. The Board noted that the intended June 1, 1978, issuance date of this Op-

ments maintain and operate under formal flight operations manuals.

In asking FAA to reconsider its posi-

(Secs. 304(a)(2) and 307 of the Independent Safety Board Act of 1974 (Pub. L. 93-633, 88 Stat. 2169, 2172 (49 U.S.C. 1903, 1906)).)

Sea's and former students and their employers. 2,150 responses; 122,560 hours

V 43 / 208 OCT 26 78

with the low-level wind shear problem. The Board noted that the intended June 1, 1978, issuance date of this Operations Bulletin has not been met. The Board also questioned whether the techniques proposed by FAA via the Operations Bulletin without a thorough, well-documented, and highly visible development program would be endorsed and supported with adequate training programs by all operators.

The Board urged FAA to reconsider the priority presently assigned to this problem and to review the risks to the Government and to the aviation community in not pursuing this effort in greater depth. The Board's concern is based on the growing evidence which indicates flightcrews are on occasion confronted with unanticipated hazardous winds, and that the full performance capabilities of the aircraft involved are not being used. The Board noted that post-accident studies have shown that, in such circumstances, flight techniques could have been used that would have prevented most of these accidents.

In its October 11 response, FAA states that investigation into this area has developed a considerable amount of information on low level wind shear. In reviewing information for revising the Air Carrier Operations Bulletin 7-76-34, FAA concluded that the information should be made available to all aircraft operators. FAA has decided to publish the information concerning techniques for detecting and coping with low level wind shear in a form that is directed to all persons involved in flight operations. To accomplish industry-wide distribution, FAA has amended the Air Carrier Opratations Bulletin project to include revision of Advisory Circular 00-50, Low Level Wind Shear. FAA says that it has assigned this project the highest priority and will continue to seek technical support in its development from concerned individuals and organizations within the aviation industry. FAA expects to issue the revised Operations Bulletin and Advisory Circular in November.

A-78-30 through 32—FAA's letter of October 4 is in answer to the Safety Board's August 23 letter expressing concern at FAA's rejection of these recommendations as indicated in FAA's response of July 5 (see 43 FR 34222, August 3, 1978). The recommendations were issued after investigation of the September 22, 1976, crash of a Grumman Gulfstream II while making an instrument landing system approach to Ingalls Field Airport, Hot Springs, Va. The aircraft was operated by Johnson & Johnson, Inc., under 14 CFR Part 91 Subpart D. The recommendations would require that certain corporate/executive flight departments maintain and operate under formal flight operations manuals.

In asking FAA to reconsider its position, the Safety Board urged that, if regulatory action in this matter proves impractical, FAA initiate some alternate action such as issuing an operations alert bulletin directing field inspectors to encourage the establishment of flight manuals by the corporate/executive operators in their districts.

FAA's October 4 response states that its position of this matter is unchaged. FAA said, "We have reviewed all available information from which our position was established. We have been unable to find any evidence which would justify action to require certain corporate/executive flight departments to maintain and operate under formal flight operations manuals. In view of the excellent and steadily improving safety record of these operations, we do not believe that increasing the field inspector's activity in an advisory role is necessary at this time."

A-78-50—FAA's letter of October 2 is in response to the Safety Board's recommendation issued July 24 (43 FR 34221, August 3, 1978) after the Board reviewed the report and recommendations made by the FAA Special Certification Review Team on the Ted Smith Aerostar Model 600 series aircraft's fuel system, completed in August 1977. A-78-50 urged FAA to expedite the recommended actions to insure that necessary changes are implemented on production aircraft to solve the problem of fuel starvation.

In response, FAA reports that flight tests by the manufacturer in October 1977 revealed that negative tank pressure could not be maintained after brake release at takeoff and any vent valve closure caused by a slip or skid is transient and brief. FAA plans no action at this time to require vent valve replacement.

The October 2 letter also reports that an FAA flight test evaluation is in progress. It includes inflight engine restart, wing tank unavailable fuel quantities, reevaluation of the fuel quantity indicating system, effect of prolonged wing low flight on fuel feed from wing tanks, and the effect of nonsealing fuel tank filler caps on fuel feed. In addition, although one-way flapper-type check valves could be considered a product improvement, FAA says it does not believe that the absence of such valves was a casual factor in any incident involving a fuel feed deficiency. However, this item will be included in the FAA flight test evaluation. FAA expects to complete the evaluation and initiate any needed corrective action within the next 90 days.

Further, FAA notes that proposals to amend FAR §§ 23.137(b) and 23.1305 were discussed during the 1974 Biennial Airworthiness Review, but because of the many differences of opinion and unresolved issues, the proposals were deferred. FAA expects to include proposals to amend these paragraphs in a future airworthiness review; however, a schedule has not yet been established.

Railroad

R-73-23, R-73-30, and R-73-38—Letter of September 28 from the Federal Railroad Administration is in response to the Safety Board's inquiry of January 14 requesting certain data on implementation of these recommendations.

Recommendation R-73-23 resulted from investigation of the May 24, 1973, explosion of 12 carloads of bombs in a Southern Pacific Transportation Co. train near Benson, Ariz., and called for FRA to require the placement of a "spacer" car between cars transporting hazardous materials or munitions. On July 22, 1975, after FRA dissented with this recommendation, the Board suggested that FRA consider other alternatives to the "spacer principle," such as new loading arrangements. FRA advised on January 5, 1976, of a Department of Defense (DOD) bomb loading study and said it intended to use study results to determine need for any rail regulation. FRA reports that to date DOD has not furnished results of the study and has advised that study activity has been halted as a result of extensive litigation on the Roseville, Calif., bomb explosion of April 28, 1973.

FRA believes that the provisions of regulation 49 CFR 174.104(b)(10) are a safe alternative to "spacer" cars. Basically, this regulation requires all cars transporting class A explosives to be equipped with high friction composition brake shoes and metal sub-floors or metal spark shields. Also, FRA says that current loading requirements mandate careful shipper inspection, duly noted on the car "explosive" certificate with corresponding carrier inspection and concurrence noted on the same certificate.

Recommendation R-73-30, issued after investigation of the October 30, 1972, collision of Illinois Central Gulf Railroad's commuter trains in Chicago, Ill., called for a joint FRA/Urban Mass Transportation Administration study of the need to govern by special procedures or systems high-speed commuter train operation. In response to the Board's inquiry as to the status of the proposed rule on signal systems on commuter railroad and rapid transit lines, published in the FEDERAL REGISTER of May 2, 1975, FRA advises that comments and analysis of materials assembled in connection with the proceeding will be transferred to UMTA for appropriate action. This was done in view of the December 16, 1977, decision of the U.S. Court of Appeals for the Seventh Circuit that rapid transit systems are not railroads and therefore are not subject to compliance with FRA regulations. Also, the Department of Transportation has recently stated that UMTA has total responsibility in the rapid transit area.

Recommendation R-73-38, issued in connection with the investigation of the February 21, 1973, head-on collision of two trains in Taft, La., asked FRA to incorporate in the Federal regulations on operating practices requirements to govern the physical protection provided on main track to guard against unplanned and unauthorized movements onto the main track. FRA reports that following its 1976 analysis of the problem of providing protection against unauthorized movement into the main lines, FRA on January 27, 1977, published 49 CFR 218.35, Yard Limits, in the FEDERAL REGISTER. This regulation, FRA states, requires all railroads to adopt a uniform procedure to govern train operation within yard limits and establishes controls to coordinate train movements on yard tracks when such movements are required to enter the main track. It also provides for joint use of the main line by main line trains and yard movements, with the least restriction to either under the safest possible operating conditions.

FRA believes that, through its study of submissions made by all railroads in compliance with 49 CFR Part 217, Railroad Operating Rules and Practices, the railroads have adequate rules formulated to prevent the unauthorized entry of yard movement into the main track. Additionally, FRA states, the railroads are actively engaged in educating their employees on the requirements of such rules and monitoring them at regular intervals to ensure compliance.

NOTE.—The above notice summarizes Safety Board documents recently released and recommendation responses letters received. Single copies of the *Annual Review of Aircraft Accident Data, U.S. Air Carrier Operations, 1977*, are available without charge as long as supplies last. Copies of the Board's recommendation letters in their entirety and letters in response to recommendations may be obtained free of charge.

All requests for copies must be in writing, identified by report or recommendation number. Address requests to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594.

Multiple copies of the Annual Review and accident reports may be purchased by mail from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151.

(Secs. 304(a)(2) and 307 of the Independent Safety Board Act of 1974 (Pub. L. 93-633, 88 Stat. 2169, 2172 (49 U.S.C. 1903, 1906)).)

MARGARET L. FISHER,
Federal Register Liaison Officer.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on October 19, 1978 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes:

The name of the agency sponsoring the proposed collection of information;

The title of each request received;

The agency form number(s), if applicable;

The frequency with which the information is proposed to be collected;

An indication of who will be the respondents to the proposed collection;

The estimated number of responses;

The estimated burden in reporting hours; and

The name of the reviewer or reviewing division or office.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, 202-395-4529, or from the reviewer listed.

PRESIDENTIAL COMMISSION ON WORLD HUNGER

Meeting

The first meeting of the Presidential Commission on World Hunger will be held on Monday, November 6, 1978, from 9:30 a.m. to 5 p.m. in Conference Room 1107 at the Department of State. Attendees will use the Diplomatic Entrance, 22d and C Streets NW.

The Commission was created by Executive Order 12078 on September 5, 1978. Under that order the Commission is to determine the basic causes of, and relationships between, domestic and international hunger and malnutrition; to identify and evaluate existing Federal and other programs and policies that have an impact on domestic and international hunger and malnutrition; to focus national and international attention on, and to improve understanding about, relationships between domestic and international hunger and malnutrition; to prepare reports which recommend policies, legislation or other actions to significantly reduce domestic and international hunger and malnutrition; to carry out educational and other activities designed to publicize such recommendations and assist in initial and substantive implementation of its recommendations.

The Commission membership is as follows:

Ambassador Sol M. Linowitz, Chairman.
Dr. Jean Mayer, Vice-Chairman, President of Tufts University.
Dr. Steven Muller, Vice-Chairman, President of Johns Hopkins University.
Dr. Norman Borlaug, International Maize and Wheat Improvement Center, Mexico.
Mr. D. W. Brooks, Former Chairman of the Board of the Gold Kist Corp.
Mr. Harry Chapin, Founder of World Hunger Year; Recording artist.
Mr. John Denver, Recording artist and television star; producer of movie "I Want to Live".
Hon. Robert Dole, U.S. Senate, Washington, D.C.
Dr. Walter Falcon, Director of the Stanford University Food Research Institute.
Hon. Benjamin Gilman, U.S. House of Representatives, Washington, D.C.
Hon. Patrick Leahy, U.S. Senate, Washington, D.C.
Ms. Bess Meyerson, Former Commissioner of Consumer Affairs for New York City.
Hon. Richard Nolan, U.S. House of Representatives, Washington, D.C.
Dr. Howard Schneider, Director of the Institute of Nutrition, Consolidated University of North Carolina.
Mr. Raymond Singletary, President of the Blakely Peanut Co.
Dr. Eugene Stockwell, National Council of the Churches of Christ in the United States of America.
Dr. Adele Smith Simmons, President, Hampshire College.
Dr. Clifton Wharton, Chancellor of the State University of New York.

The agenda for the November 6 meeting will be concerned with the organization of the Commission to carry out its mission, scheduling of work to be done through June 1979, designation of subcommittees, and other business as required.

The meeting will be open to observation by the public with 50 seats available by reservation. Requests for reservations should be made in person or by letter addressed to the Presidential Commission on World Hunger, 734 Jackson Place NW., Washington, D.C. 20006. Reservation requests must be made by Thursday, November 2, 1978.

Minutes of the Commission meeting will be available upon request 30 days after the meeting. In addition, copies of the meeting transcript will be maintained and available for public inspection and copying at actual cost at the Commission offices.

DANIEL E. SHAUGHNESSY,
Deputy Executive Director, Presidential Commission on World Hunger.

DEPARTMENT OF STATE

[Public Notice 639]

COMPULSORY LIABILITY INSURANCE FOR DIPLOMATS

Meeting

The Office of the Legal Adviser of the Department of State announces that a meeting will be held on Thursday, November 2, 1978, at 10 a.m. in the conference room of the Office of the Legal Adviser, Room 5519, Main State, 2201 C Street NW., Washington, D.C. 20520. The purpose of this meeting will be to discuss with representatives of the insurance industry the implementation of section 6 of the Diplomatic Relations Act of 1978, Pub. L. 95-393, 22 U.S.C. 254e, which directs the President to establish liability insurance requirements for diplomatic missions and for members of missions and their families. This meeting will be open to the public.

Requests for further information should be directed to Victor A. Vilaplana, Department of State, Office of the Legal Adviser, 2201 C Street NW., Washington, D.C. 20520, Phone: 202-632-2149.

Members of the public wishing to attend this meeting must contact Mr. Vilaplana in advance in order to arrange for entrance into the State Department Building.

Dated: October 28, 1978.

VICTOR A. VILAPLANA,
Special Assistant to the Legal Adviser.

Coast Guard

[CGD 78-143]

PROPOSED BRIDGE ACROSS THE ST. JOHNS RIVER AND MILL COVE AT JACKSONVILLE (DAME POINT), FLA.

Public Hearing

The Coast Guard published notice in the FEDERAL REGISTER on September 21, 1978 (43 FR 42833), of a public hearing concerning a proposed bridge across the St. Johns River and Mill Cove at Jacksonville (Dame Point), Fla. The hearing was scheduled to be held at the Prudential Insurance Co., first floor auditorium, 841 Prudential Drive, Jacksonville, Fla., from 5:30 p.m. to 10:30 p.m. on Monday November 6, 1978 and Wednesday November 8, 1978.

The location of the public hearing has been changed. The new location is the Terry Parker High School, 7301 Parker School Road, Jacksonville, Fla. 32211.

The times and dates remain unchanged.

(Sec. 502, 60 Stat. 847, as amended (33 U.S.C. 525, 49 U.S.C. 1655(g)(6)(C)); 49 CFR 1.46(c)(10).)

Dated: October 23, 1978.

F. P. SCHUBERT,
Captain, U.S. Coast Guard, Acting Chief, Office of Marine Environment and Systems.

Federal Railroad Administration

[FRA Waiver Petition Docket HS-78-8]

EAST JERSEY RAILROAD & TERMINAL CO.

Petition for Exemption From the Hours of Service Act

In accordance with 49 CFR 211.41 and 211.9, notice is hereby given that the East Jersey Railroad & Terminal Co. (R.J.R. & T.) has petitioned the Federal Railroad Administration (FRA) for an exemption from the Hours of Service Act (83 Stat. 464, Pub. L. 91-169, 45 U.S.C. 64a(e)). That petition requests that the E.J.R. & T. be granted authority to permit certain employees to continuously remain on duty for in excess of 12 hours.

The Hours of Service Act currently makes it unlawful for a railroad to require or permit specified employees to continuously remain on duty for a period in excess of 12 hours. However, the Hours of Service Act contains a provision that permits a railroad, which employs no more than 15 employees who are subject to the statute, to seek an exemption from this 12-hour limitation.

The E.J.R. & T. seeks this exemption so that it can permit certain employees to remain continuously on duty for periods not to exceed 16 hours. The petitioner indicates that granting this exemption is in the public interest and will not adversely affect safety. Additionally, the petitioner asserts that it employs no more than 15 employees and has demonstrated good cause for granting this exemption.

Interested persons are invited to participate in this proceeding by submitting written views or comments. FRA has not scheduled an opportunity for oral comment since the facts do not appear to warrant it. Communications concerning this proceeding should identify the docket number, docket No. HS-78-8, and must be submitted in triplicate to the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, Trans Point Building, 2100 Second Street SW., Washington, D.C. 20590. Communications received before November 30, 1978, will be considered by the FRA before final action is taken. Comments received after that date will be considered as far as practicable. All comments received will be available for examination both before and after the closing date for comments, during regular business hours in Room 4406, Trans Point Building, 2100 Second Street SW., Washington, D.C. 20590.

(Sec. 5 of the Hours of Service Act of 1969 (45 U.S.C. 64a); sec. 1.49(d) of the regulations of the Office of the Secretary, 49 CFR 1.49(d).)

Issued in Washington, D.C., on October 19, 1978.

ROBERT H. WRIGHT,
Acting Chairman, Railroad Safety Board.

[FR Doc. 78-30199 Filed 10-25-78; 8:45 am]

[4910-06-M]

[FRA Waiver Petition Docket HS-78-7]

TEXAS SOUTH-EASTERN RAILROAD CO.

Petition for Exemption From the Hours of Service Act

In accordance with 49 CFR 211.41 and 211.9, notice is hereby given that the Texas South-Eastern Railroad (TSE) has petitioned the Federal Railroad Administration (FRA) for an exemption from the Hours of Service Act (83 Stat. 464, Pub. L. 91-169, 45 U.S.C. 64a(e)). That petition requests that the TSE be granted authority to permit certain employees to continuously remain on duty for in excess of 12 hours.

The Hours of Service Act currently makes it unlawful for a railroad to require or permit specified employees to continuously remain on duty for a period in excess of 12 hours. However, the Hours of Service Act contains a provision that permits a railroad, which employs no more than 15 employees who are subject to the statute, to seek an exemption from this 12-hour limitation.

The TSE seeks this exemption so that it can permit certain employees to remain continuously on duty for periods not to exceed 16 hours. The petitioner indicates that granting this exemption is in the public interest and will not adversely affect safety. Additionally, the petitioner asserts that it employs no more than 15 employees and has demonstrated good cause for granting this exemption.

Interested persons are invited to participate in this proceeding by submitting views or comments. FRA has not scheduled an opportunity for oral comment since the facts do not appear to warrant it. Communications concerning this proceeding should identify the docket number, docket No. HS-78-7, and must be submitted in triplicate to the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, Trans Point Building, 2100 Second Street SW., Washington, D.C. 20590. Communications received before November 30, 1978, will be considered by the FRA before final action is taken. Comments received after that date will be considered as far as practicable. All comments received will be available for examination both before and after the closing date for comments, during regular business hours in room 4406, Trans Point Building, 2100 Second Street SW., Washingon, D.C. 20590.

(Sec. 5 of the Hours of Service Act of 1969 (45 U.S.C. 64a); §1.49(d) of the regulations of the Office of the Secretary, 49 CFR 1.49(d).)

Issued in Washington, D.C., on October 19, 1978.

ROBERT H. WRIGHT,
Acting Chairman, Railroad Safety Board.

National Highway Traffic Safety Administration

CALENDAR OF MEETINGS OPEN TO THE PUBLIC

Below is a list of NHTSA-sponsored meetings which are planned for the next 2 years and in which public interest or participation is expected. The list, to be revised and republished periodically, is planning information published to inform interested persons of meetings in which they may wish to participate. Meeting dates and places, particularly those for meetings scheduled for the second year, can change as the dates are approached.

NOVEMBER 15-16, 1978

International Pedestrain Impact Injury Workshop, Washington, D.C.

Purpose: Active and interested researchers will be invited to present and discuss their efforts in the areas of:

a. Injury classification and severity ranking.

b. Accident conditions and characteristics.

V 4 3 / 2 0 8 0 C 2 6 7 8

c. Experimental techniques employed to study problems.

d. Vehicle modifications to mitigate injury hazards.

Coordinator: Dr. Rolf Eppinger, Office of Research and Development (NRD-12), 202-426-4875.

DECEMBER 11-13, 1978

Symposium on Motor Vehicle Fuel Economy Research: Contractors' Coordination Meeting, Washington, D.C.

Purpose: Progress reports on contracts which have been funded through the automotive fuel economy research program will be given. The presentations will explain how individual tasks fit into the research and rulemaking program as well as indicate the content and thrust of the automotive fuel economy research program.

Coordinator: Charles Gauthier, Office of Research and Development (NRD-13), 202-426-2957.

DECEMBER 13, 1978

NHTSA-Industry Technical Meeting, Ann Arbor, Mich.

Purpose: Written questions submitted to NHTSA from the public and industry on the agency's safety, bumper, and consumer information programs will be answered.

Coordinator: William H. Marsh, Executive Secretariat (NOA-10), 202-426-2872.

JANUARY 9-11, 1979

National Highway Safety Advisory Committee, Washington, D.C.

Purpose: Progress reports of the Committee's task forces will be heard. Reports and recommendations for the Secretary, Department of Transportation, may be prepared.

Coordinator: Robert Doherty, Executive Secretariat (NOA-10), 202-426-2872.

FEBRUARY 21, 1979

NHTSA-Industry Technical Meeting, Ann Arbor, Mich.

Purpose: Written questions submitted to NHSTA from the public and industry on the agency's safety, bumper, and comsumer information programs will be answered.

Coordinator: William H. Marsh, Executive Secretariat (NOA-10), 202-426-2872.

EARLY 1979

Symposium on Commerical Truck Exposure Estimates, Washington, D.C.

Purpose: New and old techniques and methologies used in estimating the type and quantity of travel of commerical trucks will be discussed by persons directly involved. Through the exchange of ideas and review of the state-of-the-art, a basis for a national cooperative program to yield improved estimates is expected to emerge.

Coordinator: Ezio Cerrelli, Office of Research and Development (NRD-31), 202-426-1570.

MARCH 1979

"Wrecker" Workshop, Washington, D.C.

Purpose: Research results from validation and application of the "Wrecker" program used in analyzing vehicle side structures will be presented. "Wrecker" is a computer program to do finite element analysis of automobile structures under crash loadings. The word is a nickname, not a acronym.

Coordinator: William T. Hollowell, Office of Research and Development (NRD-12), 202-426-4862.

MARCH 1979

Symposium on Passenger Car Side Impact Protection: Contractors' Coordination Meeting, Washington, D.C.

Purpose: Research on improved occupant protection in side impacts will be given, and, dynamic compliance techniques for evaluating side structure will be discussed.

Coordinator: James R. Hackney, Office of Research and Development (NRD-12), 202-426-4862.

MARCH 1979

Public Hearing on the Proposed Light Truck Average Fuel Economy Standard for Model Years 1982-84, Washington, D.C.

Purpose: Public comments on the proposed fuel economy standard for light trucks and vans for model years 1982-84 will be received.

Coordinator: Glen Brammeler, Office of Rulemaking (NRM-21), 202-472-6902.

JUNE 1979

Seventh International Technical Conference on Experimental Safety Vehicles, Paris, France.

Purpose: Technical information on the development of experimental safety vehicles will be exchanged.

NOTE.—This meeting will be hosted by the French Government and French automotive industry. The United States is the lead country for the international program. By agreement with the United States, the Governments of France, Great Britain, West Germany, Italy, Sweden, and Japan develop experimental safety vehicles and related equipment and exchange the resulting technical information.

Coordinator: James C. Shively, Office of Research and Development (NRD-10), 202-426-1551.

JUNE 12-14, 1979

National Highway Safety Advisory Committee Meeting, Washington, D.C.

Purpose: Progress reports of the Committee's task forces will be heard. Reports and recommendations for the Secretary, Department of Transportation, may be prepared.

Coordinator: Robert Doherty, Executive Secretariat (NOA-10), 202-426-2872.

SUMMER 1979

Traffic Safety Research Program Conference, Washington, D.C.

Purpose: NHTSA's priorities and plans for the traffic safety research (403) program, fiscal years 1979-84 will be discussed. Responses of the traffic safety community will be solicited.

Coordinator: Deborah Parker, Office of Plans and Programs (NPP-30), 202-426-1570.

NOVEMBER 1979

International Conference on Automotive Fuel Economy Research, Washington, D.C.

Purpose: Automotive fuel economy research and technology will be exchanged.

Coordinator: James C. Shively, Office of Research and Development (NRD-10), 202-426-1551.

APRIL 1980

Symposium on Vehicle Aggressivity and Compatibility, Washington, D.C.

Purpose: Research on vehicle aggressivity and improved compatibility will be presented. Techniques for testing compliance with vehicle compatibility requirements will be discussed.

Coordinator: James R. Hackney, Office of Research and Development (NRD-12), 202-426-4862.

NOVEMBER 1980

Symposium on Motor Vehicle Fuel Economy Research: Contractors' Coordination Meeting, Washington, D.C.

Purpose: Progress reports on the contracts which have been funded through the automotive fuel economy research program will be given. How individual tasks fit into the research and rulemaking program and the thrust of the automotive fuel economy research program will be explained.

Coordinator: Charles Gauthier, Office of Research and Development (NRD-13), 202-426-2957.

Persons desiring additional information on a particular meeting may write or phone the coordinator indicated above.

Address for meeting coordinators:

Office of Plans and Programs: Office of Rulemaking; and, the Executive Secretariat are located at National Highway Traffic Safety Administration, DOT Headquarters Building, 400 Seventh Street SW., Washington, D.C. 20590.

Office of Research and Development is located at National Highway Traffic Safety Administration, Trans Point Building, 2100 Second Street SW., Washington, D.C. 20590.

Issued in Washington, D.C., on October 18, 1978.

WM. H. MARSH,
Executive Secretary.

[7035-01-M]

INTERSTATE COMMERCE COMMISSION

[Decisions Volume No. 39]

DECISION-NOTICE

Decided: October 11, 1978.

The following applications are governed by Special Rule 247 of the Commission's rules of practice (49 CFR 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days arter the date notice of the application is published in the FEDERAL REGISTER. Failure to file a protest, on or before November 27, 1978, will be considered as a waiver of opposition to the application. A protest under these rules should comply with rule 247(e)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (as specifically noted below), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues of allegations phrased generally. A protestant should include a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describe in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or upon applicant if no representative is named. If the protest includes a request for oral hearing, such request shall meet the requirements of section 247(e)(4) of the special rules and shall include the certification required in that section.

Section 247(f) provides, in part, that an applicant which does not intend timely to prosecute its application shall promptly request that it be dismissed, and that failure to prosecute an application under the procedures of the Commission will result in its dismissal.

Further processing steps will be by Commission notice, decision, or letter which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication.

Any authority granted may reflect administratively acceptable restrictive amendments to the service proposed below. Some of the applications may have been modified to conform to the Commission's policy of simplifying grants of operating authority.

We find: With the exceptions of those applications involving duly noted problems (e.g., unresolved common control, unresolved fitness questions, and jurisdictional problems) we find, preliminarily, that each common carrier applicant has demonstrated that its proposed service is required by the public convenience and necessity, and that each contract carrier applicant qualifies as a contract carrier and its proposed contract carrier service will be consistent with the public interest and the national transportation policy. Each applicant is fit, willing, and able properly to perform the service proposed and to conform to the requirements of the Interstate Commerce Act and the Commission's regulations. This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

It is ordered: In the absence of legally sufficient protests, filed within 30 days of publication of this decision-notice (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (except those with duly noted problems) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, such duplication shall not be construed as conferring more than a single operating right.

By the Commission, Review Board No. 3, Members Parker, Fortier, and Hill.

H. G. HOMME, Jr.,
Acting Secretary.

MC 730 (Sub-418F), filed September 5, 1978. Applicant: PACIFIC INTERMOUNTAIN EXPRESS CO., a Nevada corporation, 25 North Via Monte, P.O. Box 8004, Walnut Creek, CA 94598. Representative: A. G. Krebs (same address as applicant). To operate as a *common carrier*, by motor vehicle, transporting *general commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving Coldwater, KS, as an off-route point in connection with carrier's otherwise authorized regular-route operations. (Hearing site: Washington, DC, or San Francisco, CA.)

MC 19193 (Sub-16F), filed August 3, 1978. Applicant: LAFFERTY TRUCKING CO, a corporation, 3703 Beale Avenue, Altoona, PA 16601. Representative: S. Berne Smith, P.O. Box 1166, 100 Pine Street, Harrisburg, PA 17108. To operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are dealt in by grocery and food business houses, and (2) *materials, equipment, and supplies* used by grocery and food business houses, (a) between points in Jefferson County, OH, and Brooke, Doddridge, Hancock, Harrison, Lewis, Marshall, Ohio, Pleasants, Ritchie, Tyler, Upshur, Wetzel, and Wood Counties, WV, and (b) between points in Jefferson County, OH, and Brooke, Doddridge, Hancock, Harrison, Lewis, Marshall, Ohio, Pleasants, Ritchie, Tyler, Upshur, Wetzel, and Wood Counties, WV, on the one hand, and, on the other, points in Ashtabula, Columbiana, Cuyahoga, Erie, Geauga, Huron, Lake, Lorain, Mahoning, Ottawa, Portage, Sandusky, Stark, Summit, and Trumbull Counties, OH, Garrett, Allegany, and Washington Counties, and Baltimore, MD, points in Greene, Washington, Fayette, Westmoreland, Armstrong, Clarion, Forest, Elk, McKean, Cameron, Clinton, Lycoming, Union, Snyder, Juniata, Perry, Dauphin, Cumberland, Franklin, Fulton, Bedford, Somerset, Cambria, Indiana, Jefferson, Clearfield, Centre, Blair, Huntingdon, and Mifflin Counties, PA, and Monongalia, Marion, Talyor, Preston, Barbour, Randolph, Tucker, Grant, Mineral, Hampshire, Morgan, and Hardy Counties, WV, under a continuing contract on contracts with The Great Atlantic & Pacific Tea Co., Inc., of Montvale, NJ. (Hearing site: Harrisburg, PA, or Washington, DC.)

MC 22195 (Sub-175F), filed August 29, 1978. Applicant: DAN DUGAN TRANSPORT CO., a corporation, 41st and Grange Avenue, Sioux Falls, SD 57105. Representative: F. Fred Fischer (same address as applicant). To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *residual fuel oil*, in bulk, in tank vehicles, from Williston, ND, to points in Clay County, MN. (Hearing site: St. Louis, MO, or Sioux Falls, SD.)

MC 23618 (Sub-36F), filed September 13, 1978. Applicant: McALISTER TRUCKING CO., a corporation, d.b.a. MATCO, P.O. Box 2377, Abilene, TX 79604. Representative: Lawrence A. Winkle, Suite 1125 Exchange Park, P.O. Box 45538, Dallas, TX 75245. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles*, from points in Eastland and Collin Counties, TX, to points in the United States (except TX, AK, and HI); and (2) *materials, equipment, and supplies* used in the manufacture of the commodities named in (1) above, in the reverse direction. (Hearing site: Fort Worth, TX.)

MC 52858 (Sub-122F), filed August 23, 1978. Applicant: CONVOY CO., a corporation, 3900 Northwest Yeon Avenue, P.O. Box 10185, Portland, OR 97210. Representative: Marvin Handler, 100 Pine Street, Suite 2550, San Francisco, CA. 94111. To operate as a *common carrier*, by motor vehicle, over irreguar routes, transporting: *Automobiles and trucks* (except self-propelled vehicles weighing 15,000 pounds or more), in secondary movements, in truckaways service, between Minneapolis, MN, on the one hand, and, on the other, Dubuque, Mason City, and Waterloo, IA, and points in MN, ND, SD, and WI. (Hearing site: Portland, OR, or San Francisco, CA.)

NOTE.—The person or persons who it appears may be engaged in common control with another carrier must either file an application under section 5(2) of the Interstate Commerce Act, or submit an affidavit indicating why such approval is unnecessary.

MC 55896 (Sub-88F), filed August 2, 1978. Applicant: R-W SERVICE SYSTEM, INC., 20225 Goddard Road, Taylor, MI 48180. Representative: George E. Batty (same address as applicant). To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Leatherboard and blue chrome splits*, from the facili-

V 43 / 208 / OCT 26 78

ties of (1) Eagle Ottawa Leather Co., at Grand Haven, MI, and (2) Whitehall Leather Co., at Whitehall, MI, to points in IL, IN, OH, and WI. (hearing site: Lansing, MI, or Chicago, IL.)

MC 59150 (Sub-137F), filed September 5, 1978. Applicant: PLOOF TRUCK LINES, INC., 1414 Lindrose Street, Jacksonville, FL 32206. Representative: Martin Sack, Jr., 1754 Gulf Life Tower, Jacksonville, FL. 32207. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition board and plywood*, from West Memphis, AR, to points in TN, NC, SC, GA, FL, AL, and MS. (Hearing site: Jacksonville, FL, or Memphis, TN.)

MC 67450 (Sub-69F), filed September 18, 1978. Applicant: PETERLIN CARTAGE CO., a corporation, 9651 South Ewing Avenue, Chicago, IL 60617. Representative: Joseph Winter, 29 South LaSalle Street, Chicago, IL 60603. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cereal food fines and cereal offal*, in bulk, from Battle Creek, MI, to Portland, IN, Rolla, MO, Maspeth, NY, and Delavan, WI. (Hearing site: Chicago, IL.)

MC 67450 (Sub-70F), filed September 18, 1978. Applicant: PETERLIN CARTAGE CO., a corporation, 9651 South Ewing Avenue, Chicago, IL 60617. Representative: Joseph Winter, 29 South LaSalle Street, Chicago, IL 60603. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Gluten meal*, in bulk, from the facilities of Miles Laboratories, Inc., at Elkhart, IN, to points in IA, IL, IN, MI, OH, PA, and WI. (Hearing site: Chicago, IL.)

MC 69281 (Sub-45F), filed August 11, 1978. Applicant: THE DAVIDSON TRANSFER & STORAGE CO., a corporation, 698 Fairmount Avenue, Towson Plaza, Baltimore, MD 21204. Representative: Henry J. Bouchat, P.O. Box 58, Baltimore, MD 21203. To operate as a *common carrier*, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Baltimore, MD, and Hagerstown, MD, over Interstate Hwy 70, serving points in Frederick County, MD as intermediate and off-route points. (Hearing site: Washington, DC.)

MC 70903 (Sub-7F), filed August 28, 1978. Applicant: OKANOGAN-SEATTLE TRANSPORT CO., INC., P.O. Box 722, Ellensburg, WA 98926. Representative: Michael D. Duppenthaler, 515 Lyon Building, 607 Third Avenue, Seattle, WA 98104. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals, fertilizer, and soap* (except commodities in bulk, in tank vehicles), from the facilities of U.S. Borax Co., at or near Boron, Southgate, and Wilmington, CA, to points on the international boundary line between the United States and Canada at or near Blaine, Sumas, and Oroville, WA. (Hearing site: Seattle, WA.)

MC 80443 (Sub-14F), filed August 16, 1978. Applicant: OVERNITE EXPRESS, INC., 2550 Long Lake Road, Roseville, MN 55113. Representative: Samuel Rubenstein, 301 North Fifth Street, Minneapolis, MN 55403. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Park equipment, playground equipment, benches, tables, planters, litter receptacles, finished redwood products, and metal components*, from the facilities of Landscape Structures, Inc., at or near Delano, MN, to points in the United States (except AK, HI, and MN), and (2) *materials, equipment, and supplies* used in the manufacture of the commodities named in (1) above, in the reverse direction, restricted to the transportation of traffic originating at the named origins and destined to the indicated destinations. (Hearing site: Minneapolis or St. Paul, MN.)

MC 85255 (Sub-62F), filed August 1, 1978. Applicant: PUGET SOUND TRUCK LINES, INC., P.O. Box 24526, Seattle, WA 98124. Representative: Clyde H. MacIver, 1900 Peoples National Bank Building, 1415 Fifth Avenue, Seattle, WA, 98171. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Newsprint paper*, between Longview, WA, on the one hand, and, on the other, points in WA and OR. (Hearing site: Seattle or Olympia, WA.)

NOTE: The person or persons who appear to be engaged in common control must either file an application under section 5(2) of the Interstate Commerce Act, or submit an affidavit indicating why such approval is unnecessary.

MC 90870 (Sub-11F), filed September 18, 1978. Applicant: RIECHMANN ENTERPRISES, INC., a Missouri corporation, Route 2, P.O. Box 137, Alhambra, IL 62001. Representative: Patrick B. Northup, 1100 Des Moines Building, Des Moines, IA 50309. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grain storage, drying, and handling equipment, iron and steel articles, and materials and supplies* used in the manufacture of grain storage, drying, and handling equipment, between Assumption, IL, on the one hand, and, on the other, points in AL, AR, GA, IL, IN, IA, KY, LA, MS, MO, MI, OK, OH, TN, TX, and WI. (Hearing site: St. Louis, MO, or Washington, DC.)

MC 98952 (Sub-56F), filed August 4, 1978. Applicant: GENERAL TRANSFER CO., a Delaware corporation, 2880 North Woodford Street, Decatur, IL 62526. Representative: Paul E. Steinhour, 918 East Capitol, Springfield, IL 62701. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods* (except commodities in bulk), in vehicles equipped with mechanical refrigeration, from the facilities of Termicold Corp., at or near Plover, WI, to points in MO, IL, IN, IA, KY, OH, MI, and TN, restricted to the transportation of traffic originating at the named origin and destined to the indicated destinations. (Hearing site: Springfield or Chicago, IL.)

MC 99427 (Sub-41F), filed August 21, 1978. Applicant: ARIZONA TANK LINES, INC., an Arizona corporation, 666 Grand Avenue, Des Moines, IA 50309. Representative: E. Check, P.O. Box 855, Des Moines, IA 50304. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sulphuric acid*, in bulk, from Inspiration and Hayden, AZ, to points in NM. (Hearing site: Kansas City, MO, or Des Moines, IA.)

MC 103051(Sub-450F), filed August 11, 1978. Applicant: FLEET TRANSPORT CO., INC., 934 44th Avenue North, Nashville, TN 37209. Representative: Russell E. Stone, P.O. Box 90408, Nashville, TN 37209. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alumina Hydrate*, in bags, from Campobello, SC, to Boston and Sharon, MA. (Hearing site: Nashville, TN, or Atlanta, GA.)

MC 105733(Sub-65F), filed August 22, 1978. Applicant: H.R. RITTER TRUCKING CO., INC., 928 East Hazelwood Avenue, Rahway, NJ 07065. Representative: Chester A. Zyblut, 366 Executive Building, 1030 15th Street NW., Washington, DC 20005. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *petroleum and petroleum products*, in bulk, from Philadelphia, PA, to points in MA, ME, NH, RI, and VT. (Hearing site: Washington, DC)

MC 106401(Sub-50F), filed August 11, 1978. Applicant: JOHNSON MOTOR LINES, INC., P.O. Box 10877, Charlotte, NC 28234. Representative: Thomas G. Sloan (same address as applicant). To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Plastic pipe and clay pipe*, and (2) *materials and equipment* used in the installation of the commodities named in (1) above, from the facilities of Can-Tex Industries, Division of Harsco Corp., at or near Mineral Wells, TX, to points in LA. (Hearing site: Dallas, TX, or Washington, DC.)

MC 106873(Sub-3F), filed August 23, 1978. Applicant: HEAVY HAULING, CO., INC., P.O. Box 327 Lewis and Clark Road, Astoria, OR 97103. Representative: Lawrence V. Smart, Jr., 419 NW. 23rd Avenue, Portland, OR 97210. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, the transportation of which because of size or weight requires the use of special equipment, and (2) *machinery, contractors' materials, and contractors' supplies* when moving in mixed loads with the commodities described in (1) above, between points in Multnomah, Washington, Yamhill, Clackamas, Polk, Marion, Lincoln, Benton, Linn, Lane, and Douglas Counties, OR, on the one hand, and on the other, points in WA. (Hearing site: Portland, OR.)

MC 108589 (Sub-13F), filed August 23, 1978. Applicant: EAGLE EXPRESS CO., a corporation, P.O. Box 680, Somerset, KY 42501. Representative: John M. Nader, Route 3, Box 4, Bowling Green, KY 42101. To operate as a *common carrier*, by motor vehicle, transporting *general commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Cincinnati, OH, and Lexington, KY, over Interstate Hwy 75, serving no intermediate points, as an alternate route for operating convenience only in connection with carrier's otherwise authorized regular-route operations. (Hearing site: Lexington or Louisville, KY.)

MC 110563 (Sub-238F), filed August 22, 1978. Applicant: COLDWAY FOOD EXPRESS, INC., P.O. Box 747, State Route 29 North, Sidney, OH 45365. Representative: Joseph M. Scanlan, 111 West Washington Street, Chicago, IL 60602. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting *confectionery*, from Bethlehem, PA, to points in CO, IL, IN, IA, KS, KY, MI, MN, MO, NE, OH, and WI, restricted to the transportation of traffic originating at the named origin. (Hearing site: Philadelphia, PA, or Washington, DC.)

MC 111045 (Sub-156F), filed August 30, 1978. Applicant: REDWING CARRIERS, INC., P.O. Box 426, Tampa, FL 33601. Representative: L. W. Fincher (same address as applicant). To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, in bulk, from Port Everglades, Jacksonville, and Tampa, FL, to points in FL, restricted to the transportation of traffic having a prior movement by water. (Hearing site: Tampa or Miami, FL.)

MC 111729 (Sub-744F), filed September 13, 1978. Applicant: PUROLATOR COURIER CORP., 333 New Hyde Park Road, New Hyde Park, NY 11040. Representative: Elizabeth L. Henoch (same address as applicant). To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (a) between points in AR and TN, (b) between points in AR on the one hand, and, on the other, those points in MS on and north of U.S. Hwy 80, and (c) between those points in TN in and west of Montgomery, Dickson, Hickman, Lewis, and Lawrence Counties, on the one hand, and, on the other, points in MS on and north of U.S. Hwy 80, restricted (1) against the transportation of packages weighing more than 50 pounds, and (2) against the transportation of packages or articles weighing in the aggregate, more than 100 pounds from one consignor at one location, to one consignee at one location, in any one day. (Hearing site: Washington, DC.)

NOTE.—Dual operations may be at issue in the proceeding.

MC 111812 (Sub-582F), filed August 4, 1978. Applicant: MIDWEST COAST TRANSPORT, INC., P.O. Box 1233, Sioux Falls, SD 57101. Representative: Ralph H. Jinks (same address as applicant). To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bags, envelopes, packets, pouches, wrappers, and bag ties*, from Sioux Falls, SD, to Baltimore, MD, Boston, MA, Detroit, MI, Cleveland, OH, Norfolk, VA, Philadelphia, PA, and South Plainfield, NJ. (Hearing site: Sioux Falls, SD.)

MC 114552 (Sub-175F), filed August 3, 1978. Applicant: SENN TRUCKING CO., a corporation, P.O. Box 220, Newberry, SC 29108. Representative: Virgil H. Smith, Suite 12, 1587 Phoenix Boulevard, Atlanta, GA 30349. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Roofing and building materials, and materials* used in the installation of roofing and building materials (except commodities in bulk), from the facilities of Tamko Asphalt Products, Inc., at Tuscaloosa, AL, to points in AL, FL, GA, IL, KY, IN, OH, NC, SC, TN, VA, and WV; and (2) *paper, felt, building materials, roofing materials, and sheathing*, from the facilities of Tamko Asphalt Products, Inc., at Knoxville, TN, to points in AL, FL, GA, IL, KY, IN, OH, NC, SC, TN, VA, and WV. (Hearing site: Tuscaloosa, AL or Joplin, MO.)

MC 115162 (Sub-421F), filed July 24, 1978. Applicant: POOLE TRUCK LINE, INC., P.O. Drawer 500, Evergreen, AL 36401. Representative: Robert E. Tate (same address as applicant). To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Pond liners and accessories* used in the installation of pond liners (except commodities in bulk, in tank vehicles), from Mobile, AL, to those points in the United States in and east of ND, SD, NE, KS, OK, and TX; and (2) *materials and supplies* used in the manufacture of the commodities in (1) above (except commodities in bulk, in tank vehicles), in the reverse direction. (Hearing site: Mobile, AL, or Atlanta, GA.)

MC 115353 (Sub-31F), filed August 28, 1978. Applicant: LOUIS J. KENNEDY TRUCKING CO., a corporation, 342 Schuyler Avenue, Kearny, NJ 07032. Representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, NY 10048. To operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Clay products and materials and supplies* used in the manufacture and distribution of clay products (except commodities in bulk), between points in Baldwin County, GA, on the one hand, and, on the other points in FL, under a continuing contract or contracts with Griffin Pipe Products Co., of Oak Brook, IL. (Hearing site: Chicago, IL.)

BROKER AUTHORITY

MC 130523F, filed August 24, 1978. Applicant: LEE'S WORLD OF TRAVEL, US 98 and Co 32, Box 560, Point Clear, AL 46564. Representative: Lee Groves (same address as applicant). To engage in operations, in interstate or foreign commerce, as a *broker* at Point Clear, AL, in arranging for the transportation by motor vehicle of: *Passengers and their baggage*, in round-trip special and charter operations, beginning and ending at points in Baldwin County, AL, and extending to points in the United States (including AK and HI), and all ports of entry on the international boundary line between the United States and Canada, restricted to the transportation of traffic destined to points in the Provinces of BC, AB, ON, PQ, and NS, Canada. Condition: Prior receipt from applicant of an affidavit setting forth its complementary Canadian authority or explaining why no such Canadian authority is necessary. The restriction and conditions contained in the grant of authority in this proceeding are phrased in accordance with the policy statement entitled Notice to Interested Parties of New Requirements Concerning Applications for Operating Authority to Handle Traffic to and from points in Canada published in the FEDERAL REGISTER on December 5, 1974, and supplemented on November 18, 1975. The Commission is presently considering whether the policy statement should be modified, and is in communication with apprcpriate officials of Canada regarding this issue. If the policy statement is changed, appropriate notice will appear in the FEDERAL REGISTER and the Commission will consider all restrictions or conditions which were imposed pursuant to the prior policy statement, regardless of when the condition or restriction was imposed, as being null and void and having no further force or effect. (Hearing site: Mobile or Montgomery, AL.)

NOTE.—Applicant is cautioned that arrangements for charter parties or groups should be made in conformity with the requirements set forth in Tauck Tours, Inc., Extension New York, NY 54 MCC 291 (1954).

[FR Doc 78-30156 Filed 10-25-78; 8:45 am]

[7035-01-M]

[Decisions Volume No. 40]

DECISION-NOTICE

OCTOBER 16, 1978.

The following applications are governed by special rule 247 of the Commission's rules of practice (49 CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date notice of the application is published in the FEDERAL REGISTER. Failure to file a protest, on or before November 27, 1978, will be considered as a waiver of opposition to the application. A protest under these rules should comply with rule 247(e)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (as specifically noted below), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. A protestant should include a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describe in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or upon applicant if no representative is named. If the protest includes a request for oral hearing, such request shall meet the requirements of section 247(e)(4) of the special rules and shall include the certification required in that section.

Section 247(f) provides, in part, that an applicant which does not intend timely to prosecute its application shall promptly request that it be dismissed, and that failure to prosecute an application under the procedures of the Commission will result in its dismissal.

Further processing steps will be by Commission notice, decision, or letter which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication.

Any authority granted may reflect administratively acceptable restrictive amendments to the service proposed below. Some of the applications may have been modified to comform to the Commission's policy of simplifying grants of operating authority.

We find: With the exceptions of those applications involving duly noted problems (e.g., unresolved common control, unresolved fitness questions, and jurisdictional problems) we find, preliminarily, that each common carrier applicant has demonstrated that its proposed service is required by the public convenience and necessity, and that each contract carrier applicant qualifies as a contract carrier and its proposed contract carrier service will be consistent with the public interest and the national transportation policy. Each applicant is fit, willing, and able properly to perform the service proposed and to conform to the requirements of the Interstate Commerce Act and the Commission's regulations. This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

It is ordered: In the absence of legally sufficient protests, filed within 30 days of publication of this decision-notice (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (except those with duly noted problems) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, such duplication shall not be construed as conferring more than a single operating right.

By the Commission, Review Board No. 1, members Carleton, Joyce, and Jones.

H. G. HOMME, Jr.,
Acting Secretary.

MC 531 (Sub-360F), filed August 14 1978. Applicant: YOUNGER BROS., INC., 4904 Griggs Road, P.O. Box 14048, Houston, TX 77021. Representative: Wray E. Hughes (same address as applicant). To operate as a *common carrier*, by motor vehicles, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from Houston, Longview, Texas City, and Freeport, TX, to the ports of entry on international boundary line between the United States and the Republic of Mexico, at Laredo and Brownsville, TX, restricted to the transportation of traffic having a subsequent movement in foreign commerce. (Hearing site: Houston, TX.)

MC 2392 (Sub-116F), filed August 11, 1978. Applicant: WHEELER TRANSPORT SERVICE, INC., 7722 F Street, P.O. Box 14248, West Omaha Station, Omaha, NE 68124. Representative: Leonard A. Jaskiewicz, 1730 M Street NW., Suite 501, Washington, DC 20036. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia*, in bulk, in tank vehicles, from the facilities of Chevron Chemical Co., near Friend, KS, to points in CO, NE, OK, TX, and WY. (Hearing site: Omaha, NE.)

MC 4941 (Sub-40F), filed August 14, 1978. Applicant: QUINN FREIGHT LINES, INC., 1093 Montello Road, Brockton, MA 02403. Representative: John F. O'Donnell, 60 Adams Street, Milton, MA 02187. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from Passadumkeag, ME, to points in DE, MD, NY, PA, and VA. (Hearing site: Boston, MA or Portland, ME.)

MC 4963 (Sub-61F), filed August 29, 1978. Applicant: ALLEGHANY CORP., d.b.a. JONES MOTOR, Bridge Street and Schuylkill Road, Spring City, PA 19475. Representative: Roland Rice, Suite 501, Perpetual Building, 1111 East Street NW., Washington, DC 20004. To operate as a *common carrier*, by motor vehicle, transporting: *General commodities* (except those of unusual value, classes A and B explosives, commodities in bulk, household goods as defined by the Commission, and those requiring special equipment), (1) between Akron and Toledo, OH, serving all intermediate points: From Akron over U.S. Hwy 224 to Tiffin, then over OH Hwy 18 to Fostoria, then over U.S. Hwy 23 to Toledo, and return over the same route; (2) between Akron and Shelby, OH, serving all intermediate points: From Akron over U.S. Hwy 224 to Lodi, then over U.S. Hwy 42 to Mansfield, then over OH Hwy 39 to Shelby, and return over the same route; (3) between Akron and Cincinnati, OH, serving all intermediate points: From Akron over U.S. Hwy 224, then over OH Hwy 585 to Wooster, then over OH Hwy 3 to Columbus, then over U.S. Hwy 40 to Lafayette, then over U.S. Hwy 42 to Cincinnati, and return over the same route; (4) between Akron and Cambridge, OH, serving all intermediate points: From Akron over OH Hwy 93 to Plainfield, then over OH Hwy 658 to Cambridge, and return over the same route; (5) between Tiffin, OH, and Peoria, IL, serving all intermediate points in IL and OH: From Tiffin over U.S. Hwy 224 to Huntington, IN, then over U.S. Hwy 24 to Peoria, and return over the same route; (6) between Dayton, OH, and Pittsburgh, PA, serving all intermediate points: From Dayton over OH Hwy 4 to junction U.S. Hwy 40 to Washington, PA, then over U.S. Hwy 19 to Pittsburgh, and return over the same route; (7) between Dayton and Cincinnati, OH, serving all intermediate points, over Interstate Hwy 75; (8) between Cincinnati, OH, and Winchester, VA, serving all intermediate points (except points in WV), over U.S. Hwy 50; (9) between Cambridge, OH, and Bluefield, VA, serving all intermediate points (except points in WV): From Cambridge over OH Hwy 821 to Marietta, then over unnumbered highway (formerly U.S. Hwy 21) to U.S. Hwy 21, then over U.S. 21 to Bluefield, and return over the same route; and (10) between Peoria, IL, and Columbus, OH, serving all intermediate points in IL and OH: From Peoria over U.S. Hwy 150 to Danville, IL, then over U.S. Hwy 136 to Indianapolis, IN, then over U.S. Hwy 40 to Columbus, and return over the same route, serving in connection with (1) through (10) points in OH as off-route points in connection with carrier's presently authorized regular-route operations. Conditions: (1) The regular route authority granted here shall not be severable, by sale or otherwise, from applicant's retained pertinent irregular-route authority; (2) applicant must request, in writing, the imposition of restrictions on its underlying irregular-route authority precluding service between any two points authorized to be served here pursuant to regular route authority. (Hearing site: Columbus, OH, or Washington, DC.)

NOTE.—The purpose of this application is to convert a portion of applicant's existing irregular route authority to regular route authority.

MC 5470 (Sub-158F), filed September 20, 1978. Applicant: TAJON, INC., R.D. 5, Mercer, PA 16137. Representative: Brian L. Troiano, 918 16th Street NW., Washington, DC 20006. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alloys*, in dump vehicles, from Detroit, MI, to points in OH, PA, and those in NY on and east of U.S. Hwy 15. (Hearing site: Washington, DC, or Buffalo, NY.)

Condition: Prior receipt from applicant of an affidavit setting forth its complementary Canadian authority or explaining why no such Canadian authority is necessary. (Hearing site: Fargo, ND or Sioux City, IA.)

NOTE: The restriction and conditions contained in the grant of authority in this proceeding are phrased in accordance with the policy statement entitled notice to interested parties of new requirements concerning applications for operating authority to handle traffic to and from points in Canada published in the FEDERAL REGISTER on December 5, 1974, and supplemented on November 18, 1975. The Commission is presently considering whether the policy statement should be modified, and is in communication with appropriate Canadian officials regarding this issue. If the policy statement is changed, appropriate notice will appear in the FEDERAL REGISTER and the Commission will consider all restrictions or conditions which were imposed pursuant to the prior policy statement, regardless of when the condition or restriction was imposed, as being null and void and having no force or effect.

MC 133119 (Sub-143F), filed September 26, 1978. Applicant: HEYL TRUCK LINES, INC., P.O. Box 206, Akron, IA 51001. Representative: A. J. Swanson, P.O. Box 81849, Lincoln, NE 68501. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals* (except in bulk), from points in Sweetwater County, WY, Bartow County, GA, and LaSalle and Peoria Counties, IL, to ports of entry on the international boundary line between the United States and Canada, at or near Noyes, MN, Pembina and Portal, ND, Sweetgrass, MT, and Blaine, WA, restricted to the transportation of traffic moving in foreign commerce to points in Manitoba, Saskatchewan, Alberta, and British Columbia, Canada. Condition: Prior receipt from applicant of an affidavit setting forth its complementary Canadian authority or explaining why no such Canadian authority is necessary. (Hearing site: Sioux Falls, SD or Minneapolis, MN.)

NOTE: The restriction and conditions contained in the grant of authority in this proceeding are phrased in accordance with the policy statement entitled notice to interested parties of new requirements concerning applications for operating authority to handle traffic to and from points in Canada published in the FEDERAL REGISTER on December 5, 1974, and supplemented on November 18, 1975. The Commission is presently considering whether the policy statement should be modified, and is in communication with appropriate Canadian officials regarding this issue. If the policy statement is changed, appropriate notice will appear in the FEDERAL REGISTER and the Commission will consider all restrictions or conditions which were imposed pursuant to the prior policy statement, regardless of when the condition or restriction was imposed, as being null and void and having no force or effect.

MC 133219 (Sub-24F), filed September 26, 1978. Applicant: NEBRASKA BULK TRANSPORTS, INC., P.O. Box 215, Bennett, NE 68317. Representative: Bradford E. Kistler, P.O. Box 82028, Lincoln, NE 68501. in Lyon County, MN, on the one hand, and, on the other, points in IA and SD. (Hearing site: Minneapolis or St. Paul, MN.)

NOTE.—Dual operations may be at issue in this proceeding.

MC 144568 (Sub-1F) (correction), filed July 10, 1978, published in the FEDERAL REGISTER issue of August 17, 1978, and republished this issue. Applicant: S. W. TRANSPORT, INC., 800 Ouellette Street, Marieville, PQ, Canada JOL 1JO. Representative: Donald E. Cross, 918 16th Street NW., Washington, DC 20006. Authority granted to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Bolts, nails, screws, nuts, washers, fasteners, wire, wire mesh, rods, bars, wire fabric, and fencing*, from Rouses Point, NY, to points in AL, AR, CA, CO, CT, DE, FL, GA, IL, IN, IA, KS, KY, LA, MD, ME, MA, MI, MN, MS, MO, NE, NV, NH, NJ, NC, ND, OH, OK, OR, PA, RI, SC, SD, TN, TX, UT, VT, VA, WV, and WI, under continuing contracts with Sivaco Wire & Nail Co., and Industrial Fasteners, Ltd., of Marieville, PQ, Canada. (Hearing site: Montpelier or Burlington, VT.)

NOTE.—(1) Applicant shall conduct separately its for-hire carriage and other business operations, (2) it shall maintain separate accounts and records for each operation, and (3) it shall not transport property as both a private and for-hire carrier in the same vehicle at the same time, (4) the purpose of this republication is to show the State of WV in the territorial description which was omitted in the previous FEDERAL REGISTER publication.

MC 144698 (Sub-2F), filed September 20, 1978. Applicant: GAYLE A. GARNER, d.b.a. GARNER TRUCKING, 510 North Lennox, Casper, WY 82601. Representative: Gayle A. Garner (same address as applicant). To operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Building materials, building equipment, and building supplies*, (2) *steel buildings and parts for steel buildings*, and (3) *cranes, garbage disposals, and dump bodies*, between points in WY and MT, Galion and Canton, OH, Terre Haute, IN, Little Rock, AR, Galesburg, IL, Denver, CO, Visalia, CA, and Portland, OR, under continuing contracts in (1), (2), and (3) above with (a) Commercial Buiding Systems Corp., (b) Mr. Continuous R Co., and (c) Colman Equipment Co., all of Casper, WY. (Hearing site: Casper, WY, or Denver, CO.)

MC 145166F, filed August 9, 1978. Applicant: HILLTOP VAN & STORAGE CO., a corporation, 5178 Fisher Road, Columbus, OH 43228. Representative: Jack H. Blanshan, Suite 200, 205 West Touhy Avenue, Park Ridge, IL 60068. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Frozen foods*, from the facilities of Continental Freezers of Illinois, at Chicago, IL, and (2) *foodstuffs* (except in bulk), from the facilities of U.S. Cold Storage, at Lyons, IL, to points in OH, restricted in (1) and (2) above to the transportation of traffic originating at the named origins and destined to the indicated destinations (Hearing site: Chicago, IL.)

NOTE.—Dual operations may be at issue in this proceeding.

MC 145219 (Sub-1F), filed September 19, 1978. Applicant: BUILDERS TRANSPORT, INC., P.O. Box 7057, Savannah, GA 31408. Representative: William P. Sullivan, 1320 Fenwick Lane, Suite 500, Silver Spring, MD 20910. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Citrus products*, in cans, and citrus *byproducts, beverages, and beverage preparations*, from facilities of Tropicana Products, Inc., in Manatee and St. Lucie Counties, FL, to points in AL, GA, LA, MD, MS, NC, SC, TN, VA, and DC, and (2) *materials, equipment, and supplies* used in the manufacture or distribution of the commodities in (1) above, in the reverse direction. (Hearing site: Washington, DC.)

NOTE.—Dual operations are involved in this proceeding.

MC 145359F, filed September 11, 1978. Applicant: THERMO TRANSPORT, INC., 156 East Market Street, Indianapolis, IN 46204. Representative: Donald W. Smith, P.O. Box 40659, Indianapolis, IN 46240. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting (1) *Such commodities* as are dealt in or used by restaurants, and (2) *commodities* otherwise exempt from economic regulation under section 203(b)(6) of the Interstate Commerce Act, when transported in mixed loads with the commodities in (1) above, between Carpinteria, CA, and Florence, KY. (Hearing site: Indianapolis, IN, or Los Angeles, CA.)

Note.—Dual operations may be at issue in this proceeding.

MC 145399F, filed September 15, 1978. Applicant: SHAY DISTRIBUTING CO., INC., P.O. Box 3557, Orange, CA 92665. Representative: Paul M. Daniell, P.O. Box 872, Atlanta, GA 30301. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Foodstuffs*, (2) *meats, meat products, and meat byproducts* (except foodstuffs), and (3) *materials and supplies* used in the manufacture of the commodities in (1) and (2) above, (except hides and commodities in bulk), between the facilities of California Convenience Foods, Inc., at Vernon, Montebello, and Compton, CA, on the one hand, and, on the other, points in the United States (except AK and HI). Condition: Issuance of a certificate in this proceeding is subject to prior or coincidental cancellation of permit in MC 138549, issued August 12, 1977. (Hearing site: Los Angeles, CA.)

NOTE.—The purpose of this application is to convert contract carrier authority to common carrier authority.

MC 145399 (Sub-1F), filed September 15, 1978. Applicant: SHAY DISTRIBUTING CO., INC., P.O. Box 3557, Orange, CA 92665. Representative: Paul M. Daniell, P.O. Box 872, Atlanta, GA 30301. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fresh and frozen fish*, when transported in mixed loads with otherwise authorized commodities, from points in CA, to points in the United States (except AK and HI). Condition: Any certificate issued in this proceeding is subject to prior or coincidental issuance of a certificate in MC 145399F. (Hearing site: Los Angeles, CA.)

NOTE.—Dual operations may be at issue in this proceeding.

MC 1515 (Sub-253F), filed August 29, 1978. Applicant: GREYHOUND LINES, INC., a California corporation, Greyhound Tower, Phoenix, AZ 85077. Representative: W. L. McCracken (same address as applicant). To operate as a *common carrier*, by motor vehicles, transporting: *Passengers and their baggage and express and newspapers*, in the same vehicle with passengers, between junction Interstate Hwy 80 and CA Hwy 12, at or near Fairfield, CA, and Lodi, CA, over CA Hwy 12, serving all intermediate points. Restriction: No passengers will be transported to or from Travis Air Force Base, CA, or between Fairfield and Suisun City, CA. Condition: This authority shall be of no further force and effect upon termination of the carrier's contract with a Government agency to provide such service. (Hearing site: Rio Vista, CA.)

MC 1515 (Sub-25F), filed August 31, 1978. Applicant: GREYHOUND LINES, INC., a California corporation, Greyhound Tower, Phoenix, AZ 85077. Representative: W. L. McCracken (same address as applicant). To operate as a *common carrier*, by motor vehicle, transporting: *Passengers and their baggage and express and newspapers*, in the same vehicle with passengers, between Lincoln Tunnel Interchange and Delaware Memorial Bridge Interchange, over the NJ Turnpike, serving the the intermediate points (1) between the Newark-Jersey City Interchange, and the New Brunswick Interchange, and (2) at Interchange Nos. 5 and 7, restricted against the transportation of traffic (a) originating at New York, NY, and destined to Newark, NJ, or originating at Newark, NJ, and destined to New York, NY, except on carrier's intercity operations which neither originate at nor are destined to points in NJ, and (b) from or to Interchange Nos. 5 and 7 of the NJ Turnpike, which originates at or is destined to Philadelphia, PA, or New York, NY. (Hearing site: Trenton, NJ.)

MC 61120 (Sub-21F), filed June 16, 1978, previously noticed in the FEDERAL REGISTER issue of September 5, 1978. Applicant: TEXAS, NEW MEXICO & OKLAHOMA COACHES, INC., 1313 13th Street, Lubbock, TX 79401. Representative: Mike Cotten, P.O. Box 1148, Austin, TX 78767. To operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage, express, and newspapers*, in the same vehicles with passengers, between Sweetwater and Abilene, TX, over Interstate Hwy 20, serving no intermediate points. (Hearing site: Lubbock or Dallas, TX.)

NOTE.—This republication changes the commodity description by including express.

MC 109736 (Sub-41F), filed June 15, 1978. Applicant: CAPITOL BUS COMPANY d.b.a. CAPITOL TRAILWAYS, 1061 South Cameron Street, Harrisburg, PA 17104. Representative: S. Berne Smith, 100 Pine Street, P.O. Box 1166, Harrisburg, PA 17108. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicles with passengers, in round trip, special, and charter operations, beginning and ending at points in the Borough of Chambersburg and Quincy Township (Franklin County), Silver Spring Township (Cumberland County), Susquehanna and Upper Paxton Townships (Dauphin County), Huhlenburg Township (Berks County), York Township (York County), and the city of Lancaster (Lancaster County), PA, and extending to the Mormon Temple, at Bethesda, MD. (Hearing site: Washington, DC or Harrisburg, PA.)

MC 121695 (Sub-2F), filed August 17, 1978. Applicant: RIMROCK STAGES, INC., 1225 Dublin Street, Billings, MT 59101. Representative: William E. O'Leary, 631 Helena Avenue, Helena, MT 59601. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicle with passengers, in charter operations, beginning and ending at points in Lewis and Clark, Broadwater, Meagher, Golden Valley, and Wheatland Counties, MT, and extending to points in the United States (except AK and HI). (Hearing site: Helena, MT.)

OCTOBER 18, 1978.

[Volume No. 120]

PETITIONS, APPLICATIONS, FINANCE MATTERS (INCLUDING TEMPORARY AUTHORITIES), ALTERNATE ROUTE DEVIATIONS, AND INTRASTATE APPLICATIONS.

PETITIONS FOR MODIFICATION, INTERPRETATION OR REINSTATEMENT OF OPERATING RIGHTS AUTHORITY

NOTICE

The following petitions seek modification or interpretation of existing operating rights authority, or reinstatement of terminated operating rights authority.

All pleadings and documents must clearly specify the suffix (e.g., M1F, M2F) numbers where the docket is so identified in this notice.

An original and one copy of protests to the granting of the requested authority must be filed with the Commission within 30 days after the date of this notice. Such protests shall comply with special rule 247(e) of the Commission's general rules of practice (49 CFR 1100.247)* and shall include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon petitioner's representative, or petitioner if no representative is named.

MC 77402 (M1F) (notice of filing of petition for modification of permit), filed September 1, 1978. Petitioner: HOWARD M. HOWES, INC., 108 East Market Street, Baltimore, OH 43105. Representative: Taylor C. Burneson, 1631 Northwest Professional Plaza, Columbus, OH 43220. Petitioner holds a motor *contract carrier* permit in MC 77402, issued January 8, 1951, which, as pertinent, authorizes transportation, over irregular routes: of (1) *Corrugated paper containers* and *corrugated paper* from Baltimore, OH to points in IN on and east of a line beginning at Michigan City and running in a southerly direction through LaFayette, Indianapolis, Seymour, and Sellersburg to the IN-KY State line at New Albany, and (2) *scrap paper* from the aforesaid IN area to Baltimore, OH. By the instant petition, petitioner seeks authority to render service of the same type between Baltimore, OH and all points in IN, service to be rendered under continuing contract or contracts with Crown Zellerbach Corp., of San Francisco, CA.

MC 77402 (Sub-4) (M1F) (notice of filing of petition for modification of permit), filed September 7, 1978. Petitioner: HOWARD M. HOWES, INC., 108 East Market Street, Baltimore, OH 43105. Representative: Taylor C. Burneson, 1631 Northwest Professional Plaza, Columbus, OH 43220. Petitioner holds a motor *contract carrier* permit in MC 77402, (Sub-4), issued February 26, 1973, which authorizes transportation, over irregular routes, of: (1) *corrugated paper containers* and *corrugated paper* from Baltimore, OH to points in that part of KY on and north of U.S. Hwy 60, (except Ashland, Maysville, and Louisville), and (2) *scrap paper* from the aforesaid KY points to Baltimore, OH. The operation authorized is restricted to service performed under continuing contract or contracts with Crown Zellerbach Corp., of San Francisco, CA. By the instant petition, petitioner seeks authority to render service of the same type between Baltimore, OH and all points in KY, service to be rendered, as at present, under continuing.

*Copies of special rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, DC 20423.

V 43/208 OCT 26 78

contract or contracts with Crown Zellerbach Corp., of San Francisco, CA.

MC 117119 (Sub-195) and (Sub-265) (MIF) (notice of filing of petition for modification), filed August 31, 1978. Petitioner: WILLIS SHAW FROZEN EXPRESS, INC., P.O. Box 188, Elm Springs, AR 72728. Representative: L. M. McLean (same address as petitioner). Petitioner holds a motor *common carrier* certificate in MC 117119 (Sub-195), issued September 3, 1965, authorizing transportation over irregular routes of: *Frozen foods* (except frozen meats) from Kansas City, KS to Gallipolis, OH and points in AL, GA, KY, NC, SC, VA, WV, and TN (except Memphis and points in the Memphis, TN commercial zone as defined by the Commission) and in MC 117119 (Sub-265), issued June 3, 1966, authorizing transportation over irregular routes of: *Frozen foods* (except frozen meats) from Kansas City, MO to points in DE, NJ, NY, MD, PA, and DC. By the instant petition, the petitioner seeks to modify the commodity description in both applications to *Foodstuffs* (except in bulk) in lieu of *Frozen foods* (except frozen meat). The certificates otherwise would remain the same.

MC 117676 (Sub-5 and 6) (MIF) (Notice of filing of petition to add an origin point to certificate), filed September 5, 1978. Petitioner: HERMS TRUCKING, INC., 620 Pear Street, Trenton, NJ 08648. Representative: Alan Kahn, 1920 Two Penn Center Plaza, Philadelphia, PA 19102. Petitioner holds motor *common carrier* certificates in MC 117676 (Sub-5 and 6) issued October 13, 1976 and April 28, 1978 repectively, authorizing transportation, as pertinent, over irregular routes (in Sub-5): *Pressed fireplace logs* and *sawdust* from the facilities of P & M Lumber Products, Inc., in Fairless Hills, PA, to points in CT, DE, ME, MD, MA, NH, NJ, NY, NC, PA, RI, VT, VA, and DC. Restriction: The operations authorized herein are restricted to traffic originating at the above-named origins and destined to the above-named destinations. And in (Sub-6): Irregular Routes: (1) *Pressed fireplace logs*, from the facilities of P & M Lumber Products, Inc., located in Falls Township, Bucks County, PA, to points in AL, FL, GA, IL, IN, KY, MI, OH, SC, TN and WV. (2) *Materials* used in the manufacture of pressed fireplace logs (except in bulk, in tank vehicles), from points in CT, DE, ME, MD, MA, NH, NJ, NY, PA, OH, RI, VT, VA, and WV, to the facilities of P & M Lumber Products, Inc., located in Falls Township, Bucks County, PA. By the instant petition, petitioner seeks to modify the above authority by adding Trenton, NJ as an origin point (Sub-5) and as an origin point in part (1) (Sub-6), and as a destination point in part (2) in (Sub-6).

MC 133119 (Sub-104) (M1F) (Notice of filing of a petition to modify certificate), filed September 12, 1978. Petitioner: HEYL TRUCK LINES, INC., P.O. Box 206, Akron, IA 51001. Representative: A. J. Swanson, P.O. Box 81849, Lincoln, NE 68501. Petitioner holds a motor *common carrier* certificate in MC 133119 (Sub-104), issued November 29, 1977, authorizing transportation, over irregular routes, of: *Meats, meat products, meat byproducts, and articles distributed by meat packinghouses*, as described in sections A and C of appendix I to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766 (except hides and commodities in bulk), from the facilities of Meilman Food Industries, Inc., at or near Sioux Falls, SD, to points in CO, IA, KS, MN, and WI, restricted to the transportation of traffic originating at the above-named facilities and destined to the described destination States. By the instant petition, petitioner seeks to modify the above authority by deleting the language "the facilities of Meilman Food Industries, Inc., at or near", and modifying the restriction to restrict the transportation of traffic originating at the above-named orgins and destined to the described destination States.

MC 135649 (Sub-1) (M1F) (notice of filing of petition to modify territorial description), filed September 13, 1978. Petitioner: FRIEDERICH TRUCK SERVICE, INC., P.O. Box 86, O'Fallon, IL 62269. Representative: Ernest A. Brooks II, 1301 Ambassador Building, St. Louis, MO 63101. Petitioner holds motor *contract carrier* permit in MC 135649 (Sub-1), issued August 31, 1976, authorizing transportation, over irregular routes, of: *Commodities* such as are dealt in by retail discount stores, between St. Louis, Springfield, Kansas City, and Independence, MO; Alton, Fairview Heights, Chicago, Peoria, Mount Prospect, Oakbrook Terrace and Matteson, IL; and Overland Park, KS. Restriction: The operations authorized herein are subject to the following condition: The authority granted herein is restricted against the transportation of shipments between points in the St. Louis, MO-East St. Louis, IL commercial zone, as defined by the Commission, and points in St. Clair County, IL. The operations authorized herein are limited to a transportation service to be performed under a continuing contract, or contracts with Venture Stores, Inc., a division of May Department Stores Co., of St. Ann MO. By the instant petition, petitioner seeks to include the additional points of Merrillville, IN and Davenport, IA, where contracting shipper recently opened retail discount stores.

MC 138345 (Sub-7) (M1F) (notice of filing petition to modify certificate), filed September 7, 1978. Petitioner: BASIL B. GORDON, d.b.a. VALLEY SPREADER CO., P.O. Box 673, Brawley, CA 92227. Representative: R. Y. Schureman, 1545 Wilshire Boulevard, Los Angeles, CA 90017. Petitioner holds a motor *common carrier* certificate in MC 138345 (Sub-7), issued June 1, 1978, authorizing transportation over irregular routes of: *Dry fertilizer*, in bulk, from Brea, San Diego and points in Imperial Co., CA to points in Yuma, Mohave, Maricopa and Pinal Counties, AZ. By the instant petition, petitioner seeks deletion of the adjective dry so that if may transport both dry and liquid fertilizers, in bulk. The certificate, otherwise, would remain the same.

Republications of Grants of Operating Rights Authority Prior to Certification Notice

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the Federal Register.

An original and one copy of a petition for leave to intervene in the proceeding must be filed with the Commission within 30 days after the date of this Federal Register notice. Such pleading shall comply with special rule 247(e) of the Commission's General Rules of Practice (49 CFR 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including copies of intervenor's conflicting authorities and a concise statement of intervenor's interest in the proceeding setting forth in detail the precise manner in which it has been prejudiced by lack of notice of the authority granted. A copy of the pleading shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

MC 41406 (Sub-59) (republication), filed December 27, 1977, published in the Federal Register issue of February 16, 1978, and republished this issue. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., 7105 Kennedy Avenue, P.O. Box 2176, Hammond, IN 46323. Representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 Eleventh Street NW., Washington, DC 20001. A decision of the Commission, Review Board No. 3, decided September 1, 1978, and served October 10, 1978, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *common carrier*, by motor vehicle,

over irregular routes, in the transportation of: *Agricultural implements*, from the facilities of John Deere Plow & Planter Works, at Moline, IL, to points in OH, PA, WV, MI, KY, MD, NY, NJ, DE, CT, RI, ME, MA, NH, VT, VA, and DC, restricted to the transportation of shipments originating at and destined to the named origins and destinations, that applicants is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to modify the commodity description.

MC 63792 (Sub-28) (republication), filed September 6, 1977 published in the Federal Register issue of October 14, 1977, and republished this issue. Applicant: TOM HICKS TRANSFER CO., INC., P.O. Box 16006, Houston, TX 77002. Representative: C. W. Ferebee (same address as applicant). A decision of the Commission, division 2, decided September 25, 1978, and served October 2, 1978, finds that the present and future public convention and necessity require operations by applicant in interstate or foreign commerce as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of: (1)(a) *Air pollution control equipment, heating and cooling equipment, pressure vessels, solid waste compactors and balers;* and (1)(b) *parts and accessories* for the commodities indicated in 1(a), from Houston, TX, to points in AL, AZ, AR, CO, FL, GA, ID, IL, IA, IN, KS, KY, LA, MT, MI, MN, MS, MO, NE, NV, NM, NC, ND, OH, OK, SC, SD, TN, VA, WV, WI, WY, and UT; and (2) *materials, supplies and parts and equipment* used in the manufacture of air pollution control equipment, heating and cooling equipment, pressure vessels, solid waste compactors and balers, from the above-named destinations, to the above-named origin, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to modify the commodity description.

MC 110012 (Sub-37) (republication), filed January 9, 1978, published in the Federal Register issue of March 2, 1978, and republished this issue. Applicant: ROY WIDENER MOTOR LINES, INC., P.O. Box 68, Morristown, TN 37814. Representative: John R. Sims, Jr., 915 Pennsylvania Building, 425 13th Street NW., Washington, DC 20004. A decision of the Commission, Review Board No. 3, decided September 11, 1978, and served October 5, 1978, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of: *General commodities* (except classes A and B explosives, household goods as defined by the Commission, commodities in bulk, those of unusual value, and commodities which because of their size or weight require the use of special equipment), in containers or in trailers, and empty containers, between points in Cocke County, TN, on the one hand, and, on the other, Morristown, TN, restricted to the transportation of shipments having a prior or subsequent movement by rail, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to modify the commodity description.

MC 112713 (Sub-210F) (republication), filed February 27, 1978, published in the Federal Register issue of April 13, 1978, and republished this issue. Applicant: YELLOW FREIGHT SYSTEM, INC., P.O. Box 7270, 10990 Roe Avenue, Shawnee Mission, KS 66207. Representative: David B. Schneider (same address as applicant). A decision of the Commission, Review Board No. 3, decided August 25, 1978, and served September 18, 1978, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *common carrier*, by motor vehicle, over regular routes, in the transportation of: *General commodities* (except classes A and B explosives, household goods as defined by the Commission, commodities in bulk, those of unusual value and those requiring special equipment), serving the facilities of Georgia Power Co. Nuclear Generating Plant, located in Burke County, GA, as an off-route point in connection with the carrier's otherwise authorized regular-route operations, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to modify the territorial description.

MC 126118 (Sub-36) (republication), filed March 7, 1977, published in the Federal Register issue of April 28, 1977, and republished this issue. Applicant: CRETE CARRIER CORP., P.O. Box 81228, Lincoln, NE 68501. Representative: Duane W. Acklie (same address as applicant). A decision of the Commission, division 2, decided September 27, 1978, and served October 5, 1978, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of: *Paper and paper products*, (1) from Erie and Lock Haven, PA, Indianapolis, IN, Oswego, NY, and points in MI, OH, and WI, to points in AR, FL, IA, KS, LA, MO, NE, ND, OK, TN, TX, UT, AL, CO, ID, KY, MN, MS, MT, NV, NM, SD, and WY; (2) from Mobile, AL, to points in AR, IA, KS, MO, NE, OK, MT, ID, NV, UT, WY, ND, SD, MN, CO, and NM; (3) from Hoquiam, WA, to points in ID, MT, NV, UT, and WY; (4) from Pinebluff, AR, to Kansas City, MO, and points in NE; and (5) from Portland, OR, to points in NE, restricted to traffic originating at the named origins and destined to the named destinations authorized above, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to indicate applicant's actual grant of authority.

MC 136291 (Sub-6) M1 (republication of notice of filing petition for modification of permit), filed June 15, 1977, published in the Federal Register issue of August 4, 1977, and republished this issue. Petitioner: CUSTOMIZED PARTS DISTRIBUTION, INC., 3600 Northwest 82d Avenue, Miami, FL 33166. Representative: Francis W. McInery, 1000 Sixteenth Street NW., Washington, DC 20036. A decision of the Commission, Review Board No. 3, decided September 21, 1978, and served October 6, 1978, finds that the present and future public convenience and necessity require modification of permit MC 136291 (Sub-6), as corrected and reissued May 16, 1978, authorizing transportation over irregular routes, of: *Liquid argon, liquid nitrogen, and liquid oxygen*, in specially designed cryogenic vehicles provided and owned by shipper, from Gadsden and Huntsville, AL, to points in AR, FL, GA, LA, KY, MS, NC, SC, and TN, under a continuing contract or contracts with Union Carbide Corp. Petitioner will be consistent with the public interest and the national transportation policy, and is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to indicate the addition of Huntsville, AL as an origin point.

MC 138104 (Sub-53) (republication), filed January 19, 1978, published in the Federal Register issue of March 2, 1978, and republished this issue. Applicant: MOORE TRANSPORTA-

V 43/208 OCT 26 78

TION CO., INC., 3509 North Grove Street, Fort Worth, TX 76106. Representative: Bernard H. English, 6270 Firth Road, Fort Worth, TX 76116. A

test shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative

MC 25518 (Sub-20F), filed October 4, 1978. Applicant: JOHN BUNNING TRANSFER CO., INC., Box 128, Rock Springs, WY 82901. Representative:

61, serving all intermediate points. (Hearing site: Memphis, TN or Baton, Rouge, LA.)

Note.—This republication shows that

V 4 3 / 2 0 8

TION CO., INC., 3509 North Grove Street, Fort Worth, TX 76106. Representative: Bernard H. English, 6270 Firth Road, Fort Worth, TX 76116. A decision of the Commission, review Board No. 3, decided September 22, 1978, and served October 10, 1978, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of: (1) *Construction materials* (except commodities in bulk), from the facilities of the Celotex Corp., at or near Texarkana, AR, to points in KS, AL, AR, FL, GA, LA, MS, MO, OK, TX, and NM; and (2) *materials and supplies* used in the manufacture and/or distribution of the commodities named in (1) above (except commodities in bulk), from points in the destination States named in (1) above, to the facilities of the Celotex Corp., at or near Texarkana, AR, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to add NM as an origin point in part (1) above, and modify the commodity description.

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATIONS

NOTICE

The following applications are governed by special rule 247 of the Commission's general rules of practice (49 CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(e)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. All pleadings and documents must clearly specify the "F" suffix where the docket is so identified in this notice. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(e)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission decision which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

MC 2226 (Sub-113F), (correction) filed April 14, 1978, and previously noticed in the FEDERAL REGISTER issue of July 27, 1978. Applicant: RED ARROW FREIGHT LINES, INC., 3901 Seguin Road, San Antonio, TX 78297. Representative: James M. Doherty, 500 West Sixteenth Street, P.O. Box 1945, Austin, TX 78767. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, commodities in bulk household goods as defined by the Commission, and those requiring the use of special equipment), from Laredo, TX, to Dallas and Houston, TX. (Hearing site: Hearing scheduled for October 31, 1978 (8 days) at 9:30 a.m. local time at the Hilton Inn, 1 South Main Avenue, Laredo, TX and continued to November 13, 1978 (1 week), at 9:30 a.m. local time, at the Sheraton Inn-Mockingbird, 1893 West Mockingbird Lane, Dallas, TX before Administrative Law Judge Joseph F. Walker.)

NOTE.—Applicant intends to tack the requested authority with authorized regular route authorities at Dallas, TX to provide service to various authorized points in TX, including Tyler, Kilgore, Fort. Worth and Burleson, TX as described in Sub-94, 100, 102 and 107; and at Houston, TX to provide service to various authorized regular route points in TX, including Conroe, Huntsville, Madisonville, Corsicana, Ennis, and Palestine, TX as described in Sub-94, 100, 102 and 107.

0 C 2 6 7 8

MC 25518 (Sub-20F), filed October 4, 1978. Applicant: JOHN BUNNING TRANSFER CO., INC., Box 128, Rock Springs, WY 82901. Representative: Truman A. Stockton, Jr., The 1650 Grant Street Building, Denver, CO 80203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and byproducts; (2) *machinery, materials, equipment and supplies* used in, or in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipelines, including the stringing and picking up thereof; (3) *earth drilling machinery and equipment, and machinery, equipment, materials and supplies* and pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells; and (4) *commodities*, the transportation of which because of size or weight require the use of special equipment, and of related articles and supplies when their transportation is incidental to the transportation of commodities which by reason of size or weight require special equipment, between those points in the United States in and west of ND, SD, NE, KS, OK, and TX (except AK and HI). (Hearing: November 28, 1978 (3 weeks), at 9:30 a.m. local time, at Denver, CO, in a hearing room location to be later designated.)

MC 64832 (Sub-7F), filed April 10, 1978, and previously noticed in the FEDERAL REGISTER issue of July 20, 1978. Applicant: MAGNOLIA TRUCK LINE, INC., 3097 Fontaine Road, Memphis, TN 38116. Representative: Donald B. Morrison, P.O. Box 22628, Jackson, MS 39205. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment) (1) between Memphis, TN and Baton Rouge, LA, from Memphis, over Interstate Hwy 55 to junction Interstate Hwy 12, then over Interstate Hwy 12 to Baton Rouge, and return over the same route, serving Hammond, LA as an intermediate point; and (2) between Woodville, MS, and Baton Rouge, LA, over U.S. Hwy 61, serving all intermediate points. (Hearing site: Memphis, TN or Baton, Rouge, LA.)

NOTE.—This republication shows that regular-route authority is sought.

MC 109326 (Sub-114F), filed June 16, 1978, and previously noticed in the FEDERAL REGISTER issue of August 22, 1978. Applicant: C. & D. TRANSPORTATION CO., INC., P.O. Box 10506, New Orleans, LA 70121. Representative: William P. Jackson, Jr., 3426 N. Washington Boulevard, P.O. Box 1240, Arlington, VA 22210. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Foodstuffs;* and (2) *such other commodities as are dealt in by wholesale, retail, and chain grocery and food business houses*, and in connection therewith; (3) *equipment, materials, and supplies* used in the conduct of such business (except in bulk), between the facilities of Hudson Industries, Inc., at or near Brundidge and Troy, AL, on the one hand, and, on the other, points in the United States (except AK and HI). (Hearing site: Montgomery, AL.)

NOTE.—This republication conforms to applicant's request for authority.

MC 114552 (Sub-163F), filed June 6, 1978, and previously published in the FEDERAL REGISTER issue of August 10, 1978. Applicant: SENN TRUCKING CO., a corporation, P.O. Drawer 220, Newberry, SC 29108. Representative: William P. Jackson, Jr., 3426 North Washington Boulevard, P.O. Box 1240, Arlington, VA 22210. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Foodstuffs;* (2) *such other commodities as are dealt in by wholesale and retail chain grocery houses*, and in connection therewith; and (3) *equipment, materials and supplies* used in the conduct of such business (except in bulk), between the facilities of Hudson Industries, Inc., at or near Brundidge and Troy, AL, on the one hand, and, on the other, points in the United States (except AK and HI). (Hearing site: Montgomery, AL.)

NOTE.—This republication conforms to the applicant's request for authority.

MC 115022 (Sub-32F), filed April 14, 1978, and previously noticed in the FEDERAL REGISTER issue of August 10, 1978, and September 28, 1978. Applicant: CHAMBERLAIN MOBILE-HOME TRANSPORT, INC., 64 East Main Street, Thomaston, CT 06787. Representative: Bernard J. Hasson, Jr., 927 15th Street NW., Suite 306, Washington, DC 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (a) *Trailers*, designed to be drawn by passenger automobiles, in initial movements; and (b) *buildings in sections*, mounted on

V 43 / 208 OCT 26 78

wheeled undercarriages, from origins which are points of manufacture or initial interstate shipping points, in AL, AZ, AR, CA, CO, FL, GA, IN, KS, LA, MD, MI, MS, MN, NE, NH, NM, NY, NC, OH, OK, OR, PA, SC, TN, TX, VA, and WI, to points in the United States, including AK but excluding HI. (Hearing site: Hartford, CT or Boston, MA.)

NOTE.—This republication more correctly states the nature of the authority sought by the applicant.

MC 121060 (Sub-65F), filed June 7, 1978, and previously noticed in the FEDERAL REGISTER issue of July 20, 1978. Applicant: ARROW TRUCK LINES, INC., P.O. Box 1416, Birmingham, AL 35201. Representative: William P. Jackson, Jr., 3426 North Washington Boulevard, P.O. Box 1240, Arlington, VA 22210. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Foodstuffs:* (2) *such other commodities as are dealt in by wholesale and retail chain and grocery houses*, and in connection therewith; and (3) *equipment, materials, and supplies* used in the conduct of such business (except in bulk), between the facilities of Hudson Industries, Inc., at or near Brundidge and Troy, AL, on the one hand, and, on the other, points in the United States (except AK and HI). (Hearing site: Montgomery, AL.)

NOTE.—This republication conforms to applicant's request for authority.

MC 126276 (Sub-198F), filed July 26, 1978. Applicant: FAST MOTOR SERVICE, INC., 9100 Plainfield Road, Brookfield, IL 60513. Representative: James C. Hardman, 33 North LaSalle Street, Chicago, IL 60602. Authority sought to operate as a *contract carrier* by motor vehicle, over irregular routes, transporting: *Such commodities as are dealt in or used by a producer and distributor of paper and plastic products* (except commodities in bulk and those which, because of size or weight, require the use of special equipment or handling), from Chicago, IL, to Forth Worth and Saginaw, TX, and Louisville, KY, under a continuing contract with the Continental Group, Inc., of New York, NY. (Hearing site: Chicago, IL.)

NOTE.—This application is subject to the Commission's favorable determination that applicant meets the definition of a contract carrier in the proceedings pending in MC 126276 (Sub-161), et al.

MC 138882 (Sub-95F), filed June 6, 1978, and previously published in the FEDERAL REGISTER issue of August 10, 1978. Applicant: WILEY SANDERS, INC., P.O. Box 707, Troy, AL 36081. Representative: William P. Jackson, Jr., 3426 North Washington Boulevard, P.O. Box 1240, Arlington, VA 22210. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Foodstuffs;* (2) *such other commodities* as are dealt in by wholesale and retail chain and grocery houses, and in connection therewith; and (3) *equipment, materials and supplies* used in the conduct of such business (except in bulk), between the facilities of Hudson Industries, Inc., at or near Brundidge and Troy, AL, on the one hand, and, on the other, points in the United States (except AK and HI). (Hearing site: Montgomery, AL.)

NOTE.—This republication conforms to applicant's request for authority.

MC 143236 (Sub-16F), filed June 1, 1978, previously noticed in the FEDERAL REGISTER issue of July 6, 1978. Applicant: WHITE TIGER TRANSPORTATION, INC., 115 Jacobus Avenue, Kearny, NJ 07032. Representative: Jay Schiffres, Suite 505, 1511 K Street NW., Washington, DC 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are sold in toy stores, between the facilities of Toys "R" Us at those points in the United States in and east of MN, LA, NE, CO, OK, and TX, on the one hand, and, on the other, those points in the United States in and east of MN, IA, NE, CO, OK, and TX. (Hearing site: November 13, 1978 (1 day), at 9:30 a.m. local time, at New York, NY, in a hearing room to be later designated.)

MC 144557, filed May 23, 1978, and previously noticed in the FEDERAL REGISTER issue of July 20, 1978. Applicant: HUDSON TRANSPORTATION, INC., P.O. Box 847, Troy AL 36081. Representative: William P. Jackson, Jr., 3426 North Washington Boulevard, P.O. Box 1240, Arlington, VA 22210. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Foodstuffs;* (2) *such other commodities* as are dealt in by wholesale and retail chain and grocery houses, and in connection therewith; and (3) *equipment, materials, and supplies* used in the conduct of such business, between the facilities of Hudson Industries, Inc., at Brundidge and Troy, AL, on the one hand, and, on the other, points in the United States (except AK and HI). (Hearing site: Montgomery or Birmingham, AL.)

NOTE.—This republication conforms to applicant's request for authority.

MC 144584 (Sub-4F) (correction), filed April 10, 1978, previously noticed as MC 144585 (Sub-1F), in the FEDERAL REGISTER issue of July 27, 1978. Applicant: WASHINGTON-CALIFORNIA EXPRESS, INC., a Pennsylvania corporation, 919 McGarry Street, Los Angeles, CA 90021. Representative: Joseph F. Hoary, 121 South Main Street, Taylor, PA 18517. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Candy and confectionery, including hollow mold chocolate and cough drops*, from the facilities used by Luden's, Inc., at or near Reading, PA, to AZ, CA, CO, ID, NV, OR, UT, and WA, under a continuing contract(s) with Luden's, Inc. (Hearing site: Washington, DC.)

NOTE.—Common control may be involved. The purpose of this republication is to indicate the correct docket number.

MC 144585 (Sub-2F), filed April 11, 1978. Applicant: SHANE TRANSPORTATION, INC., 403 Bank Street, Lodi, OH 44254. Representative: E. H. van Deusen, P.O. Box 97, 220 West Bridge Street, Dublin, OH 43017. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wire, wire products and materials and supplies used in the installation thereof (except commodities in bulk)*, from the facilities of Royal Wire Products, Inc., at or near North Royalton, OH, to points in the United States (except AK and HI). (Hearing site: Cleveland, OH.)

FINANCE APPLICATIONS

NOTICE

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control through ownership of stock, of rail carriers or motor carriers pursuant to section 5(2) or 210a(b) of the Interstate Commerce Act.

An original and one copy of protests against the granting of the requested authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall comply with special rule 240(c) or 240(d) of the Commission's general rules of practice (49 CFR 1100.240) and shall include a concise statement of protestant's interest in the proceeding. A copy of the protest shall be served concurrently upon applicant's representative, or applicant, if no representative is named.

MC-F-13647 (correction) (DALKE TRANSPORT, INC.—Purchase (Portion)—JERRY LIPPS, INC.), published in the July 27, 1978, issue of the FEDERAL REGISTER at page 32512. Prior notice indicated the vendor being Jerry Lines, Inc. and that should be corrected to read Jerry Lipps, Inc. Also a portion of the purchased authority was omitted and should be included. It reads as follows: *Plastic siding and plastic molding*, from Waco, TX, to points in AZ, CA, CO, NV, OK, and KS.

MC-F-13670F (correction) (WINTERS TRUCK LINES—Purchase (Portion)—ROCK ISLAND MOTOR TRANSIT CO.), published in the July 27, 1978, issue of the FEDERAL REGISTER, pages 32516 and 32517. Prior notice should read as follows: (1) Column 2, paragraph 1, line 16: "Marin" should be spelled "Marion". (2) Column 2, 5th line from the bottom: "Galhart" should be "Darhart". (3) Column 3, 7th line from the bottom: "and an off-route point in connection" should be "as an off-route point in connection".

MC-F-13688F (correction) (LONE STAR CARRIERS INC.—Purchase (Portion)—TASCO TRUCKING, INC.), published in the August 24, 1978, issue of the FEDERAL REGISTER on page 37807. Prior publication inadvertently published GA as a destination State two times and omitted the destination State of CA. Also omitted from the publication was a line that read as follows: "LONE STAR CARRIERS INC. is seeking temporary authority under section 210a(b) of the Act."

MC-F-13761F. To accomplish corporate simplification by the redistribution of authority through mergers and transfers, authority is sought for (a) the transfer to ALTRUK FREIGHT SYSTEMS INC. (MC 116544) of that portion of the authority of O.N.C Freight Systems of Oklahoma Inc. (MC 134308) pertaining to commodities moving in mechanically refrigerated equipment; and (b) the merger of O.N.C Freight Systems of Oklahoma Inc. (MC 134308) into O.N.C Freight Systems (MC 71459). Each of the applicants is under the common control of Rocor International and each has corporate offices at 1703 Embarcadero Road, Palo Alto, CA 94303. Representative: Joseph P. Ficurelli, P.O. Box 10280, Palo Alto, CA 94303. The operating rights sought to be transferred and merged are as follows: *General commodities*, with the usual exceptions, as a common carrier over regular routes, (1) between Oklahoma City, OK, and Forgan, OK, serving all intermediate points (except Bethany, Yukon, El Reno, Calumet, Karns, Geary, Watonga, Oakwood, and Seiling), and serving the off-route points of Okeene, Southard, Canton, Fairview, Mooreland, Buffalo, and Laverne, OK: From Oklahoma City over U.S. Hwy 270 to Forgan, and return over the same route; (2) between Oklahoma City, OK, and Richards Spur, OK, serving all intermediate points: From Oklahoma City over U.S. Hwy 62 to Richards Spur, and return over the same route; from Oklahoma City over U.S. Hwy 277 to Richards Spur, and return over the same route; from Oklahoma City over U.S. Hwy 62 to junction OK Hwy 8 east of Anadarko, OK, then over OK Hwy 8 to Cyril, then over OK Hwy 19 to junction U.S. Hwy 62 north of Apache, then over U.S. Hwy 62 to Richards Spur, and return over the same route; (3) between Oklahoma City, OK, and Richards Spur, OK, serving no intermediate points: From Oklahoma City over the H. E. Bailey Turnpike to Richards Spur, and return over the same route; (4) between Elmwood, OK, and Felt, OK, serving all intermediate points: From Elmwood over OK Hwy 3 to Felt, and return over the same route; (5) between Woodward, OK, and Fargo, OK, serving the off-route points of the Woodward Airport and the facilities of Woodward Manufacturing Co., at or near Woodward, OK: From Woodward over OK Hwy 15 to Fargo, and return over the same route; (6) between Woodward, OK, and Forgan, OK, serving the intermediate or off-route points of Rosston, Gate, and Knowles, OK: From Woodward over OK Hwy 3 to junction U.S. Hwy 183 at or near Fort Supply, OK, then over U.S. Hwy 183 to Buffalo, OK, and then over U.S. Hwy 64 to Forgan, and return over the same route; (7) between Forgan, OK, and Woodward, OK, serving the off-route points of Rosston, Gate, and Knowles, OK: From Forgan over U.S. Hwy 270 to Woodward, OK, and return over the same route; (8) between Woodward, OK, and Sharon, OK, serving no intermediate points: From Woodward over U.S. Hwy 270 to junction OK Hwy 34, and then over OK Hwy 34 to Sharon, and return over the same route; (9) between Buffalo, OK, and Coldwater, KS, serving all intermediate points, and the off-route points of Ashland and Protection, KS: From Buffalo over U.S. Hwy 183 to junction U.S. Hwy 160 near Sitka, KS, then over U.S. Hwys 160 and 183 to Coldwater, and return over the same route; (10) serving the Amoco gas processing plant located near Hitchcock, OK, as an off-route point in connection with carrier's regular route operations to serve Okeene, OK; and (11) serving the facilities of the Houston Chemical Co., near Woodward, OK, as an off-route point in connection with carrier's presently authorized regular-route operations between Woodward, and Oklahoma City, OK. O.N.C Freight Systems is authorized to operate as a common carrier in AZ, CA, CO, CT, DE, ID, IL, IN, IA, KS, ME, MD, MA, MN, MO, NB, NV, NH, NJ, NM, NY, OH, OK, OR, PA, RI, TX, UT, WA, WI, and WY, and Altruk Freight Systems Inc. is authorized to operate as a common carrier in all 48 States (except AK and HI). Application has not been filed for temporary authority under section 210a(b).

NOTE.—Control was granted by an order served June 28, 1977, in MC-F-12218.

MC-F-13762F. Authority sought for control by the SEIGLE'S EXPRESS, INC., foot of Pennsylvania Avenue, South Kearney, NJ 07032, of Weseon Transportation Co., Inc., Oak Tree Road, Palisades, NY, through ownership of stock and for acquistion by Richard Riley of control through the transaction. Attorneys for applicants: William W. Becker, 1819 H Street NW., Washington, DC 20006, and Leonard Reade, 666 Fifth Avenue, New York, NY. Authority to be controlled: (1) *General commodities*, except those of unusal value, class A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, as a *common carrier* over irregular routes, between New York, NY, on the one hand, and, on the other, points in Westchester County, NY; and between points in Orange and Rockland Counties, NY, on the one hand, and, on the other, points in Bergen, Passaic, and Morris Counties, NJ; (2) *general commodities*, except those of unusual value, class A and B explosives, liquor, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, as a common carrier over irregular routes, between New York, NY, on the one hand, and, on the other points in Essex, Hudson, Union, Passaic, Bergen, Middlesex, Morris, Monmouth, and Somerset Counties, NJ; (3) *general commodities*, except those of unusual value, class A and B explosives, livestock, household goods, as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, as a common carrier over regular routes, between Peekskill, NY, and Poughkeepsie, NY, serving the intermediate points of Fishkill, Wappingers Falls, Newbergh, Hughsonville, Cold Spring, Nelsonville, and Garrison, NY as follows: From Peekskill over U.S. Hwy 9 to Poughkeepsie, and return from Poughkeepsie over U.S. Hwy 9 to junction NY Hwy 9D, thence over NY Hwy 9D to Beacon, NY, then across the Hudson River to Newburgh, NY, then across the Hudson River to Beacon, NY, then over NY Hwy 9D to junction NY Hwy 406, then over NY Hwy 403 to junction U.S. Hwy 9, and then over U.S. Hwy 9 to Peekskill; (4) *general commodities*, except those of unusual value, class A and B explosives, livestock, household goods, as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, as a common carrier over irregular routes between Peekskill, NY, and points in

V 43 / 208 OCT 26 78

Westchester, Rockland, Putnam, Dutchess, and Orange Counties, NY, on the one hand, and, on the other, points in Passaic, Bergen, Hudson, Essex, Union, Morris, and Somerset Counties, NJ. Vendee is authorized to operate as a common carrier in the States of NY, NJ, and CT. Application has been filed for temporary authority under section 210a(b) of the Act. (Hearing site: New York, NY, or Washington, D.C.

NOTE.—MC 54200 (Sub-3F) is a directly related matter.

MC-F-13763F. Authority sought for purchase by CROWN TRANSPORT, INC., R.D. 2, Wampum, PA 16157, of a portion of the operating rights of Masterson Transfer Co., Inc., 3000 Pennsylvania Avenue, West Warren, PA 16365, and for acquisition by RTM Corp., Richard T. Murphy, P.O. Box 43010, St. Paul, MN 55164, of control of such rights through the transaction. Applicants' attorneys: Donald A. Morken, 1000 First National Bank Building, Minneapolis, MN 55402, and Kenneth T. Johnson, Bankers Trust Building, Jamestown, NY 14701. Operating rights sought to be purchased: Under MC 3246, issued August 21, 1973, irregular routes. *Machinery and machinery parts and such commodities as require specialized handling or rigging because of weight or size, and such materials and supplies usually transported in connection therewith,* from Warren, PA, to points in NJ, NY, and OH, with no transportation for compensation on return except as otherwise authorized; and machinery and machinery parts and such commodities requiring specialized handling or rigging because of size or weight, between Warren, PA, on the one hand, and, on the other, points in NJ, NY, MA, CT, RI, DE, MD, VA, WV, OH, IN, IL, MI, and DC, together with all operating rights pursuant to gateway letter notices applicable to the foregoing commodities and authority. Transferee holds authority to transport commodities which because of size or weight require special handling or the use of special equipment, self-propelled articles weighing 15,000 pounds, or more, related commodities, and construction materials and supplies, between or to or from all of the States embraced in transferor's authority and intends to tack its authority with the authority sought for purchase and eliminate gateways in the States of NY, PA, and OH. Application has not been filed for temporary authority under section 210a(b). (Hearing site: Washington, DC.)

NOTE.—MC 4484 (Sub-5F) is a directly related matter.

MC-F-13764F. (GENERAL CARTAGE COMPANY, INC.—purchase—MOTOR FREIGHT SERVICE, INC.), published in the October 19, 1978, issue of the FEDERAL REGISTER. Application filed October 12, 1978, for temporary authority under section 210a(b).

MC-F-13770F. Authority sought for purchase by COLUMBIA RIVER TRUCK COMPANY, INC., 502 Northwest Seventh, Camas, WA 99607, of the operating rights of Eathel W. Boys and Beula A. Boys, a partnership, d.b.a. Cooper Truck Lines, 758 C Street, Washougal, WA 98607, and for acquisition by Marjorie M. and Glenn D. Blake, both of 502 Northwest Seventh, Camas, WA 98607, and Gary Miller, Rainer National Bank, P.O. Box 3966, Seattle, WA 98124, of control of such rights through the transaction. Applicants' attorney: John A. Anderson, Suite 1440, 200 Market Building, Portland, OR 97201. Operating rights sought to be transferred: *General commodities,* except those of unusual value, and except dangerous explosives, household goods as defined in Practices of Motor Common Carriers of Household Goods, 17 MCC 467, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, as a *common carrier,* over regular routes, between Portland, OR, and Washougal, WA, from Portland over U.S. Hwy 99 to Vancouver, WA, then over U.S. Hwy 830 to Washougal, and return over the same route. Service is authorized to and from all intermediate points, and the off-route points of Orchards, Proebstel, Hockinson, and Fern Prairie, WA. *Agricultural commodities, bulk, cream, eggs, poultry, livestock, feed, building materials, and farm equipment and supplies,* over irregular routes, between Portland, OR, and Vancouver, WA, on the one hand, and, on the other, farms located in Clark County, WA. Transferee is authorized to operate as a *common carrier* in OR, and WA. Application has been filed for temporary authority under section 210a(b).

MC-F-13773F. Transferee: GREEN FIELD TRANSPORT, CO., INC., 1515 Third Avenue NW., P.O. Box 1235, Fort Dodge, IA 50501. Transferor: (B) Booth Transfer, Inc., 7800 K Street, Omaha, NE 68127, and (BB) Campbell Trucking, Inc., 7800 K Street, Omaha, NE 68127. Representative: Scott E. Daniel, P.O. Box 82028, Lincoln, NE 68501. Authority sought for control by Green Field Transport Co., Inc., 1515 Third Avenue NW., P.O. Box 1235, Fort Dodge, IA, of (B) Booth Transfer, Inc., 7800 K Street, Omaha, NE 68127, and (BB) Campbell Trucking, Inc., 7800 K Street, Omaha, NE 68127, and for acquisition by R. D. McMahon of Fort Dodge, IA, of control of Booth Transfer, Inc., and Campbell Trucking, Inc., through the acquisition. Vendee is authorized to operate pursuant to Certificate MC-114273 and subs, as a *common carrier* in the States of CO, CT, DE, IL, IN, IA, KS, KY, ME, MD, MA, MI, MN, MO, NE, NH, NJ, NY, ND, OH, OK, PA, RI, SD, VA, VT, W.VA and WI. No duplicating authority will result from the application. Application has been filed for temporary authority under section 210a(b).

OPERATING RIGHTS APPLICATION(S) DIRECTLY RELATED TO FINANCE PROCEEDINGS

NOTICE

The following operating rights application(s) are filed in connection with pending finance applications under section 5(2) of the Interstate Commerce Act, or seek tacking and/or gateway elimination in connection with transfer applications under section 212(b) of the Interstate Commerce Act.

An original and one copy of protests to the granting of the authorities must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protests shall comply with special rule 247(e) of the Commission's general rules of practice (49 CFR 1100.247) and include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon applicant's representative or applicant if no representative is named.

Each applicant states that there will be no significant effect on either the quality of the human environment or energy policy and conservation resulting from approval of its application.

MC 4484 (Sub-5F), filed October 3, 1978. Applicant: CROWN TRANSPORT, INC., R.D. 2, Wampum, PA 16157. Representative: Donald A. Morken, 1000 First National Bank Building, Minneapolis, MN 55402. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: *Commodities* which because of size or weight require special handling or the use of special equipment, *self-propelled articles* each weighing more than 15,000 pounds, and *related machinery, tools, parts, and supplies* moving in connection therewith, and *construction materials and supplies*, and *machinery and machinery parts*, (1) between points in PA, OH, NY, and WV, on the one hand, and, on the other, points in NJ, NY, MA, CT, RI, DE, MD, VA, PA, WV, KY, OH, IN, IL, MI, and DC; (2) between MA, CT, RI, NJ, DE, MD, and VA, on the one hand, and, on the other, points in KY, IL, IN, and MI; (3) between points in KY, IL, IN, and MI; and (4) between points in MA, CT, RI, NJ, DE, MD, and VA. (Hearing site: Washington, DC.)

NOTE.—This application is a directly related gateway elimination application filed in connection with MC-F-13763F. The gateways to be eliminated are as follows: Parts (1) and (2) are Warren, PA, and points in NY and OH, and parts (3) and (4) are Warren, PA. MC-F-13763F is published in a previous section of this FEDERAL REGISTER issue.

MC 29904 (Sub-3F), filed October 10, 1978. Applicant: SUDDATH VAN LINES, INC., 525 Stevens Street, P.O. Box 6699, Jacksonville, FL 32205. Representative: Robert J. Gallagher, 1000 Connecticut Avenue NW., Suite 1200, Washington, DC 20036. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, in the transportation of: *Household goods* as defined by the Commission, between points in NY, NJ, DE, MD, PA, WV, VA, NC, SC; GA, FL, AL, TN, KY, MS, LA, MO, IL, IN, MA, CT, RI, NH, VT, OH, and DC, on the one hand, and, on the other, points in AZ, CO, IA, NE, WI, CA, MN, NV, and UT. Gateways to be eliminated are as follows: Points in that part of NC east of U.S. Hwy 21. (Hearing site: Jacksonville, FL.)

NOTE.—This application is directly related to purchase application by Suddath Van Lines, Inc. of a portion of the operating authority of Plymouth Van Lines, Inc. MC-F-13679F is published in a previous section of this FEDERAL REGISTER issue. The purpose of this application is to eliminate the gateway as noted above.

MC 54200 (Sub-8F), filed October 2, 1978. Applicant: SEIGLE'S EXPRESS, INC., foot of Pennsylvania Avenue, South Kearney, NJ 07032. Representative: William W. Becker, 1819 H Street NW., Washington, DC 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *General commodities* (except those of unusual value, class A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment), between points in Westchester, Orange, and Rockland Counties, NY, on the one hand, and, on the other hand, points in Passaic, Bergen, Hudson, Essex, Union, Morris, and Somerset Counties, NJ; (2) *general commodities* (except those of unusual value, class A and B explosives, liquor, household goods as defined by the Commission, commodites in bulk, commodities requiring special equipment, between points in the New York, NY, commercial zone, as defined in Commercial Zones and Terminal Areas, 53 MCC 451, within which local operations may be conducted pursuant to the partial exemption of section 203(b)(8) of the Interstate Commerce Act (the "exempt" zone), and those points in NJ and all of any; NJ municipality any part of which is within 5 miles of New York, NY, and points in Nassau County, NY, on the one hand, and, on the other points in Middlesex and Monmouth Counties, NJ, between points in Essex, Hudson, Union, Passaic, Bergen, and Morris Counties, NJ; (3) *general commodities* (except those of unusual value, class A and B explosives, livestock, household goods, as defined by the Commission, commodities in bulk, commodities requiring special equipment), between Peekskill, NY, on the one hand, and, on the other, points in the New York, NY, commercial zone, as defined in Commercial Zones and Terminal Areas, 53 MCC 451, within which local operations may be conducted pursuant to the partial exemption of section 203(b)(8) of the Interstate Commerce Act (the "exempt" zone), and those points in NJ and all of any NJ municipality any part of which is within 5 miles of New York, NY, and points in Nassau County, NY, and points in Passaic, Bergen, Hudson, Essex, Union, Morris, and Somerset Counties, NJ; and (4) *business records and printed matter*, between Clinton, NJ, on the one hand, and, on the other, Peekskill, NY, and points in Monmouth, Passaic, Bergen, Hudson, Essex, Union, Morris, Somerset, and Middlesex Counties, NJ, and Nassau, Orange, Rockland, Westchester, Putnam, and Dutchess Counties, NY. (Hearing site: New York, NY, or Washington, DC.)

NOTE.—This application is filed as directly related application to finance proceeding docketed Mc-F-13762F. The purpose of this application is to permit tacking of irregular route authority to be acquired with authority of applicant and eliminate gateways of points in the New York, NY, commercial zone. MC-F-13762F is published in a previous section of this FEDERAL REGISTER issue.

MC 83217 (Sub-76F), filed September 27, 1978. Applicant: DAKOTA EXPRESS, INC., 550 East Fifth Street South, South St. Paul, MN 55075. Representative: K. O. Petrick (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs, building materials, malt beverages, paper products, and such commodities*, when moving in the same vehicle, at the same time with foodstuffs, (a) between points in MN, on the one hand, and, on the other, Sioux Falls, Gary, Brookings, Watertown, Egan, Lone Tree, Air Way Station, Trent, and Elkton, SD, and (b) between Sioux Falls, Egan, Lone Tree, Trent, Elkton, and Flandreau, SD, on the one hand, and, on the other, Gary, Brookings and Watertown, SD. (Hearing site: St. Paul, MN.)

NOTE.—The purpose of this application is to eliminate the gateway points of Flandreau, SD, and points in Lincoln County, MN, through the conversion of certain regular route authorities to irregular route authorities as outlined in the Commission's decision in MC-F-12411 served June 28, 1978. This application is directly related to MC-F-12411, published in the FEDERAL REGISTER issue of January 22, 1975.

MC 145512F, filed October 12, 1978. Applicant: LOZOWICK TRUCKING CO., INC., P.O. Box 292, Sparta, NJ 07871. Representative: George A. Olsen, P.O. Box 357, Gladstone, NJ 07934. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: (1) *Bronze, brass, copper,* and *nickel products*, and in connection therewith, *materials*, and *supplies*, used in the manufacture of such products (except commodities in bulk, in tank vehicles), (a) between the facility of Phelps Dodge Copper Products Corp., at or near South Brunswick Township, Middlesex County, NJ, and New York, NY, and (b) from the facility of Phelps Dodge Copper Products Corp., at or near South Brunswick Township, Middlesex County, NJ, to points in Nassau, Suffolk, Westchester, Dutchess, Ulster, Sullivan Rockland, and Orange Counties, NY, Philadelphia, PA, and points in PA within 15 miles thereof, and Bridgeport, New Haven, and Waterbury, CT; (2) *salvaged, damaged,* and *returned shipments* of the above-described commodities, from points in Nassau, Suffolk, Westchester, Dutchess, Ulster, Sullivan, Rockland, and Orange Counties, NY, Philadelphia, PA, and points in PA within 15 miles thereof, and Bridgeport, New Haven, and Waterbury, CT, to the facility of the Phelps Dodge Copper Products Corp., at or near South Brunswick Township, Middlesex County, NJ; (3) *bronze, brass, copper,* and *nickel products*, and in connection therewith, *materials* and *supplies* used in the manufacture of such products, (a) between the facility of Phelps Dodge Copper Products Corp., at or near South Brunswick Township, Middlesex County, NJ, on the one hand, and, on the other, points in the NJ portion of the New York, NY, commercial zone, as defined by the Commission, (b) between the facility of Phelps Dodge Copper Products Corp., Elizabeth, NJ, and New York, NY, and (c) from the facility of Phelps Dodge Copper Products Corp., Elizabeth, NJ, to points in Nassau, Suffolk, Westchester, Dutchess, Ulster, Sullivan, Rockland, and Orange Counties, NY, Philadelphia, PA, and points in PA within 15 miles thereof and Bridgeport, New Haven, and Westbury, CT; (4) *salvaged, damaged,* or *returned shipments* of the immediately above-described commodities, from points in Nassau, Suffolk, Westchester, Dutchess, Ulster, Sullivan, Rockland, and Orange Counties, NY, Philadelphia, PA, and points in PA within 15 miles thereof, and Bridgeport, New Haven, and Waterbury, CT, to the facility of Phelps Dodge Copper Products Corp., at Elizabeth, NJ; (5) *bronze, brass, copper,* and *nickel products*, and in connection therewith, *materials* and *supplies*, used in the manufacture of such products; (a) between the facility of Phelps Dodge Copper Products Corp. at Bayway, NJ, and New York, NY, (b) from the facility of Phelps Dodge Copper Products Corp., Bayway, NJ, to points in Nassau, Suffolk, Westchester, Dutchess, Ulster, Sullivan, Rockland, and Orange Counties, NY, Philadelphia, PA, and points in PA within 15 miles of Philadelphia, and Bridgeport, New Haven, and Waterbury, CT; (6) *salvaged, damaged,* or *returned shipments* of bronze, brass, copper, and nickel products, and *materials* and *supplies*, used in the manufacture of such products, from points in Nassau, Suffolk, Westchester, Dutchess, Ulster, Sullivan, Rockland, and Orange Counties, NY, Philadelphia, PA, and points in PA within 15 miles of Philadelphia and Bridgeport, New Haven, and Waterbury, CT, to the facility of Phelps Dodge Copper Products Corp., at Bayway, NJ; (7) *merchandise*, such as is dealt in by persons engaged in the manufacture and sale of condiments and nonalcoholic and noncarbonated beverages, and in connection therewith, *materials, supplies,* and *equipment*, used in the conduct of such business (except commodities in bulk, in tank vehicles), between the facility of Allied Old English, Inc., at Newark, NJ, on the one hand, and, on the other, points in Nassau and Westchester Counties, NY, the points in the New York, NY, commercial zone, as defined by the Commission, and Philadelphia, PA; (8) *such merchandise* as is dealt in by wholesale and retail chain cigar and drug stores, and, in connection therewith, *equipment, materials,* and *supplies*, used in the conduct of such business, (a) between New York, NY, on the one hand, and, on the other, points in that part of NY on and north of a line beginning at Trenton, NJ, and extending along U.S. Hwy 206 (formerly portion NJ Hwy 37) to junction NJ Secondary Hwy 524 (formerly NJ Hwy 37), then along NJ Hwy 524 to junction NJ Secondary Hwy 539 (formerly NJ Hwy 37), then along NJ Secondary Hwy 539 to junction NJ Hwy 70 (formerly shown as NJ Hwy 37), then along NJ Hwy 70 to junction NJ Hwy 37, then along NJ Hwy 37 via Toms River, NJ, to the Atlantic Ocean, and (b) between New York, NY, and Nyack, NY. Restriction: The operations described in the two paragraphs next above are limited to a transportation service to be performed for persons who operate wholesale and retail chain cigar and drug stores, the business of which is the sale of the commodities dealt in by such stores for the transportation of the commodities indicated and in the manner specified. (9) *Aluminum products* and in connection therewith, *materials and supplies* used in the manufacture of such products (except commodities in bulk, in tank vehicles), (a) between the facilities of Phelps Dodge Copper Products Corp., Bayway, NJ, and the facility of the Phelps Dodge Copper Products Corp., at or near South Brunswick Township, Middlesex County, NJ, on the one hand, and, on the other, points in New York, NY, commercial zone, as defined by the Commission, and (b) from the facili-

ties of Phelps Dodge Copper Products Corp., Bayway, NJ, and the facility of the Phelps Dodge Copper Products Corp., at or near South Brunswick

ties of Phelps Dodge Copper Products Corp., Bayway, NJ, and the facility of the Phelps Dodge Copper Products Corp., at or near South Brunswick Township, Middlesex County, NJ, to points in Nassau, Suffolk, Westchester, Dutchess, Ulster, Sullivan, Rockland, and Orange Counties, NJ, Philadelphia, PA, and points in PA within 15 miles thereof, and Bridgeport, New Haven, and Waterbury, CT; (10) *salvaged, damaged, and returned shipments* of the above-described commodities, from the facilities of Phelps Dodge Copper Products Corp., points in Nassau, Suffolk, Westchester, Dutchess, Ulster, Sullivan, Rockland, and Orange Counties, NY, Philadelphia, PA, and points in PA within 15 miles thereof, and Bridgeport, New Haven, and Waterbury, CT, to Bayway, NJ, and the facility of the Phelps Dodge Copper Products Corp. at or near South Brunswick Township, Middlesex County, NJ; (11) *copper anodes, bars, billets, cathodes,* and *ingots,* from the facilities of Reading Metals Refining Corp., at Ontelaunee Township, PA, to points in the New York, NY, commercial zone, as defined by the Commission, and Middlesex and Union Counties, NJ; and (12) *scrap copper,* from points in the New York, NY, commercial zone, as defined by the commission, and Middlesex and Union Counties, NJ, to the facilities of Reading Metals Refining Corp., Ontelaunee Township, PA; (13) *copper* and *brass pipe,* and *copper* and *brass tubing,* from the facilities of Reading, PA, to points in Camden, Burlington, Ocean, Sussex, Hunterdon, Mercer, Monmouth, Middlesex, Morris, and Union Counties, NJ, and points in Nassau, Suffolk, and Westchester Counties, NY; (14) *returned shipments* of the above-specified commodities, from points in the above-described destination areas, to the facilities of Reading, PA; (15) *cable and wire,* from the facilities of Hatfield Wire & Cable Division of Continental Copper & Steel Industries, Inc., at Linden and Hillside, NJ, to New York, NY, and points in Westchester, Suffolk, and Nassau Counties, NY; and (16) *empty reels, returned, and salvaged cable or wire,* and *materials* and *supplies,* used in the manufacture of cable and wire (except in bulk), from New York, NY, and points in Westchester, Suffolk, and Nassau Counties, NY, to the facilities of Hatfield Wire & Cable Division of Continental Copper & Steel Industries, Inc., Linden and Hillside, NJ. Restriction: The foregoing authorities are restricted against joinder. (Hearing site: New York, NY, or Newark, NJ.)

NOTE.—The purpose of this application is to convert contract carrier permits to a certificate of public convenience and necessity, and is a directly related matter to section 5(2) finance proceeding docketed MC-F-13774F, published in a previous section of this FEDERAL REGISTER issue.

MOTOR CARRIER ALTERNATE ROUTE DEVIATIONS

The following letter-notices to operate over deviation routes for operating convenience only have been filed with the Commission under the Deviation Rules—Motor Carrier of Property (49 CFR 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Commission in the manner and form provided in such rules at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of this FEDERAL REGISTER notice.

Each applicant states that there will be no significant effect on either the quality of the human environment or energy policy and conservation.

MOTOR CARRIERS OF PROPERTY

MC 11220 (Deviation No. 35), (correction) GORDONS TRANSPORTS, INC., 185 West McLemore Avenue, P.O. Box 59, Memphis, TN 38101, filed August 23, 1978, and published in the FEDERAL REGISTER issue of September 7, 1978. Carrier proposes to operate as a *common carrier,* by motor vehicle, of: *General commodities,* with certain exceptions, over a deviation route as follows: From St. Louis, MO, over Interstate Hwy 55 to junction IL Hwy 121, then over IL Hwy 121 to junction Interstate Hwy 74, then over Interstate Hwy 74 to Peoria, IL, and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From St. Louis, MO, over U.S. Hwy 50 to Sandoval, IL, then over U.S. Hwy 51 to Bloomington, IL, then over U.S. Hwy 150 to Peoria, IL, and return over the same route. Restriction: Service authorized herein is restricted against the transportation of shipments originating at, destined to, or interlined with other carriers at St. Louis, MO, and points in the St. Louis, MO-East St. Louis, IL, commercial zone as defined by the Commission.

NOTE.—The purpose of this republication is to include restriction on service route which was inadvertently omitted.

MC 31389 (Deviation No. 10), McLEAN TRUCKING CO., 617 Waughtown Street, P.O. Box 213, Winston-Salem, NC 27102, filed September 27, 1978. Carrier proposes to operate as a *common carrier,* by motor vehicle, of: *General commodities,* with certain exceptions, over a deviation route as follows: From Carthage, TX, over TX Hwy 315 to Mount Enterprise, TX, then over U.S. Hwy 84 to Rusk, TX, then over U.S. Hwy 69 to junction TX Hwy 21, then over TX Hwy 21 via Crockett, Bryan, and Bastrop to junction Interstate Hwy 35, then over Interstate Hwy 35 to San Antonio, TX, and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Carthage, TX, over U.S. Hwy 59 to Houston, TX, then over U.S. Hwy 90 to San Antonio, TX, and return over the same route.

MC 59135 (Deviation No. 6), RED STAR EXPRESS LINES OF AUBURN, INC., d.b.a. RED STAR EXPRESS LINES, 24-50 Wright Avenue, Auburn, NY 13021, filed October 4, 1978. Carrier proposes to operate as a *common carrier,* by motor vehicle, of: *General commodities,* with certain exceptions, over a deviation route as follows: From Buffalo, NY over NY Hwy 130 to junction U.S. Hwy 20, then over U.S. Hwy 20 to junction NY Hwy 63, then over NY Hwy 63 to Dansville, NY, then over NY Hwy 36 to junction Interstate Hwy 390, then over Interstate Hwy 390 to junction NY Hwy 17, then over NY Hwy 17 to junction U.S. Hwy 15, then over U.S. Hwy 15 to junction Interstate Hwy 83, then over Interstate Hwy 83 to junction Interstate Hwy 695, then over Interstate Hwy 695 to Baltimore, MD and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Buffalo, NY over NY Hwy 5 to Dunkirk, NY, then over NY Hwy 60 to Jamestown, NY, then over NY Hwy 17 via East Randolph, West Salamanca, Olean, Wellsville, Andover, Painted Post, Horseheads, Big Flats, and Elmira, NY to Owego, NY, then over NY Hwy 17C to Binghamton, NY, then over NY Hwy 17 to the NY-NJ State line, then over NJ Hwy 17 to junction NJ Hwy 3 near Carlstadt, NJ, then over NJ Hwy 3 to junction U.S. Hwy 9, then over U.S. Hwy 9 to Jersey City, NJ, then across the Hudson River to New York, NY, then over U.S. Hwy 1 to Philadelphia, PA, then over U.S. Hwy 1 to Baltimore, MD and return over the same route.

MC 59135 (Deviation No. 7), RED STAR EXPRESS LINES OF AUBURN, INC., d.b.a. RED STAR EXPRESS LINES, 24-50 Wright Avenue, Auburn, NY 13021, filed October 4, 1978. Carrier proposes to operate as a *common carrier,* by motor vehicle, of: *General commodities,* with certain exceptions, over a deviation route as follows: From Rochester, NY over NY Hwy 15 to junction Interstate Hwy 83, then over Interstate Hwy 83 to junction Interstate Hwy 695, then over Interstate Hwy 695 to Baltimore MD, and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Rochester, NY over NY Hwy 31 to Pittsford, NY, then over NY Hwy 96 to junction NY Hwy 332, then over NY Hwy 332 to Canandaigua, NY, then over U.S. Hwy 20 to Auburn, NY, then over NY Hwy 5 to Syracuse, NY, then over U.S. Hwy 11 to Cortland, NY, then over U.S. Hwy 11 to Binghamton, NY, then over NY Hwy 17 to the NY-NJ State line, then over NJ Hwy 17 to junction NJ Hwy 3 near Carlstadt, NJ, then over NJ Hwy 3 to junction U.S. Hwy 9, then over U.S. Hwy 9 to Jersey City, NJ, then across the Hudson River to New York, NY, then over U.S. Hwy 1 to Philadelphia, PA, then over U.S. Hwy 1 to Baltimore, MD and return over the same route.

MC 112713 (Deviation No. 54), YELLOW FREIGHT SYSTEM, INC., P.O. Box 7270, 10990 Roe Avenue, Shawnee Mission, KS 66207, filed September 29, 1978. Carrier proposes to operate as a *common carrier,* by motor vehicle, of: *General commodities,* with certain exceptions, over a deviation route as follows: From Athens, AL over Interstate Hwy 65 to Nashville, TN and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Athens, AL over U.S. Hwy 72 to junction U.S. Hwy 41, then over U.S. Hwy 41 to Nashville, TN and return over the same route.

MOTOR CARRIER ALTERNATE ROUTE DEVIATIONS

The following letter-notices to operate over deviation routes for operating convenience only have been filed with the Commission under the Deviation Rules—Motor Carrier of Passengers (49 CFR 1042.2(c)(9)).

Protests against the use of any proposed deviation route herein described may be filed with the Commission in the manner and form provided in such rules at any time, but will note operate to stay commencement of the proposed operations unless filed within 30 days from the date of this FEDERAL REGISTER notice.

Each applicant states that there wil be no significant effect on either the quality of the human environment or energy policy and conservation.

MOTOR CARRIERS OF PASSENGERS

INTERSTATE COMMERCE COMMISSION

[Ex Parte 241; Exemption No. 153]

EXEMPTION UNDER PROVISION OF MANDATORY CAR SERVICE RULES

To all railroads:

It appearing, That the railroad named below owns numerous open hopper cars; that under present conditions there are surpluses of these cars on its lines; that return of these cars to the owner would result in their being stored idle; that such cars can be used by other carriers for transporting traffic offered for shipments to points remote from the car owner; and that compliance with Car Service Rules 1 and 2 prevents such use of these cars, resulting in unnecessary loss of utilization of such cars.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, open hopper cars, described in the Official Railway Equipment Register, I.C.C.-R.E.R. No. 408, issued by W. J. Trezise, or successive issues thereof, as having mechanical designation "HM" or "HT", and which bear the reporting marks listed below, may be used without regard to the requirements of Car Service Rules 1 and 2.

Upper Merion and Plymouth Railroad Co. Reporting Marks: UMP.

Effective October 6, 1978, and continuing in effect until further order of this Commission.

Issued at Washington, D.C., October 5, 1978

FOURTH SECTION APPLICATIONS FOR RELIEF

OCTOBER 23, 1978.

These applications for long-and-short-haul relief have been filed with the ICC.

Protests are due at the ICC within 15 days from the date of publication of this notice.

FSA 43614, Traffic Executive Association-Eastern Railroads, Agent's No. E.R. 3075, rates on newsprint paper, from Trois Rivieres, Quebec, Canada, to Lake Worth and West Palm Beach, Fla., in Supp. 3 to Canadian Freight Association Tariff 760-A, ICC 489, to become effective November 25, 1978. Grounds for relief—water competition.

FSA 43615, Southwestern Freight Bureau, Agent's No. B-773, rates on newsprint paper and kindred or related articles, from Canadian stations to Southwestern Territory, in Supp. 80 to its Tariff 281-J, ICC 5231, to become effective November 7, 1978. Grounds for relief—market competition.

[Ex Parte No. MC-43]

LEASE AND INTERCHANGE OF VEHICLES BY MOTOR CARRIER

Decision

OCTOBER 13, 1978.

Weather Shield Transportation, Ltd., (MC-141318), lessor, has filed an application for approval of contract carrier rental contract No. 4-8014 with Weather Shield Manufacturing, Inc. of Medford, Wis., lessee, under paragraph (b) of Part 1057.6 of the Lease and Interchange of Vehicles Regulations (49 CFR 1057).

Findings:

1. The agreement does not require the lessee to assume exclusive possession of the equipment during the term of the lease.

2. The rental rate for the equipment is not competitive.

3. The lessee is not assuming the characteristic burdens of the transportation industry.

It is ordered: 1. The applicant's request for approval of the contract carrier rental contract No. 4-8014 is denied.

By the Commission, Motor Carrier Leasing Board, Board Members Joel E. Burns, Robert S. Turkington, and W. F. Sibbald, Jr.

H. G. HOMME, Jr.,
Acting Secretary.

[Notice No. 121]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer applications filed under sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include a request for oral hearing, must be filed with

the Commission within 30 days after the date of this publication. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopses form, but are deemed sufficient to place interested persons on notice of the proposed transfer.

MC-FC-77816, filed October 20, 1978. Transferee: CARTERHOUSE, INC., 129 Douglas Drive, South Meriden, CT 06450. Transferor: ESTELLE F. PALMER, Executrix of the Estate of Edward F. Palmer, d.b.a. PALMER BROTHERS, 153 Main Street, Ansonia, CT 06401. Authority sought for purchase by transferee of operating rights of transferor as set forth in Certificate MC 22834 issued June 19, 1975, as follows: *Household goods* between points in CT, NY, MA, NJ, PA, RI, VT, NH, and ME; and *machinery* between Seymour and Ansonia, CT, on the one hand, and, on the other, Hope Valley and Woonsocket, RI, and points in a specified part of NY. Transferee presently holds no authority from this Commission. Application for temporary authority under section 210a(b) has not been filed.

MC-FC-77865, filed October 3, 1978. Transferee: ANTHONY D. FIAMINGO, d.b.a. FIAMINGO MOVING & STORAGE CO., R. D. No. 3, Box 678, Mansfield, PA 16933. Transferor: JOHN F. MURPHY, d.b.a. MURPHY TRUCKING CO., 33 Davenport Street, Hornell, NY 14843. Representative: Thomas F. X. Foley, Esq., State Hwy 34, Colts Neck, NJ 07722. Authority sought for purchase by transferee of operating rights of transferor as set forth in Certificate MC 35212 issued January 16, 1958, as follows: *Household goods.* between Hornell, NY, and points within 25 miles thereof on the one hand, and, on the other, points in New York; between Hornell, NY, and points within 50 miles thereof on the one hand, and, on the other, New York, NY, and points in AL, CT, DE, FL, GA, IL, IN, KY, ME, MD, MA, MI, MS, NH, NJ, NC, OH, PA, RI, SC, TN, VT, VA, WV, and DC. Transferee presently holds authority in MC 126900 issued February 19, 1974. Temporary authority under section 210a(b) was granted October 12, 1978.

MC-FC-77883, filed September 26, 1978. Transferee: SILVER FLEET EXPRESS, INC., 4521 Rutledge Pike, Knoxville, TN 37914. Transferor: SKYLINE TRANSPORTATION, INC., P.O. Box 3569, 131 Quincy Avenue, Knoxville, TN 37917. Representative: Blaine Buchanan, 1024 James Building, Chattanooga, TN 37402. Authority sought for acquisition by transferee, of a portion of the rights of transferor, as set forth in certificates MC 99208 (Sub Nos. 4, 10, 11, and 13), Issued April 30, 1969, October 9, 1975, July 8, 1975, and April 29, 1977, as follows: *General commodities* (with exceptions), over regular routes, between Knoxville and Maryville, TN, serving all intermediate points: From Knoxville over U.S. Hwy 129 to Maryville, and return over the same route; *General commodities* (with exceptions), over regular routes, between Knoxville, TN, and New Orleans, LA, serving no intermediate points: From Knoxville over U.S. Hwy 11 to New Orleans and return over the same route. *General commodities* (with exceptions), between Knoxville, TN, and Cincinnati, OH, serving no intermediate points: From Knoxville over TN Hwy 33 to junction U.S. Hwy 25-E at or near Tazewell, TN, then over U.S. Hwy 25-E to junction U.S. Hwy 25, then over 25 to access road and junction Interstate Hwy 75 at or near Corbin, KY, then over Interstate Hwy 75 to Cincinnati, and return over the same route. Transferee presently holds no authority from this Commission and application has not been filed for temporary authority under section 210a(b).

H. G. HOMME, Jr.,
Acting Secretary.

[I.C.C. Order No. P-12]

PASSENGER TRAIN OPERATION

Decision

OCTOBER 3, 1978.

To: St. Louis Southwestern Railway Co.

The National Railroad Passenger Corp. (Amtrak) has established through passenger train service between Chicago, Ill., and Laredo, Tex. The operation of these trains requires the use of the tracks and other facilities of the Missouri Pacific Railroad Co. (MP) between St. Louis, Mo., and Laredo. A portion of these MP tracks between Knobel, Ark, and Corning, Ark., are temporarily out of service because of a derailment. An alternate route is available between these points via the lines of the St. Louis-San Francisco Railway Co. between Hoxie, Ark., and Jonesboro, Ark., thence via the St. Louis Southwestern between Jonesboro and Illmo, Mo., thence via the Missouri Pacific Railroad between Illmo and St. Louis, Mo. The use of such alternate route is necessary in the interest of the public and the commerce of the people; that notice and public procedure herein are impracticable and contrary to the public interest; and that good cause exists for making this order effective upon less than 30 days' notice.

It is ordered, (a) Pursuant to the authority vested in me by order of the Commission served December 10, 1976, and of the authority vested in the Commission by section 402(c) of the Rail Passenger Service Act of 1970 (45 U.S.C. 562 (c)), the St. Louis Southwestern Railway Co. be, and it is hereby directed to permit the use of its tracks and facilities for the movement of trains of the National Railroad Passenger Corp. between a connection with the St. Louis-San Francisco Railway at Jonesboro, Ark., and a connection with the Missouri Pacific at Illmo, Mo.

(b) In executing the provisions of this order, the common carriers involved shall proceed even though no agreements or arrangements now exist between them with reference to the compensation terms and conditions applicable to said transportation. The compensation terms and conditions shall be, during the time this order remains in force, those which are voluntarily agreed upon by and between said carriers; or upon failure of the carriers to agree, the compensation terms and conditions shall be as hereafter fixed by the Commission upon petition of any or all of the said carriers in accordance with pertinent authority conferred upon it by the Interstate Commerce Act and by the Rail Passenger Service Act of 1970, as amended.

(c) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign traffic.

(d) *Effective date.* This order shall become effective at 1 p.m., c.d.t., October 3, 1978.

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., c.d.t., October 5, 1978, unless otherwise modified, changed, or suspended by order of this Commission.

This order shall be served upon the St. Louis Southwestern Railway Co. and upon the National Railroad Passenger Corp., and a copy of this order shall be filed with the Director, Office of the Federal Register.

INTERSTATE COMMERCE COMMISSION
ROBERT S. TURKINGTON,
Agent.

[7035-01-M]

[No. MC-134287 (Sub-No. 1)]

BELLEVUE TRUCKING CO.

Extension—Gateway Elimination (Warren, OH); Decision on Reconsideration

Decided: October 11, 1978.

This proceeding was reopened for further consideration on the present record in a decision of the Commission entered March 6, 1978. The reopening was subject to the approval of the U.S. Court of Appeals for the Sixth Circuit.

In an application filed June 6, 1975, Bellevue seeks a certificate of public convenience and necessity authorizing it to transport: (1) Machines, and (2) commodities the transportation of which, because of size or weight, require the use of special equipment (except boats) between points in New Jersey, New York, and Pennsylvania, within 200 miles of Newark, NJ, on the one hand, and, on the other, points in Connecticut, Rhode Island, Massachusetts, Delaware, and Maryland, within 200 miles of Newark, NJ, restricted against the transportation of traffic moving to or from the plantsite of the Elliott Co., Division of Carrier Corp., at Jeanette, PA.

The proceeding was handled under the modified procedure. Two protestants, Jetco, Inc., and Dallas and Mavis Forwarding Co., Inc., filed statements in opposition.

Review Board No. 1 granted authority as to specified commodities, from and to specified points. The proceeding later become administratively final and applicant instituted judicial proceedings before the Sixth Circuit Court of Appeals.

It is our intent, by reopening this case, to apply the standards set forth in *Groendyke Transport, Inc. Extension—Gateway Elimination,* 126 M.C.C. 571, 574-575 (1977).

This request for gateway elimination is somewhat novel in that applicant did not immediately file an application pursuant to the gateway elimination rules set forth at 49 CFR 1065. Apparently, unfortunate advice from counsel caused applicant to forego filing before the June 1974 deadline. Applicant has continued providing services pursuant to the 300-mile exemption contained in those rules. It now wishes to eliminate the gateways it must observe under the exemption.

PROCEDURAL MATTERS

Applicant has argued that, at a minimum, it should receive relief from the timely filing requirements in 49 CFR Part 1065 to the extent letter-notice authority would have been granted if it had made an earlier proper filing. As we have stated on prior occasions, the trucking industry was well aware of the adoption of the gateway elimination rules and a large number of carriers applied for, and received, both "G" and letter-notice authority. While relief has been granted in some cases by the courts where applicants did not have enough time to complete properly their presentation or where tardy filings were made, such is not the case here. Applicant waited a full year to make a filing and is properly foreclosed from pursuing letter-notice authority.

Applicant has also objected to the prior refusal of the Commission to consider its late-filed (by 2 days) petition for reconsideration, dated October 26, 1976. It should be noted that applicant received an extension of time for filing verified statements on November 19, 1975. A second extension was received on December 23, 1975. An extension of time was granted on February 26, 1976, for applicant's filing of a rebuttal statement. Division 1, in an order dated April 8, 1976, reopened the proceeding to allow acceptance of a late-filed verified statement. Applicant then received an extension of time to file its petition for reconsideration (originally due September 24, 1976,

the time was extended to October 26, 1976). Applicant's counsel requested the last extension due to press of work in other cases.

In its petition seeking a finding that an issue of general transportation importance was involved, applicant labeled the rejection of the petition for reconsideration as arbitrary and capricious. Applicant and its counsel have received numerous extensions from the Commission, one, in fact, after an original request had been denied (docket entry 24). Applicant has been treated with fairness in the procedural handling of this case. The petition at issue was dated and signed on the due date at Columbus, OH. Applicant and its counsel should be admonished for their persistent disregard of Commission filing deadlines. There is simply no equitable ground on which to allow this pleading into the case, and the earlier decisions to reject the petition were proper.

With these procedural matters ruled upon, we now proceed to the substantive merits of the case.

APPLICANT'S EVIDENCE

Applicant's traffic evidence is contained in its exhibits 10 through 13. Exhibit 10 covers 120 days selected from the period December 1973 through November 1974. Exhibit 11 covers 3 miscellaneous weeks during 1974. Exhibit 12 selects shipments from a 2-week period during 3 named months. Exhibit 13 duplicates some time periods previously covered, but includes 6 months during 1973 and 8 months during 1974. Because of this manner of random selection, it is difficult to get a precise reading of the actual time covered by the abstracts, but they cover about a one year period.

There are several errors in the abstracts. Six shipments listed in exhibit 10 (B161005, B5-1010, B5-1011, B5-1009, B5-1002, and 2601) are also listed in exhibit 13. They have been counted only once. Other shipments, such as Pro No. 2211 of exhibit 10, are not relevant.

The following numbers of shipments were transported between the described pairs of States below:

New Jersey—Connecticut 29;
New Jersey—Rhode Island 3;
New Jersey—Massachusetts 8;
New Jersey—Delaware 5;
New Jersey—Maryland 24;
New York—Connecticut 0;
New York—Rhode Island 0;
New York—Massachusetts 1;
New York—Delaware 1;
New York—Maryland 6;
Pennsylvania—Connecticut 5;
Pennsylvania—Rhode Island 1;
Pennsylvania—Massachusetts 8;
Pennsylvania—Delaware 15;
Pennsylvania—Maryland 23;

Applicant's rebuttal statement of March 10, 1976, contains a summary of the varied points served in each of the involved States. It has handled a wide range of size and weight commodities and machinery between these points.

The most pertinent supporting shipper evidence for applicant has been set forth in appendix A to this decision.

PROTESTANTS' EVIDENCE

Jetco holds authority to transport size and weight commodities between points in New Jersey, New York, and Pennsylvania, on the one hand, and, on the other, points in Delaware and Maryland. It also participates in joint-line service between points in New Jersey, New York, and Pennsylvania, on the one hand, and, on the other, points in Connecticut, Rhode Island, and Massachusetts. Its traffic abstracts cover portions of the involved States which are commensurate with applicant's request for authority within 200 miles of Newark, NJ. While Jetco does not indicate the exact carriers with which it offers a joint-line service, the evidence of these operations is so substantial that we believe they should be given substantial weight. Jetco also includes several freight bills for services rendered to a supporting shipper, but these services were not of a substantial nature. This service will be discussed in more detail below.

The 36-page exhibit of traffic submitted by Jetco contains about 461 shipments transported over about a 13-month period, which roughly corresponds in length to the time period covered in applicant's exhibits. Although differences in the actual scope of time differ to a partial extent, there is not such a deviation that we cannot make a meaningful comparative analysis. A small portion of the shipments handled by Jetco involve multiple loads. In a few cases, multiple destinations are listed, occasionally covering different States. To achieve consistency, where multiple loads were transported under one Pro No., it was counted as one shipment. Where multiple drop-offs were made to the same State, this was counted as one shipment. Only where drop-offs were made to points in different States was credit given for multiple shipments. This tabulation device has no effect on the ultimate decision.

Jetco contends there are freight bills at branch offices which would substantiate additional shipments, but inasmuch as these have not been presented, we cannot given them weight. The following numbers of shipments were made between pairs of States:

New Jersey—Connecticut 0;
New Jersey—Rhode Island 0;
New Jersey—Massachusetts 0;
New Jersey—Delaware 9;
New Jersey—Maryland 223;
New York—Connecticut 0;
New York—Rhode Island 0;
New York—Massachusetts 0;
New York—Delaware 2;
New York—Maryland 46;
Pennsylvania—Connecticut 11;
Pennsylvania—Rhode Island 0;
Pennsylvania—Massachusetts 2;
Pennsylvania—Delaware 87;
Pennsylvania—Maryland 79;

In the States where large concentrations of shipments exist, a predominance of shipments involved only a small number of points:

Baltimore, MD—Randolph, NJ 211;
Baltimore, MD—Coatesville, PA 39;
Coatesville, PA—Glasgow, DE 61;
Coatesville, PA—Middletown, DE 11;

Other traffic patterns that appear with some regularity as, for example, between Baltimore, MD, and various New York, New Jersey and Pennsylvania points, do not appear with as much frequency. It is plain that protestant's main traffic lanes involve traffic between the above-described pairs of points.

Protestant Dallas and Mavis holds authority to transport heavy machinery, structural steel, contractors' equipment, and size and weight commodities, between points in Connecticut, Massachusetts, Rhode Island, New York and New Jersey. Its specific interest involves the transportation of machines and commodities the transportation of which because of size or weight require the use of special equipment, between points in New York, on the one hand, and, on the other, points in Connecticut and Massachusetts (all within 200 miles of Newark). Its appendix C represents relevant shipments during the last quarter of 1975. It states that this list covers 77 percent of the possible shipments, and accounts for about $16,686 in revenue.

Protestant's appendix C lists 63 shipments. Of these, 34 were between New York and Connecticut points, and 29 between New York and Massachusetts points. New York points include Albany, Troy, Maybrook, Garden City, Sidney, Chester, and Farmingdale. Connecticut points include East Granby, Hartford, Southington, East Hartford, Bristol, Wallingford, New Haven, Danbury, and Newington. Massachusetts points include Somerville, Andover, Pittsfield, North Billerica, Newburyport, Charlestown, Agawam, Roxbury, and Haverhill.

ANALYSIS OF THE TRAFFIC EVIDENCE UNDER THE "GROENDYKE" CRITERIA

With these traffic figures outlined we can proceed to an analysis of the relative competitive positions of applicant and protestants, using the factors outlined in *Groendyke.*

In a proceeding to eliminate a gateway under the special rules promulgated in 49 CFR 1065, an applicant must establish (1) that it is transporting a

other commodities. Compare *C & H Transp. Co., Inc.—Pur.—Gulf Southwestern Transp.,* 90 MCC 636, 640-641 (1962). Therefore, we are more in-

proceeding, favor the case of applicant. The tacking of the involved authorities, and the resultant gateway operations appear to have been a nat-

transported any traffic between points, it has no claim to having been a carrier of substantial traffic. Applicant has an affirmative obligation to

portant to Jetco. Given applicant's lack of participation to any significant extent there, no award of authority should be forthcoming between the

restatement of the most pertinent shipper evidence is set forth in the appendix to this decision.

The review board in its August 18

V 4 3 1 2 0 8

In a proceeding to eliminate a gateway under the special rules promulgated in 49 CFR 1065, an applicant must establish (1) that it is transporting a substantial volume of traffic from and to the points involved by operating in good faith through the gateway and, in so operating, is effectively and efficiently competing with the existing carriers, and (2) that the elimination of the gateway would not enable it to institute a new service, or a service so different from that presently provided as materially to improve its competitive position to the detriment of existing carriers.

A threshold question in any gateway elimination proceeding is whether the applicant has transported a substantial volume of traffic through the pertinent gateway. There is no mechanical test to determine this, see *Groendyke, supra*, at p. 575. Substantial participation in traffic is a relative test, and an applicant's participation must be evaluated in light of the circumstances surrounding each particular case. For example, in the past, we have considered the nature of the authority held by applicant, the type of commodities involved, the breadth and character of the points or territories served, the volumes transported by applicant in comparison to those transported by protestant, and the relative sizes of applicant and protestants.

The *Groendyke* test is a relative one. That means that a variety of factors must be weighed against each other. Generally, no one factor will be determinative of the issue of substantial traffic or effective competitiveness, although one or a few factors may stand out as especially significant. Our initial task will be to outline the most salient facts under each of the *Groendyke* criteria, and then evaluate their weight in the context of the proceeding.

NATURE OF THE AUTHORITY HELD BY APPLICANT

Applicant contends that service has historically been provided. While we have no evidence before us to assess historical operations, it is clear from the two separate underlying authorities that they are complementary in nature, having Newark as a common service point, with a 200-mile radius extending outward to the north and south from each separate authority. Tacking operations through the Newark gateway are clearly a logical and central part of Bellevue's certificated operations.

TYPE OF COMMODITIES INVOLVED

It has long been recognized within the trucking industry that size and weight commodities and machinery are not handled with the same repeat patterns and volume of shipments as other commodities. Compare *C & H Transp. Co., Inc.—Pur.—Gulf Southwestern Transp.*, 90 MCC 636, 640-641 (1962). Therefore, we are more inclined to accept as "substantial traffic" evidence of a somewhat sparser nature than we would, for example, if general commodities, or foodstuffs, or a similar classification were involved.

The fact that applicant is a specialized carrier aids its case. Obviously, all three carriers transport the same infrequently shipped commodities. But where an applicant has handled comparatively fewer shipments, it can rightfully argue several things. It can contend that within a limited time period covered by a traffic abstract, by chance, a small amount of the infrequently moving commodities was shipped. Or, there is the consideration that, unlike general commodities carriers, there are fewer carriers with the expertise or equipment to transport the size and weight commodities, and the demand for its services, however small, is a very real demand. Shippers simply do not have another means of transportation available to them. In the present situation, we are inclined to find that a smaller number of shipments represents a service needed by the public, given the specialized nature of the commodities shipped.

BREADTH AND CHARACTER OF THE TERRITORIES SERVED

The involved request for authority is relatively modest in size, although it does cover an area of one of the most heavily industrialized and populated sections of the United States. However, within the defined territory, several large industrial cities, such as Pittsburgh, PA, and Buffalo, NY, are not covered under the 200-mile radius. We do not find that the breadth and scope of the points to be served is either narrow, or excessively large, all things considered. Given these facts, this factor has a neutral effect in our overall test for substantial traffic.

SIZES OF THE PARTIES

Bellevue is a small carrier. During 1974, the last full year prior to the application, and roughly the time period within which it must prove its status as a substantial competitor over the Newark gateway, it generated total operating revenues of $516,628. It estimates that about 33 percent of its gross revenue comes from observance of its gateway operation. Jetco's operating revenue for the same period was about $1.7 million, roughly three times that of applicant. Dallas and Mavis was about $31 million, and about 60 times that of applicant's.

EVALUATION OF THESE FACTORS

A number of the factors, when analyzed under the factual context of this proceeding, favor the case of applicant. The tacking of the involved authorities, and the resultant gateway operations, appear to have been a natural outgrowth of the structure of its certificated operations. A substantial portion of its revenues came from tacking operations. The nature of the commodities are such that we would be more inclined to "give the benefit of the doubt" to an applicant, given the infrquent nature of this traffic. Finally, the relative sizes of the parties is important, since applicant's smaller size means that it need not present traffic evidence equal in size to protestants to make a case that it an effective competitor.

SYNTHESIS

At this step in our analysis, we have before us the traffic and evidentiary submissions by the parties, and have discussed the more significant facts of the case under the *Groendyke* case. The final step is to synthesize all this material. The comparison of traffic data will be performed first, discussing each protestant's interests separately. Any relevant shipper evidence will be discussed following this.

The most important fact in this case relating to Jetco's interests is that Jetco's traffic is concentrated in a few, narrowly defined areas, involving points which have not been served by applicant with any particularity (these are Baltimore and Randolph, Baltimore and Coatesville, Coatesville and Glascow, Coatesville and Middletown). Applicant will not receive any authority to serve those points, since it has not been a competitive factor between them. This denial of authority is warranted despite the other factors which have been cited in applicant's favor. Within the narrow traffic lanes described in this paragraph, applicant's small size, etc., will not overcome the massive traffic evidence of Jetco.

Another very important fact is the absence of traffic data between certain States, on the part of both applicant and Jetco. In these situations, *Groendyke* criteria are not examined. *Groendyke* is an aid in evaluating relative submittals. But a complete lack of participation does not put a party into even a relative position. Where a protestant has not transported any traffic between points in pairs of States, it has no competitive posture to protect. The only conclusion we can reach in those cases is that applicant, even if submitting evidence of only one shipment, is handling any existing shipper demand for service and its participation is substantial in comparison to Jetco. See *Incorporated Carriers, Ltd.—Gateway Elimination*, 128 MCC 810, 815 (1978). There were six pairings of States where this was true. However, where applicant has not transported any traffic between points, it has no claim to having been a carrier of substantial traffic. Applicant has an affirmative obligation to meet its burden of proof, coming forward with traffic data which would support its claim that it had operated over the involved gateways. No traffic evidence was submitted for the State pairs of New York-Connecticut and New York-Rhode Island.

Applicant, having transported some traffic between New Jersey and the States of Connecticut, Rhode Island, and Massachusetts, in contrast to Jetco's lack of participation, has met its burden of proof as to this protestant. The traffic carried by both parties between New Jersey and Delaware is roughly similar, and applicant has also met its burden with regard to that pair of States. Jetco had a large number of shipments between New Jersey and Maryland, but almost all were between Baltimore and Randolph. Except between those two points, applicant has been an effective competitor, and authority will be granted to that extent.

Applicant has submitted no traffic data for services between New York, on the one hand, and, on the other, points in Connecticut or Rhode Island. Additional analysis of the shipper evidence below will be required. The small number of shipments carried by both parties between New York and Delaware establishes a competitive relationship, and authority will be granted to applicant there. New York-Massachusetts will be discussed below in relation to Dallas and Mavis' opposition.

The relevance of the *Groendyke* criteria is most apparent between New York and Maryland. There, Jetco transported 46 shipments, to applicant's 6. Despite this seeming disparity, we find that applicant has been an effective competitor, and a grant of authority is warranted. We first note that both parties served a variety of points in both States. But considering applicant's small size, the importance of gateway operations to its overall operational structure, and the nature of the commodities, the 46 to 6 ratio is not one-sided.

Both parties transported a small number of shipments between Pennsylvania and Connecticut. Applicant provided the only evidence of a Pennsylvania-Rhode Island shipment. In these cases, a grant is warranted, given the relatively equal traffic in the former case, and the lack of Jetco traffic between the latter set of points.

Almost all the Jetco Pennsylvania-Delaware traffic was between three points while a large portion of its Pennsylvania-Maryland traffic was between specific points. As discussed, these well-defined traffic lanes are important to Jetco. Given applicant's lack of participation to any significant extent there, no award of authority should be forthcoming between the specific points. The grant of authority in the appendix will reflect these analyses.

Applicant's traffic submittals must also be examined in light of Dallas and Mavis' opposition. The relevant State pairs to which Dallas and Mavis has an interest are New York-Massachusetts, and New York-Connecticut. Applicant offered no evidence of a New York-Connecticut movement, and only one New York-Massachusetts movement. Dallas and Mavis transported a significant amount of traffic between varied points in these two States. The traffic exhibit of Dallas and Mavis suggests a continuing and varied pattern of traffic between points in these States. The *Groendyke* critera are helpful guides in evaluating relative relationships, but they cannot be used to bootstrap applicant's position where it has offered so little traffic evidence. No grant of authority is warranted between these two pairs of States based upon the examination of the traffic evidence alone.

Part (1) of the grant of authority in the appendix reflects our examination of the traffic evidence submitted by the parties. Applicant's case rests largely on its traffic evidence. The supporting shipper evidence is not important to most of the application, for the traffic evidence clearly indicates those points between which applicant was an effecitve competitor. But the shipper evidence is important as to those portions of the application which were not supported by substantial evidence.

The supporting shipper evidence will be viewed in two ways. First, we will attempt to establish to what extent these shippers relied upon applicant's past operations through its gateways. However, we are not tied to rigid classifications of theories under which an application is prosecuted. While this is essentially a gateway elimination proceeding, the public convenience and necessity standard requires that we look at the need for transportation service to the public apart from the theory of gateway elimination. Our second examinaion, then, will proceed upon the basis used in conventional OP-OR-9 applications.

The shipper evidence is imprecise as to the extent applicant's services were used under its gateway operations. Shippers merely state that applicant had been used. This is not sufficient to justify a grant of authority under a gateway elimination theory.

However, a grant of authority is warranted when examining the shipper evidence in light of traditional public convenience and necessity criteria. A restatement of the most pertinent shipper evidence is set forth in the appendix to this decision.

The review board, in its August 18, 1976, order, stated that the supporting firms have an existing need for some service. The review board then went on to note that protestants held some authority commensurate with these service needs. To the extent they were authorized to perform service, the grant of authority was reduced. The review board used the criterion that existing carriers normally should be affored the opportunity to transport all the traffic which they can handle economically and efficiently within their authorized territories before a new service will be allowed.

The latter statement has since been discredited as an oversimplification of the test first enunciated in *Pan American Bus Lines Operation*, 1 MCC 190 (1936), i.e., whether there is a public need for the proposed serivce, whether that need can and will be met by existing carriers, and whether the new operation proposed by applicant will impair the operations of existing carriers in a manner contrary to the public interest.

A major consideration is whether the advantages to those of the public using the proposed service outweigh the disadvantages, real or potential, to existing carriers that may result. *All American Bus Lines Inc., Common Carrier Application*, 18 MCC 755, 776-777 (1939). This balancing of benefits to the public against harm to existing motor carrier service was deemed to embody the concept of public convenience and necessity in the Supreme Court's decision in *Bowman Transp.* v. *Arkansas-Best Freight System*, 419 U.S. 481, 293, 298 (1974). It is not sufficient to determine only if existing service is adequate and to deny the application if it is, or to deny an application based solely on the protestants' general assertions that they can provide the proposed service. See *United States* v. *Dixie Express*, 389 U.S. 409 (1967). The benefit to the public of the availability of an application's service must be weighed against the real or potential adverse effect on existing carriers and the repercussions this may have on their service to the public.

With these factors in mind, we can evaluate the shipper related evidence. Dallas and Mavis states that Eastalco's traffic is not relevant to its interests. It does not mention whether it has ever handled the traffic of the remaining two shippers, and it is proper to infer that it has not.

Jetco states that it is eager to participate in services for Eastalco. It can make equipment available on very short notice. Eastlco has been solicited for over a year. Jetco submits copies of 10 billings reflecting traffic it has han-

OCT 26 1978

V 43/208 OC 26 78

dled for this shipper. These show that shipments were transported to several locations during the latter part of January 1976. Jetco contends that it can provide service for Ametalco and Sumitomo at various origins, but it has not transported any traffic for these shippers within the scope of the application.

A careful weighing of the advantages which will accrue to the public, versus the real or potential adverse effects on existing carriers convinces us that the application should be granted to enable applicant to provide direct service for the three supporting shippers. Applicant has served these shippers in the past. The record is unclear as to the exact extent of this service, but the shippers have been happy with it. Applicant holds existing authority to serve these shippers within the confines of the 300-mile-tacking exemption, but a continuation of service under this exemption would not be in the public interest, since a more efficient, direct service would be available under the grant of authority. It is apparent that protestants cannot provide a wholly satisfactory service. Neither protestant can provide more than a portion of the service, since their authorizations to provide service are limited territorially. Two of the shippers stated a need for a carrier with broad service authorizations, since customer locations change.

We doubt that the protesting carriers will suffer adverse effects from the introduction of these direct services. Within the scope of this application, there is evidence of only one carrier, Jetco, having provided service previously to the shippers. That service had only recently been instituted, and obviously was not fo a magnitude or duration such that Jetco's operations or financial well-being were intimately tied to it. In fact, the public should benefit from the increased competition. This case involves commodities where transportation requires specialized equipment and trained personnel. When a shipper needs expeditious service, as has been stated here, on the whole it is more difficult to obtain where specialized equipment is involved. Surveying these factors, it is clear that a grant will result in advantages to the public in the form of a more efficient, direct service. There will be no discernible adverse effect on existing carriers, and a grant will introduce a more efficient service into a specialized area of transportation.

The grant of authority commensurate with the evidence submitted by the three supporting shippers is set forth at parts (2) through (4) of the grant of authority in the appendix.

Since the grants of authority in parts (2) through (4) exceed the 200-mile-radius limitation to some extent it is possible that other parties, who have relied upon notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority granted. A notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from date of such publication, during which period any party in interest may file an appropriate protest or other pleadings in opposition to parts (2) through (4) to the extent the grant exceeds the 200-mile radius of Newark, NJ.

To a partial extent, the grants of authority in parts (1) through (5) are duplicative. Clarity requires that these duplications be retained. We will add the usual nonduplicating language in the grants of authority so that only a single operating right is conferred.

The grant of authority originating from the gateway eliminations is phrased in the form of a mileage radius, owing to the form of the underlying authorities. Normally we do not employ such descriptions, but we are bound here by the joining of the previously issued certificates.

One additional point requires motion. Applicant performed tacking operations under the 300-mile exemption. It would not have been possible for it to serve, by tacking, all destinations from all origins using these authorities. For example, a destination near the 200-mile-radius line could not have been served from an origin near the 200-mile-radius line, since the movement would have been over 300 miles. However, it is clear that the entire territory could be served, and a substantial portion of the territory could be served from any one origin point. It would be logically impossible to frame a grant of authority completely within the 300-mile-exemption rule since an infinite number of combinations would exist as to lawful operations. The best course under these circumstances is to treat the application as requested, seeking radial authority within 200 miles of Newark, between the two sets of States.

FINDINGS

On reconsideration, we find that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, performing the service described in the appendix. Applicant is fit, willing, and able properly to perform the granted service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. An appropriate certificate should be granted. This decision will not significantly affect the quality of the human environment.

It is ordered: The prior orders in this case, to the extent they are inconsistent with this decision, are vacated and set aside.

Unless compliance is made by applicant with the requirements of sections 215, 217, and 221(c) of the Interstate Commerce Act and with the Commission's rules and regulations within 90 days after the service date of this decision, or within such additional time as may be authorized by the Commission, the grant of authority made in this decision will be void, and the application will stand denied.

By the Commission. Chairman O'Neal, Vice Chairman Christian, Commissioners Brown, Stafford, Gresham and Clapp. Commissioner Stafford concurring in the result.

H. G. HOMME, Jr.,
Acting Secretary.

APPENDIX A

SHIPPER EVIDENCE

Eastalco Aluminum Co. operates a plant at or near Buckeyestown, MD. This aluminum reduction facility manufacturers T-ingots, slabs and billets. These, in turm, are shipped to mills and extrusion plants for further processing. Customers do not maintain large inventories, and expedited delivery is required. Fast delivery is also required because of competition with other companies. It gives post shipping points within the three destination States of NY, PA, and NJ, but points out that destinations vary quite often. Applicant has been used in the past with success.

Sumitomo Shoji America, Inc., is a Japanese trading company which imports steel, importing 100 to 1,000 tons at a time, from the ports of Philadelphia, PA, and New York, NY. Up to 40,000 tons are imported annually. It has shipped in the past to locations in CT and in MA. It is soliciting business in RI. Shipper cites the need for broad territorial authority, since customer locations change. It must have substantial amounts of flatbed equipment, because once the commodities are taken from the ocean vessel, Sumitomo has only 7 days to remove the commodities from the dock. It usually requires 1 to 3 days to load the trucks, so fast service is required. Applicant has been used with satisfaction in the past.

Ametalco, Inc., ships copper from Carteret, NJ, and Queens, NY, to named destinations in CT, MA, and RI at the rate of 2,700 tons annually. Lead and zinc are imported using ocean vessels which dock at Wilmington, DE, and Philadelphia. The lead and zinc go to CT points, while lead is shipped to PA. It has used applicant's services in the past.

APPENDIX B

SERVICES AUTHORIZED

(1)(a) Machines, and (b) commodities the transportation of which, because of size or weight, require the use of special equipment (except boats) between points in NJ, NY, and PA, on the one hand, and, on the other, points in CT, RI, MA, DE, and MD.

(2) Aluminum ingots, slabs, and billets, from the facilities of Eastalco Aluminum Co., at or near Buckeystown, MD, to points in PA, NY and NJ.

(3) Steel, from Philadelphia, PA, and New York, NY, to points in CT, MA and RI.

(4)(a) Copper, from Carteret, NJ, and Queens, NY, to points in CT, MA, and RI; (b) lead and zinc, from Wilmington, DE, and Philadelphia, PA, to points in CT and PA.

RESTRICTIONS AS TO PART (1)

1. Service is restricted to points within 200 miles of Newark, NJ.

2. Service is restricted against the transportation of traffic moving to or from the plantsite of the Elliott Co., Division of Carrier Corp., at Jeanette, PA.

3. Service is restricted against the transportation of traffic (a) between Baltimore, MD, on the one hand, and, on the other, Randolph, NJ and Coatesville, PA; and (b) between Coatesville, PA on the one hand, and, on the other, Glasgow and Middletown, DE.

4. Service is restricted against the transportation of traffic between points in NY, on the one hand, and, on the other, points in CT, MA, and RI.

RESTRICTIONS AS TO PARTS (2) THROUGH (4)

The grants of authority in Parts (2), (3), and (4) are restricted to the transportation of commodities requiring the use of special equipment.

The service authorizations in parts (2), (3), and (4) are subject to prior publication in the FEDERAL REGISTER of a notice of the authority actually granted by this decision.

CONDITIONS AS TO ALL PARTS

To the extent these grants of authority are duplicative, they shall be construed as conferring only a single operating right.

[FR Doc. 78-30325 Filed 10-25-78; 8:45 am]

[7035-01-M]

[Rule 19; Ex Parte No. 241; 51st Rev. Exemption No. 90]

EXEMPTION UNDER PROVISION OF MANDATORY CAR SERVICE RULES

It appearing, That certain of the railroads named below own numerous 50-foot plain boxcars; that under present conditions, there are substantial surpluses of these cars on their lines; that return of these cars to the owners would result in their being stored idle; that such cars can be used by other carriers for transporting traffic offered for shipments to points remote from the car owners; and that compliance with car service rules 1 and 2 prevents such use of these cars, resulting in unnecessary loss of utilization of such cars; and

It further appearing, That there are substantial shortages of 50-foot plain boxcars throughout the country; that the carriers identified in this exemption by the symbol (%) have 150% or more of their ownership of these cars on their lines; and that such a disproportionate use of the total supply of such cars causes shippers served by other lines to be deprived of their proper share of such cars.

It is ordered, That, pursuant to the authority vested in me by car service rule 19, 50-foot plain boxcars described in the Official Railway Equipment Register, ICC-RER No. 408, issued by W. J. Trezise, or successive issues thereof, as having mechanical designation "XM," and bearing reporting marks assigned to the railroads named below, shall be exempt from provisions of car service rules 1, 2(a), and 2(b).

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter-Notices

OCTOBER 18, 1978.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's gateway elimination rules (49 CFR Part 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before November 6, 1978. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

The following applicants seek to operate as a common carrier, by motor vehicle, over irregular routes.

(L) *new automobiles and new trucks,* in truckaway and driveaway service, in initial and secondary movements, (1) from West Springfield, PA, to points in ME, NH, VT, MA, and RI (points in NY and those in Berks, Bucks, Carbon, Chester, Columbia, Cumberland, Delaware, Dauphin, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Monroe, Montgomery, Montour, Northampton, Northumberland, Philadelphia, Schuylkill, and York Counties, PA*), (2) from West Springfield, PA, to points in CT, NJ, DE, NC, SC, FL, and GA (except points in Whitfield, Catoosa, Walker, Dade, and Chattooga Counties, GA) (points in Berks, Bucks, Carbon, Chester, Columbia, Cumberland, Delaware, Dauphin, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Monroe, Montgomery, Montour, Northampton, Northumberland, Philadelphia, Schuylkill, and York Counties, PA*). Restriction: The operations authorized in (F) (1) and (2), (H) (1) and (2), (J) (1) and (2), (L) (1) and (2), and (M)(2) above (except truckaway service to and from points in CT, NY, NJ, DE, MA, RI, VT, NH, and ME, and except from Detroit, MI, in initial and secondary movements in driveaway service to points in NJ, CT, ME, MA, NH, RI, VT, and those points in NY on, east and south of a line beginning at the NY-PA State line, within the commercial zones of Hancock, NY, then along NY Hwy 17 to junction NY Hwy 30, then northeast along NY Hwy 30 to junction U.S. Route 20, then east along U.S. Route 20 to the city limits of Schenectady, NY, then north along NY Hwy 50 to junction U.S. Hwy 9, then north along U.S. Hwy 9 to junction NY Hwy 254, then east along NY Hwy 254 to junction U.S. Hwy 4, then north along U.S. Hwy 4 to Whitehall, NY, then to a point on the NY-VT State line within the commercial zone of Whitehall, NY, and except from Toledo, OH, to points in NJ, CT, ME, MA, NH, RI, those points in NY on, east and south of a line beginning at the NY-PA State line within the commercial zone of Hancock, NY, then along NY Hwy 17 to junction NY Hwy 30, then northeast along NY Hwy 30 to junction NY Hwy 7, then east along NY Hwy 7 to junction U.S. Hwy 20, then east along U.S. Hwy 20 to the city limits of Albany, NY, then from Albany north along U.S. Hwy 4 to the city limits of Troy, NY, then along NY Hwy 7 to junction at NY-VT State line at Lake Champlain and those points in

VT on, east and south of a line beginning at the NY-VT State line, and extending along U.S. Hwy 7 to junction VT Hwy 100, then north along VT Hwy 100 to junction VT Hwy 105, then along VT Hwy 105 to the international boundary line between United States and Canada), are restricted to shipments originating at points other than those in IN and MI or at Toledo, OH. The operations authorized in (M) above are restricted to the performance of through transportation of traffic from places of manufacture and assembly in Norfolk, VA. (Gateway eliminated: As noted by asterisks above.)

NOTE.—The purpose of this partial correction is to clarify the restrictions for the above-named sections. The remainder of this letter-notice remains as originally published.

MC 70015 (Sub-E37) (correction), filed June 6, 1974, published in the FEDERAL REGISTER issue of May 19, 1978, and republished, as corrected, this issue. Applicant: JIFFY VANS MOVING & STORAGE, 6575 East Pleasant Run Parkway, South Drive, Indianapolis, IN 46219. Representative: Donald W. Smith, Suite 2465, One Indiana Square, Indianapolis, IN 46204. *Household goods,* as defined by the Commission, between points in IN on, east and north of a line beginning at the OH-IN State line, on the one hand, and, on the other, points in MO on and south of a line beginning at the Mississippi River, and extending along U.S. Hwy 60 to junction U.S. Hwy 66, then north and west along U.S. Hwy 66 to the Mississippi River (except points north of the Missouri River). (Gateways eliminated: Points in IN within 50 miles of Anderson, IN, and Cairo, IL.)

NOTE.—The purpose of this republication is to state the correct territorial description.

MC 96324 (Sub-E45) (correction), filed February 9, 1976, published in the FEDERAL REGISTER issue of September 11, 1978, and partially republished, as corrected, this issue. Applicant: GENERAL DELIVERY, INC., P.O. Box 1816, Fairmont, WV. Representative: Harold G. Hernly, Jr., 118 North St. Asaph Street, Alexandria, VA 22314. *Containers and closures for containers,* except commodities in bulk * * * (3) from points in Harrison, Doddridge, Ritchie, Tucker, Calhoun, Gilmer, and Lewis Counties, WV, to points in NJ, points in PA on and east of a line beginning at the PA-MD State line, and extending along U.S. Hwy 15 to the PA-NY State line. (Gateway eliminated: Points in WV within the commercial zone of Cumberland, MD.)

NOTE.—The purpose of this partial republication is to correct the territorial description in part (3). The remainder of this letter-notice remains as previously published.

MC 115826 (Sub-E51), (correction), filed December 15, 1977, published in the FEDERAL REGISTER issue of September 27, 1978, and republished, as corrected, this issue. Applicant: W. J. DIGBY, INC., P.O. Box 5088 Terminal, Denver, CO 80217. Representative: William N. Shawn, Suite 501, 1730 M Street NW., Washington, DC 20036. *Meats, meat products, and meat byproducts and articles* distributed by meat packinghouses, as described in sections A and C of appendix I to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766, from those points in CO on, east and north of a line beginning at the CO-WY State line, and extending along U.S. Hwy 287, then along U.S. Hwy 287 to junction U.S. Hwy 34, then along U.S. Hwy 34 to the western boundary of Larimer County, then along the western boundaries of Larimer and Boulder Counties to the northern boundary of Gilpin County to junction CO Hwy 119, then along CO Hwy 119 to junction U.S. Hwy 6, then along U.S. Hwy 6 to the western boundary of Jefferson County, then along the western and southern boundaries of Jefferson County and the southern boundary of Douglas County to CO Hwy 67, then along CO Hwy 67 to Woodland Park, then along U.S. Hwy 24 to junction U.S. Hwy 85, then along U.S. Hwy 85 to Pueblo, then east along U.S. Hwy 50 to the CO-KS State line, to those points in CA on and west of a line beginning at the United States-Mexican international boundary line and extending along CA Hwy 111, then along CA Hwy 111 to Indio, then along Interstate Hwy 10 to junction U.S. Hwy 395, then along U.S. Hwy 395 to junction U.S. Hwy 66, then along U.S. Hwy 66 to Barstow, then along CA Hwy 58 to junction U.S. Hwy 395, then along U.S. Hwy 395 to junction U.S. Hwy 6, then along U.S. Hwy 6 to the NV-CA State line. (Gateway eliminated: Denver, CO.)

NOTE.—The purpose of this republication is to state the correct territorial description.

MC 115826 (Sub-E76) (correction), filed December 15, 1977, published in the FEDERAL REGISTER issue of September 27, 1978, and republished, as corrected, this issue. Applicant: W. J. DIGBY, INC., P.O. Box 5088 Termina, Denver, CO 80217. Representative: William N. Shawn, Suite 501, 1730 M Street NW., Washington, D.C. 20036. *Frozen fruits and vegetables,* from points in CO on and north and west of a line beginning at the CO-UT State line, and extending along U.S. Hwy 6, then along U.S. Hwy 6 to junction U.S. Hwy 50 at Grand Junction, then along U.S. Hwy 50 to junction U.S. Hwy 85, then along U.S. Hwy 85 to junction U.S. Hwy 24, then along U.S. Hwy 24 to Limon, then along CO Hwy 71 to junction I Hwy 76, then along I Hwy 76 to junction U.S. Hwy 6 at or near Sterling, then along U.S. Hwy 6 to junction U.S. Hwy 138, then along U.S. Hwy 138 to junction CO Hwy 113, then along CO Hwy 113 to the NE-CO State line to Houston, TX. (Gateway eliminated: Denver, CO.)

NOTE.—The purpose of this republication is to clarify the territorial description.

Australia, Fiji, and Papua-New Guinea; (2) Momorandum for Board action regarding Docket 26291, American Samoa's petition for immediate restoration of adequate air service; (3) Memorandum for Board action regarding Docket 31684, Application of Continental Air Lines, Inc. for renewal of its authority to postpone inauguration of service to American Samoa; (4) Docket 33461, Application of Qantas Airways Ltd. for waiver of part 212 to carry individually-waybilled cargo on seven passenger charters (Memo 8245, 8244, 8244-A).

STATUS: Closed.

PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: Disposition of Dockets 26291, 31684, and 33461 will involve discussion of the Board's recommendations for strategy and positions to be taken by the United States in negotiations with New Zealand, Australia, Fiji, and Papua-New Guinea. Premature public disclosures, particularly to foreign governments, of opinions, evaluations, and strategies relating to the issues could seriously compromise the ability of the U.S. Delegation to achieve agreements which would be in the best interests of the United States. Accordingly, the following Members have voted that the meeting on this subject would involve matters the premature

meeting was possible:

Chairman, Alfred E. Kahn
Member, Richard J. O'Melia
Member, Elizabeth E. Bailey
Member, Gloria Schaffer
Member, Marvin S. Cohen

PERSONS EXPECTED TO ATTEND

Board Members.—Chairman, Alfred E. Kahn; Member, Richard J. O'Meliaz Member, Elizabeth E. Bailey Member, Gloria Schaffer; and Member, Marvin S. Cohen.

Assistants To Board Members.—Mr. Elias Rodriguez, Mr. David M. Kirstein, Mr. Steve Lachter, and Mr. Sanford Rederer.

Office of the Managing Director.—Mr. Dennis Rapp and Mr. John Hancock.

Office of the General Counsel.—Mr. Phil Bakes and Mr. Peter Schwartzkopf.

Bureau of Consumer Protection.—Mr. Rueben Robertson.

Bureau of Pricing and Domestic Aviation.—Mr. Michael E. Levine and Ms. Barbara Clark.

Bureau of International Aviation.—Mr. Donald A. Farmer, Jr., Mr. Parlen McKenna, Mr. Ronald C. Miller, and Ms. Agnes M. Trainor.

Office of Community and Congressional Relations.—Mr. John Nammack.

Office of Economic Analysis.—Mr. Bob Frank and Mr. Richard Klem.

Office of the Secretary.—Mrs. Phyllis T. Kaylor and Mrs. Linda Senese.

GENERAL COUNSEL CERTIFICATION

I certify that this meeting may be closed to the public under 5 U.S.C. 552b(c) (9)(B) and (10) and 14 CFR

Phyllis T. Kaylor, the Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: Discussion of this item will concern upcoming United States-United Kingdom consultations and positions to be taken by the United States. Public disclosures, particularly to foreign governments, of opinions, evaluations, and strategies in the consultations could seriously compromise the ability of the United States Delegation to achieve a resolution which would be in the best interests of the United States. Accordingly, the following Members have voted that the meeting on this subject would involve matters the premature disclosure of which would be likely to significantly frustrate implementation of proposed agency action within the meaning of the exemption provided under 5 U.S.C. 552b(c)(9)(B) and 14 CFR 310b.5(9)(B) and that any meeting on this item should be closed:

Chairman, Alfred E. Kahn
Member, Richard J. O'Melia
Member, Gloria Schaffer
Member, Marvin S. Cohen

The staff recommendation reflects information discussed at the interagency meeting held at the State Department on October 19. Consultations with the United Kingdom are scheduled to commence on October 30. Board comments on this position should be submitted to the Department as soon as possible in order to

V 43 N 208 OCT 26 78

give them time to review our recommendation. Accordingly, the following Board Members have voted that agency business requires the addition of this item to the October 24, 1978, agenda and that no earlier announcement of this addition was possible:

Chairman, Alfred E. Kahn
Member, Richard J. O'Melia
Member, Gloria Schaffer
Member, Marvin S. Cohen

PERSONS EXPECTED TO ATTEND

See M-173 dated October 20, 1978.

GENERAL COUNSEL CERTIFICATION

I certify that this meeting may be closed to the public under 5 U.S.C. 552b(c) (9)(B) and (10) and 14 CFR 410b.5 (9)(B) and (10) and that the meeting may be closed to public observation.

PHILIP J. BAKES, Jr.,
General Counsel.

All amendments to previously announced agendas are publicly posted at the Board's offices, sent to the FEDERAL REGISTER for publication, and mailed to parties to docketed cases affected by the change. We regret any inconvenience that may be caused by these changes or the delayed receipt of our notices.

6

OVERSEAS PRIVATE INVESTMENT CORPORATION.

TIME AND DATE: Meeting of the OPIC Board of Directors, Tuesday, October 31, 1978, at 9 a.m. (closed portion); 11 a.m. (open portion).

PLACE: Offices of the Corporation, seventh floor board room, 1129 20th Street NW., Washington, D.C.

STATUS: The first part of the meeting from 9 a.m. to 11 a.m. will be closed to the public. The open portion of the meeting will start at 11 a.m.

MATTERS TO BE CONSIDERED (Closed to the public 9 a.m. to 11 a.m.):

1. Personnel matters.
2. Human rights procedures.
3. Formulae for developing countries criteria.
4. Renegotiation of Lloyd's Reinsurance Agreement.
5. OPIC/IDCA.
6. Reinsurance proposal.
7. Claims report.
8. Information reports.

FURTHER MATTERS TO BE CONSIDERED (Open to the public 11 a.m.):

1. Approval of the minutes of the previous Board meeting.
2. Confirmation of Board meeting.
3. Personnel matters.
4. Report on Cooperative meetings.
5. Unaudited financial statements for years ended September 30, 1978 and 1977.
6. Information reports.

CONTACT PERSON FOR INFORMATION:

Information with regard to this meeting may be obtained from the Secretary of the Corporation at 202-632-1839.

ELIZABETH A. BURTON,
Corporate Secretary.

UNITED STATES RAILWAY ASSOCIATION.

TIME AND DATE: 9 a.m., November 2, 1978.

PLACE: Board Room, Room 2-500, fifth floor, 955 L'Enfant Plaza North SW., Washington, D.C. 20595.

STATUS: Parts of this meeting will be open to the public. The rest of the meeting will be closed to the public.

MATTERS TO BE CONSIDERED BY THE BOARD OF DIRECTORS:

Portions closed to the public (9 a.m.):

1. Consideration of internal personnel matters.
2. Review of ConRail Proprietary and financial information for monitoring and investment purposes.
3. Review of Delaware and Hudson Railway Co. proprietary and financial information for monitoring and investment purposes.
4. Review of Missouri-Kansas-Texas Railroad Co. proprietary and financial information.
5. Litigation report.

Portions open to the public (11 a.m.):

6. Approval of minutes of the September 21, 1978, meeting of the Executive Committee of the Board of Directors and October 4, 1978 Board of Directors meeting.
7. Consideration of D&H requests.
8. Report on ConRail monitoring.
9. Consideration of ConRail drawdown request for November 1978.
10. Approval of representation budget.
11. Contract actions (extensions and approvals).

FEDERAL COMMUNICATIONS COMMISSION

COMMERCIAL TELEVISION NETWORK PRACTICES

Further Notice of Inquiry

V 4 3 / 2 0 8 0 C 2 6 7 8

[6712-01-M]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 21049; FCC 78-736]

COMMERCIAL TELEVISION NETWORK PRACTICES

Further Notice of Inquiry

AGENCY: Federal Communications Commission.

ACTION: Further Notice of Inquiry into Commercial Television Network Practices.

SUMMARY: The Further Notice of Inquiry incorporates by reference the initial Notice of Inquiry into Commercial Television Network Practices, adopted in January, 1977, 42 FR 4992, and reports the Commission's conclusions concerning the scope of the Inquiry, its specific goals, and the procedures which will be employed.

DATES: Comments in reply to the comments received in response to the initial Notice of Inquiry must be filed on or before December 1, 1978.

Comments on whether other areas of investigations should be undertaken, in addition to those identified in the Further Notice of Inquiry, must be filed on or before December 1, 1978. Reply comments must be filed on or before December 15, 1978.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Stanley M. Besen, Thomas G. Krattenmaker, Co-Directors, Network Inquiry Special Staff, 202-254-7030

Released: October 20, 1978.

Adopted: October 19, 1978.

In the matter of Commercial Television Network Practices, Docket No. 21049.

1. Further notice is hereby given of the issues to be addressed in the Commission's inquiry into commercial television network practices and policies regarding the acquistion and distribution of television programing.[1]

2. This Further Notice is based upon the Network Inquiry Special Staff's analyses of the responses received to the initial Notice of Inquiry before the proceeding was temporarily suspended and extensive reviews of the literature on television broadcasting. These reviews, which will continue, have examined the existing economic structure of the commercial television industry, the current and future technologies which help determine the shape of the industry, and the principal regulatory rules and doctrines that affect the commercial organization and practices of the industry. We are reporting here on our conclusions concerning the scope of the Inquiry, its specific goals, and the procedures which will be employed.

The Intitial Notice of Inquiry

3. The initial Notice of Inquiry, promulgated on January 26, 1977, was prompted by a concern that, in the two decades since completion of the latest comprehensive study of network practices (the "Barrow Report" of 1957), significant developments had occurred that warranted a new inquiry. Particular impetus was supplied both by a rulemaking petition filed by Westinghouse Broadcasting Co., Inc., which asserted that network dominance over licensee-affiliates had reached a critical stage, and by allegations contained in a civil antitrust complaint filed in 1974 by the Department of Justice, which charged each of the three major commercial networks with monopolizing and otherwise restraining trade in the program supply industry. The significance of the issues raised by the Notice was further heightened when the Motion Picture Association of America sought a declaratory ruling that many of the network practices described in the Notice and challenged by the Justice Department antitrust suit violated the Commission's rules which forbid the networks to obtain financial interests in programs produced by others. MPAA Petition in Docket 21049, June 1, 1977.

4. Dozens of interested parties filed responses to the Notice of Inquiry but before the date for filing reply comments, the inquiry was temporarily suspended on June 30, 1977.[2] Effective March 15, 1978 the Commission designated the Network Inquiry Special Staff and established the Special Staff as a separate organizational unit reporting directly to the Commission.[3]

5. Since the Notice of Inquiry was issued, the Department of Justice terminated its antitrust suit against NBC, with the entry of a consent decree on November 28, 1977.[4] The decree contains a number of provisions directly relevant to the subject matter of this Network Inquiry. A trial date for the ABC and CBS lawsuits has not yet been established.

6. The initial Notice not only identifies the network practices with which the Commission is concerned, but also restates the fundamental objective that must be served in examining these practices. The basic issue to be examined is whether the networks have engaged in practices that are anti-competitive or that hamper the independent judgment of affiliated stations. (Para. 14). The Commission's overriding concern is not with the financial strength or viability of any one licensee, network, or program supplier but "to protect the interest of the public in receiving the best possible programing service." (Para. 14). Thus, we specifically disclaimed any interest in the question whether payments by the networks to their affiliates or program suppliers are "fair" or "reasonable". (Para. 20, 23).

7. We then identified three types of network-affiliate practices for review. These are: (a) Previewing of network programs by affiliated stations; (b) clearance of network programs and expansion of network schedules; and (c) station compensation plans.

8. *Previewing of Network Programs by Affiliated Station.* The questions here are whether affiliates are adequately informed of the nature and content of forthcoming network programs, what prescreening facilities are available to them, what benefits accrue from providing licensees adequate previewing opportunities, and what costs or inconveniences might result from providing additional, or more timely, program information. (Para. 18).

9. *Clearance of Network Programs and Expansion of Network Schedules.* The Westinghouse petition observed that affiliated stations now fill a larger portion of their broadcast hours with network fare than was the case in 1960. The questions raised by the initial Notice are whether there has been in increase in network use of station time and, if so, whether these increased clearances are other than voluntary, manifest an undermining of licensee discretion, or detract from licensees' ability to serve their local communities. (Para. 16, 17).

10. *Station Compensation Plans.* Intimately bound up with the question of the expansion of network schedules is the question whether the networks' present station compensation plans are consistent with the Commission's established principle that no graduated payment plan is permissible if it has the effect of requiring affiliates to take the majority of their programing from the same network without regard

[1] This Further Notice does not supersede our initial Notice in this matter, *Commercial Television Network Practices*, Docket No. 21049, 62 FCC 2d 548 (1977). The initial Notice is hereby incorporated by reference. See 42 FR 34913, July 7, 1977.

[2] 67 FCC 2d 136 (1978).

[3] 43 FR 36444 (1978).

[4] A copy of the final version of this consent decree appears at 42 FR 24999 (1977). Many of the provisions of the consent decree do not become effective unless similar relief is obtained against ABC and CBS.

[5] Report on Chain Broadcasting, Docket No. 5060, May 1941.

to the merits of the programing offered. The initial Notice asks that this question be addressed in light of present compensation schemes. (Para. 19).

11. As the initial Notice recognizes, and as the Barrow Report and the Prime Time Access Rule demonstrate, one cannot separate network-affiliate relations from network practices with respect to program suppliers. Thus, the initial Notice observes that expansion of network schedules carried by affiliates will necessarily affect the supply and demand for syndicated programing. (Para. 17). Further, we noted that an expansion in the number of minutes of advertising per hour of network programing may affect the development of additional or specialized networks or other syndicated program offerings. (Para. 17). The Notice identifies for review six specific aspects of network-program supplier relations, many of which are also issues in the Justice Department antitrust action against the networks. These are: (a) Network interests in syndicated programs produced by independent suppliers; (b) network "in-house" production of entertainment programs; (c) contractual tying agreements relating to production facilities and program options; (d) exclusive exhibition rights for program pilots; (e) exhibition rights to network reruns; (f) relations between network owned and operated stations and program suppliers.

12. *Network Interests in Syndicated Programs Produced by Independent Suppliers.* Part of the consent decree entered against NBC in the Justice Department's antitrust litigation closely parallels the Commission's present rules which prohibit acquisition by the networks of interests in independent suppliers' production beyond the right to network exhibition. Accordingly, the initial Notice asks whether the present rules are adequate. (Para. 22.)

13. *Network "In-House" Production of Entertainment Programs.* The Justice Department has shown concern with the networks' abilities to produce programs themselves, arguing that this enhances the market power of the networks in their dealings with program suppliers. The NBC consent decree limits the amount of entertainment programing that network may produce internally, but does not completely ban the practice. The initial Notice asks whether the absence of any regulatory restriction on network in-house production "gives the networks an anticompetitive advantage over potential competitors" or "works to limit the supply of independently produced programs." (Para. 23.)

14. *Contractual Tying Agreements Relating to Production Facilities and Program Options.* This aspect of the initial notice asks whether the networks agree to purchase programs on condition that producers use network-owned production facilities or grant the network options on exhibition rights for several succeeding years. If so, there is the further question of whether such practices adversely affect competition in the market for television programing by limiting the range of alternatives available to program suppliers and the supply of programs available to local stations through the syndication market. (Para. 24, 25.) The NBC consent decree contains 15-year prohibitions on (a) tying the use of NBC production facilities to the purchase of a program for network exhibition; (b) entering contracts for longer than 1-year duration that permit an independent supplier to produce shows for NBC on NBC production facilities; and (c) acquiring options of more than 4 years for prime time programs.

15. *Exclusive Exhibition Rights for Program Pilots.* The initial Notice observes that each year the networks have usually purchased exhibition rights to more programs than they can use. The question posed is whether this practice unnecessarily limits the number of first-run programs available for syndication, and thus reduces the competition which the networks must face. (Para. 26.) The NBC consent decree contains a complicated formula restricting for 10 years the number of pilots NBC can purchase and retain without developing them into scheduled programs.

16. *Exhibition Rights to Network Reruns.* Under its consent decree, NBC is prevented for the next 10 years from negotiating for exhibition rights to rerun a program which has been originally broadcast in a preceding season at the same time it negotiates for rights to first-run exhibition of that program. The initial Notice inquires whether such a restriction is needed and how the acquisition of rights to reruns affects the supply of first-run and off-network programing available to local stations. (Para. 27.)

17. *Relations Between Network Owned and Operated Stations and Programs Suppliers.* Allegations in the Westinghouse petition led the Commission to inquire into the practices of the networks in acquiring programs for their owned and operated stations (O and O's). Our concern is whether the networks are able to exercise market power in their dealings with independent suppliers, even when programs are supplied for non-network exhibition, as in the prime time access period. The issues raised here are whether there is joint purchasing of programs by members of each network's O and O group, whether producers of first-run programs bought for the O and O's are required to use network-owned production facilities, and whether a contract for exhibition on an O and O group is a prerequisite for the success of a first-run program sold in the syndication market. (Para. 28.)

Scope of the Inquiry

18. This overview makes clear the two guiding principles which motivated us in issuing the initial Notice. First, in judging the performance of the industry, we are primarily concerned with "protect(ing) the interest of the public in receiving the best possible programing service • • •" (Para. 14). The economic well-being of networks, stations, or program suppliers is, thus, important only to the extent that it affects their ability to serve the public. Second, while a wide variety of specific practices is identified for analysis, we are centrally concerned about whether these practices enable the existing major commercial networks, in their relations with affiliates and program suppliers, to limit the opportunities for others to compete for station broadcast time and thereby to exert an anticompetitive influence upon the industry's behavior.

19. The concern that networks may seek to attain dominance by excluding competitors for station time is one which has engaged the Commission's attention for some time. It was in response to precisely the same concern, for example, that the Commission adopted the chain broadcasting rules,[5] the existing restrictions on station compensation plans,[6] and the prime time access rule.[7] In these cases, as with the present inquiry, the fundamental dilemma is the same. The major networks provide the advantages of bringing together large numbers of broadcast licensees and program producers in an efficient manner. This integration of functions

[5] CBS Network Compensation Plan, 24 RR 520a; 1 RR 2d 696 (1963).

[7] 47 CFR 73.658(k).

[6] It is often difficult to regulate commercial practices in order to affect industry performance. Firms that are subjects of the regulations are, by definition, being told to do that which they believe is contrary to their self-interest. Further, the regulation of one practice (e.g., station compensation plans) may be effectively avoided by alterations in another (e.g., the number of availabilities and adjacencies offered in network shows). For this reason, it is frequently preferable to adopt policies that protect or foster an industry structure that may obviate or reduce the need to supervise its practices. The Commission's decision in the common carrier area to allow relatively free entry into the provision of telephone terminal equipment is an example of an attempt to partially substitute structural policies for regulation of industry practices. See In the Matter of the Carterfone Device in Message Toll Service, 13 FCC 2d 420 (1968), reconsideration denied, 14 FCC 2d 571 (1968).

permits nationwide entertainment production of relatively low cost to each station. Yet as a result the networks may come to dominate the industry, overriding licensee discretion and foreclosing competitive opportunities. Alternatively have precluded producers, advertisers, or stations from reaching a national audience by means other than the major networks. Yet recent technological, economic, and legal de-

25. As a result of these developments, and others, it is now possible to conceive of a broadcasting system, for example, in which television licensees would be able to choose among pro-

tion of entertainment programs, ties between program purchases and use of network production facilities, long-term options on exhibition rights,

prehensive factfinding and analysis will be followed by an examination of alternative policies that may be open to the Commission in light of these

methods of previewing. Moreover, these practices interact with other aspects of the network-affiliate relationship, e.g., the determination of the

V 4 3 1 2 0 8 0 C 2 6 7 8

permits nationwide entertainment production of relatively low cost to each station. Yet as a result the networks may come to dominate the industry, overriding licensee discretion and foreclosing alternative relationships between program suppliers and broadcasters.

20. Thus, the initial Notice of Inquiry should be understood as part of our continuing concern with the issues of network dominance and licensee discretion. We therefore intend to examine the extent to which the practices described reflect the exercise of market power on the part of the three existing networks, or contribute to the establishment of market power, and the extent to which they are simply efficient ways for the industry to operate.

21. However, we should not consider this issue without regard to the structure of the industry because the ability of firms to engage in anticompetitive practices may depend on the degree of industry concentration. Practices such as offering graduated compensation plans, expanding offerings to affiliates, producing entertainment programing "in-house," contracting for exclusive exhibition rights to pilots and reruns, obtaining 5-year options, and arranging O and O group buys may be of less concern if program suppliers or affiliates have alternative markets or sources of programs. And changes in the structure of the industry can also change its practices. If additional firms were to enter the business of networking, any practices which exist only in order to exploit market power may tend to erode.

22. The fact of the matter is, of course, that only three commercial networks now offer virtually full-time, nationwide, interconnected programing. It is in recognition of this fact that the chain broadcasting and similar rules were adopted. And it is because that concentration continues that the specific practices identified in the initial Notice deserve careful scrutiny. But future developments, some arising from changes in regulation and others stemming from market forces, may have the effect of altering the structure of the broadcasting industry and affecting the extent of concentration in networking.

23. In the past, it has been inconceivable that the issue of network dominance could be dealt with through structural policies rather than by a regulation of industry commercial practices.[8] A variety of factors effectively have precluded producers, advertisers, or stations from reaching a national audience by means other than the major networks. Yet recent technological, economic, and legal developments, some of which have occurred since issuance of the initial Notice, suggest that understanding the effects of the commercial practices of the existing networks requires a careful evaluation of the alternative means by which producers, advertisers, and stations may engage in national program distribution.

24. Without suggesting that the list is exhaustive, these developments include: (a) improvements in satellite technology together with the Commission's policies promoting entry into the provision of satellite services,[9] and the development of user-owned Earth stations;[10] (b) the development of the relatively low cost devices for recording and playback of television programs, including videocassettes, recorders, and videodiscs; (c) improvements in the design of television receivers, including effective implementation of the All-Channel Receiver Act,[11] click-tuning and the recently mandated reduction in the permitted noise figure of UHF tuners;[12] (d) substantial increases in the demand for television advertising which have resulted in large increases in advertising rates and in industry profits; (e) the overturning of the Commission's pay cable rules in *Home Box Office* v. *FCC*, 567 F. 2d 9 (D.C. Cir. 1977), cert. den., 434 U.S. 829 (1977); (f) the elimination of the Commission's leapfrogging rules for cable retransmission;[13] (g) increases in the amount and stability of funding for noncommercial educational television, the use of satellites to interconnect public television stations, and the development of the station program cooperative.

25. As a result of these developments, and others, it is now possible to conceive of a broadcasting system, for example, in which television licensees would be able to choose among programs from existing networks or new over-the-air networks or to engage in joint ventures directly with program suppliers. Similarly, program suppliers not only may have these new bidders for their wares, but also might sell programs for exhibition on many cable systems or noncommercial public stations, or distribute directly to viewers via cassettes or discs. In such a system, the effect of a 5-year option on a program series held by a network or a graduated affiliate compensation plan might be quite different than under present conditions. Producers and affiliates might be better able to resist the imposition of such terms, and networks should gain little competitive advantage from imposing them, unless they were efficient, since otherwise suppliers or stations might turn to other alternatives.

26. We do not mean to assert that any of these alternative forms of networking is certain to develop, or, if it did, would displace the existing networks or be beneficial to the public. Rather, our point is that each of these contentions ought to be a subject of study by the inquiry. To evaluate fully for the 1980's the central issue posed by the initial Notice—network dominance—one cannot take as given the exclusivity or immutability of the present form of networking.

27. For the Commission to be informed about its opportunities and prerogatives as the structure of the industry changes requires an understanding of the likelihood of future developments and their implications for Commission policymaking. Thus, while we intend to inquire in detail into the causes of the practices described in the initial Notice, we also intend to examine how these practices might be affected by the entry of new networks and whether these practices may serve to inhibit the ability of new networks to arise.

28. For these reasons this inquiry should be designed to provide information that will enable the Commission to address these general questions: (a) Given the present networking system, what role should the Commission play in regulating or overseeing the network-affiliate practices described in paragraphs 15-20 of the initial Notice: Previewing, expansion and clearance of network schedules, and station compensation plans? (b) Given the present networking system, what role should the Commission play in regulating or overseeing the network-supplier practices described in paragraphs 21-28 of the initial Notice: Network interest in syndicated programs, network production of entertainment programs, tie-ins between program purchases and use of network production facilities, long-term options on exhibition rights, duration of exclusive exhibition rights for program pilots, network negotiations for reruns, and network practices in acquiring programs for their O and O's? (c) What are the prospects for the development of additional networks, or additional forms of networking, within the existing advertiser-supported, local, over-the-air broadcasting system, and what are the implications of these developments for the answers given to a and b? (d) What are the prospects for the development of additional networks or additional forms of networking using new technologies or financing methods, and what are the implications for the answers given to a and b?

[8] It is often difficult to regulate commercial practices in order to affect industry performance. Firms that are subjects of the regulations are, by definition, being told to do that which they believe is contrary to their self-interest. Further, the regulation of one practice (e.g., station compensation plans) may be effectively avoided by alterations in another (e.g., the number of availabilities and adjacencies offered in network shows). For this reason, it is frequently preferable to adopt policies that protect or foster an industry structure that may obviate or reduce the need to supervise its practices. The Commission's decision in the common carrier area to allow relatively free entry into the provision of telephone terminal equipment is an example of an attempt to partially substitute structural policies for regulation of industry practices. SPECIFIC GOALS FOR THE INQUIRY

29. The four preceding questions will be addressed one at a time, in the order presented above. We believe that the completion of all of these tasks is essential to provide to the commission a comprehensive understanding of the problems faced in the regulation of network television.

30. As we indicated in the initial Notice, what is necessary in the first instance "is solely a fact gathering inquiry designed to provide the Commission with information necessary to a thorough understanding of television networking." (Para. 6.) Indeed, it is our desire to gain such an understanding that has led us to undertake the comprehensive analysis of network television which is described in detail below. However, we think the inquiry will be most useful to the Commission if it goes beyond a mere recitation of evidence. Therefore, the staff should use the evidence gathered to provide the Commission with factual analyses of the effects of policy alternatives the Commission confronts in regulating those practices identified for review in the initial Notice. Thus, for example, once the staff has gathered sufficient data to describe the networks' station compensation practices, it will then analyze the operation of those practices and identify the policy alternatives open to the Commission in overseeing them. The staff will then attempt to assess the likely effects of pursuing these alternatives on such matters as industry structure, profits, and programs. Interested parties will be apprised of the specific alternatives under review and will be invited to provide comments.[14]

31. A similar approach will be adopted with respect to the examination of the prospects for new networks. Comprehensive factfinding and analysis will be followed by an examination of alternative policies that may be open to the Commission in light of these prospects. This might include, for example, an analysis of policy alternatives in regulating cable networks or direct satellite broadcasting or pay television networks.

32. With the adoption of this Notice we are informing interested persons of the specific questions to which we seek answers. Certain aspects of these questions should be noted at the outset. First, while the list of research topics below is a comprehensive one, some topics that need detailed examination may emerge as the inquiry progresses. Second, the research carried out to address questions (a) and (b) set out in paragraph 28 above will take the structure of the television industry as given and will inquire into the extent of network market power within that system, the manner in which that power is exercised, and the effects, of the resulting practices. Research carried out to address questions (c) and (d) will focus more generally on the sources of market power. Third, the range of alternative policies which will be analyzed under questions (a) and (b) will be limited to those which attempt to change the behavior of the participants of the industry through the application of rules and sanctions. Later analyses will explore policies which affect the structure of the industry.

33. *Network-affiliate relations.* As discussed above, the initial Notice of Inquiry directs attention to three specific aspects of network-affiliate relations: Previewing, expansion of network offerings, and station compensation plans. The staff will conduct inquiries with respect to each of these practices. While the comments in response to the initial Notice provide some information on each of these practices, and while reply comments expected after the stay of this proceeding is lifted may well provide more, the staff will gather additional information on these practices by carrying out its own studies. Thus, we do not believe it would be necessary or useful to invite interested parties to submit fresh comments on these topics.

34. We do believe, however, that the analysis of previewing, expansion, and compensation will be better informed if accompanied by a more comprehensive inquiry into the nature of the network-affilicate relationship, because the particular practices singled out for study are each parts of a more general arrangement. Existing and alternative compensation plans surely have an effect on the extent of the network expansion and probable place at least some conditions on the extent and methods of previewing. Moreover, these practices interact with other aspects of the network-affiliate relationship, e.g., the determination of the network rate. To develop an adequate basis for analyzing the particular practices described in the Notice, the staff will conduct studies of three major topics: (a) Network-affiliate contracts; (b) determinants of station profitability; and (c) advertising markets.

35. Network-affiliate contracts—What do they provide? By what processes are they negotiated and administered? What causes those differences that occur among contracts? What is the effect of regulating compensation clauses without regulating other contract terms? How stable are the contracts? How frequently and for what reasons do affiliation turnovers occur?

36. Determinants of station profitability—What relationships exist between station types and levels of station profitability? In particular, to what extent and under what conditions is station profitability (either as a result of advertising revenue or of network compensation) affected by the presence or absence of network affiliation? What, if any relationship exists between network payments to program producers and network compensation plan levels?

37. Advertising markets—What are the determinants of the structure of advertising rates, especially of any differential between network advertising rates and national and local spot rates? How are contracts between advertisers and networks and between advertisers and stations negotiated and administered? What role do station representatives and advertising agencies play in these transactions?

38. *Network-supplier relations.* Again, the initial Notice of Inquiry describes a series of particular practices, each of which requires the same kind of analysis described above. The responses to these portions of the initial Notice have been sufficiently informative to permit the staff to determine what areas remain to be investigated. In this area, too, the particular questions can be best addressed within the context of a more general inquiry. For here, too, the practices discussed are components of an overall relationship that needs general understanding. Thus, the staff will also inquire into: (a) Network practices in program acquisition; (b) determinants of profitability of program production; and (c) the relationship between our financial interest and syndication rules and the Department of Justice network antitrust suit.

39. Network practices in program acquisition—How are network-supplier contracts negotiated and administered? What are the terms of "typical" contracts? What variations are there

[14] The manner in which opportunities for participation are being afforded in described in paragraphs 55-59 of this Further Notice.

regulatory authority over this development?

54. Analysis of the preceding ques-

cific hypotheses, throughout its work, and will conduct legal analyses that carefully and fully explore the range

ceived in response to the January 26, 1977 Notice of Inquiry is lifted. Any interested person may file such reply

V 4 3 / 2 0 8 0 C 2 6 7 8

in contract terms and what are their causes? How does the existence of alternative buyers of programs affect these contracts? What is the role played by long-term personal service contracts with the networks? What are the differences, if any, between the practices of the networks in acquiring programs to be shown in different time periods? What are the differences, if any, between the manner in which the networks acquire news and public affairs and entertainment programming? What explains these differences?

40. Determinants of profitability of program production—What are the determinants of profitability in the production of television programs, both network and syndicated? What are the risks and rates of return in television program production? How concentrated is the program supply industry and has the extent of concentration changed as a result of the imposition of the syndication, financial interest, and prime time access rules?[15] What, if any, entry barriers exist? What differences in costs are there in producing and distributing a program via syndication rather than through the existing network structures? What explains these differences?

41. Relationship between financial interest and syndication rules and the Department of Justice network anti-trust suit— The pendency of the anti-trust suit and the entry of the NBC consent decree raise a number of issues concerning the distribution of federal jurisdiction ober the network-supplier relationship. Were the practices described in the Department of Justice anti-trust lawsuit (and the initial Notice) already forbidden by a proper interpretation of the Commission's financial interest rules? Must the Commission enforce rules regulating network practices that are adopted by the judiciary at the conclusion of the pending anti-trust case? How do the FCC and the Justice Department coordinate their powers in this field, and how does this bear on the regulatory options open to the Commission?

42. Clearly, a major result of carrying out the analyses described in Paragraphs 35-37, 39, 40 above will be a better understanding of the profitability of television networking. By examing the economic relationship between the networks and their affiliated stations, on the one hand, and between the networks and program suppliers, on the other, we should obtain a more complete view of the determinants of the profitability of the existing networks. In this regard, we will be especially concerned with the extent to which such network profits reflect the exercise of market power.

43. *Prospects for additional over-the-air advertiser-supported networks.* Additional over-the-air, advertiser-supported television networks might take one of two forms. One would involve the creation of additional chains of stations linked together to provide nationwide full-time programming, much in the manner of the existing three national networks. The other would involve the formation of occasional or part-time networks which offer programs to their "affiliates" without the creation of new full-time station chains. To examine the prospects for such networks and the likely effects of their formation we will inquire into: (a) Interconnection rates; (b) spectrum allocation and channel assignments; (c) the "UHF handicap"; (d) ownership policies; (e) viewer and advertiser demand; and (f) occasional or part-time networks.[16]

44. Interconnection rates: levels and structures—How have developments in the area of satellite regulation (e.g., limited open entry, earth station ownership) affected the prospects for new networks, either occasional or full-time? What is the effect of the present differential between occasional and full-time video terrestrial interconnection rates?

45. Spectrum allocation and channel assignment—How have spectrum allocation decisions affected the conditions of entry for networks? Are there feasible alternative channel assignment plans that might better preserve local licensee discretion and reduce the opportunities for anti-competitive network behavior? How might changes in translator regulation affect these alternatives?

46. The "UHF handicap"—If UHF operated on a parity with VHF would opportunities for additional networks increase? What are the causes of the UHF handicap and how is that handicap likely to change in the 1980's? What are the costs and benefits of FCC rules mandating standards of receiver design and of government support for research on receiver technology? What are the costs and benefits of alternative rules regulating transmission quality (e.g., UHF transmitter power)?

47. Ownership policies—Is the opportunity to own and operate broadcast stations an important factor in the ability to compete fully in the provision of network services? Do either the Commission's top 50 Policy, which may inhibit the number of stations a firm may own in large markets, or its Group Ownership Rule,[17] which limits the total number of stations a firm may own, affect the prospects for entry of additional networks?

48. Viewer and advertiser demand—What are the prospects for the growth in demand for television advertising? How will existing networks adjust to any change, and how might other networking forms be affected by it? What is the value that viewers place on the ability to receive additional programs or networks?

49. Occasional or Part-Time Networks—What barriers, if any, exist to the formation of occasional or part-time networks? What are the costs of financing, interconnection, and negotiation with stations?

50. *Prospects for new networks employing different means of program delivery or financing.* New methods for delivering programs may heavily affect the extent of concentration in the television industry during the 1980's. Chief among these are cable, videocassettes and satellite-to-home broadcasting. Study of these topics is necessary to complete a rounded view of network behavior and prospects for the future.

51. Cable and pay television—What are the prospects for the development of networks which retransmit the programs of a single broadcast station to a large number of geographically separated cable systems? What are the prospects for other forms of cable networks which originate programs, either supported by advertisers or by viewer subscription fees? How are these prospects affected by the new Copyright Act,[18] the cable distant signal importation and exclusivity rules,[19] satellite earth station ownership rules, satellite entry policy, and the recent elimination of carriage restrictions on pay-cable? How would the emergence of cable-networks be affected by rules limiting either horizontal concentration or vertical integration in the cable industry? To what extent would cable networks be subject to FCC regulatory jurisdiction? What are the prospects for networks serving over-the-air subscription television stations?

52. Satellites—Is direct satellite-to-home broadcasting likely to be offered in the near term? If so, would such a technology offer room for greater network competion? Would the Commission have authority to regulate such a system beyond controlling rates and entry?

53. Videocassettes, recording systems and videodiscs—What are the economics of direct producer-to-viewer distribution? How, if at all, does this phenomenon differ materially from the function of networking? Has the FCC regulatory authority over this development?

54. Analysis of the preceding questions should provide the Commission a solid basis for assessing whether the existing commercial television networks will or could face substantial competition in the 1980's. We believe that whether other networks are likely to be technologically possible and economically viable is central to assessing the issue of network dominance, and that we are witnessing a period in which economic, technological and legal developments may necessitate a reevaluation of existing assumptions about the feasibility of new network forms.

Procedures

55. Some of the information necessary to analyze the issues described above is already available in public sources, such as the Commission's annual reports, which provides financial data on broadcast stations and networks; commercial sources, such as Broadcasting Yearbook and Advertising Age, which compile industry statistics; and in scholarly publications. Important unpublished data exist within the Commission, including the filings in the prime time access rule dockets (Nos. 12782 and 19622), station affiliation contracts, and individual station annual financial reports. In addition, the Justice Department network anti-trust litigation has generated substantial material on the program supply industry that is presently accessible or should become so as the case progresses. Interested parties have submitted data in response to the initial Notice of Inquiry and we expect that responses in other Commission proceedings also may yield useful information. The staff will utilize all these sources.

56. While much data will be drawn from these existing sources, we do anticipate that it will be necessary to acquire additional information from various participants in the industry. The staff will conduct field interviews and issue questionnaires when appropriate. While we hope that persons will cooperate voluntarily with the staff in its fact-gathering efforts, we hereby authorize designation of an administrative law judge to issue subpoenas under Section 403 of the communications Act. We do not, however, anticipate the need to hold public hearings in gathering data for the inquiry, since our concern is not with individual transactions or personal motivations, but rather with aggregate forms of industry behavior and the rules presently applicable thereto.

57. We have assembled a staff capable of carrying out an objective analysis of the issues raised above. The staff will use the methods of modern social science, formulating and testing specific hypotheses, throughout its work, and will conduct legal analyses that carefully and fully explore the range of available options and existing constraints. We urge that those responding to the inquiry do the same. Although little can be done to prevent parties from responding with general exhortations or policy analysis based on anecdotal or incidental occurrences, we intend to give little or no weight to such responses.

58. We believe the final report of the Network Inquiry can and should be written upon a record that is entirely open to public review. To this end, the staff has followed, and will continue to follow, the Commission's proposed exparte rules as though they were in fact applicable to a Notice of Inquiry proceeding.[20] The staff has kept and will continue to keep public logs of all contacts with interested parties. Most importantly, the staff will base its report entirely on materials that are publicly reviewable.[21] In this fashion, the full record will be accessible to anyone wishing to examine or challenge the staff's findings or policy analyses.

59. We expect the staff to draw on a wide range of sources of data. Although some interested persons will be likely to continue to submit materials, a danger exists that other groups, particularly those with more limited resources, will be unable to participate fully if we do no more than publish this Further Notice of Inquiry. To encourage wider participation and debate, and to produce a more detailed record for the Commission's review, as the staff completes research on the topics described above, it will issue preliminary reports of its findings. Interested persons will then be provided a resonable period of time to submit comments on these reports. The staff will analyze any comments received and only then prepare a final report for transmission to the Commission. This method is intended to enable interested parties to submit more precise, detailed, and informed responses to the matters upon which the inquiry will focus.

Directions to Interested Persons

60. Paragraphs 55 to 59 of this Further Notice describe the procedures the Network Inquiry Staff will follow in conducting the inquiry.

61. The suspension of time for filing reply comments to those comments received in response to the January 26, 1977 Notice of Inquiry is lifted. Any interested person may file such reply comments on or before December 1, 1978.

62. Paragraphs 33 to 53 of this Further Notice set out the scope of the research the Network Inquiry Special Staff will undertake. Public comments are invited on the question whether additional areas should be addressed. Any such comments should be filed on or before December 1, 1978, and reply comments should be filed on or before December 15, 1978. The Staff will analyze all relevant and timely comments to determine whether any additional areas of inquiry seem warranted. If so, the staff will prepare a report to the Commission describing any proposed changes. Persons filing reply comments pursuant to the preceding paragraph and comments prusuant to this paragraph may submit them together.

63. The Network Inquiry Special Staff will immediately commence research on the topics described in Paragraphs 33 to 42 of this Further Notice. Persons wishing to provide information or analysis to be considered by the staff in preparing its preliminary reports should do so promptly and in no event later than February 15, 1979. Once the necessary information has been gathered and analyzed, that information and the staff's preliminary reports will be released for public comment, with established dates for filing comments and reply comments. Information and analysis provided after February 15, 1979 but before the deadline for comments and reply comments will be taken into account in the final report on these issues.

64. Susbtantial research on the topics described in Paragraphs 43 to 53 will not commence immediately. Interested persons are nonetheless free to submit information or analysis on those topics at any time. Specific deadlines will be established at a later date for filing in time for consideration by the staff in preparing its preliminary reports.

65. In accordance with the provisions of § 1.419 of the rules, an original and 5 copies of all comments, replies, pleadings, briefs, and other documents shall be furnished the Commission. Material filed will be available for public inspection during regular business hours in the Commission's Broadcast and Docket Reference Room at its headquarters in Washington, D.C.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 989-5]

RESPONSE TO INTERAGENCY TESTING COMMITTEE RECOMMENDATIONS

AGENCY: Environmental Protection Agency.

ACTION: Notice in response to Interagency Testing Committee recommendations.

SUMMARY: Section 4(e) of the Toxic Substances Control Act (TSCA) (90 Stat 2003, 15 U.S.C. 2601 et seq.) established an Interagency Testing Committee (ITC) to recommend to the Administrator of the Environmental Protection Agency (EPA) a priority list of chemicals to be considered for testing. TSCA requires EPA to respond to these recommendations within 1 year, either by initiating rulemaking proceedings under section 4(a) or by publishing in the FEDERAL REGISTER EPA's reasons for not taking this action.

On October 4, 1977, the ITC transmitted its initial priority list of recommendations to EPA. The Agency has initiated review and evaluation of the October 1977 recommendations. However, for the reasons discussed in this notice, EPA is not initiating section 4(a) rulemaking proceedings for these recommendations at this time.

FOR FURTHER INFORMATION CONTACT

John B. Ritch, Jr., Director, Industry Assistance Office, Office of Toxic Substances (TS-799), Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460, 800-424-9065; in Washington, D.C. call 554-1404.

SUPPLEMENTARY INFORMATION:

BACKGROUND

TSCA established the ITC to recommend to the Administrator of EPA chemical substances and mixtures [1] for priority attention in developing test rules under section 4(a) of TSCA. The Act required the ITC to transmit its initial priority list to the Administrator by October 3, 1977, and to consider updating that list at least every 6 months thereafter.

The ITC's initial priority list of four individual chemicals and six categories of chemicals was transmitted to EPA on October 4, 1977, and subsequently published in the FEDERAL REGISTER (42 FR 55026, Oct. 12, 1977). As permitted by section 4(e)(1)(A) of TSCA, each of the 10 chemicals on the October 1977 priority list was designated for special consideration by EPA within 12 months. As a result, the Agency must respond to the ITC's recommendations within the 12-month period either by initiating a rulemaking action or by publishing EPA's reasons for not doing so. Although the ITC subsequently added other designated chemicals to the priority list (43 FR 16684, April 19, 1978), at this time the Agency is only required to respond to the recommendations on the October 1977 priority list. Those recommendations are summarized in the following table:

Substance or category	Testing recommended
Alkyl epoxides	Carcinogenicity, mutagenicity, teratogenicity, other chronic effects, environmental effects, and epidemiological study.
Alkyl phthalates	Environmental effects.
Chlorinated benzenes, mono- and di-	Carcinogenicity, mutagenicity teratogenicity, other chronic effects, environmental effects and epidemiological study.
Chlorinated paraffins	Carcinogenicity, mutagenicity, teratogenicity, other chronic effects, and environmental effects.
Chloromethane	Carcinogenicity, mutagenicity, teratogenicity, and other chronic effects.
Cresols	Carcinogenicity, mutagenicity, teratogenicity, other chronic effects, and environmental effects.
Hexachloro-1,3-butadiene	Environmental effects.
Nitrobenzene	Carcinogenicity, mutagenicity, and environmental effects.
Toluene	Carcinogenicity, teratogenicity, other chronic effects, and epidemiological study.
Xylenes	Mutagenicity, teratogenicity, and epidemiological study.

EPA plans to propose standards for oncogenicity and chronic effects testing by late December 1978 and to propose chemicals to be tested for these effects shortly thereafter. In addition, development of test standards for several other effects is in progress.

STATEMENT OF REASONS

Within 1 year of a chemical's designation by the ITC, EPA must either initiate a rulemaking proceeding to require testing or publish the Agency's reasons for not doing so.

The Act does not specify which of several possible EPA actions would initiate a rulemaking proceeding for purposes of section 4(e). However, as a matter of policy, EPA plans to equate "initiating a rulemaking proceeding" with proposing a section 4(a) rule. For the reasons discussed below, the Agency is not initiating rulemaking at this time.

Before proposing section 4 test rules fof the chemicals the ITC recommended, the Agency must review available information on those chemicals according to the statutory prerequisites for testing prescribed by TSCA section 4(a). In addition, the Agency must prescribe appropriate standards for the conduct of the tests it requires. Although work is progressing on these facets of the rulemaking decision for the chemicals the ITC recommended, neither activity has been completed.

The findings required by section 4(a) to propose a test rule demand substantially more detailed information and evaluation than is required of the ITC in making its recommendations under section 4(e). For example, while the ITC may recommend a chemical without considering on-going studies, EPA must decide whether such studies are likely to provide adequate data for assessing risk before making section 4(a) findings.

EPA's evaluation of the ITC's recommendations, which is still in progress, includes review of (1) The ITC dossiers and their references, (2) studies and reports identified by an EPA supplementary literature search, and (3) the public comments in response to publication of the priority list in the FEDERAL REGISTER. Furthermore, EPA has promulgated a section 8(d) rule requiring the submission of unpublished health and safety studies for the Agency's use in its review of these chemicals (43 FR 30984, July 18, 1978). Those studies are still being received and will be evaluated before test rules are proposed.

In addition to this full review of the chemicals recommended by the ITC, EPA generally plans to prescribe test methodologies as a part of its test rules to insure that the test data will be reliable and meet the Agency's needs. Proposing specific test methods also should aid the public in commenting on the testing that EPA considers necessary to assess the risk of these chemicals. The test standards needed to implement the ITC's recommendations have not yet been completed.

Finally, proposing the first test rules under TSCA requires resolution of several basic scientific and policy questions. For example, decisions have to be made on when to test pure substances and when to require testing of commercial grades of chemicals that may contain byproducts, impurities, and additives. EPA has not yet completed its consideration of this and other issues related to section 4 rulemaking.

STATUS OF EPA'S EVALUATION

On the basis of its review thus far (as summarized in the Appendix to this Notice), EPA concludes that each of the 10 chemicals on the initial Priority List should continue to be considered for section 4(a) rulemaking.

Although the Agency considers publication of this Notice to remove the priority designation of the 10 chemicals on the October 1977 Priority List,[2] the chemicals retain high priority within EPA for further section 4(a) consideration. As the Agency's evaluation of the chemicals and its development of test standards are completed, EPA will propose test rules [3] for each of the chemicals and effects designated by the ITC that meet the requirements of section 4(a). Where EPA finds that existing information does not support the need for a test rule, the Agency will publish a Notice in the FEDERAL REGISTER stating in detail its reasons for not requiring testing.

Dated: October 10, 1978.

BARBARA BLUM,
Acting Administrator.

APPENDIX—EPA'S PRELIMINARY APPRAISAL OF THE ITC'S OCTOBER 1977 RECOMMENDATIONS

EPA's preliminary appraisals of the ITC's October 1977 recommendations are presented in this Appendix. In general, EPA feels that the testing recommended by the ITC for these chemicals seems appropriate. However, the Agency has not yet completed its evaluation of the recommendations or determined whether testing regulations for these chemicals should be proposed under section 4(a) of TSCA.

ALKYL EPOXIDES

The alkyl epoxides category includes all noncyclic aliphatic hydrocarbons with one or more epoxy functional groups. The ITC has recommended testing for carcinogenicity, mutagenicity, teratogenicity, and other chronic effects because the epoxy structure is a relatively reactive functional group that is believed to be the source of the carcinogenic and mutagenic activity already well characterized for several members of the category. Although the alkyl epoxides are generally used as intermediates, the ITC noted that the large production volumes of some members raise concern with respect to workplace exposure. The ITC recommended retrospective epidemiologic studies for the members with the highest exposure. The ITC also recommended environmental effects testing, expressing particular concern for alkyl epoxide reaction products.

SUPPLEMENTAL LITERATURE SEARCH

The ITC dossier did not report that EPA has published a notice of Rebuttable Presumption Against Registration for ethylene oxide, nor that the FDA has published a notice of intent to establish maximum residue limits for ethylene oxide and its major reaction products in drug products and medical devices and to establish maximum daily exposure levels from these items. EPA will consider this information in further evaluating the need for testing of ethylene oxide.

Only one study was found in the supplemental literature search that appeared to be pertinent to the ITC recommendations. Joyner (1964)[4] reported on the health records of 37 employees of an ethylene oxide manufacturing plant. This study will be further evaluated, with particular attention given to its relevance to the ITC recommendation for epidemiologic study.

PUBLIC COMMENTS

Comment 1: The estimated environmental release figures were questioned. The ITC dossier reports estimated annual environmental release rates of 98.8 million pounds for ethylene oxide and 40.8 million pounds for propylene oxide. For ethylene oxide, one commentor estimated that the total annual environmental release is less than 20 million pounds; another commentor placed it at 10-12 million pounds. For propylene oxide, one commentor estimated that less than 5 million pounds is released to the environment annually.

Response 1: The environmental release rate data presented in the ITC dossier are from the report "A Study of Industrial Data on Candidate Chemicals for Testing, Research Request No. 1" (EPA 560/5-77-006, August 1977) and reflect the application of estimated production-loss factors and dispersive-use factors to production and consumption of these compounds. These factors may overestimate the environmental losses of ethylene oxide and propylene oxide. Additional evaluation of environmental release data will be nesessary in developing any test rules for these compounds.

Comment 2: The occupational exposure population sizes presented in the dossier are overestimated.

Response 2: The NIOSH/NOHS data used in the dossier indicate that 165,000 and 264,000 persons are exposed occupationally to ethylene oxide and propylene oxide, respectively. The commentors' estimates of 110,000 to 115,000 for ethylene oxide do no differ greatly from the NOHS data; however, the commentors' estimates of 5000 to 8000 persons exposed occupationally to propylene oxide differ substantially from the NOHS data. Additional evaluation of the propylene oxide exposure potential will be necessary in developing any test rules.

Comment 3: The category name "alkyl epoxides" inaccurately defines the group of compounds in question because it does not, technically, include ethylene oxide. The commentor offers oxiranes, epoxyalkanes, alkylene oxides, and epoxides as alternatives.

Response 3: The commentor is correct. Technically, the category "alkyl epoxides" does not include ethylene oxide. The suggested alternatives "oxiranes" and "epoxides" describe a much larger class of compounds than intended. "Epoxy alkanes" and "alkylene oxides" both appear to be suitable alternatives and will be considered in developing any test rules for this class of compounds.

Note on Comments 4-7: These comments address specific alkyl epoxides for which ongoing studies or available data may obviate the need for testing requirements. EPA recognizes, as did the ITC, that certain members of a recommended category may already have been adequately tested for one or more of the effects of concern. In developing test rules, these cases will be examined in detail and, where available data (or tests in progress) are considered adequate, testing will not be required.

Comment 4: Studies are presently being conducted at the Carnegie—Mellon Institute that will provide an adequate characterization of the carcinogenicity, mutagenicity, teratogenicity, and other chronic effects of ethylene oxide, and therefore testing requirements for these effects are not necessary.

Response 4: The ITC was aware of these studies when making its recommendations. EPA will review in detail the protocols and any results from these studies when developing test rules for alkyl epoxides. If the effects of ethylene oxide are adequately determined in these studies, no further testing of ethylene oxide will be required for these effects.

Comment 5: Long-term studies planned at the Central Institute for Nutrition and Food Research will adequately characterize the carcinogenicity and other chronic effects of propylene oxide. Testing requirements for these effects will not be nesessary.

Response 5: It will be necessary for EPA to obtain the full protocols being employed in these studies in order to determine the adequacy of these tests. In further considering test rules EPA will evaluate the protocols and whatever preliminary results are available.

Comment 6: The mutagenicity and teratogenicity studies being conducted on ethylene oxide will serve as indicators of the need for testing propylene oxide for these effects.

Response 6: The results of the mutagenicity and teratogenicity studies on ethylene oxide will not be a strong factor in determining the need to test propylene oxide for these effects. It is well known that there can be vast differences between the effects of the first two members of an homologous series (e.g., methanol and ethanol).

Comment 7: Adequate data are available on the health and environmental effects of butylene oxide. Because of this and its low human and envoronmental exposure potential, testing requirements for butylene oxide are unnecessary.

Response 7: The available health and environmental effects data, as well as exposure aspects, will be considered in detail when considering any testing requirements for butylene oxide.

Comment 8: Epidemiological studies of ethylene oxide and propylene oxide in certain production and processing plants are unnecessary and impractical because medical surveillance indicates no unusual medical problems among employees; these employees do not constitute a suitable cohort, and surveys show ambient levels consistently within the TLV.

Response 8: The experience of these commentors will be useful in examining the need for and feasibility of epidemiological study of these, and perhaps other, alkyl epoxides. EPA will utilize whatever information is available on such workplace experience in considering epidemiological study testing requirements.

Comment 9: The alkyl epoxides will react to form glycols which are relatively non-

[1] TSCA's language is "chemical substance or mixture"; in 42 FR 55026, the ITC uses "substances and categories." The term "chemical(s)" is used in this notice to avoid confusion.

[2] That is, that they no longer occupy 10 of the 50 places on the Priority List reserved for chemicals designated for action by EPA within 12 months. However, the ITC may redesignate any of these chemicals if it so chooses.

[3] EPA expects to issue separate rules for various effects as the appropriate test standards are completed.

[4] Arch. Environ. Hlth. 8(5):700-710.

toxic, are rapidly biodegradable and do not bioaccumulate; any chlorohydrins formed would probably not persist. Further testing for environmental effects is unnecessary.

Response 9: Preliminary evaluation of the

The ITC dossier cites studies showing that diethyhexyl phthalate (a long-chain ester) in water was found to affect the reproduction of the waterflea *Daphnia magna*.

Although at some point in the develop-

genic [2] while another reported that it is not mutagenic.[3] Although on preliminary review these studies do not appear to have any impact on the ITC recommendation, they will be examined in more detail in con-

TLV's and because job mobility and workgroup size makes his employees an unsuitable cohort.

Response 4: The experience of this commentor may be useful in examining the

tainable in practice and because the ITC dossier refers to a study on a product of this composition).

Response 1: EPA agrees that creosote oil is chemically an ill-defined material and that the term has been applied to quite different materials, some of which may indeed have

V 4 3 / 2 0 8

toxic, are rapidly biodegradable and do not bioaccumulate; any chlorohydrins formed would probably not persist. Further testing for environmental effects is unnecessary.

Response 9: Preliminary evaluation of the available literature indicates some merit in this comment. However, it does not appear that there are definitive data available on the formation and degradation of chlorohydrins, and testing may be necessary to determine if chlorohydrins from alkyl epoxides are an environmental concern.

PRELIMINARY APPRAISAL

The testing recommended by the ITC for this category of chemicals seems appropriate. However, further evaluation of ongoing, planned, and completed studies on specific alkyl epoxides (particularly on ethylene oxide and propylene oxide at Carnegie-Mellon Institute and the Central Institute for Nutrition and Food Research, respectively) will be necessary. Some of the recommended testing for certain members of the alkyl epoxides category may not be necessary if available data or studies in progress or planned are adequate. EPA will consider as alternative names for this category "epoxy alkanes" and "alkylene oxides".

ALKYL PHTHALATES (ALKYL ESTERS OF 1,2-BENZENEDICARBOXYLIC ACID)

The ITC recommended that all high production (e.g., 10 million lb/year or greater) alkyl phthalates be tested for environmental effects. This recommendation was based mainly on indications of their potential for environmental release, especially to the aquatic environment, on their environmental stability, and on the apparent toxicity of some phthalates to aquatic organisms.

SUPPLEMENTAL LITERATURE SEARCH

As a supplement to the ITC dossier, EPA has reviewed the information in the report "A Study of Industrial Data on Candidate Chemicals for Testing, Research Request No. 3" (EPA 560/5-78-002, June 1978). This document appeared to be more complete and more detailed than the ITC dossier. However, no studies were discussed in this report that suggest that the ITC's testing recommendations should be modified.

PUBLIC COMMENTS

Comment 1: The term "alkyl phthalates" inaccurately describes the class of compounds that the ITC is recommending for study. The term "dialkyl phthalates" is more accurate.

Response 1: EPA accepts this comment. It is clear that the ITC is in fact concerned with the dialkyl phthalates, and that its interest in monoalkyl phthalates is limited to their occurrence as metabolic or chemical degradation products of the dialkyl phthalates.

Comment 2: A distinction should be made between alkyl phthalates having an alkyl chain length of six or fewer carbon atoms and those with a chain length of more than six carbons.

Response 2: The implication of the comment is that the long-chain-length esters need not be tested for aquatic effects because they are insoluble in water and would float on the surface. Why these factors would make the long-chain alkyl phthalates devoid of aquatic effects worthy of concern was not substantiated by the commentor.

The ITC dossier cites studies showing that diethyhexyl phthalate (a long-chain ester) in water was found to affect the reproduction of the waterflea *Daphnia magna*.

Although at some point in the development of test rules it may be advantageous to make a distinction between alkyl phthalates of different chain lengths for specific testing requirements, there is no reason to make any distinction at this stage in considering the ITC recommendations.

Comment 3: There are inconsistencies between the production figures and the environmental release rates presented in the dossier. The release rate given for bis(2-ethylhexyl) phthalate is about 1.5 times the 1976 production value, and the release rate given for dibutyl phthalate is more than twice its 1976 production.

Response 3: The environmental release rates cited in the dossier are based on 1972 production data from the U.S. International Trade Commission. It is not appropriate to compare these release rates to 1976 production figures. The environmental release rates are consistent with the 1972 production data.

Comment 4: On-going and planned environmental studies at the University of Missouri on the alkyl phthalates make a testing rule unnecessary at this time.

Response 4: As test standards are developed for environmental effects testing, it will be possible to evaluate in detail the protocols being used in on-going and planned studies to determine whether they (and any results available from any of these studies) obviate the need for further testing. It is important to note that adequate environmental effects testing for one or more specific alkyl phthalates does not necessarily preclude the need for environmental effects testing of other alkyl phthalates.

PRELIMINARY APPRAISAL

The ITC's recommendation that all high production alkyl phthalates be tested for environmental effects seems appropriate. Additional evaluation of on-going and planned studies at the University of Missouri will be necessary to help determine whether specific tests for certain members are necessary.

EPA is also considering renaming this category "dialkyl phthalates," which is a more accurate description.

CHLORINATED BENZENES, MONO- AND DI-

This category, which consists of four structurally-related chemical substances, was recommended by the ITC for carcinogenicity, mutagenicity, teratogenicity, other chronic effects, environmental effects, and epidemiologic studies. The large production, widespread use, high release rate, and suspected persistence of the chlorinated benzenes were the primary considerations of the ITC in making these recommendations.

SUPPLEMENTAL LITERATURE SEARCH

Several articles were identified in the supplemental literature search which indicate that *p*-dichlorobenzene is mutagenic.[1] One study indicated that chlorobenzene is mutagenic[2] while another reported that it is not mutagenic.[3] Although on preliminary review these studies do not appear to have any impact on the ITC recommendation, they will be examined in more detail in considering mutagenicity testing requirements for these compounds.

With respect to environmental effects, a study was found which indicated that *o*-dichlorobenzene is lethal to phytoplankton at 1.3 p.p.m.;[4] another study showed that at 10 p.p.m. *o*-dichlorobenzene is comparatively harmless to clam larvae.[5] These studies do not suggest that environmental effects testing for *o*-dichlorobenzene is not needed, but they will aid in the design of any environmental effects testing scheme for this compound and, perhaps, for chlorinated benzenes as a category.

PUBLIC COMMENTS

Comment 1: Reasonable occupational exposure estimates are 10,000 persons for chlorobenzene and *o*-dichlorobenzene, and 5,000 persons for *p*-dichlorobenzene. The ITC dossier uses NIOSH/NOHS estimates of occupationally exposed populations of 1,093,000 persons for chlorobenzene, 1,978,000 persons for *o*-dichlorobenzene, and 540,000 persons for *p*-dichlorobenzene.

Response 1: Additional evaluation of the NOHS data base will be necessary to determine how well it defines the size of the occupationally exposed population. The commentor does not present any details on the basis for his estimates; these details will be sought and reviewed by EPA in considering these substances for testing.

Comment 2: m-Dichlorobenzene should be eliminated from consideration as a testing candidate because its production, environmental release, and exposure potential are low.

Response 2: While *m*-dichlorobenzene does appear to have the lowest exposure potential among the chlorinated benzenes, it has been detected in environmental samples (ground water, contaminated raw water, and drinking water). Whether or not exposure to *m*-dichlorobenzene is sufficiently low to obviate testing still needs to be determined.

Comment 3: On-going studies at the ICI Central Toxicology Laboratory will adequately characterize the mutagenicity, carcinogenicity, teratogenicity, and other chronic effects of *p*-dichlorobenzene, and therefore further testing is unnecessary. A proposed MCA study on the teratogenicity of chlorobenzene, *o*-dichlorobenzene, and *p*-dichlorobenzene makes a testing requirement for teratogenicity unnecessary.

Response 3: EPA will review in detail the protocols and any results from these planned and on-going studies when developing test rules. To the extent that these studies adequately characterize the effects of these substances, additional testing will not be required.

Comment 4: One producer commented that epidemiological study of chlorobenzene would not be necessary nor productive at his production site. This is based on having observed no unusual medical effects attributable to chlorobenzene exposure within the

[5] Davis (1961), Comm. Fish. Rev., 23(12):8-23.

OCT 26 78

TLV's and because job mobility and workgroup size makes his employees an unsuitable cohort.

Response 4: The experience of this commentor may be useful in examining the need for and feasibility of epidemiological study of the chlorobenzenes. EPA will utilize whatever information is available on such workplace experiences in considering epidemiological study testing requirements.

Comment 5: One commentor provided information on photodegradation, rates of volatilization from water, biodegradibility, and bioaccumulation potential of mono- and dichlorobenzenes. The commentor indicates that although the chlorobenzenes are released to the environment in large amounts, the compounds do not present an unreasonable risk, and therefore testing should not be required.

Response 5: The data presented by this commentor do not appear to provide a sufficient basis for precluding further consideration of environmental effects testing.

PRELIMINARY APPRAISAL

The testing recommended by the ITC on these chemicals seems generally appropriate, a possible exception being the recommendations for testing of *m*-dichlorobenzene. Because the exposure potential for *m*-dichlorobenzene appears to be lower than those of monochlorobenzene, *o*-dichlorobenzene, and *p*-dichlorobenzene, further investigation of the exposure and environmental release sources of *m*-dichlorobenzene is necessary to help determine whether testing this substance is warranted.

Also, studies in progress at the ICI Central Toxicology Laboratory on *p*-dichlorobenzene and proposed studies by the Manufacturing Chemists Association on monochlorobenzene, *o*-dichlorobenzene and *p*-dichlorobenzene need to be evaluated to determine whether they will be adequate to assess the risks of exposure to these compounds.

CHLORINATED PARAFFINS

This category is comprised of mixtures of the chlorination products of materials known commercially as paraffin oils or paraffin waxes, limited to those having a chlorine content of 35 percent through 64 percent by weight. These compounds were recommended by the ITC for carcinogenicity, mutagenicity, teratogenicity, other chronic effects, and environmental effects testing. The large environmental release rate, their use in a wide variety of household and paint products, and the occurrence of residues in fish formed the rationale for the ITC recommendations.

Although some additional information was found in the supplemental literature search on the uptake of chlorinated paraffins from water, on neurotoxic effects in fish, and on acute mammalian toxicity, this information does not eliminate the testing needs identified by the ITC.

No comments were received on the ITC's testing recommendations for chlorinated paraffins.

PRELIMINARY APPRAISAL

The testing recommended by the ITC seems appropriate. Some additional consideration needs to be given to the definition of this category of substances. EPA is considering increasing the upper limit on chlorine content to 70 percent by weight because this is the maximum percentage attainable in practice and because the ITC dossier refers to a study on a product of this composition.

CHLOROMETHANE

The ITC recommended that carcinogenicity, mutagenicity, teratogenicity, and other chronic effects testing be required for chloromethane. Though it is used primarily as an intermediate, annual environmental release (over 15 million pounds) and the number of workers exposed (about 31,000) were considered significant by the ITC.

No significant new information was identified in the literature search performed on chloromethane.

One comment indicated that a testing program has been initiated at the Chemical Industry Institute of Toxicology to study the carcinogenicity, teratogenicity, mutagenicity, and other chronic effects of chloromethane in response to the ITC's recommendations.

EPA will review the protocols of these studies, and any available results, in detail and determine if these studies will adequately characterize these effects of chloromethane.

PRELIMINARY APPRAISAL

The testing recommended by the ITC seems appropriate. The studies initiated at the Chemical Industry Institute of Toxicology on chloromethane need to be evaluated to determine whether test rules are necessary.

CRESOLS

The ITC recommended that cresols be tested for carcinogenicity, mutagenicity, teratogenicity, other chronic effects, and environmental effects. These recommendations were based largely on information indicating significant environmental, occupational, and general population exposure, as well as on testing in these areas having been inadequate.

SUPPLEMENTAL LITERATURE SEARCH

The major data sources reviewed as supplemental to the ITC dossier are an SRI report entitled "A Study of Industrial Data on Candidate Chemicals for Testing, Research Request No. 3" (EPA 560/5-78-002, June 1978) and the NIOSH "Criteria for a Recommended Standard-Occupational Exposure to Cresol" (DHEW Publication No. 78-13, February 1978). Some additional information was found in these documents regarding the uses of cresols and their chronic toxicity, environmental fate, and ecological toxicity.

PUBLIC COMMENTS

Comment 1: The dossier presents misleading information concerning creosote oil as a source of cresols. The coal tar distillate presently called creosote oil is not the same as the coal tar distillate known historically as creosote oil. Modern day creosote oil contains very little cresols, and therefore creosote oil (used in wood preservation) is not a source of cresols to the environment.

The non-intermediate, potentially dispersive uses of cresols account for only a small fraction of the approximately 100 million pounds per year of production; the environmental release of cresols is on the order of 3 to 5 million pounds per year, not 30-45 million pounds.

Response 1: EPA agrees that creosote oil is chemically an ill-defined material and that the term has been applied to quite different materials, some of which may indeed have little or no cresols present in them.

With respect to the environmental release associated with the use pattern of cresols, no additional clarifying information has yet been found in the literature.

Additional investigation of creosote oil as a source of cresols to the environment, as well as further investigation into the use pattern of cresols, will be necessary in considering test rules for cresols, perhaps most importantly with regard to the environmental effects testing.

Comment 2: The ITC dossier states that approximately 2 million persons (referenced to the NIOSH/NOHS data base) are occupationally exposed to cresols; NIOSH estimates the exposed population at 11,000, one producer estimates the exposed population at 40,000; and another producer estimates the exposed population at about 670,000.

Response 2: It is not clear how the figure of 2 million was arrived at in the NOHS study, and NIOSH does not indicate in its Criteria Document why its estimate of 11,000 differs so dramatically from the NOHS estimate. NIOSH does state that its estimate of 11,000 is low because it does not include workers exposed intermittently to cresol-containing degreasing agents. (The estimate of 670,000 included 627,000 such workers.)

Some additional effort is needed to define more clearly the size and nature of the population exposed occupationally to cresols. However, NIOSH also stated the need for cresols to be studied for long-term, low-level exposure effects, carcinogenicity, mutagenicity, and teratogenicity.

PRELIMINARY APPRAISAL

The basis for the ITC's testing recommendations for cresols included information indicating a high potential for enviromental release and human exposure. The ITC's recommendations to test for carcinogenicity, mutagenicity, teratogenicity, chronic toxicity, and environmental effects seem appropriate if substantial exposure to cresols occurs. However, the extent of exposure to cresols needs to be further evaluated. Specifically, EPA's preliminary review has found that the use pattern of cresols suggests a substantially lower environmental release rate than that cited in the ITC dossier. In addition, the occupationally exposed population may be much smaller than the estimate reported in the dossier. The occupationally exposed population, as well as the general populations exposed to cresols, needs to be more accurately identified.

HEXACHLORO-1,3-BUTADIENE

The ITC has recommended that hexachloro-1,3-butadiene be tested for environmental effects because of evidence of widespread distribution in the aquatic environment and reports of bioaccumulation in fish and other aquatic organisms.

The supplemental literature search uncovered some information on hexachloro-1,3-butadiene toxicity to aquatic organisms and soil microfauna, on environmental fate, and on environmental occurrence. None of these reports appear to eliminate the need for the environmental effects testing recommended by the ITC.

V 4 3 / 2 0 8

No comments were received on the ITC's test in recommendations for hexachloro-1,3-butadiene.

PRELIMINARY APPRAISAL

The ITC's recommendation for environmental effects testing of hexachloro-1,3-butadiene seems appropriate.

NITROBENZENE

The ITC has recommended that nitrobenzene be tested for carcinogenicity, mutagenicity, and environmental effects because of its estimated annual release to the environment of 20 million pounds, its numerous dispersive uses, its ability to penetrate intact skin, and the efficiency of its absorption by inhalation.

SUPPLEMENTAL LITERATURE SEARCH

A number of articles on nitrobenzene not cited in the ITC dossier were found in the supplemental literature search. One article presented some additional data on the degradation of nitrobenzene, but the information is not considered sufficient to characterize its environmental fate.

PUBLIC COMMENTS

One comment indicated that there are test results which show that little bioaccumulation of nitrobenzene in fish has occurred. These data will need to be obtained and reviewed in detail in considering specific environmental effects testing requirements for nitrobenzene.

PRELIMINARY APPRAISAL

The ITC's recommendations for carcinogenicity, mutagenicity, and environmental effects testing of nitrobenzene seem appropriate.

TOLUENE

Over 1 million workers are thought to be exposed to toluene, which is produced in very large quantities, is used widely as a solvent and in many other ways, and has an estimated annual release rate of over 1 billion pounds. The ITC has recommended that toluene be tested for carcinogenicity, teratogenicity, and other chronic effects, and that an epidemiological study be performed on the human health effects of toluene.

SUPPLEMENTAL LITERATURE SEARCH

A number of articles were identified which presented some information on the carcinogenicity, teratogenicity, and chronic toxicity of toluene. However, the information obtained does not fill the data gaps reflected in the ITC testing recommendations.

PUBLIC COMMENTS

Comments were received which indicated that ongoing studies at the Chemical Industry Institute of Toxicology will provide information on the carcinogenicity and chronic effects, and that teratogenicity studies will follow.

EPA will review the protocols of these studies, and any available results, in detail and determine if these studies will adequately characterize these effects of toluene.

PRELIMINARY APPRAISAL

The ITC's recommendations for carcinogenicity, teratogenicity, and chronic toxicity testing of toluene seem appropriate, as does the ITC's recommendation of epidemiological study of toluene's effects on human health.

Studies in progress on carcinogencity and chronic toxicity, as well as planned studies on teratogenicity, need to be reviewed by EPA to determine whether they will adequately characerize toluene's potential to produce these effects.

XYLENES

Xylenes were recommended by the ITC for mutagenicity and teratogenicity testing, and for epidemiological study. The very large production volume and environmental release rate, the large occupationally exposed population, and widespread use in a variety of products resulting in general population exposure were noted in the ITC's recommendations.

SUPPLEMENTAL LITERATURE SEARCH

Two articles were identified in the supplemental literature search which presented some information on mutagenicity not given in the ITC dossier. However, neither study was adequate for drawing conclusions on the mutagenicity of xylenes.

PUBLIC COMMENTS

Comment 1: Initial testing should be focused on mixed xylenes rather than on testing the three xylene isomers separately. Negative results on mixed xylenes would indicate that no further testing of the individual xylenes is necessary; positive results would dictate further testing.

Response 1: EPA must, to require testing of a mixture under section 4(a), conclude that the effects of concern may not be reasonably and more efficiently determined or predicted by testing its components individually. EPA has not yet reached a conclusion on what to test in the case of xylenes. The main determinants will be the potential for additive, synergistic, or antagonistic effects and the pattern of exposure (i.e., as the mixture and as the individual xylene isomers). In addition, consideration will be given to the anticipated costs of testing the mixture versus testing the individual xylene isomers.

Comment 2: The usage of *m*-xylene (as the individual isomer) is less than 200 million pounds per year, and the production figure of 1,710 million pounds per year given in the dossier is inaccurate.

Response 2: The comment is accepted. The current production of *m*-xylene as the individual isomer appears to be about 100 million pounds per year.

PRELIMINARY APPRAISAL

The ITC's testing recommendations for xylene seem appropriate.

A critical question with respect to xylenes is whether to test the mixed xylenes, the individual isomers, or both. EPA has not yet made any judgment on this point.

TOXIC SUBSTANCES CONTROL

Proposed Approach To Implementing the Toxic Substances Control Act; Request for Public Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice, request for public comments.

SUMMARY: This document outlines EPA's current approach to implementing the Toxic Substances Control Act (TSCA). The present approach has evolved over the past several months and will continually become more sophisticated as EPA gains experience and develops a comprehensive strategy for implementing TSCA. The purpose of this document is to share EPA's current approach and invite public comments.

DATES: Comments should be provided by December 20, 1978.

ADDRESS: Comments should be addressed to Attention: Joyce Barbour, Office of Toxic Substances, (TS-793), Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460. Please mark comments with the identifying notation OTS-260001. All written comments will be available for public inspection in room 711, East Tower, from 9 a.m. to 4 p.m. Monday through Friday.

FOR FURTHER INFORMATION CONTACT:

Mr. John B. Ritch, Director, Office of Industry Assistance, Office of Toxic Substances (TS-799), Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460, 202-554-1404 or 800-424-9065 (toll free).

Dated: October 16, 1978.

STEVEN D. JELLINEK,
Assistant Administrator for Toxic Substances.

PROPOSED APPROACH TO IMPLEMENTING THE TOXIC SUBSTANCES CONTROL ACT

Regulatory actions under section 6.
Integrated approach to toxic substances.
International approaches to toxic substances.
Appendix: Organization chart.

PURPOSE

This document outlines EPA's current approach to implementing the Toxic Substances Control Act (TSCA). It sets forth the basic objectives for the early years of implementation, discusses major policy decisions already made by EPA, and identifies questions yet to be resolved.

The approach outlined here has evolved through several earlier drafts and will be succeeded by progressively more sophisticated versions as EPA gains experience and develops a comprehensive strategy for implementing TSCA. Furthermore, many issues are addressed only briefly in this presentation. Selected topics, such as unreasonable risk determinations under TSCA, will be covered in supplementary documents.

This document is primarily directed toward the people responsible for implementing TSCA and other Federal, State, and local programs concerned with controlling toxic substances. It is also intended for those with an informed interest in the matter, such as Members of Congress and their staff, and representatives of industry, labor, and public interest groups. It assumes general familiarity with TACA and with EPA activities so far, and focuses on important issues involved in implementing the Act.

INITIAL IMPLEMENTATION

Under the Toxic Substances Control Act, EPA is responsible for identifying chemical substances that present unreasonable risks to human health or the environment and for taking action to minimize the risks. To achieve TSCA's goals, EPA will concentrate in the early years of implementation on these objectives:

- Develop the necessary organization and staff.
- Define methods for assigning priority to chemical substances for investigation and regulation.
- Establish procedures for testing and evaluating chemical hazards.
- Initiate information gathering.
- Establish mechanisms for premanufacture notification of new chemical substances.
- Take selective regulatory actions.
- Develop a coherent agencywide approach to toxic substances.
- Work toward consistent international approaches to toxic substances control.

ORGANIZATION AND STAFF

The organization and staff to implement TSCA are almost entirely new. Unlike most other laws for which EPA is responsible, the predecessor program was extremely modest. When TSCA was enacted in October 1976, the toxic substances program had fewer than 50 people. To carry out the new responsibilities, a staff of 500 or more will be built up in the next few years. Recruiting and hiring a high-caliber staff with the necessary expertise is receiving high priority, and will require continuing time and effort.

DETERMINING PRIORITIES

The reach of the Toxic Substances Control Act is extremely broad. It encompasses some 70,000 chemical substances in commerce, not including thousands of others used for research and development. With the mandate to investigate risks from such a multitude of substances and to regulate where appropriate, EPA's actions must be selective. A major objective is to develop a system for assigning priority to chemical substances for investigation and regulatory action. Certain general principles will guide the process.

In all decisions under TSCA, the relative risk presented by a chemical substance will weigh heavily. Two principal factors define risk: Potential adverse effects and exposure. evaluation of a risk involves both policy and scientific considerations. For instance, assigning more or less importance to acute versus chronic effects raises basic policy questions. Potency—the magnitude of the probable effects that a substance will produce at various levels— and exposure both involve scientific determinations.

Taken together, the principal factors, potential effects and exposure, indicate the nature and degree of risk. To determine whether risks are "unreasonable" for purposes of actions under TSCA, EPA must consider another complex set of factors. Priority for taking action to reduce a risk may depend not only on the degree of risk but also on the magnitude of the social and economic costs and benefits of the action, and the effects of alternative substances which might be substituted for the substance in question. In general, good information on all the relevant factors will characterize substances which receive high priority for action. Yet, for some substances, the known severity of effects or the extent of estimated exposure may warrant a high priority for action despite uncertainties about other factors.

Priorities will also be affected by efficiency and resource considerations. A significant factor in EPA's decision to take action under TSCA will be the relative effectiveness of controlling the risk under TSCA, compared with some other legal authority. At the same time, EPA will explore alternatives to regulatory actions—measures, for example, which prompt industry to test substances or adopt appropriate

safeguards without mandatory requirements.

Priorities may be different for different activities. For example, limited knowledge about the effects of a chemical in high volume production might give the chemical a high priority for testing, but a low priority for control action. However, data developed under a testing requirement might lead to a decision to initiate control action. In some instances, if currently available data are inconclusive, limited regulatory action (such as labeling) might be taken, to warn of suspected hazards pending the collection of more definitive data.

EPA has already considered some kinds of effects to emphasize in setting priorities and has reached some working decisions. Some of the decisions are straight forward. For example, where acceptable tests for a particular effect are not available, EPA will not require testing. Other decisions are more complex.

In general, chemical substances suspected of producing chronic health effects will take higher priority than those with potential acute effects. The acute effects of chemical substances in commerce are better known and more easily controlled than are chronic or latent effects, which may appear after a long latency period or exposure over an extended period of time, and are thus much more difficult to identify.

Higher priority will be given to possible toxic effects that are irreversible or are slowly reversible and debilitating; included in these two categories are oncogenic, mutagenic, teratogenic, and neurotoxic effects. Consideration will also be given to cardiovascular, respiratory, immunological, dermatological, and reproductive effects. EPA will be more concerned with the severity and relative irreversibility of the effects than with which systems are affected.

In considering environmental effects, EPA will give high priority to substances which are both widely dispersed and also threaten human health (for example, through contamination of water supply), or else endanger commercially important species, or threaten to disrupt significant ecosystems. Toxic effects on individual plants or animals that do not threaten species populations or ecosystems will take lower priority. These criteria for determining priorities will be further developed and refined with experience.

HAZARD ASSESSMENT PROCESS

EPA has developed a multistage process for identifying substances of priority concern from among the tens of thousands of chemical substances under TSCA's purview. EPA will use these procedures to select the substances most likely to present unreasonable risks to human health or the environment. EPA will proceed step-by-step from initial selection of chemical substances for review, to a preliminary evaluation, to progressively more intensive assessments. Decisions will be made at the end of each stage whether to continue to the next. At the final stage there will be a detailed risk assessment adequate for initiating regulatory actions under TSCA or other relevant authorities.

Substances will first be selected on the basis of structure/activity correlations, biological activity, production volume, potential for environmental release and exposure, persistence, and other factors. On the basis of these criteria, EPA will score substances using a system based on that used by the Interagency Testing Committee.[1] In addition, candidates may come from several other sources, such as citizen's petitions, recommendations by other agencies, notices of substantial risk submitted under TSCA, monitoring data, or categories of particular concern (such as "flame retardants").

The initial evaluation will use readily available production, use, and effects data. It may prompt several possible actions: EPA may conduct a more thorough hazard assessment; develop additional information through reporting or testing requirements; refer the substance for further evaluation by other EPA programs or other Federal agencies; or designate the substance as "low priority." The results of the evaluation (reported in a Chemical Hazard Information Profile) and recommendations for action are then considered by an agencywide committee, the Toxic Substances Priorities Committee.[2]

Substances that EPA believes warrant further evaluation will undergo the next level of review. In addition to candidates selected from this process, EPA may select some from those reviewed by the Interagency Testing Committee or identified by review of substantial risk notices. During this phase, EPA will prepare a Chemical Source/Effects Report that summarizes the available effects data and analyzes possible sources of exposure associated with manufacturing, processing, distribution, use, and disposal. Preliminary control option papers will consider possible regulatory and nonregulatory measures. The Toxic Substances Priorities Committee will review these alternatives from the perspective of other EPA programs and authorities.

A decision to advance to the final assessment stage requires a commitment of substantial resources. In this final stage, EPA may conduct monitoring to develop or confirm estimates of exposure. The Office of Toxic Substances will prepare a Chemical Risk Evaluation Document that includes a detailed evaluation of effects and exposure data. Draft documents concerning the relative risks and benefits of the substance and possible actions will be circulated within EPA for review and comment. The Toxic Substances Priorities Committee will have an opportunity to discuss the options. After a decision that the risks should be addressed under TSCA or another of EPA's authorities, EPA's normal regulatory process will begin.

TESTING

One of the most important provisions of the Toxic Substances Control Act is the authority in section 4 to require manufacturers and processors to test chemical substances and mixtures for health and environmental effects. Very few substances have been tested for long-term or chronic effects. Additional testing of substances with potentially high exposure or those suspected of causing harmful effects will greatly help EPA to meet the objectives of TSCA.

As a first step, EPA is developing a series of test standards for different health and environmental effects. The standards will specify acceptable test protocols and methods for developing, analyzing and presenting test data. To the extent possible, these test standards will be consistent with those in the testing guidelines issued under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). Because many substances have both pesticide and nonpesticide uses, discrepencies between the testing protocols required under TSCA and FIFRA could lead to costly duplication.[3]

The first standards will be to determine whether chemical substances are oncogens, or tumor-causing substances. The second standards will be for chronic effects on liver, kidney, reproductive, circulatory, and other organ systems. They will be followed by standards for acute and subchronic toxicity, chemical fate, and persistence. Further in the future, EPA will

[1] The Interagency Testing Committee, established by sec. 4(e) of TSCA, is responsible for recommending chemical substances for testing under sec. 4. In October 1977, the committee published their methods for selecting substances (42 FR 55026). The committee's work and relation to EPA are described in a following section.

[2] The composition and role of the Toxic Substances Priorities Committee are discussed in a later section.

[3] EPA is also working to insure that TSCA test standards are consistent with those of the Food and Drug Administration (FDA), Consumer Product Safety Commission (CPSC), Occupational Safety and Health Administration (OSHA), and other Federal agencies. This effort is primarily through the interagency regulatory liaison group (EPA, FDA, CPSC, and OSHA).

issue test standards for teratogenicity and reproductive effects, mutagenicity, and additional health and environmental effects.

and laboratories that will perform the testing. Industry's responsibility extends beyond minimal compliance with the testing requirements. EPA

reasons for not initiating rulemaking. Thus far, EPA has found that the October 1977 ITC recommendations seem appropriate. The initial testing rules

cation system could be used to gather data for hazard assessment, premanufacture notification, and other purposes. For screening substances for

Notices of substantial risk. Section 8(e) requires any person who manufactures, processes, or distributes a chemical substance in commerce to

Congress intended EPA to preserve confidentiality to the maximum

V 4 3 / 2 0 8 0 C 2 6 7 8

issue test standards for teratogenicity and reproductive effects, mutagenicity, and additional health and environmental effects.

Specific test standards under TSCA depend in part upon the availability of well-validated test methods. For example, there are no generally accepted test methods for some environmental effects. Nor are there short-term predictive tests for most health and environmental effects. An important part of EPA's program will be to develop and validate urgently needed testing methods. EPA will monitor advances in the state-of-the-art and revise prescribed testing standards accordingly.

Wherever possible, EPA plans to develop a hierarchical or sequential approach to testing requirements. Under this approach requirements for higher-level tests (such as long-term testing for oncogenicity) will depend in part on the results of lower-level tests (such as mutagenic tests). This approach will be most successful when reliable shortterm, inexpensive predictive tests are available. If such tests do not exist, such factors as the chemical structure of a substance, physical, and chemical properties, preexisting toxicity data, or extent of exposure, may be used to trigger testing.

Measures to insure that tests are properly conducted and accurately reported are critical to the success of the testing program. Recent disclosures of inaccurate or fraudulent test data submitted to the Government underline the importance of quality control.

EPA is developing standards for quality assurance that will prescribe general procedures for conducting tests required by TSCA. The standards will address a variety of factors that could affect the quality of the test data, including the training and experience of laboratory personnel, the care, feeding, and examination of test animals, the condition of laboratory equipment, and pathology procedures. To the extent possible, the standards for quality assurance will be consistent with the good laboratory practices developed by the Food and Drug Administration (FDA).

Enforcement of the testing and quality assurance standards through selected laboratory inspections and data audits will be an important aspect of the testing program. Under an interagency agreement, FDA will frequently conduct laboratory inspections for purposes of TSCA. If a laboratory is not in compliance, EPA will not accept the test results. Records kept during the course of an experiment will frequently be compared with the reported results. EPA may also examine pathology slides of test animal tissues to evaluate the reported conclusions.

The success of the testing program rests largely with the chemical firms and laboratories that will perform the testing. Industry's responsibility extends beyond minimal compliance with the testing requirements. EPA expects that if an unanticipated adverse effect is observed, the responsible party will make further tests or analyses. Similarly, if a firm considers a recommended test method inappropriate for a certain substance, it should propose an alternative.

The selection of chemical substances to be subjected to test standards is another critical aspect of the testing program. Under TSCA, if a substance may present an unreasonable risk or is produced in substantial quantities and may have significant human or environmental exposure, testing may be required as necessary to evaluate its risks. EPA's systematic hazard assessment process, described in the previous section, will identify candidate substances for testing. Each candidate will be screened further on the basis of previously developed data, structure/activity correlations, production volume, use and exposure information, and other factors.

In addition to the substances identified through the hazard assessment process, the Interagency Testing Committee (ITC) comprised of representatives of eight Federal agencies, may recommend substances or classes of substances for testing. For substances designated by the Committee for special attention, the Administrator must either begin rulemaking to require testing or publish his reasons for not doing so within 12 months after receiving the Committee's recommendation.

To date, the Interagency Testing Committee has recommended 21 chemical substances and classes of substances, in three groups. All have been designated for priority attention by EPA. In October 1977, the Committee provided its first set of recommendations which are: Alkyl epoxides; alkyl phthalates; mono- and di-chlorinated benzenes; chlorinated paraffins; chloromethane; cresols; hexachloro-1,3-butadiene; nitrobenzene; toluene; and xylenes. The second set submitted in April 1978 included: Acrylamide; aryl phosphates; chlorinated naphthalenes; dichloromethane; halogenated alkyl epoxides; polychlorinated terphenyls; pyridine; and 1,1,1-trichloroethane. The latest recommendations were received in October 1978: Tri-, tetra-, and penta-chlorinated benzenes; 1,2 dichloropropane; and glycidol and its derivatives.

As required by TSCA, EPA responded to the ITC's first set of recommendations within 12 months. Because EPA had not yet completed its review of the recommended substances and the development of suitable test standards, EPA published a FEDERAL REGISTER notice in October 1978 stating its reasons for not initiating rulemaking. Thus far, EPA has found that the October 1977 ITC recommendations seem appropriate. The initial testing rules for oncogenicity will probably encompass many of the ITC candidates.

RECORDKEEPING AND REPORTING REQUIREMENTS

A principal aim of the information program under TSCA is to meet the needs of potential data users without requiring duplication or otherwise imposing unreasonable burdens on industry. As a first step, EPA is identifying the specific information needs within EPA and other Federal agencies. At the same time, EPA is surveying existing information-gathering programs to determine the most efficient means of obtaining the desired information. To the extent possible, reporting requirements will be consolidated. In addition, EPA will survey the industry's current systems and policies for recordkeeping to assess the likely impacts of different approaches. On the basis of these and other studies, a plan for implementing TSCA's information-gathering authorities will be prepared.

In gathering information under section 8(a) EPA will use modular reporting rules, which recognize that different degrees of specificity are appropriate for different purposes. Reporting use information in general categories (e.g., "solvents used in consumer products") rather than in terms of specific applications (e.g., "solvents used in consumer products for spot removal") may be adequate for some purposes such as selecting substances for preliminary screening. Substances undergoing further assessment may require more detailed information. Eventually, several levels of reporting requirements may be developed for various kinds of information.

A primary goal for the next few years is to develop a data base that will help identify substances that may present the greatest risks. The collection of data under the inventory reporting requirements of December 1977 was a first step. Reports submitted under these requirements include chemical identity, production, and plantsite information for an estimated 70,000 substances in commerce. As a next step, EPA plans to require general use information for substances produced in substantial quantities or for substances identified as potential candidates for hazard assessment.

A uniform system for identifying uses is critical to accurate reporting and systematic data retrieval and analysis under TSCA. On July 25, 1978, EPA published approximately 850 terms describing chemical uses, and invited public comment on the applicability, utility, and technical merit of the proposed terms. This use classification system could be used to gather data for hazard assessment, premanufacture notification, and other purposes. For screening substances for preliminary review, the 850 categories may be coalesced into a small number of broad categories. On the other hand, for purposes of regulatory actions EPA may define subcategories to obtain more explicit use information.

Definition of small manufacturers and processors. TSCA's section 8(a) provides that "small manufacturers and processors" are exempt from general reporting requirements except for information on chemical substances or mixtures subject to a proposed or final rule or order under TSCA. EPA is developing standards for determining which manufacturers and processors quality as "small."

Because the potential costs of different reporting requirements vary widely, EPA is seriously considering different standards for the "small manufacturer and processor" for different purposes. It is relatively inexpensive, for example, to supply data in broad production ranges or use categories for purposes of screening substances. On the other hand, it will be far more burdensome to report the extensive and precise information that may be necessary for specific regulatory purposes. EPA is currently analyzing available data and consulting with the Small Business Administration to determine whether different standards would be appropriate for successively more demanding requirements.

Selective approach to requirements. EPA intends to make selective use of reporting requirements. Before issuing a reporting requirement, EPA will determine what data are already available, and will direct most requirements to selected substances or categories. For example, EPA does not now intend to update the plantsite and production information collected for all substances under the initial reporting requirements. EPA needed this information to establish a profile of the chemical industry and to determine initial priorities based on production volumes and geographic considerations. As discussed above, EPA's next requirements under section 8(a) will concentrate on obtaining general use information for selected substances.

Compatible recordkeeping. EPA will encourage companies to design their recordkeeping systems to be compatible with the formats developed for TSCA, especially for health and safety data. Common formats will facilitiate analysis of information collected from a number of sources. In addition, EPA will prescribe a general format for keeping records of adverse effects under section 8(c).

Notices of substantial risk. Section 8(e) requires any person who manufactures, processes, or distributes a chemical substance in commerce to notify EPA immediately of "information which reasonably supports the conclusion" that such a substance "presents a substantial risk of injury to health or the environment." This provision was effective on January 1, 1977. In March 1978, EPA published a policy statement providing guidance for submission of 8(e) notices. The Agency had received approximately 240 notices by September 1978.

Each notice is reviewed as expeditiously as possible and any special problems are referred to the appropriate authority. The majority of notices so far have concerned workplace problems and have been referred to the Occupational Safety and Health Administration. Several notices have prompted evaluation under the hazard assessment process described earlier.

EPA's experience to date suggests certain problems. Of the major chemical companies that employ over 90 percent of the workers and conduct a substantial proportion of research on health and environmental effects, very few have submitted notices of substantial risks. The notices have generally lacked sufficient detail. In almost every case, EPA must contact the submitter for clarification or further information.

EPA is considering clarifying or revising the March policy statement, possibly giving examples of information that should be reported in contrast with examples of inappropriate notices. The revised statement would emphasize that people who submit notices should be prepared to furnish the necessary support data initially or upon request.

Confidentiality. There is an inherent tension in TSCA between requirements to make information available to the public and requirements to protect information entitled to confidential treatment. This conflict emerged first in the context of the inventory reporting regulations. Section 8(b) requires EPA to publish a list of each chemical substance manufactured or processed in the United States. The purpose of the list was twofold: To define "new chemical substances" for purposes of premanufacture notification under section 5(a) and to inform the public of the substances to which they may be exposed. Section 14, however, prohibits disclosure of any confidential business information exempt from disclosure under the Freedom of Information Act (5 U.S.C. 552(b)(4)) except in specific circumstances. According to this provision, EPA could not publish in the inventory a chemical name that would reveal the specific chemical identity of a substance if that identity was entitled to confidential treatment.

Congress intended EPA to preserve confidentiality to the maximum extent practicable without impairing administration of TSCA. Under the inventory reporting regulations, EPA allowed manufacturers, importers, and processors to claim as confidential specific chemical identities. Instead of publishing an incomplete inventory, however, EPA will publish generic chemical names to reveal at least the types of confidential substances in commerce. In complying with the inventory reporting requirements, anyone claiming confidentiality for a chemical identity had to answer detailed questions on the adverse competitive effects of disclosure, the precautions taken to prevent disclosure, and other items. EPA will review these claims critically and will challenge any proposal for a generic chemical name that seems inappropriate.

These same issues will arise for premanufacture notifications submitted to the Agency. EPA is required to publish in the FEDERAL REGISTER notice of receipt of premanufacture notifications. EPA will protect the confidential identities of substances in these notices. In addition EPA will continue to add chemical substances to the inventory once they are manufactured for commercial purposes using the same approach adopted for compiling the initial inventory.

Section 14(b) explicitly provides for disclosure of health and safety studies, but allows for protection of confidential data whose release would disclose the processes used in manufacturing or processing the substance or portions of a mixture. In the premanufacture rulemaking, EPA will solicit comments on its proposed manner for handling specific chemical identities as part of health and safety studies under section 14(b).

Under the inventory reporting regulations, manufacturers were allowed to claim confidentiality for data such as the company name, site, and production quantities. These claims had to be substantiated at the time the information was submitted, but the requirements were less rig than for claims with respect to ci. nical identities. If the claims relating to company name, site, and production data are so numerous as to impair use of the data, EPA may require further substantiation for such claims.

To disclose as much useful information as possible to the public, EPA is developing procedures to aggregate or otherwise mask confidential production, plantsite, and other data. Even when specific production volumes are confidential, the aggregate production for a substance may not be. In devising formulas for masking confidential

V 4 3 / 2 0 8 0 C 2 6 7 8

information. EPA is consulting the Bureau of the Census and the International Trade Commission which have procedures for this purpose.

EPA has recently adopted final internal security procedures for physical handling of confidential data. The Toxic Substances Control Act Confidential Business Information Security Manual describes the procedures for transmission, receipt, storage, access, removal, and disposal of confidential information submitted to EPA, and the circumstances under which information may be disclosed to EPA's regional offices, laboratories, and other Federal agencies.

In addition, EPA amended its business confidentiality regulations (43 FR 39997, September 8, 1978). Among other things, these amendments bring these regulations in conformity with the procedures required by TSCA's section 14 for handling confidential business information. For example, EPA will notify affected businesses before disclosing confidential business information to the general public and when relevant in proceedings under various EPA statutes. In addition, EPA will notify affected businesses before disclosure to contractors, other Federal agencies, and congressional committees even though such advance notice is not legally required.

PREMANUFACTURE NOTIFICATION

Development of premanufacture notification requirements and implementation of the premanufacture review program is EPA's top priority TSCA activity for fiscal years 1978 and 1979. As provided in section 5, any person intending to manufacture or import a "new" chemical substance must submit a premanufacture notice at least 90 days before he intends to manufacture or import the substance for commercial purposes. Any chemical substance not included on the inventory of substances compiled under section 8(b) will be considered "new". EPA will publish the inventory in early 1979; the premanufacture notification requirements will be effective 30 days later.

EPA will soon propose rulemaking in the FEDERAL REGISTER for reporting "new" chemical substances under section 5. The premanufacture rules will govern notification procedures. Notice forms, an important part of the proposal, will also be published for comment. Testing protocols will not be part of the initial premanufacture proposal. Instead EPA will solicit comment on alternative approaches to testing guidance.

In developing its approach to implementing premanufacture notification, EPA must consider the enormous diversity among chemical substances, manufacturing and processing practices, and chemical uses. For all substances, certain basic information will be required concerning chemical identity, projected uses and exposure, byproducts, disposal methods, and a summary of the toxicity and other tests performed. EPA's evaluation of new substances will depend upon an assessment of their potential health and environmental effects and the potential exposure associated with the manufacture, processing, use, and disposal of the substance.

A manufacturer will also have an opportunity to explain why in his judgment there will be no unreasonable risk, taking into account economic, environmental, and health benefits associated with the substance as well as the nature of the substances for which it may be substituted. EPA will evaluate the notice on the basis not only of the information and justifications provided by the manufacturer, but also in light of available information on similar substances, exposures associated with comparable uses or control technologies, and other relevant factors.

An important aspect of this approach is to insure that the future manufacture and use of the substance do not result in unreasonable risks. For certain substances, EPA may require reporting of any use that would exceed certain conditions of exposure as a "significant new use" under section 5, as discussed below. EPA may frequently use section 6 to require that manufacturers notify employees and customers of the hazards presented by the substances and necessary precautions. A wide variety of other possible actions include adoption of workplace standards by the Occupational Safety and Health Administration.

Over the past several months, EPA has undertaken an intensive effort to develop guidelines for testing new chemical substances. The objective was to identify a relatively inexpensive test system that EPA would consider adequate for developing data on the physical and chemical properties, environmental fate characteristics, and health and ecological effects of new substances. While EPA will continue work on developing a testing program for new substances, the initial premanufacture package will not propose specific testing guidance. Instead, EPA will discuss a possible approach and alternatives and solicit public comment.

Development of testing guidance poses many difficult scientific, economic, and policy issues. Not all tests are appropriate for every chemical substance. The relevance of various tests will depend upon the structure, physical and chemical properties, results of acute and other preliminary tests, and the levels and types of exposure that may be associated with the substance. In addition to complex scientific issues, EPA must consider the impact on innovation. Few manufacturers are willing to invest in extensive testing of a substance if not justified by its potential commercial returns. At the same time, EPA must have adequate data to carry out its responsibilities under TSCA to assess the risks of substances submitted for premanufacture review. These and other issues will be discussed further in the proposed rules for premanufacture notification.

SIGNIFICANT NEW USE

Under section 5, EPA can designate certain uses of chemical substances as "significant new uses" and require notification before a substance is manufactured or processed for that use. This provision recognizes that the risk a substance presents is in large measure determined by its potential exposure. A highly toxic substance that is totally consumed in a closed reaction process can pose relatively little risk of injury. If it is produced in millions of pounds for use in a household product, however, the risks may be substantial.

By designating certain uses of a substance as "significant new uses", EPA will be able to review changes in exposure and prohibit those that may result in unacceptable risks. This is particularly important for following up new chemical substances after premanufacture review. If EPA reviews new substances on the basis of certain conditions of exposure, it may be very important to insure that the substance is not afterwards manufactured or processed for uses that would result in different exposures.

EPA is considering alternative definitions of "significant new uses." Some definitions may focus on particular substances or classes of substances and future uses that could result in potentially hazardous levels of exposure. Others may focus on "uses" broadly defined to include production volumes, distribution, disposal practices, and other factors. Application of any substance or broad categories of substances for designated "uses" would be considered "a significant new use."

EPA is investigating significant new use rules ranging from some very specific to quite general. General ones would apply to "substances (with generally similar toxic properties) for all uses which may result in (some mode of exposure) at (some levels related to the general toxicity) to (some population)". Decisions on significant new use rules must be made while keeping in mind the resources available to review the notices, the feasiblity and effectivness of alternative actions, competing priorities, and the importance of such rules in the overall strategy for reviewing chemical substances.

REGULATORY ACTIONS UNDER SECTION 6

TSCA provides unique authority to reach the critical aspects of most chemical problems. Other laws and regulatory authorities focus on chemical substances as they come out of an outfall pipe or stack, or as they are present in the workplace or in a consumer product. Congress anticipated that EPA under TSCA would take a preventive approach and control hazards at their origins. TSCA's authority extends to every facet of the chemical industry from research and product development, test marketing, manufacturing, processing, distribution, use, to disposal.

Armed with TSCA, EPA can address hazards that escape the reach of other laws. Sometimes regulations under media-specific laws have resulted in simply transferring problem chemicals from one medium, which is regulated, to another that is not (or not yet). Under TSCA, EPA can act to control the total risk from substance, in any medium or content.

EPA will initially emphasize control of known hazards posed by existing substances plus hazards identified in the premanufacture notification process for "new" substances. EPA's first action under TSCA was to promulgate regulations on the labeling and disposal of polychlorinated biphenyls (PCBs). The second phase of PCB regulations, implementing a ban on manufacture, processing, distribution, and use was formally proposed on June 7, 1978.

Last March, in a joint action with the Food and Drug Administration and the Consumer Product Safety Commission, EPA banned most aerosol uses of chlorofluorocarbons (CFC's). EPA is now investigating ways to further reduce CFC emissions, specifically from such nnonaerosol sources as air conditioners, refrigerators, solvents, and foam-blowing.

A number of well-recognized hazardous substances and alternative approaches to them are being evaluated. Among the substances are asbestos, cadmium, benzidine dyes, mercury, lead, arsenic, and trichloroethylene.

Considering the breadth of TSCA's mandate, a most significant activity is the development of a systematic approach for selecting substances for possible regulatory action. An earlier section described in some detail the hazard assessment process developed for this purpose. As EPA gains more knowledge about the effects and exposure of substances, this process will be refined.

EPA intends to make wide and varied use of categories under different sections of the Act. Section 26(c) provides that any authority under TSCA that applies to a chemical substance or mixture may also be applied to a category of chemical substances or mixtures. EPA may define categories in any reasonable way, except that substances cannot be treated categorically solely on the basis that they are "new".

EPA is considering the use of categories in developing a labeling requirement. At present few chemical substances are labeled with warnings to workers, consumers, and others on their chronic effects. EPA is now investigating Federal labeling requirements and existing practices in industry. Ideally, EPA could create under the auspices of TSCA a uniform system for labeling chemical hazards wherever they appear—in research laboratories, manufacturing sites, consumer products or wherever. The foundation of any labeling system is the classification of various levels of acute and chronic hazards. The categories evolving from this effort could affect many aspects of TSCA implementation, such as reporting requirements or priorities for hazard assessment.

EPA economists will carefully analyze the potential impacts of any action under TSCA. Because many chemical firms have very few employees, regulatory actions under TSCA will frequently affect small businesses. EPA and the Small Business Administration have discussed loans to help small manufacturers and processors bear the costs associated with TSCA requirements.

Ideally, the influence of TSCA implementation will go far beyond specific regulatory actions. Actions to prompt voluntary measures by industry will be a key element of EPA's strategy. Labeling requirements, for example, may significantly affect industry behavior. Public disclosure of the relative hazards of chemical products might also create a market demand for safer products.

Similarly, EPA hopes to raise awareness among chemical manufacturers, insurance companies, investors, and others that evaluating new products for their risks to human health and the environment is highly important. Using technology to reduce risks from chemical substances is a major feature of many environmental laws, including TSCA. EPA will work with the chemical industry to encourage technological solutions whenever appropriate, instead of imposing more costly restrictions under TSCA.

INTEGRATED APPROACH TO TOXIC SUBSTANCES

An integrated approach to toxic substances is a major Agency-wide objective. TSCA gives EPA this opportunity. It extends to all aspects of a substance's lifecycle and enables EPA to use its other authorities more effectively.

For example, data developed under the testing provisions of TSCA on the risks of pollutants in drinking water or in ambient air could provide the basis for actions under the Safe Drinking Water Act or Clean Air Act. Information on the effluent and emissions associated with the manufacture of new substances will come from premanufacture notification. If necessary, EPA could impose effluent limitations on a plant under the Clean Water Act to control discharge of toxic substances. Information on chemical wastes and disposal methods may prompt action under the Resource Conservation and Recovery Act.

As an element of a strategy for integrating control over toxic substances, EPA has established the Toxic Substances Priorities Committee. it is chaired by the Assistant Administrator for the Office of Toxic Substances and consists of high level representatives from all the other Assistant Administrators and the Office of General Counsel. Consistency in EPA's various actions to protect against the risks from substances in different media is a main concern of the Committee. TSCA, the Resource Conservation and Recovery Act, and amendments to the Clean Air and Clean Water Acts, are the source of many new EPA programs to deal with toxic substances. The Committee will guide appropriate regulatory actions under all these laws at an early stage. It will also serve to coordinate information collection and contractor efforts, and will identify gaps or duplication.

The EPA Regional Offices will play an essential role in linking existing programs under the Clean Air Act, Clean Water Act, other media-specific authorities with TSCA. The key to controlling toxic substances is integration, not the establishment of one more new "categorical" program under TSCA.

EPA envisions an ideal regional toxic substances program to include a broad range of activities: developing communication channels among EPA's single media programs; working with State agencies and other Federal regional programs; coordinating information exchange, monitoring and enforcement; creating procedures for systematic evaluation and response to chemical crises; assisting industry in complying with TSCA requirements; developing programs for greater public understanding of toxic substances problems; and identifying and analyzing regional toxic substances problems.

INTERNATIONAL APPROACHES TO TOXIC SUBSTANCES

Every aspect of TSCA has international ramifications. Actions affecting

manufacturers also apply to importers and thereby affect foreign chemical producers. Foreign governments and manufacturers have expressed particu-

tices and effective means of enforcing them. Also underway is an information exchange system for technical data and notices of administrative ac-

Review Division is responsible for reviewing new substances and significant new uses under section 5.

V 4 3 / 2 0 8 0 C 2 6 7 8

manufacturers also apply to importers and thereby affect foreign chemical producers. Foreign governments and manufacturers have expressed particular interest in the approach EPA is taking toward "new" chemical substances. EPA has met with representatives of governments of the European Communities, Canada, and Japan, and others to discuss these requirements especially in relation to the other governments' approaches to "new" substances. The risks from many substances such as polychlorinated biphenyls and chlorofluorocarbons cannot be dealt with effectively by any one nation alone.

Several governments have recently enacted laws dealing with toxic substances and many others are considering legislation. Because most nations are in a formative stage of implementing their authorities, there is now a unique opportunity to develop consistent approaches and to avoid creation of unnecessary barriers to international trade. In April 1978, EPA participated in discussions at Stockholm, Sweden, with representatives of 16 nations and several international organizations concerned with toxic substances. The Stockholm delegates identified several priority areas for international initiative.

Many of the Stockholm concerns are addressed in the ambitious program of the Organization for Economic and Cooperative Development (OECD). These efforts include the development of consistent testing methods and standards for good laboratory practices and effective means of enforcing them. Also underway is an information exchange system for technical data and notices of administrative actions. Other experts are examining the legal and policy impediments to disclosure of health and safety data and methods for analyzing the economic impacts of regulatory actions. The United States is committed to such international harmonization efforts.

APPENDIX—ORGANIZATION OF THE OFFICE OF TOXIC SUBSTANCES

The chart below indicates the organization for the Office of Toxic Substances (OTS). The Assistant Administrator (AA) for Toxic Substances reports directly to the EPA Administrator. Under the AA, are four Deputy Assistant Administrators (DAA's). The DAA for pesticide programs is primarily responsible for implementing the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). The other three DAA's are responsible for implementing the Toxic Substances Control Act (TSCA). Over the next few years, OTS will integrate many of the scientific, technical, and other support activities common to implementation of FIFRA and TSCA.

The following briefly describes the general functions of each of the three Deputy Assistant Administrators responsible for implementation of TSCA.

CHEMICAL CONTROL

The Deputy Assistant Administrator for Chemical Control is responsible for the regulatory control program under sections 5 and 6 of TSCA. The Control Action Division determines whether risks posed by chemical substances to health or the environment are "unreasonable" and takes regulatory actions under section 6. The Premanufacture Review Division is responsible for reviewing new substances and significant new uses under section 5.

TESTING AND EVALUATION

The Deputy Assistant Administrator for Testing and Evaluation is responsible for identifying and evaluating hazards that chemical substances and mixtures may present to health and the environment. The Assessment Division is primarily responsible for the Hazard Assessment Process and for selecting substances to be tested under section 4. The Health Review Division develops testing standards for health effects and assesses risks to health. The Environmental Review Division develops testing standards for evaluating chemical fate, persistence, and environmental effects, and assesses environmental risks.

PROGRAM INTEGRATION AND INFORMATION

The Deputy Assistant Administrator for Program Integration and Information is responsible for promoting integration and coordination of toxic substances activities, and for information development and retrieval. The Industry Assistance Office is a focal point for communication with the industrial community concerning implementation of TSCA. The Chemical Information Division is responsible for implementing the reporting and recordkeeping rules and regulations under section 8 and for developing procedures for automated storage, retrieval, and processing of information. The Monitoring Division is responsible for environmental, human, animal, and biota monitoring and mass balance studies in support of OTS activities. The Program Integration Division is responsible for coordination of TSCA activities with other EPA programs, regional offices, Federal, State, and local agencies, and with foreign governments and organizations.

[EDR-365, Docket 33725, Dated October 20, 1978]

PRESERVATION OF AIR CARRIER ACCOUNTS, RECORDS, AND MEMORANDUMS

Revision of Record-Retention Requirements and Reissuance of Part 249

AGENCY: Civil Aeronautics Board.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice of proposed rulemaking would revise the Board's rule for the preservation of air carrier accounts, records, and memorandums. The rulemaking is designed to make the Board's record-retention requirements less burdensome and easier to understand and administer.

DATES: Comments by December 26, 1978. Comments and other relevant information received after this date will be considered by the Board only to the extent practicable.

ADDRESSES: Twenty copies of comments should be sent to Docket 33725, Docket Section, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428. Individuals may submit their views as consumers without filing multiple copies. Comments may be examined in Room 711, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C., as soon as they are received.

FOR FURTHER INFORMATION CONTACT:

Raymond Kurlander, Director, Bureau of Accounts and Statistics, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428, 202-673-5270.

SUPPLEMENTARY INFORMATION: The core of part 249 of the Board's economic regulations has not been revised in any major way since 1957. Since that time, there have been many developments in the technology for producing, retaining, and retrieving information.

We are, therefore, proposing to reissue part 249 so as to update the regulations to enable air carriers to take advantage of the modern recordkeeping systems that best suit their needs. We have also rewritten and reorganized the regulation to ease understanding and administration of the record-retention requirements.

The significant provisions of part 249 proposed by this rule are summarized below:

Provision for Transfer of Records to Microfilm

Under the current regulation, most records must be retained in their original paper form permanently or for a minimum number of years before microfilm copies can replace them. A significant change proposed by this rule is the provision that carriers would be allowed to replace paper documentation with microfilm copies at any time. We are proposing this change in the regulation because the many improvements in the quality and accessibility of microfilm copies of documents have made such copies an acceptable alternative to original paper records. This new provision would relieve carriers from unnecessary handling and storage of paper documents and result in a significant cost savings for the carriers.

Acceptance of Various Media Forms as Original Documents

The proposed rule would continue to provide that records originally created on nonreadable media such as magnetic tapes, discs, and punched cards are "original documents." It would also be made clear that carriers would not be required to create and store paper stock or microfilm copies of records initially prepared on nonreadable media solely to satisfy record retention requirements. However, if a carrier transferred a paper stock or microfilm record to nonreadable media, it would be required to retain a paper stock or microfilm copy until the prescribed retention period expires unless the Director, Bureau of Accounts and Statistics, authorizes earlier destruction.

Designation of Supervisory Officials and Provision for Indexing Records

The proposed rule also includes two provisions which relate to the administration of records and are designed to minimize the amount of time field auditors and investigators spend in locating needed records. Since time spent in locating records can add to the length of field examinations, both the Board and the carriers should benefit from these provisions.

First, each air carrier would be required to designate one or more of its personnel to be responsible for supervising its program for the preservation, storage, and authorized destruction of records. The carrier would be required to notify the Director, Bureau of Accounts and Statistics, of the name and address of the person(s) designated as the supervisory official and any later changes.

Second, each air carrier would be required to maintain, at its principal office, a comprehensive index of all records being preserved. The index should show the physical location of the various classes of records, the periods to which they relate, and the locations, names, and titles of the custodians.

Retention of Records During Enforcement Proceedings, Third-Party Complaint Cases, and Litigation in Federal Court

To assure the availability of relevant records when carriers are involved in outstanding enforcement proceedings, third-party complaint cases, or litigations in Federal court involving the carrier and the Board, we propose to add provisions in the regulation which would restrict the destruction of records that may be needed in these cases until the carrier receives, in response to its written application, formal authorization of record destruction from the Director, Bureau of Accounts and Statistics. Part 249 currently does not provide guidelines for the retention of records when carriers are involved in such cases, and consequently records can be disposed of after the expiration of their stated retention period even though they may still be needed for the disposition of a case.

Retention of Subsidy Records

We are proposing a retention period of 3 years for records needed to support the computation of subsidy mail pay under section 406 of the Federal Aviation Act. However, when the amount of compensation paid or due a carrier is subject to further review and disposition by the Board, the proposal would require the supporting records to be retained until the Director, Bureau of Accounts and Statistics, authorizes their destruction. Under the current regulation, carriers must retain monthly records of operations, pilots' flight logs, aircraft weight and balance reports, and passenger lists until the Board notifies them that the records may be destroyed. We believe that requiring carriers to retain these records for 3 years when there are no disputes will adequately serve the Board's needs and, at the same time, reduce the burden on the carriers.

Retention of Consumer Complaints

We are proposing to establish a provision in the regulation requiring certificated carriers to retain, for a period of 3 years, copies of all consumer complaints and a record of the action taken on each one. This should help the Board keep an accurate perception of the nature of consumer problems by periodically reviewing the complaints received by air carriers.

Retention of Additional Records by Charter Operators

We are proposing to require overseas military personnel charter operators and public charter operators to retain the following additional records for 2 years after the completion of each flight or series of flights: (1) All customer reservations records; (2) all contracts with individual tour participants; and (3) all bank statements and reconciliations for escrow bank accounts opened and maintained in accordance with Board regulations. These records are needed to aid the Board in its work with consumer-oriented litigation.

Elimination of Retention Requirements

The proposed rule would eliminate retention requirements for certain classes of records which are filed by carriers with the Board and other regulatory bodies. The records that would be deleted from the schedule of records for certificated air carriers are:

1. Certificates of public convenience and necessity issued by the Civil Aeronautics Board.
2. Letters of registration and exemptions to operate issued by the Civil Aeronautics Board.
3. Copies of formal orders of regulatory bodies served upon the air carrier.
4. Financial and statistical reports to the Civil Aeronautics Board and other regulatory bodies.
5. Tariffs, division sheets, classifications, and circulars relative to the transportation of persons and property.
6. Special or reduced-rate orders and supporting papers, covering the movement of persons and property.
7. Copies of concurrences and powers of attorney filed with regulatory bodies.

Additionally, the proposed rule does not contain retention requirements for airfreight forwarders and international airfreight forwarders since EDR-350, dated March 30, 1978, proposes the elimination of the current requirements.

Other Improvements in the Regulation

In an effort to make the Board's record-retention requirements less burdensome and easier to understand, we have taken a fresh look at the current regulation to determine what improvements could be made. As a result of our study, we are proposing to: (1) Standardize retention periods for similar types of records, (2) simplify and better arrange the schedule of records to be maintained by certificated air carriers, (3) extend the requirement that certificated carriers retain passenger lists for pro rata charter trips to all charter trips and, at the same time, reduce the retention period from 2 years to 1 year, (4) make part 249 a comprehensive listing of all record-retention requirements for all classes of carriers, and (5) clarify the regulation by rewriting it in plain English.

Comments on Burden

The Board has the responsibility to prescribe record-retention requirements to insure the availability of records for its purposes. We believe, however, that this can be done without imposing a significant burden on the carriers because carriers must retain records for other purposes in line with good management policy and to meet the requirements of other Government agencies. We have tried to design a record-retention system which satisfies the Board's needs and, in most cases, corresponds to a system that would meet the carriers' other needs. If any of the requirements included in this proposed rule significantly differ from the retention periods that would otherwise be followed, we would appreciate comments indicating the record-retention requirements which are out of line and the retention periods that would be more appropriate.

Proposed Rule

Accordingly, we propose to reissue part 249 of the economic regulations (14 CFR Part 249) to read as follows:

PART 249—PRESERVATION OF AIR CARRIER RECORDS

Subpart A—General Instructions

Sec.
249.1 Applicability.
249.2 Definitions.
249.3 Designation of supervisory official.
249.4 Index of records.
249.5 Preservation of records.
249.6 Photographic copies.
249.7 Storage of records.
249.8 Destruction of records.
249.9 Restrictions on record destruction.
249.10 Premature loss or destruction of records.
249.11 Carriers going out of business.
249.12 Waiver of requirements.
249.13 Effective date.

Subpart B—Preservation of Records by Carrier

249.20 Preservation of records by certificated air carriers.
249.21 Preservation of records by holders of foreign civil aircraft permits.
249.22 Preservation of records by foreign air carriers.
249.23 Preservation of records by foreign air carriers authorized to engage in charter transportation only.
249.24 Preservation of records by public charter operators and overseas military personnel charter operators.
249.25 Preservation of records by air taxi operators.

Subpart C—Regulations Relating to the Truth in Lending Act

249.30 Applicability.
249.31 Preservation and inspection of evidence of compliance.

AUTHORITY: Secs. 204(a) and 407 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 766; 49 U.S.C. 1324, 1377.

Subpart A—General Instructions

§ 249.1 Applicability.

This part applies to:

(a) Air carriers, as defined in section 101(3) of the Act, that hold either certificates of public convenience and necessity or certificates for all-cargo air service.

(b) Foreign civil aircraft operators holding a permit issued under part 375 of the Board's special regulations authorizing navigation in the United States.

(c) Foreign air carriers, as defined in section 101(19) of the Act.

(d) Public charter operators, as defined in part 380 of this chapter.

(e) Overseas military personnel charter operators, as defined in part 372 of this chapter.

(f) Air taxi operators, as defined in part 298 of this chapter.

§ 249.2 Definitions.

For the purposes of this part:

"Authorized representatives of the Board" means any persons, including special agents and auditors, designated by the Board to perform inspections, audits, or examinations within the purview of the Board's authority.

"Certificated air carrier" means the holder of a certificate of public convenience and necessity issued by the Civil Aeronautics Board under section 401 of the Act or a certificate for all-cargo air service issued by the Civil Aeronautics Board under section 418 of the Act.

"Final adjudication" means the expiration date of the last possible period of review or reconsideration of a given case, by the Board or by a court, that is provided by applicable statute or regulation.

"Pending case" means any case that the Board is empowered to hear before its final adjudication.

"Records" include all documents that are related to, or constitute integral links in developing the history of, or facts regarding, financial transactions or physical operations of a particular segment, operating division, or entire system of the carrier's operations. The term includes any copy of initially prepared documents which bear approvals, comments, or notations which were added and are of significance to a full explanation of recorded facts or information. The term "records" means not only accounting records in a limited technical sense but all other evidentiary accounts of events such as memorandums, correspondence, working sheets, tabulating equipment listings, punched cards, computer-produced listings, microfilm, and magnetic storage media (i.e., mag-

V 43 / 208 OCT 26 1978

netic tapes, disks). The term "records" also means microform and/or tape reproductions of documents made as authorized by this subpart. In addition, the term "records" includes any of the above-described materials coming into the possession of the air carrier through merger, consolidation, succession, transfer, or other acquisition.

"Open mail rate period" means the time interval between the date of institution of a new mail rate proceeding or the start of service over a new route for which no mail rate has previously been fixed, and the date upon which a Board order setting the final mail rate becomes legally effective.

"Subsidy" means that portion of the mail rate established under section 406 of the Act, which is paid by the Board according to the provisions of section 406(c) of the Act.

"Supporting papers (records)" means any group of documentary papers, such as memorandums, correspondence, working sheets, etc., that assist in upholding the accuracy or clarity of related records.

§ 249.3 Designation of supervisory official.

Each carrier subject to the provisions of this part shall designate one or more persons with official responsibility to supervise the preservation, storage, and authorized destruction of records. The Board's Bureau of Accounts and Statistics shall be notified of the name and address of the person(s) initially designated and any later changes.

§ 249.4 Index of records.

At the location in the United States where the carrier maintains its detailed corporate, financial, and operating records, the records that are required by this part to be preserved shall be arranged, filed, and currently indexed so that they may be easily identified and made available upon request by authorized representatives of the Board. A master index shall also be available showing the physical location of the various classes of records, the periods to which they relate, and the locations, names, and titles of the custodians.

§ 249.5 Preservation of records.

(a) All records listed in §§ 249.20 through 249.24 may be preserved on either paper or nonerasable microfilm (see § 249.6). However, a paper or microfilm record need not be created to satisfy the requirements of this part if the record is initially prepared in a nonreadable medium such as punched cards, magnetic tapes, and disks. The records maintained in nonreadable media and the underlying data used in their preparation shall be preserved for the periods prescribed in §§ 249.20 through 249.24. In no case shall a paper or microfilm record be destroyed after transfer to a nonreadable medium before expiration of the prescribed periods of retention without the approval of the Director, Bureau of Accounts and Statistics (see § 249.9).

(b) Each record kept in a nonreadable medium shall be accompanied by a statement clearly indicating the type of data included in the record and certifying that the information contained in it is complete and accurate. This statement shall be executed by a person having personal knowledge of the facts contained in the records. The records shall be indexed and retained in such a manner so that they are easily accessible, and the carrier shall have the facilities available to locate, identify and reproduce the records in readable form without loss of clarity. Authorized representatives of the Board shall be given immediate access to the carrier's facilities upon request.

(c) If any record which must be retained under the provisions of §§ 249.20 through 249.24 is included as an exhibit to another document which must also be retained, the carrier need only keep in its files one copy of the record to satisfy these record-retention requirements. In these cases, the carrier should establish adequate cross-references to ease location of the record.

(d) The provisions in this part do not excuse noncompliance with requirements of any other governmental body, Federal or State, prescribing longer retention periods for any records.

§ 249.6 Photographic copies.

(a) Any record may be transferred to nonerasable microfilm (including microfiche, computer output microfilm, and aperture cards) at any time. Records so maintained on microfilm shall satisfy the minimum requirements listed in paragraphs (b) through (f) of this section.

(b) The microfilm shall be of a quality that can be easily read and that can be reproduced in paper similar in size to an original without loss of clarity or detail during the periods of the records are required to be retained in §§ 249.20 through 249.24.

(c) Microfilm records shall be indexed and retained in such a manner as will render them readily accessible, and the company shall have facilities available to locate, identify and read the microfilm and reproduce in paper form. Authorized representatives of the Board shall be given immediate access to these facilities upon request.

(d) Any significant characteristic, feature, or other attribute which microfilm will not preserve shall be clearly indicated at the beginning of each roll of film or series of microfilm records if applicable to all records on the roll or series, or on the individual record, as appropriate.

(e) The printed side of printed forms need not be microfilmed for each record if nothing has been added to the printed matter common to all such forms, but an identified specimen of the form shall be on the film for reference.

(f) Each roll of film or series of microfilm records shall include a microfilm of a certificate stating that the photographs are direct and facsimile reproductions of the original records and they have been made in accordance with prescribed regulations. Such a certificate shall be executed by a person having personal knowledge of these facts. Where the microfilm is computer output, the microfilm certificate shall state that the information is complete and accurate.

§ 249.7 Storage of records.

Each carrier shall provide reasonable protection from damage by fire, floods, and other hazards for records subject to the provisions of this part. Records shall also be safeguarded from deterioration from humidity, dryness, or lack of proper ventilation.

§ 249.8 Destruction of records.

(a) Upon the expiration of the period of preservation prescribed in this regulation, records may be destroyed at the option of the carrier.

(b) Unless otherwise specified, duplicate copies of records may be destroyed at any time if they contain no significant information not shown on the originals.

(c) The supervisory official specified in § 249.3 shall maintain a comprehensive list describing all records that have been destroyed following the expiration of the prescribed period of preservation. The list shall include the form numbers and descriptive titles of all records destroyed and the periods covered. The list shall be available for inspection in the office of the supervisory official and shall be in such detail that the destroyed records can be identified and the time, place, and method of destruction can be established.

§ 249.9 Restrictions on record destruction.

(a) Each carrier that has been named a party to a pending case arising under section 406 of the Act shall retain all records remaining in its custody as of the beginning of an "open mail rate period" until the occurrence of one of the following contingencies, whichever is first:

(i) Final adjudication of a Board order fixing the final mail compensation payable for services rendered during an "open mail rate period."

(ii) Receipt of a notice issued by the Director, Bureau of Accounts and Statistics, in response to a written application filed by the carrier, authorizing the destruction of specifically identified categories of records. An application should be filed when the carrier believes that certain categories of records are not relevant to the proper processing of a pending mail proceeding. The application should list those categories of records which the carrier wants to destroy and its reasons for believing that the records are not necessary or useful in determining its statutory mail pay.

(b) Each carrier shall preserve records supporting the computation of subsidy mail pay in accordance with the provisions of § 249.20 unless the carrier has been advised that these computations are subject to further review and disposition by the Board. When the Board is still reviewing the compensation amount after expiration of the normal retention period specified in § 249.20, these records must be retained until the carrier is notified by the Director, Bureau of Accounts and Statistics, that the records may be destroyed.

(c) Each carrier that has been named a party to an enforcement proceeding or against whom a third-party complaint has been filed shall retain all records relating to the case until the receipt of formal notification from the Director, Bureau of Accounts and Statistics, following a written application from the carrier, which authorizes the destruction of these records.

(d) Each carrier that has been named a party to a pending case which is not of a type discussed in paragraphs (a), (b), and (c) above, shall preserve all records according to the provisions of § 249.20 unless the Director, Bureau of Accounts and Statistics, notifies the carrier in writing that specific records shall be preserved until final adjudication of the pending case.

(e) Each carrier that is a party to litigation in a Federal court of which the Board is also a party shall retain all records relating to the case until the receipt of formal notification from the Director, Bureau of Accounts and Statistics, following a written application from the carrier, which authorizes the destruction of these records.

§ 249.10 Premature loss or destruction of records.

If records are destroyed or lost before the expiration of the prescribed retention period, a statement shall be prepared and submitted to the Director, Bureau of Accounts and Statistics, which lists, as accurately as possible, the unavailable records and describes the circumstances under which they became unavailable. This statement shall be certified by the supervisory official of the carrier specified in § 249.3.

§ 249.11 Carriers going out of business.

The records referred to in these regulations may be destroyed after the business is discontinued and the carrier is completely liquidated. The records may not be destroyed until dissolution is final and all transactions are completed. However, if a carrier is involved in litigation at the time of dissolution, it must retain all records until the litigation is concluded. When a carrier is merged with another company which is regulated by the Board, the successor company shall preserve records of the merged company in accordance with these regulations.

§ 249.12 Waiver of requirements.

A waiver from any provision of this regulation may be made by the Director, Bureau of Accounts and Statistics, upon the Director's own initiative or upon submission of a written request by a carrier or group of carriers. Each request for waiver shall demonstrate that unusual circumstances warrant a departure from prescribed retention periods, procedures, or techniques, or that compliance with the prescribed requirements would impose an unreasonable burden on the carrier, and that granting the waiver would be in the public interest.

§ 249.13 Effective date.

The retention requirements prescribed in this regulation shall be applicable to all records that were in the custody of any carrier subject to the provisions of this part on January 1, 1979, and to all records acquired after this date.

Subpart B—Preservation of Records by Carrier

§ 249.20 Preservation of records by certificated air carriers.

Each certificated air carrier shall retain its records according to the provisions of this section. Unless otherwise specified in the "Schedule of Records," each retention period shall begin on the date when the records are created or otherwise come into the possession of the carrier.

SCHEDULE OF RECORDS

A. ADMINISTRATIVE

1. Corporate—retain permanently:
1. Bonds or other long-term debt records:
(a) Bond indentures, underwriting, mortgage, and other long-term credit agreements.
(b) Stubs or similar records of bonds or other long-term debt issued.
(c) Records of interest paid and unpaid.
2. Capital stocks:
(a) Stubs or similar records of capital stock certificates.
(b) Detailed capital stock journals, ledgers, or their equivalents.
(c) Stock transfer registers.
3. Corporate organization:
(a) Charter or certificate of incorporation and any amendments.
(b) Legal documents in connection with mergers, consolidations, reorganizations, receiverships, and similar actions which affect the identity or organization of the company.
4. Data relating to the destruction of records as provided in this section; authorizations and certificates executed in connection with the reproduction or destruction of records.
5. General and subsidiary ledgers or their equivalents:
(a) General ledgers; subsidiary or auxiliary ledgers.
(b) Indexes to general and subsidiary ledgers.
6. Minutes of meetings:
(a) Meetings of stockholders and directors.
(b) Meetings of executive and other directors' committees.
II. General—retain for 3 years:
20. Accountant's and auditors' reports:
(a) Certifications and reports of all examinations and audits conducted by public and certified public accountants.
(b) Reports of examinations and audits conducted by internal auditors and others.
21. Superseded authorizations from regulatory bodies for issuance of securities including applications, reports, and supporting papers.
22. Bond and other long-term debt records:
(a) Closed bond subscription accounts.
(b) Subscription notices and requests for allotment.
(c) Canceled bonds, mortgages, notes, or other long-term debt and redeemed interest coupons.
(d) Papers pertaining to or supporting transfers of bonds.
23. Capital stock records:
(a) Canceled capital stock certificates.
(b) Subscription notices and requests for allotments.
(c) Papers pertaining to or supporting transfers of capital stock.
24. Contracts and agreements:
(a) Terminated operational, management, accounting, financial, and legal service contracts.
(b) Terminated contracts with other carriers for interchange of aircraft or other joint use of properties.
(c) Expired leases pertaining to rental of property to, or from, others.
(d) Terminated contracts and agreements with employees and associated companies for the purchase and sale of the carriers' own securities or those of associated companies, together with memorandums clarifying or explaining provisions of the contracts.
(e) Releases from direct or contingent liability arising out of action in tort.
(f) Card or book records of terminated contracts or agreements made.
(g) Contracts and agreements relating to purchase and to sale of real property and equipment.
(h) Terminated contracts and agreements with individual employees, labor unions, company unions, and other employee organizations relative to wage or salary rate, hours, and similar matters.
(i) Expired contracts for purchase of materials and supplies.
(j) Expired contracts covering risks of freight forwarders transportation and storage.

(k) Terminated charter and interline agreements.
(l) Complete files and related papers of contracts entered into by competitive bid-

62. Agents' balance sheets and supporting papers.
63. Detailed journals, vouchers, and ledgers or their equivalent for bonds or other

74. Schedules of recurring or standard journal entries and entry numbers.
75. Records of securities owned:
(a) Detailed ledgers and journals, or their

96. Maintenance service orders and repair orders for work which has been completed:
(a) Authorizations for expenditures for maintenance work to be covered by service or repair orders, including memorandums

D. REVENUES

1. General reports and documents—retain for 2 years:
150. Customers' guarantee deposits:

deemed appropriate. Those records listed below which are not situated in the United States shall be made available at a central location in the United

V 43/208 OCT 26 78

(k) Terminated charter and interline agreements.

(l) Complete files and related papers of contracts entered into by competitive bidding under the provisions of section 10 of the Clayton Antitrust Act.

(m) Records relating to trade agreements as specified in § 225.10 of this subchapter.

25. Employees' welfare and pension records:

(a) Superseded retirement plans.

(b) Workmen's compensation accident reports.

(c) Employees' relief, health and hospital insurance records pertaining to other than the expenditure of funds.

26. Insurance coverage and claims records:

(a) Registers, cards, or other records of expired insurance policies showing coverage, premiums paid, good experience credits, and expiration dates.

(b) Expired insurance policies.

(c) Records of settled carrier losses and recoveries from insurance companies and supporting papers.

(d) Records, memorandums, and reports related to rejected or settled claims made against the carrier for loss, damage, personal injury, etc. (except claims for refund of transportation charges).

(e) Papers, reports, statements of witnesses, etc., necessary to support or reject claims against the carrier.

(f) Expired records of fidelity bonds of employees and others responsible for funds of the carrier.

27. Proxies and voting lists:

(a) Proxies of holders of voting securities.

(b) Lists of holders of voting securities represented at meetings.

28. Registration statements and other data filed with the Securities and Exchange Commission and supporting papers in connection with offerings of securities for sale to the public or the listing of securities on exchange.

29. Deeds and other title papers for property which has been disposed of.

30. Consumer complaints:

(a) Initial correspondence and record of action taken.

B. FINANCIAL

I. Primary financial records—retain for 10 years:

50. Journals and journal vouchers:

(a) General and subsidiary journals.

(b) Papers forming a part of, or necessary to explain, journal entries; entry numbers.

51. Voucher distribution registers or their equivalent.

II. General financial records—retain for 4 years:

60. Accounts receivables and payables:

(a) Traffic accounts receivable or payable, detailed journals and ledgers or their equivalents, together with supporting papers.

(b) General accounts receivable or payable, detailed journals and ledgers or their equivalents, together with supporting papers.

(c) Copies of invoices issued by the carrier which have been settled and all supporting papers.

(d) Copies of Postal Service Forms: Weekly Summary of Airmail Dispatch (No. 2729) and POD Airmail Exemption Record (No. 2734) supporting mail pay claims which have been settled.

61. Agents' remittance slips, bank deposit slips, and all supporting papers not provided for elsewhere.

62. Agents' balance sheets and supporting papers.

63. Detailed journals, vouchers, and ledgers or their equivalent for bonds or other long-term debt which have been redeemed.

64. Detailed capital stock subscription accounts and journals or their equivalent.

65. Deposits with bank record:

(a) Check stubs, bank deposit books, and copies of deposit slips supporting bank statements which have been reconciled.

(b) Statements from depositories showing the details of funds received, disbursed, and transferred.

(c) Check registers and other records of checks issued.

(d) Checks canceled by banks.

66. Depreciation allowances:

(a) Detailed records or analysis sheets segregating the depreciation allowances according to type and classification.

(b) Records supporting computations of all depreciation expense previously taken on property which is now retired, including such data as service life and salvage value.

(c) Detailed record of charges against depreciation allowances which were made during the life of property which is now retired.

67. Equipment maintenance allowances:

(a) Detailed records or analysis sheets segregating the maintenance allowances according to type and classification.

(b) Records supporting computations of maintenane expense, including such data as historical costs and engineering or other available studies.

(c) Detailed records of charges against maintenance allowances.

68. All papers supporting financial and statistical reports to the Civil Aeronautics Board and other regulatory bodies.

69. Statements of funds and deposits:

(a) Expired authorizations for transfer of funds from one depository to another.

(b) Reports and estimates of funds required for general and special purposes.

(c) Summaries and periodic statements of cash balances on hand and with depositories.

70. Material and supplies detailed journals, and ledgers or their equivalents together with supporting papers.

71. Payroll records:

(a) Payroll sheets, registers or their equivalents, of salaries and wages paid to individual officers and employees.

(b) Records showing the distribution to accounts and jobs of salaries and wages paid to officers and employees for each periodic payroll, and summaries of recapitulation statements of such distribution.

(c) Time and attendance cards.

(d) Paid checks, receipts for wages paid in cash, and other evidence of payments for services rendered by employees.

(e) Payroll authorizations, removal, adjustment notices.

72. Property and equipment journals, vouchers, and ledgers or their equivalents, together with supporting papers:

(a) For properties and equipment which had unit costs in excess of $10,000 which are now retired.

(b) Other properties and equipment.

73. Records of receipts and disbursements:

(a) Daily or other periodic statements or reports of receipts and disbursments of funds.

(b) Records or periodic statements of outstanding vouchers, checks, drafts, etc., issued and not presented.

74. Schedules of recurring or standard journal entries and entry numbers.

75. Records of securities owned:

(a) Detailed ledgers and journals, or their equivalents, of investments in securities held by the carrier or a custodian. The retention period shall begin upon the sale, redemption, or disposal of the security.

76. Taxes:

(a) Assessments against the carrier which have been settled:

(1) Copies of schedules and returns to taxing authorities and supporting working papers and records of appeals.

(2) Copies of taxing authorities termination reports.

(b) Taxes collected as agents:

(1) Copies of schedules and returns to taxing authorities and supporting working papers of settled accounts.

(2) Summaries of taxes paid.

(3) Filings with tax authorities to qualify employee benefit plans which are now discontinued.

77. Trial balance sheets of general and subsidiary ledgers.

78. Uncollectible accounts:

(a) Reports and statements showing age and status of accounts receivable.

(b) Authorizations for writing off accounts receivable.

79. Vouchers:

(a) Voucher indexes.

(b) Vouchers, expenditure authorizations, detailed distribution sheets, and other supporting papers, including original bills and invoices.

(c) Receipts for cash paid out.

C. OPERATIONS

I. Management—retain for 3 years:

90. Authorization for expenditures for new equipment, additions, modifications, and betterments, including related memorandums.

91. Approved authorizations for retirements of property.

92. Instructions to employees and others which have been superseded or expired:

(a) Bulletins or memoranda of general instructions issued by the carrier to employees pertaining to changes in accounting, engineering, operating, maintenance, and repair policies, methods, and procedures.

(b) Notices to employees on matters of discipline, deportment, and other similar subjects.

93. Internal administrative or operating reports:

(a) Annual financial, operating, and statistical reports regularly prepared in the course of business (and not used as a basis for entries to accounts of the carriers concerned) to show the results of operations and the financial condition of the carrier.

(b) Quarterly, monthly, or other periodic financial, operating and other statistical reports as above.

(c) All statistical reports not covered elsewhere in the regulation, prepared for internal administrative or operating purposes only and not used as a basis for entries to the accounts of the carrier.

94. Job and cost distribution cars.

95. Job or work orders for projects which have been completed or abandoned, including engineering records (maps, profiles, specifications, estimates of work; records of engineering studies, except maintenance studies; records pertaining to extensions, additions, and betterment projects).

96. Maintenance service orders and repair orders for work which has been completed:

(a) Authorizations for expenditures for maintenance work to be covered by service or repair orders, including memorandums showing the estimates of costs to be incurred.

(b) Service or repair orders.

(c) Summaries of expenditures on service and repair orders.

97. Superseded organization tables and charts and internal accounting manuals.

98. Purchases and stores:

(a) Purchase orders.

(b) Materials-distribution summaries.

(c) Requisitions for purchase orders.

(d) Inventories of materials and supplies:

(1) General inventories of materials and supplies on hand with records of adjustments of accounts to bring stores records into agreement with physical inventories.

(2) Superseded perpetual inventory records of materials and supplies received, issued, and on hand.

(e) Stores record of materials and supplies received.

(f) Stores requisitions.

99. Section 406 subsidy records:

(a) For each calendar year, all monthly records of operations, such as tabulations and summaries of miles flown and passenger-miles flown, pertaining to or part of operational records relevant to computation of subsidy mail pay.

(b) For each calendar year, all basic original documents, such as pilots' flight logs and passenger lists relevant to a determination of the validity of a carrier's operations described in item (a) above.

100. Tariffs and rates: Correspondence and working papers in connection with the making of rates and compilation of tariffs, classifications, division sheets, and circulars affecting the transportation of persons and property. The retention period for these records shall begin with the expiration or cancellation of the tariff.

II. Statistics—retain for 2 years:

120. Individual trip reports:

(a) Traffic data: Basic documents showing the number of passengers, and pounds of mail and property carried.

121. Records and reports relating to errors, oversales, irregularities, and delays in handling passengers, air express, and air freight.

122. Reservations reports and records:

(a) Cards and charts constituting original source of passengers' names, telephone numbers, etc.

(b) Telegrams and radio messages relating to the clearance of space, passenger dispatching, etc.

(c) Every statement of supporting information required by part 207 of this subchapter and proof of the commission paid to any travel agent by the carrier for each pro rata charter trip.

(d) Written confirmation and accompanying passenger list, and copy of request for this information in accordance with § 207.25 of this subchapter for certificated route air carriers and § 208.202b of this subchapter for supplemental air carriers.

123. System report of airplane movements by trip number showing arrivals, departures, delays and related information.

124. All documents which relate to the furnishing of transportation to candidates for political office or persons acting on their behalf which are required to be maintained following § 374a.7 of this subchapter.

D. REVENUES

I. General reports and documents—retain for 2 years:

150. Customers' guarantee deposits:

(a) Customers' deposit ledgers.

(b) Air travel card authorizations which have terminated.

(c) Receipts for one trip travel orders which have been accounted for.

151. Lost ticket memorandums, certification of loss and receipt for refund.

152. Perpetual inventory of ticket stock.

153. Requisitions and receipts for tickets furnished agents and ticket-selling employees.

154. Sales reports:

(a) Sales ticket or other similar reports from stations, offices and agents.

II. Primay revenue records—retain for 1 year:

160. Auditors' coupons.

161. Air waybills.

162. Flight coupons.

163. Ticket refund claims records and reports.

164. Authorizations, records, reports, registers, and supporting papers incident to the transportation of persons or property at free or reduced rates.

165. Names, addresses, and telephone numbers of all passengers transported on each charter trip.

E. MISCELLANEOUS—RETENTION PERIOD SHALL CORRESPOND TO THAT ITEM TO WHICH RELATED

170. Correspondence and related indexes, including interoffice memorandums and working papers supporting or relating to subjects covered by other items of these regulations where necessary to a proper explanation of the related subjects.

§ 249.21 Preservation of records by holders of foreign civil aircraft permits.

Each holder of a permit authorizing the navigation of foreign civil aircraft in the United States issued under part 375 of the Board's special regulations shall retain its records according to the provisions of this section. The following records shall be preserved for the retention periods specified below:

1. Retain for 1 year, copies of all cargo manifests, air waybills, invoices, and other documents covering cargo flights originating or terminating in the United States.

2. Retain for 6 months, lists of names and addresses of all passengers on charter flights originating or terminating in the United States.

§ 249.22 Preservation of records by foreign air carriers.

Every foreign air carrier, other than those foreign air carriers which are authorized to engage in charter transportation only, shall preserve the documents listed below for the duration of the respective retention periods. Those records listed below which are in the United States shall be made available upon request by an authorized representative of the Board. The representative shall be allowed to make any notes or copies that are deemed appropriate. Those records listed below which are not situated in the United States shall be made available at a central location in the United States within 48 hours after a written request has been received from the Director, Bureau of Accounts and Statistics.

1. Retain for 3 years:

(a) A record of all passes issued by the carrier under part 223 and used for free or reduced-rate transportation over its routes.

(b) All papers and correspondence relating to each freight loss or damage claim.

2. Retain for 2 years:

(a) Copies of all passengers lists, air waybills, invoices, and other traffic documents covering off-route charter trips performed under a statement of authorization.

(b) A copy of every contract for on-route charter flights originating or terminating in the United States, together with all traffic documents pertaining to the on-route charter.

(c) A record of the names, addresses, and telephone numbers of all passengers transported on each charter trip originating or terminating in the United States.

(d) All statements of supporting information and proof of the commission paid to any travel agent by the carrier for each charter trip originating or terminating in the United States.

(e) The written confirmation, and accompanying passenger list, received from another carrier required under subsection 212.25(b), and a copy of its written request, and accompanying passenger list, to another carrier for confirmation.

§ 249.23 Preservation of records by foreign air carriers authorized to engage in charter transportation only.

(a) Each foreign air carrier authorized under part 214 of the Economic regulations to engage in charter transportation only shall retain the following records for the retention periods prescribed below:

1. Retain for 3 years, a record for all passes inssued and used for free or reduced-rate transportation in the carrier's principal office.

2. Retain for 2 years:

(a) Every charter contract.[1]

(b) All passenger lists including those filed by charterers.[1]

(c) Proof of commission paid to any travel agent by the foreign air carrier.[1]

---

[1] Those records which are situated in the United States shall be made available upon request by an authorized representative of the Board. Those records which are not situated in the United States shall be made available at a central location in the United States within 48 hours after receipt of a written request from the Director, Bureau of Accounts and Statistics.

V 43 / 208 OCT 26 78

(d) Every statement of supporting information.[1]

(e) The written confirmation, and accompanying passenger list, received from another carrier required under subsection 214.18(b).[1]

(b) Each foreign air carrier subject to part 214 of the economic regulations shall permit any authorized representative of the Board to make notes or copies of the above records as are considered appropriate.

§ 219.24 Preservation of records by overseas military personnel charter operators and public charter operators.

(a) Each operator authorized under parts 372 and 380 of the special regulations shall retain the following records for the retention periods specified below. The records shall be made available upon request of an authorized representative of the Board.

1. Retain for 2 years after completion of the flight or series of flights:

(a) All receipts and statements of travel agents and all other documents which evidence or reflect deposits made by each charter participant or which evidence or reflect refunds to charter participants.

[1]Those records which are situated in the United States shall be made available upon request by an authorized representative of the Board. Those records which are not situated in the United States shall be made available at a central location in the United States within 48 hours after receipt of a written request from the Director, Bureau of Accounts and Statistics.

(b) All receipts and statements of travel agents and all other documents which evidence or reflect commissions received, paid to, or deducted by travel agents in connection with the flight or series of flights.

(c) All statements, invoices, bills, and receipts from suppliers for furnishing of goods or services in connection with the tour or series of tours.

(d) All customer reservations records for each flight.

(e) All contracts with individual tour participants.

(f) All bank statements and reconciliations for escrow bank accounts opened and maintained in accordance with Board regulations.

§ 219.25 Preservation of records by air taxi operators.

(a) Each air taxi operator engaging in air transportation shall retain the following records for the retention periods specified below. The records shall be made available upon request of an authorized representative of the Board.

1. Retain for 3 years after expiration of policy:

(a) Evidence of liability insurance coverage with the attached standard endorsement at the principal place of business.

Subpart C—Regulations Relating to the Truth in Lending Act

§ 219.30 Applicability.

This subpart is applicable to all air carriers and foreign air carriers as defined in section 101 of the Federal Aviation Act of 1958, including, without limitation, direct carriers, air taxi operators authorized under part 298 of this chapter, indirect air carriers authorized under part 296 of this chapter, tour operators authorized under parts 372 and 380 of this chapter, and foreign air carriers holding permits to engage in indirect foreign air transportation issued under section 402 of the Act.

§ 219.31 Preservation and inspection of evidence of compliance.

Air carriers and foreign air carriers shall preserve evidence of compliance with the requirements imposed under regulation Z of the Board of Governors of the Federal Reserve System (12 CFR Part 226), implementing the provisions of Title I (Truth in Lending) and title V (General Provisions) of the Consumer Credit Protection Act, as amended (15 U.S.C 1601 et seq.) other than the advertising requirements under § 226.10 of regulation Z. This evidence shall be preserved for no less than 2 years after the date each disclosure is required to be made and shall be made available for inspection by authorized representatives of the Board.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

V 43 / 209 OCT 27 78

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/COAST GUARD	USDA/ASCS		DOT/COAST GUARD	USDA/ASCS
DOT/NHTSA	USDA/APHIS		DOT/NHTSA	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/OHMO	USDA/FSQS		DOT/OHMO	USDA/FSQS
DOT/OPSO	USDA/REA		DOT/OPSO	USDA/REA
CSA	CSC		CSA	CSC
	LABOR			LABOR
	HEW/FDA			HEW/FDA

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408

NOTE: As of August 14, 1978, Community Services Administration (CSA) documents are being assigned to the Monday/Thursday schedule.

federal register
Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

[6325-01-M]

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Department of Energy

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: The title of the position, Confidential Secretary to the Assistant Secretary for International Affairs, is changed to Confidential Assistant (Secretary) to the Assistant Secretary for International Affairs because the title describes the duties of the postition more appropriately. Appointments may be made to this position without examination by the Civil Service Commission.

EFFECTIVE DATE: May 4, 1978.

FOR FURTHER INFORMATION CONTACT:

James R. Edman, 202-632-4533.

Accordingly, 5 CFR 213.3331(n)(1) is amended as set out below:

§ 213.3331 Department of Energy.

• • • • •

(n) *Office of the Assistant Secretary for International Affairs.*

(1) One confidential assistant (secretary) to the Assistant Secretary.

(5 U.S.C. 3301, 3302; E.O. 10577, 3 CFR 1954-58 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc. 78-30183 Filed 10-26-78; 8:45 am]

[6325-01-M]

PART 213—EXCEPTED SERVICE

Department of Energy, National Foundation on the Arts and the Humanities

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: This amendment excepts under Schedule C certain positions at the Department of Energy and the National Foundation on the Arts and the Humanities because they are confidential in nature. Appointments may be made to these positions without examination by the Civil Service Commission

EFFECTIVE DATE: September 16, 1978

FOR FURTHER INFORMATION CONTACT:

James R. Edman, 202-632-4533.

Accordingly, 5 CFR 213.3331(i)(2) is added and 213.3382(p) is amended as set out below:

§ 213.3331 Department of Energy.

• • • • •

(i) *Office of the Assistant Secretary for Environment.* • • •

(2) One Staff Assistant to the Assistant Secretary.

• • • • •

§ 213.3382 National Foundation on the Arts and the Humanities.

• • • • •

(p) One policy and planning officer and one arts policy specialist to the Deputy Chairman, National Endowment for the Arts.

(5 U.S.C. 3301, 3302; E.O. 10577, 3 CFR 1954-58 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

PART 213—EXCEPTED SERVICE

Department of the Treasury

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: This amendment excepts under Schedule C the position of Executive Assistant to the Secretary because it is confidential in nature. Appointments may be made to this position without examination by the Civil Service Commission. This amendment also revokes the Schedule C exception for the position of Staff Assistant to the Secretary.

EFFECTIVE DATE: September 7, 1978.

FOR FURTHER INFORMATION CONTACT:

James R. Edman, 202-632-4533.

Accordingly, 5 CFR 213.3305(a)(47) is amended and (a)(81) is added as set out below:

§ 213.3305 Department of the Treasury.

(a) *Office of the Secretary.* • • •

(47) Two staff assistants to the Secretary.

• • • • •

(81) One executive assistant to the Secretary.

(5 U.S.C. 3301, 3302; E.O. 10577, 3 CFR 1954-58 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

PART 213—EXCEPTED SERVICE

National Foundation on the Arts and the Humanities

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: This amendment excepts under Schedule C certain positions at the National Foundation on the Arts and the Humanities because they are confidential in nature. Appointments may be made to these positions without examination by the Civil Service Commission. This amendment also revokes two positions of Special Assistant to the Chairman of the National Endowment for the Humanities.

EFFECTIVE DATE: August 28, 1978.

FOR FURTHER INFORMATION CONTACT:

James R. Edman, 202-632-4533.

Accordingly, 5 CFR 213.3382 (w) and (x) are added and (e) is amended as set out below:

§ 213.3382 National Foundation on the Arts and the Humanities.

* * * * *

(e) One Special Assistant to the Chairman of the National Endowment for the Humanities.

* * * * *

(w) One Assistant Chairman for Institutional Relations, National Endowment for the Humanities.

(x) One Congressional Liaison Officer, one Interagency Liaison Officer, and one Constituency Liaison Officer to the Assistant Chairman for Institutional Relations, National Endowment for the Humanities.

(5 U.S.C. 3301, 3302; E.O. 15077, 3 CFR 1954-58 Comp., p. 218.)
